Re: Victoria Whitaker V PGW

C-2022-3035783

Hearing Date; 12/7/2023 at 10AM

Dear Judge F. Joseph Brady,

I am requesting a continuance on the above case based on the difficulty in receiving documentation germane to this case by the hearing and to submit timely for all parties to review. I had to reach out to the IRS to provide my tax return from the years to show that financially I was eligible for programs and that could not be sent to me electronically. Additionally, I would prefer to have legal representation for this hearing and attorneys were not available after the holiday but do have availability in the upcoming year. It is my hope that based on these circumstances that beyond my control that all parties would agree to a continuance for sometime in the January of 2024. However, if that is not possible I would be open with representation to formulate a plan that works.

In Addition, since the last hearing the grant funds discussed were sent to PGW which where distributed in the amount of \$3,892.66 on around 9/29/2023 which brought down the amount owed.

Based on the reason stated above I am asking for a continuance so that I can adequately and succinctly provide all the evidence needed in this case.

Sincerely

*Victoria Whitaker*
