DESIGNED FOR PEOPLE. DESIGNED FOR YOU.

HRG assists with the planning, design, and management of communities. We optimize places for health, prosperity, and enjoyment with a focus on long-term value.

HEALTH

Ensuring water is clean and safe for drinking, and people can navigate the community without accident.

PROSPERITY

Promoting economic development, opportunity, and long-term financial sustainability

ENJOYMENT

Providing spaces for recreation, entertainment, togetherness, and relaxation.

We believe the purpose of our work is to enhance the well-being of people – our clients, the community, and our employee-owners – so we center them in our approach. We take the time to know our clients and their entire organization. We embed ourselves in the community by sponsoring local events, volunteering, and serving on local boards. We connect with customers and constituents, build relationships with stakeholders, and cultivate partnerships to create new possibilities.

We take our work seriously, and we set a high standard for quality and reliability. But we also enjoy our work, and we want people to enjoy working with us. We communicate openly and honestly; we anticipate their needs before they've even had the chance to verbalize them, and we take care of the details so they can relax and trust in the process. We're friendly and good-humored, and we're genuinely concerned about our clients and the people they serve.

We think about how their staff will manage operations after a project is completed. We think about how their customers and constituents will benefit. We think about the impact our work will have on people long after plans are delivered.

We also think about the people who create the work: our employee-owners. We give them the freedom and flexibility to pursue their passions in and outside the office.

We support their professional development through training and mentorship. We cultivate a fun and collaborative atmosphere, and we prioritize their well-being in every decision we make as a company.

Before our first day in business, our founders set out to establish a workplace that was enjoyable for all: "clients, employees, and owners alike." In 2008, we became an ESOP, and the line between employee and owner disappeared. We wanted the company to belong to the people who built it. From Day 1, we've always been a company that was designed for people: the people who work here, our clients, and the stakeholders they serve. We'd love to design with you!

SCHEDULE G – RELEVANT EXPERIENCE & CLIENT LIST

RELEVANT EXPERIENCE

During Herbert, Rowland & Grubic, Inc.'s (HRG) sixty plus year history, our professionals have successfully delivered engineering and financial solutions to diverse clients throughout the Mid-Atlantic region. Our team of professionals have engineering, accounting and related backgrounds, allowing us to fully integrate engineering and financial principles to achieve an in-depth, comprehensive utility analysis. We have experience designing, implementing and operating water and wastewater distribution, collection, conveyance and treatment facilities and have assisted a wide range of municipal and authority clients in: 1) weighing advantages and disadvantages of selling or leasing their utilities, 2) providing valuation of facilities for selling or leasing to private companies or other authorities, and 3) assisted in sale or lease negotiations on behalf of our clients.

Combining this experience and knowledge allows us to not only apply industry standards, but to evaluate the fair value of the utility using various industry approved methods including cost, market, and income approaches. This provides a more balanced range of values that will be used to determine the utility's fair market value.

EXTENSIVE FINANCIAL SERVICES EXPERIENCE

The extensive background of our project team yields over 80 years of experience in engineering and financial consulting and includes the following financial services:

- Utility Valuation Studies
- Revenue Requirement Studies
- Cost of Service Studies
- Utility Rate Studies and Long-Term Capital Financing Plans
- Rate Design Bond Feasibility Studies
- Capital Charge Studies
- Expert Testimony on Charge Related Matters
- Tax Exempt Bonds, Bank Loans and other Agency and Developer Financings
- Grant Administration and Compliance
- Comprehensive System Reviews
- Economic Impact/Feasibility Studies
- Utility Accounting and Budgeting
