**BEFORE
THE PENNSYLVANIA PUBLIC UTILITIES COMMISSION**

RE: Application of Comcast Cable Communications Management, LLC, for Approval of the Installation of New Overhead Communications Facilities at a Highway and Railroad Crossing of the National Railroad Passenger Corporation and Pennswood Road located in Bryn Mawr, Lower Merion Township, Montgomery County, Pennsylvania.	: : : : : : : : : : :	Docket No. _____ Comcast No. JB0001648851
---	---	--

To the Pennsylvania Public Utility Commission:

Comcast Cable Communications Management, LLC (“Comcast Cable” or “Applicant”), requests that the Pennsylvania Public Utility Commission (“Commission”) approve Comcast Cable’s Application for a rail crossing pursuant to Section 2702(a) of the Pennsylvania Public Utility Code, 66 Pa.C.S. § 2702(a). In support thereof, Comcast Cable submits as follows:

1. The name and address of Applicant:

Comcast Cable Communications Management, LLC
1701 John F Kennedy Boulevard
Philadelphia, PA 19103

2. The name and address of Applicant’s attorney:

Comcast Cable Communications Management, LLC
1701 John F Kennedy Boulevard
Philadelphia, PA 19103
ATTN: General Counsel
Legal_Notices@comcast.com

3. Comcast Cable is a video, internet, and phone service provider in the Commonwealth of Pennsylvania. As such, Comcast Cable has the right to install and maintain its facilities at railroad crossings to provide reliable service to its customers in the Commonwealth of Pennsylvania.

4. The proposed installation will be a new communications wireline at an above grade rail crossing located on Pennswood Road, Bryn Mawr, Montgomery County, Pennsylvania, at the road’s crossing of the railroad facilities of the National Railroad Passenger Corporation (“AMTRAK”) located between existing wooden utility pole #1471 and existing wooden utility pole #1470 as shown in Exhibit A. Railroad facilities will not be disturbed during construction of Comcast Cable’s communications wireline. Construction of this facility is anticipated to begin as soon as approval is obtained. Construction will take approximately one (1) day to complete.

5. The cost of the construction of the communications wireline is approximately one thousand dollars (\$1000.00). Comcast Cable will bear the cost of this construction. Comcast Cable will be responsible for installing, maintaining, and inspecting the facilities.

6. The parties that may be affected by the proposed facilities are as follows: the Pennsylvania Department of Transportation, Montgomery County, Bryn Mawr, Lower Merion Township, Pennsylvania, AMTRAK, PECO Energy Company. The Applicant has served a copy of this Application upon the parties referenced, as shown on the attached Certificate of Service.

7. The installation of the new facility will be used to boost and extend Comcast Cable's service in the immediate and surrounding area. The proposed midspan clearance height over and across AMTRAK property and Pennswood Road leaves ample space for train, traffic, and pedestrian operation.

WHEREFORE, Comcast Cable Communications Management, LLC, requests that the Pennsylvania Public Utility Commission approve the rail crossing described herein on or before December 31, 2023.

Respectfully submitted,

Dated: December 18, 2023
