

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION
An administrative tribunal of employees for legal entity regulation

Nancy Colbert, one of the People
in the Commonwealth of Pennsylvania

v.

C-2022-3036933

PECO Energy Company

JUDICIAL NOTICE

Pursuant to the call for “experts” in light of this nation’s Declaration of Independence and Constitution

Here the self-made elitists, in their own regulatory world, use the "experts" to torture non-commercial People as if they had a lawful, legislatively-delegated authority over them to rule. First, they excommunicate any expert not a “true believer” of their dogma upon which they set their agenda of controlling aspirations. Next, they pay for those experts who have joined their dogma to believe the "science is settled" enough to then evangelize to the “sheep” that no precautionary principle is necessary, and to fortify their faith that their almighty force against non-commercial People divinely works. In this secret religion, they have unhitched their minds and crushed their hearts from the moorings of universal morality to which humanity has ascended as in Classical and Enlightenment periods of sanity, captured by Aristotle, Cicero, Locke, Algernon Sidney, De Vattel and Montesquieu upon whom the Founding Fathers drew. No wonder George Washington and John Adams among other common sense folk said this

American Experiment requires morals in order to sustain itself. No surprise then the current world is purposely rendered unsustainable (e.g. 5G Internet of Things) in the name of "sustainability (e.g. Energy Efficiency and Conservation)". Public officials granted themselves authority to rule in defiance of social contract. Having deemed accountability irrelevant, they think their arbitrary proclamations cloaked in invisible deals of underworld magic proceeds well --- all to make final beds of their own hellfire and brimstone coals to lie in, blanketed by their belief in lies.

WHEREFORE, take notice this special appearance Complainant provides no consent to any call for "experts" and remains standing in the Truth of Natural Rights, Popular Sovereignty, and the Rule of Law established in the first sentences of the Declaration of Independence and the Constitution to which the People consented in advance to structure the limits upon government which avoid executive tyrants, and to provide greater safety and security (that any trespassing technology violates) ---- concepts that are addressed in Philadelphia at the Constitution Center down the road from PECO, or can be viewed in one of the CEO's videos from his Constitution 101 Curriculum, the module "Principles of the American Revolution." <https://constitutioncenter.org/education/constitution-101-curriculum> (*Ben Franklin would be glad*)....

Respectfully submitted,

/s/ Mrs Nancy Colbert
