Dear Rosemary Chiavetta,

C-2023-3042377

This letter signifies my denial of the written response by PAWC to the New Matter. I do not believe this information justifies a 650% rate increase when comparing 2022 versus 2023 sewer charges. This increase equates to a \$3,600 annual sewer fee in 2023 for a family of 3 compared with a rate in 2022 of \$480 dollars annually. This rate increase means that people in the Upper Lackawanna Sewer Authority pay \$3,296 more than a similar family who pays the highest amount possible (\$304 per year) in the Lower Lackawanna sewer Authority.

CC: Michael A. Gruin

Very truly yours,

Dominick York
