

Reply to New Matter

This is my response to Met Ed First Energy, docket #C-2024-3048419. I disagree with what Met Ed stated in their response to my formal complaint. My end goal is to stay on the payment plan I currently have and possibly adjusting the monthly payments to catch up on the past due balance. I disagree with the total amount of the bill. I have a family of seven with five children all under the age of 18 and in school. No one can survive without electricity, and it is very important to our daily lives. I also have a medical certification on file with Met Ed. I need my c-pap for my severe sleep apnea. Electric is needed in my household for the survival of my family and myself, I would like to take this to trial since it does not seem we can settle this outside of court.

Thank you,
Zachariah Davis
