TO ALL PARTIES OF RECORD

Application of Columbia Gas of Pennsylvania Inc for approval of the alteration of the crossing (DOT# 145 593 W) by the installation of an 8-inch carrier plastic gas line where Lincoln Street crosses, below grade, the tracks of Allegheny Valley Railroad Company, in Washington City, Washington County.

To whom it may concern:

By application filed with the Commission on January 12, 2024, and plan drawings filed March 8, 2024, Columbia Gas of Pennsylvania Inc seeks Commission approval to alter the public crossing (DOT# 145 593 W) by the installation of an 8-inch carrier plastic gas line where Lincoln Street crosses, below grade, the tracks of Allegheny Valley Railroad Company, in Washington City, Washington County.

The new line will be installed within the right-of-way of Lincoln Street and Allegheny Valley Railroad Company by open cut in the pavement . The installation will provide a minimum cover depth of 3'-0" between the top of the proposed line and the road surface of Lincoln Street.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Columbia Gas of Pennsylvania Inc states that the proposed installation is necessary since the existing 8-inch plastic line does not meet current standards for supporting medium pressure and must be abandoned and replaced, and since the feed is vital to maintaining Columbia's system and to meet Columbia's system demands. The crossing will eliminate the low pressure feed and convert all surrounding areas to medium pressure.. Columbia Gas of Pennsylvania Inc will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the new line, at its sole cost and expense. The cost of the project at the subject crossing is anticipated to be approximately \$50,000.

All work is to be performed in accordance with the drawing plans attached to the application as "Exhibit A".

Columbia Gas of Pennsylvania Inc has served a copy of the application and installation plan to all parties in interest. All parties in interest were queried by letter dated April 1, 2024, as to any objection to the subject application. None of the parties have responded with any objection to the subject application or the revised plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience, or safety of the public.
