Re: Petition of The Pittsburgh Water and Sewer Authority for Approval of its Lead Service Line Replacement Program – Docket No. P-2024-3046468

Dear Secretary Chiavetta:

Enclosed for electronic filing please find The Pittsburgh Water and Sewer Authority's ("PWSA") Responses to the Bureau of Technical Utility Services' ("TUS") Data Requests, Set I in the above-referenced matter. Please be advised that TUS granted PWSA an extension of time to respond to these requests to April 8, 2024.

Copies to be served in accordance with the attached Certificate of Service.

Sincerely,
Sarah C. Stoner
Sarah C. Stoner

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-1 Appendix A of PWSA's Petition for Approval of its Lead Service Line Replacement Program (LSLR Program) included a copy of PWSA's Lead Service Line Replacement Plan (LSLR Plan). In Section III, Paragraph 19, of the LSLR Program, PWSA indicated that its Lead Infrastructure Plan provides for the replacement of non-residential LSLs in certain circumstances. Additionally, in Section IV, Paragraph 23.g., of the LSLR Program, PWSA indicated that if PWSA were to expand its lead service line replacement (LSLR) efforts for non-residential customers in this LSLR Plan, it would inhibit PWSA's ability to meet its previous goal of replacing remaining residential LSLs in its system by the end of 2026. Further, PWSA indicated that it would subsequently update its LSLR Plan to expand LSLR efforts for non-residential customers. However, 52 Pa. Code § 65.52 defines a Customer as a party contracting with an entity for service. The Commission notes that an entity's LSLR plan shall include a plan for the replacement of all lead service lines (LSLs) connected to its water system regardless of the entity's classification of the Customer. Please submit a revised LSLR Plan that addresses the replacement of all LSLs connected to the system inclusive of all customer classes.

Response: Per the discussion in Section 3 of the LSLR Plan the heading of which is "Non-Residential LSLs", PWSA will replace all LSLs within the water distribution system in accordance with the Commissions regulations – i.e., within 30 years. Once the residential service lines are removed, a more detailed understanding of the remaining work will be understood, and a more specific timeframe will be developed.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-2 The LSLR Plan's Appendix A included a copy of PWSA's Service Line Inventory (SL Inventory). In Section 2.1 of the LSLR Plan, PWSA indicated its SL inventory complies with the United States Environmental Protection Agency (EPA) regulations at 40 CFR §§ 141.1-143.20, both in terms of substance and in timing and direction. However, for each identified service line, PWSA's SL Inventory does not identify the estimated date range of when the service line was installed, the specific method used to determine the material of each service line, and whether the material identification was field verified. Specifically, the EPA's Inventory Template provided at https://www.epa.gov/ground-water-and-drinking-water/planning-and-developing-service-line-inventory includes the collection of the aforementioned information in the Detailed Inventory tab of the Inventory Template. Recognizing PWSA's inventorying efforts are still in progress, please submit a revised SL Inventory that includes all data fields for each service line PWSA intends to provide to the EPA by the October 16, 2024 deadline.

Response: Given that the Pennsylvania Department of Environmental Protection (PADEP) is the primary agency enforcing the Lead and Copper Rule Revisions (LCRR) within the Commonwealth and because US EPA's template is only a guide, PWSA's inventory submittal will be made to PADEP in accordance with PADEP requirements, which differ from the requirements imposed by US EPA. The data, information, and spreadsheet to be submitted is still under development at PWSA and will be provided to the PUC concurrent with PWSA's October 16, 2024 submittal to PADEP or sooner if finalized before that submittal.

The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-3 In Section 2.2 of the LSLR Plan, PWSA indicated that its inventory project initially focused on residential public side service lines and was subsequently expanded to include residential and non-residential public and private side service lines. Additionally, in Section 2.6 of the LSLR Plan, PWSA indicated its efforts to refine and update the SL Inventory are currently ongoing. Please provide responses to the following:

a. Confirm PWSA's SL Inventory includes all residential and non-residential public and private side service lines;
b. Submit a revised Table 1, as shown in the LSLR Plan's Section 2.6, to include a breakdown of PWSA's SL Inventory, as of February 2024, by residential and non-residential customer classes;
c. Provide a projected date by which PWSA expects to have a completed SL Inventory; and
d. Submit a copy of PWSA's SL Inventory in a live electronic spreadsheet format.

Response:

a. Confirmed.

b. See the Revised Table 1 below:

Material	Public Side		Private Side	
	Residential	Non-Residential	Residential	Non-Residential
Non-Lead	50967	0	41527	2799
Lead	8814	0	18502	2766
Galvanized Iron	7	0	6642	501
Unknown	11392	0	4358	3621
Total	71180	0	71029	9687

c. October 16, 2024.

d. See attached Excel file of PWSA's SL Material Inventory as of the end of March 2024.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-4 In Section 2.6 of the LSLR Plan, PWSA estimated that it has approximately 5,860 public and 9,100 private LSLs remaining (Remaining LSLs) in the PWSA water system. Please provide responses to the following:

a. Clarify whether the Remaining LSLs include all residential and non-residential customers;
b. Provide a breakdown of the Remaining LSLs by customer class and public and private side; and
c. If the Remaining LSLs do not account for non-residential customers, provide a revised estimation of the Remaining LSLs that includes all residential and non-residential customers and their service lines, broken down by customer class and public and private side.

Response:

a. The number of Remaining LSLs listed in Section 2.6 is an estimate for residential-only locations.

b. See the response to (a) above.

c. To determine the number of residential LSLs remaining in the system, PWSA engaged a consultant during the inventory development in 2018 – 2020 to conduct a statistical analysis of the amount of lead expected based on data contained in the records and what was excavated during LSLR programs. This effort has not been expanded to non-residential locations. Furthermore, non-residential service lines are owned in their entirety by the property owner, therefore there is only a 'private side' associated with these service lines.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-5 In Section 3.5.1 of the LSLR Plan, PWSA indicated that it is replacing non-residential LSLs as part of its 2022 Priority LSLR Program and at any non-residential location within a project area that is replacing water mains. However, PWSA's Tariff Supplement does not identify that PWSA will complete non-residential LSLRs other than LSLRs involving certain residences, PWSA's Small Diameter Water Main Replacement Program, and in certain emergencies. Please provide responses for each of the following:

a. Submit a revised Tariff Supplement that conforms with PWSA's LSLR Plan, to include LSLRs for non-residential customers in areas where PWSA is replacing water mains; and
b. Confirm that PWSA's revised Tariff Supplement allows PWSA to remove and replace all non-residential LSLs in compliance with 52 Pa. Code § 65.53(a).

Response:

a. PWSA's tariff already includes language providing for LSLRs for non-residential customers in areas where PWSA is replacing water mains. See PWSA Tariff Water – Pa. P.U.C. No. 1 at Page No. 65, Section 3.a.(i).

b. PWSA's Tariff Supplement submitted as Appendix C to its LSLR Plan allows PWSA to remove and replace non-residential LSLs in compliance with 52 Pa. Code § 65.53(a). The Tariff Supplement provides that PWSA "will replace Customer Lead Service Lines pursuant to its Lead Service Line Replacement Plan…" (Page No. 64, Section VI.2.a). The Tariff Supplement defines a "Customer Lead Service Line" to include non-residential LSLs (Page No. 63, Section VI.1.c).

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-6 In Section 4.1 of the LSLR Plan, PWSA projected performing 2,000 Authority-owned and 3,100 customer-owned LSLRs on an annual basis and indicated an annual cap of 4,000 customer-owned LSLRs. However, 52 Pa. Code § 65.56(b)(2) requires that an entity's LSLR Plan include a projected number of LSLRs per calendar year with an explanation of how the entity's projection was determined and a statement that this number is consistent with the entity's annual cap on LSLRs. PWSA's LSLR Plan did not include a statement that the number of planned customer-owned LSLRs per year is consistent with PWSA's annual cap. Please provide a revised LSLR Plan that complies with the requirements of 52 Pa. Code § 65.56(b)(2).

Response: As PWSA is projecting to replace 3,100 customer-owned LSLRs on an annual basis. This is based on our goal to replace all remaining residential LSLs by 2026 by replacing an average of 3,100 customer-owned LSLRs a year. That figure is obviously consistent with (and falls under) a proposed annual cap of 4,000 customer-owned LSLRs per year. PWSA's understanding is that this matter has been referred to the Office of Administrative Law Judge, and PWSA's position is that it is not necessary to file a revised LSLR Plan at this time. PWSA will file a revised LSLR Plan as necessary after the Commission issues a final order in this proceeding.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-7 In Section 5.3.2, Stand-in-the-Shoes Rights, of the LSLR Plan, PWSA indicated that it may stand in the shoes of the property owner to replace a Customer-Owned Lead Service Line when certain conditions have been met as described therein. Please provide responses to the following:

a. Explain the legal standard under which PWSA would be permitted to complete a LSLR under the identified conditions and how PWSA would assign ownership of the LSLR to the property owner if a LSL is replaced under these circumstances;
b. Explain whether PWSA has determined, in lieu of proceeding with an unauthorized LSLR on private property, whether the Customer, who is not the property owner, can accept an offer for a LSLR at no direct cost under the Customer's ability to repair the premises;
c. Identify any alternative process PWSA could implement to avoid termination of service when a property owner who is not the customer is nonresponsive to PWSA's offer to replace a customer-owned LSL other than Stand-in-the-Shoes; and
d. Quantify the number of LSLRs that PWSA has completed using the Stand-in-the-Shoes premise broken down by year.

Response:

a. See First Revised Page No. 69 of PWSA's Commission-approved Tariff Water – Pa. P.U.C. No. 1 which reflects the same procedures regarding stand-in-the-shoes rights as set forth in Section 5.3.2. of PWSA's proposed LSLR Plan. First Revised Page No. 69 (contained in Supplement No. 6) was accepted by Secretarial Letter dated May 20, 2021 at Docket No. M-2018-2640802.

The stand-in-the-shoes procedure in the context of replacement of customer-owned LSL was established by the Commission in two orders. In *Implementation of Chapter 32 of the Public Utility Code Regarding Pittsburgh Water and Sewer Authority - Stage 1,* Docket Nos. M-2018-2640802, et. al., Order entered February 4, 2021, the Commission directed as follows:

> [I]f a landlord declines to permit the PWSA to replace the private-side LSL, it will likely create a condition of the customer service line such that there is a risk to the public health or safety of the tenants becoming subject to service termination for reasons not within their control. As such, we request the Authority to develop and submit appropriate Tariff language that would provide the PWSA with **step-in rights** to make the necessary replacement of the private LSL where a landlord is nonresponsive to the pre-termination notice procedures. Such **step-in rights** would be intended to avoid service termination to the PWSA's tenant-customers due to circumstances beyond the tenants' control – that is, due to the landlord standing in the way of the tenants receiving safe service.

> Order at pp. 31-32 (emphasis added).

Subsequently, in its *Final Rulemaking Order in the Rulemaking to Implement Act 120 of 2018 at 52. Pa. Code Chapters 65 and 66*, Docket No. L-2020-3019521, Order entered March 14, 2022, the Commission again addressed the issue of replacements of customer-owned LSLs in the situation where the property owner is not the customer and is not responsive to a utility's offer to replace the LSL. In its Final Rulemaking Order, the Commission stated:

> We recognize that entities may wish to proceed with replacements necessary to avoid a partial LSLR resulting in termination in situations where the property owner is not the customer and is nonresponsive to the entity's offer to replace a customer-owned LSL. Thus, we will revise Section 65.58(c) by adding a provision regarding an entity's process to address such situations. This provision will allow an entity to propose in its tariff language specifying the entity's process to address replacement of a customer-owned LSL to avoid termination of service when a property owner who is not the customer is nonresponsive to the entity's offer to replace the LSL. For instance, an entity should specify whether it will exercise **step-in rights** to make necessary replacements of a customer-owned LSL to avoid termination of service when a property owner who is not the customer is nonresponsive to an entity's offer to replace a customer-owned LSL.
>
> Final Rulemaking Order at 52-53 (emphasis added).

PWSA's assignment of ownership of the LSLR to the property owner pursuant to the stand-in-the-shoes procedures is based on the above-referenced Commission Orders and PWSA's Commission approved-Tariff.

b. PWSA's processes are long-established to ensure that obligations regarding the property remain with the property owner. PWSA cannot opine on whether a tenant may accept an offer for a LSLR at no direct cost under the "customer's ability to repair the premises" as that ability could vary based on the terms of a lease agreement between the landlord and tenant.

c. PWSA has not been able to identify any alternative process to avoid termination of service when a property owner who is not the customer is nonresponsive to its offer to replace a customer-owned LSL. Note that the only terminations PWSA has conducted since April 5, 2021 have been properties that are vacant.

d. PWSA has not completed any LSLRs using the Stand-in-the-Shoes premise.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-8 In Section 5.4.3 of the LSLR Plan, PWSA provided details of various information and outreach elements included in its lead website (LSLR Website) at https://lead.pgh2o.com. While PWSA's LSLR Website identifies completed and future LSLR project areas, it does not include a schedule or an indication of the planned timeframe for the future LSLR project areas. Additionally, PWSA's LSLR Website includes information regarding the reimbursement requirements. However, the LSLR Website does not include a secure online tool that provides customers or property owners, if the customer is not the property owner, the ability to determine whether the customer or property owner may be eligible for reimbursement. Please provide responses to the following:

a. 52 Pa. Code § 65.56(c)(2)(i) requires that an entity's LSLR Section of its website include an online tool describing the replacement schedule by geographic location, at least six months into the future. Please revise the PWSA LSLR Website to include the information required by 52 Pa. Code § 65.56(c)(2)(i), or revise the LSLR Plan to indicate that the information required by 52 Pa. Code § 65.56(c)(2)(i) will be added to the website within 12 months of Commission approval of the LSLR Program; and

b. 52 Pa. Code § 65.56(c)(2)(ii) requires that an entity's LSLR Section of its website include information regarding the reimbursement requirements and a secure online tool that provides customers or property owners, if the customer is not the property owner, the ability to determine whether the customer or property owner may be eligible for reimbursement. Please revise the PWSA LSLR Website to include the information required by 52 Pa. Code § 65.56(c)(2)(ii), or revise the LSLR Plan to indicate that the information required by 52 Pa. Code § 65.56(c)(2)(ii) will be added to the website within 12 months of Commission approval of the LSLR Program.

Response:

a. PWSA's website includes a Project Location Web Application that details planned or active lead service line replacement areas for at least six months into the future. See https://www.pgh2o.com/projects-maintenance/search-all-projects#n. PWSA's website also provides a narrative description of current lead line replacement projects. The website provides information regarding each project location, schedule, progress and status. See https://www.pgh2o.com/projects-maintenance/lead-line-replacement-programs. PWSA is in the process of updating the narrative description of lead line replacement projects on its website.

b. PWSA's LSLR website already includes a chart which serves as a simple tool to allow customers or property owners to determine the level of reimbursement for which they are eligible. PWSA's reimbursement program is not limited to a project area or specific time period, so household income is the only factor determining the level of reimbursement. Based on the number of people in the household and the household income, the chart shows whether the customer or property owner will be eligible to be reimbursed for 100%, 75%, or 50% of costs, or receive a $1,000 stipend. See https://lead.pgh2o.com/leadreimbursement/.

   Note that PWSA has filed a Petition for Waiver seeking to continue its existing Commission-approved reimbursement program, which does not limit the availability of reimbursements to a project area or time period.

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-9 The LSLR Plan's Appendix E included a copy of a Reference Key for LSLR Regulatory Requirements (Reference Key). The Reference Key's Page 1 referred to the LSLR Plan's Section 5.3.2, Page 32 for demonstrating compliance with 52 Pa. Code § 65.56(b)(10)(i). However, the LSLR Plan's Section 5.3 does not appear to include the provision of a complete disclosure to Customers of the known health hazards for the continued use of a LSL. 52 Pa. Code § 65.56(b)(10)(i) requires an entity to provide the customer and property owner, if the customer is not the property owner, with a complete disclosure of the known health hazards from the continued use of a LSL if the customer or property owner refuses a LSLR. Please provide a revised LSLR Plan, Section 5.3.2 that complies with the requirements of 52 Pa. Code § 65.56(b)(10)(i).

Response: Please refer to the Informational Packet language contained in Appendix B to the LSLR Plan, as well as the description concerning the packet in paragraph 5.3.1 on page 31 of the LSLR Plan that describes the information contained in the Informational Packet.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-10 The Reference Key's Page 1 referred to PWSA's Petition for Waiver for demonstrating compliance with 52 Pa. Code § 65.56(b)(10)(ii). However, 52 Pa. Code § 65.56(b)(10)(ii) requires an entity to inform the customer or property owner, if the customer is not the property owner, that refusal or failure to accept will require replacement of the customer-owned LSL, at the customer or property owner's expense, within one year from LSLR project commencement for the customer or property owner, if the customer is not the property owner, to be eligible for reimbursement. Please provide a revised LSLR Plan, Section 5.3.2 that complies with the requirements of 52 Pa. Code § 65.56(b)(10)(ii).

Response: PWSA filed a Petition for Waiver seeking to continue its existing Commission-approved reimbursement program. PWSA's existing reimbursement program does not include the one-year time limitation or limit reimbursement eligibility to those located within a LSLR project area. Since the Petition for Waiver is currently pending and PWSA's understanding is that this matter has been referred to the Office of Administrative Law Judge, PWSA's position is that it is not necessary to file a revised LSLR Plan at this time. If necessary, PWSA will file a revised LSLR Plan as directed by the Commission after consideration of PWSA's Petition for Waiver.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-11 The LSLR Program's Appendix B included a copy of PWSA's proposed revised pages of PWSA's Commission approved Second Long-Term Infrastructure Improvement Plan (LTIIP Modification) as a minor modification due to the resulting changes being well below the 20% threshold for major modifications set forth in 52 Pa. Code § 121.2. Please submit clean and redline versions of the entire proposed (revised) Second LTIIP inclusive of the LTIIP Modification as part of PWSA's responses to TUS Data Request Set 1 and, separately, filed at Docket No. P-2022-3035953.

Response: Appendix B includes the only proposed revisions to the Second Long-Term Infrastructure Improvement Plan. As the matter has been referred to the Office of Administrative Law Judge and PWSA's proposed modifications do not rise to the level of a major modification, PWSA is not filing the revision at Docket No. P-2022-3035953 pending the final adjudication of its LSLR Plan and Petition.

Response provided by: Edward Barca, CPA, Director of Finance
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-12 The LSLR Program's Appendix C included a copy of PWSA's pro forma Tariff Supplement (Tariff Supplement). The Reference Key's Page 2 referred to PWSA's Petition for Waiver and to the Tariff Supplement's Page 66 for demonstrating compliance with 52 Pa. Code § 65.58(d). The Commission notes that an entity must provide a reimbursement to an eligible customer for a Customer completed LSLR within one year before or from LSLR project commencement regardless of income or customer class. 52 Pa. Code § 65.58(d)(1)(iii)(A) requires that an entity's pro forma tariff supplement must include language explaining its reimbursement terms and conditions, which shall contain an explanation of the entity's method for determining eligibility, providing that a customer or property owner, if the customer is not the property owner, located within a LSLR project area is eligible for a reimbursement of LSLR expenses up to 125% of the average cost the entity would have incurred to perform the replacement of a similarly-sized service line, not to exceed the actual cost. Please provide a revised Tariff Supplement that complies with 52 Pa. Code § 65.58(d)(1)(iii)(A).

Response: PWSA filed the Petition for Waiver seeking to continue its existing Commission-approved reimbursement program. Since the Petition for Waiver is currently pending and PWSA's understanding is that this matter has been referred to the Office of Administrative Law Judge, PWSA's position is that it is not necessary to file a revised Tariff Supplement at this time. If necessary, PWSA will file a revised Tariff Supplement as directed by the Commission after consideration of PWSA's Petition for Waiver.

Request: TUS-I-P-14 The Tariff Supplement's Section 4 described an income-based Reimbursement Program (Reimbursement Program) which does not comply with the minimum reimbursement requirements identified in 52 Pa. Code § 65.58(d)(1)(iii)(A). 52 Pa. Code § 65.58(d)(1)(iii)(A) requires that an entity's pro forma tariff supplement must include language explaining its reimbursement terms and conditions, which shall contain an explanation of the entity's method for determining eligibility, providing that a customer or property owner, if the customer is not the property owner, located within a LSLR project area is eligible for a reimbursement of LSLR expenses up to 125% of the average cost the entity would have incurred to perform the replacement of a similarly-sized service line, not to exceed the actual cost. However, under PWSA's Reimbursement Program, some customers in LSLR Project Areas would be eligible for reimbursements of greater than 125% of the average cost the entity would have incurred while some customers would be eligible for potentially far less than 125% of the average cost. Sections 1304 and 1502 of the Pennsylvania Public Utility Code (Code), 66 Pa.C.S. §§ 1304 and 1502, prohibit an entity from, as to services and rates, making or granting any reasonable preference or advantage to any person, corporation, or municipal corporation or to subject any person, corporation, or municipal corporation to unreasonable prejudice or disadvantage. Please provide responses to the following:

a. Explain how PWSA's Reimbursement Program is compliant with Sections 1304 and 1502 of the Code, 66 Pa.C.S. §§ 1304 and 1502; and
b. Explain how PWSA's Reimbursement Program, in the context of Commission regulations and the Code, does not grant any unreasonable preference or advantage to a particular group of Customers.

Response:

a. The Commission has previously considered and approved PWSA's Reimbursement Program. The program's compliance with the Public Utility Code was addressed in detail as part of the litigation of PWSA's Stage 1 Compliance Plan.[1] *See* the Commission's detailed discussion in the March 26, 2020 Opinion and Order at Docket Nos. M-2018-2640802 *et al*. at pages 141-163; *see also* the October 29, 2019 Recommended Decision at Docket Nos. M-2018-2640802 *et al.* at pages 164-209. As part of this proceeding, the Commission approved PWSA's income-based reimbursement program. In doing so, it

[1] *Implementation of Chapter 32 of the Public Utility Code Regarding Pittsburgh Water and Sewer Authority – Stage 1*, Docket Nos. M-2018-2640802 and M-2018-2640803.

rejected arguments that the program provided an unreasonable preference or advantage in violation of the Public Utility Code.

b. See the response to (a) above. Further, it is important to consider the Reimbursement Program within the broader context of PWSA's LSLR Program. The Reimbursement Program gives customers the option to proactively replace their LSL if they wish to do so, but the vast majority of LSLRs are conducted by PWSA at no direct cost to the customer under the Authority's LSLR Program.

The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-15 In the Tariff Supplement's Section 4.a., PWSA uses the term "ad hoc" replacements. However, the LSLR Plan does not appear to use the term "ad hoc" replacements in the LSLR Plan. Pursuant to 52 Pa. Code § 65.58(c)(2), a customer or a property owner, if the customer is not the property owner, may elect to replace the customer-owned LSL subject to the conditions therein. Please provide responses to the following:

a. Define the term "ad hoc" replacements and how it conforms with the words and terms defined by Commission regulation in 52 Pa. Code § 65.52;
b. Submit a revised Tariff Supplement and/or LSLR Plan that uses the same defined terms for when a customer or a property owner, if the customer is not the property owner, elects to replace the customer-owned LSL; and
c. Quantify the anticipated number of Customers PWSA expects to elect to replace the customer-owned LSL for the following three years beginning with 2024.

Response:

a. "Ad hoc" is used in the Tariff Supplement to describe instances in which the customer or property owner elects to replace the customer-owned LSL outside of an established plan or timeline. This is consistent with the Oxford English Dictionary which defines "ad hoc" as "for a particular purpose; in response to a specific need or demand; to this end." 52 Pa. Code § 65.52 does not include a defined term that corresponds with "ad hoc" as used in PWSA's Tariff Supplement.

b. PWSA's understanding is that this matter has been referred to the Office of Administrative Law Judge. PWSA's position is that it is not necessary to file a revised Tariff Supplement at this time. If necessary, PWSA will file a revised Tariff Supplement as directed by the Commission after consideration of PWSA's Petition for Approval of its LSLR Program and Petition for Waiver.

c. In 2023, PWSA processed 476 applications resulting in 58 paid replacements. PWSA anticipates similar numbers for the years 2024, 2025 and 2026.

Response provided by: Rachael Beam, Chief Engineering Officer
The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-16 In the Commission's March 14, 2022, Act 120 Final Rulemaking Order at Docket L-2020-3019521, Page 54, the Commission indicated, "[…] PWSA seeks clarification about the impact of the reimbursement regulations on its existing reimbursement program for customer-initiated replacements not performed within one year of commencement of LSLR Project Commencement. Again, we note that the Commission's regulations will set forth minimum requirements and, thus the regulations will not limit entities from offering other reimbursements." Also, in PWSA's Petition (Waiver Petition) for waivers of Commission LSLR Regulations at Docket P-2024-3046465, Page 1, PWSA indicated that it submitted its Waiver Petition, "so as to permit PWSA to continue its existing reimbursement program". Please clarify whether PWSA believes that waivers of Commission LSLR regulations, 52 Pa. Code §§ 65.51, et. seq., are needed for PWSA to continue to provide reimbursements under its Tariff Supplement, Part VI, Section 4.a.i.-iii (Income-based Reimbursements).

Response: PWSA filed the Petition for Waiver seeking to continue its existing Commission-approved reimbursement program. Specifically, PWSA's reimbursement programs differs from the regulations at 52 Pa. Code §§ 65.58(d), 65.58(d)(1)(iii)(A) and (B), and 65.56(b)(10)(ii), as further discussed in the Petition for Waiver (which is incorporated herein by reference). A reasonable interpretation of the regulations is that PWSA's existing reimbursement plan falls within the broad parameters of the regulation and that, therefore, no waiver is necessary. In an abundance of caution however, PWSA has requested the waiver of these specific provisions to ensure that it can continue PWSA's income-based reimbursement program in its current form.

The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-17 In the Tariff Supplement's Section 4.a.iv., PWSA indicated that for households that don't qualify for Income-based Reimbursements, PWSA would provide a $1,000 stipend towards the replacement cost of a Customer LSLR. However, pursuant to 52 Pa. Code § 65.58(d)(1)(iii)(A), a customer or property owner, if the customer is not the property owner, located within a LSLR project area is eligible for a reimbursement of LSLR expenses up to 125% of the average cost the entity would have incurred to perform the replacement of a similarly-sized service line, not to exceed the actual cost. Please provide responses to the following:

a. Explain how PWSA's LSLR Program would be impacted, if at all, by revising the LSLR Plan's and Tariff Supplement's Reimbursement Program to be fully compliant with Commission regulations in the context of 52 Pa. Code § 65.58(d)(2). Specifically, clarify if PWSA anticipates compliant reimbursements would cause the entity to exceed its current annual cap, causing the entity to increase its current annual cap by the amount of the reimbursement and decrease its next annual cap by this amount;
b. Quantify the anticipated differential financial impact of PWSA revising its LSLR Plan and Tariff Supplement to include a fully compliant reimbursement program to Commission regulation as compared with PWSA's Reimbursement Program; and
c. Quantify each of the following to demonstrate the anticipated differential financial impact:

    i. estimated number of customer-owned LSLs remaining;
    ii. The estimated number of customer-owned LSLs identified in item (i) that will be replaced by customers or property owners that will seek reimbursement from PWSA;
    iii. The estimated number of customer-owned LSLs identified in item (ii) that will be replaced by customers or property owners within one year before or from LSLR project commencement and that are located within a LSLR project area;
    iv. PWSA's total estimated cost for replacing all customer-owned LSLs and providing reimbursements under PWSA's Reimbursement Program, without providing reimbursements to all Customers in compliance to Commission regulations; and
    v. PWSA's total estimated cost for replacing all customer-owned LSLs and providing reimbursements under PWSA's Reimbursement Program, including reimbursements to all Customers in compliance to Commission regulations.

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Response: PWSA filed a Petition for Waiver seeking to continue its existing Commission-approved reimbursement program. Since the LSLR Plan and Petition for Waiver are currently pending and PWSA's understanding is that the matters have been referred to the Office of Administrative Law Judge, PWSA's position is that it is not necessary to file a revised LSLR Plan or Tariff Supplement at this time. If necessary, PWSA will file a revised LSLR Plan and/or Tariff Supplement as directed by the Commission after consideration of PWSA's LSLR Program and Petition for Waiver.

The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-18 In the Tariff Supplement's Section 4.b., PWSA indicated, "Reimbursements will be issued in the form of a check issued no later than 45 days after the request is approved." However, 52 Pa. Code § 65.58(d)(1)(ii) requires that an entity's pro forma tariff supplement reimbursement provisions must include the length of time by which the entity will issue a reimbursement for an eligible reimbursement request. Please provide a revised Tariff Supplement that complies with 52 Pa. Code § 65.58(d)(1)(ii), such as by indicating the number of days after which PWSA will issue a reimbursement for an eligible reimbursement request, including PWSA's time to review and approve or deny requests.

Response: PWSA's reimbursement program is an iterative process as described in Section 5.4.5 of the LSLR Plan.

Once PWSA's Cares Team receives the information from the customer/property owner and starts the internal PWSA process, an income verification letter is mailed to the customer to indicate the reimbursement percentage they are eligible for. This letter is generally mailed within two weeks of the PWSA Cares Team intake call.

From there it is up to the customer to provide PWSA with an estimate from their plumber(s) which is reviewed and an Estimate Approval letter is mailed to the customer. Assuming all submitted information is complete when received by PWSA, this process is generally completed in two weeks. Finally, once the property owner submits the final plumber invoice and Allegheny County Health Department inspection report, a check is issued within 45 days.

Since the LSLR Plan is currently pending and PWSA's understanding is that the matter has been referred to the Office of Administrative Law Judge, PWSA's position is that it is not necessary to file a revised Tariff Supplement at this time. If necessary, PWSA will file a revised Tariff Supplement as directed by the Commission after consideration of PWSA's LSLR Program filing.

The Pittsburgh Water and Sewer Authority

Date Response Provided: April 8, 2024

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-19 In the Tariff Supplement's Section 6, PWSA indicated that in the case where a customer LSL crosses one or more properties, PWSA will terminate service to the neighboring properties if those properties do not permit PWSA access across the property to replace the customer LSL that crosses the property. Please explain the legal standard or precedents under which PWSA would be authorized to complete the proposed terminations.

Response: The referenced tariff provision is already included in PWSA's Commission-approved tariff. The approach described in Section 6 of the Tariff Supplement was approved by the Commission in its Opinion and Order entered February 4, 2021 in PWSA's Stage 1 Compliance Plan proceeding[2] and thereafter was included in PWSA's Lead Infrastructure Plan (see Appendix C to PWSA's LTIIP, effective April 5, 2021).

Response of The Pittsburgh Water and Sewer Authority ("PWSA")
to the Interrogatories of the Bureau of Technical Utility Service ("TUS"), Set I
in Docket No. P-2024-3046468

Request: TUS-I-P-20 In the Tariff Supplement's Section 11, PWSA indicated, "The maximum coverage under the warranty shall be to repair or replace the Customer Lead Service Line replacement […]". However, 52 Pa. Code § 65.58(e)(2) requires that an entity's pro forma tariff supplement warranty provisions must define the maximum coverage amounts under the warranty. Please provide a revised Tariff Supplement that complies with 52 Pa. Code § 65.58(e)(2), such as by indicating a specific dollar amount, specifying that the maximum coverage amount is unlimited, or denoting an amount that can be reasonably determined (i.e., a multiple of an identifiable cost, such as PWSA's cost to install the LSLR or PWSA's average cost to install a LSLR at the time the LSLR is install).

Response: PWSA does not supply a dollar amount to the customer to resolve the issue, rather it works with its construction contractor and the contract between PWSA and the contractor to have the work done to correct any workmanship or quality concerns related to the original installation.

Since the LSLR Plan is currently pending and PWSA's understanding is that the matter has been referred to the Office of Administrative Law Judge, PWSA's position is that it is not necessary to file a revised Tariff Supplement at this time. If necessary, PWSA will file a revised Tariff Supplement as directed by the Commission after consideration of PWSA's LSLR Program filing.
