Pennsylvania-American Water Company's Responses to the
Bureau of Technical Utility Services Data Request Set 1

Docket No. M-2024-3047019

2023 Annual Wastewater Asset Optimization Plan

TUS-1-1. Reference PAWC-WD's AAOP.

- a. PAWC-WD appears to have reported conflicting information for its projected expenditures in 2024. In Table 8 of its AAOP, PAWC - WD reports projected expenditures for 2024 to be \$49.48 million. However, in Table 11 of the AAOP, PAWC-WD reports projected expenditures for 2024 to be \$39.83 million. Please clarify the projected expenditures for 2024.

Response: Table 8 of PAWC's wastewater AAOP reports the projected annual and 4-year average expenditures from the approved LTIPs and compares them to the actual annual expenditures and actual 4-year average expenditures. Table 11 reports the project level expenditures planned for 2024 at the time the AAOP was submitted. The differences between these two expenditures arise from the balancing of 4-year average annual expenditures and the exclusion of projects related to acquisitions that are not yet final.
