Re: Application to Renew Registration as a Conservation Service Provider

Dear Mr. Giarrusso:

On February 16, 2024, Applied Energy Group, Inc. filed an incomplete application to renew registration as a Conservation Service Provider (CSP) with the Pennsylvania Public Utility Commission. On March 20, 2024, Applied Energy Group, Inc. filed documents to complete the application. A CSP must renew registration every two years to remain on the registry. The most recent registration for Applied Energy Group, Inc. is March 18, 2022.

A registered CSP can advise an electric distribution company (EDC) and/or provide consultation, design, administration, or management services to an EDC related to the EDC's energy efficiency and conservation plan. Upon review, it appears that the applicant continues to meet the Pennsylvania Public Utility Commission's minimum qualifications to provide consultation, design, administration, management, or advisory services to an EDC regarding energy efficiency and conservation plans required under Act 129 of 2008, P.L. 1592.

Therefore, effective March 18, 2024, registration for Applied Energy Group, Inc. with the Pennsylvania Public Utility Commission's Registry of Conservation Service Providers is renewed for two more years with a new **expiration date of March 18, 2026**. In addition, the applicant is advised that if any information in the application changes, a written notice of said change shall be filed with the Commission within 45 days of the change.

This approval is not meant to constitute a license, certification, or warranty of any kind by the Pennsylvania Public Utility Commission.

Please direct any questions to Charles Covage, Bureau of Technical Utility Services at 717-783-3835.

Sincerely,

A handwritten signature in black ink that reads 'Rosemary Chivetta'. The signature is fluid and cursive, with the first name 'Rosemary' being more prominent.
