**EXHIBIT A**

**Amendment to Page 2 of Petition of PECO Energy Company to Modify Its Default  
Service Supplier Master Agreement**

In order to provide adequate notice to potential bidders in PECO's next default service procurement scheduled for March 2024, the Company is seeking expedited approval of the addition of Appendix I to the DSP V SMA on or before the Commission's public meeting scheduled for February 1, 2024. In support of its request, PECO submits as follows:

1. PECO is a corporation organized and existing under the laws of the Commonwealth of Pennsylvania with its principal office in Philadelphia, Pennsylvania. PECO provides electric delivery service to approximately 1.7 million customers.
2. PECO is an electric distribution company ("EDC") as defined in the Pennsylvania Public Utility Code,<sup>1</sup> and is the default service provider within its service territory for retail customers who do not choose an alternative electric generation supplier ("EGS") or whose EGS fails to provide service.
3. On March 13, 2020, PECO filed the above-captioned Petition, requesting that the Commission approve DSP V for the period from June 1, 2021 through May 31, 2025. A Joint Petition for Partial Settlement ("Joint Petition") was filed on August 13, 2020, which detailed the settlement reached among most of parties<sup>2</sup> (the "Settlement") and reserved two items for litigation.<sup>3</sup>

---

<sup>1</sup> 66 Pa.C.S. § 2803.

<sup>2</sup> The Sierra Club/PA Chapter, the Clean Air Council, and the Philadelphia Solar Energy Association (together, the "Environmental Stakeholders") opposed the Settlement because they believed PECO did not adequately evaluate the possible inclusion of long-term renewable energy contracts and procurement from distributed energy resources. StateWise Energy Pennsylvania LLC and SFE Energy Pennsylvania, Inc., did not join or oppose the Settlement. All other parties to the proceeding joined the Settlement.

<sup>3</sup> The items reserved for litigation involved how PECO's time-of-use rate implementation costs should be allocated to the eligible procurement classes and (2) whether PECO should acquire Network Integration Transmission Service for all customer load and recover the associated PJM charges from all distribution customers on a non-bypassable basis.

## VERIFICATION

I, Sulma Dalessio, hereby declare that I am the Director of Energy Acquisition for PECO Energy Company; that, as such, I am authorized to make this verification on its behalf; that the facts set forth in the foregoing Petition are true and correct to the best of my knowledge, information and belief; and that I make this verification subject to the penalties of 18 Pa.C.S. § 4904 pertaining to false statements to authorities.
