RE: Letter of Notification of PECO Energy Company for approval to Replace Existing Transmission Line Structures in East Fallowfield Township and the City of Coatesville, Chester County, Pennsylvania  
Docket No. A-2022-3030419; Utility Code: 110550

Dear Secretary Chiavetta:

On April 14, 2022, the Commission issued an Order approving the above-captioned Letter of Notification related to replacing five transmission structures on PECO Energy Company's (PECO or the Company) 130-54 transmission line. The Commission ordered, "That upon completion of the subject project, PECO Energy Company shall submit the final project cost to the Commission."

On April 15, 2022, PECO filed a letter with the Commission explaining that the outage scheduled for April 2022 had to be rescheduled due to a transformer failure, and the project eventually went in service on December 13, 2022. PECO subsequently notified the Commission's Bureau of Technical Utility Services that the Company would be delayed in filing cost information because while the 130-54 line site restoration had been performed, the NPDES permit closure could not occur until after one growing season.

Such growing season has now passed, and PECO hereby submits the required cost information. In its LON, the Company estimated a project cost of \$2.5 million. The work was completed at a cost of \$2,396,697.

Rosemary Chiavetta, Secretary
