Re: Periodic Review of PECO Energy Company's Long-Term Infrastructure Improvement Plan for its Electric Operations.

Dear Mr. Webster:

The Commission is required to review a utility's Long-Term Infrastructure Improvement Plan (LTIP) periodically, but at least once every five (5) years.¹ Unless otherwise directed, the review shall begin at the midpoint of the term of the current LTIP. PECO Energy Company's (PECO) current LTIP for its electric operations began with calendar year January 1, 2021, and thus the midpoint is approximately July 1, 2023.

PECO is hereby notified that the Commission will begin the review of its LTIP on January 5, 2024, at the above captioned docket number. The Commission's review will determine:

1. If PECO has adhered to its LTIP.
2. If changes to the LTIP are necessary to maintain and improve the efficiency, safety, adequacy, and reliability of PECO existing distribution infrastructure.

Upon completion of the review, the Commission shall issue an Order with a determination of whether or not PECO has adhered to its LTIP and if any changes to the LTIP are necessary. The Commission will direct PECO to revise, update, or resubmit its LTIP as appropriate if it determines PECO's approved LTIP is no longer adequate to ensure and maintain efficient, adequate, safe, reliable and reasonable service. Upon such a determination, PECO may elect to withdraw its LTIP rather than comply with the Commission's direction. PECO's approved distribution system improvement surcharge (DSIC) mechanism would immediately terminate upon such a withdrawal.

To aid in its review the Commission is establishing a thirty (30) day comment period beginning from the date of this letter and a twenty (20) day reply comment period.² A copy of this letter has been served upon the statutory advocates, the Bureau of Investigation & Enforcement, and

² 52 Pa. Code § 121.7(c).

the parties of record from PECO's most recent base rate case proceeding, consistent with the LTIP filing and review procedures.³ For comments, the Commission strongly encourages submission through efilng with the Secretary of the Commission by opening an efilng account through the Commission's website and accepting eservice at <https://efiling.puc.pa.gov>. The Commission is accepting all public documents through our efilng system at this time.

If you have any questions regarding this matter, please contact Harry R. Bidelspach Sr. in the Bureau of Technical Utility services at hbidelspac@pa.gov, or 717-425-7401.

Sincerely,

Rosemary Chiavetta
Secretary
