

EXHIBIT F2

ADDENDUM TO INTER MUNICIPAL SEWAGE AGREEMENT

THIS AGREEMENT, made this 23rd day of December, 1998, by, between and among:

BOROUGH OF GREENVILLE, a municipal corporation of Mercer County, Pennsylvania, hereinafter referred to as "Borough", party of the first part;

AND

GREENVILLE SANITARY AUTHORITY, a municipal authority incorporated under the Municipal Authorities Act of 1945, as amended, hereinafter referred to as "Greenville Authority", party of the second part;

AND

THE TOWNSHIP OF WEST SALEM, a second class township of Mercer County, Pennsylvania, hereinafter referred to as "Township", party of the third part;

AND

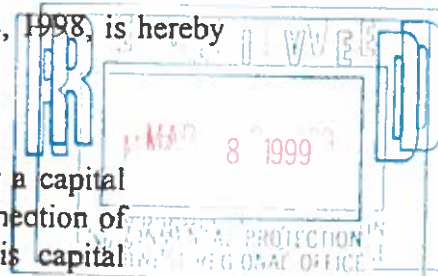

WEST SALEM TOWNSHIP MUNICIPAL SEWAGE AUTHORITY, a municipal authority incorporated under the Municipal Authority Act of 1945, as amended, hereinafter referred to as "West Salem Authority", party of the fourth part.

WHEREAS, the parties hereto entered into an Inter Municipal Sewage Agreement dated October 28, 1998; and, the parties now wish to amend subparagraph (e) of Article V of said Agreement.

NOW, THEREFORE, in consideration of the mutual covenants herein contained and intending to be legally bound hereby, the respective parties hereto, their successors and assigns, do agree as follows:

1. Subparagraph (e) of Article V of the Agreement of October 28, 1998, is hereby rescinded; and, in substitution thereof shall provide as follows:

"(e) Each user, or EDU, in West Salem Township shall pay a capital contribution to Greenville Authority of \$1,200.00 upon the connection of such user to the West Salem sewer collection system. This capital contribution shall be collected by the Township and paid to the Borough

within thirty (30) days after the connection permit is granted by the Township and/or West Salem Authority to each user of the system. The Township shall pay interest to the Borough at the rate of fifteen percent (15%) per annum for any capital contributions not paid within the time limits herein provided.”

2. Subparagraph (3.2) of Article III of the Agreement of October 28, 1998, is hereby rescinded; and, in substitution thereof shall provide as follows:

“(3.2) The average daily flow, over a consecutive three (3) month period, required to be accepted by the Greenville Authority from West Salem Authority shall not exceed the approved wastewater generated by the current construction contemplated by West Salem Authority, which is a maximum of three hundred sixty (360) equivalent dwelling units, each of which shall produce a maximum daily wastewater flow of four hundred (400) gallons per day; and, the average daily flow of approved wastewater which must be accepted by Greenville Authority from West Salem Authority at any connection point or pump station shall not exceed the flow that would be produced by the number of equivalent dwelling units tributary to the connection point times 400 gpd per EDU, the basis of these flows to be determined from recording flow meters. West Salem Authority must first make a written request and obtain the consent of Greenville Authority before any additional connections are made to the sewage collection system of West Salem Authority in excess of the three hundred sixty (360) equivalent dwelling units included in the current construction project of West Salem Authority. Provided adequate capacity exists at the wastewater treatment plant at the time of such request, Greenville Authority shall grant such request but the actual connection to the system must be made within six (6) months of the date of any consent given by the Greenville Authority.”

3. The parties hereto otherwise hereby ratify and reaffirm the provisions of the referenced Agreement of October 28, 1998.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their officials duly authorized by proper corporate resolutions, as reference to the minutes of the meetings of said parties shall disclose, each intending to be legally bound hereby.
