To Whom It May Concern:

I am writing to protest the rate increase for Met-Ed. I believe this is an exercise in futility as they have already included rate increase information in my last statement. This tells me it's a done deal, but I'm writing anyway.

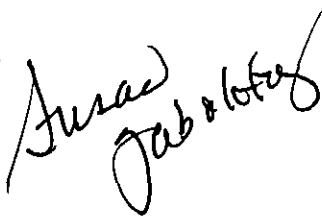

My husband and I are retired and on a fixed income. It's getting harder and harder to pay for the things we need. We worked hard to be able to retire without a mortgage on our home. Now I fear it will be lost to increasing taxes and utilities becoming impossible to pay.

Since Covid, many people are hanging on by a thread. Two weeks to stop the spread has turned into several years of economic woe. America could be energy independent if the elite would just stop with their greed and the need to grow more wealthy on the backs of the citizenry.

I'm asking that you consider this rate hike and how it will impact the majority. Let the people win this time.

Thank you for your time.
