For example, if the customer is not going to be notified of price changes until the new price appears on their bill, the customer should be informed of this. If the customer will be receiving advance notice of price changes, the customer should be told when and how these notices will be provided.*

### Electronic Data Interchange and Internet Requirements

Any NGS suppliers and/or broker/marketers that wish to use the Electronic Data Interchange (EDI), in the NGDCs where its available, must meet the EDI certification requirements of the NGDC. Certification is a testing process using the Commission approved Internet protocol. To initiate this process, the NGS is encouraged to contact the NGDC as early as possible after filing an application for a license with the Commission, since certification may require as many as four months to complete and customer service contract dates may not commence prior to certification. NGDC requirements of new suppliers may be found on the respective NGDC home web page. Pennsylvania’s industry stakeholder group the Electronic Data Exchange Working Group (EDEWG) develops and maintains the EDI transactions and related business practices, which are found on the Pa. PUC website at [http://www.puc.pa.gov/filing\\_resources/issues\\_laws\\_regulations/electronic\\_data\\_exchange.aspx](http://www.puc.pa.gov/filing_resources/issues_laws_regulations/electronic_data_exchange.aspx). The EDEWG meets telephonically the first Thursday of each month at 2:00pm ET to discuss EDI change control requests and other issues.

To keep current with Pennsylvania EDI practices and policies, a newly licensed NGS may choose to participate in the EDEWG by contacting the following:
