**Bill Account Number:**

"

Dear CYNTHIA SENSENIG:

On 12/05/2023, you contacted us about the amount of your bill for electric use through 12/05/2023.

At that time, we asked you questions about the size of your home, the number of residents, heating, air conditioning, and appliances, to better understand your usage.

We also confirmed this bill was based on actual electric use and verified the meter data.

You still had some concerns with the amount of the bill, so we offered to test the accuracy of the electric meter at your home. You accepted and paid \$35 for this service.

We tested your meter on 03/14/2024, and have included the results with this letter. Our test confirmed that your meter was accurately recording your electric use and your bill is correct.

If you'd like to monitor your daily usage, you can do so on our website. Sign into your online account at [pplelectric.com](http://pplelectric.com) or create a new one in three easy steps. This can help you track trends or spikes in your electric use and find ways to save energy.

We have enclosed a statement of your account as a reference. Your account balance is \$922.97 and will become past due on 03/31/2024.

If you're unable to pay your full account balance by the due date, we can set up a payment arrangement to spread the cost out over time. It's easy and quick to set up a payment arrangement online at [pplelectric.com/billhelp](http://pplelectric.com/billhelp), over our automated system or by speaking with a representative at 1-800-342-5775.

You can also make payments at [plelectric.com](http://plelectric.com), at an authorized bill payment center, or mail a check to PPL Electric Utilities, P.O. Box 419054, St. Louis, MO 63141.

Thank you for being a valued customer.

Sincerely,

**PPL Electric Utilities**
