1. Reference Penelec's I&M Plan, Vegetation Management Section

- a. The Commission notes that, as shown in the last three Joint Annual Reliability Reports for the FirstEnergy Companies,¹ which includes Penelec, Penelec's reliability performance has not improved and CAIDI, SAIDI and SAIFI have worsened over those last three years. CAIDI, SAIDI and SAIFI are above the 3-year Standard for 2020, 2021 and 2022. Provide a detailed explanation of how the proposed four-to-eight-year cycle clearance will improve reliability performance.
- b. Provide a copy of the vegetation management work practices or procedures, including trimming and herbicide specifications, for Penelec.

2. Reference Penelec's I&M Plan, Distribution Overhead Line Inspections Section
