DIRECT TESTIMONY
OF
SULMA DALESSIO

I. INTRODUCTION AND PURPOSE

1. Q. Please state your full name and business address.

A. My name is Sulma Dalessio. My business address is PECO Energy Company, 2301 Market Street, Philadelphia, PA, 19103.

2. Q. By whom are you employed and in what capacity?

A. I am employed by PECO Energy Company ("PECO" or the "Company") as Director of Energy Acquisition.

3. Q. What are your current duties and responsibilities as Director of Energy Acquisition?

A. As Director of Energy Acquisition for PECO, I am responsible for the administration of wholesale power supply contracts and purchase agreements for PECO's default service obligations. I am also responsible for the administration of PECO's retail electric generation supplier ("EGS") and natural gas supplier coordination functions as they relate to electric and natural gas choice, and for energy accounting activities that PECO performs as an electric distribution company ("EDC") in support of PJM Interconnection, L.L.C. ("PJM"), the entity that operates the multi-state electric grid in which PECO is located. In addition, I am responsible for the administration of PECO's procurement of alternative energy credits ("AECs") necessary for compliance with Pennsylvania's Alternative Energy Portfolio Standards Act (the "AEPS Act").

4. Q. Please summarize your educational background and prior professional experience.

A. I hold a Bachelor of Science degree in Industrial Engineering from Universidad Catolica de Colombia, a Master of Science degree in Finance from Universidad del Rosario and a Master of Business Administration degree from Drexel University.

I have been employed by PECO since 2007. During that period, I have held positions of increasing responsibility and management in the areas of Finance Planning and Analysis, Electric Operations, Credit and Collections, Customer Care and Field and Meter Services. My current responsibilities as Director of Energy Acquisition were described above.

5. Q. What is the purpose of your direct testimony?

A. The purpose of my direct testimony is to describe PECO's sixth default service program ("DSP VI") for procurement of electric generation to meet the needs of default service customers in PECO's service territory for the period from June 1, 2025 through May 31, 2029. My testimony is divided into several parts, in which I discuss:

(1) PECO's default service obligations under PECO's fifth default service program ("DSP V");

(2) An overview of DSP VI and its principal features;

(3) The customer procurement classes under DSP VI;

(4) The portfolio of products that PECO intends to procure for each customer procurement class;

(5) A description of proposed revisions to the uniform supply master agreement ("SMA") that PECO will use with wholesale generation suppliers;

(6) PECO's proposed Independent Evaluator and proposed implementation plan;

(7) A description of contingency plans in the event PECO does not obtain sufficient default service supply or experiences a supplier default;

(8) Continuation of PECO's existing default service rate design, including the Company's time-of-use ("TOU") rate options;

(9) PECO's plans for compliance with the AEPS Act, including long-term procurement of AECs from solar energy facilities;

(10) PECO's proposal to continue the Company's EGS Standard Offer Program ("Standard Offer Program" or "SOP") as a competitive retail market enhancement; and

(11) Generation supply issues and the requirement that PECO and its affiliates do not withhold generation from the wholesale market.

Finally, I introduce a proposed schedule for these proceedings and describe the notice provided to customers of PECO's DSP VI filing.

6. Q. Have you prepared any exhibits to accompany your testimony?

A. Yes. PECO Exhibits SD-1 to SD-6 were prepared at my direction and under my supervision and are described in my testimony.

II. PECO'S DEFAULT SERVICE OBLIGATIONS

7. Q. Please describe PECO's default service obligations.

A. PECO is obligated to arrange for and provide electric generation service (default service) to all customers within its service territory who do not select an EGS or who return to default service after being served by an EGS that becomes unable or unwilling to serve. By law, PECO is required to file a plan with the Commission that sets forth how it will meet its default service obligations, including a strategy for procuring generation supply, a schedule for implementation, and a rate design to recover PECO's reasonable costs.

8. Q. How does PECO currently meet its default service obligations?

A. In 2008, PECO filed its first default service program ("DSP I"), which was approved by the Commission in 2009 and took effect on January 1, 2011. On January 15, 2012, PECO filed its second default service program ("DSP II"), which the Commission approved on October 12, 2012, subject to the resolution of various retail market enhancement issues that were addressed by PECO in subsequent filings and approved by the Commission. On March 10, 2014, PECO filed its third default service program ("DSP III"), which the Commission approved on December 4, 2014. On March 17, 2016, PECO filed its DSP IV, which was approved on December 8, 2016. On March 13, 2020, PECO filed its DSP V, which was approved on December 3, 2020.

Under DSP V, as in the Company's prior DSPs, PECO conducts competitive procurements of wholesale power and associated services for different default service customer classes. For DSP V, these classes are: Residential, Small Commercial (i.e., customers with up to 100 kilowatts ("kW") of demand and lighting customers) and Consolidated Large Commercial and Industrial (i.e., customers with greater than 100 kW demand) ("Consolidated Large C&I"). In accordance with the Public Utility Code, 66 Pa.C.S. §§ 2807(3.1)-(3.4), PECO procures a "prudent mix" of contracts tailored for each customer class and designed to obtain electric supply at "least cost over time."

The principal procurement features of DSP V include the use of fixed-price full requirements ("FPFR") supply contracts for residential and small commercial customers and spot-priced full requirements supply contracts for Consolidated Large C&I customers. DSP V also includes tailored contract lengths ranging from 12 months to 24 months for each customer class. Procurement under DSP V occurs in March and September each year, approximately two months prior to the dates of delivery of supply obtained in the procurement, to ensure pricing that reflects current market conditions. PECO is proposing to continue each of these procurement features in DSP VI.

9. Q. Has PECO met its obligations?

A. Yes. PECO has met its obligations to date under DSP V, including its fundamental obligation as default service provider to provide adequate and reliable default service to default service customers at least cost over time. The Company also introduced new TOU rate options for eligible customers in PECO's

Residential and Small Commercial procurement classes to comply with PECO's obligation under Act 129 of 2008 ("Act 129") to offer TOU and real-time rates to all default service customers with smart meters.[1]

In addition, PECO implemented various programs to support retail competition, including continuation of its "Standard Offer" customer referral program in which default service residential and small commercial customers contacting PECO's customer service center or using the PECO website are offered the opportunity to select among a group of EGSs that have voluntarily chosen to offer customers a 12-month contract priced at 7% below PECO's default service rate at the time of the offer. Approximately 282,000 customers have been referred to participating EGSs under the program since its inception in August 2013 through August 2023.

III. OVERVIEW OF PECO DSP VI

10. Q. What principles did PECO use in designing DSP VI?

A. In designing DSP VI, PECO adhered to the same central principles used in DSP V:

(1) Competitive forces will produce the least cost to customers over time and, therefore, the development of retail and wholesale energy markets should continue to be encouraged.

(2) Obtaining a "prudent mix" of default generation supply contracts at least cost over time should take into account factors such as the

[1] 66 Pa.C.S. §§ 2807(f)(5). The hourly-priced default service rate for the Consolidated Large Commercial and Industrial Class already meets Act 129 requirements.

benefits of retail generation service price stability and reflect the different needs of various customer types through tailored procurement strategies.

(3) Default service rate design should be understandable to customers and reflect the competitive procurement of generation supply service.

11. Q. Please provide an overview of PECO's proposed procurement process.

A. PECO plans to conduct multiple competitive solicitations to acquire generation service to meet its default service obligations on and after June 1, 2025, when its current default service program (DSP V) expires. As in DSP V and in PECO's prior default service programs, DSP VI will employ a request for proposals ("RFP") process to solicit bids for a portfolio of full requirements supply products with 12- and 24- month terms for its residential and small commercial customers, as well as 12-month terms for its commercial and industrial customers receiving hourly-priced default service. DSP VI will continue the contract terms and delivery periods for each procurement class that were implemented in DSP V.

12. Q. What is the proposed term of DSP VI?

A. PECO's DSP VI encompasses default service procurement for the four-year period from June 1, 2025 through May 31, 2029. This four-year term is consistent with the four-year term agreed to by the parties to a Joint Petition for Partial Settlement of the DSP V proceeding that was subsequently approved by the Commission.

A four-year term for default service programs is permitted under the Commission's Default Service Policy Statement, which states that default service programs should be for two-year periods unless the Commission directs otherwise.[2] In approving the DSP V partial settlement, the Commission noted that a four-year term would minimize future litigation expenses and reduce administrative costs.[3]

13. Q. What are the significant changes from DSP V that PECO is proposing in DSP VI?

A. PECO proposes to maintain the DSP V default service procurement design for DSP VI, with four principal changes. First, as discussed later in my testimony, PECO proposes to double its ten-year fixed priced long-term supply of Pennsylvania and PECO service area-sourced solar Alternative Energy Credits ("AECs") from 16,000 AECs annually to 32,000 AECs annually. To obtain 16,000 additional Solar AECs annually, the Company proposes to use the same RFP process and procurement documents that were approved by the Commission in the DSP V Order.

Second, PECO is proposing to introduce a Capacity Proxy Price ("CPP") mechanism into the Company's SMA. The CPP will be used for default service solicitations in DSP VI to establish a capacity cost when PJM does not conduct its Base Residual Auction ("BRA") for capacity in time for default service suppliers

[2] 52 Pa. Code § 69.1804.

[3] *Petition of PECO Energy Co. for Approval of its Default Serv. Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019290 (Opinion and Order entered Dec. 3, 2020) ("DSP V Order"), pp. 30-31.

to incorporate the auction results into their bids. The implementation of the CPP is described further by Company witness Orlandi of NERA in PECO Statement No. 4

Third, for the reasons explained by Company witness Scott Fisher of The NorthBridge Group in PECO Statement No. 3, PECO is proposing to implement a reserve price to help protect residential customers from paying high prices for FPFR products that could be considered outside of a reasonable market range. The reserve price implementation is detailed by Ms. Orlandi.

Finally, as described by Company witness Katie Orlandi of NERA in PECO Statement No. 4, PECO is proposing to increase the limit on the amount of default supply that a bidder can offer and win for the Large C&I procurement class.

14. Q. How did PECO determine that its default service procurement plan is a sound approach to meeting "least cost over time" requirements?

A. PECO engaged The NorthBridge Group to conduct an analysis of the results of its DSP V procurements and to evaluate PECO's proposed DSP VI procurements. In PECO Statement No. 3, Mr. Fisher presents this analysis and evaluation. He reviews the impacts of market risks under DSP V with respect to procurement issues, including the impacts of market risks, and discusses how PECO's DSP VI procurement plan provides for a "prudent mix" of default supply contracts for all customer classes, is consistent with "least cost over time" requirements, and continues to support retail competition.

IV. PROCUREMENT CLASSES

15. Q. What procurement classes are being proposed by PECO for DSP VI?

A. PECO is proposing to maintain the same procurement classes in DSP VI as those approved by the Commission for DSP V. Specifically, PECO is proposing to divide its default service customers into three classes for purposes of default service procurement.

(1) Residential: All customers on schedules R and RH.

(2) Small Commercial: All customers with annual peak demand of up to and including 100 kW on schedules GS, PD and HT plus lighting customers on schedules AL, POL, SLC, SLE, SLS and TLCL.

(3) Consolidated Large Commercial and Industrial ("Large C&I"): All customers with annual peak demand greater than 100 kW on schedules GS, HT, PD and EP.

The Residential and Small Commercial classes are the same as in PECO's five prior default service programs, and this division continues to reflect the nature of the load in those customer classes. The separation of the Residential and Small Commercial procurement classes reflects the different usage patterns of those customers and reduces the potential that changes in shopping trends in one customer group will result in a higher price for the other customer group.

PECO's DSP IV was the first PECO default service program that combined default service procurement for PECO's former "medium" commercial customers (100 kW to 500 kW peak demand) and "large" industrial customers (500 kW and

over). These customers have the highest propensity to shop with an EGS, and the combined class streamlines the Company's competitive solicitation process as well as its reconciliation of over- and undercollections.

16. Q. Do the Commission's regulations and Policy Statement support PECO's proposed procurement classes for DSP VI?

A. The Commission's regulations and Policy Statement provide that default service procurement classes should be designed based on peak loads of 0-25 kW, 25-500 kW, and 500 kW and above.[4] The Commission has previously granted PECO a waiver from these regulations in DSP I, DSP II, DSP III, DSP IV and DSP V to support a 100 kW "breakpoint" among PECO's commercial customers in light of customer characteristics. PECO believes that lowering the threshold for the Consolidated Large C&I class to 100 kW remains appropriate because that level of demand separates smaller commercial customers from larger C&I customers who receive hourly priced default service. PECO therefore requests a renewed waiver of this regulation in order to maintain its existing procurement classes.

17. Q. Are there any exceptions with respect to customer size and procurement class?

A. Yes. Certain lighting customers have peak demands equal to or exceeding 100 kW but have been placed in the Small Commercial class. PECO believes that this arrangement remains appropriate to avoid a separate procurement class that may be too small to attract bidder interest.

[4] 52 Pa. Code §§ 54.187 and 69.1805.

V. PORTFOLIO OF RFP PRODUCTS FOR DSP VI AND IMPLEMENTATION PLAN

18. Q. What are the products that PECO will solicit for each procurement class?

A. Each procurement class will have a unique procurement strategy consistent with Public Utility Code requirements to obtain a prudent mix of contracts designed to ensure least cost over time, taking into account rate stability, and to continue to support retail competition. All products to be procured in the RFPs will be full requirements products. The Residential and Small Commercial procurement products will be fixed price ($/MWh) with term lengths of 12 months and 24 months. The Consolidated Large C&I product will be hourly-priced based on the PJM day-ahead spot market price for the PECO zone with a 12-month term length. Each of the products will be procured approximately two months prior to delivery of the energy. A schedule of PECO's proposed procurements is attached to my testimony as PECO Exhibit SD-1.

19. Q. Please describe the full requirements products that wholesale suppliers will be responsible for should they be chosen to serve a percentage of PECO's default service load.

A. Suppliers will be obligated to supply full requirements load-following service, which includes the energy, capacity, and ancillary services and any other services or products necessary to serve a specified percentage of PECO's default service load for a customer class continuously throughout the term of the product.

The amount of energy and other services and products a supplier must provide under the full requirements contracts that PECO will enter into will vary depending on PECO's actual default service load. The full requirements products

obligate the supplier to satisfy a specified percentage of default service for the customer class, based on a defined percentage ("tranche") times the number of tranches won. The supplier must provide all of the default service customer's supply requirements in every hour of the delivery period, regardless of the customer's instantaneous changes in energy consumption and the frequency or amount at which the customer switches to and from default service. In addition, the full requirements product obligates the supplier to provide PECO all AECs required to comply with AEPS obligations associated with the supplier's specified percentage of the load. PECO will continue to allocate solar AECs from 10-year solar AEC contracts entered into during DSP V and from any new 10-year solar AEC contracts entered into during DSP VI in the same manner approved by the Commission in prior DSPs.

20. Q. Are wholesale suppliers responsible for all transmission and distribution costs associated with their share of default service load?

A. No. PECO remains responsible for all distribution service customer costs. Wholesale suppliers are responsible for those PJM bill line items specified in the SMA.

In DSP VI, PECO will continue to be responsible for and recover Network Integration Transmission Service and Non-Firm Point-to-Point PJM bill line items associated with default service load through its unbundled, bypassable Transmission Service Charge. On June 1, 2015, in accordance with the

Commission's order approving DSP III,[5] PECO implemented a Non-Bypassable Transmission ("NBT") charge to recover the following PJM charges from all distribution customers in PECO's service territory: Generation Deactivation/ Reliability Must Run charges (PJM bill line item 1930) set after December 4, 2014; Regional Transmission Expansion Plan charges (PJM bill line items 1108 and 1115); and Expansion Cost Recovery charges (PJM bill line item 1730). PECO will continue to implement this NBT charge in DSP VI.

21. Q. What are the products PECO is currently procuring for each customer class under DSP V?

A. Under DSP V, most of the Residential class load is served by full requirements products consisting of a mix of 12- and 24-month contracts, with delivery periods overlapping on a six-month basis. There are a total of 62 tranches of full requirements products for the Residential class, and each tranche represents 1.6% of the total full requirements load. Twenty-four-month products are allocated 38 tranches (approximately 61% of the load) and 12-month products are allocated 24 tranches (approximately 38% of the load). The remaining approximately 1% of load is supplied directly from PJM's spot energy, capacity and ancillary service markets.

In addition, PECO receives an allocation of five megawatts of low-cost hydropower from the New York Power Authority ("NYPA") for residential customers in PECO's service territory under a multi-state agreement administered

[5] *See Petition of PECO Energy Co. for Approval of its Default Serv. Program for the Period from June 1, 2015 through May 31, 2017*, Docket No. P-2014-2409362 (Final Order entered Dec. 4, 2014), p. 46.

in Pennsylvania by Allegheny Electric Cooperative, Inc. This amount corresponds to 0.2% of PECO's Residential default service load of approximately 2,600 MW. Under DSP VI, PECO will continue to use the NYPA allocation to offset the amount of Residential default service supply provided by wholesale suppliers.

All of the DSP V Small Commercial supply is served by full requirements products. The Small Commercial load is divided into 24 tranches of 4.17% per tranche. Twenty-four-month products are allocated 12 tranches (50%) and 12-month products are allocated 12 tranches (50%).

Similarly, all of the Consolidated Large C&I class is served by hourly priced full requirements products. The class load is divided into eight tranches of 12.5% per tranche. All tranches are allocated to a 12-month full requirements product that is procured during each spring RFP with no overlap.

22. Q. Does the supply portfolio for any procurement class include any long-term contracts?

A. Yes. In DSP V, all procurement classes are allocated solar Tier I AECs from PECO's ten-year solar AEC purchase agreements. In total, PECO has been purchasing 16,000 solar Tier I AECs annually from various agreements that will expire on May 31, 2032 or May 31, 2033. PECO proposes to purchase an additional 16,000 solar Tier I AECs annually through ten-year solar AEC purchase agreements in DSP VI, for a total of 32,000 solar Tier I AECs annually.

23. Q. Please describe PECO's procurement strategy for the Residential class under DSP VI.

A. Under DSP VI, PECO will continue the procurement design of DSP V for the Residential class. The targeted residential supply portfolio will be composed of a blend of 38% one-year and 61% two-year FPFR products. Each of the products will be procured approximately two months prior to delivery of the energy. Products with delivery periods beginning on June 1 will be procured in the month of March prior to delivery. Because contracts beginning June 1 are not executed in time to allow winning bidders to participate in the PJM's annual Auction Revenue Rights ("ARRs") nomination process in early March, PECO will continue to nominate ARRs for the default service load that will be served as of June 1 as it did in DSP V. To facilitate for and advise on selection of ARRs on behalf of customers for wholesale default service suppliers, PECO will also continue to contract with a consultant for ARR analysis and selection. Contracts beginning on December 1 will be procured in a September RFP, approximately two months before the start of the contract delivery period.

24. Q. Please describe PECO's procurement strategy for the Small Commercial class under DSP VI.

A. Under DSP VI, PECO will continue the procurement design of DSP V for the Small Commercial class with no changes. Specifically, PECO will continue to serve the Small Commercial class with a portfolio composed of equal shares of one-year and two-year FPFR products. The supply contracts will be laddered, with six-month spacing between the start of the delivery periods under those

contracts. Each of the products for the Small Commercial class will be procured in the same manner as FPFR products for the Residential class approximately two months prior to delivery of energy under the contract. In PECO Statement No. 3, Mr. Fisher explains how the use of one- and two-year FPFR products for the Small Commercial class provides price stability benefits for all small non-residential customers who may not have the knowledge or resources to elect a competitive EGS offering that provides the price stability they seek.

25. Q. Does PECO intend to supply all Residential and Small Commercial default generation service from the residential and small commercial supply portfolios respectively?

A. Yes. Consistent with DSP V, both the fixed price and TOU generation service for residential and small commercial customers will be supplied from the portfolio of supply contracts PECO proposes to procure for those customers during DSP VI. PECO expects that relatively few customers (compared to the number of customers who receive fixed-price default service) will enroll in the optional TOU default service in light of the customer participation levels described by PECO witness Megan A. McDevitt in PECO Statement No. 2 since PECO's new TOU rates were launched in September 2021. As Mr. Fisher explains, any effects of TOU default service on supplier prices should be small given the expected small level of participation relative to the overall default service customer base and the lack of revenue risk to suppliers (who will be paid the same price for a megawatt-hour of default service supply for customers on standard default service and those on TOU default service). To the extent more customers choose TOU default

service and shift their usage to lower-priced periods, that could also reduce the overall cost of default service supply.

Procuring supply for all residential customers through a single RFP also avoids the administrative costs of conducting additional RFPs as well as the costs, complexity, and implementation time associated with modifying PECO's energy accounting system software to add two new customer procurement groups (Residential TOU and Small Commercial TOU) to the current three customer procurement groups.

26. Q. Please describe PECO's procurement strategy for the Consolidated Large C&I class under DSP VI.

A. Under DSP VI, PECO will continue the procurement design of DSP V with no changes. Specifically, PECO will continue to procure all default supply for the Consolidated Large C&I class through spot-priced full requirements products, which will be procured annually in March for delivery starting June 1 of each year.

27. Q. Does PECO's DSP VI procurement strategy for the Residential, Small Commercial and Consolidated Large C&I class include any long-term purchases?

A. Yes. As I describe later in my testimony, PECO is proposing to double the amount of solar AECs procured through long-term (10-year) purchase agreements during the DSP VI term. Similar to DSP V, PECO would allocate separately procured solar AECs across all three DSP VI procurement classes.

28. Q. Will some of the full-requirements contracts PECO proposes for DSP VI continue past May 31, 2029?

A. Yes. The extension of contracts beyond the term of a default service program is permitted by the Commission's regulations (52 Pa. Code § 54.186(b)(3)) and is consistent with the procurement design approved by the Commission in DSP II, DSP III, DSP IV and DSP V. Laddering of contract delivery periods (which would result in some delivery periods extending beyond May 31, 2029) will better ensure that residential and small commercial customers are not fully exposed to wholesale price volatility associated with replacing large portions of default service supply over short periods.

VI. SUPPLIER MASTER AGREEMENT

29. Q. Ms. Dalessio, please describe PECO's SMA.

A. The SMA is a standardized generation supply contract that sets forth the rights and obligations of PECO and each generation supplier that successfully bids to serve a portion of PECO's default service load. Under the SMA, a supplier is obligated to supply full requirements service for a specified percentage of default service load assigned to that supplier through PECO's competitive procurement process, and PECO is obligated to pay for this supply. The SMA includes detailed provisions relating to billing, supplier credit requirements, default and termination, damages, indemnification, survival, and dispute resolution, in addition to customary provisions relating to representations and warranties by each party, as well as confidentiality and other obligations.

During DSP III, PECO utilized a new SMA developed through the uniform SMA stakeholder process envisioned by the Commission in the End State Order[6] in order to realize efficiencies and reduce expenses. That SMA was used again in DSP IV and DSP V, with minor changes to facilitate competition, bidder participation, and the provision of better information for the Company's annual report on default service. The uniform SMA has functioned well during DSP V and has not resulted in litigation, defaults or other material disputes.

30. Q. Is PECO proposing to make any changes to the uniform SMA?

A. Yes. First, as I will discuss later in my testimony, the Company is proposing modifications to its SMA that would enable PECO to use a CPP for any default service procurement during DSP VI that includes an unpriced capacity period to mitigate risk associated with uncertainty created by delays in PJM's BRA auction for the applicable delivery period.

In addition, on December 22, 2023, PECO filed a petition for Commission approval to add a new Appendix I to the SMA approved in the DSP V Order that would enable market participants subject to the regulations issued by the Board of Governors of the Federal Reserve System (12 C.F.R. §§ 252.2, 252.81-88), the Federal Deposit Insurance Corporation (12 C.F.R. §§ 382.1-7) and the Office of the Comptroller of the Currency (12 C.F.R. §§ 47.1-8) ("US Stay Regulations") to participate in the Company's default service solicitations. The U.S. Stay Regulations impose certain requirements on the terms of swaps, repurchase

[6] *Investigation of Pennsylvania's Retail Elec. Mkt.: End State of Default Serv.*, Docket No. I-2011-2237952 (Order entered Feb. 15, 2013) ("End State Order"), pp. 34-35.

agreements and other qualified financial contracts for global systemically important banking organizations and their subsidiaries and affiliates ("GSIBs"). Appendix I incorporates the 2018 International Swaps and Derivatives Association, Inc. ("ISDA") U.S. Resolution Stay Protocol ("Protocol") into the SMA, which is a covered agreement under the US Stay Regulations. Under Appendix I, both PECO and the default supplier confirm adherence to the ISDA Protocol to ensure compliance with the US Stay Regulations and allow GSIBs to participate in default service solicitations. The Company is proposing to include Appendix I in the SMA for DSP VI.

A copy of the SMA and a "blackline" version of the SMA showing proposed changes is attached as Exhibit SD-2 and Exhibit SD-3, respectively.

31. Q. Please describe PECO's proposal to use a CPP if PJM does not conduct its BRA in time for default service suppliers to incorporate capacity costs into their bids.

A. PJM generally conducts a BRA three years in advance of a delivery year to procure resource commitments sufficient to meet reliability requirements in the PJM region under the Reliability Pricing Model ("RPM"). However, on June 9, 2023, the Federal Energy Regulatory Commission ("FERC") approved PJM's request to delay the upcoming BRA schedule for the 2025/2026 through 2028/2029 delivery years. PJM also recently proposed a broad set of capacity market reforms before the FERC at Docket Nos. ER24-98 and ER24-98 that could result in changes to the PJM BRA schedule for future delivery periods. To address potential delays in PJM BRAs during the DSP VI term, PECO is

proposing to add language to the SMA's Transaction Confirmation that would allow the Company to use a CPP for those portions of residential FPFR products that, as of the five days prior to the date of their procurement, would extend into an unpriced capacity period.

The CPP would be calculated as the average of the most recent results under PJM's RPM from the two most recent delivery years for which PJM has held a capacity auction. Commencing at the start of the delivery year for which the BRA results were not known, winning suppliers will be debited or credited (as applicable) any differences between the CPP and the actual PJM capacity price. Ms. Orlandi provides additional details regarding PECO's proposed CPP true-up methodology in PECO Statement No. 4.

VII. INDEPENDENT EVALUATOR AND IMPLEMENTATION PLAN

32. Q. Has PECO selected an Independent Evaluator for DSP VI?

A. Yes. In accordance with the Commission's regulations, PECO requests approval of NERA Economic Consulting, Inc. ("NERA") as the Independent Evaluator, which will manage and monitor the default service RFPs. The Independent Evaluator will conduct the RFPs in a fair and efficient manner and will also report the RFP results to the Commission. The Commission has approved NERA as the Independent Evaluator for each of PECO's default service programs since the beginning of default service.

33. Q. Has PECO also prepared an implementation plan?

A. Yes. In conjunction with the Independent Evaluator, PECO has developed a competitive solicitation process, including a detailed set of rules and protocols for the Commission's review and approval that will govern the RFPs administered by NERA. Ms. Orlandi describes the overall RFP process and the Company's proposed RFP documents in her direct testimony (PECO Statement No. 4).

34. Q. Please describe PECO's reserve price proposal.

A. The reserve price for a residential product is the average bid price above which the Independent Evaluator would recommend that the Commission reject the lowest-priced bids that caused the average bid price to exceed the reserve price. As described in more detail by Ms. Orlandi in PECO Statement No. 4, the reserve price for each residential FPFR product (12-month and 24-month delivery periods) will be determined by the Independent Evaluator to account for the costs and risks of the FPFR product obligation. The reserve price will be finalized on the date that bids are due to account for the most up-to-date forward energy prices and other market data relevant to the PECO PJM zone. The Independent Evaluator will not announce the reserve price for a product to bidders. However, the reserve price will be reported to the Commission by the Independent Evaluator along with the RFP results.

35. Q. Is PECO seeking to begin procurement before June 1, 2025?

A. Yes. While some of the supply for residential and small commercial customer procurement classes required on June 1, 2025 will be provided by products

procured under DSP V and with terms that end during DSP VI, PECO proposes to begin procurement activities for DSP VI in February 2025.

VIII. CONTINGENCY PLANS

36. Q. Is PECO proposing any changes to its contingency plans in the event that the Company either does not obtain sufficient supply through its procurement process or experiences a supplier default?

A. No. PECO proposes to use the same contingency plans as those in DSP V.

Under DSP V, PECO employs a contingency plan in the event it fails to obtain sufficient approved bids for all tranches of supply offered in a procurement or in the event that a supplier enters into a supply agreement and subsequently defaults on its obligations. In the event PECO fails to obtain approved bids for all offered tranches in a solicitation, the unfilled tranches will be included in PECO's next scheduled default supplier solicitation for that product. PECO also has the right to file an alternative procurement plan for the unfilled tranches for Commission review on an expedited basis. If necessary, PECO will supply any unserved portion of its default service load from the PJM-administered markets for energy, capacity and ancillary services. If the supplier default occurs within a reasonable time before a scheduled procurement, the load served by the defaulting supplier will be incorporated into that next procurement. Otherwise, PECO will file a plan with the Commission proposing alternative procurement options and a request for approval on an expedited basis.

IX. RATE DESIGN

37. Q. Is PECO proposing any revisions to its existing default service rate design as part of DSP VI?

A. No. As described by Ms. McDevitt in PECO Statement No. 2, PECO is proposing to continue to recover the costs of default service through its Generation Supply Adjustment rates in the same manner as approved by the Commission in DSP V. For DSP VI, PECO is also proposing to continue its Commission-approved TOU rate options for the Residential and Small Commercial classes.

X. AEPS COMPLIANCE

38. Q. Will PECO continue to satisfy its AEPS obligations with respect to sales to default service customers by requiring suppliers to transfer AECs to PECO?

A. Yes. The AEPS Act requires PECO and other default service providers to obtain specified percentages of electricity sold to retail customers from alternative energy sources, as measured by AECs and defined by the AEPS Act. Under the SMA, PECO will continue to require each default service supplier to transfer Tier I and Tier II AECs to PECO corresponding to PECO's AEPS obligations associated with the amount of default service load served by that supplier.

39. Q. Has PECO separately procured solar AECs?

A. Yes. In the DSP V proceeding, the Commission authorized PECO to satisfy approximately 22.6% of its solar AEPS requirements associated with the load of PECO customers receiving default service during the DSP V term through two-stage solicitations in 2021 and 2022 for delivery of a total of 16,000 solar AECs annually (i.e., 4,000 solar AECs in each of the four solicitations). PECO

subsequently conducted successful RFPs and, upon approval of the Commission, entered into contracts for the annual delivery of 16,000 solar AECs over a ten-year period, with 8,000 of each year's solar AECs from solar generating facilities located within PECO's service area.

40. Q. Is PECO proposing to enter into new long-term agreements for solar AECs during DSP VI?

A. Yes. During DSP VI, PECO's solar AEPS requirement will be 0.5% of its total default service retail load. In light of PECO's prior successful solar AEC RFPs in 2021 and 2022, PECO is proposing to procure an additional 16,000 solar AECs in the first two years of the DSP VI term using the same RFP process approved by the Commission for DSP V. This additional procurement would double the total annual number of solar AECs obtained under long-term agreements (from 16,000 solar AECs to 32,000 solar AECs), with the total annual solar AEC amount satisfying approximately 45% of PECO's solar AEPS requirements under DSP VI. The remaining 55% of requirements will be met through solar AECs provided by wholesale suppliers to meet the AEPS requirements associated with the percentage of load served by each supplier.

41. Q. Is PECO proposing to continue its current process to obtain new long-term solar AEC contracts during DSP VI?

A. Yes, with one change to lower the minimum bid requirement from 200 solar AECs to 50 solar AECs annually with a corresponding reduction in the bid deposit amount (from $10,000 to $2,500) to allow smaller solar generation resources to participate in both stages of the RFP. PECO's Commission-approved

solar RFP process is designed to obtain competitive, fixed-price supply contracts at least cost and will continue to utilize form Solar AEC Purchase and Sale Agreements (tailored either for a project or an aggregator). The first stage of each annual RFP will consist of a competitive procurement where winning bidders will be determined by the lowest solar AEC prices offered. The second stage will be a Standard Offer to Purchase ("SOTP") solar AECs at the quantity-weighted average of the winning competitive prices determined by the first stage RFP, with the requirement that the solar AECs from stage two bidders come from solar generation resources located in the PECO service area. A copy of the Company's Solar AEC RFP and accompanying procurement documents ("Solar RFP") for DSP VI is attached to my testimony as Exhibit SD-4. A blackline showing all changes to the DSP V Solar RFP is attached as Exhibit SD-5.

42. Q. How will PECO apply the AECs obtained through solar AEC contracts in DSP VI?

A. The AECs will be used to satisfy the AEPS requirements of all customer classes in the same manner that PECO has applied its separately procured AECs in its prior default service programs. AEC allocations will be calculated by PECO in proportion to the forecast of default service retail sales to each procurement group under PECO's tariff. PECO will track AEC allocations and actual retail sales and adjust future allocations accordingly. In order for default service supply bidders to adjust their prices accordingly for this reduction in their solar AEC supply obligations under the SMA, PECO will provide bidders with a binding number of the solar AECs that PECO will apply to supplier obligations as part of the default

service RFP process and prior to submission of any bids. PECO will not transfer solar AECs to suppliers, but rather the amount of solar AECs that suppliers must transfer to PECO will be reduced by the amount of solar AECs allocated to suppliers by PECO in the RFP.

43. Q. Does PECO have a contingency plan if any of its RFPs for solar AECs are unsuccessful?

A. Yes. If the 2025 Solar RFP or SOTP is unsuccessful or there is insufficient participant interest, the amount of solar AECs not under contract will be added to the amount to be procured in the 2026 solicitation and the SOTP stage of the 2026 Solar RFP will be removed. If PECO is unable to obtain 32,000 solar AECs after completing the 2025 and 2026 procurements, any shortfall will be met by wholesale suppliers who are obligated to transfer enough solar AECs to meet AEPS requirements for the percentage of default service load that they supply.

XI. COMPETITIVE ENHANCEMENTS

44. Q. Did PECO take steps to enhance retail competition during DSP V?

A. Yes. As I described earlier, PECO continued its Standard Offer Program. In addition, PECO continued several other retail enhancements, including its purchase of EGS receivables program, accelerated (three-day) switching, account number lookup, and the choice-friendly customer bill presentment features. Pursuant to the partial settlement in DSP V, the Company also convened a stakeholder process to discuss residential customer bill improvements that are compatible with PECO's "bill ready" billing platform.

45. Q. Is PECO proposing any revisions to its residential bill format for DSP VI to ensure that shopping information is clear and transparent to residential customers?

A. Yes. PECO's Price-to-Compare ("PTC") in cents per kilowatt-hour ("kWh") for the applicable billing period that customers may use to evaluate competitive generation service offerings by EGSs is currently printed in the Message Center on the residential customer bill. However, under its "bill-ready" billing platform, PECO does not receive sufficient information from EGSs that would allow PECO to automatically print EGS pricing in cents per kWh on the customer's bill. "Bill-ready" billing means that PECO receives calculated results from the EGS for its charges for printing on the customer's consolidated bill instead of the EGS rates used to calculate the dollar amount of its charges. Therefore, PECO proposes to add a chart in a similar format as Exhibit SD-6 to the first page of the residential customer bill that compares the customer's total supplier charges for the billing period and what the dollar amount of the charges would be under PECO's applicable PTC based on the customer's usage during the billing period. PECO proposes to implement the bill format change within the first two years of the DSP VI term after the Company's customer information system upgrade is complete.

46. Q. Will PECO continue the SOP that was first implemented as part of PECO's second default service program?

A. Yes. As I noted earlier, more than 282,000 customers have been referred to EGSs under PECO's Standard Offer Program introduced in 2013. Since June 1, 2021,

the Standard Offer Program has resulted in more than 10,000 residential customer and 258 small commercial customer referrals to EGSs that have voluntarily chosen to offer customers a 12-month contract priced 7% below PECO's default service rate at the time of the offer.

PECO proposes to extend the program for the four-year term of DSP VI. An extension of the Standard Offer Program is consistent with the Commission's conclusion in the DSP V Order (p. 31) that continuation of the Standard Offer Program was "beneficial" to all customers.

During DSP V, PECO enhanced the operation of the Standard Offer Program in several respects, including allowing customers to enroll in the program through the Company's website and performing a monthly evaluation of customer service representatives of the SOP third-party administrator that includes recommendations for additional coaching or training that is necessary to ensure compliance with the Commission-approved customer disclosures. In addition, PECO conducted a customer satisfaction survey of customers who participated in the SOP between June 1, 2021 and June 30, 2023. Over 80% of survey respondents reported a positive experience with PECO's SOP based on the ease of signing up and bill savings. At the end of the initial 12-month contract, 51.1% of the survey respondents selected a new EGS, 20.2% returned to default service, and 20.2% remained with the SOP supplier.

XII. GENERATION SUPPLY ISSUES

47. Q. Please describe the determination that the Commission must make pursuant to Section 2807(e)(3.7)(iii) of Pennsylvania's Electricity Generation Customer Choice and Competition Act ("Competition Act").

A. Section 2807(e)(3.7)(iii) of the Competition Act requires the Commission to determine that neither the default service provider nor its affiliated interest has withheld from the market any generation supply in a manner that violates federal law.

48. Q. Has PECO withheld from the market any generation supply in violation of federal law?

A. No.

49. Q. Has any PECO affiliate withheld from the market any generation supply in violation of federal law?

A. No. The Company does not have any affiliates that own generation supply.

XIII. PROCEDURAL SCHEDULE AND NOTICE

50. Q. Ms. Dalessio, please describe the procedural schedule PECO has proposed for this proceeding.

A. In accordance with the nine-month period for approval of a default service plan under the Public Utility Code, PECO proposes the following schedule for this proceeding:

February 2, 2024	Petition Filing
March 6, 2024	Prehearing Conference
April 12, 2024	Other Parties' Direct Testimony Due
May 9, 2024	Rebuttal Testimony Due
May 23, 2024	Surrebuttal Testimony Due
May 29-30, 2024	Oral Rejoinder Testimony and Hearings
June 20, 2024	Initial Briefs
July 3, 2024	Reply Briefs
August 14, 2024	Recommended Decision
October 10, 2024	Commission Order

51. Q. How will PECO provide notice to its customers of this filing?

A. PECO is providing extensive public notice of this filing to its customers. First, PECO will include a stand-alone bill insert in all customer bills over a 30-day period beginning on March 1, 2024. This standalone bill insert will notify customers of this filing, where they may obtain copies, and how they may participate in this proceeding by filing comments or complaints with the Commission. Second, PECO is publishing notices containing similar information in all of the major newspapers serving PECO's service territory. All notices will refer to PECO's website (peco.com/my-account/my-dashboard/rates-tariffs/filings), where a copy of the entire filing will be maintained. PECO is also serving copies of this filing on the Pennsylvania Office of Consumer Advocate,

the Pennsylvania Office of Small Business Advocate, the Commission's Bureau of Investigation and Enforcement, PJM, the Retail Energy Supply Association, all EGSs registered in PECO's service territory, and all active parties in PECO's DSP V proceeding and is requesting that the Commission publish notice of this filing in the *Pennsylvania Bulletin*.

XIV. CONCLUSION

52. Q. Does this conclude your direct testimony?

A. Yes.

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

PETITION OF PECO ENERGY COMPANY FOR APPROVAL OF ITS DEFAULT SERVICE PROGRAM FOR THE PERIOD FROM JUNE 1, 2025 THROUGH MAY 31, 2029	**:**	**DOCKET NO. P-2024-_____**

VERIFICATION

I, Sulma Dalessio, hereby state that I am a Director of Energy Acquisition for PECO; that I am authorized to and do make this Verification; and that the facts set forth in PECO Statement No. 1 and the accompanying exhibits are true and correct to the best of my knowledge, information and belief and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa. C.S. § 4904, relating to unsworn falsification to authorities.

Dated: February 2, 2024

Sulma Dalessio

Procurement Schedule

Class	Product Term	Months	Full Requirements Fixed Price Products

MASTER AGREEMENT

TABLE OF CONTENTS

PENNSYLVANIA DEFAULT SERVICE SUPPLIER MASTER AGREEMENT 1

ARTICLE 1: DEFINITIONS 2

ARTICLE 2: GENERAL TERMS AND CONDITIONS 12

2.1 Capacity In Which Company Is Entering Into This Agreement 12

2.2 Parties' Obligations 12

2.3 Congestion and Congestion Management 14

2.4 PJM Services 15

2.5 PJM Agreement Modifications 16

2.6 PJM Member Default Cost Allocation 16

2.7 Other Fines and Penalties 17

2.8 Communications and Data Exchange 17

2.9 Record Retention 18

2.10 Verification 18

2.11 Forward Contract Merchant 18

ARTICLE 3: REPRESENTATIONS AND WARRANTIES 19

3.1 DS Supplier's Representations and Warranties 19

3.2 Company's Representations and Warranties 22

3.3 Survival of Obligations 24

ARTICLE 4: COMMENCEMENT AND TERMINATION OF AGREEMENT 24

4.1 Commencement and Termination 24

4.2 Termination of Right to Supply 24

4.3 Survival of Obligations 25

4.4 Mutual Termination 25

ARTICLE 5: BREACH AND DEFAULT 26

5.1 Events of Default 26

5.2 Rights upon Default 29

5.3 Damages Resulting From an Event of Default 30

5.4 Declaration of an Early Termination Date and Calculation of Settlement Amount and Termination Payment 33

5.5 Step-up Provision 36
5.6 Setoff of Payment Obligations of the Non-Defaulting Party 37
5.7 Preservation of Rights of Non-Defaulting Party 37
ARTICLE 6: CREDITWORTHINESS 38
6.1 Applicability 38
6.2 Creditworthiness Determination 39
6.3 Buyer's Exposure and Mark-to-Market Credit Exposure Methodology 39
6.4 Credit Limit 40
6.5 Posting Margin and Return of Surplus Margin 43
6.6 Grant of Security Interest/Remedies 45
6.7 Security Instruments 47
6.8 Maintenance of Creditworthiness 48
6. 9 Calling on Security 48
6.10 Interest on Cash Held by Company 49
6.11 No Endorsement of DS Supplier 49
6.12 Multiple DS Supply Agreements 49
ARTICLE 7: PROCEDURES FOR ENERGY SCHEDULING, CAPACITY RESOURCE SUBMISSION AND TRANSMISSION PROCUREMENT 50
7.1 Load Obligations 50
7.2 Data Transmission 50
7.3 Energy Scheduling 50
ARTICLE 8: THE ENERGY SETTLEMENT/RECONCILIATION PROCESS 51
8.1 Energy Settlement By PJM 51
8.2 Energy Settlement by the Company 51
ARTICLE 9: BILLING AND PAYMENT 51
9.1 The Company Payment of Obligations to the DS Supplier 51
9.2 Billing for DS Supplier's Obligations to Other Parties 54
9.3 The DS Supplier Payment of Obligations to the Company 54
ARTICLE 10: SYSTEM OPERATION 55
10.1 Disconnection and Curtailment By the Company 55

10.2 Inadvertent Loss of Service to DS Customers 56
10.3 Good Faith Efforts 56
10.4 PJM Requirements 57
10.5 Compliance With Governmental Directives 57
ARTICLE 11: DISPUTE RESOLUTION 58
11.1 Informal Resolution of Disputes 58

APPENDIX I ADHERENCE TO THE U.S. STAY PROTOCOL

PENNSYLVANIA DEFAULT SERVICE SUPPLIER MASTER AGREEMENT

THIS DEFAULT SERVICE SUPPLIER MASTER AGREEMENT, made and entered into this _____ day of _____, ____ ("Effective Date") by and between PECO ENERGY COMPANY (the "Company" and "Buyer"), a corporation and a public utility organized and existing under the laws of the Commonwealth of Pennsylvania and **[INSERT NAME OF SUPPLIER]** ("DS Supplier"), the Company and the DS Supplier hereinafter sometimes referred to collectively as the "Parties", or individually as a "Party",

WITNESSETH:

WHEREAS, the Company is an electric public utility engaged, inter alia, in providing retail electric service within its service territory located in the Commonwealth of Pennsylvania; and

WHEREAS, the Pennsylvania Public Utility Commission ("PaPUC" or "Commission") Orders issued pursuant to the Electricity Generation Customer Choice and Competition Act, 66 Pa.C.S. §§ 2801-2812, direct Buyer to supply electric service to Default Service Load within Buyer's Pennsylvania franchise service territory; and

WHEREAS, the PaPUC has found that, for periods further identified in Appendix C and Transaction Confirmation(s) under this Agreement it would serve the public interest for the Company to secure Default Service Supply ("DS Supply") through a competitive procurement process ("DS Solicitation") and the PaPUC has approved such

a process; and

WHEREAS, the Company has conducted and completed a successful DS Solicitation for the provision of DS Supply, and the DS Supplier was one of the winning bidders in the DS Solicitation; and

WHEREAS, pursuant to the competitive bidding procedures of the DS Solicitation, the Company and the DS Supplier desire to enter into this Agreement setting forth their respective rights and obligations concerning the provision of DS Supply.

NOW, THEREFORE, in consideration of the mutual covenants and promises set forth below, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto, intending to be legally bound, hereby covenant, promise and agree as follows:

ARTICLE 1: DEFINITIONS

Any capitalized or abbreviated term not elsewhere defined in this Agreement shall have the definition set forth in this Article.

Alternative Energy Credit or "AEC" – Shall have the meaning ascribed thereto in the AEPS Act.

AEPS Act – The Pennsylvania Alternative Energy Portfolio Standards Act, 73 P.S. §§ 1648.1-1648.8.

Affiliate – Shall mean, with respect to any entity, any other entity that, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with, such entity. For this purpose, "control" means the direct or indirect ownership of fifty percent (50%) or more of the outstanding capital stock or other equity interests having ordinary voting power.

Allocated AECs – Shall mean the types and amounts of AECs specified on Appendix E and a Transaction Confirmation.

Alternative Energy Portfolio Standards or "AEPS" – Standards requiring that a certain amount of electric energy sold to retail electric customers in the Commonwealth of Pennsylvania be comprised of electricity generated from alternative energy sources, as measured by AECs, in accordance with the requirements of the AEPS Act and provisions of the Electricity Generation Customer Choice and Competition Act, 66 Pa.C.S. §§ 2812-14, in effect on the Effective Date including, without limitation, any subsequent increases in Tier I requirements under 66 Pa.C.S. § 2814.

Ancillary Services – Shall have the meaning ascribed thereto in the PJM Agreements.

Applicable Legal Authorities – Those federal and Pennsylvania statutes and administrative rules and regulations that govern the electric utility industry in Pennsylvania, as they may be amended from time to time.

Auction Revenue Rights or "ARRs" – The current or any successor congestion management mechanisms as may be employed by PJM (whether set forth in the PJM Agreements or elsewhere) for the purpose of allocating financial congestion hedges or financial transmission auction revenue rights. As currently defined by PJM, ARRs are entitlements allocated annually by PJM which entitle the holder to receive an allocation of the revenues from the annual auction of financial transmission rights conducted by PJM pursuant to the PJM Agreements.

Bankruptcy Code – Those laws of the United States of America related to bankruptcy, codified and enacted as Title 11 of the United States Code, entitled "Bankruptcy" and found at 11 U.S.C. § 101 et seq., as such laws may be amended, modified, replaced or superseded from time to time.

Billing Month – Each calendar month during the term of this Agreement.

Business Day – Any day on which the Company's and PJM's corporate offices are open for business and commercial banks are not authorized or required to close in New York, New York.

Capacity – "Unforced Capacity" as set forth in the PJM Agreements, or any successor, measurement of the capacity obligation of a Load Serving Entity as may be employed in PJM (whether set forth in the PJM Agreements or elsewhere).

Charge – Any fee, charge or other amount that is billable by the Company to the DS Supplier under this Agreement.

Commercial Class – Group of Rate Schedules that comprise the Commercial Class for DS Supply and itemized in Appendix C.

Company – PECO Energy Company.

Costs – With respect to the Non-Defaulting Party, brokerage fees, commissions and other

similar transaction costs and expenses reasonably incurred by such Party either in terminating any arrangement pursuant to which it has hedged its obligations or entering into new arrangements which replace Transaction(s) under this Agreement; and all reasonable attorneys' fees and expenses incurred by the Non-Defaulting Party in connection with the termination of this Agreement.

Customer – Any person or entity who enters a contractual agreement with the Company to receive retail electric service including, without limitation, all persons or entities taking service under a retail tariff, eligible to receive competitive electricity supply from an EGS or DS, respectively, in accordance with the Applicable Legal Authorities.

Damages – Financial compensation from the Defaulting Party to the Non-Defaulting Party associated with the occurrence of an Event of Default or an Early Termination of this Agreement. This compensation shall be assessed pursuant to Article 5 of this Agreement.

Defaulting Party – A Party to this Agreement that has caused or precipitated an Event of Default or an Early Termination of this Agreement.

Default Service or "DS" – Electric generation service that is provided at retail pursuant to the Applicable Legal Authorities under the Company's retail electric tariffs and under any other agreements or arrangements between the Company and Customers, to any Customer that is not being served by an EGS.

Default Allocation Assessment – shall have the meaning ascribed to it under the PJM Agreements.

Delivery Period – The delivery period specified in an Appendix C Transaction Confirmation.

Delivery Point – Means the applicable zone of the Company as designated by PJM.

DS Customer(s) – Retail customers who are provided Default Service pursuant to the terms of this Agreement, the Applicable Legal Authorities and the Company's retail tariffs.

DS Fixed Percentage – The percentage of DS Supply provided at a fixed price, as set forth in Appendix C.

DS Fixed Price – The price in dollars per MWh, as set forth in Appendix C hereto, as determined pursuant to the DS Solicitation.

DS Load – The aggregate load of DS Customers being provided DS Supply, except with respect to the Residential Class, less a fractional percentage of committed energy and capacity obtained under contract with Allegheny Electric Cooperative, Inc. for supply from the New York Power Authority.

DS Solicitation – The competitive bidding processes, procedures and rules employed by the Company to competitively procure DS Supply for purposes of this Agreement.

DS Supplier – An entity that (i) has been selected through the DS Solicitation and has accepted the obligations and associated rights to provide DS Supply to the Company for DS Customers in accordance with the Applicable Legal Authorities, (ii) has entered into this Agreement with the Company as a Party, and (iii) is a PJM Member and registered with PJM as a LSE.

DS Supplier Representative – Any officer, director, employee, consultant, contractor, or other agent or representative of the DS Supplier in connection with the DS Supplier's activity under this Agreement. To the extent the DS Supplier is a division or group of a company, the term DS Supplier Representative does not include any person in that company who is not part of the DS Supplier division or group.

DS Supplier Responsibility Share – The fixed percentage share of the Company's DS Load for which the DS Supplier is responsible as set forth in Appendix C.

Default Service Supply or "DS Supply" – All necessary Energy, Capacity, AECs for AEPS Act compliance, Ancillary Services, and transmission services including Network Integration Transmission Service, all transmission and distribution losses and congestion and imbalance costs associated with the provision of such services, and such other services or products that the DS Supplier may be required, by PJM or any governmental body having jurisdiction, to provide in order to meet the DS Supplier Responsibility Share for serving DS Load under this Agreement and as detailed in Appendix C. For the avoidance of doubt, (i) any reference in this Agreement to any other agreement for DS Supply shall include any agreement between the Parties for the provision of Energy to serve DS Load, even if such other agreement does not require delivery of additional products (e.g., Capacity); and (ii) DS Load shall include unaccounted for energy, as reflected in PJM settlement volumes (including adjustments required by PJM for PJM's derating in conjunction with implementation of marginal losses as appropriate per PJM Agreements).

DS Tariffs – The Company's existing schedules of rates and services provided to retail customers as currently on file with the Commission and on the Company's website at EDC website, as they may be amended from time to time.

DS Variable Percentage – The percentage of DS Supply provided at a variable price, as set forth in Appendix C hereto**.**

DS Variable Price – The price in dollars per MWh, as set forth in Appendix C hereto.

Early Termination – Termination of this Agreement prior to the end of the term due to the occurrence of an Event of Default as specified in Section 5.2 of this Agreement and the declaration of Early Termination.

Early Termination Date – The date upon which an Early Termination becomes effective as specified in Section 5.2 of this Agreement.

Effective Date - The date specified above as the effective date.

Electric Distribution Company or "EDC" – A public utility providing facilities for the transmission and distribution of electricity to retail customers in Pennsylvania.

Electric Generation Supplier or "EGS" – A person or entity that is duly certified by the Commission to offer and provide competitive electric supply to retail customers located in the Commonwealth of Pennsylvania.

Emergency – (i) an abnormal system condition requiring manual or automatic action to maintain system frequency, or to prevent loss of firm load, equipment damage, or tripping of system elements that could adversely affect the reliability of an electric system or the safety of persons or property; or (ii) a condition that requires implementation of Emergency Operations Procedures as defined in the PJM Agreements or PJM manuals; or (iii) any other condition or situation that the Company or PJM deems imminently likely to endanger life or property or to affect or impair the Company's electrical system or the electrical system(s) of other(s) to which the Company's electrical system is directly or indirectly connected (a "Connected Entity"). Such a condition or situation may include, but shall not be limited to, potential overloading of the Company's transmission and/or distribution circuits, PJM minimum generation ("light load") conditions, or unusual operating conditions on either the Company's or a Connected Entity's electrical system, or conditions such that the Company is unable to accept Energy from the DS Supplier without jeopardizing the Company's electrical system or a Connected Entity's electrical system. Other additional emergencies can only be declared by PJM, FERC, or the PaPUC.

Energy – Three-phase, 60-cycle alternating current electric energy, expressed in units of kilowatt-hours or megawatt-hours.

Event of Default – A Party's breach of obligations under this Agreement as set forth in Article 5 of this Agreement.

FERC – The Federal Energy Regulatory Commission.

Final Monthly Energy Allocation or "FMEA" – A quantity of Energy which, for any Billing Month, is the PMEA adjusted for any billing or metering data received subsequent to the calculation of PMEA of which PJM is notified within 60 days.

Force Majeure – Shall mean an event or circumstance which prevents one Party from performing its obligations under one or more transactions, such as riots or revolutions, demands or embargoes of the United States Government, fire, flood, drought, insurrection, acts of God which are not within the reasonable control of, or the results of

the negligence of the affected Party and which, by the exercise of due diligence, the Party is unable to mitigate or avoid or cause to be avoided. Notwithstanding the foregoing, under no circumstance shall an event of Force Majeure be based on: (i) the loss or failure of DS Supplier's supply; (ii) DS Supplier's ability to sell the DS Supply at a price greater than that received under any Transaction; (iii) curtailment by a utility transmitting DS Supply; (iv) the Company's ability to purchase the DS Supply at a price lower than paid under any Transaction; (v) any change in requirements of any governmental authority; or (vi) labor stoppage or lockout.

Forward Market Price – The price for On-peak Energy Forward Price and Off-peak Energy Forward Price as determined by averaging concurrent broker quotes obtained by the Company for the Market Price Hub as available.

Gains – With respect to any Party, an amount equal to the present value of the economic benefit to it, if any (exclusive of Costs), resulting from an Early Termination of this Agreement, determined in a commercially reasonable manner.

Generator Attribute Tracking System or "GATS" - the system owned and operated by PJM Environmental Information Services, Inc. to provide reporting and tracking services to its subscribers in support of the AEPS Act, or any successor credit registry selected by the PaPUC. (As specified in Appendix E)

Guaranty – A guaranty, suretyship, hypothecation agreement, margins or security agreement or any other document in the form attached to this DS Supplier Master Agreement or other form approved by the Company.

Guarantor – Any party having the authority and agreeing to guarantee the DS Supplier's financial obligations under this Agreement, recognizing that such party shall be obligated to meet the Company's creditworthiness requirements specified in this Agreement for such DS Supplier.

Industrial Class - Group of Rate Schedules that comprise the Industrial Class for the DS Supply and itemized in Appendix C.

Interest Index – The average Federal Funds Effective Rate for the period of time the funds are on deposit. The Federal Funds Effective Rate is published daily on the Federal Reserve website (http://www.federalreserve.gov/releases/h15/update/).

Kilowatt or "kW" – Unit of measurement of useful power equivalent to 1000 watts.

Kilowatt-hour or "kWh" – One kilowatt of electric power used over a period of one hour.

Load Serving Entity or "LSE" – An entity that has been granted the authority or has an obligation pursuant to state or local law, regulation or franchise to sell electricity to retail customers located within the PJM Control Area as that term is defined in the PJM

Agreements or in successor, superseding or amended versions of the PJM Agreements that may take effect from time to time over the term of this Agreement.

Losses – With respect to any Party, an amount equal to the present value of the economic loss to it, if any (exclusive of Costs), resulting from an Early Termination of this Agreement, determined in a commercially reasonable manner.

Margin – The amount by which the Total Exposure Amount exceeds the DS Supplier's, or Guarantor's, credit limit as defined in Section 6.4.

Mark-to-Market ("MtM") Exposure Amount – An amount calculated daily for each DS Supplier reflecting the total MtM credit exposure to the Company due to fluctuations in market prices for Energy. The methodology for calculation of the MtM credit exposure is illustrated in Appendix B.

Market Price Hub - A liquid pricing point located within PJM's geographic footprint, as specified in Appendix B.

Maximum Credit Limit – The lesser of the applicable percentage of TNW or the applicable credit limit cap as specified in Section 6.4 of this Agreement.

Megawatt or MW – One thousand kilowatts.

Megawatt-hour or MWh – One megawatt of electric power used over a period of one hour.

Merger Event – When a DS Supplier consolidates or amalgamates with, or merges into or with, or transfers all or substantially all of its assets to another entity and either (i) the resulting entity fails to assume all of the obligations of such DS Supplier hereunder as determined in the sole discretion of the Company or (ii) the benefits of any credit support provided pursuant to Article 6 of this Agreement fail to extend to the performance by such resulting, surviving or transferee entity of the DS Supplier's obligations hereunder, and the resulting entity or its guarantor fails to meet the creditworthiness requirements of this Agreement as determined in the sole discretion of the Company.

Minimum Rating – A minimum senior unsecured debt rating as defined in Appendix A of this Agreement.

Minimum Transfer Amount - $100,000.

NERC – The North American Electric Reliability Council or its successor.

Network Integration Transmission Service or "NITS" – "Network Integration Transmission Service" under the PJM Agreements in effect as of the date of this Agreement, or its successor, superseding or amended versions of the PJM Agreements that may take effect from time to time over the term of this Agreement. In the event the

PJM Agreements are modified such that "Network Integration Transmission Service" is no longer offered, Network Integration Transmission Service shall mean the type of transmission service offered under the PJM Agreements that is accorded the highest level of priority for scheduling and curtailment purposes.

Non-Defaulting Party - A Party to this Agreement who, at the time an Event of Default occurs, is not itself in default of this Agreement and has not otherwise caused or precipitated an Event of Default or Early Termination of this Agreement.

Off-Peak Energy Forward Price - Shall mean the price for Off-Peak Hours for each Billing Month of the delivery period stated in terms of $/MWh as based on the most recent publicly available information and/or quotes from Reference Market Makers on forward energy transactions occurring at the Market Price Hub. In the event that the Market Price Hub is no longer available or no longer representative of a transparent trading hub, the Parties will negotiate in good faith to agree upon an alternate liquid price.

On-Peak Energy Forward Price – Shall mean the price for On-Peak Hours for each Billing Month of the delivery period stated in terms of $/MWh as based on the most recent publicly available information and/or quotes from Reference Market Makers on forward energy transactions occurring at the Market Price Hub. In the event that the Market Price Hub is no longer representative of a transparent trading hub, the Parties will negotiate in good faith to agree upon an alternate liquid price.

PaPUC or Commission – The Pennsylvania Public Utility Commission or its successor.

PJM – PJM Interconnection L.L.C. or its successor.

PJM Agreements – The PJM OATT, PJM RAA, PJM OA and all other PJM agreements, procedures, manuals and documents applicable to the Transactions covered by or relating to this Agreement.

PJM Control Area – That certain Control Area encompassing electric systems in parts of Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, and the District of Columbia, as may be modified from time to time, and which is recognized by the North American Electric Reliability Council as the "PJM Control Area".

PJM Member – A member in good standing of PJM that satisfies the requirements to conduct business with PJM.

PJM OA – The PJM Operating Agreement or the successor, superseding or amended version of the PJM Operating Agreement that may take effect from time to time.

PJM OATT – The PJM Open Access Transmission Tariff or the successor, superseding or amended version of the PJM Open Access Transmission Tariff that may take effect from time to time.

PJM OI – The PJM Office of Interconnection, the system operator for the PJM Control Area.

PJM RAA – The PJM Reliability Assurance Agreement or the successor, superseding or amended version of the PJM Reliability Assurance Agreement that may take effect from time to time.

PMEA/FMEA Adjustment Amount – For any Billing Month, the monetary amount due to the DS Supplier or the Company, as the case may be, in order to reconcile any difference between the PMEA used for the purpose of calculating estimated payments made to DS Supplier for a given month and the FMEA used for calculating the final payments due to the DS Supplier for such month as more fully described in Article 9 hereof.

Preliminary Monthly Energy Allocation or "PMEA" – A quantity of Energy which, for any Billing Month, is the preliminary calculation of the DS Supplier's DS Supplier Responsibility Share for that Billing Month.

Rate Schedule(s) – Shall mean the specified existing, and modified or successor customer rate schedule(s) in the electric service tariff of the Company filed with the Commission.

Reliability First Corporation or "RFC" – The approved regional NERC entity with responsibility for the Commonwealth of Pennsylvania.

Residential Class – Group of Rate Schedules that comprise the Residential Class for the DS Supply and itemized in Appendix C

Seasonal Billing Factor – A numerical factor, as set forth in Appendix C hereto, one amount applicable during the summer months of June through September and one amount applicable during the non-summer months of October through May, applied to the DS Fixed Price in accordance with the provisions of Article 9 hereof and thereby used to adjust the Company's payments to the DS Supplier.

Rounding Amount - $100,000.

Settlement Amount – With respect to a Non-Defaulting Party, the net amount of the Losses or Gains, and Costs, expressed in U.S. Dollars, which such Party incurs as a result of Early Termination, as set forth in Section 5.4(a) of this Agreement. For the purposes of calculating the Termination Payment, the Settlement Amount shall be considered an amount due to the Non-Defaulting Party under this Agreement if the total of the Losses and Costs exceeds the Gains and shall be considered an amount due to the Defaulting

Party under this Agreement if the Gains exceed the total of the Losses and Costs.

Statement – A monthly report prepared by the Company for the DS Supplier indicating the amount due to the DS Supplier by the Company as compensation for DS Supply supplied to DS Customers by the DS Supplier during the applicable Billing Month, in accordance with DS Supplier's obligations under this Agreement.

Supply Day – Any calendar day during the term of this Agreement on which the DS Supplier is providing, or is obligated by this Agreement to provide, DS Supply to the Company's DS Customers.

Tangible Net Worth or "TNW" – Total assets less intangible assets and total liabilities. Intangible assets include benefits such as goodwill, patents, copyrights and trademarks.

Termination Payment – An amount paid by the Defaulting Party or Non-Defaulting Party due to Early Termination.

Tier I AEC – Shall mean an AEC generated by a non-solar photovoltaic energy source that will satisfy the non-solar photovoltaic Tier I requirements of the AEPS Act applicable to the Company. (As specified in Appendix E)

Tier I (Solar) AEC – Shall mean an AEC generated by a solar photovoltaic energy source that will satisfy the Tier I solar photovoltaic requirements of the AEPS Act applicable to the Company. (As specified in Appendix E)

Tier II AEC - Shall mean an AEC generated by a non-solar photovoltaic energy source that will satisfy the Tier II requirements of the AEPS Act applicable to the Company. (As specified in Appendix E)

Total Exposure Amount – An amount calculated daily for the DS Supplier reflecting the total credit exposure to the Company and consisting of the sum of (i) the Buyer's Exposure for all Transactions under this Agreement; (ii) any amount(s) designated as "buyer's exposure" under any other DS Supply agreements providing for "DS Supply" or similar default service; provided that in the event the amount calculated for any day is a negative number, it shall be deemed to be zero for such day.

Tranche – A fixed percentage share of the Company's DS Load, as specified in a Transaction Confirmation.

Transaction – Means a particular agreement by which the Company purchases and the DS Supplier sells DS Supply pursuant to this Agreement, the details of which are more fully set forth in a Transaction Confirmation in the form attached as Exhibit 1 in Appendix C.

Transaction Confirmation – Shall have the meaning ascribed to it in Appendix C and Exhibit 1 of this Agreement.

Transaction Date – Shall mean the date that a Transaction is effective as set forth in the Transaction Confirmation.

ARTICLE 2: GENERAL TERMS AND CONDITIONS

2.1 Capacity In Which Company Is Entering Into This Agreement

The DS Supplier agrees and acknowledges that the Company is contracting for the provision of DS Supply from such DS Supplier for Customers receiving Default Service on the Company's electric system pursuant to the authorizations provided to the Company. The DS Supplier further agrees and acknowledges that the Company will administer and monitor the DS Supplier's performance in providing DS Supply under this Agreement and that the Company shall be entitled to enforce the DS Supplier's obligations related to the provision of DS Supply. The DS Supplier hereby permanently, expressly and irrevocably waives any claim that Company is not entitled to seek enforcement of this Agreement on behalf of Customers. It is the specific intention of the Parties hereto that Customers and Customer groups are not third party beneficiaries of this Agreement and that no Customer or Customer group shall seek enforcement of this Agreement against the DS Supplier on their own behalf, either independently or by joining in any legal proceeding brought by the Company.

2.2 Parties' Obligations

(a) Obligations of DS Supplier

The DS Supplier hereby agrees as follows:

(i) To provide service on a firm and continuous basis such that the supply delivered for the term of each Transaction under the Agreement meets the terms and conditions set forth in Appendix C and the applicable Transaction Confirmation;

(ii) To provide sufficient quantities of DS Supply on an instantaneous basis at all times during the Delivery Period of each Transaction and supplied to the Delivery Point to meet the DS Supplier Responsibility Share;

(iii) To procure those services provided by the PJM OI and to perform such functions as may be required by the PJM OI that are necessary for the delivery of DS Supply required hereunder;

(iv) To cooperate with the Company in any regulatory compliance efforts that may be required to maintain the ongoing legitimacy and enforceability of the terms of this Agreement and to fulfill any regulatory reporting requirement associated with the provision of DS Supply, before the PaPUC, FERC or any other regulatory body asserting jurisdiction;

(v) To become the LSE with respect to the provision of DS Supply for the DS Supplier Responsibility Share and to comply with all requirements of a LSE with respect to such DS Supplier Responsibility Share;

(vi) To pay to the Company the PMEA/FMEA Adjustment Amount for any Billing Month in which the PMEA exceeds the FMEA, as more fully described in Article 9 of this Agreement;

(vii) To accept assignment of and to fulfill all obligations of a LSE that are assigned to it by this Agreement;

(viii) To comply in a timely manner with all obligations under this Agreement imposed upon the DS Supplier;

(ix) To comply with the AEPS requirements of the Company's Default Service Plan, as detailed in Appendix E; and

(x) To provide a completed generation supply report to the Company, in the form of Appendix H, by March 31st of each calendar year for all Energy provided to the Company under this Agreement in the preceding calendar year.

(b) Obligations of the Company

The Company hereby agrees as follows:

(i) To pay to the DS Supplier every month an amount due, resulting from the calculations, as detailed in Article 9 of this Agreement, subject to the adjustments as expressed therein;

(ii) Pay to the DS Supplier the PMEA/FMEA Adjustment Amount for any Billing Month in which the FMEA exceeds the PMEA, as more fully described in Article 9 of this Agreement;

(iii) To provide to the DS Supplier its estimated aggregate load obligation (Capacity MW value) for each Supply Day no less than five (5) calendar days prior to the day of delivery. Further, this information will be posted in the DS Supplier's specific PJM eMTR account, or successor system or process;

(iv) To comply in a timely manner with all obligations under this Agreement imposed upon the Company;

(v) Accept the delivery of DS Supply necessary to meet the DS Load; and

(vi) Be responsible (as between the Company and the DS Supplier) for the provision of the Allocated AECs to satisfy AEPS requirements.

2.3 Congestion and Congestion Management

The DS Supplier is responsible for any congestion costs incurred to meet the DS Supplier Responsibility Share. The Company shall transfer or assign to the DS Supplier the Company's rights to ARRs to which the Company is entitled as a LSE pursuant to the PJM Agreements provided that such rights are related to the service being provided to meet the DS Supplier Responsibility Share and such rights are for the Delivery Period indicated in the Transaction Confirmation(s). All rights, liabilities and obligations associated with such ARRs will accrue and be assumed by the DS Supplier through the transfer or assignment from the Company to the DS Supplier including the responsibility and ability of the DS Supplier to request or nominate such ARRs when applicable and feasible. Should the conditions above not be met, the entity recognized by PJM as having the right to make the nominations will nominate such ARRs for the upcoming PJM planning period and such ARRs will be allocated to the DS Supplier in accordance with the PJM Agreements based upon its DS Supplier Responsibility Share.

2.4 PJM Services

The DS Supplier shall make all necessary arrangements for the delivery of DS Supply through the PJM OI. The Company will advise the PJM OI of the magnitude and location of each DS Supplier's actual DS Supplier Responsibility Share, as required by the PJM OI, for the purpose of calculating such DS Supplier's appropriate DS Supply requirements related to the provision of service under this Agreement by DS Supplier arising under the PJM Agreements. The DS Supplier shall remain responsible to PJM for the performance of its LSE obligations associated with the provision of DS Supply under

this Agreement until the effective date of the transfer of such LSE obligations.

The Company shall generate and provide to DS Supplier PJM shortname(s) associated with supplier's unique contract type(s), as necessary. Unique shortname(s) may be generated for each differing contract type. DS Supplier shall complete all required forms and processing to PJM to create shortname(s) within the PJM system.

For the period of time this Agreement is in effect, both the Company and DS Supplier shall have executed the PJM Declaration of Authority, and shall remain in effect during the Term of each Transaction under this Agreement. In the event PJM requires that the Declaration of Authority be amended after execution by the DS Supplier, DS Supplier agrees to execute a revised Declaration of Authority in accordance with PJM requirements.

2.5 PJM Agreement Modifications

(a) If the PJM Agreements are amended or modified so that any schedule or section references herein to such agreements is changed, such schedule or section references herein shall be deemed to automatically (and without any further action by the Parties) refer to the new or successive schedule or section in the PJM Agreements which replaces that originally referred to in this Agreement.

(b) If the applicable provisions of the PJM Agreements referenced herein, or any other PJM rules relating to the implementation of this Agreement, are changed materially from those in effect on the Effective Date, both Parties shall cooperate to make conforming changes to this Agreement to fulfill the purposes of this Agreement, including the DS Supplier's responsibility for changes in PJM products and pricing during the term of each Transaction under this Agreement.

2.6 PJM Member Default Cost Allocation

In the event PJM imposes a Default Allocation Assessment upon the Company relating to a default during the term of Transaction(s) under this Agreement, the Company shall invoice DS Supplier and DS Supplier shall pay an amount equal to the product of (i) DS Supplier Responsibility Share and (ii) the Default Allocation Assessment, less the amounts of any types of charges allocated to the Company under this Agreement that are used by PJM in calculating such Default Allocation Assessment.

2.7 Other Fines and Penalties

If fees, fines, penalties, or costs are claimed or assessed against the Company by any Applicable Legal Authority or PJM due to non-compliance by the DS Supplier with this Agreement, any other requirements of law, or the PJM Agreements, the DS Supplier shall indemnify and hold the Company harmless against any and all losses, liabilities, damages, and claims suffered or incurred by the Company, including claims for indemnity or contribution made by third parties against the Company, except to the extent the Company recovers any such losses, liabilities or damages through other provisions of this Agreement.

2.8 Communications and Data Exchange

The DS Supplier and the Company shall supply to each other in a thorough and timely manner all data, materials or other information that is specified in this Agreement, or that may otherwise reasonably be required by DS Supplier or by the Company in connection with the provision of DS Supply by the DS Supplier to DS Customers, if required.

The DS Supplier shall be equipped with the communications capabilities necessary to comply with the communications and data exchange standards that are set by and as may, from time to time, be modified by PJM, and shall exclusively bear the costs of installing, maintaining, testing, and operating all required information technology systems that will enable it to send to and receive data from the Company and PJM and to satisfy its obligations under this Agreement, the PJM Agreements and all other relevant agreements.

2.9 Record Retention

The Company shall retain necessary records for the longer of two years or as required under applicable PaPUC requirements so as to permit DS Supplier to confirm the validity of payments due to DS Supplier hereunder; provided that if a DS Supplier has provided notice pursuant to this Agreement that it disputes the validity of any payments, the Company agrees that it shall retain all records related to such dispute until the dispute is finally resolved.

2.10 Verification

In the event of a good faith dispute regarding any invoice issued or payment due under this Agreement, and provided that a mutually acceptable confidentiality agreement is executed by the Parties, each Party will have the right to verify, at its sole expense, the accuracy of the invoice or the calculation of the payment due by obtaining copies of relevant portions of the books and records of the other Party.

2.11 Forward Contract Merchant

The Parties agree that the Agreement is a "forward contract" within the

meaning of the United States Bankruptcy Code, that each Party hereto is a "forward contract merchant" within the meaning of the United States Bankruptcy Code, all setoffs, netting and liquidations contemplated hereunder constitute "settlement payments" as set forth in Sections 101 and 741 of the United States Bankruptcy Code and each payment or transfer of performance assurance is a "margin payment", "settlement payment" or transfer within the meaning of Section 101 of the United States Bankruptcy Code for the purposes of and as used in such Code. Accordingly, the Parties hereto are entitled to the protections of Section 556 of the United States Bankruptcy Code. The Parties therefore agree that the Agreement may be terminated by either Party upon the commencement of a proceeding by the other Party under any chapter of the United States Bankruptcy Code in accordance with Section 5.2 of this Agreement.

ARTICLE 3: REPRESENTATIONS AND WARRANTIES

3.1 DS Supplier's Representations and Warranties

The DS Supplier hereby represents, warrants and covenants to the Company on the Effective Date and throughout the term of the Transaction(s) under this Agreement as follows:

a) It is a corporation, partnership, limited liability company or other legal entity, duly organized, validly existing and in good standing under the laws of the Commonwealth of Pennsylvania or, if another jurisdiction, under the laws of such jurisdiction and, in such case, is duly registered and authorized to do business in such other jurisdiction;

b) It has all requisite power and authority to execute and deliver this Agreement and to carry on the business to be conducted by it under this Agreement and

to enter into and perform its obligations hereunder, including satisfaction of all applicable FERC requirements;

c) The execution and delivery of this Agreement and the performance of such DS Supplier's obligations hereunder have been duly authorized by all necessary action on the part of the DS Supplier and do not and will not conflict with, or constitute a breach of or default under, any of the terms, conditions, or provisions of the DS Supplier's certificate of incorporation or bylaws or other constituent instruments or any indenture, mortgage, other evidence of indebtedness, or other agreement or instrument or any statute or rule, regulation, order, judgment, or decree of any judicial or administrative body to which the DS Supplier is a party or by which the DS Supplier or any of its properties is bound or subject;

d) All necessary and appropriate action that is required on the DS Supplier's part to execute this Agreement has been completed;

e) This Agreement is the legal, valid and binding obligation of the DS Supplier, enforceable in accordance with its terms, except as such enforceability may be limited by applicable bankruptcy, insolvency or similar laws from time to time in effect that affect creditors' rights in general or by general principles of equity;

f) There are no actions at law, suits in equity, proceedings or claims pending or, to the DS Supplier's knowledge, threatened against the DS Supplier before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the DS Supplier's performance of its obligations hereunder;

g) It has entered into this Agreement and all Transactions under this Agreement with a full understanding of the material terms and risks of the same, and it is capable of assuming those risks;

h) It is in good standing as a LSE in PJM, is a signatory to all applicable PJM Agreements, and is in compliance with, and will continue to comply with, all obligations, rules and regulations, as established and interpreted by the PJM OI, that are applicable to LSEs as defined by the PJM Agreements; provided that the DS Supplier shall not be obligated to become a LSE in PJM until the date it begins providing DS Supply;

i) It has made its trading and investment decisions (including regarding the suitability thereof) based upon its own judgment and any advice from such advisors as it has deemed necessary and not in reliance upon any view expressed by the Company;

j) It will comply with any and all information and data transfer protocols that may be adopted by the Company or that are set by, and from time to time modified by, the PaPUC; provided that DS Supplier shall be entitled to exercise its reserved right to challenge any such protocols in the appropriate forum.

k) It is not bankrupt or insolvent and there are no proceedings pending or being contemplated by it or, to its knowledge, threatened against it which would result in it being or becoming bankrupt or insolvent;

l) There are no pending, or to its knowledge threatened, actions, suits or proceedings against it or any of its Affiliates, or any legal proceedings before any Governmental Authority, that could materially adversely affect its ability to perform its obligations under this Agreement;

m) No Event of Default with respect to it has occurred and is continuing and no such event or circumstance would occur as a result of its entering into or performing its obligations under this Agreement;

n) It is not relying upon the advice or recommendations of the other Party in entering into this Agreement, it is capable of understanding, understands and accepts the terms, conditions and risks of this Agreement, and the other Party is not acting as a fiduciary for or advisor to it in respect of this Agreement; and

o) It has entered into this Agreement and all Transactions under this Agreement in connection with the conduct of its business and it has the capacity or ability to provide or take delivery of DS Supply as required by this Agreement; and it is an "eligible contract participant" as defined in Section 1a(18) of the Commodity Exchange Act.

3.2 Company's Representations and Warranties

The Company hereby represents, warrants and covenants to the DS Supplier as follows:

a) The Company is an electric utility corporation duly organized, validly existing and in good standing under the laws of the Commonwealth of Pennsylvania;

b) The Company has all requisite power and authority to carry on the business to be conducted by it under this Agreement and to enter into and perform its obligations hereunder;

c) The execution and delivery of this Agreement and the performance of the Company's obligations hereunder have been duly authorized by all necessary action on

the part of the Company and do not and will not conflict with, constitute a breach of or default under, any of the terms, conditions, or provisions of the Company's certificate of incorporation or bylaws or any indenture, mortgage, other evidence of indebtedness, or other agreement or instrument or any statute or rule, regulation, order, judgment, or decree of any judicial or administrative body to which the Company is a party or by which the Company or any of its properties is bound or subject;

d) All necessary and appropriate action that is required on the Company's part to execute this Agreement has been completed;

e) This Agreement is the legal, valid and binding obligation of the Company, enforceable in accordance with its terms, except as such enforceability may be limited by applicable bankruptcy, insolvency or similar laws from time to time in effect that affect creditors' rights in general or by general principles of equity and the Commission's power under section 508 of the Public Utility Code, 66 Pa.C.S. § 508, to amend or modify the contracts of public utilities;

f) The ability of the Company to pay any and all amounts due and payable under this Agreement, or upon any potential breach thereof, is not conditioned upon any governmental or administrative appropriation by the Commission, the Commonwealth of Pennsylvania or any other governmental authority;

g) There are no actions at law, suits in equity, proceedings or claims pending or, to the Company's knowledge, threatened against the Company before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the Company's performance of its obligations under this Agreement;

h) It has entered into this Agreement and all Transactions under this Agreement with a full understanding of the material terms and risks of the same, and it is capable of assuming those risks;

i) The Company's performance under this Agreement is not contingent upon the performance of Customers or the ability of Customers to pay rates;

j) The Company shall have sole responsibility for metering and billing with respect to Customers; and

k) The Company shall be responsible for electric distribution services and the DS Supplier shall not be responsible for distribution charges.

3.3 Survival of Obligations

All representations and warranties contained in this Article are of a continuing nature and shall be maintained during the term of this Agreement or until all amounts due hereunder, including all obligations, have been paid or performed in full. If a Party learns that any of the representations, warranties or covenants in this Agreement are no longer true during the term of any Transaction under this Agreement, the Party shall immediately notify the other Party via facsimile, with a hard copy of the notice delivered by overnight mail.

ARTICLE 4: COMMENCEMENT AND TERMINATION OF AGREEMENT

4.1 Commencement and Termination

The term of this Agreement shall commence upon the Effective Date. Unless otherwise agreed upon by the Company and the DS Supplier, this Agreement shall continue in full force and effect from the Effective Date until the end of all Transaction(s)

executed under this Agreement, unless the Agreement is terminated prematurely pursuant to the provisions of this Agreement.

4.2 Termination of Right to Supply

The DS Supplier agrees that termination of this Agreement for reason of an Event of Default shall terminate any right of the DS Supplier to provide DS Supply to the DS Customers and nullify any of the entitlements to which the DS Supplier became entitled as a result of being selected as a winning bidder in the DS Solicitation.

4.3 Survival of Obligations

Termination of this Agreement for any reason shall not relieve the Company or the DS Supplier of any obligation accrued or accruing prior to such termination. Applicable provisions of this Agreement shall continue in effect after termination to the extent necessary to provide for final billings.

4.4 Mutual Termination

The Company and the DS Supplier may agree at any time during the term of this Agreement to terminate their respective rights and obligations hereunder on such terms and under such conditions that they mutually deem to be appropriate as set forth in a mutual termination agreement acceptable in form and substance to the Company and the DS Supplier ("Mutual Termination Agreement"); provided that Company agrees that it shall enter into such a Mutual Termination Agreement, which will discharge the terminating DS Supplier (the "Terminating DS Supplier") with respect to liabilities arising after the effective date of the Mutual Termination Agreement if the following conditions precedent are met: (i) the Terminating DS Supplier identifies a replacement

DS Supplier willing to assume all obligations of the Terminating DS Supplier hereunder for the remaining term of Transactions under this Agreement (the "Replacement DS Supplier"); (ii) the Replacement DS Supplier demonstrates its compliance with Article 6 of this Agreement, "Creditworthiness", as of the effective date of the Mutual Termination Agreement, that determination to be made in the sole discretion of Company; (iii) the Replacement DS Supplier executes a counterpart signature page to this Agreement and all Transaction Confirmation(s) that are currently in effect and thereby becomes a Party under this Agreement and all relevant Transaction(s), effective immediately following the effective date of the Mutual Termination Agreement; and (iv) the Terminating DS Supplier is not, to the belief or knowledge of the Company, subject to an Event of Default as of the effective date of the Mutual Termination Agreement or, if the Company believes that the Terminating DS Supplier may be subject to an Event of Default, either (a) the Company has determined that, as of the effective date of the Mutual Termination Agreement, it has not incurred any Damages as a result of the Event of Default or (b) if the Company has determined, as of the effective date of the Mutual Termination Agreement, that it may have incurred Damages as a result of the Event of Default, that the Replacement DS Supplier has agreed in writing to be responsible for the payment of such Damages or to otherwise cure the Event of Default, in either case to the satisfaction of the Company in its sole discretion.

ARTICLE 5: BREACH AND DEFAULT

5.1 Events of Default

An Event of Default under this Agreement shall occur if a Party (the "Defaulting Party"):

(i) Is the subject of a voluntary bankruptcy, insolvency or similar proceeding;

(ii) Makes an assignment for the benefit of its creditors;

(iii) Applies for, seeks consent to, or acquiesces in the appointment of a receiver, custodian, trustee, liquidator or similar official to manage all or a substantial portion of its assets;

(iv) Is dissolved (other than pursuant to a consolidation, amalgamation or merger) or is the subject of a Merger Event;

(v) Has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets;

(vi) Has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger);

(vii) In the case of a DS Supplier, PJM terminates the DS Supplier's ability to make purchases from PJM markets or PJM holds the Company responsible for the provision of DS Supply under this Agreement and PJM does not rescind such termination or assignment of responsibility within seven (7) Business Days;

(viii) Fails to comply with the creditworthiness requirements as set forth in Article 6 of this Agreement, including, without limitation, compliance with the creditworthiness requirements to cover the Margin calculated under Section 6.3 or post any performance assurance collateral as set forth in Section 6.7 to cover Margin due under Section 6.5 of this Agreement, within the time frames set forth in this Agreement;

(ix) Is declared by PJM to be in default of any provision of any PJM Agreement, which default prevents a Party's performance hereunder if such failure is not

remedied within three (3) Business Days after written notice;

(x) Fails to make, when due, any payment required pursuant to this Agreement if such failure is not remedied within two (2) Business Days after written notice;

(xi) Violates any federal, state or local code, regulation or statute applicable to the supply of Energy and/or AECs in a manner that materially, and adversely, affects the Party's performance under this Agreement, including by way of failure to continually satisfy all applicable FERC requirements, or, in the case of the DS Supplier, by way of failure to maintain any other governmental approvals required for participation in the Pennsylvania retail Energy market, or defaults on any obligation or other failure to comply with PJM requirements under the PJM Agreements;

(xii) Is the subject of an involuntary bankruptcy or similar proceeding;

(xiii) Subject to Section 5.3 (b) of this Agreement, in the case of the Company, fails to accept DS Supply properly tendered by the DS Supplier under this Agreement;

(xiv) Fails to perform any material covenant or obligation set forth in this Agreement, if such failure is not remedied within three (3) Business Days after written notice;

(xv) Makes a materially incorrect or misleading representation or warranty under this Agreement or under any response to the DS Solicitation;

(xvi) Commits an act or makes an omission that constitutes an "Event of Default" under any other agreement(s) for the provision of DS Supply between the Company and the DS Supplier; and fails to remedy such condition, event or delinquency herein above described such that the other Party (the "Non-Defaulting Party") is

completely made whole with respect to such condition, event or delinquency, within three (3) Business Days of receipt of written notice thereof from such Non-Defaulting Party; provided, however, that an Event of Default shall be deemed to have occurred immediately, without any need for the provision of notice thereof by the Non-Defaulting Party and without any right of cure on the part of the Defaulting Party, in the event of the occurrence of a condition, event or delinquency described in subsections "i", "ii", "iii", "iv", "v", "vi", "vii" or "viii" above. Termination of this Agreement or any Transactions hereunder by the PaPUC, other regulatory authority or court of law does not constitute an Event of Default under this Agreement; or

(xvii) With respect to the DS Supplier's Guarantor, if any:

1. any representation or warranty made by the Guarantor in connection with this Agreement is false or misleading in any material respect when made or when deemed made or repeated;

2. Guarantor fails to make, when due, any payment required or to perform any other material covenant or obligation in any guaranty made in connection with this Agreement and such failure shall not be remedied within two (2) Business Days after written notice;

3. Guarantor's guaranty fails to be in full force and effect for purposes of this Agreement (other than in accordance with its terms) prior to the satisfaction of all obligations of the DS

Supplier under this Agreement without the written consent of the Company; or

4. Guarantor repudiates, disaffirms, disclaims, or rejects, in whole or in part, or challenges the validity of any guaranty.

5.2 Rights upon Default

Upon and during the continuation of an Event of Default, the Non-Defaulting Party shall have the right to suspend performance, provided that such suspension shall not continue for longer than ten (10) Business Days. At any time during or subsequent to the temporary suspension of performance, the Non-Defaulting Party may proceed with the steps outlined in Sections 5.6 and 5.7. In addition to any other remedies available at law or in equity to the Non-Defaulting Party, if an Event of Default has occurred and is continuing, the Non-Defaulting Party shall have the right to implement either or both of the following remedies:

(i) Declare an Early Termination Date of this Agreement with respect to the obligations of the Defaulting Party without any liability or responsibility whatsoever except for obligations arising prior to the date of termination, by providing written notice to the Defaulting Party; provided, however, that this Agreement shall immediately terminate automatically and without notice in the case of any Event of Default in which a DS Supplier is the Defaulting Party occurring under subsections (i), (ii), (iii), (iv), (v), (vi), (vii) or (viii) of Section 5.1 of this Agreement and such date of automatic termination shall be deemed the Early Termination Date of this Agreement with respect to such DS Supplier; and

(ii) Receive Damages in accordance with Section 5.3 of this Agreement.

5.3 Damages Resulting From an Event of Default

(a) DS Supplier's Failure to Supply DS Supply or Declaration of Early Termination By Company: Damages resulting from (i) the DS Supplier's failure to (A) provide DS Supply in conformance with Section 2.2 hereof or (B) pay PJM for purchases of any products or services from PJM, or other failure to comply with PJM requirements, such that PJM holds the Company responsible for the provision of DS Supply to meet the DS Supplier's DS Supplier Responsibility Share under Transaction(s) of this Agreement or (ii) the occurrence of any Event of Default attributable to the DS Supplier resulting in Early Termination, shall include all Costs incurred by the Company, acting in a commercially reasonable manner consistent with any statutory or regulatory requirements imposed by the Applicable Legal Authorities, in obtaining replacement services or in obtaining a replacement supplier, which Costs exceed the amounts that would have been payable to the defaulting DS Supplier under this Agreement. Costs incurred by the Company for the purpose of calculating Damages hereunder will consist of:

(i) The cost of DS Supply allocated to the Company by the PJM OI due to the failure of the DS Supplier to meet obligations owing to the PJM OI in connection with its obligations under this Agreement;

(ii) The costs of DS Supply purchased by the Company to replace DS Supply that a DS Supplier was obligated to supply under this Agreement during the term hereof;

(iii) Administrative and legal costs associated with procuring replacement DS Supply; and

(iv) Financial hedging costs incurred by the Company on behalf of DS Customers as a result of having to procure DS Supply not provided by the DS Supplier.

The Parties further recognize and agree that the final calculation of Damages hereunder may not be known for some time since the level of such Damages may be dependent upon the arrangements made by the Company to obtain replacement services or a replacement DS Supplier. The Company and the DS Supplier agree that, until the calculation of Damages under this provision is completed, the amount and payment to the Company of the Settlement Amount on behalf of DS Customers in the event of an Early Termination as set forth in Section 5.4 of this Agreement shall be immediately due and owing as an estimate of all Damages ultimately determined to be due and owing. After Damages have been finally determined under this Section 5.3, the amounts of Damages due and owing will be reconciled with payments already made by the DS Supplier under Section 5.4 of this Agreement.

(b) Failure By Company on Behalf of Customers To Accept DS Supply Tendered By DS Supplier: Damages resulting from the failure of the Company on behalf of Customers to accept DS Supply tendered by the DS Supplier necessary to meet the DS Supplier Responsibility Share of DS Load under Transaction(s) of this Agreement shall consist of the positive difference (if any) between (i) the amounts that would have been payable to the DS Supplier hereunder had the Company accepted the DS Supply tendered by the DS Supplier necessary to meet the DS Supplier Responsibility Share of DS Load under Transaction(s) of this Agreement and (ii) the amount realized by the DS Supplier in disposing, in a commercially reasonable manner, of the DS Supply not accepted by the Company; provided, however, that the Company shall not be required to

accept on behalf of any Customer, quantities of DS Supply utilized by Customers on an instantaneous basis as a function of electrical load, in excess of such Customer's instantaneous consumption of such component of DS Supply; and further provided that the Company shall not be liable for any Damages if this Agreement is terminated by the PaPUC, other regulatory authority or a court of law.

(c) Damages Resulting From Early Termination Due To An Event of Default Attributable To the Company: Damages resulting from Early Termination due to an Event of Default attributable to the Company shall be as set forth in Section 5.4 of this Agreement. Damages calculated in accordance with said Section 5.4 shall be the exclusive remedy available to the DS Supplier in the event of Early Termination resulting from an Event of Default attributable to the Company.

(d) Damages Resulting from DS Supplier's Failure to Continuously Satisfy its AEPS Obligations: Damages resulting from the DS Supplier's failure to continuously meet and satisfy all or any portion of its obligations under Section 2.2 (a)(ix) of this Agreement shall include, but not be limited to, the amount of all penalties, and costs associated with the procurement of additional AECs, etc. including, without limitation, interest and other charges, if any, levied against the Company related to AEPS regulations, due to such DS Supplier's conduct or inaction.

(e) Other Damages: Damages for Events of Default not specified above shall consist of the direct Damages incurred by the Non-Defaulting Party.

(f) Waiver of Event of Default: If an Event of Default has occurred and the Non-Defaulting Party is the Company, then unless the Event of Default was a failure by the DS Supplier to meet any or all of its DS Supply obligations, the Company

may elect, at its sole discretion, to offer to waive the default on such terms and conditions as the Company, at its sole discretion, may deem appropriate to propose a special remedy. Any such special remedy can only be offered to the DS Supplier if it first is specifically approved by the PaPUC in accordance with Commission Orders.

5.4 Declaration of an Early Termination Date and Calculation of Settlement Amount and Termination Payment

(a) **Settlement Amount**. If an Event of Default with respect to a Defaulting Party shall have occurred and be continuing, the Non-Defaulting Party shall have the right (i) to designate a day, no earlier than the day such notice is effective and no later than twenty (20) days after such notice is effective, as the Early Termination Date to accelerate all amounts owing between the Parties and to liquidate and terminate the undertakings set forth in this Agreement, (ii) to withhold any payments due to the Defaulting Party under this Agreement, and (iii) to suspend performance; provided however, that an Early Termination Date shall be deemed to occur automatically and concurrently with the Event of Default, without any requirement for the provision of notice by the Non-Defaulting Party, with respect to an Event of Default under subsections (i), (ii), (iii), (iv), (v), (vi), (vii), and (viii) of Section 5.1 of this Agreement. The Non-Defaulting Party shall calculate, in a commercially reasonable manner, a Settlement Amount with respect to the obligations under this Agreement.

☐ The DS Supplier may, in its sole discretion, select the notional quantity in the following subsection 5.4(a)(1) by checking this box. If the DS Supplier does not check the box to select subsection 5.4(a)(1) it will be deemed to be excluded from this Agreement.

5.4(a)(1) For the purposes of such determination, the DS Supply provided for under this Agreement for the period following the Early Termination Date through the remainder of the term of this Agreement shall be deemed to be those quantity amounts that would have been delivered on an hourly basis, had this Agreement been in effect during the previous calendar year adjusted for such DS Load changes as may have occurred since the previous calendar year.

(b) **Net Out of Settlement Amounts**. The Non-Defaulting Party shall calculate a Termination Payment by aggregating all Settlement Amounts due under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply into a single amount by netting out (i) all Settlement Amounts that are due or will become due to the Defaulting Party, plus at the option of the Non-Defaulting Party, any cash or other form of security then available to the Non-Defaulting Party and actually received, liquidated and retained by the Non-Defaulting Party, plus any or all other amounts due to the Defaulting Party under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply against (ii) all Settlement Amounts that are due or will become due to the Non-Defaulting Party, plus any or all other amounts due to the Non-Defaulting Party under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply, so that all such amounts shall be netted out to a single liquidated amount; provided, however, that if the DS Supplier is the Defaulting Party and the Termination Payment is due to the DS Supplier, the Company shall be entitled to retain a commercially reasonable portion of the Termination Payment, which may be equal to the entire amount of the Termination

Payment, as security for additional amounts that may be determined to be due and owing by the DS Supplier as Damages and further provided that any previously attached security interest of the Company in such retained amounts shall continue. The Termination Payment shall be due to or due from the Non-Defaulting Party as appropriate. If the Termination Payment has been retained by the Company as security for additional amounts that may be determined to be due and owing by the DS Supplier, and if, upon making a final determination of Damages, the Termination Payment, or any portion thereof, is to be made to the DS Supplier, the Company will pay simple interest on the Termination Payment amount being made to the DS Supplier. Simple interest will be calculated at the lower of the Interest Index or six (6) percent per annum.

(c) Notice of Termination Payment. As soon as practicable after calculation of a Termination Payment, notice shall be given by the Non-Defaulting Party to the Defaulting Party of the amount of the Termination Payment and whether the Termination Payment is due to or due from the Non-Defaulting Party. The notice shall include a written statement explaining in reasonable detail the calculation of such amount. Subject to Section 5.4(b) above, the Termination Payment shall be made by the Party that owes it within three (3) Business Days after such notice is effective.

(d) Disputes With Respect to Termination Payment. If the Defaulting Party disputes the Non-Defaulting Party's calculation of the Termination Payment, in whole or in part, the Defaulting Party shall, within three (3) Business Days of receipt of Non-Defaulting Party's calculation of the Termination Payment, provide to the Non-Defaulting Party a detailed written explanation of the basis for such dispute; provided, however, that if the Termination Payment is due from the Defaulting Party, the

Defaulting Party shall first transfer collateral to the Non-Defaulting Party in an amount equal to the Termination Payment, such collateral to be in a form acceptable to the Non-Defaulting Party as specified in the Termination Payment dispute notice.

(e) Multiple DS Supply Agreements. It is the intention of the Company and the DS Supplier that, in the event the DS Supplier is a party to other agreements with the Company for the provision of DS Supply that existed prior to the Effective Date of this Agreement or are entered into after the Effective Date of this Agreement, the Company will calculate a single Termination Payment applicable to all such agreements as set forth herein.

5.5 Step-up Provision

The Company may ask other DS Suppliers whether they wish to assume all or part of the delivery obligations on the same terms and price contained herein, but any DS Supplier shall not be obligated to assume any such step-up requests. Any agreement to make additional supply available shall be termed a "Step-Up", and is subject to compliance with the creditworthiness provisions of Section 6 of this Agreement and the DS Supplier's load cap as per the Company's approved default service procurement plan. For the avoidance of doubt, in the event that the DS Supplier does not respond to the Company's Step-Up request within the relevant timeframe, then the DS Supplier shall be deemed to have rejected the Company's request in full.

5.6 Setoff of Payment Obligations of the Non-Defaulting Party

Any payment obligations of the Non-Defaulting Party to the Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply shall be set off: (i) first, to satisfy any payment

obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply that are unsecured and not subject to any Guaranty; (ii) second, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply that are unsecured, but which are subject to a Guaranty; and (iii) third, to satisfy any remaining payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply.

5.7 Preservation of Rights of Non-Defaulting Party

The rights of the Non-Defaulting Party under this Agreement, including without limitation Sections 5.4 and 5.6 of this Agreement, shall be supplemental to, and not in lieu of, any right of recoupment, lien, or set-off afforded by applicable law, and all such rights are expressly preserved for the benefit of the Non-Defaulting Party.

a. Duty to Mitigate. Each Party agrees that it has a duty to mitigate damages and covenants that it will use commercially reasonable efforts to minimize any damages it may incur as a result of the other Party's failure to perform pursuant to this Agreement.

b. Return of Auction Revenue Rights. When the DS Supplier is the Defaulting Party, the DS Supplier will make best efforts to facilitate the transfer or reassignment to the entity which is the replacement DS Supplier on the Early Termination Date, any and all of the replacement DS

Supplier's rights to ARRs to which the replacement DS Supplier is entitled as a LSE pursuant to the PJM Agreements, which were transferred or assigned to the DS Supplier under Section 2.3 (Congestion and Congestion Management).

ARTICLE 6: CREDITWORTHINESS

6.1 Applicability

The DS Supplier agrees that it shall meet the creditworthiness requirements of this Article 6 at all times during the term of this Agreement and shall inform the Company immediately of any changes in its credit rating or financial condition. Without limitation of the foregoing, the DS Supplier shall, upon written request, affirmatively demonstrate to the Company, its compliance with the creditworthiness requirements set forth hereunder. The Company may establish less restrictive creditworthiness requirements under this Article 6 in a non-discriminatory manner.

6.2 Creditworthiness Determination

The DS Supplier may submit and maintain a security deposit in accordance with Section 6.4 of this Agreement in lieu of submitting to or being qualified under a creditworthiness evaluation. The DS Supplier shall have the opportunity to request that the Company re-evaluate its creditworthiness whenever an event occurs that the DS Supplier believes would improve the determination made by the Company of its creditworthiness. The Company's credit re-evaluation must be completed as soon as possible but no longer than thirty (30) days after receiving a fully documented request. The Company must provide the rationale for its determination of the credit limit and any

resulting security requirement. The Company must perform its credit re-evaluation and associated security calculation in a non-discriminatory manner. DS Supplier shall provide the Company and its agents unrestricted access to audited financial statements; provided that if audited financial statements are not available, the Company, in its sole discretion, may specify other types of financial statements that will be accepted.

6.3 Buyer's Exposure and Mark-to-Market Credit Exposure Methodology

To calculate the daily exposure for each DS Supplier the MtM credit exposure methodology will be used. The "mark" for each Billing Month will be determined at the time the auction is completed based on the available Forward Market Prices and for the remaining Billing Months will be derived based on historical data. At the time the auction is completed, the MtM credit exposure for each DS Supplier shall be equal to zero. Subsequently, the differences between the available Forward Market Prices on the valuation date and the "mark" prices for the corresponding Billing Months will be used to calculate the daily credit exposures for each DS Supplier. The total MtM credit exposure will be equal to 1.1 times the sum of the MtM credit exposures for each Billing Month. The methodology for calculation of Buyer's Exposure under this Agreement including the MtM credit exposure is illustrated in the example (using hypothetical numbers) set forth in Appendix B hereto.

6.4 Credit Limit

The following criteria constitute the Company's creditworthiness requirements for the DS Supplier to cover the Total Exposure Amount. In all instances, the most current senior unsecured debt rating (or, if unavailable, the most current corporate issuer rating)

will be used.

(i) For a DS Supplier to be granted an unsecured line of credit, the DS Supplier must be rated by at least two of the following rating agencies: S&P, Moody's, or Fitch. The methodology for determining the credit rating to use is set forth in Appendix A of this Agreement. The Maximum Credit Limit to cover the Total Exposure Amount will be determined based on the credit matrix table in Appendix A of this Agreement.

The DS Supplier will be required to post cash or a letter of credit in an acceptable form as defined in Section 6.7 (b) of this Agreement (see standard format in Appendix F) for the Margin due the Company as set forth in Section 6.5 of this Agreement; or

(ii) For a DS Supplier having a Guarantor, in the case of a Guarantor organized under the laws of the United States, the Guarantor (1) must be rated by at least two of the following rating agencies: S&P, Moody's, or Fitch, and (2) must have a minimum senior unsecured debt rating (or, if unavailable, corporate issuer rating) equal to the Minimum Rating. If the Guarantor is rated by only two rating agencies, and the ratings are split, the rating will be established based on the methodology outlined in Appendix A of this Agreement. The Maximum Credit Limit to cover the Total Exposure Amount that could be provided through the Guaranty (see standard format in Appendix G) will be determined based on the credit matrix table for Guarantors on Appendix A. The DS Supplier will be granted a credit limit equal to the lesser of (i) the amount of the Guaranty as provided to the Company at the time this Agreement is executed as such amount may be modified in any amended or substitute Guaranty provided to the Company during the term of this Agreement, or (ii) the DS Supplier's Maximum Credit

Limit. The DS Supplier, however, may not increase or substitute its Guaranty for the purpose of increasing its applicable credit limit during the time period after the Company has made a Margin call but before the DS Supplier has posted the required performance assurance collateral as set forth in Section 6.7 to cover Margin. Notwithstanding anything herein to the contrary, the DS Supplier may increase the limit of its Guaranty after satisfying a Margin call from the Company and upon the Company's receipt of an amended or substitute Guaranty increasing the limit of the Guaranty, the DS Supplier may request a return of the posted performance assurance collateral in accordance with Section 6.5 of this Agreement. The DS Supplier will be required to post cash or a letter of credit in an acceptable form as defined in Section 6.7(b) of this Agreement (see standard format in Appendix F) for the Margin due the Company as set forth in Section 6.5 of this Agreement; or

(iii) For a DS Supplier or Guarantor that has not been incorporated or otherwise formed under the laws of the United States and whose financial data is not denominated in United States currency and does not conform to generally accepted accounting principles ("GAAP") in the United States, they shall supply the following additional information:

a. A legal opinion of counsel qualified to practice in the foreign jurisdiction in which the DS Supplier or Guarantor is incorporated or otherwise formed that this Agreement is, or upon completion of execution formalities will become, the binding obligation of the DS Supplier or Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and

b. The sworn certificate of the corporate secretary (or similar officer) of such DS

Supplier or Guarantor that the person executing this Agreement on behalf of the DS Supplier has the authority to execute the Agreement and that the governing board of the DS Supplier or Guarantor has approved the execution of this Agreement;

c. The sworn certificate of the corporate secretary (or similar officer) of such DS Supplier or Guarantor that the DS Supplier or Guarantor has been authorized by its governing board to enter into agreements of the same type as this Agreement; and

d. Such other documents and certificates as may be required by the Company in its sole discretion.

(iv) The posting of cash or a letter of credit as defined in Section 6.7 (b) below for the entire Total Exposure Amount as set forth in Section 6.5 of this Agreement.

6.5 Posting Margin and Return of Surplus Margin

(a) If at any time and from time to time during the term of Transaction(s) under this Agreement, the Total Exposure Amount, rounded by the Rounding Amount, exceeds the DS Supplier's or the Guarantor's credit limit by the Minimum Transfer Amount, then the Company on any Business Day, may request that the DS Supplier provide cash or a letter of credit in an acceptable form as defined in Section 6.7(b) of this Agreement (see standard format in Appendix F), in an amount equal to the Margin (less any performance assurance collateral for Margin posted by the DS Supplier and held by the Company pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply).

If the DS Supplier receives written notice for performance assurance collateral to cover Margin from the Company by 1:00 p.m. New York time on a Business Day, then the DS Supplier shall post performance assurance collateral to cover Margin the next following Business Day, if posting cash, and by the second Business Day following the date of notice, if posting a letter of credit, unless the Company agrees in writing to extend the period to provide performance assurance collateral to cover Margin. If the DS Supplier receives notice for Margin from the Company after 1:00 p.m. New York time on a Business Day, whether posting cash or a letter of credit, then the DS Supplier must post performance assurance collateral to cover Margin the second Business Day following the date of notice unless the Company agrees in writing to extend the period to provide performance assurance collateral to cover Margin. The Company will not unreasonably deny a request for a one-day extension of such period. In the event that the DS Supplier fails to post performance assurance collateral to cover Margin when due in accordance with this Section 6.5, then an Event of Default under Article 5 of this Agreement will be deemed to have occurred and the Company will be entitled to the remedies set forth in Article 5 of this Agreement.

(b) Surplus Margin being held by the Company that is not needed to satisfy the Total Exposure Amount, as determined above, will be returned to the DS Supplier upon receipt of a written request by the DS Supplier. Surplus Margin means cash or a letter of credit posted by the DS Supplier as a result of a request by the Company pursuant to Section 6.5(a) that exceeds the Total Exposure Amount less the DS Supplier's or the Guarantor's credit limit (rounded by the Rounding Amount). If the resulting surplus Margin amount is more than the Minimum Transfer Amount, it will be

returned to the DS Supplier. If the DS Supplier posted cash and notice is received by 1:00 p.m. New York time on a Business Day, the surplus Margin will be returned by the next following Business Day and if the DS Supplier posted cash and notice is received by the Company after 1:00 p.m. New York time on a Business Day, the surplus Margin shall be returned by the second Business Day following the date of notice, unless the DS Supplier agrees in writing to extend the period to return the surplus Margin. If the DS Supplier posted a letter of credit, the surplus Margin shall be returned on the next Business Day following the Business Day on which the amendment to the letter of credit is received from the issuing bank, unless the DS Supplier agrees in writing to extend the period to return the surplus Margin. The DS Supplier will not unreasonably deny a request for a one-day extension of such period. In the event that the Company fails to return the surplus Margin when due in accordance with this Article, then an Event of Default under Article 5 of this Agreement will be deemed to have occurred and the DS Supplier will be entitled to the remedies set forth in Article 5 of this Agreement.

6.6 Grant of Security Interest/Remedies

To secure its obligations under this Agreement and to the extent that the DS Supplier posted performance assurance collateral to cover Margin hereunder, the DS Supplier hereby grants to the Company a present and continuing security interest in, and lien on (and right of setoff against), and assignment of, all cash collateral and cash equivalent collateral and any and all proceeds resulting therefrom or the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of, the Company, and the DS Supplier and the Company agree to take such action as is reasonably required to perfect the secured Party's first priority security interest in, and

lien on (and right of setoff against), such collateral and any and all proceeds resulting therefrom or from the liquidation thereof. Upon or any time after the occurrence or deemed occurrence and during the continuation of an Event of Default or an Early Termination Date, the Company may do any one or more of the following: (i) exercise any of the rights and remedies of the Company with respect to all collateral, including any such rights and remedies under law then in effect; (ii) exercise its rights of setoff against any and all property of the DS Supplier in the possession of the Company whether held in connection with this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply; (iii) draw on any outstanding letter of credit issued for its benefit; and (iv) liquidate all security held by or for the benefit of the Company free from any claim or right of any nature whatsoever of the DS Supplier, including any equity or right of purchase or redemption by the DS Supplier. The Company shall apply the proceeds of the collateral realized upon the exercise of such rights or remedies to reduce the DS Supplier's obligation under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply (the DS Supplier remaining liable for any amounts owing to the Company after such application), subject to the Company's obligation to return any surplus proceeds remaining after such obligations are satisfied in full.

All notices, demands or requests regarding credit requirements and credit related security or deposit transfers shall be in writing and shall be personally delivered or sent by overnight express mail, courier service or facsimile transmission (with the original transmitted by any of the other aforementioned delivery methods) addressed as follows:

If to a DS Supplier to:

Copy to:

If to the Company to:

Copy to:

Notice received after the close of the Business Day shall be deemed received on the next Business Day; provided that notice by facsimile transmission shall be deemed to have been received by the recipient if the recipient confirms receipt telephonically or in writing.

6.7 Security Instruments

At each DS Supplier's choice, the following are deemed to be acceptable methods for posting security to satisfy Margin requirements, if required:

(a) Cash; or

(b) A standby irrevocable letter of credit acceptable to the Company, in its sole discretion, issued by a bank or other financial institution with a minimum "A-" senior unsecured debt rating (or, if unavailable, corporate issuer rating discounted one notch) from S&P and "A3" from Moody's (see standard format in Appendix F). The letter of credit shall state that it shall renew automatically for successive one-year or shorter periods, until terminated upon at least ninety (90) days prior written notice from the issuing financial institution. If the Company receives notice from the issuing financial institution that the letter of credit is being cancelled, the DS Supplier will be required to provide a substitute letter of credit from an alternative bank satisfying the

minimum requirements. The receipt of the substitute letter of credit must be effective as of the cancellation date and delivered to the Company thirty (30) days before the cancellation date of the original letter of credit. If the DS Supplier fails to supply a substitute letter of credit as required, then the Company will have the right to draw on the existing letter of credit and to hold the amount as Margin.

If the credit rating of a bank or other financial institution from which a DS Supplier has obtained a letter of credit falls below the levels specified in Article 6 of this Agreement, the DS Supplier shall have two (2) Business Days following written notice by the Company to obtain a suitable letter of credit from another bank or other financial institution that meets those standards, unless such period is extended in writing by the Company. The Company shall have no obligation under this Agreement or otherwise to make or grant such extension.

6.8 Maintenance of Creditworthiness

(a) Reporting of Changes.

The DS Supplier shall promptly notify the Company of any change in its credit rating or financial condition or that of its Guarantor. The DS Supplier or Guarantor shall also furnish evidence of an acceptable credit rating or financial condition upon the request of the Company.

(b) Change in Credit Standing.

The Company will re-evaluate the creditworthiness of a DS Supplier whenever it becomes aware of an adverse change, through the provision of notice by the DS Supplier or otherwise, in the DS Supplier's or Guarantor's credit standing. If the lowest credit rating (whether senior unsecured debt rating or corporate issuer rating) used to determine

the DS Supplier's Maximum Credit Limit or its credit limit adversely changes, the Company will require additional security from the DS Supplier in accordance with Section 6.4 of this Agreement. The additional security must be in a form acceptable to the Company in its sole discretion, as specified in Section 6.7 of this Agreement and must be posted as set forth in Section 6.5 of this Agreement.

6. 9 Calling on Security

The Company may call upon the security posted by the DS Supplier if the DS Supplier fails to pay amounts due to the Company pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply after all of the following events occur:

(a) Written Notice of Default is provided to the DS Supplier; and

(b) Any applicable cure period associated with the written Notice of Default ends.

The foregoing notwithstanding, the security posted by the DS Supplier shall become due automatically without prior notice or right of cure in the case of any Event of Default arising under subsections (i), (ii), (iii), (iv), (v), (vi), (vii) and (viii) of Section 5.1 of this Agreement.

6.10 Interest on Cash Held by Company

The Company will pay simple interest calculated at the lower of the Interest Index or six (6) percent per annum on all cash held by the Company pursuant to this Agreement. Each Billing Month, the Company will prepare a statement of interest amounts due to the DS Supplier. The statement will be sent to the DS Supplier within three (3) Business Days after the end of the Billing Month via overnight mail or other

expeditious means. The Company shall make interest payments on the first Business Day after the 5th day of each calendar month.

6.11 No Endorsement of DS Supplier

The Company's determination that a DS Supplier is creditworthy pursuant to the process set forth above, shall not be deemed to constitute an express or implied warranty or guarantee of any kind with respect to the financial or operational qualifications of the DS Supplier. The Company will treat all DS Suppliers in a non-discriminatory manner and shall provide no preference to any DS Supplier.

6.12 Multiple DS Supply Agreements

It is the intention of the Company and the DS Supplier that, in the event the DS Supplier is a party to other agreements with the Company for the provision of DS Supply that existed prior to the effective date of this Agreement, the Company will calculate the Margin applicable to all such agreements as set forth herein. Each DS Supplier that is a party to such other agreements with the Company for the provision of DS Supply hereby agrees that such other agreements are deemed amended by this Agreement for the purpose of calculating the Margin as described herein.

ARTICLE 7: PROCEDURES FOR ENERGY SCHEDULING, CAPACITY RESOURCE SUBMISSION AND TRANSMISSION PROCUREMENT

7.1 Load Obligations

The Company and the DS Supplier acknowledge and agree that (1) the Company shall determine the DS Load, (2) the Company shall allocate the DS Supply obligation using the DS Supplier Responsibility Share, (3) the Company shall provide the DS

Supplier's DS Supply obligation to PJM, and (4) the DS Supplier shall be responsible for meeting its DS Supply obligations as a LSE under the PJM Agreements.

7.2 Data Transmission

The procedures for transmitting load obligation data to PJM for DS Supplier's DS Load shall be as set forth by PJM.

7.3 Energy Scheduling

The Company is not obligated to provide any day ahead scheduling services. If the Company chooses to provide such services, the information provided is not guaranteed by the Company.

ARTICLE 8: THE ENERGY SETTLEMENT/RECONCILIATION PROCESS

8.1 Energy Settlement By PJM

The settlement process occurs at PJM to reflect the DS Supplier's actual Energy obligations in a supply/usage reconciliation process. The Energy obligations for each DS Supplier will be determined based on the DS Supplier Responsibility Share of the DS Load. The reconciled total DS Energy obligation will be based on the final total Energy loads for the Customers receiving DS service, including deration adjustments for marginal losses.

Any adjustments for billing and metering errors reported subsequent to the calculation of FMEA will be proportionally allocated by the Company to the DS Suppliers based on the respective DS Supplier Responsibility Share.

8.2 Energy Settlement by the Company

In the event that actual DS Customer consumption data is not available until after the PJM deadline for conducting the final settlement, the Company will conduct the settlement process with the DS Supplier. In the event PJM imposes penalties against the Company as a result of the DS Supplier's Transactions or failure to meet PJM requirements, such penalties shall be passed through by the Company to the DS Supplier as part of this settlement process. In addition, all other applicable charges from PJM, including any billing adjustments, will be appropriately allocated to the DS Supplier.

ARTICLE 9: BILLING AND PAYMENT

9.1 The Company Payment of Obligations to the DS Supplier

The Company shall pay all amounts due to the DS Supplier hereunder in accordance with the following provisions:

(a) Each Billing Month, the Company will prepare a Statement of amounts due to the DS Supplier. This Statement will show the aggregate amounts due based on the DS Fixed Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Fixed Percentage as shown in Appendix C, multiplied by the Seasonal Billing Factor, if applicable, for each hour of the Billing Month, plus the aggregate amounts due based on the DS Variable Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Variable Percentage as shown in Appendix C for each hour of the Billing Month. With respect to Variable Price Transactions, the Statement will also include additional amounts set forth in Appendix C.

(b) The Statement will be sent to the DS Supplier within eight (8) Business Days after the end of the Billing Month via overnight mail or other expeditious means.

(c) The Company shall make payment on the first Business Day after the 19th day of each calendar month.

(d) To the extent that the FMEA differs from the PMEA, the Company shall pay or charge the DS Supplier for the PMEA/FMEA Adjustment Amount within the PJM deadline for conducting the final settlement.

(e) If each Party owes an amount to the other Party pursuant to this Agreement, including any related interest, payments or credits, the Parties may satisfy their respective obligations to each other by netting the aggregate amounts due to one Party against the aggregate amounts due to the other Party, with the Party, if any, owing the greater aggregate amount paying the other Party the difference between the amounts owed.

(f) Payments shall be subject to adjustment for any arithmetic errors, computation errors, meter reading errors, or other errors, provided that the errors become known within one (1) year of the termination of all Transactions under this Agreement.

(g) The Company shall make payments of funds payable to the DS Supplier by electronic transfer to a bank designated by the DS Supplier.

(h) If a good faith dispute arises between the Company and the DS Supplier regarding a Statement, the disputing Party shall be obligated to pay only the undisputed portion of the Statement, if any, and shall present the dispute in writing and submit supporting documentation to the non-disputing Party within one hundred twenty

(120) calendar days from the date of the Statement in dispute. Statement disputes shall be addressed promptly, and in accordance with the dispute resolution procedures set forth in Article 11 of this Agreement. Upon resolution of a Statement dispute, any payments made to either Party will include simple interest on the payment at the lower of the Interest Index or six (6) percent per annum payable from the date that notice of a Statement dispute was received by the non-disputing Party.

(i) If payment is made to the DS Supplier after the due date shown on the Statement, a late fee will be added to the unpaid balance until the entire Statement is paid. This late fee shall be the lesser of (a) the per annum rate of interest equal to the prime lending rate as may from time to time be published in The Wall Street Journal under "Money Rates" on such day (or if not published on such day on the most recent preceding day on which published), plus two percent (2%) or (b) the maximum rate permitted by applicable law.

9.2 Billing for DS Supplier's Obligations to Other Parties

Except as set forth in Sections 2.5 and 2.6, the Company shall have no responsibility for billing between the DS Supplier and PJM; the DS Supplier and any Energy or Capacity source; or the DS Supplier and any other third party. The Company will be solely responsible for billing DS Customers for Default Service.

9.3 The DS Supplier Payment of Obligations to the Company

The DS Supplier shall pay all Charges it incurs hereunder in accordance with the following provisions:

(a) Each Billing Month, the Company shall submit an invoice to the DS Supplier for all Charges owed by the DS Supplier under this Agreement. The DS

Supplier shall make payment for Charges shown on the invoice. The due date will be on the first Business Day after the 19th day of each calendar month. The invoice will be sent to the DS Supplier within eight (8) Business Days after the end of the Billing Month via overnight mail or other expeditious means.

(b) Invoices shall be subject to adjustment for any arithmetic errors, computation errors, meter reading errors, or other errors, provided that the errors become known within one (1) year of the termination of all Transactions of this Agreement.

(c) The DS Supplier shall make payments of funds payable to the Company by electronic transfer to a bank designated by the Company.

(d) If a good faith dispute arises between the Company and the DS Supplier regarding an invoice, the disputing Party shall pay only the undisputed portion of the invoice, if any, and shall present the dispute in writing and submit supporting documentation to the non-disputing Party within one hundred twenty (120) calendar days from the due date of the invoice in dispute. Billing disputes shall be addressed promptly, and in accordance with the dispute resolution procedures set forth in Article 11 of this Agreement. Upon resolution of a billing dispute, any payments made to either Party will include simple interest on the payment at the lower of the Interest Index or six (6) percent per annum payable from the date that notice of a bill dispute was received by the non-disputing Party.

(e) If payment is made to the Company after the due date shown on the invoice, a late fee will be added to the unpaid balance until the entire invoice is paid. This late fee shall be the lesser of (a) the per annum rate of interest equal to the prime lending rate as may from time to time be published in The Wall Street Journal under

"Money Rates" on such day (or if not published on such day on the most recent preceding day on which published), plus two percent (2%) or (b) the maximum rate permitted by applicable law.

ARTICLE 10: SYSTEM OPERATION

The Parties shall adhere to any applicable operational requirements of PJM necessary to protect the integrity of the transmission system within the PJM Control Area and the transmission systems of interconnected control areas, and shall satisfy any and all PJM, RFC and NERC criteria, when applicable. The DS Supplier shall also adhere to any applicable operational requirements of the Company necessary to protect the integrity of the Company's local distribution system.

10.1 Disconnection and Curtailment By the Company

The Company shall have the right, without incurring any liability to the DS Suppliers, to disconnect (or otherwise curtail, interrupt or reduce deliveries from) the DS Suppliers or to disconnect (or otherwise curtail, interrupt or reduce deliveries to) any Customer whenever the Company determines in the exercise of its good faith discretion, or when the Company is directed by PJM, that such a disconnection, curtailment, interruption or reduction is necessary to facilitate construction, installation, maintenance, repair, replacement or inspection of any of the Company's facilities; or due to any other reason affecting the safe and reliable operation of the Company's or a Customer's facilities, including, without limitation, an Emergency, forced outage or potential overloading of the Company's transmission and/or distribution circuits, potential damage to any Customer's facilities or any risk of injury to persons or property.

10.2 Inadvertent Loss of Service to DS Customers

The Parties agree and acknowledge that service to DS Customers may be inadvertently lost due to storms, weather, accidents, breakage of equipment or other events beyond the reasonable control of the Company affecting the transmission and distribution system of the Company. Neither Party will have any liability to the other Party for the occurrence of such events except for the Company's obligation to pursue steps for the resumption of the disrupted service as set forth in Section 10.3 below. In no event will an inadvertent loss of service affect a Party's obligation to make any payments then due or becoming due with respect to performance rendered prior to such inadvertent loss of service.

10.3 Good Faith Efforts

The Company shall use good faith efforts to: (a) minimize any curtailment, interruption or reduction in service to DS Customers to the extent reasonably practicable under the circumstances; (b) provide the DS Supplier with prior notification of any curtailment, interruption or reduction in service to DS Customers, to the extent reasonably practicable; and (c) resume service to DS Customers as promptly as reasonably practicable.

10.4 PJM Requirements

The DS Supplier acknowledges and agrees that, as a member of PJM, the Company is bound by all PJM operating instructions, policies and procedures as are currently set forth in the PJM Operating Manual, which are available through the Internet on the PJM Home Page (http://www.pjm.com), as may be revised from time to time, which are needed to maintain the integrity of the PJM system. The DS Supplier

acknowledges and agrees that it will cooperate with the Company so that the Company will be in compliance with all PJM Emergency Operations Procedures, which include, but are not limited to, those procedures pertaining to minimum and maximum generation Emergencies, and measures requiring involuntary Customer participation, such as supply voltage reduction or full interruption of Customer load by either manual or automatic means.

10.5 Compliance With Governmental Directives

The DS Supplier also acknowledges and agrees that the Company may need to act in response to governmental or civil authority directives which may affect DS Load. The DS Supplier agrees to cooperate with the Company in order to comply with said directives.

ARTICLE 11: DISPUTE RESOLUTION

11.1 Informal Resolution of Disputes

Before pursuing resolution of any dispute arising out of this Agreement (other than an Event of Default under Section 5.1(i)-(ix) , (xii), or (xvi)), the disputing Party shall provide written notice to the other Party setting forth the nature of the dispute, the amount involved, if any, and the remedies sought. The Parties shall use good faith and reasonable commercial efforts to informally resolve such dispute. Such efforts shall last for a period of at least thirty (30) calendar days from the date that the notice of the dispute is first delivered from one Party to the other Party. Any amounts that are owed by one Party to the other Party as a result of resolution of a dispute pursuant to this Section 11.1 (Informal Resolution of Disputes), shall be paid within two (2) Business Days of

such resolution and the payment shall include interest calculated at the Interest Index from the original due date through the date of payment.

11.2 Recourse to Agencies or Courts of Competent Jurisdiction

After the requirements of Section 11.1 (Informal Resolution of Disputes) have been satisfied, all unresolved disputes, except as noted below, between the Parties shall be submitted to the appropriate authority. Nothing in this Agreement shall restrict the rights of either Party to file a complaint with the FERC under relevant provisions of the Federal Power Act ("FPA"), with the PaPUC under relevant provisions of the Applicable Legal Authorities, with a Pennsylvania State court or a federal court of competent jurisdiction and within reasonably close proximity to the Company. The Party's agreement hereunder is without prejudice to any Party's right to contest the jurisdiction of the agency or court to which a complaint is brought.

The Parties hereby acknowledge and agree that both Parties have negotiated and entered into this Agreement and all Transactions under this Agreement freely and in good faith and that the terms of this Agreement have not been affected in any way, either directly or indirectly, by (A) any fraud, duress, unfairness, or any inequity in the relative bargaining power of the Parties or (B) any manipulation, unlawful activity, disruption, anomaly, dysfunction, or other adverse market conditions of any type or description.

To the extent permitted by law and absent agreement to the contrary, each Party, for itself and its successors and assigns, hereby expressly and irrevocably waives its rights (i) to argue before any governmental authority that any review, modification, or rescission of this Agreement should be considered under any standard of review other than the "public interest" standard set forth in *United Gas Pipe Line Co. v. Mobile Gas*

Service Corp., 350 U.S. 332 (1956) and *Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956), affirmed by Morgan Stanley Capital Group, Inc. v. Public Utility District No. 1 of Snohomish County, Washington, et al.,* 554 U.S. 527 (2008) (the "Mobile-Sierra Doctrine"), and (ii) to argue before any governmental authority that any terms of this Agreement should be modified or rescinded based on (A) any claim of fraud, duress, unfairness, bad faith, or inequity in the relative bargaining power of the Parties or (B) any claim of market manipulation, unlawful activity, disruption, anomaly, dysfunction, or other adverse market conditions of any type or description.

ARTICLE 12: REGULATORY AUTHORIZATIONS AND JURISDICTION

12.1 Compliance With Applicable Legal Authorities

The Company and the DS Supplier are subject to, and shall comply with, all existing or future applicable federal, state and local laws, all existing or future duly-promulgated orders or other duly-authorized actions of PJM or of Applicable Legal Authorities.

12.2 FERC Jurisdictional Matters

The inclusion herein of descriptions of procedures or processes utilized by PJM or otherwise subject to the jurisdiction of FERC is intended solely for informational purposes. If anything stated herein is found by the FERC to conflict with or be inconsistent with any provision of the FPA, or any rule, regulation, order or determination of the FERC under the FPA or if any existing procedures or processes utilized by PJM are duly modified, the applicable FERC rule, regulation, order,

determination or modification shall control. To the extent required under any provision of the FPA, or any rule, regulation, order or determination of the FERC under the FPA, the Company and/or the DS Supplier, if applicable, shall use reasonable commercial efforts to secure, from time to time, all appropriate orders, approvals and determinations from the FERC necessary to support this Agreement.

12.3 Energy Efficiency, Conservation, and Retail Market Programs

DS Supplier acknowledges that DS Customers may participate in energy efficiency and conservation programs offered by the Company (required by Applicable Legal Authorities or otherwise offered by the Company whether voluntarily or not), by PJM, or by other third parties and, for the avoidance of doubt, any programs offered or conducted by the Company or other entities relating to or arising from the PaPUC's Investigation of Pennsylvania's Retail Electricity Market, PaPUC Docket No. I-2011-2237952 (including legislation enacted to address the Commission's Final Order in Docket No. I-2011-2237952), and that such participation may reduce or change the amount of DS Supply that DS Supplier is required to provide and the amount of monies it may receive under this Agreement. The Company shall have no obligation whatsoever to DS Supplier with respect to the effect, if any, of such programs. DS Supplier is solely responsible for determining the effect, if any, of such programs on future load requirements.

ARTICLE 13: LIMITATION OF REMEDIES, LIABILITY AND DAMAGES

13.1 Limitations on Liability

Except as set forth in this Agreement, there is no warranty of merchantability or

fitness for a particular purpose, and any and all implied warranties are disclaimed. The Parties confirm that the express remedies and measures of Damages provided in this Agreement satisfy the essential purposes hereof. For breach of any provision for which an express remedy or measure of Damages is provided, such express remedy or measure of Damages shall be the sole and exclusive remedy, the obligor's liability shall be limited as set forth in such provision and all other remedies or Damages at law or in equity are waived. If no remedy or measure of Damages is expressly provided herein, the obligor's liability shall be limited to direct actual Damages only, such direct actual Damages shall be the sole and exclusive remedy and all other remedies or Damages at law or in equity are waived. Unless expressly herein provided, neither Party shall be liable for consequential, incidental, punitive, exemplary or indirect Damages, lost profits or other business interruption Damages, by statute, in tort or contract, under any indemnity provision or otherwise. It is the intent of the Parties that the limitations herein imposed on remedies and the measure of Damages be without regard to the cause or causes related thereto, including the negligence or any Party, whether such negligence by sole, joint or concurrent, or active or passive. To the extent any Damages required to be paid hereunder are liquidated, the Parties acknowledge that the Damages are difficult or impossible to determine, or otherwise obtaining an adequate remedy is inconvenient and the Damages calculated hereunder constitute a reasonable approximation of the harm or loss.

13.2 Risk of Loss

Solely for purposes of determining risk of loss and for determining the indemnity obligations under Article 14 of this Agreement, the Company shall be deemed to have

custody and control of the electric Energy delivered by the DS Supplier upon receipt thereof into the Company's distribution system and until delivery thereof at the retail electric meter of the Customer; and the DS Supplier shall be deemed to have custody and control of the DS Supply at all times prior to receipt thereof by the Company. The Party deemed to have custody and control of DS Supply shall be responsible for all loss or damage to property or injury or death to persons arising in connection with such DS Supply while in its custody and control and shall indemnify the other Parties with respect to same as set forth in Article 14 of this Agreement.

ARTICLE 14: INDEMNIFICATION

14.1 Indemnification

(a) Should the Company become the defendant in, or obligor for, any third party claims and/or liabilities for losses, penalties, expenses, damage to property, injury to or death of any person including a Party's employees or any third parties, that were caused by or occur in connection with an act or omission of the DS Supplier with respect to an obligation arising under or in connection with this Agreement, or for which the DS Supplier has otherwise assumed liability under the terms of this Agreement, the DS Supplier shall defend (at the Company's option), indemnify and hold harmless the Company, its shareholders, board members, directors, officers and employees, from and against any and all such third party claims and/or liabilities, except to the extent that a court of competent jurisdiction determines that the losses, penalties, expenses or damages were caused wholly or in part by the gross negligence or willful misconduct of the Company. The Company may, at its own expense, retain counsel and participate in the defense of any such suit or action.

(b) Should the DS Supplier (the "Indemnified DS Supplier") become the defendant in, or obligor for, any third party claims and/or liabilities for losses, penalties, expenses, damage to property, injury to or death of any person including a Party's employees or any third parties, that were caused by or occur in connection with an act or omission of the Company with respect to an obligation arising under or in connection with this Agreement, or for which the Company has otherwise assumed liability under the terms of this Agreement, the Company shall defend (at the option of the Indemnified DS Supplier), indemnify and hold harmless the Indemnified DS Supplier, its shareholders, board members, directors, officers and employees, from and against any and all such third party claims and/or liabilities, except to the extent that a court of competent jurisdiction determines that the losses, penalties, expenses or damages were caused wholly or in part by the gross negligence or willful misconduct of the Indemnified DS Supplier. The Indemnified DS Supplier may, at its own expense, retain counsel and participate in the defense of any such suit or action.

(c) If either Party intends to seek indemnification under Article 14.1(a) or 14.1(b), as applicable, from the other Party, the Party seeking indemnification shall give the other Party notice of such claim within ninety (90) days of the later of the commencement of, or the Party's actual knowledge of, such claim or action. Such notice shall describe the claim in reasonable detail, and shall indicate the amount, estimated if necessary, of the claim that has been, or may be, sustained by said Party. To the extent that the other Party will have been actually and materially prejudiced as a result of the failure to provide such notice, such notice will be a condition precedent to any liability of the other Party under the provisions for indemnification contained in this Agreement.

Neither Party may settle or compromise any claim without the prior consent of the other Party; provided, however, said consent shall not be unreasonably withheld, conditioned or delayed.

14.2 Survives Agreement

The obligation of a Party to defend, indemnify, and hold harmless another Party under this Article shall survive termination of this Agreement, and shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for either Party under any statutory scheme, including any workers' compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 15: FORCE MAJEURE

15.1 Force Majeure

Notwithstanding anything in this Agreement to the contrary, the Parties shall be excused from performing their respective obligations under this Agreement (other than the obligation to make payments with respect to performance prior to the event of Force Majeure) and shall not be liable for damages or otherwise due to their failure to perform, during any period that one Party is unable to perform due to an event of Force Majeure, provided that the Party declaring an event of Force Majeure shall: (i) act expeditiously to resume performance; (ii) exercise all commercially reasonable efforts to mitigate or limit damages to the other Party; and (iii) fulfills the requirements set forth in Article 15.2 (Notification).

15.2 Notification

A Party unable to perform under this Agreement due to an event of Force Majeure

shall: (i) provide prompt written notice of such event of Force Majeure to the other Party, which shall include an estimate of the expected duration of the Party's inability to perform due to the event of Force Majeure; and (ii) provide prompt notice to the other Party when performance resumes.

ARTICLE 16: MISCELLANEOUS PROVISIONS

16.1 Notices

Unless otherwise stated herein, all notices, demands or requests required or permitted under this Agreement shall be in writing and shall be personally delivered or sent by overnight express mail or courier service. Notice may also be provided via e-mail or facsimile transmission (with the original transmitted by any of the other delivery methods specified in the previous sentence) addressed per the notification information for the DS Supplier and Company as set forth in Appendix C hereto.

Such notices, demands or requests shall also be provided to such other person at such other address as a Party may designate by like notice to the other Party. Notice received after the close of the Business Day shall be deemed received on the next Business Day.

16.2 No Prejudice of Rights

The failure of a Party to insist on any one or more instances upon strict performance of any provisions of this Agreement, or to take advantage of any of its rights hereunder, shall not be construed as a waiver of any such provisions or the relinquishment of any such right or any other right hereunder, which shall remain in full force and effect. No term or condition of this Agreement shall be deemed to have been waived and no breach excused unless such waiver or consent to excuse is in writing and

signed by the Party claimed to have waived or consented to excuse.

16.3 Assignment

Parties shall not assign any of their rights or obligations under this Agreement without obtaining the prior written consent of the non-assigning Party, which consent shall not be unreasonably withheld. The Company agrees that it shall grant its consent to a proposed assignment by the DS Supplier if the proposed assignee meets all of the Company's creditworthiness requirements then in effect under this Agreement and any applicable load cap restrictions. No assignment of this Agreement shall relieve the assigning Party of any of its obligations under this Agreement until such obligations have been assumed by the assignee and all necessary consents have been obtained. Any assignment in violation of this Section 16.3 shall be void; provided, however, the Company may assign any or all of its rights and obligations under this Agreement notwithstanding anything contained herein to the contrary, without the DS Supplier's consent, to any entity succeeding to all or substantially all of the assets of the Company, if such assignee agrees, in writing, to be bound by all of the terms and conditions hereof and all necessary regulatory approvals are obtained. The DS Supplier may, with prior written notice to the Company but without obtaining the approval of the Company, assign the accounts, revenues or proceeds under this Agreement to a third party. The Company agrees that, following receipt of such notice of the assignment of accounts, revenues or proceeds and such other documentation that the Company may reasonably request, the Company will pay amounts becoming due to the assigning DS Supplier under this Agreement directly to the designated assignee; provided, however, that nothing herein shall enlarge or expand the rights of such designated assignee beyond the rights granted

to the DS Supplier and the right of such designated assignee to receive payments shall be subject to all defenses, offsets and claims of the Company arising under this Agreement.

16.4 Governing Law and Venue

To the extent not subject to the jurisdiction of the FERC, questions including those concerning the formation, validity, interpretation, execution, amendment, termination and construction of this Agreement shall be governed by the laws of the Commonwealth of Pennsylvania, without regard to principles of conflicts of law. Except for matters jurisdictional to FERC, the PaPUC or the appellate courts having jurisdiction over the PaPUC or FERC matters, all disputes hereunder shall be resolved in the Pennsylvania State court or Federal court of competent jurisdiction and within reasonably close proximity to the Company. Each Party hereby waives its respective rights to any jury trial with respect to any litigation arising under or in connection with this Agreement.

16.5 Regulatory Approvals

DS Supplier agrees to cooperate, to the fullest extent necessary, to obtain any and all required State, Federal or other regulatory approvals of the Agreement and/or Transaction Confirmations hereunder. The commencement of the Delivery Period and the obligations hereto are subject to (i) the receipt or waiver by Company of all Company required regulatory approvals, (ii) the receipt or waiver by DS Supplier of all DS Supplier required regulatory approvals, and (iii) PaPUC approval.

16.6 Headings

The headings and subheadings contained in this Agreement are used solely for convenience and do not constitute a part of the Agreement between the Parties hereto, nor

should they be used to aid in any manner in the construction of this Agreement.

16.7 Third Party Beneficiaries

This Agreement is intended solely for the benefit of the Parties hereto and nothing in this Agreement shall be construed to create any duty, or standard of care with reference to, or any liability to, any person not a Party to this Agreement.

16.8 General Miscellaneous Provisions

(a) This Agreement shall not be interpreted or construed to create an association, joint venture, or partnership between the Parties, or to impose any partnership obligation or liability upon any Party. No Party shall have any right, power, or authority to enter into any agreement or undertaking for, or on behalf of, or to act as or be an agent or representative of, or to otherwise bind, any other Party.

(b) Cancellation, expiration or Early Termination of this Agreement shall not relieve the Parties of obligations that by their nature survive such cancellation, expiration or termination, including warranties, remedies, promises of indemnity and confidentiality.

(c) Should any provision of this Agreement be held invalid or unenforceable, such provision shall be invalid or unenforceable only to the extent of such invalidity or unenforceability without invalidating or rendering unenforceable any other provision hereof unless it materially changes the agreement of the Parties; provided that in such event the Parties shall use commercially reasonable efforts to amend this Agreement or any Transaction in order to give effect to the original intention of the Parties.

(d) Each of the Parties acknowledges that it has read this Agreement, understands it, and agrees to be bound by its terms. This Agreement is intended by the Parties as a final expression of their agreement. The Parties further agree that this Agreement is the

complete and exclusive statement of agreement and supersedes all proposals (oral or written), understandings, representations, conditions, warranties, covenants and all other communications between the Parties relating thereto. This Agreement shall be considered for all purposes as prepared through the joint efforts of the Parties and shall not be construed against one Party or the other as a result of the preparation, substitution, submission or other event of negotiation, drafting or execution hereof. Each Party further agrees that it will not assert, or defend itself, on the basis that any applicable tariff is inconsistent with this Agreement or any Transaction.

16.9 Taxes

As between the Parties: (i) the DS Supplier is responsible for the payment of all taxes imposed by all present and future federal, state, municipal or other taxes imposed by any taxing authority on the wholesale sales of DS Supply under this Agreement; and (ii) the Company is responsible for the payment of all taxes imposed by all present and future federal, state, municipal or other taxes imposed by any taxing authority on retail sales of DS Supply under this Agreement. Should the DS Supplier be required to remit any Pennsylvania State sales and use taxes directly to the applicable taxing authority, other than taxes previously collected by the DS Supplier on behalf of the Company, the Company will defend and indemnify the DS Supplier for such sales and use taxes and will pay to the DS Supplier all such tax amounts upon demand. If any Transaction is exempt from the payment of any sales and use taxes, the affected DS Supplier will, if requested, provide the Company with valid tax exemption certificates. Should the Company be required to remit any sales and use taxes directly to any applicable taxing authority, other than taxes previously collected by the Company directly from the DS

Supplier, the DS Supplier will defend and indemnify the Company and will pay to the Company all such tax amounts upon demand.

16.10 Audit

Each Party has the right on at least three (3) Business Days prior written notice, at its sole expense and during normal working hours, to examine the records of the other Party to the extent reasonably necessary to verify the accuracy of any statement, charge or computation made pursuant to this Agreement. If any such examination reveals any inaccuracy in any statement, the necessary adjustments in such statement and the payments thereof will be made in accordance with Article 9 (Billing and Payment) of this Agreement.

16.11 Rules of Interpretation

The following principles shall be observed in the interpretation and construction of this Agreement:

(a) Unless otherwise stated, the terms "include" and "including" when used in this Agreement shall be interpreted to mean by way of example only and shall not be considered limiting in any way;

(b) All titles and headings used herein are for convenience and reference purposes only, do not constitute a part of this Agreement and shall be ignored in construing or interpreting the obligations of the parties under this Agreement;

(c) References to the singular include the plural and vice versa;

(d) References to Articles, Sections, Clauses and the Preamble are, unless the context indicates otherwise, references to Articles, Sections, Clauses and the Preamble of this Agreement;

(e) In carrying out its rights, obligations and duties under this Agreement, each Party shall have an obligation of good faith and fair dealing; and

(f) If any payment due under this Agreement would be, by operation of the terms and conditions of any provision hereof, due and payable on a day other than a Business Day, such payment shall be made on the next following Business Day.

16.12 Confidentiality

(a) Each Party shall hold in confidence and not release or disclose any document or information furnished by the other Party in connection with this Agreement, unless: (i) compelled to disclose such document or information by judicial, regulatory or administrative process or other provisions of law; (ii) such document or information is generally available to the public; (iii) such document or information was available to the receiving Party on a non-confidential basis; (iv) such document or information was available to the receiving Party on a non-confidential basis from a third-party, provided that the receiving Party does not know, and, by reasonable effort, could not know that such third-party is prohibited from transmitting the document or information to the receiving Party by a contractual, legal or fiduciary obligation; or (v) such disclosure is made to PJM or PaPUC and is necessary in order for the

Transactions contemplated by this Agreement to be consummated or to otherwise comply with the provisions of this Agreement.

(b) Notwithstanding any other provision of this Section 16.12, a Party may disclose to its employees, representatives and agents all documents and information furnished by the other Party in connection with this Agreement, provided that such employees, representatives and agents have been advised of the confidentiality provisions of this Section 16.12, and further provided that in no event shall a document or information be disclosed in violation of the standard of conduct requirements established by FERC.

(c) A Party receiving notice or otherwise concluding that any confidential document or information furnished by the other Party in connection with this Agreement is being sought under any provision of law, to the extent it is permitted to do so under any applicable law, shall: (i) promptly notify the other Party; and (ii) use reasonable efforts in cooperation with the other Party to seek confidential treatment of such confidential information.

(d) The Parties agree that monetary damages may be inadequate to compensate a Party for the other Party's breach of its obligations under this Section 16.12. Each Party accordingly agrees that the other Party shall be entitled to equitable relief, by way of injunction or otherwise, if the receiving Party breaches or threatens to breach its obligations under this Section 16.12, which equitable relief shall be granted without

bond or proof of damages, and the receiving Party shall not plead in defense that there would be an adequate remedy at law.

16.13 Federal Acquisition Regulation

If any of the following clauses prescribed by the Federal Acquisition Regulation ("FAR"), 48 Code of Federal Regulations Chapter 1, should be deemed to apply to this Agreement, the DS Supplier shall comply with the requirements of such clause(s), and shall include the terms or substance of such clause(s) in its subcontracts, as and to the extent required by the FAR:

1) Clean Air and Water: § 52.223-2;

2) Contract Work Hours and Safety Standards Act-Overtime Compensation: § 52.222-4;

3) Equal Opportunity: § 52.222-26;

4) Affirmative Action for and Employment Reports on Special Disabled and Vietnam Era Veterans: § 52.222-35 and § 52.222-37;

5) Affirmative Action for Handicapped Workers: § 52.222-36;

6) Utilization of Small Business Concerns and Small Disadvantaged Business Concerns and Small Business and Small Disadvantaged Business Subcontracting Plan: § 52.219-8 and § 52-219-9.

In case of a conflict between the provisions of the FAR and the balance of this Agreement, the requirements of the FAR shall prevail.

16.14 Binding Terms

This Agreement and the rates, terms and conditions herein shall remain in effect

for the entire term hereof and each Party agrees not to seek any change to such rates, terms and conditions pursuant to the FPA, if the FPA is deemed to have jurisdiction over this Agreement, including on the grounds that they are not just and reasonable.

16.15 Amendment

This Agreement, including the appendices hereto, cannot be amended without the written agreement of all Parties prior to such amendment becoming effective. Except as provided in Appendix C, the rates, terms and conditions contained in this Agreement are not subject to change under Sections 205 or 206 of the Federal Power Act absent the mutual written agreement of the Parties. Absent the agreement of all parties to the proposed change, the standard of review for changes to this Agreement proposed by a Party, a non-Party or the FERC acting *sua sponte* shall be the "public interest" standard of review set forth in *United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956)* and *Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956), affirmed by Morgan Stanley Capital Group, Inc. v. Public Utility District No. 1 of Snohomish County, Washington, et al.,* 554 U.S. 527 (2008) (the "Mobile-Sierra Doctrine").

16.16 Counterparts

This Agreement including all Transaction Confirmations hereunder may be executed in counterparts, each of which will be considered an original, but all of which shall constitute one instrument.

16.17 Successors

This Agreement and all of the provisions hereof are binding upon, and inure to the benefit of, the Parties and their respective successors and permitted assigns.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed by their duly authorized representatives as of the date first set forth above.

[SUPPLIER SIGNATURES APPEAR ON SUCCEEDING PAGES]

APPENDIX A

MAXIMUM UNSECURED CREDIT

Credit Rating Table

Credit Rating			Maximum Credit Limit is the lower of Tangible Net Worth (TNW) Amount and Unsecured Credit Limit Cap below:	
S&P	**Fitch**	**Moody's**	**TNW Amount**	**Credit Limit Cap**
A- or above	A- or above	A3 or above	16% of TNW	$60,000,000
BBB+	BBB+	Baa1	10% of TNW	$40,000,000
BBB	BBB	Baa2	8% of TNW	$30,000,000
BBB-	BBB-	Baa3	6% of TNW	$15,000,000
Below BBB-	Below BBB-	Below Baa3	0% of TNW	0

Credit Rating Determination Methodology
The DS Supplier or its Guarantor must have a minimum senior unsecured debt rating (or, if unavailable, corporate issuer rating) equal to the Minimum Rating.

For purposes of determining Unsecured Credit, the relevant Maximum Credit Limit for aggregate transactions shall not exceed the Maximum Credit Limit listed in the table above that corresponds to DS Supplier's (or DS Supplier's Guarantor's) lowest Credit Rating most recently published by the three credit rating agencies: S&P, Fitch and Moody's. If the DS Supplier or its Guarantor is rated by only two rating agencies, and the ratings are split, the lower rating will be used.

The relevant TNW Amount shall be calculated using the percentage listed in the Credit Rating Table that corresponds to DS Supplier's (or DS Supplier's Guarantor's) lowest Credit Rating most recently published by S&P, Fitch and/or Moody's.

Minimum Rating – The lowest credit rating for a DS Supplier, as set forth in this Appendix A, that can obtain unsecured credit.

APPENDIX B

BUYER'S EXPOSURE CALCULATION INFORMATION

Disclaimer: The prices that appear in this Appendix are purely hypothetical and are not based on or derived from any actual source for forward pricing. They are solely for purposes of illustration. Capitalized terms not defined herein shall have the meaning in the Agreement.

As set forth in Article 6 (Creditworthiness) of the Agreement, the DS Supplier's credit exposure (the "Mark-to-Market (MtM) Exposure Amount") is an amount calculated each Trading Day for the DS Supplier that reflects the financial exposure to the Buyer due to fluctuations in Forward Market Prices for Energy. The MtM Exposure Amount will be equal to 1.1 times the sum of the MtM credit exposures for each applicable month. The Total Exposure Amount is the sum of the calculated Buyer's Exposure for all Transactions under this Agreement and all other transactions under all supplier master agreements executed between the Parties pursuant to the PaPUC Orders to serve Buyer's DS Load. For Fixed Price Default Supply, the Buyer's Exposure during the term of a Transaction shall be calculated by determining the MtM Exposure Amount, then subtracting the sum of any unpaid or unbilled amounts owed by Buyer to DS Supplier pursuant to a Transaction.

This Appendix B explains the methodology and data sources that the Buyer will use to calculate the MtM Exposure Amount and Total Exposure Amount.

On a Transaction Date, the Buyer's Exposure for a Fixed Price Transaction shall be deemed equal to zero. To the extent that the calculations of the Total Exposure Amount for a given Trading Day result in a negative number, the Total Exposure Amount for such date shall be

deemed equal to zero.

Calculation of the MtM Exposure Amount and Total Exposure Amount

For each Transaction, on each Trading Day subsequent to the Transaction Date, the MtM credit exposures will be calculated, with respect to each month remaining in the Delivery Period, as the sum of the following:

- the relevant month On-Peak Energy Forward Price minus the relevant month On-Peak Initial Mark Price, multiplied by the relevant month On-Peak Estimated Energy Quantity;

- the relevant month Off-Peak Energy Forward Price minus the relevant month Off-Peak Initial Mark Price, multiplied by the relevant month Off-Peak Estimated Energy Quantity

where,

"Affiliate" means, with respect to any entity, any other entity that, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with, such entity. For this purpose, "control" means the direct or indirect ownership of fifty percent (50%) or more of the outstanding capital stock or other equity interests having ordinary voting power.

"Buyer's Exposure" during the term of a Transaction, for Fixed Price Transactions, shall be deemed equal to the positive difference between: (i) the MtM Exposure Amount pursuant to a Transaction under this Agreement and (ii) the sum of any unpaid or unbilled amounts owed by Buyer to DS Supplier pursuant to a Transaction under this Agreement. With respect to the preceding sentence, "unbilled amounts owed by Buyer" shall consist of a good faith estimate by Buyer as to any amounts which will be owed by Buyer for service already rendered by DS Supplier under a Transaction. Buyer's Exposure for a Variable Price Transaction, during the first month of the term of a Transaction, shall be equal to Two Hundred Fifty Thousand Dollars (US$250,000.00) per Tranche. Thereafter, Buyer's Exposure for a Variable Price Transaction shall be calculated on the first Business Day of each month during the term of a Transaction and shall be deemed equal to the product of: (i) Two Hundred Fifty Thousand Dollars (US$250,000.00) per Tranche; (ii) the ratio of the Current Capacity PLC Per Tranche to the MW-Measure; (iii) the number of Tranches awarded to the DS Supplier per the Transaction Confirmation; and (iv) the ratio of the calendar days remaining in the Delivery Period to the total calendar days in the Delivery Period.

"Capacity Peak Load Contribution" or "Capacity PLC" means the aggregation of retail customer peak load contributions, as determined by the Buyer in accordance with the PJM Agreements and reported by Buyer to PJM pursuant to Buyer's retail load settlement process, and used by PJM in determining the DS Supplier's capacity obligation for each Transaction.

"Current Capacity PLC Per Tranche" is the Capacity PLC of a Tranche as of the Business Day the Buyer's Exposure is calculated for a Fixed Price Transaction or Variable Price Transaction.

"Fixed Price Transaction" means a Transaction Confirmation that is not a Variable Price Transaction, and as shown on such confirmation where the DS Fixed Price Percentage is 100%.

"MW-Measure" means the Current Capacity PLC Per Tranche as of the Transaction Date.

"Off-Peak Estimated Energy Quantity" is the estimate of the energy quantity (in MWh) to be supplied in the relevant month and will be calculated, from Transaction Confirmation information, by multiplying the relevant month Off-Peak Estimated Energy Quantity Per MW-Measure, by the number of Tranches awarded to the DS Supplier, and the ratio of the current Capacity PLC Per Tranche to the MW-Measure.

"Off-Peak Estimated Energy Quantity Per MW-Measure" means the estimation of Energy, inclusive of electrical line losses, in the Off-Peak Hours for each of the twelve (12) calendar months, as set forth in the Transaction Confirmation.

"Off-Peak Hours" means those hours which are not On-Peak Hours.

"Off-Peak Initial Mark Price" means the Off-Peak Energy Forward Price as of the Transaction Date.

"Off-Peak/On-Peak Price Ratio" means the relevant monthly ratio of off-peak pricing to on-peak pricing of the PJM Western Hub day-ahead prices as set forth by Buyer each October based on the previous 36-month period ending in September. The historical on-peak prices used for the ratio will be the PJM Western Hub day-ahead price for the On-Peak Hours. The historical off-peak prices used for the ratio will be the PJM Western Hub day-ahead prices for the Off-Peak Hours. For each month of the 36-month period, the monthly on-peak and off-peak prices will be summed and respectively divided by the amount of On-Peak Hours and Off-Peak Hours in that month. This calculated off-peak average price will be divided by the on-peak average price to determine the individual monthly ratios. Such monthly ratios for the same months within the 36-month period will then be summed and divided by three (3) to come up with the rolling three year monthly ratio average.

"On-Peak Estimated Energy Quantity" is the estimate of the energy quantity (in MWh) to be supplied in the relevant month and will be calculated, from Transaction Confirmation information, by multiplying the relevant month On-Peak Estimated Energy Quantity Per MW-Measure, by the number of Tranches awarded to the DS Supplier, and the ratio of the Current Capacity PLC Per Tranche to the MW-Measure.

"On-Peak Estimated Energy Quantity Per MW-Measure" means the estimation of Energy, inclusive of electrical line losses, in the On-Peak Hours for each of the twelve (12) calendar months, as set forth in the Transaction Confirmation.

"On-Peak Hours" means Hour Ending ("HE") 0800 through HE 2300 EPT, Monday through Friday, excluding Saturday, Sunday and PJM holidays.

"On-Peak Initial Mark Price" means the On-Peak Energy Forward Price as of the Transaction Date.

"Pricing Agent" is the independent consultant to provide pricing services with respect to the Fixed Price Transactions under this Agreement. The Pricing Agent shall provide to the Buyer the On-Peak Initial Mark Price and the Off-Peak Initial Mark Price. In addition, on each Business Day, the Pricing Agent shall provide to the Buyer the On-Peak Energy Forward Price and the Off-Peak Energy Forward Price. To the extent that information and/or quotes are not available to determine an On-Peak Energy Forward Price or Off-Peak Energy Forward Price for a given month the Pricing Agent shall be permitted to use information and/or quotes relevant to such month for which information/and quotes are available in order to provide the Buyer the required On-Peak Energy Forward Price and Off-Peak Energy Forward Price for such month.

"Reference Market-Maker" means any broker in energy products or exchange that is not an Affiliate of Buyer or DS Supplier.

"Trading Day" means any day except a Saturday, Sunday or a designated holiday by a non-affiliated entity providing forward energy market prices for purposes of Appendix B, as selected by Buyer in its reasonable discretion.

"Transaction Date" means the date that a Transaction is executed as set forth in the Transaction Confirmation.

"Variable Price Transaction" means a Transaction Confirmation for Full Requirements Service with spot energy pricing, as shown on such confirmation.

For the current month of each Trading Day MtM credit exposures calculation, the On-Peak Estimated Energy Quantity and Off-Peak Estimated Energy Quantity will be calculated for the month, as described above, and prorated for the remaining On-Peak Hours and Off Peak Hours remaining in the month as follows:

- On-Peak Hours remaining in the current month (including the first calendar day following the Trading Day) divided by total On-Peak Hours in the current month

- Off-Peak Hours remaining in the current month (including the first calendar day following the Trading Day) divided by total Off-Peak Hours in the current month

Parameters

In calculating the MtM Exposure Amount for each Transaction, the following parameters are set on the Transaction Date:

- On-Peak Initial Mark Price
- Off-Peak/On-Peak Price Ratio
- Off-Peak Initial Mark Price
- MW-Measure: initial Capacity PLC Per Tranche
- On-Peak Estimated Energy Quantity Per MW-Measure for each of the twelve calendar months
- Off-Peak Estimated Energy Quantity Per MW-Measure for each of the twelve calendar months
- Number of awarded Tranches

In calculating the MtM Exposure Amount for each Transaction, the following parameters are set each Trading Day subsequent to the Transaction Date:

- On-Peak Energy Forward Price
- Off-Peak Energy Forward Price
- Current Capacity PLC Per Tranche
- On-Peak Estimated Energy Quantity
- Off-Peak Estimated Energy Quantity

Process to Update the On-Peak Initial Mark Prices and Off-Peak Initial Mark Prices on a daily basis

On each Trading Day subsequent to the Transaction Date, the Pricing Agent will contact four Reference Market-Makers to obtain price quotes for on-peak and off-peak energy for PJM Western Hub. The Pricing Agent may not rely upon quotes from DS Supplier or any Affiliate of DS Supplier.

The updated mark for a month will be equal to the average mark for that month over all sources from which a quote is available. If a monthly quote is available from any source, only the monthly quote or monthly quotes shall be used. Where quotes provide a bid and ask, the average shall be used.

Where a quote for an individual month is unavailable, but the month is quoted as part of a "packaged" quote (e.g., January 2025 is only available in the form of a January/February 2025 "packaged" quote or an annual quote):

- If the other month/months of the package quote is/are also unavailable, then the marks for all months of the package will be calculated by multiplying the packaged quote by the

ratio of the corresponding month to the corresponding calculated package quote from the previous day.

Example: There are no On-Peak quotes available on day X during the contract for July 2025 or August 2025. However, there is an On-Peak July/August 2025 packaged quote of $73.00/MWh available. The On-Peak marks from day X-1 for July 2025 and August 2025 were $73.50/MWh and $76.50/MWh respectively. Additionally we know that there are 352 On-Peak hours for July 2025 and 336 On-Peak hours for August 2025. The information available for use in this example is summarized below.

Month(s) of Quote	On-Peak Hours	Quote for Day X-1	Quote for Day X
July 2025	**352**	**$73.50**	Not provided
August 2025	**336**	**$76.50**	Not provided
July/August 2025	**688** (352+336)	Not provided	**$73.00**

The On-Peak July/August 2025 packaged quote can be calculated as [(73.50 * 352) + (76.50 * 336)] / (352+336) ≈ $74.97.

The day X On-Peak mark for July 2025 is set at 73.00 * [73.50] / [((73.50 * 352) + (76.50 * 336)) / (352+336)] = 73.00 * (73.50/ 74.97) = $71.57/MWh. The day X On-Peak mark for August 2025 is set at 73.00 * [76.50] / [((73.50 * 352) + (76.50*336)) / (352+336)] = 73.00 * (76.50 / 74.97) = $74.49/MWh.

- If the other month/months of the package quote is/are available, then the mark for the month will be set such that the average of the month and the other month(s) (weighted for either the On-Peak Hours or Off-Peak Hours as applicable) equals the packaged quote (see calculation example below).

Example: There are no On-Peak available for August 2025. However, there is an On-Peak July/August 2025 package quote available of $75.00/MWh and an On-Peak July 2025 quote of $73.00/MWh. The information available for use in this example is summarized below.

Month(s) of Quote	On-Peak Hours	Quotes for Day
July 2025	**352**	**$73.00**
August 2025	**336**	Not provided
July/August 2025	**688** (352+336)	**$75.00**

The On-Peak mark for August 2025 is set at [75.00 * (352 +336) – 73.00 * (336)] / [352] = $76.91/MWh.

If, on a given Trading Day, the Pricing Agent is not able to obtain quotes from the Reference Market-Makers, then Buyer will look to reasonable alternative sources of price data (excluding DS Supplier or any Affiliate of DS Supplier) and will rely on the prices from those alternative data sources to update the mark if pricing data is available from those alternative sources. As a reasonable alternative source of price data, the Buyer may use the following methodology:

- A calendar year on-peak/off-peak energy price, for the calendar year pertaining to the delivery period for which the On-Peak/Off-Peak Energy Forward Price is being developed, is calculated using the following methodology:
    - First, a Market-Implied Heat Rate is calculated as the ratio of the calendar year On-Peak and/or Off-Peak Energy Forward Price (calculated using On-Peak/Off-Peak Energy Forward Prices) to the calendar year Henry Hub forward natural gas price (calculated using Henry Hub forward natural gas prices) for the calendar year for which price data sufficient to calculate both prices are available and that is the farthest year in the future. As an alternative, the applicable Market-Implied Heat Rate may be determined by calculating the market-implied heat rates applicable to the last three years for which data are available that are the farthest in the future, and performing an extrapolation.
    - Next, this calculated Market-Implied Heat Rate is applied to the monthly Henry Hub forward natural gas price (calculated using Henry Hub forward natural gas prices) for the months pertaining to the delivery period for which the On-Peak/Off-Peak Energy Forward Price is being developed.

Quotes from the sources will be examined to identify quotes that are out of line and potentially invalid or are in obvious error. Sources will be asked to either correct or verify data that is anomalous and/or inconsistent with that provided by other sources or is in obvious error. If the data cannot be verified in time for the daily mark, the anomalous data will be discarded.

APPENDIX C

DS SUPPLY SPECIFICATIONS

The following DS Supply specifications will be specified in Transaction Confirmations to this SMA in the form attached as Exhibit 1. Suppliers shall also be required to provide a completed Form of Notice (Exhibit 2) and PJM Declaration of Authority (Exhibit 3).

Product:

Full Requirements Service - All necessary Energy, Capacity, transmission other than Network Integration Transmission Service, Ancillary Services, AECs for compliance with the AEPS Act, transmission and distribution losses, congestion management costs, and such other services or products that are required to supply the DS Supplier Responsibility Share except for distribution service.

Appendix D – describes Company and DS Supplier responsibility for PJM Billing Statement Line Item Credits and Charges associated with the product.

Appendix E – further describes DS Supplier responsibilities for compliance with the AEPS Act in the Product specification.

DS Fixed Percentage/DS Variable Percentage:

The percentage of DS Supply provided at a fixed price and the percentage of DS Supply provided at a variable price. For each Transaction Confirmation, DS Fixed Percentage + DS Variable Percentage specified shall add to 100%.

Seasonal Billing Factor:

When specified, numerical multipliers associated with summer months (June-September) and non-summer months (November-May)

Summer Seasonal Billing Factor- 1.0

Non-Summer Seasonal Billing Factor- 1.0

Otherwise, assumed to be 1.0, if not specified.

DS Customer Group:

Each Transaction Confirmation shall be associated with DS Supply to one of the following DS Customer categories as defined in the DS Tariff:

Residential;

Small Commercial 0-100 kW;

Consolidated Large Commercial and Industrial over 100 kW.

Service Type:

Residential – Rate Classes R, RH, and TOU Pricing Option

Small Commercial - Rate Classes GS, HT, PD, AL, TLCL, POL, SLC, SLE, SLS, and TOU Pricing Option

Consolidated Large Commercial and Industrial – Rate Classes GS, HT, PD and EP

Delivery Point:

PECO_RESID_AGG Zone

Delivery Period:

As specified in each Transaction Confirmation.

Number of Tranches and Percentage for Each Tranche:

Residential – XX tranches; Tranche Percentage: X.X% per Tranche

Small Commercial – XX tranches; Tranche Percentage: X.X% per Tranche

–Consolidated Large Commercial and Industrial - XX tranches; Tranche Percentage: X.X% per Tranche

DS Supplier Responsibility Share:

Fixed percentage share of DS Load for DS Customer Group associated with Transaction Confirmation. Typically, DS Supplier Responsibility Share is the product between the number of Tranches won and Tranche Percentage for the DS Customer Group. (Ex. X.X%)

MW Measure:

The estimated megawatt measure of Capacity Peak Load Contribution corresponding to a single Tranche identified in the Transaction Confirmation as of the Transaction Date.

With respect to Transactions where the DS Variable Percentage is 100%, the Statement prepared in accordance with Section 9.1(a) will include: (a) an energy charge equal to sum of the products of each hour's hourly day-ahead PJM load weighted average locational marginal price for the Delivery Point, and each hour's Energy requirements associated with the DS Supplier Responsibility Share, and (b) a capacity charge equal to the sum of the product of the PJM Final Zonal Capacity Price for the Delivery Point in $/MW-day and the daily amounts of Capacity reported as the DS Supplier's Capacity obligation by Buyer to PJM for each day of the Billing Month. With respect to Variable Price Transactions, the PMEA/FMEA Adjustment Amount calculated in accordance with Section 9.1 (d) will include: any adjustments to account for changes in the hourly energy or capacity volumes used to calculate the energy charge and the capacity charge as described above.

EXHIBIT 1

TRANSACTION CONFIRMATION

This Transaction Confirmation letter is being provided pursuant to and in accordance with the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA") dated _____ between PECO Energy Company ("Buyer" or "PECO Energy") and _____ ("DS Supplier"). Terms used but not defined herein shall have the meanings ascribed to them in the Default Service SMA. This Transaction Confirmation shall confirm the following terms of the transaction ("Transaction") agreed to on _____ ("Transaction Date").

Product:	Full Requirements Service
DS Fixed Percentage/DS Variable Percentage:	
DS Customer Group:	
Service Type:	
Delivery Point:	PECO_RESID_AGG Zone
Delivery Period:	
Number of Tranches:	
Percentage for Each Tranche:

2026-2027				
2027-2028				
2028-2029				

Capacity Supplement:

The Delivery Year for purposes of this Capacity Supplement is June 1, 20__ to May 31, 20__. The Delivery Period overlaps with part or all of the Delivery Year. This Capacity Supplement applies if the results for the Base Residual Auction ("BRA") under PJM's Reliability Pricing Model ("RPM"), or any successor, for the Delivery Year were not announced by PJM at least five (5) business days prior to the Bid Date. The Bid Date was Month XX, 20XX. If the Capacity Supplement applies, it will become effective on the Transaction Date and will expire at the end of the Delivery Period.

Except as specifically modified in and by this Capacity Supplement, all terms and conditions of the Agreement, including all Appendices, Exhibits, and payment provisions under Article 9, shall remain in full force and effect and shall apply to the Transaction. For purposes of this Capacity Supplement: (i) the "Capacity Price" is the price paid by DS Suppliers for Capacity for the Delivery Point, in $ per MW-day, for the Delivery Year as set forth in the PJM Agreements, or any successor; and (ii) the "Capacity Proxy Price" is $_____/MW-day. The Capacity Proxy Price is the average of the most recent results under PJM's RPM for the

two most recent delivery years for which PJM has held a capacity auction. For the avoidance of doubt, the results of the most recent Incremental Auction held under PJM's RPM would be used if an Incremental Auction has been held for a delivery year.

The Parties agree as follows:

Section 9.1 (a) of the Uniform SMA is replaced for purposes of payment for the Transaction referenced herein with:

> Each Billing Month, the Company will prepare a Statement of amounts due to the DS Supplier. This Statement will show the aggregate amounts due based on the DS Fixed Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Fixed Percentage as shown in Appendix C, multiplied by the Seasonal Billing Factor, if applicable, for each hour of the Billing Month, plus the aggregate amounts due based on the DS Variable Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Variable Percentage as shown in Appendix C for each hour of the Billing Month. With respect to Variable Price Transactions, the Statement will also include additional amounts set forth in Appendix C. For each month of the Delivery Year that is also a Billing Month of the Delivery Period, this Statement will include an additional line item that will show the sum, over all days of the Billing Month, of the difference between the Capacity Price actually charged for load served for the Delivery Point and the Capacity Proxy Price, multiplied by the amount of Capacity for the day reported as the DS Supplier's Capacity obligation by Buyer to PJM for the Transaction.

Section 9.1 (d) of the Uniform SMA is replaced for purposes of payment for the Transaction referenced herein:

> To the extent that the FMEA differs from the PMEA, the Company will pay or charge the DS Supplier for the PMEA/FMEA Adjustment Amount within the PJM deadline for conducting the final settlement. For each month of the Delivery Year that is also a Billing Month of the Delivery Period, to the extent that the DS Supplier's Capacity obligation used in the calculation detailed in Section 9.1(a) is adjusted after the PJM deadline for conducting final settlement, the Company will pay or charge the DS Supplier any net difference between the payments calculated and made within the PJM deadline for conducting final settlement, and the payments calculated using the adjusted values.

Please confirm that the terms stated herein accurately reflect the agreement reached on the date above between DS Supplier and Buyer by returning an executed copy of this Transaction Confirmation to PECO Energy Company. The signatories to this Transaction must have the authority to enter into this Transaction.

EXHIBIT 3

FORM OF PJM DECLARATION OF AUTHORITY

This Declaration of Authority ("Declaration") is made this _____ day of _____, 20____ by the following:

PRINCIPAL: _____ ("Principal")

AGENT: _____ ("Agent").

RECITALS

WHEREAS, PJM is a Regional Transmission Organization ("RTO") subject to the jurisdiction of the Federal Energy Regulatory Commission ("FERC");

WHEREAS, PJM Settlement, Inc ("PJM Settlement") is a Pennsylvania Non-Profit Corporation, incorporated for the purpose of providing billing and settlement functions and credit and risk management functions for PJM. References to "PJM" in this Declaration are intended to apply to PJM and/or PJM Settlement, as appropriate, with regard to their respective functions.

WHEREAS, PJM and PJM Settlement administer centralized markets that clear various electric energy and energy-related products among multiple buyers and DS Suppliers;

WHEREAS, PJM additionally exercises operational control over its members' transmission facilities whereby PJM provides open-access transmission service and control area functions, including economic dispatch and emergency response to ensure reliability;

WHEREAS, Principal is a PJM Member and seeks to obtain, or is obtaining, services provided or administered by PJM, seeks to participate, or is participating in, markets administered by PJM, or seeks to engage in, or is engaging in, operations that use or affect the integrated transmission system operated by PJM;

WHEREAS, such activities or contemplated activities by Principal and Agent are governed by rights and obligations established by or under the PJM Open Access Transmission Tariff ("Tariff"), the Amended and Restated Operating Agreement of PJM Interconnection, L.L.C. ("Operating Agreement"), the Reliability Assurance Agreement Among Load-serving Entities in the MAAC Control Zone ("RAA"), and other agreements, manuals, and practices of PJM (the Tariff, the Operating Agreement, the RAA, and such other agreements manuals, and practices of PJM, the "PJM Agreements"); and

WHEREAS, Principal and Agent desire to declare to PJM their respective authorities concerning such rights and obligations, intend that PJM rely upon such declaration, and acknowledge that PJM may rely upon such declaration to its detriment.

DECLARATION

NOW, THEREFORE, acknowledging that PJM will rely on the truth, accuracy and completeness of the declarations made below, Principal and Agent, as identified below, make the following declarations:

1. Exclusivity of Agent's Authority.

Pursuant to a binding, legally enforceable agreement, Principal has authorized Agent to act for Principal with respect to certain rights and responsibilities as specified in Section 2 of this Declaration ("the Authorized Rights and Responsibilities"). With respect to the Authorized Rights and Responsibilities, Agent is authorized to communicate and transact with PJM as Principal's sole and exclusive agent, and PJM is authorized to communicate and transact directly and exclusively with Agent as Principal's agent. With respect to Authorized Rights and Responsibilities, Principal will abide by any direction issued by PJM to Agent.

2. Specification of Authorized Rights and Responsibilities.

In the following parts (a) through (h), Principal and Agent specify the rights and responsibilities with respect to which Agent is authorized to act for Principal. Specification shall be effective only if both Principal and Agent have placed the initials of their authorized representatives in the space provided for each applicable right or responsibility from among the options provided below:

(a) Load Server Responsibilities.

_____ _____ Agent is authorized to satisfy Principal's obligations as a Load-Serving Entity under the RAA, including, without limitation, its obligations to provide Unforced Capacity, submit capacity plans, provide or arrange for Capacity Resources, satisfy Accounted-for Obligations and Peak Season Maintenance Obligations, comply with any capacity audits, make payment of all deficiency, data submission, and emergency procedure charges incurred, coordinate planning and operation of Capacity Resources with other parties; and develop and submit planned outage schedules.

_____ _____ Agent is authorized to satisfy Principal's obligations under the Tariff, RAA and to provide or arrange for transmission service to its loads; provide or arrange for sufficient reactive capability, voltage control facilities, and black start capability for service to its loads; submit firm transmission service schedules, and designate Network Resources and other points of receipt and delivery for transmission

service. Agent is authorized to request changes to the transmission service required for service to Principal's loads, and to enter into, on Principal's behalf, any feasibility, system impact, facilities study, or other agreements required to process such request for a change in service.

_____ _____ Agent is authorized to satisfy Principal's rights and obligations under the Tariff and Operating Agreement to submit bids on, obtain, administer, and receive payments or credits for Financial Transmission Rights and Auction Revenue Rights with respect to service to Principal's loads.

_____ _____ Agent is authorized to provide data required by PJM with respect to service to Principal's loads, including, but not limited to, data required for coordination of operations, accounting for all interchange transactions, preparation of required reports and maintenance schedules, and analysis of system disturbances.

_____ _____ Agent is authorized to provide the facilities and personnel required to coordinate operations with PJM and other PJM Members.

(b) Electric Distributor Responsibilities.

_____ _____ Agent is authorized to satisfy Principal's rights and obligations as an Electric Distributor under the Operating Agreement, including, but not limited to, assuring the continued compatibility of its local energy management, monitoring, and telecommunications systems with PJM's technical requirements; providing or arranging for the services of a 24-hour local control center to coordinate with PJM; providing to PJM all system, accounting, customer tracking, load forecasting, and other data necessary or appropriate to implement or administer the Operating Agreement, RAA; shedding connected load, initiating active load management programs, and taking such other coordination actions as may be necessary in accordance with PJM's directions in Emergencies; maintaining or arranging for a portion of its connected load to be subject to control by automatic underfrequency, under-voltage, or other load-shedding devices; and complying with the underfrequency relay obligations and charges specified in the Operating Agreement.

(c) Generator Responsibilities.

_____ _____ Agent is authorized to operate the Principal's generation resources in all events, including, but not limited to, in the event of Emergencies, and shall operate such resources in a manner that is consistent with the standards, requirements or directions of PJM and that will permit PJM to perform its obligations under the

Operating Agreement, Tariff, RAA, and other applicable agreements, manuals, and practices.

_____ _____ Agent is authorized to ensure that the required portion of Principal's Capacity Resources have the ability to go from a shutdown condition to an operating condition and start delivering power without assistance from the power system.

- Or –

_____ _____ Agent is authorized to direct the operation of Principal's generation resources by relaying PJM's instructions to the resource in all events, including, but not limited to, in the event of Emergencies, and shall direct such resources in a manner that is consistent with the standards, requirements or directions of PJM and that will permit PJM to perform its obligations under the Operating Agreement, Tariff, RAA, and other applicable agreements, manuals, and practices.

_____ _____ Agent is authorized to communicate with PJM in all matters concerning the provision of capacity, energy, or ancillary services from Principal's generation resources, including, without limitation, information required in connection with Capacity Resources, dispatch of any unit, provision of reactive power, regulation, synchronous condensing, spinning or other reserves, establishment or maintenance of a unit as a Black-Start Unit, satisfaction of must-run obligations, and costs or revenue requirements for any product or service offered by any such unit.

_____ _____ Agent is authorized to provide information on outages of Principal's generation facilities, whether planned, forced, or for maintenance, and to coordinate such outages with PJM

_____ _____ Agent is authorized to act on behalf of Principal with respect to Principal's rights and obligations under any Feasibility Study, System Impact Study, or Facilities Study Agreements.

_____ _____ Agent is authorized to act on behalf of Principal with respect to Principal's rights and obligations under any Construction Service Agreements.

_____ _____ Agent is authorized to act on behalf of Principal with respect to Principal's rights and obligations under any Interconnection Service Agreements.

____ _____ Agent is authorized to receive from PJM historic and real time data collected by PJM from, or provided to PJM by, Principal with respect to Principal's generation resources.

_____ _____ Agent is authorized to act on behalf of Principal for the following specific unit(s) in Principal primary and subaccounts:

Resource Name: Resource ID:

(d) Market Buyer/Market Seller Responsibilities.

_____ _____ Agent is authorized to satisfy Principal's rights and obligations as a Market Buyer or Market Seller under the Operating Agreement, including, but not limited to, arranging for a Market Operations Center capable of real-time communication with PJM during normal and Emergency conditions; reporting to PJM sources of energy available for operation; providing to PJM scheduling and other information, including, but not limited to, maintenance and other anticipated outages of generation or transmission facilities, scheduling and related information on bilateral transactions and self-scheduled resources, and implementation of active load management, interruption of load, and other load reduction measures; obtaining Spot Market Backup for bilateral transactions; submitting to PJM binding offers to purchase or sell energy and ancillary services in compliance with all applicable Offer Data specifications; responding to PJM's directives to start, shut down or change output levels of generation units, or change scheduled voltages or reactive output levels; responding to PJM's directives to schedule delivery or change delivery schedules for external resources; and following PJM's directions to take actions to prevent, manage, alleviate or end an Emergency.

(e) Billing and Payment Responsibilities.

_____ _____ In connection with all rights and responsibilities specified by Principal and Agent in any of subparts (a) through (d) of this Section, or as specified in the attached Addendum, Agent shall be billed for, and shall make payment to PJM for, all charges, penalties, costs and fees. (If this option is not specified, PJM will issue billings to, and collect amounts due from, Principal.)

_____ _____ In connection with all rights and responsibilities specified by Principal and Agent above, Agent is entitled to receive from PJM in Agent's account all credits, revenues, distributions, and disbursements. (If this option is not specified, PJM will pay such amounts to Principal.)

(f) General Membership Responsibilities.

_____ _____ Agent is authorized to participate and vote in all PJM committees, working groups, and other stakeholder bodies on Principal's behalf.

_____ _____ Agent is authorized to participate on Principal's behalf in the regional transmission expansion planning process.

_____ _____ Agent is authorized to provide information or otherwise cooperate on Principal's behalf in connection with any investigation or request for information by PJM or the PJM Market Monitoring Unit in accordance with the Operating Agreement and Attachment M to the Tariff. (If this option is specified, PJM and the PJM Market Monitoring Unit shall have the right to request and obtain such information from Agent and/or Principal.)

_____ _____ Agent shall be billed for, and shall make payment of, Principal's costs of membership in PJM, including payment of the Membership fee, and payment of any other general assessments on the PJM members, including, but not limited to, amounts assessed as a consequence of defaults by other Members.

(g) Additional Responsibilities.

_____ _____ Agent has been Authorized other rights and responsibilities of Principal as specified on Attachment "A" to this Declaration.

(h) Limitation on Responsibilities.

_____ _____ The rights and responsibilities specified in parts (a) through (f) above apply to a limited portion of Principal's facilities or loads located in the PJM Region, as specified on Attachment "B" to this Declaration, and to no other facilities or loads of Principal.

3. Continuing Responsibilities and Liabilities of Principal.

3.1 The Authorized Rights and Responsibilities are the only rights and responsibilities under the PJM Agreements for which Agent is authorized to act for Principal, and Principal retains all rights and responsibilities under the PJM Agreements not specified by Principal and Agent in Section 2.

3.2 With respect to the Authorized Rights and Responsibilities, and notwithstanding any other provision of this Agreement, Principal shall remain liable to PJM for all amounts due or to become due to PJM under the PJM Agreements, and Agent's authorization to make payment of any such amounts hereunder (if specified in Section 2) shall not release Principal from liability for any financial obligations to PJM not satisfied by Agent.

4. Reliance and Indemnity, Duty to Inform, Liability Waiver, and Rules of Construction.

4.1 Principal and Agent each recognizes, accepts and intends that PJM will rely, upon on the truth, accuracy and completeness of the declarations herein in matters including but not limited to creditworthiness and in assuring compliance with the PJM Agreements. Principal and Agent each recognizes and accepts that PJM or its members may suffer losses and damages if any declaration is or becomes untrue, inaccurate or incomplete, and each agrees to indemnify PJM for any such losses and damages.

4.2 Principal and Agent each has a continuing duty to notify PJM if and when any declaration herein ceases to be truthful, accurate or complete. Until such time as PJM receives written notification of any change to any declaration, in accordance with the terms contained herein, PJM shall be entitled to rely perpetually on this Declaration as governing its relationship with Principal and Agent as to the subject matter of this Declaration. Written notice of changes to the declarations contained herein must be provided by Principal (PJM Member) to PJM at least thirty days in advance of their effectiveness. If Agent is also a PJM Member, then both parties will be required to provide thirty days prior written notification in order for such changes to be effective. Such notification is required for changes to the declarations and responsibilities contained herein and/or termination of this Declaration. Upon such termination, all rights, responsibilities and accounts will revert back to the original status quo prevailing before the Declaration became effective. Should less than thirty days notice be provided, PJM shall use its best efforts to accommodate and process the declarations herein, but all attempts should be made to provide such notice.

4.3 Nothing in this Declaration shall be construed to create or give rise to any liability on the part of PJM and Principal and Agent expressly waive any claims that may arise against PJM under this Declaration. This Declaration shall not be construed to modify any of the PJM Agreements and in the event of conflict between this Declaration and a PJM Agreement, the applicable PJM Agreement shall control.

4.4 Capitalized terms used herein that are not defined herein have the meanings given in the PJM Agreements, as applicable.

4.5 The Recitals are hereby incorporated into the body of this Declaration.

IN WITNESS WHEREOF, Principal and Agent execute this Declaration to be effective as of the date written above or upon receipt of a fully executed original by PJM, whichever date is later.

APPENDIX E

DS SUPPLIER'S OBLIGATIONS FOR AEPS COMPLIANCE

To satisfy AEPS requirements with respect to the DS Supplier Responsibility Share, DS Supplier shall fulfill the following obligations:

(1) Providing sufficient AECs for each tranche award via the DS Solicitation less the allocated AECs. Appendix E and Exhibit 1 will apply during the term of the Agreement and will be used to determine the number of AECs a DS Supplier must deliver to Buyer to fulfill DS Supplier's AEPS obligation except to the extent that DS Supplier's AEPS obligation may be reduced by any AECs obtained separately by the Buyer and allocated to DS Supplier's AEPS obligation as shown on a Transaction Confirmation. Any Buyer AECs allocated to DS Supplier's AEPS obligation as set forth in Exhibit 1 shall remain the property of Buyer and shall not be transferred to DS Supplier;

(2) Paying any AEC penalties, costs, charges, etc. assessed against the DS Supplier and/or the Company associated with the DS Supplier's non-performance with AEPS requirements;

(3) Submitting to the Company proof of AEPS compliance under this agreement in such form and manner as may be required by the Company.

(4) Provide to the Company all information the Company may require to comply with the AEPS Act and its implementing regulations and other Requirements of Law, including, but not limited to the price paid per AEC required by 73 Pa.C.S. §1648.3(e)(8).

This Appendix E shall conform the AEPS obligation of the Transaction agreed to on _____("Transaction Due Date").
AEPS obligations for the period beginning 6/1/2025 based on the total MWh supplied by the DS Supplier:

Reporting Period	Tier 1*	PV	Tier 2
6/1/2025 to 5/31/2029	8.00%	0.50%	10.00%

*Tier 1 requirements include Tier 1 PV requirements.

The percentages set forth above are those applicable for the DS Solicitation and may be revised for future DS Solicitations to reflect changes in law or other applicable regulatory requirements. DS Supplier shall transfer all AECs to Buyer using GATS. Buyer will provide with an estimate of DS Supplier's AEPS obligation following the second quarter of the AEPS reporting period and with a final statement within thirty (30) calendar days of the end of AEPS reporting period. DS Supplier shall transfer the amount of AECs shown on Buyer's estimate and on the final statement within forty-five (45) calendar days after the date of each such estimate or statement. DS Supplier warrants that all AECs transferred to Buyer during an AEPS reporting period (or during the twenty calendar days thereafter) shall be eligible for Buyer's use for compliance during such AEPS reporting period.

If AEPS requirements change by law or any other reason, DS Supplier shall be responsible for providing the credits at its expense in order to comply with its obligations under Full Requirements Service.

APPENDIX F

LETTER OF CREDIT DOCUMENTATION
{TO BE ISSUED ON THE LETTERHEAD OF THE ISSUING BANK}

IRREVOCABLE LETTER OF CREDIT NO.

ISSUE DATE _____ EXPIRY DATE_____

APPLICANT

[ADDRESS]

BENEFICIARY
[NAME]
[ADDRESS]

CURRENCY	**AMOUNT**
USD	***********$**

WE HEREBY ISSUE IN YOUR FAVOR OUR IRREVOCABLE LETTER OF CREDIT NO: _____ FOR THE ACCOUNT OF _____ (APPLICANT) FOR AN AMOUNT OR AMOUNTS NOT TO EXCEED IN THE AGGREGATE US DOLLARS _____ AVAILABLE BY YOUR DRAFT(S) AT SIGHT ON THE BANK OF _____ ("ISSUER") _____(ADDRESS), EFFECTIVE _____ AND EXPIRING AT OUR COUNTERS ON _____OR ANY AUTOMATICALLY EXTENDED EXPIRY DATE, AS PROVIDED HEREIN. THIS LETTER OF CREDIT IS AVAILABLE IN ONE OR MORE DRAFTS UP TO THE AGGREGATE AMOUNT SET FORTH HEREIN.

THIS LETTER OF CREDIT IS PRESENTABLE AND PAYABLE AT OUR COUNTERS AND WE HEREBY ENGAGE WITH YOU THAT DRAFTS DRAWN UNDER AND IN COMPLIANCE WITH THE TERMS OF THIS LETTER OF CREDIT WILL BE HONORED ON PRESENTATION IF ACCOMPANIED BY THE REQUIRED DOCUMENTS PURSUANT TO THE TERMS OF THIS LETTER OF CREDIT.

THE BELOW MENTIONED DOCUMENT(S) MUST BE PRESENTED ON OR BEFORE THE EXPIRY DATE OF THIS INSTRUMENT IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THIS LETTER OF CREDIT.

1. YOUR SIGNED AND DATED STATEMENT, READING AS FOLLOWS:

"THE AMOUNT FOR THIS DRAWING, USD (INSERT AMOUNT), BEING MADE UNDER THE BANK OF _____ (BANK) LETTER OF CREDIT NUMBER (INSERT LETTER OF CREDIT REFERENCE NUMBER), REPRESENTS AN AMOUNT DUE AND PAYABLE TO BENEFICIARY FROM APPLICANT FOR PERFORMANCE ASSURANCE RELATED TO THE BENEFICIARY'S PECO ENERGY COMPANY PENNSYLVANIA DEFAULT SERVICE SUPPLIER MASTER AGREEMENT DATED BETWEEN _____ AND _____."

2. THIS ORIGINAL LETTER OF CREDIT AND ANY AMENDMENT(S).

IF PRESENTATION OF ANY DRAWING IS MADE ON A BUSINESS DAY (AS HEREIN DEFINED) AND SUCH PRESENTATION IS MADE ON OR BEFORE 11:00 A.M. NEW YORK TIME, ISSUER SHALL SATISFY SUCH DRAWING REQUEST ON THE NEXT BUSINESS DAY. IF THE DRAWING IS RECEIVED AFTER 11:00 A.M. NEW YORK TIME, ISSUER WILL SATISFY SUCH DRAWING REQUEST ON THE SECOND FOLLOWING BUSINESS DAY.

IT IS A CONDITION OF THIS LETTER OF CREDIT THAT IT WILL BE AUTOMATICALLY EXTENDED WITHOUT AMENDMENT FOR ONE YEAR FROM THE EXPIRATION DATE HEREOF, OR ANY FUTURE EXPIRATION DATE, UNLESS AT LEAST 90 DAYS PRIOR TO ANY EXPIRATION DATE WE NOTIFY YOU AT THE ABOVE ADDRESS BY REGISTERED MAIL OR HAND DELIVERED COURIER THAT WE ELECT NOT TO CONSIDER THIS LETTER OF CREDIT RENEWED FOR ANY SUCH PERIOD.

THIS LETTER OF CREDIT MAY BE TERMINATED UPON BENEFICIARY'S RECEIPT OF FULL PAYMENT FROM THE APPLICANT AND ISSUER'S RECEIPT OF A WRITTEN RELEASE FROM THE BENEFICIARY RELEASING THE ISSUER FROM ITS OBLIGATIONS UNDER THIS LETTER OF CREDIT.

THE TERM "BUSINESS DAY" AS USED HEREIN MEANS ANY DAY OTHER THAN (I) A SATURDAY, (II) A SUNDAY, OR (III) A DAY ON WHICH BANKING INSTITUTIONS LOCATED IN THE CITY OF NEW YORK, NEW YORK ARE REQUIRED OR AUTHORIZED BY LAW TO BE CLOSED.

APPLICANT'S FILING OF A BANKRUPTCY, RECEIVERSHIP OR OTHER DEBTOR-RELIEF PETITION, AND/OR APPLICANT'S DISCHARGE THEREUNDER, SHALL IN NO WAY AFFECT THE LIABILITY OF [BANK] UNDER THIS LETTER OF CREDIT AND [BANK] SHALL ALWAYS REMAIN LIABLE TO [BENEFICIARY] FOR THE FULL AMOUNT OF APPLICANT'S OBLIGATIONS HEREIN TO [BENEFICIARY] NOT TO EXCEED THE AVAILABLE AMOUNT IN THIS LETTER OF CREDIT.

ADDITIONAL TERMS AND CONDITIONS:

1. ALL COMMISSIONS AND OTHER BANKING CHARGES WILL BE BORNE BY THE APPLICANT.

2. THIS LETTER OF CREDIT MAY NOT BE TRANSFERRED OR ASSIGNED.

3. THIS LETTER OF CREDIT IS IRREVOCABLE.

4. THIS LETTER OF CREDIT IS SUBJECT TO THE INTERNATIONAL STANDBY PRACTICES (1998) OF THE INTERNATIONAL CHAMBER OF COMMERCE PUBLICATION NO. 590 ("ISP98"). AS TO MATTERS NOT GOVERNED BY ISP98, THIS LETTER OF CREDIT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, INCLUDING, TO THE EXTENT NOT INCONSISTENT WITH ISP98, THE UNIFORM COMMERCIAL CODE AS IN EFFECT IN THE STATE OF NEW YORK. THIS LETTER OF CREDIT MAY NOT BE AMENDED, CHANGED OR MODIFIED WITHOUT THE EXPRESS WRITTEN CONSENT OF THE BENEFICIARY AND THE ISSUER.

5. THE BENEFICIARY SHALL NOT BE DEEMED TO HAVE WAIVED ANY RIGHTS UNDER THIS LETTER OF CREDIT, UNLESS THE BENEFICIARY OR AN AUTHORIZED AGENT OF THE BENEFICIARY SHALL HAVE SIGNED A DATED WRITTEN WAIVER. NO SUCH WAIVER, UNLESS EXPRESSLY SO STATED THEREIN, SHALL BE EFFECTIVE AS TO ANY TRANSACTION THAT OCCURS SUBSEQUENT TO THE DATE OF THE WAIVER, NOR AS TO ANY CONTINUANCE OF A BREACH AFTER THE WAIVER.

6. A FAILURE TO MAKE ANY PARTIAL DRAWINGS AT ANY TIME SHALL NOT IMPAIR OR REDUCE THE AVAILABILITY OF THIS LETTER OF CREDIT IN ANY SUBSEQUENT PERIOD OR OUR OBLIGATION TO HONOR YOUR SUBSEQUENT DEMANDS FOR PAYMENT MADE IN ACCORDANCE WITH THE TERMS OF THIS LETTER OF CREDIT.

APPENDIX G

GUARANTY

THIS GUARANTY (this "Guaranty"), dated as of _____ , 202_, is made by _____ (the "Guarantor"), a_____organized and existing under the laws of _____ [a state of the United States or of the District of Columbia], in favor of PECO Energy Company (the "Guaranteed Party"), a corporation organized and existing under the laws of the Commonwealth of Pennsylvania. Terms not defined herein shall have the meanings given to them in the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement dated _____ , 202_(as amended, modified or extended from time to time, the "Agreement(s)"), between the Guaranteed Party and _____, a _____ organized and existing under the laws of _____(the "DS Supplier"). This Guaranty is made by Guarantor in consideration for, and as an inducement for the Guaranteed Party to enter into, the Agreement(s) with the DS Supplier. Guarantor, subject to the terms and conditions hereof, hereby unconditionally, irrevocably and absolutely guarantees to the Guaranteed Party the full and prompt payment when due, subject to any applicable grace period, of all payment obligations of the DS Supplier to the Guaranteed Party arising out of the Agreement(s). Without limiting the generality of the foregoing, Guarantor further agrees as follows:

1. The Guarantor, as primary obligor and not merely as surety, hereby irrevocably and unconditionally guarantees the full and prompt payment when due (whether by acceleration or otherwise) of any sums due and payable by the DS Supplier as a result of an Event of Default under the Agreement(s) (including, without limitation, indemnities, damages, fees and interest thereon, pursuant to the terms of the Agreement(s)). [Notwithstanding anything to the contrary herein, the maximum aggregate liability of the Guarantor under this Guaranty shall in no event exceed $____, less the value other liquid securities posted by the DS Supplier under the Agreement(s).] All such principal, interest, obligations and liabilities, collectively, are the "Guaranteed Obligations". This Guaranty is a guarantee of payment and not of collection.

2. The Guarantor hereby waives diligence, acceleration, notice of acceptance of this Guaranty and notice of any liability to which it may apply, and waives presentment and all demands whatsoever except as noted herein, notice of protest, notice of dishonor or nonpayment of any such liability, suit or taking of other action by Guaranteed Party against, and any other notice to, any party liable thereon (including the Guarantor), filing of claims with a court in the

event of the insolvency or bankruptcy of the DS Supplier, and any right to require a proceeding first against the DS Supplier.

3. The Guaranteed Party may, at any time and from time to time, without notice to or consent of the Guarantor, without incurring responsibility to the Guarantor and without impairing or releasing the obligations of the Guarantor hereunder, upon or without any terms or conditions: (a) take or refrain from taking any and all actions with respect to the Guaranteed Obligations, any Agreement(s) with respect to the Guaranteed Obligations or any person (including the DS Supplier) that the Guaranteed Party determines in its sole discretion to be necessary or appropriate; (b) take or refrain from taking any action of any kind in respect of any security for any Guaranteed Obligation(s) or liability of the DS Supplier to the Guaranteed Party; or (c) compromise or subordinate any Guaranteed Obligation(s) or liability of the DS Supplier to the Guaranteed Party including any security therefor.

4. Subject to the terms and conditions hereof, the obligations of the Guarantor under this Guaranty are absolute, irrevocable and unconditional and, shall not be released, discharged or otherwise affected by: (a) any extension, renewal, settlement, compromise, waiver, consent, discharge or release by the DS Supplier concerning any provision of the Agreement(s) governing any of the Guaranteed Obligations of the DS Supplier; (b) the rendering of any judgment against the DS Supplier or any action to enforce the same; (c) the existence, or extent of, any release, exchange, surrender, non-perfection or invalidity of any direct or indirect security for any of the Guaranteed Obligations; (d) any modification, amendment, waiver, extension of or supplement to any of the Agreement(s) or the Guaranteed Obligations agreed to from time to time by the DS Supplier and the Guaranteed Party; (e) any change in the corporate existence (including its constitution, laws, rules, regulations or powers), structure or ownership of the DS Supplier or the Guarantor, or any insolvency, bankruptcy, reorganization or other similar proceedings affecting the DS Supplier, its assets or the Guarantor; (f) the existence of any claim, set-off or other rights which the Guarantor may have at any time against the DS Supplier, the Guaranteed Party, whether in connection herewith or in connection with any unrelated transaction; provided that nothing herein shall prevent the assertion of any such claim by separate suit or compulsory counterclaim; and (g) the invalidity, irregularity or unenforceability in whole or in part of the Agreement(s) or any Guaranteed Obligations or any instrument evidencing any Guaranteed Obligations or the absence of any action to enforce the same.

5. The Guarantor hereby irrevocably waives (a) any right of reimbursement or contribution, and (b) any right of salvage against the DS Supplier or any collateral security or guaranty or right of offset held by the Guaranteed Party therefor.

6. The Guarantor will not exercise any rights, which it may acquire by way of subrogation until all Guaranteed Obligations to the Guaranteed Party pursuant to the Agreement(s) have been paid in full.

7. Subject to the terms and conditions hereof, this Guaranty is a continuing Guaranty and all liabilities to which it applies or may apply under the terms hereof shall be conclusively presumed to have been created in reliance hereon. Except for a failure to comply with any applicable statute of limitations, no failure or delay on the part of the Guaranteed Party in exercising any right, power or privilege hereunder, and no course of dealing between the

Guarantor and the Guaranteed Party, shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege. The rights, powers and remedies herein expressly provided are cumulative and not exclusive of any rights, powers or remedies, which the Guaranteed Party would otherwise have. No notice to or demand on the Guarantor in any case shall entitle the Guarantor to any other or further notice or demand in similar or other circumstances or constitute a waiver of the rights of the Guaranteed Party to any other or further action in any circumstances without notice or demand.

8. This Guaranty shall be binding upon the Guarantor and upon its successors and assigns and shall inure to the benefit of and be enforceable by the Guaranteed Party and its successors and assigns; provided, however, that the Guarantor may not assign or transfer any of its rights or obligations hereunder without the prior written consent of the Guaranteed Party. The assignment rights of the Guaranteed Party will be in accordance with any applicable terms of the Agreement(s).

9. Neither this Guaranty nor any provision hereof may be changed, waived, discharged or terminated except upon written agreement of the Guaranteed Party and the Guarantor.

10. The Guarantor's liability as guarantor shall continue and remain in full force and effect in the event that all or any part of any payment made hereunder or any obligation or liability guaranteed hereunder is recovered (as a fraudulent conveyance, preference or otherwise) rescinded or must otherwise be reinstated or returned due to bankruptcy or insolvency laws or otherwise. If claim is ever made upon the Guaranteed Party for repayment or recovery of any amount or amounts received from the Guarantor or the DS Supplier in payment or on account of any of the Guaranteed Obligations and the Guaranteed Party repays all or part of such amount by reason of (a) any judgment, decree or order of any court or administrative body having jurisdiction over such payee or any of its property, or (b) any settlement or compromise of any such claim effected by such payee with any such claimant (including the Guarantor), then and in such event the Guarantor agrees that any such judgment, decree, order, settlement or compromise shall be binding upon it, notwithstanding any revocation hereof or the cancellation of the Agreement(s) or other instrument evidencing any liability of the Guarantor, and the Guarantor shall be and remain liable to the Guaranteed Party hereunder for the amount so repaid or recovered to the same extent as if such amount had never originally been received by the Guaranteed Party.

11. Subject to Paragraph 10, this Guaranty shall remain in full force and effect until all Guaranteed Obligations have been fully and finally performed, at which point it will expire. The Guarantor may terminate this Guaranty upon thirty (30) days prior written notice to the Guaranteed Party which termination shall be effective only upon receipt by the Guaranteed Party of alternative means of security or credit support, as specified in the Agreement(s) and in a form reasonably acceptable to the Guaranteed Party. Upon the effectiveness of any such expiration or termination, the Guarantor shall have no further liability under this Guaranty, except with respect to the Guaranteed Obligations arising or created prior to the time the expiration or termination is effective, which Guaranteed Obligations shall remain guaranteed pursuant to the terms of this

Guaranty until finally and fully performed.

12. All notices and other communications hereunder shall be made at the addresses by hand delivery, by next day delivery service effective upon receipt, or by certified mail return receipt requested (effective upon scheduled weekday delivery day) or telefacsimile (effective upon receipt of evidence, including telefacsimile evidence, that telefacsimile was received)

If to the Guarantor: [*To be completed*]

If to the Guaranteed Party: [*To be completed*]

13. The Guarantor represents and warrants that: (a) it is duly organized and validly existing under the laws of the jurisdiction in which it was organized and has the power and authority to execute, deliver, and perform this Guaranty; (b) no authorization, approval, consent or order of, or registration or filing with, any court or other governmental body having jurisdiction over the Guarantor is required on the part of the Guarantor for the execution, delivery and performance of this Guaranty except for those already made or obtained; (c) this Guaranty constitutes a valid and legally binding agreement of the Guarantor, and is enforceable against the Guarantor; and (d) the execution, delivery and performance of this Guaranty by the Guarantor have been and remain duly authorized by all necessary corporate or comparable action and do not contravene any provision of its [insert appropriate corporate organizational document, such as Declaration of Trust, Limited Liability Company Agreement, Articles of Incorporation and by-laws] or any law, regulation or contractual restriction binding on it or its assets.

14. This Guaranty and the rights and obligations of the DS Supplier and the Guarantor hereunder shall be construed in accordance with and governed by the laws of the Commonwealth of Pennsylvania. The Guarantor and Guaranteed Party jointly and severally agree and irrevocably submit to the exclusive jurisdiction of state and federal courts located in the Commonwealth of Pennsylvania over any disputes arising or relating to this Guaranty and waive and agree not to assert as a defense any objections to venue or inconvenient forum. The Guarantor and the Guaranteed Party consent to and grant any such court jurisdiction over the person of such party and over the subject matter of such dispute and agree that summons or other legal process in connection with any such action or proceeding shall be deemed properly and effectively served when sent by certified U.S. mail, return receipt requested, to the address of the other party set forth in Paragraph 12 hereof, or in such other manner as may be permitted by law. The Guarantor and the Guaranteed Party each hereby irrevocably waives any and all rights to trial by jury with respect to any legal proceeding arising out of or relating to this Guaranty.

15. This writing is the complete and exclusive statement of the terms of this Guaranty and supersedes all prior oral or written representations, understandings, and agreement(s)

between the Guaranteed Party and the Guarantor with respect to subject matter hereof. The Guaranteed Party and the Guarantor agree that there are no conditions to the full effectiveness of this Guaranty.

16. Every provision of this Guaranty is intended to be severable. If any term or provision hereof is declared to be illegal or invalid for any reason whatsoever by a court of competent jurisdiction, such illegality or invalidity shall not affect the balance of the terms and provisions hereof, which terms and provisions shall remain binding and enforceable.

17. If the Guarantor is a trust: no trustee of the Guarantor shall be held to any liability whatsoever for any obligation under this Guaranty, and this Guaranty shall not be enforceable against any such trustee in their or its, his or her individual capacities or capacity; and this Guaranty shall be enforceable against the trustees of the Guarantor only as such, and every person, firm, association, trust or corporation having any claim or demand arising under this Guaranty and relating to the Guarantor or any trustee of the Guarantor shall look solely to the trust estate of the Guarantor for the payment or satisfaction thereof.

IN WITNESS WHEREOF, the Guarantor and the Guaranteed Party have caused this Guaranty to be executed and delivered as of the date first written above to be effective as of the earliest effective date of any of the Agreement(s).

APPENDIX I

ADHERENCE TO THE U.S. STAY PROTOCOL

The Parties may, by mutual agreement, execute this Appendix I for purposes of incorporating the Swaps and Derivatives Association 2018 U.S. Resolution Stay Protocol into this Default Service Supplier Master Agreement.

This Appendix I is part of the Default Service Supplier Master Agreement dated _____, 20__ (as amended, modified or extended from time to time) between PECO Energy Company (the "Buyer") and [_____] (the "DS Supplier").

DS Supplier hereby confirms that it is an adherent to the International Swaps and Derivatives Association ("ISDA") 2018 U.S. Resolution Stay Protocol ("ISDA U.S. Stay Protocol"). Buyer confirms that it is or that it will become an adherent to the ISDA U.S. Stay Protocol. If Buyer is not an adherent to the ISDA U.S. Stay Protocol when this Appendix I is executed, Buyer will submit an Adherence Letter for acceptance by the ISDA no later than ten (10) Business Days after execution of this Appendix I.

The terms of the ISDA U.S. Stay Protocol are incorporated into and form a part of the Default Service Supplier Master Agreement, and the Default Service Supplier Master Agreement shall be deemed a Protocol Covered Agreement for purposes thereof. For purposes of incorporating the ISDA U.S. Stay Protocol, DS Supplier shall be deemed to be a Regulated Entity and Buyer shall be deemed to be an Adhering Party. In the event of any inconsistences between the Agreement and the ISDA U.S. Stay Protocol, the ISDA U.S. Stay Protocol will prevail.

The terms "Regulated Entity", "Adhering Party", "Adherence Letter" and "Protocol Covered Agreement" shall have the meanings given to them in the ISDA U.S. Stay Protocol. All other terms not defined herein shall have the meanings given to them in the Default Service Supplier Master Agreement between the Parties.

PENNSYLVANIA DEFAULT SERVICE SUPPLIER MASTER AGREEMENT

THIS DEFAULT SERVICE SUPPLIER MASTER AGREEMENT, made and entered into this _____ day of _____, ____ ("Effective Date") by and between PECO ENERGY COMPANY (the "Company" and "Buyer"), a corporation and a public utility organized and existing under the laws of the Commonwealth of Pennsylvania and **[INSERT NAME OF SUPPLIER]** ("DS Supplier"), the Company and the DS Supplier hereinafter sometimes referred to collectively as the "Parties", or individually as a "Party",

WITNESSETH:

WHEREAS, the Company is an electric public utility engaged, inter alia, in providing retail electric service within its service territory located in the Commonwealth of Pennsylvania; and

WHEREAS, the Pennsylvania Public Utility Commission ("PaPUC" or "Commission") Orders issued pursuant to the Electricity Generation Customer Choice and Competition Act, 66 Pa.C.S. §§ 2801-2812, direct Buyer to supply electric service to Default Service Load within Buyer's Pennsylvania franchise service territory; and

WHEREAS, the PaPUC has found that, for periods further identified in Appendix C and Transaction Confirmation(s) under this Agreement it would serve the public interest for the Company to secure Default Service Supply ("DS Supply") through a competitive procurement process ("DS Solicitation") and the PaPUC has approved such

a process; and

WHEREAS, the Company has conducted and completed a successful DS Solicitation for the provision of DS Supply, and the DS Supplier was one of the winning bidders in the DS Solicitation; and

WHEREAS, pursuant to the competitive bidding procedures of the DS Solicitation, the Company and the DS Supplier desire to enter into this Agreement setting forth their respective rights and obligations concerning the provision of DS Supply.

NOW, THEREFORE, in consideration of the mutual covenants and promises set forth below, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto, intending to be legally bound, hereby covenant, promise and agree as follows:

ARTICLE 1: DEFINITIONS

Any capitalized or abbreviated term not elsewhere defined in this Agreement shall have the definition set forth in this Article.

Alternative Energy Credit or "AEC" – Shall have the meaning ascribed thereto in the AEPS Act.

AEPS Act – The Pennsylvania Alternative Energy Portfolio Standards Act, 73 P.S. §§ 1648.1-1648.8.

Affiliate – Shall mean, with respect to any entity, any other entity that, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with, such entity. For this purpose, "control" means the direct or indirect ownership of fifty percent (50%) or more of the outstanding capital stock or other equity interests having ordinary voting power.

Allocated AECs – Shall mean the types and amounts of AECs specified on Appendix E and a Transaction Confirmation.

Alternative Energy Portfolio Standards or "AEPS" – Standards requiring that a certain amount of electric energy sold to retail electric customers in the Commonwealth of Pennsylvania be comprised of electricity generated from alternative energy sources, as measured by AECs, in accordance with the requirements of the AEPS Act and provisions of the Electricity Generation Customer Choice and Competition Act, 66 Pa.C.S. §§ 2812-14, in effect on the Effective Date including, without limitation, any subsequent increases in Tier I requirements under 66 Pa.C.S. § 2814.

Ancillary Services – Shall have the meaning ascribed thereto in the PJM Agreements.

Applicable Legal Authorities – Those federal and Pennsylvania statutes and administrative rules and regulations that govern the electric utility industry in Pennsylvania, as they may be amended from time to time.

Auction Revenue Rights or "ARRs" – The current or any successor congestion management mechanisms as may be employed by PJM (whether set forth in the PJM Agreements or elsewhere) for the purpose of allocating financial congestion hedges or financial transmission auction revenue rights. As currently defined by PJM, ARRs are entitlements allocated annually by PJM which entitle the holder to receive an allocation of the revenues from the annual auction of financial transmission rights conducted by PJM pursuant to the PJM Agreements.

Bankruptcy Code – Those laws of the United States of America related to bankruptcy, codified and enacted as Title 11 of the United States Code, entitled "Bankruptcy" and found at 11 U.S.C. § 101 et seq., as such laws may be amended, modified, replaced or superseded from time to time.

Billing Month – Each calendar month during the term of this Agreement.

Business Day – Any day on which the Company's and PJM's corporate offices are open for business and commercial banks are not authorized or required to close in New York, New York.

Capacity – "Unforced Capacity" as set forth in the PJM Agreements, or any successor, measurement of the capacity obligation of a Load Serving Entity as may be employed in PJM (whether set forth in the PJM Agreements or elsewhere).

Charge – Any fee, charge or other amount that is billable by the Company to the DS Supplier under this Agreement.

Commercial Class – Group of Rate Schedules that comprise the Commercial Class for DS Supply and itemized in Appendix C.

Company – PECO Energy Company.

Costs – With respect to the Non-Defaulting Party, brokerage fees, commissions and other

similar transaction costs and expenses reasonably incurred by such Party either in terminating any arrangement pursuant to which it has hedged its obligations or entering into new arrangements which replace Transaction(s) under this Agreement; and all reasonable attorneys' fees and expenses incurred by the Non-Defaulting Party in connection with the termination of this Agreement.

Customer – Any person or entity who enters a contractual agreement with the Company to receive retail electric service including, without limitation, all persons or entities taking service under a retail tariff, eligible to receive competitive electricity supply from an EGS or DS, respectively, in accordance with the Applicable Legal Authorities.

Damages – Financial compensation from the Defaulting Party to the Non-Defaulting Party associated with the occurrence of an Event of Default or an Early Termination of this Agreement. This compensation shall be assessed pursuant to Article 5 of this Agreement.

Defaulting Party – A Party to this Agreement that has caused or precipitated an Event of Default or an Early Termination of this Agreement.

Default Service or "DS" – Electric generation service that is provided at retail pursuant to the Applicable Legal Authorities under the Company's retail electric tariffs and under any other agreements or arrangements between the Company and Customers, to any Customer that is not being served by an EGS.

Default Allocation Assessment – shall have the meaning ascribed to it under the PJM Agreements.

Delivery Period – The delivery period specified in an Appendix C Transaction Confirmation.

Delivery Point – Means the applicable zone of the Company as designated by PJM.

DS Customer(s) – Retail customers who are provided Default Service pursuant to the terms of this Agreement, the Applicable Legal Authorities and the Company's retail tariffs.

DS Fixed Percentage – The percentage of DS Supply provided at a fixed price, as set forth in Appendix C.

DS Fixed Price – The price in dollars per MWh, as set forth in Appendix C hereto, as determined pursuant to the DS Solicitation.

DS Load – The aggregate load of DS Customers being provided DS Supply, except with respect to the Residential Class, less a fractional percentage of committed energy and capacity obtained under contract with Allegheny Electric Cooperative, Inc. for supply from the New York Power Authority.

DS Solicitation – The competitive bidding processes, procedures and rules employed by the Company to competitively procure DS Supply for purposes of this Agreement.

DS Supplier – An entity that (i) has been selected through the DS Solicitation and has accepted the obligations and associated rights to provide DS Supply to the Company for DS Customers in accordance with the Applicable Legal Authorities, (ii) has entered into this Agreement with the Company as a Party, and (iii) is a PJM Member and registered with PJM as a LSE.

DS Supplier Representative – Any officer, director, employee, consultant, contractor, or other agent or representative of the DS Supplier in connection with the DS Supplier's activity under this Agreement. To the extent the DS Supplier is a division or group of a company, the term DS Supplier Representative does not include any person in that company who is not part of the DS Supplier division or group.

DS Supplier Responsibility Share – The fixed percentage share of the Company's DS Load for which the DS Supplier is responsible as set forth in Appendix C.

Default Service Supply or "DS Supply" – All necessary Energy, Capacity, AECs for AEPS Act compliance, Ancillary Services, and transmission services including Network Integration Transmission Service, all transmission and distribution losses and congestion and imbalance costs associated with the provision of such services, and such other services or products that the DS Supplier may be required, by PJM or any governmental body having jurisdiction, to provide in order to meet the DS Supplier Responsibility Share for serving DS Load under this Agreement and as detailed in Appendix C. For the avoidance of doubt, (i) any reference in this Agreement to any other agreement for DS Supply shall include any agreement between the Parties for the provision of Energy to serve DS Load, even if such other agreement does not require delivery of additional products (e.g., Capacity); and (ii) DS Load shall include unaccounted for energy, as reflected in PJM settlement volumes (including adjustments required by PJM for PJM's derating in conjunction with implementation of marginal losses as appropriate per PJM Agreements).

DS Tariffs – The Company's existing schedules of rates and services provided to retail customers as currently on file with the Commission and on the Company's website at EDC website, as they may be amended from time to time.

DS Variable Percentage – The percentage of DS Supply provided at a variable price, as set forth in Appendix C hereto**.**

DS Variable Price – The price in dollars per MWh, as set forth in Appendix C hereto.

Early Termination – Termination of this Agreement prior to the end of the term due to the occurrence of an Event of Default as specified in Section 5.2 of this Agreement and the declaration of Early Termination.

Early Termination Date – The date upon which an Early Termination becomes effective as specified in Section 5.2 of this Agreement.

Effective Date - The date specified above as the effective date.

Electric Distribution Company or "EDC" – A public utility providing facilities for the transmission and distribution of electricity to retail customers in Pennsylvania.

Electric Generation Supplier or "EGS" – A person or entity that is duly certified by the Commission to offer and provide competitive electric supply to retail customers located in the Commonwealth of Pennsylvania.

Emergency – (i) an abnormal system condition requiring manual or automatic action to maintain system frequency, or to prevent loss of firm load, equipment damage, or tripping of system elements that could adversely affect the reliability of an electric system or the safety of persons or property; or (ii) a condition that requires implementation of Emergency Operations Procedures as defined in the PJM Agreements or PJM manuals; or (iii) any other condition or situation that the Company or PJM deems imminently likely to endanger life or property or to affect or impair the Company's electrical system or the electrical system(s) of other(s) to which the Company's electrical system is directly or indirectly connected (a "Connected Entity"). Such a condition or situation may include, but shall not be limited to, potential overloading of the Company's transmission and/or distribution circuits, PJM minimum generation ("light load") conditions, or unusual operating conditions on either the Company's or a Connected Entity's electrical system, or conditions such that the Company is unable to accept Energy from the DS Supplier without jeopardizing the Company's electrical system or a Connected Entity's electrical system. Other additional emergencies can only be declared by PJM, FERC, or the PaPUC.

Energy – Three-phase, 60-cycle alternating current electric energy, expressed in units of kilowatt-hours or megawatt-hours.

Event of Default – A Party's breach of obligations under this Agreement as set forth in Article 5 of this Agreement.

FERC – The Federal Energy Regulatory Commission.

Final Monthly Energy Allocation or "FMEA" – A quantity of Energy which, for any Billing Month, is the PMEA adjusted for any billing or metering data received subsequent to the calculation of PMEA of which PJM is notified within 60 days.

Force Majeure – Shall mean an event or circumstance which prevents one Party from performing its obligations under one or more transactions, such as riots or revolutions, demands or embargoes of the United States Government, fire, flood, drought, insurrection, acts of God which are not within the reasonable control of, or the results of

the negligence of the affected Party and which, by the exercise of due diligence, the Party is unable to mitigate or avoid or cause to be avoided. Notwithstanding the foregoing, under no circumstance shall an event of Force Majeure be based on: (i) the loss or failure of DS Supplier's supply; (ii) DS Supplier's ability to sell the DS Supply at a price greater than that received under any Transaction; (iii) curtailment by a utility transmitting DS Supply; (iv) the Company's ability to purchase the DS Supply at a price lower than paid under any Transaction; (v) any change in requirements of any governmental authority; or (vi) labor stoppage or lockout.

Forward Market Price – The price for On-peak Energy Forward Price and Off-peak Energy Forward Price as determined by averaging concurrent broker quotes obtained by the Company for the Market Price Hub as available.

Gains – With respect to any Party, an amount equal to the present value of the economic benefit to it, if any (exclusive of Costs), resulting from an Early Termination of this Agreement, determined in a commercially reasonable manner.

Generator Attribute Tracking System or "GATS" - the system owned and operated by PJM Environmental Information Services, Inc. to provide reporting and tracking services to its subscribers in support of the AEPS Act, or any successor credit registry selected by the PaPUC. (As specified in Appendix E)

Guaranty – A guaranty, suretyship, hypothecation agreement, margins or security agreement or any other document in the form attached to this DS Supplier Master Agreement or other form approved by the Company.

Guarantor – Any party having the authority and agreeing to guarantee the DS Supplier's financial obligations under this Agreement, recognizing that such party shall be obligated to meet the Company's creditworthiness requirements specified in this Agreement for such DS Supplier.

Industrial Class - Group of Rate Schedules that comprise the Industrial Class for the DS Supply and itemized in Appendix C.

Interest Index – The average Federal Funds Effective Rate for the period of time the funds are on deposit. The Federal Funds Effective Rate is published daily on the Federal Reserve website (http://www.federalreserve.gov/releases/h15/update/).

Kilowatt or "kW" – Unit of measurement of useful power equivalent to 1000 watts.

Kilowatt-hour or "kWh" – One kilowatt of electric power used over a period of one hour.

Load Serving Entity or "LSE" – An entity that has been granted the authority or has an obligation pursuant to state or local law, regulation or franchise to sell electricity to retail customers located within the PJM Control Area as that term is defined in the PJM

Agreements or in successor, superseding or amended versions of the PJM Agreements that may take effect from time to time over the term of this Agreement.

Losses – With respect to any Party, an amount equal to the present value of the economic loss to it, if any (exclusive of Costs), resulting from an Early Termination of this Agreement, determined in a commercially reasonable manner.

Margin – The amount by which the Total Exposure Amount exceeds the DS Supplier's, or Guarantor's, credit limit as defined in Section 6.4.

Mark-to-Market ("MtM") Exposure Amount – An amount calculated daily for each DS Supplier reflecting the total MtM credit exposure to the Company due to fluctuations in market prices for Energy. The methodology for calculation of the MtM credit exposure is illustrated in Appendix B.

Market Price Hub - A liquid pricing point located within PJM's geographic footprint, as specified in Appendix B.

Maximum Credit Limit – The lesser of the applicable percentage of TNW or the applicable credit limit cap as specified in Section 6.4 of this Agreement.

Megawatt or MW – One thousand kilowatts.

Megawatt-hour or MWh – One megawatt of electric power used over a period of one hour.

Merger Event – When a DS Supplier consolidates or amalgamates with, or merges into or with, or transfers all or substantially all of its assets to another entity and either (i) the resulting entity fails to assume all of the obligations of such DS Supplier hereunder as determined in the sole discretion of the Company or (ii) the benefits of any credit support provided pursuant to Article 6 of this Agreement fail to extend to the performance by such resulting, surviving or transferee entity of the DS Supplier's obligations hereunder, and the resulting entity or its guarantor fails to meet the creditworthiness requirements of this Agreement as determined in the sole discretion of the Company.

Minimum Rating – A minimum senior unsecured debt rating as defined in Appendix A of this Agreement.

Minimum Transfer Amount - $100,000.

NERC – The North American Electric Reliability Council or its successor.

Network Integration Transmission Service or "NITS" – "Network Integration Transmission Service" under the PJM Agreements in effect as of the date of this Agreement, or its successor, superseding or amended versions of the PJM Agreements that may take effect from time to time over the term of this Agreement. In the event the

PJM Agreements are modified such that "Network Integration Transmission Service" is no longer offered, Network Integration Transmission Service shall mean the type of transmission service offered under the PJM Agreements that is accorded the highest level of priority for scheduling and curtailment purposes.

Non-Defaulting Party - A Party to this Agreement who, at the time an Event of Default occurs, is not itself in default of this Agreement and has not otherwise caused or precipitated an Event of Default or Early Termination of this Agreement.

Off-Peak Energy Forward Price - Shall mean the price for Off-Peak Hours for each Billing Month of the delivery period stated in terms of $/MWh as based on the most recent publicly available information and/or quotes from Reference Market Makers on forward energy transactions occurring at the Market Price Hub. In the event that the Market Price Hub is no longer available or no longer representative of a transparent trading hub, the Parties will negotiate in good faith to agree upon an alternate liquid price.

On-Peak Energy Forward Price – Shall mean the price for On-Peak Hours for each Billing Month of the delivery period stated in terms of $/MWh as based on the most recent publicly available information and/or quotes from Reference Market Makers on forward energy transactions occurring at the Market Price Hub. In the event that the Market Price Hub is no longer representative of a transparent trading hub, the Parties will negotiate in good faith to agree upon an alternate liquid price.

PaPUC or Commission – The Pennsylvania Public Utility Commission or its successor.

PJM – PJM Interconnection L.L.C. or its successor.

PJM Agreements – The PJM OATT, PJM RAA, PJM OA and all other PJM agreements, procedures, manuals and documents applicable to the Transactions covered by or relating to this Agreement.

PJM Control Area – That certain Control Area encompassing electric systems in parts of Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, and the District of Columbia, as may be modified from time to time, and which is recognized by the North American Electric Reliability Council as the "PJM Control Area".

PJM Member – A member in good standing of PJM that satisfies the requirements to conduct business with PJM.

PJM OA – The PJM Operating Agreement or the successor, superseding or amended version of the PJM Operating Agreement that may take effect from time to time.

PJM OATT – The PJM Open Access Transmission Tariff or the successor, superseding or amended version of the PJM Open Access Transmission Tariff that may take effect from time to time.

PJM OI – The PJM Office of Interconnection, the system operator for the PJM Control Area.

PJM RAA – The PJM Reliability Assurance Agreement or the successor, superseding or amended version of the PJM Reliability Assurance Agreement that may take effect from time to time.

PMEA/FMEA Adjustment Amount – For any Billing Month, the monetary amount due to the DS Supplier or the Company, as the case may be, in order to reconcile any difference between the PMEA used for the purpose of calculating estimated payments made to DS Supplier for a given month and the FMEA used for calculating the final payments due to the DS Supplier for such month as more fully described in Article 9 hereof.

Preliminary Monthly Energy Allocation or "PMEA" – A quantity of Energy which, for any Billing Month, is the preliminary calculation of the DS Supplier's DS Supplier Responsibility Share for that Billing Month.

Rate Schedule(s) – Shall mean the specified existing, and modified or successor customer rate schedule(s) in the electric service tariff of the Company filed with the Commission.

Reliability First Corporation or "RFC" – The approved regional NERC entity with responsibility for the Commonwealth of Pennsylvania.

Residential Class – Group of Rate Schedules that comprise the Residential Class for the DS Supply and itemized in Appendix C

Seasonal Billing Factor – A numerical factor, as set forth in Appendix C hereto, one amount applicable during the summer months of June through September and one amount applicable during the non-summer months of October through May, applied to the DS Fixed Price in accordance with the provisions of Article 9 hereof and thereby used to adjust the Company's payments to the DS Supplier.

Rounding Amount - $100,000.

Settlement Amount – With respect to a Non-Defaulting Party, the net amount of the Losses or Gains, and Costs, expressed in U.S. Dollars, which such Party incurs as a result of Early Termination, as set forth in Section 5.4(a) of this Agreement. For the purposes of calculating the Termination Payment, the Settlement Amount shall be considered an amount due to the Non-Defaulting Party under this Agreement if the total of the Losses and Costs exceeds the Gains and shall be considered an amount due to the Defaulting

Party under this Agreement if the Gains exceed the total of the Losses and Costs.

Statement – A monthly report prepared by the Company for the DS Supplier indicating the amount due to the DS Supplier by the Company as compensation for DS Supply supplied to DS Customers by the DS Supplier during the applicable Billing Month, in accordance with DS Supplier's obligations under this Agreement.

Supply Day – Any calendar day during the term of this Agreement on which the DS Supplier is providing, or is obligated by this Agreement to provide, DS Supply to the Company's DS Customers.

Tangible Net Worth or "TNW" – Total assets less intangible assets and total liabilities. Intangible assets include benefits such as goodwill, patents, copyrights and trademarks.

Termination Payment – An amount paid by the Defaulting Party or Non-Defaulting Party due to Early Termination.

Tier I AEC – Shall mean an AEC generated by a non-solar photovoltaic energy source that will satisfy the non-solar photovoltaic Tier I requirements of the AEPS Act applicable to the Company. (As specified in Appendix E)

Tier I (Solar) AEC – Shall mean an AEC generated by a solar photovoltaic energy source that will satisfy the Tier I solar photovoltaic requirements of the AEPS Act applicable to the Company. (As specified in Appendix E)

Tier II AEC - Shall mean an AEC generated by a non-solar photovoltaic energy source that will satisfy the Tier II requirements of the AEPS Act applicable to the Company. (As specified in Appendix E)

Total Exposure Amount – An amount calculated daily for the DS Supplier reflecting the total credit exposure to the Company and consisting of the sum of (i) the Buyer's Exposure for all Transactions under this Agreement; (ii) any amount(s) designated as "buyer's exposure" under any other DS Supply agreements providing for "DS Supply" or similar default service; provided that in the event the amount calculated for any day is a negative number, it shall be deemed to be zero for such day.

Tranche – A fixed percentage share of the Company's DS Load, as specified in a Transaction Confirmation.

Transaction – Means a particular agreement by which the Company purchases and the DS Supplier sells DS Supply pursuant to this Agreement, the details of which are more fully set forth in a Transaction Confirmation in the form attached as Exhibit 1 in Appendix C.

Transaction Confirmation – Shall have the meaning ascribed to it in Appendix C and Exhibit 1 of this Agreement.

Transaction Date – Shall mean the date that a Transaction is effective as set forth in the Transaction Confirmation.

ARTICLE 2: GENERAL TERMS AND CONDITIONS

2.1 Capacity In Which Company Is Entering Into This Agreement

The DS Supplier agrees and acknowledges that the Company is contracting for the provision of DS Supply from such DS Supplier for Customers receiving Default Service on the Company's electric system pursuant to the authorizations provided to the Company. The DS Supplier further agrees and acknowledges that the Company will administer and monitor the DS Supplier's performance in providing DS Supply under this Agreement and that the Company shall be entitled to enforce the DS Supplier's obligations related to the provision of DS Supply. The DS Supplier hereby permanently, expressly and irrevocably waives any claim that Company is not entitled to seek enforcement of this Agreement on behalf of Customers. It is the specific intention of the Parties hereto that Customers and Customer groups are not third party beneficiaries of this Agreement and that no Customer or Customer group shall seek enforcement of this Agreement against the DS Supplier on their own behalf, either independently or by joining in any legal proceeding brought by the Company.

2.2 Parties' Obligations

(a) Obligations of DS Supplier

The DS Supplier hereby agrees as follows:

(i) To provide service on a firm and continuous basis such that the supply delivered for the term of each Transaction under the Agreement meets the terms and conditions set forth in Appendix C and the applicable Transaction Confirmation;

(ii) To provide sufficient quantities of DS Supply on an instantaneous basis at all times during the Delivery Period of each Transaction and supplied to the Delivery Point to meet the DS Supplier Responsibility Share;

(iii) To procure those services provided by the PJM OI and to perform such functions as may be required by the PJM OI that are necessary for the delivery of DS Supply required hereunder;

(iv) To cooperate with the Company in any regulatory compliance efforts that may be required to maintain the ongoing legitimacy and enforceability of the terms of this Agreement and to fulfill any regulatory reporting requirement associated with the provision of DS Supply, before the PaPUC, FERC or any other regulatory body asserting jurisdiction;

(v) To become the LSE with respect to the provision of DS Supply for the DS Supplier Responsibility Share and to comply with all requirements of a LSE with respect to such DS Supplier Responsibility Share;

(vi) To pay to the Company the PMEA/FMEA Adjustment Amount for any Billing Month in which the PMEA exceeds the FMEA, as more fully described in Article 9 of this Agreement;

(vii) To accept assignment of and to fulfill all obligations of a LSE that are assigned to it by this Agreement;

(viii) To comply in a timely manner with all obligations under this Agreement imposed upon the DS Supplier;

(ix) To comply with the AEPS requirements of the Company's Default Service Plan, as detailed in Appendix E; and

(x) To provide a completed generation supply report to the Company, in the form of Appendix H, by March 31st of each calendar year for all Energy provided to the Company under this Agreement in the preceding calendar year.

(b) Obligations of the Company

The Company hereby agrees as follows:

(i) To pay to the DS Supplier every month an amount due, resulting from the calculations, as detailed in Article 9 of this Agreement, subject to the adjustments as expressed therein;

(ii) Pay to the DS Supplier the PMEA/FMEA Adjustment Amount for any Billing Month in which the FMEA exceeds the PMEA, as more fully described in Article 9 of this Agreement;

(iii) To provide to the DS Supplier its estimated aggregate load obligation (Capacity MW value) for each Supply Day no less than five (5) calendar days prior to the day of delivery. Further, this information will be posted in the DS Supplier's specific PJM eMTR account, or successor system or process;

(iv) To comply in a timely manner with all obligations under this Agreement imposed upon the Company;

(v) Accept the delivery of DS Supply necessary to meet the DS Load; and

(vi) Be responsible (as between the Company and the DS Supplier) for the provision of the Allocated AECs to satisfy AEPS requirements.

2.3 Congestion and Congestion Management

The DS Supplier is responsible for any congestion costs incurred to meet the DS Supplier Responsibility Share. The Company shall transfer or assign to the DS Supplier the Company's rights to ARRs to which the Company is entitled as a LSE pursuant to the PJM Agreements provided that such rights are related to the service being provided to meet the DS Supplier Responsibility Share and such rights are for the Delivery Period indicated in the Transaction Confirmation(s). All rights, liabilities and obligations associated with such ARRs will accrue and be assumed by the DS Supplier through the transfer or assignment from the Company to the DS Supplier including the responsibility and ability of the DS Supplier to request or nominate such ARRs when applicable and feasible. Should the conditions above not be met, the entity recognized by PJM as having the right to make the nominations will nominate such ARRs for the upcoming PJM planning period and such ARRs will be allocated to the DS Supplier in accordance with the PJM Agreements based upon its DS Supplier Responsibility Share.

2.4 PJM Services

The DS Supplier shall make all necessary arrangements for the delivery of DS Supply through the PJM OI. The Company will advise the PJM OI of the magnitude and location of each DS Supplier's actual DS Supplier Responsibility Share, as required by the PJM OI, for the purpose of calculating such DS Supplier's appropriate DS Supply requirements related to the provision of service under this Agreement by DS Supplier arising under the PJM Agreements. The DS Supplier shall remain responsible to PJM for the performance of its LSE obligations associated with the provision of DS Supply under

this Agreement until the effective date of the transfer of such LSE obligations.

The Company shall generate and provide to DS Supplier PJM shortname(s) associated with supplier's unique contract type(s), as necessary. Unique shortname(s) may be generated for each differing contract type. DS Supplier shall complete all required forms and processing to PJM to create shortname(s) within the PJM system.

For the period of time this Agreement is in effect, both the Company and DS Supplier shall have executed the PJM Declaration of Authority, and shall remain in effect during the Term of each Transaction under this Agreement. In the event PJM requires that the Declaration of Authority be amended after execution by the DS Supplier, DS Supplier agrees to execute a revised Declaration of Authority in accordance with PJM requirements.

2.5 PJM Agreement Modifications

(a) If the PJM Agreements are amended or modified so that any schedule or section references herein to such agreements is changed, such schedule or section references herein shall be deemed to automatically (and without any further action by the Parties) refer to the new or successive schedule or section in the PJM Agreements which replaces that originally referred to in this Agreement.

(b) If the applicable provisions of the PJM Agreements referenced herein, or any other PJM rules relating to the implementation of this Agreement, are changed materially from those in effect on the Effective Date, both Parties shall cooperate to make conforming changes to this Agreement to fulfill the purposes of this Agreement, including the DS Supplier's responsibility for changes in PJM products and pricing during the term of each Transaction under this Agreement.

2.6 PJM Member Default Cost Allocation

In the event PJM imposes a Default Allocation Assessment upon the Company relating to a default during the term of Transaction(s) under this Agreement, the Company shall invoice DS Supplier and DS Supplier shall pay an amount equal to the product of (i) DS Supplier Responsibility Share and (ii) the Default Allocation Assessment, less the amounts of any types of charges allocated to the Company under this Agreement that are used by PJM in calculating such Default Allocation Assessment.

2.7 Other Fines and Penalties

If fees, fines, penalties, or costs are claimed or assessed against the Company by any Applicable Legal Authority or PJM due to non-compliance by the DS Supplier with this Agreement, any other requirements of law, or the PJM Agreements, the DS Supplier shall indemnify and hold the Company harmless against any and all losses, liabilities, damages, and claims suffered or incurred by the Company, including claims for indemnity or contribution made by third parties against the Company, except to the extent the Company recovers any such losses, liabilities or damages through other provisions of this Agreement.

2.8 Communications and Data Exchange

The DS Supplier and the Company shall supply to each other in a thorough and timely manner all data, materials or other information that is specified in this Agreement, or that may otherwise reasonably be required by DS Supplier or by the Company in connection with the provision of DS Supply by the DS Supplier to DS Customers, if required.

The DS Supplier shall be equipped with the communications capabilities necessary to comply with the communications and data exchange standards that are set by and as may, from time to time, be modified by PJM, and shall exclusively bear the costs of installing, maintaining, testing, and operating all required information technology systems that will enable it to send to and receive data from the Company and PJM and to satisfy its obligations under this Agreement, the PJM Agreements and all other relevant agreements.

2.9 Record Retention

The Company shall retain necessary records for the longer of two years or as required under applicable PaPUC requirements so as to permit DS Supplier to confirm the validity of payments due to DS Supplier hereunder; provided that if a DS Supplier has provided notice pursuant to this Agreement that it disputes the validity of any payments, the Company agrees that it shall retain all records related to such dispute until the dispute is finally resolved.

2.10 Verification

In the event of a good faith dispute regarding any invoice issued or payment due under this Agreement, and provided that a mutually acceptable confidentiality agreement is executed by the Parties, each Party will have the right to verify, at its sole expense, the accuracy of the invoice or the calculation of the payment due by obtaining copies of relevant portions of the books and records of the other Party.

2.11 Forward Contract Merchant

The Parties agree that the Agreement is a "forward contract" within the

meaning of the United States Bankruptcy Code, that each Party hereto is a "forward contract merchant" within the meaning of the United States Bankruptcy Code, all setoffs, netting and liquidations contemplated hereunder constitute "settlement payments" as set forth in Sections 101 and 741 of the United States Bankruptcy Code and each payment or transfer of performance assurance is a "margin payment", "settlement payment" or transfer within the meaning of Section 101 of the United States Bankruptcy Code for the purposes of and as used in such Code. Accordingly, the Parties hereto are entitled to the protections of Section 556 of the United States Bankruptcy Code. The Parties therefore agree that the Agreement may be terminated by either Party upon the commencement of a proceeding by the other Party under any chapter of the United States Bankruptcy Code in accordance with Section 5.2 of this Agreement.

ARTICLE 3: REPRESENTATIONS AND WARRANTIES

3.1 DS Supplier's Representations and Warranties

The DS Supplier hereby represents, warrants and covenants to the Company on the Effective Date and throughout the term of the Transaction(s) under this Agreement as follows:

a) It is a corporation, partnership, limited liability company or other legal entity, duly organized, validly existing and in good standing under the laws of the Commonwealth of Pennsylvania or, if another jurisdiction, under the laws of such jurisdiction and, in such case, is duly registered and authorized to do business in such other jurisdiction;

b) It has all requisite power and authority to execute and deliver this Agreement and to carry on the business to be conducted by it under this Agreement and

to enter into and perform its obligations hereunder, including satisfaction of all applicable FERC requirements;

c) The execution and delivery of this Agreement and the performance of such DS Supplier's obligations hereunder have been duly authorized by all necessary action on the part of the DS Supplier and do not and will not conflict with, or constitute a breach of or default under, any of the terms, conditions, or provisions of the DS Supplier's certificate of incorporation or bylaws or other constituent instruments or any indenture, mortgage, other evidence of indebtedness, or other agreement or instrument or any statute or rule, regulation, order, judgment, or decree of any judicial or administrative body to which the DS Supplier is a party or by which the DS Supplier or any of its properties is bound or subject;

d) All necessary and appropriate action that is required on the DS Supplier's part to execute this Agreement has been completed;

e) This Agreement is the legal, valid and binding obligation of the DS Supplier, enforceable in accordance with its terms, except as such enforceability may be limited by applicable bankruptcy, insolvency or similar laws from time to time in effect that affect creditors' rights in general or by general principles of equity;

f) There are no actions at law, suits in equity, proceedings or claims pending or, to the DS Supplier's knowledge, threatened against the DS Supplier before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the DS Supplier's performance of its obligations hereunder;

g) It has entered into this Agreement and all Transactions under this Agreement with a full understanding of the material terms and risks of the same, and it is capable of assuming those risks;

h) It is in good standing as a LSE in PJM, is a signatory to all applicable PJM Agreements, and is in compliance with, and will continue to comply with, all obligations, rules and regulations, as established and interpreted by the PJM OI, that are applicable to LSEs as defined by the PJM Agreements; provided that the DS Supplier shall not be obligated to become a LSE in PJM until the date it begins providing DS Supply;

i) It has made its trading and investment decisions (including regarding the suitability thereof) based upon its own judgment and any advice from such advisors as it has deemed necessary and not in reliance upon any view expressed by the Company;

j) It will comply with any and all information and data transfer protocols that may be adopted by the Company or that are set by, and from time to time modified by, the PaPUC; provided that DS Supplier shall be entitled to exercise its reserved right to challenge any such protocols in the appropriate forum.

k) It is not bankrupt or insolvent and there are no proceedings pending or being contemplated by it or, to its knowledge, threatened against it which would result in it being or becoming bankrupt or insolvent;

l) There are no pending, or to its knowledge threatened, actions, suits or proceedings against it or any of its Affiliates, or any legal proceedings before any Governmental Authority, that could materially adversely affect its ability to perform its obligations under this Agreement;

m) No Event of Default with respect to it has occurred and is continuing and no such event or circumstance would occur as a result of its entering into or performing its obligations under this Agreement;

n) It is not relying upon the advice or recommendations of the other Party in entering into this Agreement, it is capable of understanding, understands and accepts the terms, conditions and risks of this Agreement, and the other Party is not acting as a fiduciary for or advisor to it in respect of this Agreement; and

o) It has entered into this Agreement and all Transactions under this Agreement in connection with the conduct of its business and it has the capacity or ability to provide or take delivery of DS Supply as required by this Agreement; and it is an "eligible contract participant" as defined in Section 1a(18) of the Commodity Exchange Act.

3.2 Company's Representations and Warranties

The Company hereby represents, warrants and covenants to the DS Supplier as follows:

a) The Company is an electric utility corporation duly organized, validly existing and in good standing under the laws of the Commonwealth of Pennsylvania;

b) The Company has all requisite power and authority to carry on the business to be conducted by it under this Agreement and to enter into and perform its obligations hereunder;

c) The execution and delivery of this Agreement and the performance of the Company's obligations hereunder have been duly authorized by all necessary action on

the part of the Company and do not and will not conflict with, constitute a breach of or default under, any of the terms, conditions, or provisions of the Company's certificate of incorporation or bylaws or any indenture, mortgage, other evidence of indebtedness, or other agreement or instrument or any statute or rule, regulation, order, judgment, or decree of any judicial or administrative body to which the Company is a party or by which the Company or any of its properties is bound or subject;

d) All necessary and appropriate action that is required on the Company's part to execute this Agreement has been completed;

e) This Agreement is the legal, valid and binding obligation of the Company, enforceable in accordance with its terms, except as such enforceability may be limited by applicable bankruptcy, insolvency or similar laws from time to time in effect that affect creditors' rights in general or by general principles of equity and the Commission's power under section 508 of the Public Utility Code, 66 Pa.C.S. § 508, to amend or modify the contracts of public utilities;

f) The ability of the Company to pay any and all amounts due and payable under this Agreement, or upon any potential breach thereof, is not conditioned upon any governmental or administrative appropriation by the Commission, the Commonwealth of Pennsylvania or any other governmental authority;

g) There are no actions at law, suits in equity, proceedings or claims pending or, to the Company's knowledge, threatened against the Company before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the Company's performance of its obligations under this Agreement;

h) It has entered into this Agreement and all Transactions under this Agreement with a full understanding of the material terms and risks of the same, and it is capable of assuming those risks;

i) The Company's performance under this Agreement is not contingent upon the performance of Customers or the ability of Customers to pay rates;

j) The Company shall have sole responsibility for metering and billing with respect to Customers; and

k) The Company shall be responsible for electric distribution services and the DS Supplier shall not be responsible for distribution charges.

3.3 Survival of Obligations

All representations and warranties contained in this Article are of a continuing nature and shall be maintained during the term of this Agreement or until all amounts due hereunder, including all obligations, have been paid or performed in full. If a Party learns that any of the representations, warranties or covenants in this Agreement are no longer true during the term of any Transaction under this Agreement, the Party shall immediately notify the other Party via facsimile, with a hard copy of the notice delivered by overnight mail.

ARTICLE 4: COMMENCEMENT AND TERMINATION OF AGREEMENT

4.1 Commencement and Termination

The term of this Agreement shall commence upon the Effective Date. Unless otherwise agreed upon by the Company and the DS Supplier, this Agreement shall continue in full force and effect from the Effective Date until the end of all Transaction(s)

executed under this Agreement, unless the Agreement is terminated prematurely pursuant to the provisions of this Agreement.

4.2 Termination of Right to Supply

The DS Supplier agrees that termination of this Agreement for reason of an Event of Default shall terminate any right of the DS Supplier to provide DS Supply to the DS Customers and nullify any of the entitlements to which the DS Supplier became entitled as a result of being selected as a winning bidder in the DS Solicitation.

4.3 Survival of Obligations

Termination of this Agreement for any reason shall not relieve the Company or the DS Supplier of any obligation accrued or accruing prior to such termination. Applicable provisions of this Agreement shall continue in effect after termination to the extent necessary to provide for final billings.

4.4 Mutual Termination

The Company and the DS Supplier may agree at any time during the term of this Agreement to terminate their respective rights and obligations hereunder on such terms and under such conditions that they mutually deem to be appropriate as set forth in a mutual termination agreement acceptable in form and substance to the Company and the DS Supplier ("Mutual Termination Agreement"); provided that Company agrees that it shall enter into such a Mutual Termination Agreement, which will discharge the terminating DS Supplier (the "Terminating DS Supplier") with respect to liabilities arising after the effective date of the Mutual Termination Agreement if the following conditions precedent are met: (i) the Terminating DS Supplier identifies a replacement

DS Supplier willing to assume all obligations of the Terminating DS Supplier hereunder for the remaining term of Transactions under this Agreement (the "Replacement DS Supplier"); (ii) the Replacement DS Supplier demonstrates its compliance with Article 6 of this Agreement, "Creditworthiness", as of the effective date of the Mutual Termination Agreement, that determination to be made in the sole discretion of Company; (iii) the Replacement DS Supplier executes a counterpart signature page to this Agreement and all Transaction Confirmation(s) that are currently in effect and thereby becomes a Party under this Agreement and all relevant Transaction(s), effective immediately following the effective date of the Mutual Termination Agreement; and (iv) the Terminating DS Supplier is not, to the belief or knowledge of the Company, subject to an Event of Default as of the effective date of the Mutual Termination Agreement or, if the Company believes that the Terminating DS Supplier may be subject to an Event of Default, either (a) the Company has determined that, as of the effective date of the Mutual Termination Agreement, it has not incurred any Damages as a result of the Event of Default or (b) if the Company has determined, as of the effective date of the Mutual Termination Agreement, that it may have incurred Damages as a result of the Event of Default, that the Replacement DS Supplier has agreed in writing to be responsible for the payment of such Damages or to otherwise cure the Event of Default, in either case to the satisfaction of the Company in its sole discretion.

ARTICLE 5: BREACH AND DEFAULT

5.1 Events of Default

An Event of Default under this Agreement shall occur if a Party (the "Defaulting Party"):

(i) Is the subject of a voluntary bankruptcy, insolvency or similar proceeding;

(ii) Makes an assignment for the benefit of its creditors;

(iii) Applies for, seeks consent to, or acquiesces in the appointment of a receiver, custodian, trustee, liquidator or similar official to manage all or a substantial portion of its assets;

(iv) Is dissolved (other than pursuant to a consolidation, amalgamation or merger) or is the subject of a Merger Event;

(v) Has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets;

(vi) Has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger);

(vii) In the case of a DS Supplier, PJM terminates the DS Supplier's ability to make purchases from PJM markets or PJM holds the Company responsible for the provision of DS Supply under this Agreement and PJM does not rescind such termination or assignment of responsibility within seven (7) Business Days;

(viii) Fails to comply with the creditworthiness requirements as set forth in Article 6 of this Agreement, including, without limitation, compliance with the creditworthiness requirements to cover the Margin calculated under Section 6.3 or post any performance assurance collateral as set forth in Section 6.7 to cover Margin due under Section 6.5 of this Agreement, within the time frames set forth in this Agreement;

(ix) Is declared by PJM to be in default of any provision of any PJM Agreement, which default prevents a Party's performance hereunder if such failure is not

remedied within three (3) Business Days after written notice;

(x) Fails to make, when due, any payment required pursuant to this Agreement if such failure is not remedied within two (2) Business Days after written notice;

(xi) Violates any federal, state or local code, regulation or statute applicable to the supply of Energy and/or AECs in a manner that materially, and adversely, affects the Party's performance under this Agreement, including by way of failure to continually satisfy all applicable FERC requirements, or, in the case of the DS Supplier, by way of failure to maintain any other governmental approvals required for participation in the Pennsylvania retail Energy market, or defaults on any obligation or other failure to comply with PJM requirements under the PJM Agreements;

(xii) Is the subject of an involuntary bankruptcy or similar proceeding;

(xiii) Subject to Section 5.3 (b) of this Agreement, in the case of the Company, fails to accept DS Supply properly tendered by the DS Supplier under this Agreement;

(xiv) Fails to perform any material covenant or obligation set forth in this Agreement, if such failure is not remedied within three (3) Business Days after written notice;

(xv) Makes a materially incorrect or misleading representation or warranty under this Agreement or under any response to the DS Solicitation;

(xvi) Commits an act or makes an omission that constitutes an "Event of Default" under any other agreement(s) for the provision of DS Supply between the Company and the DS Supplier; and fails to remedy such condition, event or delinquency herein above described such that the other Party (the "Non-Defaulting Party") is

completely made whole with respect to such condition, event or delinquency, within three (3) Business Days of receipt of written notice thereof from such Non-Defaulting Party; provided, however, that an Event of Default shall be deemed to have occurred immediately, without any need for the provision of notice thereof by the Non-Defaulting Party and without any right of cure on the part of the Defaulting Party, in the event of the occurrence of a condition, event or delinquency described in subsections "i", "ii", "iii", "iv", "v", "vi", "vii" or "viii" above. Termination of this Agreement or any Transactions hereunder by the PaPUC, other regulatory authority or court of law does not constitute an Event of Default under this Agreement; or

(xvii) With respect to the DS Supplier's Guarantor, if any:

1. any representation or warranty made by the Guarantor in connection with this Agreement is false or misleading in any material respect when made or when deemed made or repeated;

2. Guarantor fails to make, when due, any payment required or to perform any other material covenant or obligation in any guaranty made in connection with this Agreement and such failure shall not be remedied within two (2) Business Days after written notice;

3. Guarantor's guaranty fails to be in full force and effect for purposes of this Agreement (other than in accordance with its terms) prior to the satisfaction of all obligations of the DS

Supplier under this Agreement without the written consent of the Company; or

4. Guarantor repudiates, disaffirms, disclaims, or rejects, in whole or in part, or challenges the validity of any guaranty.

5.2 Rights upon Default

Upon and during the continuation of an Event of Default, the Non-Defaulting Party shall have the right to suspend performance, provided that such suspension shall not continue for longer than ten (10) Business Days. At any time during or subsequent to the temporary suspension of performance, the Non-Defaulting Party may proceed with the steps outlined in Sections 5.6 and 5.7. In addition to any other remedies available at law or in equity to the Non-Defaulting Party, if an Event of Default has occurred and is continuing, the Non-Defaulting Party shall have the right to implement either or both of the following remedies:

(i) Declare an Early Termination Date of this Agreement with respect to the obligations of the Defaulting Party without any liability or responsibility whatsoever except for obligations arising prior to the date of termination, by providing written notice to the Defaulting Party; provided, however, that this Agreement shall immediately terminate automatically and without notice in the case of any Event of Default in which a DS Supplier is the Defaulting Party occurring under subsections (i), (ii), (iii), (iv), (v), (vi), (vii) or (viii) of Section 5.1 of this Agreement and such date of automatic termination shall be deemed the Early Termination Date of this Agreement with respect to such DS Supplier; and

(ii) Receive Damages in accordance with Section 5.3 of this Agreement.

5.3 Damages Resulting From an Event of Default

(a) DS Supplier's Failure to Supply DS Supply or Declaration of Early Termination By Company: Damages resulting from (i) the DS Supplier's failure to (A) provide DS Supply in conformance with Section 2.2 hereof or (B) pay PJM for purchases of any products or services from PJM, or other failure to comply with PJM requirements, such that PJM holds the Company responsible for the provision of DS Supply to meet the DS Supplier's DS Supplier Responsibility Share under Transaction(s) of this Agreement or (ii) the occurrence of any Event of Default attributable to the DS Supplier resulting in Early Termination, shall include all Costs incurred by the Company, acting in a commercially reasonable manner consistent with any statutory or regulatory requirements imposed by the Applicable Legal Authorities, in obtaining replacement services or in obtaining a replacement supplier, which Costs exceed the amounts that would have been payable to the defaulting DS Supplier under this Agreement. Costs incurred by the Company for the purpose of calculating Damages hereunder will consist of:

(i) The cost of DS Supply allocated to the Company by the PJM OI due to the failure of the DS Supplier to meet obligations owing to the PJM OI in connection with its obligations under this Agreement;

(ii) The costs of DS Supply purchased by the Company to replace DS Supply that a DS Supplier was obligated to supply under this Agreement during the term hereof;

(iii) Administrative and legal costs associated with procuring replacement DS Supply; and

(iv) Financial hedging costs incurred by the Company on behalf of DS Customers as a result of having to procure DS Supply not provided by the DS Supplier.

The Parties further recognize and agree that the final calculation of Damages hereunder may not be known for some time since the level of such Damages may be dependent upon the arrangements made by the Company to obtain replacement services or a replacement DS Supplier. The Company and the DS Supplier agree that, until the calculation of Damages under this provision is completed, the amount and payment to the Company of the Settlement Amount on behalf of DS Customers in the event of an Early Termination as set forth in Section 5.4 of this Agreement shall be immediately due and owing as an estimate of all Damages ultimately determined to be due and owing. After Damages have been finally determined under this Section 5.3, the amounts of Damages due and owing will be reconciled with payments already made by the DS Supplier under Section 5.4 of this Agreement.

(b) Failure By Company on Behalf of Customers To Accept DS Supply Tendered By DS Supplier: Damages resulting from the failure of the Company on behalf of Customers to accept DS Supply tendered by the DS Supplier necessary to meet the DS Supplier Responsibility Share of DS Load under Transaction(s) of this Agreement shall consist of the positive difference (if any) between (i) the amounts that would have been payable to the DS Supplier hereunder had the Company accepted the DS Supply tendered by the DS Supplier necessary to meet the DS Supplier Responsibility Share of DS Load under Transaction(s) of this Agreement and (ii) the amount realized by the DS Supplier in disposing, in a commercially reasonable manner, of the DS Supply not accepted by the Company; provided, however, that the Company shall not be required to

accept on behalf of any Customer, quantities of DS Supply utilized by Customers on an instantaneous basis as a function of electrical load, in excess of such Customer's instantaneous consumption of such component of DS Supply; and further provided that the Company shall not be liable for any Damages if this Agreement is terminated by the PaPUC, other regulatory authority or a court of law.

(c) Damages Resulting From Early Termination Due To An Event of Default Attributable To the Company: Damages resulting from Early Termination due to an Event of Default attributable to the Company shall be as set forth in Section 5.4 of this Agreement. Damages calculated in accordance with said Section 5.4 shall be the exclusive remedy available to the DS Supplier in the event of Early Termination resulting from an Event of Default attributable to the Company.

(d) Damages Resulting from DS Supplier's Failure to Continuously Satisfy its AEPS Obligations: Damages resulting from the DS Supplier's failure to continuously meet and satisfy all or any portion of its obligations under Section 2.2 (a)(ix) of this Agreement shall include, but not be limited to, the amount of all penalties, and costs associated with the procurement of additional AECs, etc. including, without limitation, interest and other charges, if any, levied against the Company related to AEPS regulations, due to such DS Supplier's conduct or inaction.

(e) Other Damages: Damages for Events of Default not specified above shall consist of the direct Damages incurred by the Non-Defaulting Party.

(f) Waiver of Event of Default: If an Event of Default has occurred and the Non-Defaulting Party is the Company, then unless the Event of Default was a failure by the DS Supplier to meet any or all of its DS Supply obligations, the Company

may elect, at its sole discretion, to offer to waive the default on such terms and conditions as the Company, at its sole discretion, may deem appropriate to propose a special remedy. Any such special remedy can only be offered to the DS Supplier if it first is specifically approved by the PaPUC in accordance with Commission Orders.

5.4 Declaration of an Early Termination Date and Calculation of Settlement Amount and Termination Payment

(a) **Settlement Amount**. If an Event of Default with respect to a Defaulting Party shall have occurred and be continuing, the Non-Defaulting Party shall have the right (i) to designate a day, no earlier than the day such notice is effective and no later than twenty (20) days after such notice is effective, as the Early Termination Date to accelerate all amounts owing between the Parties and to liquidate and terminate the undertakings set forth in this Agreement, (ii) to withhold any payments due to the Defaulting Party under this Agreement, and (iii) to suspend performance; provided however, that an Early Termination Date shall be deemed to occur automatically and concurrently with the Event of Default, without any requirement for the provision of notice by the Non-Defaulting Party, with respect to an Event of Default under subsections (i), (ii), (iii), (iv), (v), (vi), (vii), and (viii) of Section 5.1 of this Agreement. The Non-Defaulting Party shall calculate, in a commercially reasonable manner, a Settlement Amount with respect to the obligations under this Agreement.

☐ The DS Supplier may, in its sole discretion, select the notional quantity in the following subsection 5.4(a)(1) by checking this box. If the DS Supplier does not check the box to select subsection 5.4(a)(1) it will be deemed to be excluded from this Agreement.

5.4(a)(1) For the purposes of such determination, the DS Supply provided for under this Agreement for the period following the Early Termination Date through the remainder of the term of this Agreement shall be deemed to be those quantity amounts that would have been delivered on an hourly basis, had this Agreement been in effect during the previous calendar year adjusted for such DS Load changes as may have occurred since the previous calendar year.

(b) **Net Out of Settlement Amounts**. The Non-Defaulting Party shall calculate a Termination Payment by aggregating all Settlement Amounts due under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply into a single amount by netting out (i) all Settlement Amounts that are due or will become due to the Defaulting Party, plus at the option of the Non-Defaulting Party, any cash or other form of security then available to the Non-Defaulting Party and actually received, liquidated and retained by the Non-Defaulting Party, plus any or all other amounts due to the Defaulting Party under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply against (ii) all Settlement Amounts that are due or will become due to the Non-Defaulting Party, plus any or all other amounts due to the Non-Defaulting Party under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply, so that all such amounts shall be netted out to a single liquidated amount; provided, however, that if the DS Supplier is the Defaulting Party and the Termination Payment is due to the DS Supplier, the Company shall be entitled to retain a commercially reasonable portion of the Termination Payment, which may be equal to the entire amount of the Termination

Payment, as security for additional amounts that may be determined to be due and owing by the DS Supplier as Damages and further provided that any previously attached security interest of the Company in such retained amounts shall continue. The Termination Payment shall be due to or due from the Non-Defaulting Party as appropriate. If the Termination Payment has been retained by the Company as security for additional amounts that may be determined to be due and owing by the DS Supplier, and if, upon making a final determination of Damages, the Termination Payment, or any portion thereof, is to be made to the DS Supplier, the Company will pay simple interest on the Termination Payment amount being made to the DS Supplier. Simple interest will be calculated at the lower of the Interest Index or six (6) percent per annum.

(c) Notice of Termination Payment. As soon as practicable after calculation of a Termination Payment, notice shall be given by the Non-Defaulting Party to the Defaulting Party of the amount of the Termination Payment and whether the Termination Payment is due to or due from the Non-Defaulting Party. The notice shall include a written statement explaining in reasonable detail the calculation of such amount. Subject to Section 5.4(b) above, the Termination Payment shall be made by the Party that owes it within three (3) Business Days after such notice is effective.

(d) Disputes With Respect to Termination Payment. If the Defaulting Party disputes the Non-Defaulting Party's calculation of the Termination Payment, in whole or in part, the Defaulting Party shall, within three (3) Business Days of receipt of Non-Defaulting Party's calculation of the Termination Payment, provide to the Non-Defaulting Party a detailed written explanation of the basis for such dispute; provided, however, that if the Termination Payment is due from the Defaulting Party, the

Defaulting Party shall first transfer collateral to the Non-Defaulting Party in an amount equal to the Termination Payment, such collateral to be in a form acceptable to the Non-Defaulting Party as specified in the Termination Payment dispute notice.

(e) Multiple DS Supply Agreements. It is the intention of the Company and the DS Supplier that, in the event the DS Supplier is a party to other agreements with the Company for the provision of DS Supply that existed prior to the Effective Date of this Agreement or are entered into after the Effective Date of this Agreement, the Company will calculate a single Termination Payment applicable to all such agreements as set forth herein.

5.5 Step-up Provision

The Company may ask other DS Suppliers whether they wish to assume all or part of the delivery obligations on the same terms and price contained herein, but any DS Supplier shall not be obligated to assume any such step-up requests. Any agreement to make additional supply available shall be termed a "Step-Up", and is subject to compliance with the creditworthiness provisions of Section 6 of this Agreement and the DS Supplier's load cap as per the Company's approved default service procurement plan. For the avoidance of doubt, in the event that the DS Supplier does not respond to the Company's Step-Up request within the relevant timeframe, then the DS Supplier shall be deemed to have rejected the Company's request in full.

5.6 Setoff of Payment Obligations of the Non-Defaulting Party

Any payment obligations of the Non-Defaulting Party to the Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply shall be set off: (i) first, to satisfy any payment

obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply that are unsecured and not subject to any Guaranty; (ii) second, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply that are unsecured, but which are subject to a Guaranty; and (iii) third, to satisfy any remaining payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply.

5.7 Preservation of Rights of Non-Defaulting Party

The rights of the Non-Defaulting Party under this Agreement, including without limitation Sections 5.4 and 5.6 of this Agreement, shall be supplemental to, and not in lieu of, any right of recoupment, lien, or set-off afforded by applicable law, and all such rights are expressly preserved for the benefit of the Non-Defaulting Party.

a. Duty to Mitigate. Each Party agrees that it has a duty to mitigate damages and covenants that it will use commercially reasonable efforts to minimize any damages it may incur as a result of the other Party's failure to perform pursuant to this Agreement.

b. Return of Auction Revenue Rights. When the DS Supplier is the Defaulting Party, the DS Supplier will make best efforts to facilitate the transfer or reassignment to the entity which is the replacement DS Supplier on the Early Termination Date, any and all of the replacement DS

Supplier's rights to ARRs to which the replacement DS Supplier is entitled as a LSE pursuant to the PJM Agreements, which were transferred or assigned to the DS Supplier under Section 2.3 (Congestion and Congestion Management).

ARTICLE 6: CREDITWORTHINESS

6.1 Applicability

The DS Supplier agrees that it shall meet the creditworthiness requirements of this Article 6 at all times during the term of this Agreement and shall inform the Company immediately of any changes in its credit rating or financial condition. Without limitation of the foregoing, the DS Supplier shall, upon written request, affirmatively demonstrate to the Company, its compliance with the creditworthiness requirements set forth hereunder. The Company may establish less restrictive creditworthiness requirements under this Article 6 in a non-discriminatory manner.

6.2 Creditworthiness Determination

The DS Supplier may submit and maintain a security deposit in accordance with Section 6.4 of this Agreement in lieu of submitting to or being qualified under a creditworthiness evaluation. The DS Supplier shall have the opportunity to request that the Company re-evaluate its creditworthiness whenever an event occurs that the DS Supplier believes would improve the determination made by the Company of its creditworthiness. The Company's credit re-evaluation must be completed as soon as possible but no longer than thirty (30) days after receiving a fully documented request. The Company must provide the rationale for its determination of the credit limit and any

resulting security requirement. The Company must perform its credit re-evaluation and associated security calculation in a non-discriminatory manner. DS Supplier shall provide the Company and its agents unrestricted access to audited financial statements; provided that if audited financial statements are not available, the Company, in its sole discretion, may specify other types of financial statements that will be accepted.

6.3 Buyer's Exposure and Mark-to-Market Credit Exposure Methodology

To calculate the daily exposure for each DS Supplier the MtM credit exposure methodology will be used. The "mark" for each Billing Month will be determined at the time the auction is completed based on the available Forward Market Prices and for the remaining Billing Months will be derived based on historical data. At the time the auction is completed, the MtM credit exposure for each DS Supplier shall be equal to zero. Subsequently, the differences between the available Forward Market Prices on the valuation date and the "mark" prices for the corresponding Billing Months will be used to calculate the daily credit exposures for each DS Supplier. The total MtM credit exposure will be equal to 1.1 times the sum of the MtM credit exposures for each Billing Month. The methodology for calculation of Buyer's Exposure under this Agreement including the MtM credit exposure is illustrated in the example (using hypothetical numbers) set forth in Appendix B hereto.

6.4 Credit Limit

The following criteria constitute the Company's creditworthiness requirements for the DS Supplier to cover the Total Exposure Amount. In all instances, the most current senior unsecured debt rating (or, if unavailable, the most current corporate issuer rating)

will be used.

(i) For a DS Supplier to be granted an unsecured line of credit, the DS Supplier must be rated by at least two of the following rating agencies: S&P, Moody's, or Fitch. The methodology for determining the credit rating to use is set forth in Appendix A of this Agreement. The Maximum Credit Limit to cover the Total Exposure Amount will be determined based on the credit matrix table in Appendix A of this Agreement.

The DS Supplier will be required to post cash or a letter of credit in an acceptable form as defined in Section 6.7 (b) of this Agreement (see standard format in Appendix F) for the Margin due the Company as set forth in Section 6.5 of this Agreement; or

(ii) For a DS Supplier having a Guarantor, in the case of a Guarantor organized under the laws of the United States, the Guarantor (1) must be rated by at least two of the following rating agencies: S&P, Moody's, or Fitch, and (2) must have a minimum senior unsecured debt rating (or, if unavailable, corporate issuer rating) equal to the Minimum Rating. If the Guarantor is rated by only two rating agencies, and the ratings are split, the rating will be established based on the methodology outlined in Appendix A of this Agreement. The Maximum Credit Limit to cover the Total Exposure Amount that could be provided through the Guaranty (see standard format in Appendix G) will be determined based on the credit matrix table for Guarantors on Appendix A. The DS Supplier will be granted a credit limit equal to the lesser of (i) the amount of the Guaranty as provided to the Company at the time this Agreement is executed as such amount may be modified in any amended or substitute Guaranty provided to the Company during the term of this Agreement, or (ii) the DS Supplier's Maximum Credit

Limit. The DS Supplier, however, may not increase or substitute its Guaranty for the purpose of increasing its applicable credit limit during the time period after the Company has made a Margin call but before the DS Supplier has posted the required performance assurance collateral as set forth in Section 6.7 to cover Margin. Notwithstanding anything herein to the contrary, the DS Supplier may increase the limit of its Guaranty after satisfying a Margin call from the Company and upon the Company's receipt of an amended or substitute Guaranty increasing the limit of the Guaranty, the DS Supplier may request a return of the posted performance assurance collateral in accordance with Section 6.5 of this Agreement. The DS Supplier will be required to post cash or a letter of credit in an acceptable form as defined in Section 6.7(b) of this Agreement (see standard format in Appendix F) for the Margin due the Company as set forth in Section 6.5 of this Agreement; or

(iii) For a DS Supplier or Guarantor that has not been incorporated or otherwise formed under the laws of the United States and whose financial data is not denominated in United States currency and does not conform to generally accepted accounting principles ("GAAP") in the United States, they shall supply the following additional information:

a. A legal opinion of counsel qualified to practice in the foreign jurisdiction in which the DS Supplier or Guarantor is incorporated or otherwise formed that this Agreement is, or upon completion of execution formalities will become, the binding obligation of the DS Supplier or Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and

b. The sworn certificate of the corporate secretary (or similar officer) of such DS

Supplier or Guarantor that the person executing this Agreement on behalf of the DS Supplier has the authority to execute the Agreement and that the governing board of the DS Supplier or Guarantor has approved the execution of this Agreement;

c. The sworn certificate of the corporate secretary (or similar officer) of such DS Supplier or Guarantor that the DS Supplier or Guarantor has been authorized by its governing board to enter into agreements of the same type as this Agreement; and

d. Such other documents and certificates as may be required by the Company in its sole discretion.

(iv) The posting of cash or a letter of credit as defined in Section 6.7 (b) below for the entire Total Exposure Amount as set forth in Section 6.5 of this Agreement.

6.5 Posting Margin and Return of Surplus Margin

(a) If at any time and from time to time during the term of Transaction(s) under this Agreement, the Total Exposure Amount, rounded by the Rounding Amount, exceeds the DS Supplier's or the Guarantor's credit limit by the Minimum Transfer Amount, then the Company on any Business Day, may request that the DS Supplier provide cash or a letter of credit in an acceptable form as defined in Section 6.7(b) of this Agreement (see standard format in Appendix F), in an amount equal to the Margin (less any performance assurance collateral for Margin posted by the DS Supplier and held by the Company pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply).

If the DS Supplier receives written notice for performance assurance collateral to cover Margin from the Company by 1:00 p.m. New York time on a Business Day, then the DS Supplier shall post performance assurance collateral to cover Margin the next following Business Day, if posting cash, and by the second Business Day following the date of notice, if posting a letter of credit, unless the Company agrees in writing to extend the period to provide performance assurance collateral to cover Margin. If the DS Supplier receives notice for Margin from the Company after 1:00 p.m. New York time on a Business Day, whether posting cash or a letter of credit, then the DS Supplier must post performance assurance collateral to cover Margin the second Business Day following the date of notice unless the Company agrees in writing to extend the period to provide performance assurance collateral to cover Margin. The Company will not unreasonably deny a request for a one-day extension of such period. In the event that the DS Supplier fails to post performance assurance collateral to cover Margin when due in accordance with this Section 6.5, then an Event of Default under Article 5 of this Agreement will be deemed to have occurred and the Company will be entitled to the remedies set forth in Article 5 of this Agreement.

(b) Surplus Margin being held by the Company that is not needed to satisfy the Total Exposure Amount, as determined above, will be returned to the DS Supplier upon receipt of a written request by the DS Supplier. Surplus Margin means cash or a letter of credit posted by the DS Supplier as a result of a request by the Company pursuant to Section 6.5(a) that exceeds the Total Exposure Amount less the DS Supplier's or the Guarantor's credit limit (rounded by the Rounding Amount). If the resulting surplus Margin amount is more than the Minimum Transfer Amount, it will be

returned to the DS Supplier. If the DS Supplier posted cash and notice is received by 1:00 p.m. New York time on a Business Day, the surplus Margin will be returned by the next following Business Day and if the DS Supplier posted cash and notice is received by the Company after 1:00 p.m. New York time on a Business Day, the surplus Margin shall be returned by the second Business Day following the date of notice, unless the DS Supplier agrees in writing to extend the period to return the surplus Margin. If the DS Supplier posted a letter of credit, the surplus Margin shall be returned on the next Business Day following the Business Day on which the amendment to the letter of credit is received from the issuing bank, unless the DS Supplier agrees in writing to extend the period to return the surplus Margin. The DS Supplier will not unreasonably deny a request for a one-day extension of such period. In the event that the Company fails to return the surplus Margin when due in accordance with this Article, then an Event of Default under Article 5 of this Agreement will be deemed to have occurred and the DS Supplier will be entitled to the remedies set forth in Article 5 of this Agreement.

6.6 Grant of Security Interest/Remedies

To secure its obligations under this Agreement and to the extent that the DS Supplier posted performance assurance collateral to cover Margin hereunder, the DS Supplier hereby grants to the Company a present and continuing security interest in, and lien on (and right of setoff against), and assignment of, all cash collateral and cash equivalent collateral and any and all proceeds resulting therefrom or the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of, the Company, and the DS Supplier and the Company agree to take such action as is reasonably required to perfect the secured Party's first priority security interest in, and

lien on (and right of setoff against), such collateral and any and all proceeds resulting therefrom or from the liquidation thereof. Upon or any time after the occurrence or deemed occurrence and during the continuation of an Event of Default or an Early Termination Date, the Company may do any one or more of the following: (i) exercise any of the rights and remedies of the Company with respect to all collateral, including any such rights and remedies under law then in effect; (ii) exercise its rights of setoff against any and all property of the DS Supplier in the possession of the Company whether held in connection with this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply; (iii) draw on any outstanding letter of credit issued for its benefit; and (iv) liquidate all security held by or for the benefit of the Company free from any claim or right of any nature whatsoever of the DS Supplier, including any equity or right of purchase or redemption by the DS Supplier. The Company shall apply the proceeds of the collateral realized upon the exercise of such rights or remedies to reduce the DS Supplier's obligation under this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply (the DS Supplier remaining liable for any amounts owing to the Company after such application), subject to the Company's obligation to return any surplus proceeds remaining after such obligations are satisfied in full.

All notices, demands or requests regarding credit requirements and credit related security or deposit transfers shall be in writing and shall be personally delivered or sent by overnight express mail, courier service or facsimile transmission (with the original transmitted by any of the other aforementioned delivery methods) addressed as follows:

If to a DS Supplier to:

Copy to:

If to the Company to:

Copy to:

Notice received after the close of the Business Day shall be deemed received on the next Business Day; provided that notice by facsimile transmission shall be deemed to have been received by the recipient if the recipient confirms receipt telephonically or in writing.

6.7 Security Instruments

At each DS Supplier's choice, the following are deemed to be acceptable methods for posting security to satisfy Margin requirements, if required:

(a) Cash; or

(b) A standby irrevocable letter of credit acceptable to the Company, in its sole discretion, issued by a bank or other financial institution with a minimum "A-" senior unsecured debt rating (or, if unavailable, corporate issuer rating discounted one notch) from S&P and "A3" from Moody's (see standard format in Appendix F). The letter of credit shall state that it shall renew automatically for successive one-year or shorter periods, until terminated upon at least ninety (90) days prior written notice from the issuing financial institution. If the Company receives notice from the issuing financial institution that the letter of credit is being cancelled, the DS Supplier will be required to provide a substitute letter of credit from an alternative bank satisfying the

minimum requirements. The receipt of the substitute letter of credit must be effective as of the cancellation date and delivered to the Company thirty (30) days before the cancellation date of the original letter of credit. If the DS Supplier fails to supply a substitute letter of credit as required, then the Company will have the right to draw on the existing letter of credit and to hold the amount as Margin.

If the credit rating of a bank or other financial institution from which a DS Supplier has obtained a letter of credit falls below the levels specified in Article 6 of this Agreement, the DS Supplier shall have two (2) Business Days following written notice by the Company to obtain a suitable letter of credit from another bank or other financial institution that meets those standards, unless such period is extended in writing by the Company. The Company shall have no obligation under this Agreement or otherwise to make or grant such extension.

6.8 Maintenance of Creditworthiness

(a) Reporting of Changes.

The DS Supplier shall promptly notify the Company of any change in its credit rating or financial condition or that of its Guarantor. The DS Supplier or Guarantor shall also furnish evidence of an acceptable credit rating or financial condition upon the request of the Company.

(b) Change in Credit Standing.

The Company will re-evaluate the creditworthiness of a DS Supplier whenever it becomes aware of an adverse change, through the provision of notice by the DS Supplier or otherwise, in the DS Supplier's or Guarantor's credit standing. If the lowest credit rating (whether senior unsecured debt rating or corporate issuer rating) used to determine

the DS Supplier's Maximum Credit Limit or its credit limit adversely changes, the Company will require additional security from the DS Supplier in accordance with Section 6.4 of this Agreement. The additional security must be in a form acceptable to the Company in its sole discretion, as specified in Section 6.7 of this Agreement and must be posted as set forth in Section 6.5 of this Agreement.

6. 9 Calling on Security

The Company may call upon the security posted by the DS Supplier if the DS Supplier fails to pay amounts due to the Company pursuant to this Agreement or any other agreement(s) between the Company and the DS Supplier for the provision of DS Supply after all of the following events occur:

(a) Written Notice of Default is provided to the DS Supplier; and

(b) Any applicable cure period associated with the written Notice of Default ends.

The foregoing notwithstanding, the security posted by the DS Supplier shall become due automatically without prior notice or right of cure in the case of any Event of Default arising under subsections (i), (ii), (iii), (iv), (v), (vi), (vii) and (viii) of Section 5.1 of this Agreement.

6.10 Interest on Cash Held by Company

The Company will pay simple interest calculated at the lower of the Interest Index or six (6) percent per annum on all cash held by the Company pursuant to this Agreement. Each Billing Month, the Company will prepare a statement of interest amounts due to the DS Supplier. The statement will be sent to the DS Supplier within three (3) Business Days after the end of the Billing Month via overnight mail or other

expeditious means. The Company shall make interest payments on the first Business Day after the 5th day of each calendar month.

6.11 No Endorsement of DS Supplier

The Company's determination that a DS Supplier is creditworthy pursuant to the process set forth above, shall not be deemed to constitute an express or implied warranty or guarantee of any kind with respect to the financial or operational qualifications of the DS Supplier. The Company will treat all DS Suppliers in a non-discriminatory manner and shall provide no preference to any DS Supplier.

6.12 Multiple DS Supply Agreements

It is the intention of the Company and the DS Supplier that, in the event the DS Supplier is a party to other agreements with the Company for the provision of DS Supply that existed prior to the effective date of this Agreement, the Company will calculate the Margin applicable to all such agreements as set forth herein. Each DS Supplier that is a party to such other agreements with the Company for the provision of DS Supply hereby agrees that such other agreements are deemed amended by this Agreement for the purpose of calculating the Margin as described herein.

ARTICLE 7: PROCEDURES FOR ENERGY SCHEDULING, CAPACITY RESOURCE SUBMISSION AND TRANSMISSION PROCUREMENT

7.1 Load Obligations

The Company and the DS Supplier acknowledge and agree that (1) the Company shall determine the DS Load, (2) the Company shall allocate the DS Supply obligation using the DS Supplier Responsibility Share, (3) the Company shall provide the DS

Supplier's DS Supply obligation to PJM, and (4) the DS Supplier shall be responsible for meeting its DS Supply obligations as a LSE under the PJM Agreements.

7.2 Data Transmission

The procedures for transmitting load obligation data to PJM for DS Supplier's DS Load shall be as set forth by PJM.

7.3 Energy Scheduling

The Company is not obligated to provide any day ahead scheduling services. If the Company chooses to provide such services, the information provided is not guaranteed by the Company.

ARTICLE 8: THE ENERGY SETTLEMENT/RECONCILIATION PROCESS

8.1 Energy Settlement By PJM

The settlement process occurs at PJM to reflect the DS Supplier's actual Energy obligations in a supply/usage reconciliation process. The Energy obligations for each DS Supplier will be determined based on the DS Supplier Responsibility Share of the DS Load. The reconciled total DS Energy obligation will be based on the final total Energy loads for the Customers receiving DS service, including deration adjustments for marginal losses.

Any adjustments for billing and metering errors reported subsequent to the calculation of FMEA will be proportionally allocated by the Company to the DS Suppliers based on the respective DS Supplier Responsibility Share.

8.2 Energy Settlement by the Company

In the event that actual DS Customer consumption data is not available until after the PJM deadline for conducting the final settlement, the Company will conduct the settlement process with the DS Supplier. In the event PJM imposes penalties against the Company as a result of the DS Supplier's Transactions or failure to meet PJM requirements, such penalties shall be passed through by the Company to the DS Supplier as part of this settlement process. In addition, all other applicable charges from PJM, including any billing adjustments, will be appropriately allocated to the DS Supplier.

ARTICLE 9: BILLING AND PAYMENT

9.1 The Company Payment of Obligations to the DS Supplier

The Company shall pay all amounts due to the DS Supplier hereunder in accordance with the following provisions:

(a) Each Billing Month, the Company will prepare a Statement of amounts due to the DS Supplier. This Statement will show the aggregate amounts due based on the DS Fixed Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Fixed Percentage as shown in Appendix C, multiplied by the Seasonal Billing Factor, if applicable, for each hour of the Billing Month, plus the aggregate amounts due based on the DS Variable Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Variable Percentage as shown in Appendix C for each hour of the Billing Month. With respect to Variable Price Transactions, the Statement will also include additional amounts set forth in Appendix C.

(b) The Statement will be sent to the DS Supplier within eight (8) Business Days after the end of the Billing Month via overnight mail or other expeditious means.

(c) The Company shall make payment on the first Business Day after the 19th day of each calendar month.

(d) To the extent that the FMEA differs from the PMEA, the Company shall pay or charge the DS Supplier for the PMEA/FMEA Adjustment Amount within the PJM deadline for conducting the final settlement.

(e) If each Party owes an amount to the other Party pursuant to this Agreement, including any related interest, payments or credits, the Parties may satisfy their respective obligations to each other by netting the aggregate amounts due to one Party against the aggregate amounts due to the other Party, with the Party, if any, owing the greater aggregate amount paying the other Party the difference between the amounts owed.

(f) Payments shall be subject to adjustment for any arithmetic errors, computation errors, meter reading errors, or other errors, provided that the errors become known within one (1) year of the termination of all Transactions under this Agreement.

(g) The Company shall make payments of funds payable to the DS Supplier by electronic transfer to a bank designated by the DS Supplier.

(h) If a good faith dispute arises between the Company and the DS Supplier regarding a Statement, the disputing Party shall be obligated to pay only the undisputed portion of the Statement, if any, and shall present the dispute in writing and submit supporting documentation to the non-disputing Party within one hundred twenty

(120) calendar days from the date of the Statement in dispute. Statement disputes shall be addressed promptly, and in accordance with the dispute resolution procedures set forth in Article 11 of this Agreement. Upon resolution of a Statement dispute, any payments made to either Party will include simple interest on the payment at the lower of the Interest Index or six (6) percent per annum payable from the date that notice of a Statement dispute was received by the non-disputing Party.

(i) If payment is made to the DS Supplier after the due date shown on the Statement, a late fee will be added to the unpaid balance until the entire Statement is paid. This late fee shall be the lesser of (a) the per annum rate of interest equal to the prime lending rate as may from time to time be published in The Wall Street Journal under "Money Rates" on such day (or if not published on such day on the most recent preceding day on which published), plus two percent (2%) or (b) the maximum rate permitted by applicable law.

9.2 Billing for DS Supplier's Obligations to Other Parties

Except as set forth in Sections 2.5 and 2.6, the Company shall have no responsibility for billing between the DS Supplier and PJM; the DS Supplier and any Energy or Capacity source; or the DS Supplier and any other third party. The Company will be solely responsible for billing DS Customers for Default Service.

9.3 The DS Supplier Payment of Obligations to the Company

The DS Supplier shall pay all Charges it incurs hereunder in accordance with the following provisions:

(a) Each Billing Month, the Company shall submit an invoice to the DS Supplier for all Charges owed by the DS Supplier under this Agreement. The DS

Supplier shall make payment for Charges shown on the invoice. The due date will be on the first Business Day after the 19th day of each calendar month. The invoice will be sent to the DS Supplier within eight (8) Business Days after the end of the Billing Month via overnight mail or other expeditious means.

(b) Invoices shall be subject to adjustment for any arithmetic errors, computation errors, meter reading errors, or other errors, provided that the errors become known within one (1) year of the termination of all Transactions of this Agreement.

(c) The DS Supplier shall make payments of funds payable to the Company by electronic transfer to a bank designated by the Company.

(d) If a good faith dispute arises between the Company and the DS Supplier regarding an invoice, the disputing Party shall pay only the undisputed portion of the invoice, if any, and shall present the dispute in writing and submit supporting documentation to the non-disputing Party within one hundred twenty (120) calendar days from the due date of the invoice in dispute. Billing disputes shall be addressed promptly, and in accordance with the dispute resolution procedures set forth in Article 11 of this Agreement. Upon resolution of a billing dispute, any payments made to either Party will include simple interest on the payment at the lower of the Interest Index or six (6) percent per annum payable from the date that notice of a bill dispute was received by the non-disputing Party.

(e) If payment is made to the Company after the due date shown on the invoice, a late fee will be added to the unpaid balance until the entire invoice is paid. This late fee shall be the lesser of (a) the per annum rate of interest equal to the prime lending rate as may from time to time be published in The Wall Street Journal under

"Money Rates" on such day (or if not published on such day on the most recent preceding day on which published), plus two percent (2%) or (b) the maximum rate permitted by applicable law.

ARTICLE 10: SYSTEM OPERATION

The Parties shall adhere to any applicable operational requirements of PJM necessary to protect the integrity of the transmission system within the PJM Control Area and the transmission systems of interconnected control areas, and shall satisfy any and all PJM, RFC and NERC criteria, when applicable. The DS Supplier shall also adhere to any applicable operational requirements of the Company necessary to protect the integrity of the Company's local distribution system.

10.1 Disconnection and Curtailment By the Company

The Company shall have the right, without incurring any liability to the DS Suppliers, to disconnect (or otherwise curtail, interrupt or reduce deliveries from) the DS Suppliers or to disconnect (or otherwise curtail, interrupt or reduce deliveries to) any Customer whenever the Company determines in the exercise of its good faith discretion, or when the Company is directed by PJM, that such a disconnection, curtailment, interruption or reduction is necessary to facilitate construction, installation, maintenance, repair, replacement or inspection of any of the Company's facilities; or due to any other reason affecting the safe and reliable operation of the Company's or a Customer's facilities, including, without limitation, an Emergency, forced outage or potential overloading of the Company's transmission and/or distribution circuits, potential damage to any Customer's facilities or any risk of injury to persons or property.

10.2 Inadvertent Loss of Service to DS Customers

The Parties agree and acknowledge that service to DS Customers may be inadvertently lost due to storms, weather, accidents, breakage of equipment or other events beyond the reasonable control of the Company affecting the transmission and distribution system of the Company. Neither Party will have any liability to the other Party for the occurrence of such events except for the Company's obligation to pursue steps for the resumption of the disrupted service as set forth in Section 10.3 below. In no event will an inadvertent loss of service affect a Party's obligation to make any payments then due or becoming due with respect to performance rendered prior to such inadvertent loss of service.

10.3 Good Faith Efforts

The Company shall use good faith efforts to: (a) minimize any curtailment, interruption or reduction in service to DS Customers to the extent reasonably practicable under the circumstances; (b) provide the DS Supplier with prior notification of any curtailment, interruption or reduction in service to DS Customers, to the extent reasonably practicable; and (c) resume service to DS Customers as promptly as reasonably practicable.

10.4 PJM Requirements

The DS Supplier acknowledges and agrees that, as a member of PJM, the Company is bound by all PJM operating instructions, policies and procedures as are currently set forth in the PJM Operating Manual, which are available through the Internet on the PJM Home Page (http://www.pjm.com), as may be revised from time to time, which are needed to maintain the integrity of the PJM system. The DS Supplier

acknowledges and agrees that it will cooperate with the Company so that the Company will be in compliance with all PJM Emergency Operations Procedures, which include, but are not limited to, those procedures pertaining to minimum and maximum generation Emergencies, and measures requiring involuntary Customer participation, such as supply voltage reduction or full interruption of Customer load by either manual or automatic means.

10.5 Compliance With Governmental Directives

The DS Supplier also acknowledges and agrees that the Company may need to act in response to governmental or civil authority directives which may affect DS Load. The DS Supplier agrees to cooperate with the Company in order to comply with said directives.

ARTICLE 11: DISPUTE RESOLUTION

11.1 Informal Resolution of Disputes

Before pursuing resolution of any dispute arising out of this Agreement (other than an Event of Default under Section 5.1(i)-(ix) , (xii), or (xvi)), the disputing Party shall provide written notice to the other Party setting forth the nature of the dispute, the amount involved, if any, and the remedies sought. The Parties shall use good faith and reasonable commercial efforts to informally resolve such dispute. Such efforts shall last for a period of at least thirty (30) calendar days from the date that the notice of the dispute is first delivered from one Party to the other Party. Any amounts that are owed by one Party to the other Party as a result of resolution of a dispute pursuant to this Section 11.1 (Informal Resolution of Disputes), shall be paid within two (2) Business Days of

such resolution and the payment shall include interest calculated at the Interest Index from the original due date through the date of payment.

11.2 Recourse to Agencies or Courts of Competent Jurisdiction

After the requirements of Section 11.1 (Informal Resolution of Disputes) have been satisfied, all unresolved disputes, except as noted below, between the Parties shall be submitted to the appropriate authority. Nothing in this Agreement shall restrict the rights of either Party to file a complaint with the FERC under relevant provisions of the Federal Power Act ("FPA"), with the PaPUC under relevant provisions of the Applicable Legal Authorities, with a Pennsylvania State court or a federal court of competent jurisdiction and within reasonably close proximity to the Company. The Party's agreement hereunder is without prejudice to any Party's right to contest the jurisdiction of the agency or court to which a complaint is brought.

The Parties hereby acknowledge and agree that both Parties have negotiated and entered into this Agreement and all Transactions under this Agreement freely and in good faith and that the terms of this Agreement have not been affected in any way, either directly or indirectly, by (A) any fraud, duress, unfairness, or any inequity in the relative bargaining power of the Parties or (B) any manipulation, unlawful activity, disruption, anomaly, dysfunction, or other adverse market conditions of any type or description.

To the extent permitted by law and absent agreement to the contrary, each Party, for itself and its successors and assigns, hereby expressly and irrevocably waives its rights (i) to argue before any governmental authority that any review, modification, or rescission of this Agreement should be considered under any standard of review other than the "public interest" standard set forth in *United Gas Pipe Line Co. v. Mobile Gas*

Service Corp., 350 U.S. 332 (1956) and *Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956), affirmed by Morgan Stanley Capital Group, Inc. v. Public Utility District No. 1 of Snohomish County, Washington, et al.,* 554 U.S. 527 (2008) (the "Mobile-Sierra Doctrine"), and (ii) to argue before any governmental authority that any terms of this Agreement should be modified or rescinded based on (A) any claim of fraud, duress, unfairness, bad faith, or inequity in the relative bargaining power of the Parties or (B) any claim of market manipulation, unlawful activity, disruption, anomaly, dysfunction, or other adverse market conditions of any type or description.

ARTICLE 12: REGULATORY AUTHORIZATIONS AND JURISDICTION

12.1 Compliance With Applicable Legal Authorities

The Company and the DS Supplier are subject to, and shall comply with, all existing or future applicable federal, state and local laws, all existing or future duly-promulgated orders or other duly-authorized actions of PJM or of Applicable Legal Authorities.

12.2 FERC Jurisdictional Matters

The inclusion herein of descriptions of procedures or processes utilized by PJM or otherwise subject to the jurisdiction of FERC is intended solely for informational purposes. If anything stated herein is found by the FERC to conflict with or be inconsistent with any provision of the FPA, or any rule, regulation, order or determination of the FERC under the FPA or if any existing procedures or processes utilized by PJM are duly modified, the applicable FERC rule, regulation, order,

determination or modification shall control. To the extent required under any provision of the FPA, or any rule, regulation, order or determination of the FERC under the FPA, the Company and/or the DS Supplier, if applicable, shall use reasonable commercial efforts to secure, from time to time, all appropriate orders, approvals and determinations from the FERC necessary to support this Agreement.

12.3 Energy Efficiency, Conservation, and Retail Market Programs

DS Supplier acknowledges that DS Customers may participate in energy efficiency and conservation programs offered by the Company (required by Applicable Legal Authorities or otherwise offered by the Company whether voluntarily or not), by PJM, or by other third parties and, for the avoidance of doubt, any programs offered or conducted by the Company or other entities relating to or arising from the PaPUC's Investigation of Pennsylvania's Retail Electricity Market, PaPUC Docket No. I-2011-2237952 (including legislation enacted to address the Commission's Final Order in Docket No. I-2011-2237952), and that such participation may reduce or change the amount of DS Supply that DS Supplier is required to provide and the amount of monies it may receive under this Agreement. The Company shall have no obligation whatsoever to DS Supplier with respect to the effect, if any, of such programs. DS Supplier is solely responsible for determining the effect, if any, of such programs on future load requirements.

ARTICLE 13: LIMITATION OF REMEDIES, LIABILITY AND DAMAGES

13.1 Limitations on Liability

Except as set forth in this Agreement, there is no warranty of merchantability or

fitness for a particular purpose, and any and all implied warranties are disclaimed. The Parties confirm that the express remedies and measures of Damages provided in this Agreement satisfy the essential purposes hereof. For breach of any provision for which an express remedy or measure of Damages is provided, such express remedy or measure of Damages shall be the sole and exclusive remedy, the obligor's liability shall be limited as set forth in such provision and all other remedies or Damages at law or in equity are waived. If no remedy or measure of Damages is expressly provided herein, the obligor's liability shall be limited to direct actual Damages only, such direct actual Damages shall be the sole and exclusive remedy and all other remedies or Damages at law or in equity are waived. Unless expressly herein provided, neither Party shall be liable for consequential, incidental, punitive, exemplary or indirect Damages, lost profits or other business interruption Damages, by statute, in tort or contract, under any indemnity provision or otherwise. It is the intent of the Parties that the limitations herein imposed on remedies and the measure of Damages be without regard to the cause or causes related thereto, including the negligence or any Party, whether such negligence by sole, joint or concurrent, or active or passive. To the extent any Damages required to be paid hereunder are liquidated, the Parties acknowledge that the Damages are difficult or impossible to determine, or otherwise obtaining an adequate remedy is inconvenient and the Damages calculated hereunder constitute a reasonable approximation of the harm or loss.

13.2 Risk of Loss

Solely for purposes of determining risk of loss and for determining the indemnity obligations under Article 14 of this Agreement, the Company shall be deemed to have

custody and control of the electric Energy delivered by the DS Supplier upon receipt thereof into the Company's distribution system and until delivery thereof at the retail electric meter of the Customer; and the DS Supplier shall be deemed to have custody and control of the DS Supply at all times prior to receipt thereof by the Company. The Party deemed to have custody and control of DS Supply shall be responsible for all loss or damage to property or injury or death to persons arising in connection with such DS Supply while in its custody and control and shall indemnify the other Parties with respect to same as set forth in Article 14 of this Agreement.

ARTICLE 14: INDEMNIFICATION

14.1 Indemnification

(a) Should the Company become the defendant in, or obligor for, any third party claims and/or liabilities for losses, penalties, expenses, damage to property, injury to or death of any person including a Party's employees or any third parties, that were caused by or occur in connection with an act or omission of the DS Supplier with respect to an obligation arising under or in connection with this Agreement, or for which the DS Supplier has otherwise assumed liability under the terms of this Agreement, the DS Supplier shall defend (at the Company's option), indemnify and hold harmless the Company, its shareholders, board members, directors, officers and employees, from and against any and all such third party claims and/or liabilities, except to the extent that a court of competent jurisdiction determines that the losses, penalties, expenses or damages were caused wholly or in part by the gross negligence or willful misconduct of the Company. The Company may, at its own expense, retain counsel and participate in the defense of any such suit or action.

(b) Should the DS Supplier (the "Indemnified DS Supplier") become the defendant in, or obligor for, any third party claims and/or liabilities for losses, penalties, expenses, damage to property, injury to or death of any person including a Party's employees or any third parties, that were caused by or occur in connection with an act or omission of the Company with respect to an obligation arising under or in connection with this Agreement, or for which the Company has otherwise assumed liability under the terms of this Agreement, the Company shall defend (at the option of the Indemnified DS Supplier), indemnify and hold harmless the Indemnified DS Supplier, its shareholders, board members, directors, officers and employees, from and against any and all such third party claims and/or liabilities, except to the extent that a court of competent jurisdiction determines that the losses, penalties, expenses or damages were caused wholly or in part by the gross negligence or willful misconduct of the Indemnified DS Supplier. The Indemnified DS Supplier may, at its own expense, retain counsel and participate in the defense of any such suit or action.

(c) If either Party intends to seek indemnification under Article 14.1(a) or 14.1(b), as applicable, from the other Party, the Party seeking indemnification shall give the other Party notice of such claim within ninety (90) days of the later of the commencement of, or the Party's actual knowledge of, such claim or action. Such notice shall describe the claim in reasonable detail, and shall indicate the amount, estimated if necessary, of the claim that has been, or may be, sustained by said Party. To the extent that the other Party will have been actually and materially prejudiced as a result of the failure to provide such notice, such notice will be a condition precedent to any liability of the other Party under the provisions for indemnification contained in this Agreement.

Neither Party may settle or compromise any claim without the prior consent of the other Party; provided, however, said consent shall not be unreasonably withheld, conditioned or delayed.

14.2 Survives Agreement

The obligation of a Party to defend, indemnify, and hold harmless another Party under this Article shall survive termination of this Agreement, and shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for either Party under any statutory scheme, including any workers' compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 15: FORCE MAJEURE

15.1 Force Majeure

Notwithstanding anything in this Agreement to the contrary, the Parties shall be excused from performing their respective obligations under this Agreement (other than the obligation to make payments with respect to performance prior to the event of Force Majeure) and shall not be liable for damages or otherwise due to their failure to perform, during any period that one Party is unable to perform due to an event of Force Majeure, provided that the Party declaring an event of Force Majeure shall: (i) act expeditiously to resume performance; (ii) exercise all commercially reasonable efforts to mitigate or limit damages to the other Party; and (iii) fulfills the requirements set forth in Article 15.2 (Notification).

15.2 Notification

A Party unable to perform under this Agreement due to an event of Force Majeure

shall: (i) provide prompt written notice of such event of Force Majeure to the other Party, which shall include an estimate of the expected duration of the Party's inability to perform due to the event of Force Majeure; and (ii) provide prompt notice to the other Party when performance resumes.

ARTICLE 16: MISCELLANEOUS PROVISIONS

16.1 Notices

Unless otherwise stated herein, all notices, demands or requests required or permitted under this Agreement shall be in writing and shall be personally delivered or sent by overnight express mail or courier service. Notice may also be provided via e-mail or facsimile transmission (with the original transmitted by any of the other delivery methods specified in the previous sentence) addressed per the notification information for the DS Supplier and Company as set forth in Appendix C hereto.

Such notices, demands or requests shall also be provided to such other person at such other address as a Party may designate by like notice to the other Party. Notice received after the close of the Business Day shall be deemed received on the next Business Day.

16.2 No Prejudice of Rights

The failure of a Party to insist on any one or more instances upon strict performance of any provisions of this Agreement, or to take advantage of any of its rights hereunder, shall not be construed as a waiver of any such provisions or the relinquishment of any such right or any other right hereunder, which shall remain in full force and effect. No term or condition of this Agreement shall be deemed to have been waived and no breach excused unless such waiver or consent to excuse is in writing and

signed by the Party claimed to have waived or consented to excuse.

16.3 Assignment

Parties shall not assign any of their rights or obligations under this Agreement without obtaining the prior written consent of the non-assigning Party, which consent shall not be unreasonably withheld. The Company agrees that it shall grant its consent to a proposed assignment by the DS Supplier if the proposed assignee meets all of the Company's creditworthiness requirements then in effect under this Agreement and any applicable load cap restrictions. No assignment of this Agreement shall relieve the assigning Party of any of its obligations under this Agreement until such obligations have been assumed by the assignee and all necessary consents have been obtained. Any assignment in violation of this Section 16.3 shall be void; provided, however, the Company may assign any or all of its rights and obligations under this Agreement notwithstanding anything contained herein to the contrary, without the DS Supplier's consent, to any entity succeeding to all or substantially all of the assets of the Company, if such assignee agrees, in writing, to be bound by all of the terms and conditions hereof and all necessary regulatory approvals are obtained. The DS Supplier may, with prior written notice to the Company but without obtaining the approval of the Company, assign the accounts, revenues or proceeds under this Agreement to a third party. The Company agrees that, following receipt of such notice of the assignment of accounts, revenues or proceeds and such other documentation that the Company may reasonably request, the Company will pay amounts becoming due to the assigning DS Supplier under this Agreement directly to the designated assignee; provided, however, that nothing herein shall enlarge or expand the rights of such designated assignee beyond the rights granted

to the DS Supplier and the right of such designated assignee to receive payments shall be subject to all defenses, offsets and claims of the Company arising under this Agreement.

16.4 Governing Law and Venue

To the extent not subject to the jurisdiction of the FERC, questions including those concerning the formation, validity, interpretation, execution, amendment, termination and construction of this Agreement shall be governed by the laws of the Commonwealth of Pennsylvania, without regard to principles of conflicts of law. Except for matters jurisdictional to FERC, the PaPUC or the appellate courts having jurisdiction over the PaPUC or FERC matters, all disputes hereunder shall be resolved in the Pennsylvania State court or Federal court of competent jurisdiction and within reasonably close proximity to the Company. Each Party hereby waives its respective rights to any jury trial with respect to any litigation arising under or in connection with this Agreement.

16.5 Regulatory Approvals

DS Supplier agrees to cooperate, to the fullest extent necessary, to obtain any and all required State, Federal or other regulatory approvals of the Agreement and/or Transaction Confirmations hereunder. The commencement of the Delivery Period and the obligations hereto are subject to (i) the receipt or waiver by Company of all Company required regulatory approvals, (ii) the receipt or waiver by DS Supplier of all DS Supplier required regulatory approvals, and (iii) PaPUC approval.

16.6 Headings

The headings and subheadings contained in this Agreement are used solely for convenience and do not constitute a part of the Agreement between the Parties hereto, nor

should they be used to aid in any manner in the construction of this Agreement.

16.7 Third Party Beneficiaries

This Agreement is intended solely for the benefit of the Parties hereto and nothing in this Agreement shall be construed to create any duty, or standard of care with reference to, or any liability to, any person not a Party to this Agreement.

16.8 General Miscellaneous Provisions

(a) This Agreement shall not be interpreted or construed to create an association, joint venture, or partnership between the Parties, or to impose any partnership obligation or liability upon any Party. No Party shall have any right, power, or authority to enter into any agreement or undertaking for, or on behalf of, or to act as or be an agent or representative of, or to otherwise bind, any other Party.

(b) Cancellation, expiration or Early Termination of this Agreement shall not relieve the Parties of obligations that by their nature survive such cancellation, expiration or termination, including warranties, remedies, promises of indemnity and confidentiality.

(c) Should any provision of this Agreement be held invalid or unenforceable, such provision shall be invalid or unenforceable only to the extent of such invalidity or unenforceability without invalidating or rendering unenforceable any other provision hereof unless it materially changes the agreement of the Parties; provided that in such event the Parties shall use commercially reasonable efforts to amend this Agreement or any Transaction in order to give effect to the original intention of the Parties.

(d) Each of the Parties acknowledges that it has read this Agreement, understands it, and agrees to be bound by its terms. This Agreement is intended by the Parties as a final expression of their agreement. The Parties further agree that this Agreement is the

complete and exclusive statement of agreement and supersedes all proposals (oral or written), understandings, representations, conditions, warranties, covenants and all other communications between the Parties relating thereto. This Agreement shall be considered for all purposes as prepared through the joint efforts of the Parties and shall not be construed against one Party or the other as a result of the preparation, substitution, submission or other event of negotiation, drafting or execution hereof. Each Party further agrees that it will not assert, or defend itself, on the basis that any applicable tariff is inconsistent with this Agreement or any Transaction.

16.9 Taxes

As between the Parties: (i) the DS Supplier is responsible for the payment of all taxes imposed by all present and future federal, state, municipal or other taxes imposed by any taxing authority on the wholesale sales of DS Supply under this Agreement; and (ii) the Company is responsible for the payment of all taxes imposed by all present and future federal, state, municipal or other taxes imposed by any taxing authority on retail sales of DS Supply under this Agreement. Should the DS Supplier be required to remit any Pennsylvania State sales and use taxes directly to the applicable taxing authority, other than taxes previously collected by the DS Supplier on behalf of the Company, the Company will defend and indemnify the DS Supplier for such sales and use taxes and will pay to the DS Supplier all such tax amounts upon demand. If any Transaction is exempt from the payment of any sales and use taxes, the affected DS Supplier will, if requested, provide the Company with valid tax exemption certificates. Should the Company be required to remit any sales and use taxes directly to any applicable taxing authority, other than taxes previously collected by the Company directly from the DS

Supplier, the DS Supplier will defend and indemnify the Company and will pay to the Company all such tax amounts upon demand.

16.10 Audit

Each Party has the right on at least three (3) Business Days prior written notice, at its sole expense and during normal working hours, to examine the records of the other Party to the extent reasonably necessary to verify the accuracy of any statement, charge or computation made pursuant to this Agreement. If any such examination reveals any inaccuracy in any statement, the necessary adjustments in such statement and the payments thereof will be made in accordance with Article 9 (Billing and Payment) of this Agreement.

16.11 Rules of Interpretation

The following principles shall be observed in the interpretation and construction of this Agreement:

(a) Unless otherwise stated, the terms "include" and "including" when used in this Agreement shall be interpreted to mean by way of example only and shall not be considered limiting in any way;

(b) All titles and headings used herein are for convenience and reference purposes only, do not constitute a part of this Agreement and shall be ignored in construing or interpreting the obligations of the parties under this Agreement;

(c) References to the singular include the plural and vice versa;

(d) References to Articles, Sections, Clauses and the Preamble are, unless the context indicates otherwise, references to Articles, Sections, Clauses and the Preamble of this Agreement;

(e) In carrying out its rights, obligations and duties under this Agreement, each Party shall have an obligation of good faith and fair dealing; and

(f) If any payment due under this Agreement would be, by operation of the terms and conditions of any provision hereof, due and payable on a day other than a Business Day, such payment shall be made on the next following Business Day.

16.12 Confidentiality

(a) Each Party shall hold in confidence and not release or disclose any document or information furnished by the other Party in connection with this Agreement, unless: (i) compelled to disclose such document or information by judicial, regulatory or administrative process or other provisions of law; (ii) such document or information is generally available to the public; (iii) such document or information was available to the receiving Party on a non-confidential basis; (iv) such document or information was available to the receiving Party on a non-confidential basis from a third-party, provided that the receiving Party does not know, and, by reasonable effort, could not know that such third-party is prohibited from transmitting the document or information to the receiving Party by a contractual, legal or fiduciary obligation; or (v) such disclosure is made to PJM or PaPUC and is necessary in order for the

Transactions contemplated by this Agreement to be consummated or to otherwise comply with the provisions of this Agreement.

(b) Notwithstanding any other provision of this Section 16.12, a Party may disclose to its employees, representatives and agents all documents and information furnished by the other Party in connection with this Agreement, provided that such employees, representatives and agents have been advised of the confidentiality provisions of this Section 16.12, and further provided that in no event shall a document or information be disclosed in violation of the standard of conduct requirements established by FERC.

(c) A Party receiving notice or otherwise concluding that any confidential document or information furnished by the other Party in connection with this Agreement is being sought under any provision of law, to the extent it is permitted to do so under any applicable law, shall: (i) promptly notify the other Party; and (ii) use reasonable efforts in cooperation with the other Party to seek confidential treatment of such confidential information.

(d) The Parties agree that monetary damages may be inadequate to compensate a Party for the other Party's breach of its obligations under this Section 16.12. Each Party accordingly agrees that the other Party shall be entitled to equitable relief, by way of injunction or otherwise, if the receiving Party breaches or threatens to breach its obligations under this Section 16.12, which equitable relief shall be granted without

bond or proof of damages, and the receiving Party shall not plead in defense that there would be an adequate remedy at law.

16.13 Federal Acquisition Regulation

If any of the following clauses prescribed by the Federal Acquisition Regulation ("FAR"), 48 Code of Federal Regulations Chapter 1, should be deemed to apply to this Agreement, the DS Supplier shall comply with the requirements of such clause(s), and shall include the terms or substance of such clause(s) in its subcontracts, as and to the extent required by the FAR:

1) Clean Air and Water: § 52.223-2;
2) Contract Work Hours and Safety Standards Act-Overtime Compensation: § 52.222-4;
3) Equal Opportunity: § 52.222-26;
4) Affirmative Action for and Employment Reports on Special Disabled and Vietnam Era Veterans: § 52.222-35 and § 52.222-37;
5) Affirmative Action for Handicapped Workers: § 52.222-36;
6) Utilization of Small Business Concerns and Small Disadvantaged Business Concerns and Small Business and Small Disadvantaged Business Subcontracting Plan: § 52.219-8 and § 52-219-9.

In case of a conflict between the provisions of the FAR and the balance of this Agreement, the requirements of the FAR shall prevail.

16.14 Binding Terms

This Agreement and the rates, terms and conditions herein shall remain in effect

for the entire term hereof and each Party agrees not to seek any change to such rates, terms and conditions pursuant to the FPA, if the FPA is deemed to have jurisdiction over this Agreement, including on the grounds that they are not just and reasonable.

16.15 Amendment

This Agreement, including the appendices hereto, cannot be amended without the written agreement of all Parties prior to such amendment becoming effective. Except as provided in Appendix C, the rates, terms and conditions contained in this Agreement are not subject to change under Sections 205 or 206 of the Federal Power Act absent the mutual written agreement of the Parties. Absent the agreement of all parties to the proposed change, the standard of review for changes to this Agreement proposed by a Party, a non-Party or the FERC acting *sua sponte* shall be the "public interest" standard of review set forth in *United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956)* and *Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956), affirmed by Morgan Stanley Capital Group, Inc. v. Public Utility District No. 1 of Snohomish County, Washington, et al.,* 554 U.S. 527 (2008) (the "Mobile-Sierra Doctrine").

16.16 Counterparts

This Agreement including all Transaction Confirmations hereunder may be executed in counterparts, each of which will be considered an original, but all of which shall constitute one instrument.

16.17 Successors

This Agreement and all of the provisions hereof are binding upon, and inure to the benefit of, the Parties and their respective successors and permitted assigns.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed by their duly authorized representatives as of the date first set forth above.

[SUPPLIER SIGNATURES APPEAR ON SUCCEEDING PAGES]

APPENDIX A

MAXIMUM UNSECURED CREDIT

Credit Rating Table

Credit Rating			Maximum Credit Limit is the lower of Tangible Net Worth (TNW) Amount and Unsecured Credit Limit Cap below:	
S&P	**Fitch**	**Moody's**	**TNW Amount**	**Credit Limit Cap**
A- or above	A- or above	A3 or above	16% of TNW	$60,000,000
BBB+	BBB+	Baa1	10% of TNW	$40,000,000
BBB	BBB	Baa2	8% of TNW	$30,000,000
BBB-	BBB-	Baa3	6% of TNW	$15,000,000
Below BBB-	Below BBB-	Below Baa3	0% of TNW	0

Credit Rating Determination Methodology
The DS Supplier or its Guarantor must have a minimum senior unsecured debt rating (or, if unavailable, corporate issuer rating) equal to the Minimum Rating.

For purposes of determining Unsecured Credit, the relevant Maximum Credit Limit for aggregate transactions shall not exceed the Maximum Credit Limit listed in the table above that corresponds to DS Supplier's (or DS Supplier's Guarantor's) lowest Credit Rating most recently published by the three credit rating agencies: S&P, Fitch and Moody's. If the DS Supplier or its Guarantor is rated by only two rating agencies, and the ratings are split, the lower rating will be used.

The relevant TNW Amount shall be calculated using the percentage listed in the Credit Rating Table that corresponds to DS Supplier's (or DS Supplier's Guarantor's) lowest Credit Rating most recently published by S&P, Fitch and/or Moody's.

Minimum Rating – The lowest credit rating for a DS Supplier, as set forth in this Appendix A, that can obtain unsecured credit.

APPENDIX B

BUYER'S EXPOSURE CALCULATION INFORMATION

Disclaimer: The prices that appear in this Appendix are purely hypothetical and are not based on or derived from any actual source for forward pricing. They are solely for purposes of illustration. Capitalized terms not defined herein shall have the meaning in the Agreement.

As set forth in Article 6 (Creditworthiness) of the Agreement, the DS Supplier's credit exposure (the "Mark-to-Market (MtM) Exposure Amount") is an amount calculated each Trading Day for the DS Supplier that reflects the financial exposure to the Buyer due to fluctuations in Forward Market Prices for Energy. The MtM Exposure Amount will be equal to 1.1 times the sum of the MtM credit exposures for each applicable month. The Total Exposure Amount is the sum of the calculated Buyer's Exposure for all Transactions under this Agreement and all other transactions under all supplier master agreements executed between the Parties pursuant to the PaPUC Orders to serve Buyer's DS Load. For Fixed Price Default Supply, the Buyer's Exposure during the term of a Transaction shall be calculated by determining the MtM Exposure Amount, then subtracting the sum of any unpaid or unbilled amounts owed by Buyer to DS Supplier pursuant to a Transaction.

This Appendix B explains the methodology and data sources that the Buyer will use to calculate the MtM Exposure Amount and Total Exposure Amount.

On a Transaction Date, the Buyer's Exposure for a Fixed Price Transaction shall be deemed equal to zero. To the extent that the calculations of the Total Exposure Amount for a given Trading Day result in a negative number, the Total Exposure Amount for such date shall be

deemed equal to zero.

Calculation of the MtM Exposure Amount and Total Exposure Amount

For each Transaction, on each Trading Day subsequent to the Transaction Date, the MtM credit exposures will be calculated, with respect to each month remaining in the Delivery Period, as the sum of the following:

- the relevant month On-Peak Energy Forward Price minus the relevant month On-Peak Initial Mark Price, multiplied by the relevant month On-Peak Estimated Energy Quantity;

- the relevant month Off-Peak Energy Forward Price minus the relevant month Off-Peak Initial Mark Price, multiplied by the relevant month Off-Peak Estimated Energy Quantity

where,

"Affiliate" means, with respect to any entity, any other entity that, directly or indirectly, through one or more intermediaries, controls, or is controlled by, or is under common control with, such entity. For this purpose, "control" means the direct or indirect ownership of fifty percent (50%) or more of the outstanding capital stock or other equity interests having ordinary voting power.

"Buyer's Exposure" during the term of a Transaction, for Fixed Price Transactions, shall be deemed equal to the positive difference between: (i) the MtM Exposure Amount pursuant to a Transaction under this Agreement and (ii) the sum of any unpaid or unbilled amounts owed by Buyer to DS Supplier pursuant to a Transaction under this Agreement. With respect to the preceding sentence, "unbilled amounts owed by Buyer" shall consist of a good faith estimate by Buyer as to any amounts which will be owed by Buyer for service already rendered by DS Supplier under a Transaction. Buyer's Exposure for a Variable Price Transaction, during the first month of the term of a Transaction, shall be equal to Two Hundred Fifty Thousand Dollars (US$250,000.00) per Tranche. Thereafter, Buyer's Exposure for a Variable Price Transaction shall be calculated on the first Business Day of each month during the term of a Transaction and shall be deemed equal to the product of: (i) Two Hundred Fifty Thousand Dollars (US$250,000.00) per Tranche; (ii) the ratio of the Current Capacity PLC Per Tranche to the MW-Measure; (iii) the number of Tranches awarded to the DS Supplier per the Transaction Confirmation; and (iv) the ratio of the calendar days remaining in the Delivery Period to the total calendar days in the Delivery Period.

"Capacity Peak Load Contribution" or "Capacity PLC" means the aggregation of retail customer peak load contributions, as determined by the Buyer in accordance with the PJM Agreements and reported by Buyer to PJM pursuant to Buyer's retail load settlement process, and used by PJM in determining the DS Supplier's capacity obligation for each Transaction.

"Current Capacity PLC Per Tranche" is the Capacity PLC of a Tranche as of the Business Day the Buyer's Exposure is calculated for a Fixed Price Transaction or Variable Price Transaction.

"Fixed Price Transaction" means a Transaction Confirmation that is not a Variable Price Transaction, and as shown on such confirmation where the DS Fixed Price Percentage is 100%.

"MW-Measure" means the Current Capacity PLC Per Tranche as of the Transaction Date.

"Off-Peak Estimated Energy Quantity" is the estimate of the energy quantity (in MWh) to be supplied in the relevant month and will be calculated, from Transaction Confirmation information, by multiplying the relevant month Off-Peak Estimated Energy Quantity Per MW-Measure, by the number of Tranches awarded to the DS Supplier, and the ratio of the current Capacity PLC Per Tranche to the MW-Measure.

"Off-Peak Estimated Energy Quantity Per MW-Measure" means the estimation of Energy, inclusive of electrical line losses, in the Off-Peak Hours for each of the twelve (12) calendar months, as set forth in the Transaction Confirmation.

"Off-Peak Hours" means those hours which are not On-Peak Hours.

"Off-Peak Initial Mark Price" means the Off-Peak Energy Forward Price as of the Transaction Date.

"Off-Peak/On-Peak Price Ratio" means the relevant monthly ratio of off-peak pricing to on-peak pricing of the PJM Western Hub day-ahead prices as set forth by Buyer each October based on the previous 36-month period ending in September. The historical on-peak prices used for the ratio will be the PJM Western Hub day-ahead price for the On-Peak Hours. The historical off-peak prices used for the ratio will be the PJM Western Hub day-ahead prices for the Off-Peak Hours. For each month of the 36-month period, the monthly on-peak and off-peak prices will be summed and respectively divided by the amount of On-Peak Hours and Off-Peak Hours in that month. This calculated off-peak average price will be divided by the on-peak average price to determine the individual monthly ratios. Such monthly ratios for the same months within the 36-month period will then be summed and divided by three (3) to come up with the rolling three year monthly ratio average.

"On-Peak Estimated Energy Quantity" is the estimate of the energy quantity (in MWh) to be supplied in the relevant month and will be calculated, from Transaction Confirmation information, by multiplying the relevant month On-Peak Estimated Energy Quantity Per MW-Measure, by the number of Tranches awarded to the DS Supplier, and the ratio of the Current Capacity PLC Per Tranche to the MW-Measure.

"On-Peak Estimated Energy Quantity Per MW-Measure" means the estimation of Energy, inclusive of electrical line losses, in the On-Peak Hours for each of the twelve (12) calendar months, as set forth in the Transaction Confirmation.

"On-Peak Hours" means Hour Ending ("HE") 0800 through HE 2300 EPT, Monday through Friday, excluding Saturday, Sunday and PJM holidays.

"On-Peak Initial Mark Price" means the On-Peak Energy Forward Price as of the Transaction Date.

"Pricing Agent" is the independent consultant to provide pricing services with respect to the Fixed Price Transactions under this Agreement. The Pricing Agent shall provide to the Buyer the On-Peak Initial Mark Price and the Off-Peak Initial Mark Price. In addition, on each Business Day, the Pricing Agent shall provide to the Buyer the On-Peak Energy Forward Price and the Off-Peak Energy Forward Price. To the extent that information and/or quotes are not available to determine an On-Peak Energy Forward Price or Off-Peak Energy Forward Price for a given month the Pricing Agent shall be permitted to use information and/or quotes relevant to such month for which information/and quotes are available in order to provide the Buyer the required On-Peak Energy Forward Price and Off-Peak Energy Forward Price for such month.

"Reference Market-Maker" means any broker in energy products or exchange that is not an Affiliate of Buyer or DS Supplier.

"Trading Day" means any day except a Saturday, Sunday or a designated holiday by a non-affiliated entity providing forward energy market prices for purposes of Appendix B, as selected by Buyer in its reasonable discretion.

"Transaction Date" means the date that a Transaction is executed as set forth in the Transaction Confirmation.

"Variable Price Transaction" means a Transaction Confirmation for Full Requirements Service with spot energy pricing, as shown on such confirmation.

For the current month of each Trading Day MtM credit exposures calculation, the On-Peak Estimated Energy Quantity and Off-Peak Estimated Energy Quantity will be calculated for the month, as described above, and prorated for the remaining On-Peak Hours and Off Peak Hours remaining in the month as follows:

- On-Peak Hours remaining in the current month (including the first calendar day following the Trading Day) divided by total On-Peak Hours in the current month

- Off-Peak Hours remaining in the current month (including the first calendar day following the Trading Day) divided by total Off-Peak Hours in the current month

Parameters

In calculating the MtM Exposure Amount for each Transaction, the following parameters are set on the Transaction Date:

- On-Peak Initial Mark Price
- Off-Peak/On-Peak Price Ratio
- Off-Peak Initial Mark Price
- MW-Measure: initial Capacity PLC Per Tranche
- On-Peak Estimated Energy Quantity Per MW-Measure for each of the twelve calendar months
- Off-Peak Estimated Energy Quantity Per MW-Measure for each of the twelve calendar months
- Number of awarded Tranches

In calculating the MtM Exposure Amount for each Transaction, the following parameters are set each Trading Day subsequent to the Transaction Date:

- On-Peak Energy Forward Price
- Off-Peak Energy Forward Price
- Current Capacity PLC Per Tranche
- On-Peak Estimated Energy Quantity
- Off-Peak Estimated Energy Quantity

Process to Update the On-Peak Initial Mark Prices and Off-Peak Initial Mark Prices on a daily basis

On each Trading Day subsequent to the Transaction Date, the Pricing Agent will contact four Reference Market-Makers to obtain price quotes for on-peak and off-peak energy for PJM Western Hub. The Pricing Agent may not rely upon quotes from DS Supplier or any Affiliate of DS Supplier.

The updated mark for a month will be equal to the average mark for that month over all sources from which a quote is available. If a monthly quote is available from any source, only the monthly quote or monthly quotes shall be used. Where quotes provide a bid and ask, the average shall be used.

Where a quote for an individual month is unavailable, but the month is quoted as part of a "packaged" quote (e.g., January ~~2021~~**2025** is only available in the form of a January/February ~~2021~~**2025** "packaged" quote or an annual quote):

- If the other month/months of the package quote is/are also unavailable, then the marks for all months of the package will be calculated by multiplying the packaged quote by the

ratio of the corresponding month to the corresponding calculated package quote from the previous day.

Example: There are no On-Peak quotes available on day X during the contract for July ~~2021~~2025 or August ~~2021~~2025. However, there is an On-Peak July/August ~~2021~~2025 packaged quote of $73.00/MWh available. The On-Peak marks from day X-1 for July ~~2021~~2025 and August ~~2021~~2025 were $73.50/MWh and $76.50/MWh respectively. Additionally we know that there are 352 On-Peak hours for July ~~2021~~2025 and 336 On-Peak hours for August ~~2021~~2025. The information available for use in this example is summarized below.

Month(s) of Quote	On-Peak Hours	Quote for Day X-1	Quote for Day X
July ~~2021~~2025	**352**	**$73.50**	Not provided
August ~~2021~~2025	**336**	**$76.50**	Not provided
July/August ~~2021~~2025	**688** (352+336)	Not provided	**$73.00**

The On-Peak July/August ~~2021~~2025 packaged quote can be calculated as [(73.50 * 352) + (76.50 * 336)] / (352+336) ≈ $74.97.

The day X On-Peak mark for July ~~2021~~2025 is set at 73.00 * [73.50] / [((73.50 * 352) + (76.50 * 336)) / (352+336)] = 73.00 * (73.50/ 74.97) = $71.57/MWh. The day X On-Peak mark for August ~~2021~~2025 is set at 73.00 * [76.50] / [((73.50 * 352) + (76.50*336)) / (352+336)] = 73.00 * (76.50 / 74.97) = $74.49/MWh.

- If the other month/months of the package quote is/are available, then the mark for the month will be set such that the average of the month and the other month(s) (weighted for either the On-Peak Hours or Off-Peak Hours as applicable) equals the packaged quote (see calculation example below).

Example: There are no On-Peak available for August ~~2021~~2025. However, there is an On-Peak July/August ~~2021~~2025 package quote available of $75.00/MWh and an On-Peak July ~~2021~~2025 quote of $73.00/MWh. The information available for use in this example is summarized below.

Month(s) of Quote	On-Peak Hours	Quotes for Day
July ~~2021~~2025	**352**	**$73.00**
August ~~2021~~2025	**336**	Not provided
July/August ~~2021~~2025	**688** (352+336)	**$75.00**

The On-Peak mark for August ~~2021~~**2025** is set at [75.00 * (352 +336) – 73.00 * (336)] / [352] = $76.91/MWh.

If, on a given Trading Day, the Pricing Agent is not able to obtain quotes from the Reference Market-Makers, then Buyer will look to reasonable alternative sources of price data (excluding DS Supplier or any Affiliate of DS Supplier) and will rely on the prices from those alternative data sources to update the mark if pricing data is available from those alternative sources. As a reasonable alternative source of price data, the Buyer may use the following methodology:

- A calendar year on-peak/off-peak energy price, for the calendar year pertaining to the delivery period for which the On-Peak/Off-Peak Energy Forward Price is being developed, is calculated using the following methodology:
    - First, a Market-Implied Heat Rate is calculated as the ratio of the calendar year On-Peak and/or Off-Peak Energy Forward Price (calculated using On-Peak/Off-Peak Energy Forward Prices) to the calendar year Henry Hub forward natural gas price (calculated using Henry Hub forward natural gas prices) for the calendar year for which price data sufficient to calculate both prices are available and that is the farthest year in the future. As an alternative, the applicable Market-Implied Heat Rate may be determined by calculating the market-implied heat rates applicable to the last three years for which data are available that are the farthest in the future, and performing an extrapolation.
    - Next, this calculated Market-Implied Heat Rate is applied to the monthly Henry Hub forward natural gas price (calculated using Henry Hub forward natural gas prices) for the months pertaining to the delivery period for which the On-Peak/Off-Peak Energy Forward Price is being developed.

Quotes from the sources will be examined to identify quotes that are out of line and potentially invalid or are in obvious error. Sources will be asked to either correct or verify data that is anomalous and/or inconsistent with that provided by other sources or is in obvious error. If the data cannot be verified in time for the daily mark, the anomalous data will be discarded.

APPENDIX C

DS SUPPLY SPECIFICATIONS

The following DS Supply specifications will be specified in Transaction Confirmations to this SMA in the form attached as Exhibit 1. Suppliers shall also be required to provide a completed Form of Notice (Exhibit 2) and PJM Declaration of Authority (Exhibit 3).

Product:

Full Requirements Service - All necessary Energy, Capacity, transmission other than Network Integration Transmission Service, Ancillary Services, AECs for compliance with the AEPS Act, transmission and distribution losses, congestion management costs, and such other services or products that are required to supply the DS Supplier Responsibility Share except for distribution service.

Appendix D – describes Company and DS Supplier responsibility for PJM Billing Statement Line Item Credits and Charges associated with the product.

Appendix E – further describes DS Supplier responsibilities for compliance with the AEPS Act in the Product specification.

DS Fixed Percentage/DS Variable Percentage:

The percentage of DS Supply provided at a fixed price and the percentage of DS Supply provided at a variable price. For each Transaction Confirmation, DS Fixed Percentage + DS Variable Percentage specified shall add to 100%.

Seasonal Billing Factor:

When specified, numerical multipliers associated with summer months (June-September) and non-summer months (November-May)

Summer Seasonal Billing Factor- 1.0

Non-Summer Seasonal Billing Factor- 1.0

Otherwise, assumed to be 1.0, if not specified.

DS Customer Group:

Each Transaction Confirmation shall be associated with DS Supply to one of the following DS Customer categories as defined in the DS Tariff:

Residential;

Small Commercial 0-100 kW;

Consolidated Large Commercial and Industrial over 100 kW.

Service Type:

Residential – Rate Classes R, RH, and TOU Pricing Option

Small Commercial - Rate Classes GS, HT, PD, AL, TLCL, POL, SLC, SLE, SLS, and TOU Pricing Option

Consolidated Large Commercial and Industrial – Rate Classes GS, HT, PD and EP

Delivery Point:

PECO_RESID_AGG Zone

Delivery Period:

As specified in each Transaction Confirmation.

Number of Tranches and Percentage for Each Tranche:

Residential – XX tranches; Tranche Percentage: X.X% per Tranche

Small Commercial – XX tranches; Tranche Percentage: X.X% per Tranche

–Consolidated Large Commercial and Industrial - XX tranches; Tranche Percentage: X.X% per Tranche

DS Supplier Responsibility Share:

Fixed percentage share of DS Load for DS Customer Group associated with Transaction Confirmation. Typically, DS Supplier Responsibility Share is the product between the number of Tranches won and Tranche Percentage for the DS Customer Group. (Ex. X.X%)

MW Measure:

The estimated megawatt measure of Capacity Peak Load Contribution corresponding to a single Tranche identified in the Transaction Confirmation as of the Transaction Date.

With respect to Transactions where the DS Variable Percentage is 100%, the Statement prepared in accordance with Section 9.1(a) will include: (a) an energy charge equal to sum of the products of each hour's hourly day-ahead PJM load weighted average locational marginal price for the Delivery Point, and each hour's Energy requirements associated with the DS Supplier Responsibility Share, and (b) a capacity charge equal to the sum of the product of the PJM Final Zonal Capacity Price for the Delivery Point in $/MW-day and the daily amounts of Capacity reported as the DS Supplier's Capacity obligation by Buyer to PJM for each day of the Billing Month. With respect to Variable Price Transactions, the PMEA/FMEA Adjustment Amount calculated in accordance with Section 9.1 (d) will include: any adjustments to account for changes in the hourly energy or capacity volumes used to calculate the energy charge and the capacity charge as described above.

EXHIBIT 1

TRANSACTION CONFIRMATION

This Transaction Confirmation letter is being provided pursuant to and in accordance with the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA") dated _____ between PECO Energy Company ("Buyer" or "PECO Energy") and _____ ("DS Supplier"). Terms used but not defined herein shall have the meanings ascribed to them in the Default Service SMA. This Transaction Confirmation shall confirm the following terms of the transaction ("Transaction") agreed to on _____ ("Transaction Date").

Product:	Full Requirements Service
DS Fixed Percentage/DS Variable Percentage:

Capacity Supplement:

The Delivery Year for purposes of this Capacity Supplement is June 1, 20__ to May 31, 20__. The Delivery Period overlaps with part or all of the Delivery Year. This Capacity Supplement applies if the results for the Base Residual Auction ("BRA") under PJM's Reliability Pricing Model ("RPM"), or any successor, for the Delivery Year were not announced by PJM at least five (5) business days prior to the Bid Date. The Bid Date was Month XX, 20XX. If the Capacity Supplement applies, it will become effective on the Transaction Date and will expire at the end of the Delivery Period.

Except as specifically modified in and by this Capacity Supplement, all terms and conditions of the Agreement, including all Appendices, Exhibits, and payment provisions under Article 9, shall remain in full force and effect and shall apply to the Transaction. For purposes of this Capacity Supplement: (i) the "Capacity Price" is the price paid by DS Suppliers for Capacity for the Delivery Point, in $ per MW-day, for the Delivery Year as set forth in the PJM Agreements, or any successor; and (ii) the "Capacity Proxy Price" is $_____/MW-day. The Capacity Proxy Price is the average of the most

recent results under PJM's RPM for the two most recent delivery years for which PJM has held a capacity auction. For the avoidance of doubt, the results of the most recent Incremental Auction held under PJM's RPM would be used if an Incremental Auction has been held for a delivery year.

The Parties agree as follows:

Section 9.1 (a) of the Uniform SMA is replaced for purposes of payment for the Transaction referenced herein with:

> **Each Billing Month, the Company will prepare a Statement of amounts due to the DS Supplier. This Statement will show the aggregate amounts due based on the DS Fixed Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Fixed Percentage as shown in Appendix C, multiplied by the Seasonal Billing Factor, if applicable, for each hour of the Billing Month, plus the aggregate amounts due based on the DS Variable Price multiplied by the hourly Energy requirements of DS Supply used to determine the PMEA multiplied by the DS Variable Percentage as shown in Appendix C for each hour of the Billing Month. With respect to Variable Price Transactions, the Statement will also include additional amounts set forth in Appendix C. For each month of the Delivery Year that is also a Billing Month of the Delivery Period, this Statement will include an additional line item that will show the sum, over all days of the Billing Month, of the difference between the Capacity Price actually charged for load served for the Delivery Point and the Capacity Proxy Price, multiplied by the amount of Capacity for the day reported as the DS Supplier's Capacity obligation by Buyer to PJM for the Transaction.**

Section 9.1 (d) of the Uniform SMA is replaced for purposes of payment for the Transaction referenced herein:

> **To the extent that the FMEA differs from the PMEA, the Company will pay or charge the DS Supplier for the PMEA/FMEA Adjustment Amount within the PJM deadline for conducting the final settlement. For each month of the Delivery Year that is also a Billing Month of the Delivery Period, to the extent that the DS Supplier's Capacity obligation used in the calculation detailed in Section 9.1(a) is adjusted after the PJM deadline for conducting final settlement, the Company will pay or charge the DS Supplier any net difference between the payments calculated and made within the PJM deadline for conducting final settlement, and the payments calculated using the adjusted values.**

Please confirm that the terms stated herein accurately reflect the agreement reached on the date above between DS Supplier and Buyer by returning an executed copy of this Transaction Confirmation to PECO Energy Company. The signatories to this Transaction must have the authority to enter into this Transaction.

EXHIBIT 3

FORM OF PJM DECLARATION OF AUTHORITY

This Declaration of Authority ("Declaration") is made this _____ day of _____, 20____ by the following:

PRINCIPAL: _____ ("Principal")

AGENT: _____ ("Agent").

RECITALS

WHEREAS, PJM is a Regional Transmission Organization ("RTO") subject to the jurisdiction of the Federal Energy Regulatory Commission ("FERC");

WHEREAS, PJM Settlement, Inc ("PJM Settlement") is a Pennsylvania Non-Profit Corporation, incorporated for the purpose of providing billing and settlement functions and credit and risk management functions for PJM. References to "PJM" in this Declaration are intended to apply to PJM and/or PJM Settlement, as appropriate, with regard to their respective functions.

WHEREAS, PJM and PJM Settlement administer centralized markets that clear various electric energy and energy-related products among multiple buyers and DS Suppliers;

WHEREAS, PJM additionally exercises operational control over its members' transmission facilities whereby PJM provides open-access transmission service and control area functions, including economic dispatch and emergency response to ensure reliability;

WHEREAS, Principal is a PJM Member and seeks to obtain, or is obtaining, services provided or administered by PJM, seeks to participate, or is participating in, markets administered by PJM, or seeks to engage in, or is engaging in, operations that use or affect the integrated transmission system operated by PJM;

WHEREAS, such activities or contemplated activities by Principal and Agent are governed by rights and obligations established by or under the PJM Open Access Transmission Tariff ("Tariff"), the Amended and Restated Operating Agreement of PJM Interconnection, L.L.C. ("Operating Agreement"), the Reliability Assurance Agreement Among Load-serving Entities in the MAAC Control Zone ("RAA"), and other agreements, manuals, and practices of PJM (the Tariff, the Operating Agreement, the RAA, and such other agreements manuals, and practices of PJM, the "PJM Agreements"); and

WHEREAS, Principal and Agent desire to declare to PJM their respective authorities concerning such rights and obligations, intend that PJM rely upon such declaration, and acknowledge that PJM may rely upon such declaration to its detriment.

DECLARATION

NOW, THEREFORE, acknowledging that PJM will rely on the truth, accuracy and completeness of the declarations made below, Principal and Agent, as identified below, make the following declarations:

1. Exclusivity of Agent's Authority.

Pursuant to a binding, legally enforceable agreement, Principal has authorized Agent to act for Principal with respect to certain rights and responsibilities as specified in Section 2 of this Declaration ("the Authorized Rights and Responsibilities"). With respect to the Authorized Rights and Responsibilities, Agent is authorized to communicate and transact with PJM as Principal's sole and exclusive agent, and PJM is authorized to communicate and transact directly and exclusively with Agent as Principal's agent. With respect to Authorized Rights and Responsibilities, Principal will abide by any direction issued by PJM to Agent.

2. Specification of Authorized Rights and Responsibilities.

In the following parts (a) through (h), Principal and Agent specify the rights and responsibilities with respect to which Agent is authorized to act for Principal. Specification shall be effective only if both Principal and Agent have placed the initials of their authorized representatives in the space provided for each applicable right or responsibility from among the options provided below:

(a) Load Server Responsibilities.

_____ _____ Agent is authorized to satisfy Principal's obligations as a Load-Serving Entity under the RAA, including, without limitation, its obligations to provide Unforced Capacity, submit capacity plans, provide or arrange for Capacity Resources, satisfy Accounted-for Obligations and Peak Season Maintenance Obligations, comply with any capacity audits, make payment of all deficiency, data submission, and emergency procedure charges incurred, coordinate planning and operation of Capacity Resources with other parties; and develop and submit planned outage schedules.

_____ _____ Agent is authorized to satisfy Principal's obligations under the Tariff, RAA and to provide or arrange for transmission service to its loads; provide or arrange for sufficient reactive capability, voltage control facilities, and black start capability for service to its loads; submit firm transmission service schedules, and designate Network Resources and other points of receipt and delivery for transmission

service. Agent is authorized to request changes to the transmission service required for service to Principal's loads, and to enter into, on Principal's behalf, any feasibility, system impact, facilities study, or other agreements required to process such request for a change in service.

_____ _____ Agent is authorized to satisfy Principal's rights and obligations under the Tariff and Operating Agreement to submit bids on, obtain, administer, and receive payments or credits for Financial Transmission Rights and Auction Revenue Rights with respect to service to Principal's loads.

_____ _____ Agent is authorized to provide data required by PJM with respect to service to Principal's loads, including, but not limited to, data required for coordination of operations, accounting for all interchange transactions, preparation of required reports and maintenance schedules, and analysis of system disturbances.

_____ _____ Agent is authorized to provide the facilities and personnel required to coordinate operations with PJM and other PJM Members.

(b) Electric Distributor Responsibilities.

_____ _____ Agent is authorized to satisfy Principal's rights and obligations as an Electric Distributor under the Operating Agreement, including, but not limited to, assuring the continued compatibility of its local energy management, monitoring, and telecommunications systems with PJM's technical requirements; providing or arranging for the services of a 24-hour local control center to coordinate with PJM; providing to PJM all system, accounting, customer tracking, load forecasting, and other data necessary or appropriate to implement or administer the Operating Agreement, RAA; shedding connected load, initiating active load management programs, and taking such other coordination actions as may be necessary in accordance with PJM's directions in Emergencies; maintaining or arranging for a portion of its connected load to be subject to control by automatic underfrequency, under-voltage, or other load-shedding devices; and complying with the underfrequency relay obligations and charges specified in the Operating Agreement.

(c) Generator Responsibilities.

_____ _____ Agent is authorized to operate the Principal's generation resources in all events, including, but not limited to, in the event of Emergencies, and shall operate such resources in a manner that is consistent with the standards, requirements or directions of PJM and that will permit PJM to perform its obligations under the

Operating Agreement, Tariff, RAA, and other applicable agreements, manuals, and practices.

_____ _____ Agent is authorized to ensure that the required portion of Principal's Capacity Resources have the ability to go from a shutdown condition to an operating condition and start delivering power without assistance from the power system.

- Or –

_____ _____ Agent is authorized to direct the operation of Principal's generation resources by relaying PJM's instructions to the resource in all events, including, but not limited to, in the event of Emergencies, and shall direct such resources in a manner that is consistent with the standards, requirements or directions of PJM and that will permit PJM to perform its obligations under the Operating Agreement, Tariff, RAA, and other applicable agreements, manuals, and practices.

_____ _____ Agent is authorized to communicate with PJM in all matters concerning the provision of capacity, energy, or ancillary services from Principal's generation resources, including, without limitation, information required in connection with Capacity Resources, dispatch of any unit, provision of reactive power, regulation, synchronous condensing, spinning or other reserves, establishment or maintenance of a unit as a Black-Start Unit, satisfaction of must-run obligations, and costs or revenue requirements for any product or service offered by any such unit.

_____ _____ Agent is authorized to provide information on outages of Principal's generation facilities, whether planned, forced, or for maintenance, and to coordinate such outages with PJM

_____ _____ Agent is authorized to act on behalf of Principal with respect to Principal's rights and obligations under any Feasibility Study, System Impact Study, or Facilities Study Agreements.

_____ _____ Agent is authorized to act on behalf of Principal with respect to Principal's rights and obligations under any Construction Service Agreements.

_____ _____ Agent is authorized to act on behalf of Principal with respect to Principal's rights and obligations under any Interconnection Service Agreements.

____ _____ Agent is authorized to receive from PJM historic and real time data collected by PJM from, or provided to PJM by, Principal with respect to Principal's generation resources.

_____ _____ Agent is authorized to act on behalf of Principal for the following specific unit(s) in Principal primary and subaccounts:

Resource Name: Resource ID:

(d) Market Buyer/Market Seller Responsibilities.

_____ _____ Agent is authorized to satisfy Principal's rights and obligations as a Market Buyer or Market Seller under the Operating Agreement, including, but not limited to, arranging for a Market Operations Center capable of real-time communication with PJM during normal and Emergency conditions; reporting to PJM sources of energy available for operation; providing to PJM scheduling and other information, including, but not limited to, maintenance and other anticipated outages of generation or transmission facilities, scheduling and related information on bilateral transactions and self-scheduled resources, and implementation of active load management, interruption of load, and other load reduction measures; obtaining Spot Market Backup for bilateral transactions; submitting to PJM binding offers to purchase or sell energy and ancillary services in compliance with all applicable Offer Data specifications; responding to PJM's directives to start, shut down or change output levels of generation units, or change scheduled voltages or reactive output levels; responding to PJM's directives to schedule delivery or change delivery schedules for external resources; and following PJM's directions to take actions to prevent, manage, alleviate or end an Emergency.

(e) Billing and Payment Responsibilities.

_____ _____ In connection with all rights and responsibilities specified by Principal and Agent in any of subparts (a) through (d) of this Section, or as specified in the attached Addendum, Agent shall be billed for, and shall make payment to PJM for, all charges, penalties, costs and fees. (If this option is not specified, PJM will issue billings to, and collect amounts due from, Principal.)

_____ _____ In connection with all rights and responsibilities specified by Principal and Agent above, Agent is entitled to receive from PJM in Agent's account all credits, revenues, distributions, and disbursements. (If this option is not specified, PJM will pay such amounts to Principal.)

(f) General Membership Responsibilities.

_____ _____ Agent is authorized to participate and vote in all PJM committees, working groups, and other stakeholder bodies on Principal's behalf.

_____ _____ Agent is authorized to participate on Principal's behalf in the regional transmission expansion planning process.

_____ _____ Agent is authorized to provide information or otherwise cooperate on Principal's behalf in connection with any investigation or request for information by PJM or the PJM Market Monitoring Unit in accordance with the Operating Agreement and Attachment M to the Tariff. (If this option is specified, PJM and the PJM Market Monitoring Unit shall have the right to request and obtain such information from Agent and/or Principal.)

_____ _____ Agent shall be billed for, and shall make payment of, Principal's costs of membership in PJM, including payment of the Membership fee, and payment of any other general assessments on the PJM members, including, but not limited to, amounts assessed as a consequence of defaults by other Members.

(g) Additional Responsibilities.

_____ _____ Agent has been Authorized other rights and responsibilities of Principal as specified on Attachment "A" to this Declaration.

(h) Limitation on Responsibilities.

_____ _____ The rights and responsibilities specified in parts (a) through (f) above apply to a limited portion of Principal's facilities or loads located in the PJM Region, as specified on Attachment "B" to this Declaration, and to no other facilities or loads of Principal.

3. Continuing Responsibilities and Liabilities of Principal.

3.1 The Authorized Rights and Responsibilities are the only rights and responsibilities under the PJM Agreements for which Agent is authorized to act for Principal, and Principal retains all rights and responsibilities under the PJM Agreements not specified by Principal and Agent in Section 2.

3.2 With respect to the Authorized Rights and Responsibilities, and notwithstanding any other provision of this Agreement, Principal shall remain liable to PJM for all amounts due or to become due to PJM under the PJM Agreements, and Agent's authorization to make payment of any such amounts hereunder (if specified in Section 2) shall not release Principal from liability for any financial obligations to PJM not satisfied by Agent.

4. Reliance and Indemnity, Duty to Inform, Liability Waiver, and Rules of Construction.

4.1 Principal and Agent each recognizes, accepts and intends that PJM will rely, upon on the truth, accuracy and completeness of the declarations herein in matters including but not limited to creditworthiness and in assuring compliance with the PJM Agreements. Principal and Agent each recognizes and accepts that PJM or its members may suffer losses and damages if any declaration is or becomes untrue, inaccurate or incomplete, and each agrees to indemnify PJM for any such losses and damages.

4.2 Principal and Agent each has a continuing duty to notify PJM if and when any declaration herein ceases to be truthful, accurate or complete. Until such time as PJM receives written notification of any change to any declaration, in accordance with the terms contained herein, PJM shall be entitled to rely perpetually on this Declaration as governing its relationship with Principal and Agent as to the subject matter of this Declaration. Written notice of changes to the declarations contained herein must be provided by Principal (PJM Member) to PJM at least thirty days in advance of their effectiveness. If Agent is also a PJM Member, then both parties will be required to provide thirty days prior written notification in order for such changes to be effective. Such notification is required for changes to the declarations and responsibilities contained herein and/or termination of this Declaration. Upon such termination, all rights, responsibilities and accounts will revert back to the original status quo prevailing before the Declaration became effective. Should less than thirty days notice be provided, PJM shall use its best efforts to accommodate and process the declarations herein, but all attempts should be made to provide such notice.

4.3 Nothing in this Declaration shall be construed to create or give rise to any liability on the part of PJM and Principal and Agent expressly waive any claims that may arise against PJM under this Declaration. This Declaration shall not be construed to modify any of the PJM Agreements and in the event of conflict between this Declaration and a PJM Agreement, the applicable PJM Agreement shall control.

4.4 Capitalized terms used herein that are not defined herein have the meanings given in the PJM Agreements, as applicable.

4.5 The Recitals are hereby incorporated into the body of this Declaration.

IN WITNESS WHEREOF, Principal and Agent execute this Declaration to be effective as of the date written above or upon receipt of a fully executed original by PJM, whichever date is later.

APPENDIX E

DS SUPPLIER'S OBLIGATIONS FOR AEPS COMPLIANCE

To satisfy AEPS requirements with respect to the DS Supplier Responsibility Share, DS Supplier shall fulfill the following obligations:

(1) Providing sufficient AECs for each tranche award via the DS Solicitation less the allocated AECs. Appendix E and Exhibit 1 will apply during the term of the Agreement and will be used to determine the number of AECs a DS Supplier must deliver to Buyer to fulfill DS Supplier's AEPS obligation except to the extent that DS Supplier's AEPS obligation may be reduced by any AECs obtained separately by the Buyer and allocated to DS Supplier's AEPS obligation as shown on a Transaction Confirmation. Any Buyer AECs allocated to DS Supplier's AEPS obligation as set forth in Exhibit 1 shall remain the property of Buyer and shall not be transferred to DS Supplier;

(2) Paying any AEC penalties, costs, charges, etc. assessed against the DS Supplier and/or the Company associated with the DS Supplier's non-performance with AEPS requirements;

(3) Submitting to the Company proof of AEPS compliance under this agreement in such form and manner as may be required by the Company.

(4) Provide to the Company all information the Company may require to comply with the AEPS Act and its implementing regulations and other Requirements of Law, including, but not limited to the price paid per AEC required by 73 Pa.C.S. §1648.3(e)(8).

This Appendix E shall conform the AEPS obligation of the Transaction agreed to on _____("Transaction Due Date").

AEPS obligations for the period beginning ~~6/1/2021~~**6/1/2025** based on the total MWh supplied by the DS Supplier:

Reporting Period	Tier 1*	PV	Tier 2
~~6/1/2021~~**6/1/2025** to ~~5/31/2026~~**5/31/2029**		8.00%	0.50%
10.00%			

*Tier 1 requirements include Tier 1 PV requirements.

The percentages set forth above are those applicable for the DS Solicitation and may be revised for future DS Solicitations to reflect changes in law or other applicable regulatory requirements. DS Supplier shall transfer all AECs to Buyer using GATS. Buyer will provide with an estimate of DS Supplier's AEPS obligation following the second quarter of the AEPS reporting period and with a final statement within thirty (30) calendar days of the end of AEPS reporting period. DS Supplier shall transfer the amount of AECs shown on Buyer's estimate and on the final statement within forty-five (45) calendar days after the date of each such estimate or statement. DS Supplier warrants that all AECs transferred to Buyer during an AEPS reporting period (or during the twenty calendar days thereafter) shall be eligible for Buyer's use for compliance during such AEPS reporting period.

If AEPS requirements change by law or any other reason, DS Supplier shall be responsible for providing the credits at its expense in order to comply with its obligations under Full Requirements Service.

APPENDIX F

LETTER OF CREDIT DOCUMENTATION
{TO BE ISSUED ON THE LETTERHEAD OF THE ISSUING BANK}

IRREVOCABLE LETTER OF CREDIT NO.

ISSUE DATE _____ EXPIRY DATE_____

APPLICANT

[ADDRESS]

BENEFICIARY
[NAME]
[ADDRESS]

CURRENCY	**AMOUNT**
USD	***********$**

WE HEREBY ISSUE IN YOUR FAVOR OUR IRREVOCABLE LETTER OF CREDIT NO: _____ FOR THE ACCOUNT OF _____ (APPLICANT) FOR AN AMOUNT OR AMOUNTS NOT TO EXCEED IN THE AGGREGATE US DOLLARS _____ AVAILABLE BY YOUR DRAFT(S) AT SIGHT ON THE BANK OF _____ ("ISSUER") _____(ADDRESS), EFFECTIVE _____ AND EXPIRING AT OUR COUNTERS ON _____OR ANY AUTOMATICALLY EXTENDED EXPIRY DATE, AS PROVIDED HEREIN. THIS LETTER OF CREDIT IS AVAILABLE IN ONE OR MORE DRAFTS UP TO THE AGGREGATE AMOUNT SET FORTH HEREIN.

THIS LETTER OF CREDIT IS PRESENTABLE AND PAYABLE AT OUR COUNTERS AND WE HEREBY ENGAGE WITH YOU THAT DRAFTS DRAWN UNDER AND IN COMPLIANCE WITH THE TERMS OF THIS LETTER OF CREDIT WILL BE HONORED ON PRESENTATION IF ACCOMPANIED BY THE REQUIRED DOCUMENTS PURSUANT TO THE TERMS OF THIS LETTER OF CREDIT.

THE BELOW MENTIONED DOCUMENT(S) MUST BE PRESENTED ON OR BEFORE THE EXPIRY DATE OF THIS INSTRUMENT IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THIS LETTER OF CREDIT.

1. YOUR SIGNED AND DATED STATEMENT, READING AS FOLLOWS:

"THE AMOUNT FOR THIS DRAWING, USD (INSERT AMOUNT), BEING MADE UNDER THE BANK OF _____ (BANK) LETTER OF CREDIT NUMBER (INSERT LETTER OF CREDIT REFERENCE NUMBER), REPRESENTS AN AMOUNT DUE AND PAYABLE TO BENEFICIARY FROM APPLICANT FOR PERFORMANCE ASSURANCE RELATED TO THE BENEFICIARY'S PECO ENERGY COMPANY PENNSYLVANIA DEFAULT SERVICE SUPPLIER MASTER AGREEMENT DATED BETWEEN _____ AND _____."

2. THIS ORIGINAL LETTER OF CREDIT AND ANY AMENDMENT(S).

IF PRESENTATION OF ANY DRAWING IS MADE ON A BUSINESS DAY (AS HEREIN DEFINED) AND SUCH PRESENTATION IS MADE ON OR BEFORE 11:00 A.M. NEW YORK TIME, ISSUER SHALL SATISFY SUCH DRAWING REQUEST ON THE NEXT BUSINESS DAY. IF THE DRAWING IS RECEIVED AFTER 11:00 A.M. NEW YORK TIME, ISSUER WILL SATISFY SUCH DRAWING REQUEST ON THE SECOND FOLLOWING BUSINESS DAY.

IT IS A CONDITION OF THIS LETTER OF CREDIT THAT IT WILL BE AUTOMATICALLY EXTENDED WITHOUT AMENDMENT FOR ONE YEAR FROM THE EXPIRATION DATE HEREOF, OR ANY FUTURE EXPIRATION DATE, UNLESS AT LEAST 90 DAYS PRIOR TO ANY EXPIRATION DATE WE NOTIFY YOU AT THE ABOVE ADDRESS BY REGISTERED MAIL OR HAND DELIVERED COURIER THAT WE ELECT NOT TO CONSIDER THIS LETTER OF CREDIT RENEWED FOR ANY SUCH PERIOD.

THIS LETTER OF CREDIT MAY BE TERMINATED UPON BENEFICIARY'S RECEIPT OF FULL PAYMENT FROM THE APPLICANT AND ISSUER'S RECEIPT OF A WRITTEN RELEASE FROM THE BENEFICIARY RELEASING THE ISSUER FROM ITS OBLIGATIONS UNDER THIS LETTER OF CREDIT.

THE TERM "BUSINESS DAY" AS USED HEREIN MEANS ANY DAY OTHER THAN (I) A SATURDAY, (II) A SUNDAY, OR (III) A DAY ON WHICH BANKING INSTITUTIONS LOCATED IN THE CITY OF NEW YORK, NEW YORK ARE REQUIRED OR AUTHORIZED BY LAW TO BE CLOSED.

APPLICANT'S FILING OF A BANKRUPTCY, RECEIVERSHIP OR OTHER DEBTOR-RELIEF PETITION, AND/OR APPLICANT'S DISCHARGE THEREUNDER, SHALL IN NO WAY AFFECT THE LIABILITY OF [BANK] UNDER THIS LETTER OF CREDIT AND [BANK] SHALL ALWAYS REMAIN LIABLE TO [BENEFICIARY] FOR THE FULL AMOUNT OF APPLICANT'S OBLIGATIONS HEREIN TO [BENEFICIARY] NOT TO EXCEED THE AVAILABLE AMOUNT IN THIS LETTER OF CREDIT.

ADDITIONAL TERMS AND CONDITIONS:

1. ALL COMMISSIONS AND OTHER BANKING CHARGES WILL BE BORNE BY THE APPLICANT.

2. THIS LETTER OF CREDIT MAY NOT BE TRANSFERRED OR ASSIGNED.

3. THIS LETTER OF CREDIT IS IRREVOCABLE.

4. THIS LETTER OF CREDIT IS SUBJECT TO THE INTERNATIONAL STANDBY PRACTICES (1998) OF THE INTERNATIONAL CHAMBER OF COMMERCE PUBLICATION NO. 590 ("ISP98"). AS TO MATTERS NOT GOVERNED BY ISP98, THIS LETTER OF CREDIT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, INCLUDING, TO THE EXTENT NOT INCONSISTENT WITH ISP98, THE UNIFORM COMMERCIAL CODE AS IN EFFECT IN THE STATE OF NEW YORK. THIS LETTER OF CREDIT MAY NOT BE AMENDED, CHANGED OR MODIFIED WITHOUT THE EXPRESS WRITTEN CONSENT OF THE BENEFICIARY AND THE ISSUER.

5. THE BENEFICIARY SHALL NOT BE DEEMED TO HAVE WAIVED ANY RIGHTS UNDER THIS LETTER OF CREDIT, UNLESS THE BENEFICIARY OR AN AUTHORIZED AGENT OF THE BENEFICIARY SHALL HAVE SIGNED A DATED WRITTEN WAIVER. NO SUCH WAIVER, UNLESS EXPRESSLY SO STATED THEREIN, SHALL BE EFFECTIVE AS TO ANY TRANSACTION THAT OCCURS SUBSEQUENT TO THE DATE OF THE WAIVER, NOR AS TO ANY CONTINUANCE OF A BREACH AFTER THE WAIVER.

6. A FAILURE TO MAKE ANY PARTIAL DRAWINGS AT ANY TIME SHALL NOT IMPAIR OR REDUCE THE AVAILABILITY OF THIS LETTER OF CREDIT IN ANY SUBSEQUENT PERIOD OR OUR OBLIGATION TO HONOR YOUR SUBSEQUENT DEMANDS FOR PAYMENT MADE IN ACCORDANCE WITH THE TERMS OF THIS LETTER OF CREDIT.

APPENDIX G

GUARANTY

THIS GUARANTY (this "Guaranty"), dated as of _____ , 202_, is made by _____ (the "Guarantor"), a_____organized and existing under the laws of _____ [a state of the United States or of the District of Columbia], in favor of PECO Energy Company (the "Guaranteed Party"), a corporation organized and existing under the laws of the Commonwealth of Pennsylvania. Terms not defined herein shall have the meanings given to them in the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement dated _____ , 202_(as amended, modified or extended from time to time, the "Agreement(s)"), between the Guaranteed Party and _____, a _____ organized and existing under the laws of _____(the "DS Supplier"). This Guaranty is made by Guarantor in consideration for, and as an inducement for the Guaranteed Party to enter into, the Agreement(s) with the DS Supplier. Guarantor, subject to the terms and conditions hereof, hereby unconditionally, irrevocably and absolutely guarantees to the Guaranteed Party the full and prompt payment when due, subject to any applicable grace period, of all payment obligations of the DS Supplier to the Guaranteed Party arising out of the Agreement(s). Without limiting the generality of the foregoing, Guarantor further agrees as follows:

1. The Guarantor, as primary obligor and not merely as surety, hereby irrevocably and unconditionally guarantees the full and prompt payment when due (whether by acceleration or otherwise) of any sums due and payable by the DS Supplier as a result of an Event of Default under the Agreement(s) (including, without limitation, indemnities, damages, fees and interest thereon, pursuant to the terms of the Agreement(s)). [Notwithstanding anything to the contrary herein, the maximum aggregate liability of the Guarantor under this Guaranty shall in no event exceed $____, less the value other liquid securities posted by the DS Supplier under the Agreement(s).] All such principal, interest, obligations and liabilities, collectively, are the "Guaranteed Obligations". This Guaranty is a guarantee of payment and not of collection.

2. The Guarantor hereby waives diligence, acceleration, notice of acceptance of this Guaranty and notice of any liability to which it may apply, and waives presentment and all demands whatsoever except as noted herein, notice of protest, notice of dishonor or nonpayment of any such liability, suit or taking of other action by Guaranteed Party against, and any other notice to, any party liable thereon (including the Guarantor), filing of claims with a court in the

event of the insolvency or bankruptcy of the DS Supplier, and any right to require a proceeding first against the DS Supplier.

3. The Guaranteed Party may, at any time and from time to time, without notice to or consent of the Guarantor, without incurring responsibility to the Guarantor and without impairing or releasing the obligations of the Guarantor hereunder, upon or without any terms or conditions: (a) take or refrain from taking any and all actions with respect to the Guaranteed Obligations, any Agreement(s) with respect to the Guaranteed Obligations or any person (including the DS Supplier) that the Guaranteed Party determines in its sole discretion to be necessary or appropriate; (b) take or refrain from taking any action of any kind in respect of any security for any Guaranteed Obligation(s) or liability of the DS Supplier to the Guaranteed Party; or (c) compromise or subordinate any Guaranteed Obligation(s) or liability of the DS Supplier to the Guaranteed Party including any security therefor.

4. Subject to the terms and conditions hereof, the obligations of the Guarantor under this Guaranty are absolute, irrevocable and unconditional and, shall not be released, discharged or otherwise affected by: (a) any extension, renewal, settlement, compromise, waiver, consent, discharge or release by the DS Supplier concerning any provision of the Agreement(s) governing any of the Guaranteed Obligations of the DS Supplier; (b) the rendering of any judgment against the DS Supplier or any action to enforce the same; (c) the existence, or extent of, any release, exchange, surrender, non-perfection or invalidity of any direct or indirect security for any of the Guaranteed Obligations; (d) any modification, amendment, waiver, extension of or supplement to any of the Agreement(s) or the Guaranteed Obligations agreed to from time to time by the DS Supplier and the Guaranteed Party; (e) any change in the corporate existence (including its constitution, laws, rules, regulations or powers), structure or ownership of the DS Supplier or the Guarantor, or any insolvency, bankruptcy, reorganization or other similar proceedings affecting the DS Supplier, its assets or the Guarantor; (f) the existence of any claim, set-off or other rights which the Guarantor may have at any time against the DS Supplier, the Guaranteed Party, whether in connection herewith or in connection with any unrelated transaction; provided that nothing herein shall prevent the assertion of any such claim by separate suit or compulsory counterclaim; and (g) the invalidity, irregularity or unenforceability in whole or in part of the Agreement(s) or any Guaranteed Obligations or any instrument evidencing any Guaranteed Obligations or the absence of any action to enforce the same.

5. The Guarantor hereby irrevocably waives (a) any right of reimbursement or contribution, and (b) any right of salvage against the DS Supplier or any collateral security or guaranty or right of offset held by the Guaranteed Party therefor.

6. The Guarantor will not exercise any rights, which it may acquire by way of subrogation until all Guaranteed Obligations to the Guaranteed Party pursuant to the Agreement(s) have been paid in full.

7. Subject to the terms and conditions hereof, this Guaranty is a continuing Guaranty and all liabilities to which it applies or may apply under the terms hereof shall be conclusively presumed to have been created in reliance hereon. Except for a failure to comply with any applicable statute of limitations, no failure or delay on the part of the Guaranteed Party in exercising any right, power or privilege hereunder, and no course of dealing between the

Guarantor and the Guaranteed Party, shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege. The rights, powers and remedies herein expressly provided are cumulative and not exclusive of any rights, powers or remedies, which the Guaranteed Party would otherwise have. No notice to or demand on the Guarantor in any case shall entitle the Guarantor to any other or further notice or demand in similar or other circumstances or constitute a waiver of the rights of the Guaranteed Party to any other or further action in any circumstances without notice or demand.

8. This Guaranty shall be binding upon the Guarantor and upon its successors and assigns and shall inure to the benefit of and be enforceable by the Guaranteed Party and its successors and assigns; provided, however, that the Guarantor may not assign or transfer any of its rights or obligations hereunder without the prior written consent of the Guaranteed Party. The assignment rights of the Guaranteed Party will be in accordance with any applicable terms of the Agreement(s).

9. Neither this Guaranty nor any provision hereof may be changed, waived, discharged or terminated except upon written agreement of the Guaranteed Party and the Guarantor.

10. The Guarantor's liability as guarantor shall continue and remain in full force and effect in the event that all or any part of any payment made hereunder or any obligation or liability guaranteed hereunder is recovered (as a fraudulent conveyance, preference or otherwise) rescinded or must otherwise be reinstated or returned due to bankruptcy or insolvency laws or otherwise. If claim is ever made upon the Guaranteed Party for repayment or recovery of any amount or amounts received from the Guarantor or the DS Supplier in payment or on account of any of the Guaranteed Obligations and the Guaranteed Party repays all or part of such amount by reason of (a) any judgment, decree or order of any court or administrative body having jurisdiction over such payee or any of its property, or (b) any settlement or compromise of any such claim effected by such payee with any such claimant (including the Guarantor), then and in such event the Guarantor agrees that any such judgment, decree, order, settlement or compromise shall be binding upon it, notwithstanding any revocation hereof or the cancellation of the Agreement(s) or other instrument evidencing any liability of the Guarantor, and the Guarantor shall be and remain liable to the Guaranteed Party hereunder for the amount so repaid or recovered to the same extent as if such amount had never originally been received by the Guaranteed Party.

11. Subject to Paragraph 10, this Guaranty shall remain in full force and effect until all Guaranteed Obligations have been fully and finally performed, at which point it will expire. The Guarantor may terminate this Guaranty upon thirty (30) days prior written notice to the Guaranteed Party which termination shall be effective only upon receipt by the Guaranteed Party of alternative means of security or credit support, as specified in the Agreement(s) and in a form reasonably acceptable to the Guaranteed Party. Upon the effectiveness of any such expiration or termination, the Guarantor shall have no further liability under this Guaranty, except with respect to the Guaranteed Obligations arising or created prior to the time the expiration or termination is effective, which Guaranteed Obligations shall remain guaranteed pursuant to the terms of this

Guaranty until finally and fully performed.

12. All notices and other communications hereunder shall be made at the addresses by hand delivery, by next day delivery service effective upon receipt, or by certified mail return receipt requested (effective upon scheduled weekday delivery day) or telefacsimile (effective upon receipt of evidence, including telefacsimile evidence, that telefacsimile was received)

If to the Guarantor: [*To be completed*]

If to the Guaranteed Party: [*To be completed*]

13. The Guarantor represents and warrants that: (a) it is duly organized and validly existing under the laws of the jurisdiction in which it was organized and has the power and authority to execute, deliver, and perform this Guaranty; (b) no authorization, approval, consent or order of, or registration or filing with, any court or other governmental body having jurisdiction over the Guarantor is required on the part of the Guarantor for the execution, delivery and performance of this Guaranty except for those already made or obtained; (c) this Guaranty constitutes a valid and legally binding agreement of the Guarantor, and is enforceable against the Guarantor; and (d) the execution, delivery and performance of this Guaranty by the Guarantor have been and remain duly authorized by all necessary corporate or comparable action and do not contravene any provision of its [insert appropriate corporate organizational document, such as Declaration of Trust, Limited Liability Company Agreement, Articles of Incorporation and by-laws] or any law, regulation or contractual restriction binding on it or its assets.

14. This Guaranty and the rights and obligations of the DS Supplier and the Guarantor hereunder shall be construed in accordance with and governed by the laws of the Commonwealth of Pennsylvania. The Guarantor and Guaranteed Party jointly and severally agree and irrevocably submit to the exclusive jurisdiction of state and federal courts located in the Commonwealth of Pennsylvania over any disputes arising or relating to this Guaranty and waive and agree not to assert as a defense any objections to venue or inconvenient forum. The Guarantor and the Guaranteed Party consent to and grant any such court jurisdiction over the person of such party and over the subject matter of such dispute and agree that summons or other legal process in connection with any such action or proceeding shall be deemed properly and effectively served when sent by certified U.S. mail, return receipt requested, to the address of the other party set forth in Paragraph 12 hereof, or in such other manner as may be permitted by law. The Guarantor and the Guaranteed Party each hereby irrevocably waives any and all rights to trial by jury with respect to any legal proceeding arising out of or relating to this Guaranty.

15. This writing is the complete and exclusive statement of the terms of this Guaranty and supersedes all prior oral or written representations, understandings, and agreement(s)

between the Guaranteed Party and the Guarantor with respect to subject matter hereof. The Guaranteed Party and the Guarantor agree that there are no conditions to the full effectiveness of this Guaranty.

16. Every provision of this Guaranty is intended to be severable. If any term or provision hereof is declared to be illegal or invalid for any reason whatsoever by a court of competent jurisdiction, such illegality or invalidity shall not affect the balance of the terms and provisions hereof, which terms and provisions shall remain binding and enforceable.

17. If the Guarantor is a trust: no trustee of the Guarantor shall be held to any liability whatsoever for any obligation under this Guaranty, and this Guaranty shall not be enforceable against any such trustee in their or its, his or her individual capacities or capacity; and this Guaranty shall be enforceable against the trustees of the Guarantor only as such, and every person, firm, association, trust or corporation having any claim or demand arising under this Guaranty and relating to the Guarantor or any trustee of the Guarantor shall look solely to the trust estate of the Guarantor for the payment or satisfaction thereof.

IN WITNESS WHEREOF, the Guarantor and the Guaranteed Party have caused this Guaranty to be executed and delivered as of the date first written above to be effective as of the earliest effective date of any of the Agreement(s).

APPENDIX I

ADHERENCE TO THE U.S. STAY PROTOCOL

The Parties may, by mutual agreement, execute this Appendix I for purposes of incorporating the Swaps and Derivatives Association 2018 U.S. Resolution Stay Protocol into this Default Service Supplier Master Agreement.

This Appendix I is part of the Default Service Supplier Master Agreement dated _____, 20__ (as amended, modified or extended from time to time) between PECO Energy Company (the "Buyer") and [_____] (the "DS Supplier").

DS Supplier hereby confirms that it is an adherent to the International Swaps and Derivatives Association ("ISDA") 2018 U.S. Resolution Stay Protocol ("ISDA U.S. Stay Protocol"). Buyer confirms that it is or that it will become an adherent to the ISDA U.S. Stay Protocol. If Buyer is not an adherent to the ISDA U.S. Stay Protocol when this Appendix I is executed, Buyer will submit an Adherence Letter for acceptance by the ISDA no later than ten (10) Business Days after execution of this Appendix I.

The terms of the ISDA U.S. Stay Protocol are incorporated into and form a part of the Default Service Supplier Master Agreement, and the Default Service Supplier Master Agreement shall be deemed a Protocol Covered Agreement for purposes thereof. For purposes of incorporating the ISDA U.S. Stay Protocol, DS Supplier shall be deemed to be a Regulated Entity and Buyer shall be deemed to be an Adhering Party. In the event of any inconsistences between the Agreement and the ISDA U.S. Stay Protocol, the ISDA U.S. Stay Protocol will prevail.

The terms "Regulated Entity", "Adhering Party", "Adherence Letter" and "Protocol Covered Agreement" shall have the meanings given to them in the ISDA U.S. Stay Protocol. All other terms not defined herein shall have the meanings given to them in the Default Service Supplier Master Agreement between the Parties.

PECO Energy Company

Request for Proposals
To Supply

Solar Alternative Energy Credits

In Compliance With

Pennsylvania's Alternative Energy Portfolio Standards Act

_____, 2025

ARTICLE 1
INTRODUCTION

1.1 In this Request for Proposals ("RFP"), PECO Energy Company ("PECO" or the "Company") is voluntarily soliciting competitive proposals for supply of Alternative Energy Credits ("AECs") from Tier I solar Alternative Energy Systems under Pennsylvania's Alternative Energy Portfolio Standards Act, 73 P.S. § l648.1 ("AEPS" or the "Act").[1] PECO intends to use these AECs to apply towards its future AEPS obligations, and seeks to enter into fixed-price, ten-year agreements with successful bidders to purchase up to a total of 32,000 AECs annually through two solicitations (in 2025 and 2026). PECO will employ a two-phase annual procurement process involving a competitive bid phase (the RFP) followed by a Standard Offer To Purchase ("SOTP") phase. This document describes the process by which bidders may qualify and participate in the RFP and/or the SOTP phase of these solicitations.

1.2 PECO is a corporation organized and existing under the laws of the Commonwealth of Pennsylvania with its principal corporate office in Philadelphia, Pennsylvania. PECO is an electric distribution company under Pennsylvania law and provides electric delivery service to approximately 1.7 million retail customers in Southeastern Pennsylvania. PECO's electric delivery service territory falls entirely within the area served by PJM Interconnection, LLC ("PJM").

1.3 PECO is implementing the RFP and SOTP in two stages. Bidders must first qualify by submitting an application (an "Application") to PECO demonstrating their qualifications, as described in detail in Section 4.2 (Bidder Qualifications). These qualifications include the ability to provide AECs to PECO from one or more Tier I, solar Alternative Energy Systems in accordance with the Act commencing no later than twelve (12) months from the date that RFP/SOTP results are approved by the Pennsylvania Public Utility Commission ("PA PUC").

1.4 Following qualification, bidders may submit a bid proposal ("Bid Proposal") to deliver a specified amount of AECs annually from a single or multiple Alternative Energy System for a term of ten (10) years, with a single fixed price for each delivered AEC. Bid Proposals in the RFP stage will be ranked by price, and PECO will execute an AEC purchase and sale agreement with each successful bidder using one of the forms attached hereto as Exhibit 1-a (Form Solar Alternative Energy Credit Purchase and Sale Agreement (Project Version)) or Exhibit 1-b (Form Solar Alternative Energy Credit Purchase and Sale Agreement (Aggregator Version)) (each, an "AEC Purchase and Sale Agreement"). Bidders executing the Project Version will provide Solar AECs from specific facilities, while bidders executing the Aggregator Version will be procuring Solar AECs from multiple solar systems (e.g., smaller residential systems) for delivery to

[1] All capitalized terms not expressly defined herein are defined in the form Solar Alternative Energy Credit Purchase and Sale Agreement attached as Exhibit 1.

PECO. Bidders in the SOTP stage will be ranked on a 'first come, first served' basis, as determined by the Application Receipt Date in the SOTP stage.

1.5 AECs purchased and delivered to PECO will be inventoried by PECO and used to partially satisfy the Company's AEPS solar obligations on or after June 1, 2025 and in subsequent years. PECO is not purchasing electricity or capacity through this RFP.

1.6 The Pennsylvania Public Utility Commission ("PA PUC") has approved the procedures described in this RFP and the terms of both forms of the AEC Purchase and Sale Agreement by order dated _____, 2024, in Pa. PUC Docket No. _____ ("PUC Order"). The RFP process will be managed by PECO, with the opening and ranking of bids monitored by [company name] (the "RFP Monitor"). **Potential bidders are strongly urged to review both the RFP and the AEC Purchase and Sale Agreement and to consult with counsel with respect to requirements and obligations under this RFP and the AEC Purchase and Sale Agreement.**

1.7 The following documents are attached to this RFP Overview and are to be considered part of the RFP:

Exhibit 1:	Form of PECO Solar AEC Purchase and Sale Agreement
	Exhibit 1.a: Project Version
	Exhibit 1.b: Aggregator Version
Exhibit 2:	Non-Binding Notice of Intent to Bid
Exhibit 3:	Bidder Application Submission Form
Exhibit 4:	Form of Bidder Application
Exhibit 5:	Bid Proposal Form
Exhibit 6:	Confidentiality Agreement
Exhibit 7:	Solicitation Schedules for 2025 and 2026

ARTICLE 2
SCHEDULE AND BIDDER INFORMATION

2.1 RFP Schedule. The following table sets forth significant dates for this RFP. The time for each deadline on the specified date is 5:00 pm Eastern Prevailing Time (EPT PECO reserves the right to modify these dates at its discretion. PECO will communicate this solicitation to potentially interested parties in advance of the date of the RFP Overview Conference.

RFP Overview Conference	Day 0
Non-binding Notice of Intent to Bid Due Date	Day 10
Bidder Inquiries Deadline	Day 15
Final Publication of Responses to Inquiries	Day 20
Bidder Applications Due Date	Day 35
Notification of Bidder Qualification	Day 45
Bid Proposal Due Date	Day 50
Notification of Selected Bidders	Day 65
Execution of AEC Purchase and Sale Agreements	Day 80

2.2 RFP Overview Conference. PECO will conduct a teleconference to outline the RFP process and the terms of the AEC Purchase and Sale Agreements. Potential bidders are urged to review this RFP, including exhibits, prior to the teleconference. PECO will answer questions raised at this teleconference to the extent possible. Any party wishing to participate in this teleconference must send an e-mail to [to be supplied]@peco-energy.com with the subject line "AEC Bidder Teleconference." PECO will provide a dial-in number for the teleconference by return e-mail.

2.3 Non-Binding Notice of Intent To Bid. Following the bidder teleconference and no later than [Day 10], all parties seeking to submit a bid in response to this RFP must submit a non-binding Notice of Intent to Bid in the form attached hereto as Exhibit 2 to the address specified on the Notice. Any party who does not submit a non-binding Notice of Intent to Bid may not submit an Application for this RFP.

2.4 Bidder Inquiries. On or before the Bidder Inquiries Deadline [Day 15], bidders may submit questions to PECO via electronic mail ([to be supplied]@peco-energy.com). To the extent possible, questions submitted prior to the RFP Overview Conference will be addressed by PECO at the teleconference. Additional questions submitted and answered by PECO thereafter shall be posted with answers at the RFP website no later than [Day 15]. The person or company submitting the question shall not be identified. While PECO will review and attempt to answer questions in good faith, PECO reserves the right not to answer any question. The RFP Overview Conference and this bidder inquiry procedure are the exclusive methods for inquiring about this RFP and the AEC Purchase and Sale Agreement, and questions submitted to individual PECO employees, the Company, or the RFP Monitor by other means will not be answered and may result in disqualification of the bidder.

2.5 Informational Website and Updates. PECO will establish a website for electronic copies of RFP materials, posting of questions and answers, and other updates on this RFP. Bidders are encouraged to review this website regularly. In its sole discretion, PECO will endeavor to provide e-mail notification of important website updates to those bidders who have filed non-binding notices of intent to bid in this RFP.

ARTICLE 3
PROJECT ELIGIBILITY AND REQUIREMENTS

3.1 Eligibility. Applications may be submitted by qualified entities who currently own, propose to develop, or have rights to, Tier I solar Alternative Energy Credits from solar photovoltaic Alternative Energy Systems. Successful bidders must commence delivery of AECs to PECO no later than twelve (12) months from the date that RFP results are approved by the PA PUC. Entities who seek to submit bids from multiple Alternative Energy Systems must submit a separate Application for each such system. Entities which own solar photovoltaic Alternative Energy Systems that generate AECs and supply energy to a retail electric customer (a "Host") in accordance with applicable net metering requirements in the service territory of the electric utility in which the System is located are also eligible to apply. Entities that plan to aggregate AECs from multiple systems over the term of the agreement ("Aggregators") must submit one Application as an Aggregator.

3.2 General Requirements. Successful bidders must be able to meet all requirements of the AEC Purchase and Sale Agreement. Bidders will be required to demonstrate in Bidder Applications that they can meet all specified terms of the AEC Purchase and Sale Agreement and that they take no exception to the Agreement terms. Failure to do so will result in exclusion of the bidder's Applications from further consideration.

3.3 Contract for AECs Only; Location of AEC Alternative Energy System. AEC Purchase and Sale Agreements executed pursuant to this RFP will be for AECs only. Successful bidders will retain title to all generated electricity and capacity associated with Alternative Energy Systems generating the AECs purchased by PECO, where applicable. Successful bidders, where applicable, shall be responsible for undertaking all activities and paying all costs and charges associated with developing, permitting, and operating the bidder's Alternative Energy System, including all costs associated with any delivery of energy to a Host or to an interconnection point within the PJM Interconnection Regional Transmission Organization grid. For the RFP stage, AECs delivered must meet the Pa PUC AEPS requirements for the AEPS Solar Tier I obligation. For the SOTP stage, AECs delivered to PECO must meet the Pa PUC AEPS requirements for the AEPS Solar Tier I obligation and the Alternative Energy System(s) used to generate the AECs must be physically located in the service territory of the Company.

3.4 Delivery of AECs. All AECs shall be delivered to PECO using the PJM Generation Attribute Tracking System ("PJM GATS") and become the sole property of PECO.

3.5 Pricing and Term. Bidders in the RFP stage will specify in Bid Proposals an annual contract amount of AECs to be delivered to PECO (the "Contract Amount") during a AEPS reporting period (June 1 – May 31), with a single, fixed price for each delivered AEC. Bids must be based on a ten-year contract term, commencing upon the Commercial Operation Date (Project Version) or Execution Date (Aggregator Version) under the Solar AEC Purchase and Sale Agreement. All agreements (Project Version and Aggregator Version) shall terminate no later than May 31, 20XX. In the event that the

Commercial Operation Date does not coincide with the beginning of an AEPS reporting period (i.e., in June), the contract term may be extended an initial period of up to eleven months so that each year of the ten-year term is coincident with AEPS reporting periods. (For example, if an Alternative Energy System is scheduled to achieve Commercial Operation in January, 1, 2026, an initial period from the date of Commercial Operation to May 31, 2026, would be included in the Term of the AEC Purchase and Sale Agreement, and the agreement would terminate on May 31, 2036). Delivery of AECs from an existing system will commence the month after execution of an AEC Purchase and Sale Agreement by the successful bidder. Delivery by an Aggregator may commence the month after execution of an AEC Purchase and Sale Agreement and may commence up to six months after execution, with the extension periods in this paragraph also applicable for commencement dates after June 1. Timing for commencement of deliveries shall be specified in the Aggregator's bid.

3.6 Development Security and Performance Security. Successful bidders developing new facilities will be required to post Development Security (cash deposit or letter of credit) with PECO of 2% of the Nominal Contract Value, defined as the Contract Amount (in AECs /year) multiplied by ten years multiplied by the bid price (in $/AEC). This development fee shall be returned if the bidder achieves the Commercial Operation Date specified in the bidder's Bid Application. If the date is not achieved, some or all of the development fee will be forfeited and retained by PECO in its sole discretion. Performance security equal to 5% of the Nominal Contract Value, declining annually by 0.5% over the term of AEC Purchase and Sale Agreement, must be posted (i) by bidders of existing facilities upon execution of an AEC Purchase and Sale Agreement; (ii) by developers of new facilities upon commencement of Commercial Operation, or (iii) by Aggregators upon commencement of AEC deliveries. Performance security shall be recalculated annually thereafter based on the method described in Article 6 of the AEC Purchase and Sale Agreement, and shall be based on the remaining year of the term at the time of calculation. Performance Security will be returned to the bidder upon successful completion of all obligations under the AEC Purchase and Sale Agreement.

3.7 Contract Guarantee. In the event that PECO does not annually receive the Contract Amount under the Project Version of the AEC Purchase and Sale Agreement, PECO must be provided with replacement Tier I solar AECs of the same vintage year as the AECs PECO should have received but did not receive. Failure to provide AECs (Aggregator Version) or replacement AECs (Project Version) will require a payment equal to the solar alternative compliance payment established by the PA PUC for each AEPS reporting period, (the "ACP") or the Contract Price of the AEC, whichever is greater, multiplied by the quantity of undelivered AECs.

3.8 AEC Rollover. At Seller's discretion, upon notice to PECO no later than June 30th of each year, AECs produced by a winning bidder's generating unit, where applicable, during the prior AEPS reporting period in excess of the Contract Amount may be sold to PECO and credited against the next Contract Year's delivery obligations. Such excess AECs must be delivered no later than July 31st of such year. The AEC Rollover provision does not apply to Aggregator bidders.

ARTICLE 4
BIDDER QUALIFICATION

4.1 Bidder Application. In order to submit a bid proposal in response to this RFP, a bidder must an Application for approval by PECO using the form attached hereto as Exhibit 3 (Form of Bidder Application). All Applications shall be submitted to the email address [to be specified]. PECO will confirm receipt of Applications by email. Applications which are incomplete, do not conform to the form attached hereto, or otherwise do not satisfy all requirements of this RFP shall not be considered. Submission of a Bidder Application constitutes a bidder's agreement to and acceptance of all terms and conditions of this RFP. An Application must be received by 5:00 p.m. (Eastern Prevailing Time) by the application deadline date to be considered.

4.2 Bidder Qualifications. Time is of the essence in this solicitation, and bidders that cannot demonstrate an ability to achieve Commercial Operation commencing no later than twelve (12) months from the date that RFP results are approved by the Pennsylvania Public Utility Commission ("PA PUC") will be eliminated from further consideration. In order to qualify to submit a bid proposal, a bidder must demonstrate and document in the Application that it satisfies the following criteria (the "Bidder Qualifications"):

(a) Has secured or will secure all required rights to ensure a Commercial Operation Date within twelve months of approval of the RFP results by the PA PUC (Project bidders);

(b) Has obtained or will obtain all required local, state and federal permits to ensure a Commercial Operation Date within twelve months of approval of the RFP results by the PA PUC (Project bidders);

(c) Has secured or will secure all necessary equipment and services required to ensure construction and testing for a Commercial Operation Date within twelve months of approval of the RFP results (including a commitment letter or equivalent document from a solar module vendor showing the availability and delivery schedule for all modules for the project) (Project bidders);

(d) Has or will be certified as an "Alternative Energy System" capable of delivery of AECs equal to or greater than the Contract Amount the bidder intends to bid in response to this RFP (Project bidders);

(e) Has obtained or will obtain all authorizations necessary for the generation of electricity underlying the AECs (Project bidders);

(f) Has sufficient management and other personnel experienced in developing and operating systems similar to the proposed Alternative Energy System (Project bidders);

(g) Has satisfied or will satisfy all performance and financial security requirements as described in the AEC Purchase and Sale Agreement (All bidders);

(h) Has or will have an operations and maintenance plan with adequate resources (including funding) to maintain the system that will be generating AECs through the term of the AEC Purchase and Sale Agreement (Project bidders);

(i) For new projects, financial backing sufficient for the project to achieve a Commercial Operation Date on or before twelve months after approval of the RFP results by the PA PUC, demonstrated by a letter from the project financier(s) stating the name of the financial institution, contact information for the person preparing the letter, the structure of any proposed financing (confidential information such as proposed financing costs need not be disclosed), confirmation that the financier(s) have reviewed project pro forma statements, have reviewed this RFP and the AEC Purchase and Sale Agreement, have reviewed the bidder's anticipated offer to the Company, including project costs and pricing terms, and that based on this review, the financier(s) consider the project financeable, given project costs as currently known, at the bidder's proposed price and that the financier(s) has a strong interest in financing the project (Project bidders); and

(j) Has or will own the right to all AECs associated with their bids in their entirety and be capable of transferring undivided rights to those AECs to PECO for the duration of the AEC Purchase and Sale Agreement, without restriction (All bidders).

In order to qualify to submit a bid proposal, an Aggregator bidder must demonstrate and document in the Application that it satisfies the following alternative criteria:

(a) A business plan that supports the delivery of the Contract Amount of AECs in the Aggregator's bid;

(b) Sufficient management and other personnel experienced in the business if aggregating AECs for resale, including the purchase and sale of at least 700 Tier 1 solar AECs in Pennsylvania in the calendar year preceding PECO's RFP; and

(c) Sufficient financing for the business of aggregating and providing the Contract Amount of AECs.

4.3 Reserved.

4.4 Minimum Contract Amount. Only Applications in which the bidder intends to propose a Contract Amount equal to or in excess of 50 AECs shall be considered by PECO.

4.5 Confidentiality Agreement. All Bidder Applications shall include two copies of the Confidentiality Agreement (attached hereto as Exhibit 6) executed by the bidder. PECO will promptly execute the Agreement and return a copy to the bidder.

4.6 PECO Affiliates. Affiliates of PECO are permitted to submit Applications and to participate in this RFP to the same extent as any other entity.

4.7 Multiple Bids. Bidders will be permitted to submit up to three Bid Proposals for a single facility provided that each such Bid Proposal offers different Contract Amounts at different prices. Multiple bids must be structured in a way that, should all bids win, the facility is capable of delivering the total of Contract Amounts offered. If a bidder intends to bid more than one facility, a separate Application must be submitted for each facility. Aggregators may submit up to three bid Proposals at different prices for each proposal. Aggregators must demonstrate in their Application that, should all bids win, the Aggregator is prepared and capable of delivering the total of Contact Amounts offered. Multiple Bids only apply to the RFP stage; multiple bids do not apply to the SOTP stage of the solicitation process.

4.8 Bid Deposit. Each Application shall be accompanied by a bid deposit (a "Bid Deposit"), in the form of a certified check, or wire payment, equal to the amount corresponding to the Contract Amount of AECs the applying bidder intends to bid in response to the RFP:

Contract Amount (AECs)	Bid Deposit (US$)
50 to 1,000	$2,500
1,001 to 2,000	$20,000
2,001 to 3,000	$30,000
3,001 to 4,000	$40,000

Bid Deposits submitted by a bidder whose Application is rejected or who is not selected for execution of an AEC Purchase and Sale Agreement shall be refunded at the time of rejection or upon notification of successful bidders. No interest shall be paid on Bid Deposits. A qualified bidder may not submit a Bid Proposal for a Contract Amount in excess of the Contract Amount for which the bidder provides a Bid Deposit. PECO will also refund the Bid Deposits of bidders who are qualified but who subsequently do not submit a Bid Proposal. Bid Proposals submitted for Contract Amounts that exceed that maximum Contract Amount for the Bid Deposit received will be rejected.

4.9 Additional Information. PECO may, but is not obligated to, request additional information and materials from any bidder for evaluation of an Application. Information submitted by a bidder absent a request by PECO which is not in the nature of a correction or clarification to the Application will not be considered by PECO. If any information in an Application is no longer true, Bidder shall immediately notify PECO of the changed

information. Failure to provide such notification or respond to a request for additional information and materials may result in disqualification of the bidder and rejection of any Bid Proposal. PECO shall have no duty to inform any bidder of any deficiency in its Application.

4.10 Application Evaluation and Notification of Applicants. PECO, in its sole discretion, will evaluate each Application using a standard protocol for its completeness and satisfaction of the Bidder Qualifications. The RFP Monitor will oversee this evaluation. PECO will provide each bidder with notice of its satisfaction or failure to satisfy the Bidder Qualifications by the date for Notification of Bidder Qualification set forth in Section 2.3 hereof.

ARTICLE 5
BID PROPOSALS

5.1 Submission of Bid Proposals. Only bidders who submit an Application and receive notice of qualification as provided in Article 3 will be permitted to submit a Bid Proposal. PECO will provide Bid Proposal forms to qualified bidders substantially in the form of Exhibit 5. A bidder must submit an original and three copies of its Bid Proposal to the address specified on the Bid Proposal form provided by PECO no later than the Bid Proposal Due Date. Each Bid Proposal shall be submitted in a sealed envelope clearly marked "BID PROPOSAL" with bidder's previously assigned bid number on the outside of the sealed envelope.

5.2 Other Limitations. Bid Proposals that are incomplete, unsigned, or otherwise do not conform to the form of the Bid Proposal provided herein shall be rejected by PECO. No Bid Proposal may be conditioned on any other Bid Proposal. Any bid that is contingent in any way shall be rejected as non-conforming. PECO may reject any Bid Proposal which it determines, in its sole discretion, is submitted by a bidder in coordination or in concert with any other bidder.

ARTICLE 6
EVALUATION OF BID PROPOSALS

6.1 Preparation of Market Benchmarking Analysis. The RFP Monitor will prepare a solar AEC market benchmarking analysis and provide it to the Office of Consumer Advocate ("OCA") and the Office of Small Business Advocate ("OSBA") (if they so desire) on a confidential basis five (5) days ahead of Bid Proposal Due Date. OCA and OSBA will then have three (3) days to submit, on a confidential basis, any comments on the benchmarking analysis to the RFP Monitor and to PECO.

6.2 Evaluation of Bid Proposals. For the RFP stage, all Bid Proposals will be opened by the RFP Monitor, who will rank proposals by price and Contract Amount. A Bid Proposal offering a larger Contract Amount at the same price as another Bid Proposal will be prioritized over the Bid Proposal offering the lower Contract Amount, provided that the RFP Monitor may assign a higher priority to a Bid Proposal with a lower Contract Amount where the Bid Proposal offering the larger Contract Amount will cause PECO to

exceed the maximum number of AECs sought in a procurement (the "RFP Maximum"). Where acceptance of a Bid Proposal will cause PECO to exceed the RFP Maximum but rejection would require PECO to contract with a bidder offering AECs at a higher price in order to obtain the RFP Maximum, PECO shall have the right to negotiate a lower Contract Amount with the bidder offering the lower price. In the SOTP stage, Bid Proposals will be ranked by the Application Receipt Date and Contract Amount until the RFP Maximum quantity is met or the 90-day SOTP Window ends, whichever comes first. Any Applications received on or after midnight will be deemed to have been received on that date; PECO will not differentiate Application receipt times within a day. A Bid Proposal offering a lower Contract Amount at the same Application Receipt Date as another Bid Proposal will be prioritized over the Bid Proposal offering the larger Contract Amount. Where acceptance of a Bid Proposal will cause PECO to exceed the RFP Maximum but rejection would require PECO to contract with a bidder offering AECs at a later Application Receipt Date in order to obtain the RFP Maximum, PECO shall have the right to negotiate a lower Contract Amount.

6.3 Selection of Successful Bidders and PA PUC Approval. Upon completion of the evaluation of Bid Proposals, the RFP Monitor shall prepare a report of the RFP results in consultation with PECO, summarizing the bidder qualification process and the Bid Proposals and identifying the successful and unsuccessful bidders, along with successful and unsuccessful Bid Proposals. The report in the RFP stage shall include the market benchmarking analysis prepared under Section 6.1. The RFP Monitor will append any comments on the analysis submitted by OCA and/or OSBA to its report to the Commission, but shall retain the discretion to take the comments of OCA and/or OSBA into account or not in its own report, as it believes appropriate. The report shall then be submitted to the PA PUC for approval. A report will be submitted to the PA PUC for approvals after the RFP stage and after the SOTP stage.

6.4 PA PUC Approval. The PA PUC will have ten (10) calendar days to review the report of the RFP Monitor and approve the report and bid prices submitted by successful bidders as consistent with the PUC Order. Bids from at least three bidders, who are not affiliated with each other, must be received in response to the RFP as a condition for PA PUC approval of any successful bids. If the results are approved, PECO shall notify all bidders of the PA PUC's decision and the results of the RFP. If the results are not approved, PECO will not sign any AEC Purchase and Sale Agreement with winning bidders.

6.5 Execution of AEC Purchase and Sale Agreement. Upon approval of the results by the PA PUC and subject to all provisions of this RFP (including Section 7.8), PECO shall prepare two copies of an AEC Purchase and Sale Agreement with information from the successful bidder's Application and Bid Proposal inserted and transmit those copies to the applicable bidder within five (5) business days of notification by PECO. Bidder shall execute and return the AEC Purchase and Sale Agreement to PECO with all Development Security or Performance Security as required under the AEC Purchase and Sale Agreement within ten (10) business days.

6.6 Forfeiture of Bid Deposit and Disqualification; Alternative Selection. Failure of a successful bidder to execute the AEC Purchase and Sale Agreement and provide Development Security or Performance Security to PECO as provided in Section 6.5 may result in the disqualification of such bidder from this RFP and forfeit of the entire Bid Deposit of that bidder.

6.7 Consideration of Additional Bidders. PECO reserves the right to enter into discussions with higher cost bidders if agreements with lower cost bidders are not executed.

6.8 Release of Winning Bid Price Information. PECO will release the average weighted price of the winning bids in the RFP Stage no later than fourteen (14) days after all agreements are executed. The average weighted price will be released regardless of the number of winning bidders, but the number of winning bidders will not be released. This average weighted price of winning bids from the RFP stage will determine the price for the SOTP stage.

ARTICLE 7
GENERAL CONDITIONS

7.1 Address for submissions. All submissions to PECO, unless otherwise communicated at the Bidder Conference and subsequently posted to the website, for this RFP shall be delivered via registered mail, certified mail, overnight courier, or hand delivery to the following address:

PECO AEPS RFP
c/o [Name],
PECO Energy Company
S18-2
2301 Market Street
Philadelphia, PA 19103

Bidder is solely responsible for the timely delivery of any submission for this RFP. Applications and other materials received after the applicable date specified in this RFP shall be accepted only in PECO's sole discretion; however, any Bid Proposal submitted after the date and time specified will be returned unopened and without consideration. Electronic emails of materials other than Bid Proposals (which may not be sent electronically) shall be sent to: [to be supplied]@peco-energy.com.

Address for Bid Proposals. DO NOT SEND BID PROPOSALS TO THE PECO Market Street address.

BID PROPOSAL shall be submitted to the RFP Monitor at the following address:

[address to be specified]

7.2 No Unauthorized Modifications. No interpretation or change to this RFP shall be valid unless it is signed by a duly authorized representative designated by an Officer of PECO.

7.3 Ownership of RFP Materials; Confidentiality. All materials submitted to PECO pursuant to this RFP shall be the property of PECO and shall be treated as confidential in accordance with the terms of the Confidentiality Agreement.

7.4 Presentation and Formatting. All information submitted by a bidder must be in the English language.

7.5 Costs. PECO shall have no responsibility whatsoever with respect to the costs of any bidder in considering or responding to this RFP, including but not limited to (i) any costs of preparing any materials submitted to PECO; (ii) any costs associated with any studies, permits, or other agreements contemplated by this RFP; (iii) any costs associated with any Alternative Energy System or a Host; (iv) any costs associated with financing, employees or consultants, or real property.

7.6 Publicity. Bidders are not permitted to announce or release any information regarding this RFP or PECO's evaluation process without PECO's prior written approval, which PECO may withhold approval in its sole discretion. Each bidder understands and agrees that PECO does not participate in, nor does it allow, bidders to utilize media releases of any kind to publicize bidder's business relationship with PECO. Each bidder shall not use any trade name, trademark, service mark or any other information which identifies PECO in such bidder's sales, marketing and publicity activities, including interviews with representatives of any written publication, or television or radio station or network, without PECO's express prior written consent. Successful bidders agree to cooperate with PECO in preparation of any press release announcing the results of this RFP.

7.7 Disclaimer. PECO makes no representations or warranties regarding the accuracy or completeness of the information contained in this RFP and its exhibits or any statements made by representatives of PECO during the RFP process. Each bidder is responsible for making its own evaluation of information and data contained in this RFP and in preparing and submitting responses to this RFP. The issuance of this RFP and the receipt of information in response to this RFP shall not, in any way, cause PECO to incur any liability (whether contractual, financial or otherwise) to any bidder participating in the RFP process, and by submitting an Application, bidder releases PECO from any and all claims, demands, actions, losses, liabilities, and expenses (including reasonable legal fees and expenses) relating to this RFP.

7.8 Not an Offer. This RFP is issued to elicit responses to PECO's inquiry and is not an offer. The issuance of the RFP and the submission of bidder's information do not create any obligation upon PECO to buy goods or services from a bidder, and PECO reserves the right to accept or reject any or all proposals received. PECO also reserves the right to amend, suspend, or terminate the RFP process at any time, without reason and without liability, and makes no commitments, implied or otherwise, that this process will result in a business transaction with one or more bidders. No contract or other binding obligation on PECO will be implied unless and until an agreement has been executed on terms and

conditions acceptable to PECO. PECO also reserves the right to not execute agreements with any or all bidders should the Company determine, in its sole discretion, that would not guarantee delivery, would impose unreasonably high costs on the Company's customers and/or would violate existing regulatory standards.

7.9 Non-conforming Applications and Bid Proposals. PECO reserves the right to reject any Application or Bid Proposal at any time on the grounds that it does not conform to the terms and conditions of this RFP or the bidder has not complied with the provisions of this RFP.

7.10 Interpretation. Notwithstanding any provision of this Agreement, in the event an AEC Purchase and Sale Agreement is executed between a bidder and PECO, that agreement shall control over any provision of this RFP.

SOLAR ALTERNATIVE ENERGY CREDITS PURCHASE AND SALE AGREEMENT

This Solar Alternative Energy Credits Purchase and Sale Agreement (the "Agreement") is entered into as of _____, 20__, by and between_____, a _____ corporation with principal offices located at _____ ("Seller"), and PECO Energy Company, a Pennsylvania corporation with principal offices located at 2301 Market Street, Philadelphia, Pennsylvania 19101 ("PECO" or the "Company"). PECO and the Seller are herein referred to collectively as the "Parties", and individually as a "Party".

RECITALS

WHEREAS, PECO is an electric distribution company under the Alternative Energy Portfolio Standards Act, 73 P.S. § l648.1 ("AEPS" or "the Act"); and

WHEREAS, Seller owns the rights to alternative energy credits associated with the electricity generated by [Facility Name], and desires to sell such credits to PECO; and

WHEREAS, PECO desires to purchase such credits from Seller to satisfy PECO's obligations under the Act, subject to the requirements and conditions set forth herein;

NOW THEREFORE, in consideration of the mutual promises contained herein and other good and valuable consideration, PECO and Seller agree as follows:

ARTICLE 1
DEFINITIONS

1.1 Definitions. Any capitalized or abbreviated term not elsewhere defined in this Agreement shall have the definition set forth in this Article 1. As used in this Agreement, the following terms shall have the respective meanings set forth below.

"AEC" shall be an alternative energy credit as defined in the Act and of the type specified in Exhibit 3.

"AEC Procurement Order" shall mean the order of the PaPUC entered _____ in Docket No. _____ approving the procurement of AECs by PECO.

"AEPS" shall have the meaning set forth in the Recitals.

"AEPS Reporting Year" shall mean the period from June 1 through May 31 of the following year, or such period as the PaPUC may designate for AEPS compliance purposes.

"Affiliate" means any Person that directly or indirectly controls, is controlled by, or is under common control with the Person in question.

"Agreement" means this Agreement.

"Alternative Compliance Payment" shall be equal to the amount per AEC determined by the PaPUC in accordance with the Act during the latest AEPS Reporting Period.

"Alternate Representative" has the meaning provided in Section 5.5.

"Authorized Representative" has the meaning provided in Section 5.5.

"Bankruptcy Code" means those laws of the United States of America related to bankruptcy, codified and enacted as Title 11 of the United States Code, entitled "Bankruptcy" and found at 11 U.S.C. § 101 et seq.

"Business Day" means a day on which Federal Reserve member banks in Philadelphia, PA are open for business, beginning at 0800 EPT and ending at 1700 EPT.

"Certificate" means a certificate corresponding to an AEC, as defined under the Registry Rules.

"Claim" shall mean any claim, demand, audit, cause of action, litigation, lawsuit, grievance, arbitration, mediation, proceeding (including, without limitation, any bankruptcy, reorganization, dissolution, insolvency, liquidation, extension of bankruptcy or similar proceeding).

"Commercial Operation" shall occur for a Facility when (i) the Interconnection Agreement (if applicable) has been executed and delivered, (ii) the Facility has been Commissioned and is capable of generating AECs for Delivery to PECO, and (iii) all related facilities and rights have been completed or obtained, including such facilities and rights contemplated by the Interconnection Agreement (if applicable), to allow regular operation of the Facility and permit Delivery of AECs to PECO.

"Commercial Operation Date" means (i) the date designated by Seller as the Commercial Operation Date Milestone, subject to adjustment pursuant to Section 6.1, or (ii) the Effective Date for a Facility which has achieved Commercial Operation on or prior to the Effective Date.

"Commercial Operation Date Milestone" means the Commercial Operation Date Milestone specified on the Significant Milestone Schedule.

"Commercially Reasonable Efforts" means, with respect to any action required to be made, attempted or taken by a Party under this Agreement, the level of effort in light of the facts known to such Party at the time a decision is made that (i) can reasonably be expected to accomplish the desired action at a reasonable cost, and (ii) is consistent with Prudent Utility Practices.

"Commissioned," as to any equipment, means that such equipment has been functionally tested to ensure that it meets its manufacture and design specifications and is suitable for continuous operation, and has been placed in service.

"Construction Service Agreement" means an agreement relating to the construction and installation of the Interconnection Facilities.

"Contract Amount" means the Contract Amount specified on Exhibit 3, including during the first Contract Year, the Initial Period Contract Amount.

"Contract-Related Capacity" means the design capacity of the Facility to be used to generate the Contract Amount, as set forth on Exhibit 3.

"Contract Price" means the price identified as "Contract Price" on Exhibit 3.

"Contract Year" means a twelve month period during the Term commencing on June 1 and ending on May 31 of the following year, provided that the first Contract Year under this Agreement may be extended for a period of up to eleven months from the Commercial Operation Date to the following June 1 (corresponding to the commencement of the next AEPS Reporting Year).

"Defaulting Party" has the meaning set forth in Section 9.1.

"Deliver" or "Delivery" means the transfer of AECs from Seller to PECO using the Registry in accordance with the Registry Rules.

"Development Security" shall have the meaning set forth in Section 6.1.

"Early Termination Date" means the date upon which an Early Termination becomes effective as specified in Section 2.3.

"Effective Date" means the date upon which this Agreement is executed by the Parties.

"Energy" means three-phase, 60-cycle alternating current electric energy, expressed in units of kilowatt-hours or megawatt-hours.

"Energy Delivery Point" has the meaning set forth on Exhibit 1.

"EPT" means Eastern Prevailing Time (the time then prevailing in the Eastern Time Zone of the United States).

"Estimated Annual Total Facility AEC Production" means the annual amount of AECs that the Facility is expected to produce during a Contract Year, as set forth on Exhibit 3.

"Event of Default" has the meaning set forth in Section 9.1.

"Facility" means the generation facility located at the Premises as described in Exhibit 1.

"Facility Benefits" means production tax credits, investment tax credits, or other direct, third-party federal, state or local subsidies, incentives, grants, credits, rebates or funding for the purchase, ownership, construction or operation of the Facility, or the generation of electricity or production of AECs by the Facility.

"FERC" means the Federal Energy Regulatory Commission.

"Force Majeure" means an event not anticipated as of the Effective Date, which is not within the reasonable control of the Party affected thereby or attributable to such Party's fault or negligence, and which by the exercise of due diligence the affected Party is unable to overcome or obtain or cause to be obtained a commercially reasonable substitute therefor. Force Majeure

includes, but is not restricted to: fire; explosion; civil disturbance; sabotage; action or restraint by court order or public or government authority, so long as the affected Party has not applied for or assisted in the application for, and has opposed where and to the extent reasonable, such government action. Force Majeure shall not include the following: (i) the Seller's ability to sell Energy or AECs from the Facility at a more advantageous price, (ii) insufficient sunlight, wind, or other natural resource; (iii) Seller's failure to obtain any Permit; (iv) a change in a Requirement of Law or Registry Rules; and (v) Seller's failure to finance and/or construct the Facility. Increased cost of performance by Seller (including the reduction or elimination of Facility Benefits) shall not constitute an event of Force Majeure.

"Forward Contract" has the meaning ascribed to such term in Section 101(25) of the Bankruptcy Code.

"Forward Contract Merchant" has the meaning ascribed to such term in Section 101(26) of the Bankruptcy Code.

"Forward Pricing" meaning the cost per AEC for the next 12, 24 and 36 month periods determined by the average of 3 separate broker quotes.

"Generating Unit" means an electric generator of the Facility that generates the Energy associated with the AECs to be Delivered to PECO.

"Governmental Authority" means any federal, state or local government, court of competent jurisdiction, administrative agency or commission or other governmental or regulatory authority or instrumentality or authorized arbitral body.

"Grid" means the interconnected electric transmission system to which the Facility or its Host, as applicable, is connected, including through direct interconnection with intermediate distribution facilities of PECO, or other electric utilities located in PJM's service territory, or Pennsylvania.

"Host" means the retail electric utility customer specified on Exhibit 1 to which the Facility is interconnected in accordance with the applicable net metering requirements in the service territory of the electric utility in which the Facility is located.

"Indemnified Party" shall have the meaning set forth in Section 11.1.

"Initial Period Contract Amount" shall have the meaning set forth in Exhibit 3. Such amount shall not exceed the Contract Amount.

"Interconnection Agreement" means a generation interconnection agreement with either or both the RTO and the entity (if different from the RTO) that owns the Grid to which the Facility (or its Host, if applicable) is interconnected that contains the rights and obligations of those Persons with respect to the interconnection of the Facility, and prescribing the methods and procedures to be used for the safe operation and maintenance of the Interconnection Facilities.

"Interconnection Facilities" means all the facilities installed for the purpose of interconnecting the Facility in accordance with the Interconnection Agreement or net metering

requirements, if applicable, including all transformers and associated equipment, relay and switching equipment, and safety equipment.

"Interest Rate" means the average Federal Funds Effective Rate for the period of time the funds are on deposit. The Federal Funds Effective Rate is published daily on the Federal Reserve website (http://www.federalreserve.gov/releases/h15/update/).

"Issuer Minimum Requirements" shall have the meaning set forth in Section 6.5.2.

"Letter of Credit" has the meaning set forth in Section 6.5. The Letter of Credit must be in the form of Exhibit 5, or another substantially similar form approved by the Company.

"Lien" shall mean any mortgage, deed of trust, lien, pledge, charge, claim, security interest, easement, covenant, right of way, restriction, equity, hypothecation, usufruct or encumbrance of any nature whatsoever, including any conditional sale agreement.

"Material Debt" shall have the meaning set forth in Section 9.1.1.

"Moody's" means Moody's Investors Service, Inc.

"Month" means a calendar month (or any partial calendar month at the outset of the Term in the event that the Term commences during a calendar month).

"MW" means megawatt.

"Net Electricity" means all of the Energy generated at the Facility (other than that needed for a Host or operation of the Facility) that is delivered to the Energy Delivery Point.

"Nominal Contract Value" means the dollar amount resulting by multiplying the Contract Amount by the Contract Price by ten (10).

"Non-Defaulting Party" means (i) if the Company is the Defaulting Party, the Seller; or (ii) if the Seller is the Defaulting Party, the Company.

"PaPUC" means the Pennsylvania Public Utility Commission.

"PECO" means PECO Energy Company.

"Permit" shall mean any permit, license, registration, certificates of occupancy, approvals or other authorizations of any Governmental Authority.

"Person" shall mean any individual, entity, corporation, general or limited partnership, limited liability company, joint venture, estate, trust, association or other entity or Governmental Authority.

"PJM" means the regional transmission organization operated by PJM Interconnection, Inc.

"Premises" shall mean the location of the Facilities as set forth in Exhibit 1.

"Prudent Utility Practice" means any of the practices, methods and acts required or approved by the RTO or engaged in or approved by a significant portion of the electric utility industry in the geographic region covered by RFC during the relevant time period, or any of the practices, methods and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, could have been expected to accomplish the desired result at a reasonable cost consistent with good business practices, reliability, safety and expedition. "Prudent Utility Practice" is not intended to be limited to the optimum practice, method or act to the exclusion of all others, but rather to include acceptable practices, methods or acts generally accepted in the geographic region covered by the RTO or RFC.

"Registry" shall mean the PJM GATS system or any successor AEPS alternative energy credit registry designated by the PaPUC.

"Registry Rules" shall mean the operating rules of the Registry.

"Replacement AEC" means an AEC that the Seller provides to PECO as provided for in Section 3.4 due to the failure of the Seller to meet the minimum output requirements in this Agreement.

"Replacement AEC Payment" shall have the meaning set forth in Section 3.4.

"Requirement of Law" means any federal, state and local law, statute, regulation, rule, code, ordinance, resolution, order, writ, judgment or decree enacted, adopted, issued or promulgated by any Governmental Authority or RTO (including those pertaining to electrical, building, zoning, environmental and occupational safety and health requirements).

"RFC" means the ReliabilityFirst Corporation or any successor thereto. If RFC ceases to exist, the successor to RFC shall be any regional reliability organization to which PECO belongs. Any regional entity to which an FERC delegates authority to enforce reliability standards upon PECO shall be deemed to be successor to RFC.

"RTO" means the entity that controls and operates the Grid.

"RTO Requirements" means all the RTO agreements, all tariffs, operational manuals, rules and regulations established by the RTO, and the normal business practices, as they may be amended and modified from time to time, of the RTO.

"S&P" means Standard and Poor's Rating Services.

"Safe Harbor Provisions of the Bankruptcy Code" means Sections 101(25), 101(26), 101(38A), 101(38B), 362(b)(6), 362 (b)(27), 546(e), 546(j), 556, 561, 562 and 767 of the Bankruptcy Code together with other sections pertaining or referring to any of them and any future amendments to the Bankruptcy Code which provide protections, rights or remedies to non-bankrupt Forward Contract Merchants or Master Netting Participants against bankrupt counterparties under Forward Contracts or Master Netting Agreements.

"Security Instrument" has the meaning set forth in Section 6.5.

"Semi-annual" means the six month calendar period commencing each July and January of the Contract Year (or any partial six month calendar period in the event the Term commences during such period).

"Semi-Annual AECs" shall have the meaning set forth in Section 3.2.

"Significant Milestone" shall mean the events identified as significant milestones on Exhibit 2.

"Significant Milestone Schedule" shall mean the dates associated with the Significant Milestones set forth on Exhibit 2.

"Site Control" shall have the meaning set forth in Section 5.3.

"Taxes" has the meaning set forth in Section 7.7.

"Term" has the meaning set forth in Section 2.1.

"Termination Date" has the meaning set forth in Section 2.1.

1.2 Interpretation. In this Agreement, unless a different intention clearly appears: (a) the singular includes the plural and vice versa; (b) the reference to any Party includes such Party's legal and/or permitted successors and assignees, and reference to a Party in a particular capacity excludes such Party in any other capacity or individually; (c) the reference to any gender includes the other gender; (d) reference to any document other than this Agreement refers to such documents as may be amended, modified, replaced or superseded from time to time, or any successor document(s) thereto; (e) reference to any Article, Section or Exhibit means such Article, Section or Exhibit of this Agreement unless otherwise indicated; (f) "hereunder", "hereof", "hereto", and words of similar import shall be deemed references to this Agreement as a whole and not to any particular Section or other provision; (g) "including" (and with correlative meaning "include"), when following any general statement or term, is not to be construed as limiting the general statement or term to the specific items or matters set forth or to similar items or matters, but rather as permitting the general statement or term to refer to all other items or matters that could reasonably fall within its broadest possible scope; (h) relative to the determination of any period of time, "from" means "from and including", "to" means "to but excluding" and "through" means "through and including"; (i) reference to any law or regulation refers to such law or regulation as may be amended, modified, replaced or superseded from time to time, or any successor law(s) or regulation(s) thereto; and (j) reference to "termination of this Agreement," "this Agreement is terminated," "this Agreement may be terminated" and similar phrases used in this Agreement refer to the termination of deliveries under this Agreement and related on-going rights and obligations, and does not imply or mean a termination of rights, remedies, obligations and provisions which by their nature or as provided elsewhere in the Agreement survive termination.

ARTICLE 2
TERM AND TERMINATION

2.1 Effective Date and Term. This Agreement shall be effective on the Effective Date. If the Facility has achieved Commercial Operation on or prior to the Effective Date, the Term shall commence on the Effective Date; otherwise, the Term shall commence on the Commercial Operation Date. Unless sooner terminated as provided herein, this Agreement shall end on May 31, 20__ (the "Termination Date").

2.2 Early Termination. This Agreement may be terminated prior to the Termination Date pursuant to the following:

2.2.1 At any time by the mutual written consent of the Parties;

2.2.2 By the Non-Defaulting Party if an Event of Default occurs as provided for in Article 9, with such notice as required therein;

2.2.3 By Either Party:

(a) In the event that the Seller shall have failed to enter into an Interconnection Agreement, if applicable, and, if necessary, a Construction Service Agreement within 180 days after the Effective Date, but only if the Party seeking to terminate this Agreement provides notice of its intent to terminate no later than 150 days after the Effective Date;

(b) In the case of a Force Majeure event, the non-terminating Party fails to substantially perform its obligations under this Agreement on account of such Force Majeure event for a period exceeding 180 days after the occurrence of such Force Majeure event, and after thirty (30) days written notice; provided that such 180-day period may be extended, by the written agreement of both Parties, for an additional 180 days if (i) such Force Majeure event is not remedied within such 180-day period with reasonable diligence, (ii) such Force Majeure event may reasonably be expected to be remedied within such 180-day period, and (iii) the Party not performing its obligations under this Agreement on account of such Force Majeure event promptly undertakes to remedy such Force Majeure event and continues with reasonable diligence to effect such remedy within the 180-day period.

2.3 Effectiveness of Termination. Termination under this Article 2 shall be effective immediately after written notice is given, subject to any applicable notice requirements or extensions agreed to by the Parties. If this Agreement is terminated pursuant to any of the provisions above, the effective date of such termination shall be deemed the "Early Termination Date."

2.4 Survival.

2.4.1 Termination of this Agreement for any reason shall not relieve PECO or Seller of any obligation accrued or accruing prior to such termination, and the following

provisions of this Agreement shall survive any termination: Article 1, Sections 2.4, 2.5, 3.2, 3.3, 3.4, 3.5, 3.7, 6.4, 6.6, 7.4, 7.6, 7.7, 11.2, 11.3, 12.1, and Articles 9, 13 and 14.

2.4.2 In addition, if this Agreement is terminated pursuant to:

(a) Section 2.2.2, the Non-Defaulting Party may pursue the remedies provided in Article 9;

(b) Section 2.2.3, the Parties may not pursue the remedies provided for in Article 9 and are entitled to receive only amounts due and owing as of the Early Termination Date and under Section 6.1, if any.

2.5 Preservation of Security. In the event that Seller has provided a Letter of Credit under the terms of this Agreement, Seller will preserve the Letter of Credit in place until all payments due under this Agreement for which the Letter of Credit has been provided have been made in full.

ARTICLE 3
PURCHASE AND SALE OF AECS

3.1 Purchase and Sale of AECs. Subject to the terms and upon the conditions and provisions of this Agreement, Seller shall sell, and PECO shall purchase, all rights, title and interest in the AECs generated by the Facility up to the Contract Amount for each Contract Year.

3.2 Delivery of AECs by Seller. For each Semi-Annual period of the Contract Year during the Term, Seller shall Deliver Certificates to PECO for all AECs created by the Facility in such Semi-Annual period (the "Semi-Annual AECs") until PECO has received the Contract Amount for the current Contract Year, provided that where the Contract Amount is less than the Estimated Annual Total Facility AEC Production, Seller may Deliver a proportion of the Semi-Annual AECs equal to the product of the number of Semi-Annual AECs multiplied by the Contract Amount and divided by the Estimated Annual Total Facility AEC Production. The Delivery of the Semi-Annual AECs shall be completed no later than the fortieth (40th) day following the end of such Semi-Annual period, or such other date as PECO and the Seller may agree to in writing. Seller and PECO are each responsible for their own costs associated with establishing and administering any accounts with the Registry sufficient to accomplish the Delivery of all AECs. Seller agrees to execute all other documents or instruments, at its expense, necessary to effectuate the Delivery of the AECs to PECO or as may be reasonably requested by PECO. All AECs transferred to PECO shall be free and clear of all Liens. Nothing in this Section shall reduce Seller's obligations under Section 3.4.

3.3 Ownership of and Title to AECs. PECO shall have sole, exclusive and perpetual ownership of all AECs Delivered to PECO by Seller under this Agreement, including all rights to sell, assign, transfer, apply, or retire any AEC transferred to PECO by Seller, provided, however, that Delivery of an AEC shall not transfer eligibility or other rights to Facility Benefits. Title to AECs shall not transfer to PECO prior to Delivery by Seller. Any benefits derived from the AECs after Delivery to PECO shall inure solely to the benefit of PECO and not to Seller.

3.4 Contract Amount Guarantee. Seller shall transfer a total amount of AECs from the Facility equal to the Contract Amount for each Contract Year. In the event that Seller is unable to transfer an amount of AECs equal to the Contract Amount for each Contract Year for any reason other than a Force Majeure Event, Seller shall, within forty-five (45) days of the end of such Contract Year, transfer an amount of AECs to PECO through the Registry which is equal to the amount of AECs Seller failed to provide from the Facility for such Contract Year (each a "Replacement AEC"). Any Replacement AEC transferred to PECO by Seller pursuant to the preceding sentence shall be available to PECO for purposes of compliance under the Act for the two AEPS Reporting Years following the last Month of the Contract Year. In the event that Seller fails to provide Replacement AECs as provided under this Section, Seller shall pay PECO within forty-five (45) days of the end of the Contract Year an amount equal to the Alternative Compliance Payment (a "Replacement AEC Payment") for each AEC which Seller fails to transfer to PECO for such Contract Year as liquidated damages. If the PaPUC subsequently determines that the Alternative Compliance Payment for the AEPS Reporting Year in which Seller failed to Deliver the Contract Amount is more than the amount Seller paid for each AEC not Delivered, Seller shall pay PECO the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. If Seller has paid PECO an amount in excess of the actual Alternative Compliance Payment for each AEC not Delivered, PECO shall pay Seller the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. All such additional payments shall be paid by PECO or Seller, as applicable, within thirty (30) days of the PaPUC's determination of the applicable Alternative Compliance Payment for an AEPS Reporting Year.

3.5 Non-Compliant AECs. In the event that any AEC transferred to PECO is subsequently determined to be unable to be used by PECO for AEPS compliance due to Seller's failure to comply with any obligation under this Agreement, Seller shall transfer an equivalent AEC to PECO. All AECs transferred to PECO under this Section shall be available for use by PECO for purposes of compliance under the Act as if the AEC had been created at the time the non-compliant AEC was created. Any additional costs or penalties incurred by PECO resulting from the transfer of non-compliant AECs by Seller shall be paid for by Seller.

3.6 Excess AECs. In the event that Seller shall generate from the Facility and possess AECs in excess of the Contract Amount during any Contract Year, Seller shall have the right to Deliver such excess AECs to PECO during the first Semi-Annual period of the subsequent Contract Year, to be applied towards Seller's obligations to Deliver AECs in that subsequent year, provided that Seller shall provide notice to PECO of its intent to apply such excess AECs no later than June 30 of the subsequent Contract Year in which the excess AECs are created. Such excess AECs must be delivered no later than July 31 of such year. Except as provided in this Section, PECO shall have no obligation to purchase any AECs in excess of the Contract Amount generated in any Contract Year. Any other AECs created by the Facility in excess of the Contract Amount shall not be Delivered or otherwise transferred to PECO except to the extent Seller elects to Deliver such AECs for purposes of satisfying its obligations under Section 3.4.

3.7 No Sale of Electricity and Capacity. Seller shall retain all rights and title to all electricity generated by the Facility and all capacity associated with the Facility, and shall be responsible for any and all costs and charges associated with such electricity and capacity,

including all costs and charges applicable to or required for the delivery of Energy to or from a Host and to or from the Energy Delivery Point. As between PECO and Seller, Seller shall be deemed to be in exclusive control of, and responsible for, any damage or injury caused by, the Facility or electricity generated by the Facility.

3.8 Financing. PECO shall have no responsibility whatsoever for any financing or costs associated with the Facility or a Host, including any expenditures necessary or desirable to construct, operate, or remove the Facility or to deliver AECs to PECO under this Agreement.

ARTICLE 4
FACILITY DEVELOPMENT *[ARTICLE MAY BE MARKED RESERVED FOR FACILITIES THAT HAVE ACHIEVED COMMERCIAL OPERATION]*

4.1 Development of Facility. Subject to the terms and conditions of this Agreement, Seller represents, warrants and guarantees:

4.1.1 Except as expressly permitted otherwise by this Agreement, the Facility shall be developed and achieve Commercial Operation in accordance with this Agreement and the Significant Milestone Schedule set forth in Exhibit 2.

4.1.2 The Facility shall be designed in compliance with all applicable Permits, each applicable Requirement of Law and Prudent Utility Practice, and for qualification as an Alternative Energy System. The Facility will be capable of generating Energy to create AECs in a safe and reliable manner, consistent with the requirements of each applicable Requirement of Law, the Interconnection Agreement (if applicable), and Prudent Utility Practice.

4.1.3 All Permits necessary for the construction and operation of the Facility, including land use permits, environmental review and authorizations, grading and building permits, and licenses necessary to operate the Facility shall be obtained and maintained, and Seller will provide PECO with evidence of all essential Permits (including copies of any Permit upon PECO's request).

4.1.4 All construction and testing of the Facility shall be in compliance with all applicable Permits, each applicable Requirement of Law, the Interconnection Agreement (if applicable) and Prudent Utility Practice.

4.1.5 Seller shall give prompt written notice to PECO of any material modifications to the Facility after the Effective Date and a brief description of the reasons for the modifications and confirmation that such modifications shall not affect the general location of the Facility or the Contract Amount, except that Seller may modify or revise the Contract Amount and Contract-Related Capacity in accordance with Section 4.5.

4.2 Seller Reports. Seller shall provide monthly reports to PECO on the Facility prior to the Commercial Operation Date in the form attached as Exhibit 4.

4.3 Failure to Achieve Significant Milestones or Contract Amount. Seller shall immediately notify PECO of (i) any inability of Seller to achieve a Significant Milestone in accordance with the Significant Milestone Schedule for any reason, or (ii) any determination by

Seller that the Facility shall be incapable of providing the Contract Amount upon Commercial Operation. Seller acknowledges that failure to achieve a Significant Milestone in accordance with the Significant Milestone Schedule or inability to provide the Contract Amount upon Commercial Operation, unless otherwise excused under the provisions of this Agreement, shall constitute a material breach of this Agreement and permit PECO to terminate this Agreement and retain the Development Security as provided in Section 6.1.

4.4 Extension of Significant Milestones. Subject to the notice requirements of Section 4.3, in the event that Seller does not achieve or determines that it will not achieve a Significant Milestone in accordance with the Significant Milestone Schedule, Seller shall provide a revised Significant Milestone Schedule to PECO. PECO shall review this revised Significant Milestone Schedule and, in PECO's sole discretion and subject to Section 6.1, PECO may approve an extension of one or more Significant Milestones. Any such approval by PECO shall be in writing.

4.5 Downsizing of Facility. In the event that Seller determines that the Facility shall be incapable of providing the Contract Amount upon Commercial Operation, Seller may request that PECO agree to a downsizing of the Facility under which the Facility would provide a lesser amount of AECs. PECO shall review any downsizing request and, in PECO's sole discretion and subject to Section 6.1, may approve a downsizing of the Facility and a revised Contract Amount and Contract-Related Capacity. Any such approval by PECO shall be in writing.

4.6 Other Reasons for Delay. Seller shall be excused from a failure to meet the Commercial Operation Date where Seller can establish that such a failure is attributable solely to any delay or failure by PECO in taking any action or obtaining any consents or approvals from Governmental Authorities or third parties required for PECO to perform its obligations under this Agreement, the Interconnection Agreement or any Construction Service Agreement (if applicable), unless such delay or failure to act is consistent with Prudent Utility Practice or results from delays or failure to take timely action by Seller or other third party, whether or not caused by any conditions or events of Force Majeure, and in the event of such a failure, the Commercial Operation Date shall be extended for a period of time equal to the duration of the resulting delay.

ARTICLE 5
SELLER OBLIGATIONS

5.1 Generation of AECs. Subject to the terms and conditions of this Agreement, Seller shall ensure operation of the Facility to generate Energy sufficient to deliver the Contract Amount of AECs during each Contract Year of the Term.

5.2 Facility Obligations. During the Term, at its sole cost and expense, Seller represents, warrants and guarantees that:

5.2.1 The Facility (including all Generating Units) shall be operated, controlled and maintained in compliance with all Requirements of Laws and Prudent Utility Practice;

5.2.2 All of the Interconnection Facilities located at the Facility shall be operated, controlled and maintained to the extent required without expense to PECO (except as

may be otherwise provided in an applicable Interconnection Agreement or applicable net metering requirements), including any system upgrades beyond the Energy Delivery Point necessary to interconnect with the Grid for delivery of Net Electricity;

5.2.3 The Facility shall obtain, maintain and comply with all Permits and agreements (including the Interconnection Agreement, if applicable, and all environmental permits) that are required or desirable in order for the Facility and Seller to generate, schedule, deliver, meter and transmit electricity and generate and Deliver AECs in compliance with this Agreement, except as otherwise permitted by Requirements of Law or by written agreement with PECO;

5.2.4 Seller shall take all actions necessary for the scheduling and delivery of any Energy to a Host and/or any Net Electricity to PJM, as applicable;

5.2.5 The Facility shall be maintained as an Alternative Energy System under the Act;

5.2.6 Seller shall possess sole and exclusive title and legal rights to an AEC prior to the transfer of such AEC to PECO under this Agreement;

5.2.7 Seller shall transfer only valid AECs to PECO which have not been previously retired, claimed or used to satisfy any renewable energy requirements, obligations or voluntary undertaking by any entity in any jurisdiction;

5.2.8 Seller and the Facility shall comply with all RTO requirements that are necessary for Seller to comply with its obligations under this Agreement, and Seller shall be responsible for all costs or charges that are required by the RTO to enable the Grid to accept any Net Electricity from the Facility; and

5.2.9 Seller shall comply with all Registry requirements that are necessary for Seller to perform its obligations under this Agreement.

5.3 Site Control. At all times after the Effective Date, Seller shall ensure site control ("Site Control") of the Premises, which means that Seller shall have all rights to the Premises necessary to perform its obligations under the Agreement. Seller shall provide PECO with prompt notice of any change in the status of Seller's Site Control.

5.4 Insurance.

5.4.1 Seller shall maintain at its sole expense, commencing with the Effective Date and continuing through the Term, insurance for the Facility (including commercial general liability insurance) customarily maintained for facilities of similar fuel source and electric generating capacity in the state in which the Facility is located, but no less than a commercially reasonable business would obtain for a facility of similar value and operation. Seller shall provide certificates of insurance or other reasonable evidence of such insurance coverage acceptable to PECO upon request.

5.4.2 Failure to obtain and maintain the required insurance shall constitute a breach of the Agreement and Seller will be liable for any and all costs, liabilities, damages, and penalties (including attorneys' fees, court, and settlement expenses) resulting to PECO from such breach, unless a written waiver of the specific insurance requirement is provided to Seller by PECO.

5.4.3 Failure of Seller to provide insurance as herein required or failure of PECO to require evidence of insurance or to notify Seller of any breach by Seller of the requirements of this Article 5 shall not be deemed to be a waiver by PECO of any of the terms and conditions of this Agreement, nor shall they be deemed to be a waiver of the obligation of Seller to defend, indemnify, and hold harmless PECO as required herein. The obligation to procure and maintain any insurance required is a separate responsibility of Seller and independent of the duty to furnish a copy or certificate of such insurance policies.

5.4.4 Notwithstanding any provision of this Agreement, none of the requirements contained herein as to insurance coverage to be maintained by Seller are intended to and shall not in any manner limit, qualify, or quantify the liabilities and obligations assumed by Seller under this Agreement, any other agreement with PECO or its Affiliates, or otherwise provided by law.

5.5 Authorized Representatives. As a means of securing effective cooperation and interchanges of information and of providing consultation on a prompt and orderly basis between the Parties in connection with various administrative, commercial and technical issues that may arise during the performance of this Agreement, each Party shall appoint an authorized representative (with respect to each Party, the "Authorized Representative") and may appoint an alternate (with respect to each Party, the "Alternate Representative") to act in its Authorized Representative's absence. The Authorized Representatives and Alternate Representatives shall be managers well experienced with regard to matters relating to the implementation of the Parties' rights and obligations under this Agreement with full authority to act for and on behalf of the Party appointing them. Upon execution of this Agreement, each Party will notify the other in writing of the name of its Authorized Representative and Alternate Representative so appointed and these appointments will remain in full force and effect until written notice of substitution is delivered by such Party to the other Party.

5.6 Access to Facility; Publicity. Upon reasonable prior notice (in light of the circumstances), Seller will provide PECO and its authorized agents, employees and inspectors with reasonable access to the Facility: (i) to provide tours of the Facility to guests of PECO, to the extent practicable, (ii) to ascertain the status of the Facility with respect to any Significant Milestone or any other obligation of Seller under this Agreement, and (iii) for other reasonable purposes at the reasonable request of PECO. Upon request by PECO, Seller shall use reasonable efforts to permit PECO to take photographs of the Facility for use by PECO for publicity purposes and internal communications. No party shall issue any press release or make any public announcement relating to the subject matter of this Agreement without the prior written approval of the other party, which approval shall not be unreasonably withheld.

ARTICLE 6
CREDIT AND COLLATERAL REQUIREMENTS

6.1 Development Security. *[Section may be marked reserved for Facilities that have achieved Commercial Operation]*

6.1.1 If the Facility has not achieved Commercial Operation by the Effective Date, Seller shall post and thereafter maintain development security equal to two percent (2%) of the Nominal Contract Value upon execution of this Agreement. The Development Security shall be held by PECO as security for Seller meeting the Commercial Operation Date. The Development Security shall be in the form of either a cash deposit or a Letter of Credit as provided for in Section 6.5.

6.1.2 The following provisions shall govern disposition of the Development Security:

(a) In the event that the Facility achieves Commercial Operation by the original Commercial Operation Date established on the Effective Date, the entire Development Security shall be returned to Seller.

(b) In the event that the Commercial Operation Date is extended pursuant to the provisions of Section 4.4 for a period of 180 days or less and the Facility achieves Commercial Operation on such extended date, Seller shall be entitled only to a portion of the Development Security equal to (i) the Development Security, less (ii) the ratio of the number of calendar days that the Commercial Operation Date is delayed beyond the original Commercial Operation Date to 180 days, multiplied by the Development Security. The portion of the Development Security retained by PECO shall be kept as liquidated damages, and PECO shall be entitled to retain the entire Development Security as such liquidated damages in the event that the Commercial Operation Date is extended more than 180 days.

(c) In the event that the Commercial Operation Date is not extended pursuant to the provisions of Section 4.4, but the Facility is resized pursuant to the provisions of Section 4.5, Seller shall be entitled only to a portion of the Development Security equal to (i) two percent (2%) times the Nominal Contract Value multiplied by (ii) the ratio of the revised Contract Amount resulting from the resizing to the original Contract Amount prior to the resizing The remainder of the Development Security shall be kept by PECO as liquidated damages.

(d) In the event that the Commercial Operation Date is extended pursuant to the provisions of Section 4.4 and the Seller meets such extended date but the Facility is resized pursuant to the provisions of Section 4.5, Seller shall be entitled only to a portion of the Development Security equal to (i) two percent (2%) times the Nominal Contract Value multiplied by (ii) the ratio of the revised Contract Amount resulting from the resizing to the original Contract Amount prior to the resizing multiplied by (iii) 1 – [(the number of calendar days that the

Commercial Operation Date is delayed beyond the original Commercial Operation Date) divided by 180]. The remainder of the Development Security shall be kept by PECO as liquidated damages.

(e) If some or all of the Development Security is to be returned to the Seller under this Section 6.1, it shall be returned within thirty (30) Business Days of the achievement of the Commercial Operation Date, with interest paid only if Seller satisfied the Development Security requirements by providing Cash to PECO. Such interest shall be calculated using the London Interbank Offered Rate (LIBOR) at the time of the Cash is returned to Seller, plus thirty (30) basis points.

(f) In the event the Seller fails to obtain the Commercial Operation Date Milestone, as may be extended pursuant to Section 4.4, PECO may terminate this Agreement pursuant to Section 9.1 and retain the entire Development Security.

6.1.3 The Parties acknowledge and agree that it is difficult or impossible to determine with precision the amount of damages that would or might be incurred by PECO as a result of the Facility failing to operate by the Commercial Operation Date Milestone. It is understood and agreed by the Parties that (a) PECO shall be damaged by failure of Seller to meet such obligations, (b) it would be impracticable or extremely difficult to fix the actual damages resulting therefrom, (c) any sums which would be creditable or payable under this Article 6 are in the nature of liquidated damages, and not a penalty, and are fair and reasonable, and (d) each payment represents a reasonable estimate of fair compensation for the losses that may reasonably be anticipated from each such failure. The liquidated damages available under this Section shall constitute PECO's sole damages for failure of the Seller to achieve the Commercial Operation Date or for any resizing of the Facility as provided in Article 4.

6.2 Credit Support. The Seller shall post security with PECO, on the Commercial Operation Date, in an amount based on the number of months remaining in the Term, as determined from the table (Credit Support Requirement) in Exhibit 6.

6.3 Grant of Security Interest. To secure its obligations under this Agreement, Seller hereby grants to PECO a present and continuing security interest in, and lien on (and right of setoff against), and assignment of, all cash collateral and cash equivalent collateral and any and all proceeds resulting therefrom or the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of, PECO, provided, however, that such interest may be junior to an interest granted by Seller in such collateral or proceeds for purposes of financing the development, construction or operation of the Facility. Seller agrees to take such action as reasonably required to perfect in favor of PECO such security interest in, and lien on (and right of setoff against), such collateral and any and all proceeds resulting therefrom or from the liquidation thereof.

6.4 Remedies. Upon or any time after the occurrence of an Event of Default caused by Seller, PECO may do any one or more of the following: (i) exercise any of the rights and remedies of the Company with respect to all collateral, including any such rights and remedies under law then in effect; (ii) exercise its rights of setoff against any and all property of Seller in

the possession of PECO, whether held in connection with this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs; (iii) draw on any outstanding Letter of Credit issued for PECO's benefit; and (iv) liquidate all collateral security held by or for the benefit of the PECO free from any claim or right of any nature whatsoever of the Seller, including any equity or right of purchase or redemption by the Seller. PECO shall apply the proceeds of the collateral security realized upon the exercise of such rights or remedies to reduce Seller's obligation under this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs (the Seller remaining liable for any amounts owing to the Company after such application), subject to PECO's obligation to return any surplus proceeds remaining after such obligations are satisfied in full.

6.5 Security Instruments. At Seller's choice, the following are deemed to be acceptable methods for posting security (each, a "Security Instrument"), if required:

6.5.1 Cash; or

6.5.2 An irrevocable transferable standby letter of credit (a "Letter of Credit") acceptable to the Company issued by a bank or other financial institution with a minimum "A" senior unsecured debt rating from S&P or Moody's (the "Issuer Minimum Requirements"). (A standard format for the Letter of Credit is provided in Exhibit 5.) In the event that senior unsecured debt ratings are unavailable from S&P, the corporate issuer rating, discounted one notch, will be used. In the event that senior unsecured debt ratings are unavailable from Moody's, the issuer rating will be used. The Company will only rely on senior unsecured debt ratings, or if unavailable, issuer or corporate issuer ratings. If the Seller does not have a senior unsecured debt rating and does not have an issuer or corporate issuer rating from a rating agency, it will be deemed by the Company not to be rated by that rating agency. The Letter of Credit shall state that it shall renew automatically for successive one-year or shorter periods unless the Company receives written notice from the issuing financial institution at least thirty (30) days prior to the expiration date stated in the Letter of Credit that the issuing financial institution elects not to extend the Letter of Credit. If the Company receives notice from the issuing financial institution that the Letter of Credit will not be extended, the Seller will be required to provide a substitute Letter of Credit from an alternative bank or financial institution satisfying the Issuer Minimum Requirements. The receipt of the substitute Letter of Credit must be effective on or before the expiration date of the expiring Letter of Credit and delivered to the Company at least fifteen (15) days before the expiration date of the original Letter of Credit. If the Seller fails to supply a substitute Letter of Credit as required herein, then the Company will have the right to draw on the expiring Letter of Credit and to hold the amount as collateral. If the credit rating of the issuer of a Letter of Credit falls below the Issuer Minimum Requirements, the Seller shall have two (2) Business Days (or such longer period as the Company in its sole discretion may permit in writing) following written notice by the Company to obtain a suitable Letter of Credit from another bank or other financial institution that meets the Issuer Minimum Requirements.

6.6 Calling on Security. The Company may call upon the Security Instrument posted by the Seller (i) if the Seller fails to pay amounts due to the Company pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy and AECs after written notice of default is provided to the Seller and any applicable cure

period ends; and (ii) with respect to the Development Security, to satisfy PECO's rights to such portions of the Development Security specified in Section 6.1. The foregoing notwithstanding, the Security Instrument posted by the Seller shall become due automatically, and may be called upon by the Company, without prior notice or right of cure in the case of any Event of Default involving the Seller arising under Section 9.1.1.

6.7 Interest on Cash Held by Company. The Company will pay simple interest (not compounded) calculated at the lower of the Interest Rate or six (6) percent per annum on any Cash posted by the Seller as Performance Security and directly held by the Company pursuant to this Agreement.

ARTICLE 7
BILLING AND PAYMENT; RECORDS

7.1 Invoices. Beginning with the end of the first Semi-Annual period after the Effective Date, Seller shall send PECO a statement following the Delivery of AECs after each Semi-Annual period setting forth all amounts due either to the Seller or to PECO arising during the preceding Semi-Annual period. The statement shall include (i) after the commencement of the Term, the quantity of AECs that were Delivered by Seller to PECO during such Semi-Annual period and the total amount owed by PECO for those AECs at the Contract Price, (ii) any interest due to Seller as provided in Section 6.7, and (iii) any other amount due Seller or to PECO under this Agreement in respect of such Semi-Annual period (including the amount of any Replacement AEC Payment). Such statement shall be sent by Seller to PECO no later than fifteen (15) Business Days following the Delivery of AECs for which the statement is applicable.

7.2 Payment. Subject to all conditions and provisions of this Agreement (including Section 7.7), no later than fifteen (15) Business Days after the date of a statement submitted by Seller, or if such day is not a Business Day, the immediately following Business Day, the Party owing the net amount shown to be due on such statement shall remit to the other Party, by wire transfer in accordance with Section 12.1, the amount due pursuant to such statement.

7.3 Interest. Amounts not paid shall accrue interest from the due date to the date of payment at the Interest Rate.

7.4 Taxes. Seller shall be responsible for all existing and any new taxes, fees, levies, assessments, penalties, licenses, or charges imposed or levied by any federal, state or local governmental agency (collectively, "Taxes") on the electricity and capacity associated with the Facility and on all AECs prior to and including the Delivery of AECs under this Agreement. PECO shall be responsible for all existing and any new Taxes imposed or levied by any federal, state or local governmental agency on AECs after transfer to PECO. If PECO is required to remit or pay Taxes that are Seller's responsibility under this Agreement, then Seller shall promptly reimburse PECO for such Taxes. If Seller is required to remit or pay Taxes that are PECO's responsibility under this Agreement, then PECO shall promptly reimburse Seller for such Taxes.

7.5 Disputed Amounts. If either Party, in good faith, disputes any amount due pursuant to a statement rendered hereunder, such Party shall notify the other Party of the specific

basis for the dispute and shall pay that portion of the amount shown to be due on the statement that is undisputed, on or before the due date. If any amount disputed by such Party is determined to be due the other Party, whether by agreement of the Parties or through arbitration in accordance with Section 13.2, the amount due shall be paid within five (5) Business Days of such determination or resolution, along with interest accrued at the Interest Rate from the date due to the date paid. Notwithstanding the above, no dispute may be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such payment or statement within one year after the date of such statement or payment.

7.6 Records. Each Party shall keep and maintain all records as may be necessary or useful in performing or verifying any calculations made pursuant to this Agreement, or in verifying such Party's performance hereunder. All such records shall be retained by each Party for at least three (3) calendar years following the calendar year in which such records were created.

7.7 Audit Rights. Each Party, through its authorized representatives, shall have the right, at its sole expense and during normal business hours, to examine and copy the records of the other Party to the extent reasonably necessary to verify the accuracy of any statement, charge or computation made hereunder or to verify the other Party's performance of its obligations hereunder. If any statement is determined by the Parties or through arbitration to be inaccurate, a corrected statement shall be issued and any amount due thereunder will be promptly paid and shall bear interest calculated at the Interest Rate from the date of the overpayment or underpayment to the date of receipt of the reconciling payment. Notwithstanding the above, no adjustment shall be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such statement or payment within one year after the date of such statement or payment.

ARTICLE 8
REPRESENTATIONS AND WARRANTIES

8.1 Mutual Representations. As a material inducement to execution of this Agreement, each Party hereby represents and warrants to the other Party that:

8.1.1 It is duly organized or formed, validly existing and in good standing under the laws of the jurisdiction of its organization or formation, and is qualified to conduct its business in all jurisdictions necessary to perform its obligations hereunder;

8.1.2 The execution, delivery and performance of this Agreement are within its powers, have been duly authorized by all necessary action and do not violate any of the terms or conditions in its governing documents, any agreement to which it is a party or by which it or any of its property is bound, or any Requirement of Law applicable to it;

8.1.3 Except as set forth in and as required by this Agreement, no consent, approval, order or authorization of, or registration, declaration or filing with, any Governmental Authority is required by such Party in connection with the execution, delivery or performance of this Agreement;

8.1.4 This Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms, subject to bankruptcy, insolvency, reorganization and other laws affecting creditors' rights generally, and with regard to equitable remedies, to the discretion of the court before which proceedings to obtain same may be pending;

8.1.5 No Event of Default has occurred and there are no bankruptcy, insolvency, reorganization, receivership or other arrangement proceedings pending or being contemplated by it, or to its knowledge threatened against it;

8.1.6 To such Party's knowledge, there are no actions, proceedings, judgments, rulings or orders, issued by or pending before any court or other governmental body, that would materially adversely affect its ability to perform its obligations under this Agreement;

8.1.7 It is, and will continue to be for the Term, a Forward Contract Merchant both generally and with respect to the AECs delivered and purchased under this Agreement.

8.2 Forward Contract. The Parties acknowledge that this Agreement is a Forward Contract and the Parties are Forward Contract Merchants, both generally and with respect to the deliveries of AECs pursuant to this Agreement, that each party is an "eligible contract participant" as set forth in the Commodities Exchange Act; and, accordingly, the Parties are entitled to the protections of the Safe Harbor Provisions of the Bankruptcy Code. The Parties therefore agree that this Agreement may be terminated and the remedies hereunder exercised by either Party in accordance with Article 2 and Article 9 hereof upon the commencement of a proceeding by the other Party under any chapter of the Bankruptcy Code, and that the automatic stay of Section 362(a) of the Bankruptcy Code shall not apply to such termination.

8.3 No Representation or Warranty By PECO of Facility or Seller. Any review by PECO of any information or material pertaining to the Seller or the Facility (including its design, operation, and compliance with Requirements of Law) is solely for PECO's information only. By conducting such review, PECO makes no representation or warranty as to the Seller or to the Facility, including its reliability, capacity, economic viability, operation, performance, safety, or compliance with Requirements of Law, RTO Requirements, or Prudent Utility Practice. PECO does not endorse or in any way approve of any representation or warranty of Seller in any agreement or to any Person, and Seller shall not make any such representation that PECO has given any such approval.

ARTICLE 9
EVENTS OF DEFAULT AND REMEDIES

9.1 Events of Default. An "Event of Default" by a Party (the "Defaulting Party") shall mean:

9.1.1 With respect to Seller, unless otherwise excused or permitted under the terms of this Agreement, the following events, without notice or the opportunity to cure, if the Seller:

(a) fails to achieve the Commercial Operation Date or any other Significant Milestone in accordance with the Significant Milestone Schedule, as may be extended pursuant to the provisions of Article 4;

(b) fails to meet the ratings requirements or to comply with the collateral requirements set forth in Article 6 within the time frames set forth in this Agreement;

(c) fails to provide at least ten percent (10%) of the Contract Amount of AECs for any Contract Year from the Facility;

(d) (1) fails to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise) in respect of any indebtedness for borrowed money involving a principal sum in excess of $5,000,000 ("Material Debt") and such failure continues after the applicable grace or notice period, if any, specified in the relevant document on the date of such failure, or (2) fails to perform or observe any other condition or covenant, or any other event shall occur or condition exist, under any agreement or instrument relating to any Material Debt, if, in any such event, the effect of such failure, event or condition is to cause, or permit the holder or holders thereof or beneficiary or beneficiaries thereof (or a trustee or agent on behalf of such holder or holders or beneficiary or beneficiaries) to cause (after the expiration of any applicable grace period or notice period, if any, specified in the relevant document on the date of such failure) such Material Debt to become due and payable or to be repurchased, defeased or redeemed prior to its expressed maturity;

(e) is dissolved (other than pursuant to a consolidation, amalgamation or merger);

(f) makes an assignment for the benefit of its creditors;

(g) has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets; or

(h) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger).

9.1.2 With respect to either Party, an Event of Default shall occur if such Party:

(a) is the subject of a voluntary bankruptcy, insolvency or similar proceeding;

(b) applies for, seeks consent to, or acquiesces in the appointment of a receiver, custodian, trustee, liquidator or similar official to manage all or a substantial portion of its assets;

(c) is the subject of an involuntary bankruptcy or similar proceeding, and fails to have such proceeding dismissed within 60 days; or

(d) commits an act or makes an omission that constitutes an "Event of Default" under any other agreement(s) between PECO and the Seller for the provision of Energy or AECs.

9.1.3 Unless otherwise excused or permitted under the terms of this Agreement, a Party's failure to make, when due, any payment required pursuant to this Agreement, regardless of whether a payment or portion thereof may be subject to a billing dispute, shall constitute an Event of Default unless a Party shall have cured the same within three (3) Business Days after receipt of written notice of such payment failure from the other Party.

9.1.4 Unless otherwise excused or permitted under the terms of this Agreement, any of the following events shall constitute an Event of Default unless a Party shall have cured the same within thirty (30) days after receipt of written notice of the occurrence of such event from the other Party:

(a) Any representation, warranty or covenant made by such Party herein is proven to be false or misleading in any material respect at the time it was made;

(b) A Party transfers or assigns or otherwise conveys any of its rights or obligations under this Agreement to another entity without the other Party's prior written consent, to the extent such consent is required under this Agreement, or if at the time of such transfer, assignment or conveyance, the resulting, surviving or transferee entity fails to assume all the obligations of such Party under this Agreement by operation of law or pursuant to an agreement reasonably satisfactory to the other Party;

(c) A Party's unexcused failure to perform any other material covenant or obligation set forth in this Agreement that is not enumerated in this Section 9.1; or

(d) with respect to Seller, Seller fails to have and maintain, during the Term, all federal, state and local Permits to permit its performance under this Agreement.

9.2 Rights Upon Default. Upon and during the continuation of an Event of Default, the Non-Defaulting Party shall be entitled to elect or pursue one or more of the following remedies:

9.2.1 terminate the Agreement by providing written notice to the Defaulting Party of an Early Termination, as provided in Section 2.2;

9.2.2 accelerate all amounts then owing by the Defaulting Party to the Non-Defaulting Party;

9.2.3 withhold any payments due to the Defaulting Party under this Agreement;

9.2.4 suspend its performance under this Agreement; and

9.2.5 pursue any other remedies available at law or in equity, except to the extent such remedies are expressly limited by this Agreement.

9.3 Reliance on Netting. The Parties are making credit, default, collateral and other decisions and changes based upon and in reliance on the effectiveness of the default, early termination, setoff and netting provisions of this Agreement. The Parties would not enter into this Agreement and would change their position with regard to netting except for their reliance on and with the understanding that these netting terms will be effective. Notwithstanding anything else in this Agreement or in any other agreement between the Parties to the contrary, if for any reason these terms or any right of offset or netting hereunder or under another agreement in favor of the Non-Defaulting Party against a bankrupt Defaulting Party is delayed from being exercised or is not enforceable in accordance with its terms because either Party asserts or is concerned that the Safe Harbor Provisions of the Bankruptcy Code do not apply to such rights of enforcement or for any other reason, the Non-Defaulting Party may (a) exercise its rights to effect a setoff under Section 553 of the Bankruptcy Code or other applicable provisions, equity and law, and (b) withhold payments subject to a claim of offset under any obligations due the Defaulting Party in respect of any transactions or deliveries under this Agreement or any other agreement until such setoff rights are exercised and effected.

9.4 Setoff of Payment Obligations of the Non-Defaulting Party. Any payment obligations of the Non-Defaulting Party to the Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs shall be set off: (i) first, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured; (ii) second, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured, but which are subject to a guaranty; and (iii) third, to satisfy any remaining payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs. Any setoff shall not be subject to the automatic stay by virtue of Section 362(b)(6) of the Bankruptcy Code.

9.5 Preservation of Rights of the Non-Defaulting Party. The rights of the Non-Defaulting Party under this Agreement, including Sections 9.3 and 9.4 shall be supplemental to, and not in lieu of, any right of recoupment, lien, or set-off afforded by applicable Requirements of Law, and all such rights are expressly preserved for the benefit of the Non-Defaulting Party.

9.6 Integrated Transaction. To the extent that Section 365 of the Bankruptcy Code applies to this Agreement, the Parties agree that all transactions under this Agreement constitute one integrated transaction that can only be assumed or rejected in its entirety.

ARTICLE 10
ASSIGNMENT

10.1 Assignment. Neither Party shall assign this Agreement or any of its rights or obligations hereunder (including by lease, subcontract, or otherwise) without the prior written consent of the other Party. Notwithstanding the foregoing, either Party may, without the need for consent from the other Party, transfer or assign this Agreement to an Affiliate of such Party, providing that the assigning Party shall provide notice to the other Party and shall remain responsible for its obligations under the Agreement. In all such transfers and assignments, the succeeding Party must agree to comply with all the provisions, terms and conditions of this Agreement, including the credit and collateral security requirements set out in Article 6. Except as specifically provided in this Article 10, any assignment or transfer of this Agreement or any rights, duties or interests hereunder by any Party without the written consent of the other Party shall be void and of no force or effect.

10.2 Collateral Assignment by Seller. Without the consent of PECO, Seller may, in its discretion, make a collateral assignment of this Agreement to any and all lenders or grant any or all lenders a lien or security interest in any right, title or interest in part or all of the Facility or any or all of Seller's rights under this Agreement for the purpose of the financing or refinancing of the Facility; provided, however, that Seller shall provide notice of each such assignment (including the identity of the assignee) prior to assignment and such assignment shall recognize PECO's rights under this Agreement. In order to facilitate the obtaining of financing or refinancing of the Facility, PECO shall cooperate with Seller and execute consents, agreements or similar documents with respect to a collateral assignment hereof to any lender as such lender may reasonably request in connection with the financing or refinancing of the Facility, including an agreement to give notice to such lenders of any default by Seller under this Agreement and to allow such lenders to cure any such default during periods which are equal to and consistent with the cure periods Seller has under this Agreement, provided that PECO shall be reasonably satisfied that any such consents, agreements or similar documents do not in any manner adversely affect its rights under this Agreement or impose material obligations on PECO except with respect to providing any additional notice of default and opportunity to cure consistent with this Agreement.

ARTICLE 11
FORCE MAJEURE; INDEMNITY; LIMITATION OF LIABILITY

11.1 Force Majeure. If either Party is rendered unable by a Force Majeure event to carry out, in whole or in part, its obligations under this Agreement, then, during the pendency of such event of Force Majeure, but for no longer period, the obligations of the affected Party (other than the obligation to make payments hereunder when due) shall be suspended to the extent required. The affected Party shall (i) give the other Party written notice within 48 hours of the commencement of the Force Majeure event, with details to be supplied within three (3) Business Days after the commencement of the Force Majeure event further describing the particulars of the occurrence of the Force Majeure event, and (ii) take all reasonable steps to remedy the cause of the Force Majeure event with all reasonable dispatch. Whenever either Party is required to commence or complete any action within a specified period, such period shall be extended by an amount equal to the duration of any event of Force Majeure occurring or continuing during such

period; provided, however, that in no event will any Force Majeure event extend this Agreement beyond its Term. A determination of force majeure by the PaPUC under the Act shall not constitute a determination of Force Majeure under this Agreement.

11.2 Indemnification.

11.2.1 Each Party shall indemnify and hold harmless the other Party and its officers, directors, agents and employees (each an "Indemnified Party") from and against any and all claims, demands, actions, losses, liabilities, expenses (including reasonable legal fees and expenses), suits and proceedings of any nature whatsoever for personal injury, death or property damage to third parties (collectively "Liabilities") that arise out of or are in any manner connected with the performance of this Agreement.

11.2.2 Without limiting the foregoing, Seller shall indemnify, defend and hold harmless PECO (and any PECO Indemnified Party) from any Liabilities arising from the generation of Energy by the Facility prior to delivery of any Energy to the Energy Delivery Point and for any Claims arising from the design, construction, operation and removal of the Facility.

11.2.3 Any fines, penalties or other costs incurred by a Party or its agents, employees or subcontractors for non-compliance by such Party, its agents, employees or subcontractors with any Requirement of Law will not be reimbursed by the other Party but will be the sole responsibility of such non-complying Party.

11.2.4 A Party seeking indemnification under this Section 11.2 shall give written notice to the indemnifying Party as soon as reasonably practicable after the Indemnified Party becomes aware of any fact, condition or event which may give rise to Liabilities for which indemnification may be sought under this Section 11.2.

11.3 Limitations of Remedies, Liability and Damages. The Parties agree that the remedies and measures of damages provided in this Agreement satisfy the essential purposes hereof. If no measure of damages or other remedy is expressly provided herein, the obligor's liability shall be limited to direct actual damages only, which direct actual damages shall be the sole and exclusive remedy and all other remedies or damages at law or in equity are waived. Unless otherwise provided herein, neither Party shall be liable for consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages, (other than consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages recovered by an unaffiliated third party against a Party subject to indemnification hereunder), whether such damages are allowed or provided by statute, in tort, under any indemnity provision or otherwise.

ARTICLE 12
NOTICES AND ADDRESS FOR PAYMENT

12.1 Notices.

12.1.1 Except as set forth in Section 12.1.2, all notices, requests, statements or payments, if by check, shall be made to the addresses set out below. Notices required to be in writing shall be delivered by letter, facsimile or other documentary form. Notice by facsimile or

hand delivery shall be deemed to have been received by the close of the Business Day during which the notice is received or hand delivered. Notice by mail or overnight courier shall be deemed to have been received upon delivery as evidenced by the delivery receipt.

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

12.1.2 All notices, demands or requests regarding credit requirements and credit related security or deposit transfers shall be in writing and shall be personally delivered or sent by overnight express mail, courier service or facsimile transmission (with the original transmitted by any of the other aforementioned delivery methods) to the addresses specified below:

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

12.1.3 All amounts due Seller under this Agreement that are paid by check must be sent via United States mail to the address specified below:

12.1.4 All amounts due PECO under this Agreement that are paid by check must be sent via United States mail to the address specified below:

12.1.5 A Party's address or addressee to which notices or invoices shall be sent may be changed from time to time by such Party by notice served as hereinabove provided.

12.2 Notice After Close of Business. Notice received after the close of the Business Day shall be deemed received on the next Business Day; provided, however, that notice by

facsimile transmission shall be deemed to have been received by the recipient if the recipient confirms receipt telephonically or in writing.

ARTICLE 13
DISPUTE RESOLUTION

13.1 Negotiations. The Parties shall attempt in good faith to resolve all disputes arising out of or related to or in connection with this Agreement promptly by negotiation, as provided in this Section. Any Party may give the other Party written notice of any dispute not resolved in the normal course of business. Executives of both Parties at levels one level above the personnel who have previously been involved in the dispute shall meet at a mutually acceptable time and place within ten (10) Business Days after delivery of such notice, and thereafter as often as they reasonably deem necessary, to exchange relevant information and to attempt to resolve the dispute. If the matter has not been resolved within thirty (30) Business Days from the referral of the dispute to senior executives, or if no meeting of senior executives has taken place within fifteen (15) Business Days after such referral, either Party may initiate arbitration as provided in Section 13.2. All negotiations pursuant to this clause are confidential, shall be considered to be in the nature of settlement discussions and shall be subject to Section 13.3.

13.2 Arbitration.

13.2.1 If the negotiation process provided for in Section 13.1 has not resolved the dispute, the dispute shall be decided by binding arbitration at Philadelphia, Pennsylvania in accordance with the Commercial Arbitration Rules of the American Arbitration Association (except as expressly provided otherwise herein). The arbitration shall be governed by the United States Arbitration Act (9 U.S.C. § 1 et seq.), and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. This agreement to arbitrate and any other agreement or consent to arbitrate entered into in accordance herewith will be specifically enforceable under the prevailing arbitration law of any court having jurisdiction. Any arbitration may be consolidated with any other arbitration proceedings between the Parties commenced under this Section 13.2. The award of the arbitrator shall be specifically enforceable in a court of competent jurisdiction.

13.2.2 Either Party may commence the arbitration by giving to the other Party written notice in sufficient detail of the existence and nature of any dispute proposed to be arbitrated. The demand must be made within a reasonable time after the dispute has arisen. In no event may the demand for arbitration be made if the institution of legal or equitable proceedings based on such dispute is barred by the applicable statute of limitations. The Parties shall attempt to agree on a person to serve as arbitrator with respect to the matter at issue. If the Parties cannot agree on an arbitrator within ten (10) Business Days of such notice, each shall then appoint one individual to serve as an arbitrator within thirty (30) Business Days of such notice and the two (2) individuals thus appointed shall select a third arbitrator to serve as chairman of the panel of arbitrators. Such three (3) arbitrators shall determine all matters by majority vote; provided however, if the two (2) arbitrators appointed by the Parties are unable to agree upon the appointment of the third arbitrator within ten (10) Business Days after their appointment, both shall give written notice of such failure to agree to the Parties, and, if the

Parties fail to agree upon the selection of such third arbitrator within five (5) Business Days of such notice, then either of the Parties upon written notice to the other may require such appointment from, and pursuant to the Commercial Arbitration Rules of the American Arbitration Association. Any arbitrator appointed shall be a present or former executive of an electric utility, or private power producer, or an attorney, in each case with substantial experience in electric power purchase agreements. Prior to appointment, each arbitrator shall agree to conduct such arbitration in accordance with the terms of this Agreement.

13.2.3 The Parties shall have sixty (60) calendar days after appointment of all arbitrators to perform discovery and present evidence and argument to the arbitrators. During that period, the arbitrators shall be available to receive and consider all such evidence as is relevant and, within reasonable limits due to the restricted time period, to hear as much argument as is feasible, giving a fair allocation of time to each Party to the arbitration. The arbitrators shall use all reasonable means to expedite discovery and to sanction noncompliance with reasonable discovery requests or any discovery order. The arbitrators shall not consider any evidence or argument not presented during such period and shall not extend such period except by the written consent of both parties. At the conclusion of such period, the arbitrators shall have forty-five (45) calendar days to reach a determination.

13.2.4 The arbitrators shall have the right only to interpret and apply the terms and conditions of this Agreement and to order any remedy allowed by this Agreement, and may not change any term or condition of this Agreement, deprive either Party of any right or remedy expressly provided hereunder, or provide any right or remedy that has been excluded hereunder.

13.2.5 The arbitrators shall give a written decision to the Parties stating their findings of fact, conclusions of law and order, and shall furnish to each Party a copy thereof signed by them within five (5) calendar days from the date of their determination. Each party shall pay the cost of the arbitrator or arbitrators, with respect to those issues as to which they do not prevail, as determined by the arbitrator or arbitrators.

13.3 Settlement Discussions. The Parties agree that no statements of position or offers of settlement made in the course of the dispute process described in Section 13.1 above will be offered into evidence for any purpose in any litigation or arbitration between the Parties, nor will any such statements or offers of settlement be used in any manner against either Party in any such litigation or arbitration. Further, no such statements or offers of settlement shall constitute an admission or waiver of rights by either Party in connection with any such litigation or arbitration. At the request of either Party, any such statements and offers of settlement, and all copies thereof, shall be promptly returned to the Party providing the same.

13.4 Preliminary Injunctive Relief. Nothing in this Article 13 shall preclude, or be construed to preclude, the resort by either party to a court of competent jurisdiction solely for the purposes of securing a temporary or preliminary injunction to preserve the status quo or avoid irreparable harm pending arbitration pursuant to this Article 13.

ARTICLE 14
MISCELLANEOUS

14.1 Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof, and it supersedes all prior oral or written agreements, commitments, negotiations or understandings with respect to the matters provided for herein.

14.2 Schedules and Exhibits. The Schedules and the Exhibits attached hereto are hereby incorporated into this Agreement and are hereby made a part hereof as if set out in full herein.

14.3 Amendment. Unless expressly provided otherwise in another provision of this Agreement, this Agreement shall not be amended, altered or modified except by an instrument in writing duly executed by both Parties. It is agreed that no use of trade or other regular practice or method of dealing between the Parties hereto shall be used to modify, interpret, supplement, or alter in any manner the terms of this Agreement.

14.4 Waiver. Any agreement on the part of a Party to any extension or waiver of any provision hereof shall be valid only if set forth in an instrument in writing signed on behalf of such Party. A waiver by a Party of the performance of any covenant, agreement, obligation, condition, representation or warranty shall not be construed as a waiver of any other covenant, agreement, obligation, condition, representation or warranty. A waiver by a Party of the performance of any act shall not constitute a waiver of the performance of any other act or an identical act required to be performed at a later time.

14.5 Remedies Cumulative. No right or remedy herein conferred upon or reserved to either Party is intended to be exclusive of any other right or remedy, and each and every right and remedy shall be cumulative and in addition to any other right or remedy under this Agreement, or under applicable law, whether now or hereafter existing.

14.6 Binding Effect; Limitation of Benefits. This Agreement shall be binding upon and shall insure to the benefit of the Parties hereto and, subject to the provisions of Article 10 hereof, their successors and permitted assigns. Nothing in this Agreement is intended to confer benefits, rights or remedies unto any Person other than the Parties and their permitted successors and assigns, and no third party shall have the right to enforce the provisions of this Agreement.

14.7 Compliance with Laws. Except as otherwise provided in this Agreement, each Party to this Agreement shall comply, at its own expense, with all applicable laws, statutes, regulations, rules, ordinances, orders, injunctions, writs, decrees or awards of any government or political subdivision thereof, or any agency, authority, bureau, commission, department or instrumentality thereof, or any court, tribunal, or arbitrator, in all applicable, material respects in connection with all activities and all performance under or in connection with this Agreement.

14.8 Governing Law. The validity, interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the Commonwealth of Pennsylvania, without giving effect to any choice of conflict of law provision or rule (whether of the

Commonwealth of Pennsylvania or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the Commonwealth of Pennsylvania.

14.9 No Partnership or Joint Venture. This Agreement is not intended to create nor shall it be construed to create any partnership or joint venture relationship between PECO and Seller, and neither Party hereto shall have the power to bind or obligate the other Party. Neither Party hereto shall be liable for the payment or performance of any debts, obligations, or liabilities of the other Party, unless expressly assumed in writing herein or otherwise. Each Party retains full control over the employment, direction, compensation and discharge of its employees, and will be solely responsible for all compensation of such employees, including social security, withholding and worker's compensation responsibilities.

14.10 Headings. The titles, headings and table of contents contained in this Agreement are inserted for convenience of reference only, shall not be deemed to be a part of this Agreement for any purpose, and shall not in any way define or affect the meaning, construction or scope of any of the provisions hereof.

14.11 Number of Days. In computing the number of days for purposes of this Agreement, all days shall be counted, including Saturdays, Sundays, and holidays; provided, however, that if the final day of any time period falls on a Saturday, Sunday, or holiday, then the final day shall be deemed to be the next day which is not a Saturday, Sunday, or holiday.

14.12 E-mail in Place of Writing. Where the parties agree, any written notification required by this Agreement may be transmitted via e-mail.

14.13 Severability. Whenever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the domestic laws of the Commonwealth of Pennsylvania as provided herein, but if any provision of this Agreement is held to be illegal, invalid or unenforceable under present or future Laws effective during the term hereof, then (a) in lieu of such illegal, invalid or unenforceable provision, the Parties shall promptly endeavor, in good faith negotiations, to agree on a provision as may be possible and be legal, valid and enforceable, provided that no Party shall be required to agree to any provision that would materially alter any of its rights or obligations under this Agreement, and (b) the legality, validity and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby. To the extent permitted by law, each Party hereby waives any Requirement of Law that renders any such provision prohibited or unenforceable in any respect.

14.14 Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which taken together shall constitute one single agreement between the Parties.

[Signatures Appear on the Following Page]

IN WITNESS WHEREOF, this Agreement has been executed and delivered by the duly authorized representatives of PECO and Seller as of the date first written above.

SAMPLE LETTER OF CREDIT

[On Issuing Bank's Letterhead]
IRREVOCABLE TRANSFERABLE STANDBY LETTER OF CREDIT

_____ (Date)

Letter of Credit No. _____

To: PECO Energy Company
[address]
Attention:_____

1. We hereby establish this Irrevocable Transferable Standby Letter of Credit (this "Letter of Credit") in your favor in the amount of USD $_____, effective immediately and available to you at sight upon demand at our counters at _____[designate Issuing Bank's location for presentments] and expiring at 5:00 PM [New York, NY time[1]] on _____, 20__, [one year after date of issuance] (the "Initial Expiration Date"), unless terminated earlier in accordance with the provisions of Paragraph 11 hereof or extended one or more times in accordance with the provisions of Paragraph 10 hereof (the "Extended Expiration Date"; the latest of the Initial Expiration Date and any Extended Expiration Date being referred to herein as the "Expiration Date").

2. This Letter of Credit is issued at the request and for the account of _____ _____ _____ (including its successors and assigns, the "Applicant"), to secure its obligations under one or more Alternative Energy Purchase and Sale Agreements between you and the Applicant or its affiliates.

3. We hereby irrevocably authorize you to draw on us, in accordance with the terms and conditions hereof, up to the amount available under this Letter of Credit from time to time, subject to reduction as provided in Paragraph 8. A partial or full drawing hereunder may be presented by you on any Business Day on or prior to the Expiration Date by delivering or transmitting to _____ (identify Issuing Bank), _____ _____ (U.S. address), (a) a notice executed by you substantially in the form of Annex 1 hereto, appropriately completed and duly signed by your Authorized Officer and (b) your draft substantially in the form of Annex 2 hereto, appropriately completed and duly signed by your Authorized Officer.

[1] If the issuer of the Letter of Credit is located in an area that is not in the Eastern time zone, this time and all other times in this Letter of Credit, and the definition of a Business Day should be adjusted accordingly

4. Drafts, document(s) and other communications hereunder may be presented or delivered to us by facsimile transmission. Presentation of documents to effect a draw by facsimile must be made to the following facsimile number: _____, and confirmed by telephone to us at the following number: _____. In the event of a presentation via facsimile transmission, no mail confirmation is necessary and the facsimile transmission will constitute the operative drawing documents.

5. We will honor a drawing hereunder made in compliance with the terms and provisions of this Letter of Credit by transferring in immediately available funds the amount specified in your draft (or so much thereof as is available hereunder) delivered or transmitted to us in connection with such drawing to the account designated as provided below, by 3:00 PM [New York, NY time] on the date of such drawing, if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made prior to 11:00 AM [New York, NY time] on a Business Day, but at the opening of business on the first Business Day next succeeding the date of such drawing if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made on or after 11:00 AM [New York, NY time] on any Business Day.

6. If a demand for payment made by you hereunder does not, in any instance, conform to the terms and conditions of this Letter of Credit, we shall give you notice not later than the time provided in Paragraph 5 above for honor of a drawing presented to us, that the demand for payment was not effected in accordance with the terms and conditions of this Letter of Credit, stating the reasons therefor and that we will upon your instructions hold any documents at your disposal or return the same to you. Upon being notified that the demand for payment was not effected in conformity with this Letter of Credit, you may attempt to correct any such non-conforming demand for payment to the extent that you are entitled to do so, provided, however, in such event a conforming demand for payment must be timely made in accordance with the terms of this Letter of Credit.

7. Unless otherwise hereafter designated in writing to us by your Authorized Officer, all payments made by us under this Letter of Credit shall be transmitted by wire transfer to you pursuant to the following instructions:

   PECO Energy Company
   Account No.: _____
   Bank: _____
   Bank's Address: _____
   _____
   ABA Routing No.: _____
   Contact: _____
   Telephone No.: _____

8. Partial drawings are permitted hereunder and multiple drawings are permitted hereunder. The amount available for drawing by you under this Letter of Credit shall be automatically reduced to the extent of the amount of any drawings referencing this Letter of Credit paid by us. Presentation of demands for drawings in amounts that exceed the amount available to be drawn hereunder shall not be deemed a failure to comply with the requirements of Paragraph 3 hereof,

provided that the amounts payable on any such demand shall not exceed the amount then available to be drawn under this Letter of Credit.

9. We may, but shall not be obligated to, accept any request by you to amend this Letter of Credit to increase or decrease the amount available hereunder. Such request may be made pursuant to a "New Availability Request" in the form of Annex 3 hereto appropriately completed and executed by your Authorized Officer delivered to us requesting us to amend this Letter of Credit to change the amount available hereunder to the amount set forth in such New Availability Request. Upon acceptance by us of your New Availability Request to change the amount of this Letter of Credit, we will issue to you an amendment of this Letter of Credit in the amount set forth in the New Availability Request. The amount available under this Letter of Credit from the date of such amendment shall be the full amount stated therein regardless of our honor and payment of draws under this Letter of Credit prior to such amendment. If we fail to issue an amendment complying with your New Availability Request within two (2) Business Days after we receive it, any such amendment issued thereafter decreasing the amount of this Letter of Credit, even if in accordance with your New Availability Request, shall require your express acceptance before it is effective.

10. It is a condition of this Letter of Credit that its Expiration Date shall be automatically extended from its Initial Expiration Date, or any Extended Expiration Date, for successive one year periods unless you receive written notice from us at least thirty (30) days prior to the then current Expiration Date, sent by Federal Express or other nationally recognized next business day courier or delivery service to you at your address stated above (or such other address an Authorized Officer of your notifies us of in writing) that we elect not to extend this Letter of Credit for such additional one year period.

11. This Letter of Credit shall terminate on the earliest of the date (a) you have made drawings which exhaust the amounts available to be drawn under this Letter of Credit, (b) we receive from you a Certificate of Cancellation in the form of Annex 4 hereto together with the original of this Letter of Credit returned for cancellation, or (c) unless extended, 5:00 PM [New York, NY time] on the Expiration Date.

12. Rule 3.14(a) of the ISP as it applies to this Letter of Credit is hereby modified to provide as follows:

    > If on the last Business Day for presentation the place for presentation stated in this Letter of Credit is for any reason closed, then the last day for presentation is automatically extended to the day occurring thirty calendar days after the place for presentation re-opens for business.

    Rule 3.14(b) of the ISP is hereby modified by providing that any alternate place for presentation we may designate pursuant to this rule must be in the United States.

13. As used herein:

"Authorized Officer" shall mean President, Treasurer, any Vice President or any Assistant Treasurer.

"Business Day" shall mean any day on which commercial banks are not authorized or required to close in [New York, New York] and any day on which payments can be effected on the Fedwire system.

"New Availability Request" shall mean a request form substantially in the form of Annex 3 hereto, appropriately completed and duly signed by your Authorized Officer.

14. This Letter of Credit is transferable pursuant to a notice of transfer in the form of Annex 5 hereto, to an entity you identify to us in such instrument as your transferee, and we hereby consent to such transfer. Any and all transfer fees, expenses and costs shall be borne by the Applicant. Any payments made under this Letter of Credit after its transfer shall be made to the account of the transferee as designated to you by an Authorized Officer of the transferee.

15. This Letter of Credit is subject to and shall be governed by the International Standby Practices 1998 (International Chamber of Commerce Publication No. 590), or any successor publication thereto (the "ISP"), except to the extent that the terms hereof are inconsistent with the provisions of the ISP, in which case the terms of this Letter of Credit shall govern. This Letter of Credit shall, as to matters not governed by the ISP or matters inconsistent with the ISP, be governed and construed in accordance with the laws of the State of [New York], without regard to principles of conflicts of law.

16. This Letter of Credit sets forth in full our undertaking, and such undertaking shall not in any way be modified, amended, changed, amplified or limited by reference to any document, instrument or agreement referred to herein, except for Annexes 1 through 5 hereto and the notices referred to herein; and any such reference shall not be deemed to incorporate herein by reference any document, instrument or agreement except as set forth above. Except as otherwise expressly stated herein, this Letter of Credit may not be amended or modified by us without the consent of an Authorized Officer of the beneficiary.

17. We certify that as of the date of issuance of this Letter of Credit our senior unsecured debt is rated "A" or better by Standard & Poor's Rating Service.

18. This original Letter of Credit has been delivered to you as beneficiary in accordance with the Applicant's instructions. Any demands or communications in the form of the attached Annexes or other communications directed to us under this Letter of Credit must be signed by your Authorized Officer.

Very truly yours,
(Issuing Bank)

DRAWING UNDER LETTER OF CREDIT NO. _____

_____, 20__

To: (Issuing
(Address)

Attention: Standby Letter of Credit Unit

Ladies and Gentlemen:

The undersigned is making a drawing under Your Letter of Credit No. _____ (the Letter of Credit) in the amount specified below and hereby certifies to you as follows:

1. Capitalized terms used herein that are not defined herein shall have the meanings ascribed thereto in the Letter of Credit.

2. The undersigned is making a drawing under the Letter of Credit in the amount of USD $_____ (the "Draw Amount").

3. [Check applicable drawing condition]:

☐ An Event of Default has occurred under an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Commercial Operation Date for the Facility that is subject to an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned has been delayed, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Facility that is subject to an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned has been downsized, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Letter of Credit is scheduled to expire within the next thirty (30) days and the Applicant has failed to deliver a replacement letter of credit as required by the terms of the Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

4. The undersigned acknowledges that, upon your honoring the drawing herein requested, the amount of the Letter of Credit available for drawing shall be automatically decreased by the amount of this drawing honored by you.

Very truly yours,

For value received, the undersigned beneficiary hereby irrevocably transfers to:

_____
(Name of Transferee)

_____
(Address)

all rights of the undersigned beneficiary to draw and receive payments under the above-referenced Letter of Credit in its entirety.

By this transfer, all rights of the undersigned beneficiary in such Letter of Credit are transferred to the transferee, and the transferee shall have the sole rights as beneficiary thereof, including sole rights relating to any amendments, whether increases or extensions or other amendments and whether now existing or hereafter made. All amendments are to be advised directly to the transferee without necessity of any consent of or notice to the undersigned beneficiary.

The original Letter of Credit is returned herewith, and we ask you to endorse the transfer thereon and forward it directly to the transferee at the address indicated above with your customary notice of transfer or issue a new Letter of Credit in the form of the Letter of Credit naming the transferee as the beneficiary thereof.

From and after the transfer of the Letter of Credit, payments under the Letter of Credit shall be made to an account of the transferee in accordance with written instructions you receive from an authorized officer of the transferee.

Pursuant to the Letter of Credit and your agreement with the Applicant, your transfer commission and any other expenses that may be incurred by you in conjunction with this transfer are payable by the Applicant.

SOLAR ALTERNATIVE ENERGY CREDITS PURCHASE AND SALE AGREEMENT

This Solar Alternative Energy Credits Purchase and Sale Agreement (the "Agreement") is entered into as of _____, 20__ (the "Effective Date"), by and between_____, a _____ with principal offices located at _____ ("Seller"), and PECO Energy Company, a Pennsylvania corporation with principal offices located at 2301 Market Street, Philadelphia, Pennsylvania 19101 ("PECO" or the "Company"). PECO and the Seller are herein referred to collectively as the "Parties", and individually as a "Party".

RECITALS

WHEREAS, PECO is an electric distribution company under the Alternative Energy Portfolio Standards Act, 73 P.S. § l648.1 ("AEPS" or "the Act"); and

WHEREAS, Seller owns the rights to alternative energy credits associated with the electricity generated by solar alternative energy systems under the Act, and desires to sell such credits to PECO; and

WHEREAS, PECO desires to purchase such credits from Seller to satisfy PECO's obligations under the Act, subject to the requirements and conditions set forth herein;

NOW THEREFORE, in consideration of the mutual promises contained herein and other good and valuable consideration, PECO and Seller agree as follows:

ARTICLE 8
DEFINITIONS

8.1 **Definitions.** Any capitalized or abbreviated term not elsewhere defined in this Agreement shall have the definition set forth in this Article 1. As used in this Agreement, the following terms shall have the respective meanings set forth below.

"AEC" shall be an alternative energy credit as defined in the Act and of the type specified in Exhibit 1.

"AEC Payment" shall have the meaning set forth in Section 3.4.

"AEPS" shall have the meaning set forth in the Recitals.

"AEPS Reporting Year" shall mean the period from June 1 through May 31 of the following year, or such period as the PaPUC may designate for AEPS compliance purposes.

"Affiliate" means any Person that directly or indirectly controls, is controlled by, or is under common control with the Person in question.

"Agreement" means this Agreement.

"Alternative Compliance Payment" shall be equal to the amount per AEC determined by the PaPUC in accordance with the Act during the latest AEPS Reporting Period.

"Alternate Representative" has the meaning provided in Section 5.3.

"Authorized Representative" has the meaning provided in Section 5.3.

"Bankruptcy Code" means those laws of the United States of America related to bankruptcy, codified and enacted as Title 11 of the United States Code, entitled "Bankruptcy" and found at 11 U.S.C. § 101 et seq.

"Business Day" means a day on which Federal Reserve member banks in Philadelphia, PA are open for business, beginning at 0800 EPT and ending at 1700 EPT.

"Certificate" means a certificate corresponding to an AEC, as defined under the Registry Rules.

"Claim" shall mean any claim, demand, audit, cause of action, litigation, lawsuit, grievance, arbitration, mediation, proceeding (including, without limitation, any bankruptcy, reorganization, dissolution, insolvency, liquidation, extension of bankruptcy or similar proceeding).

"Company" shall have the meaning set forth in the Preamble.

"Contract Amount" means the Contract Amount specified on Exhibit 1, including during the first Contract Year, the Initial Period Contract Amount.

"Contract Price" means the price identified as "Contract Price" on Exhibit 1.

"Contract Year" means a twelve month period during the Term commencing on June 1 and ending on May 31 of the following year.

"Defaulting Party" has the meaning set forth in Section 9.1.

"Deliver" or "Delivery" means the transfer of AECs from Seller to PECO using the Registry in accordance with the Registry Rules.

"Early Termination Date" means the date upon which an Early Termination becomes effective as specified in Section 2.3.

"Effective Date" shall have the meaning set forth in the Preamble.

"Energy" means three-phase, 60-cycle alternating current electric energy, expressed in units of kilowatt-hours or megawatt-hours.

"EPT" means Eastern Prevailing Time (the time then prevailing in the Eastern Time Zone of the United States).

"Event of Default" has the meaning set forth in Section 9.1.

"FERC" means the Federal Energy Regulatory Commission.

"Force Majeure" means an event not anticipated as of the Effective Date, which is not within the reasonable control of the Party affected thereby or attributable to such Party's fault or negligence, and which by the exercise of due diligence the affected Party is unable to overcome or obtain or cause to be obtained a commercially reasonable substitute therefor. Force Majeure includes, but is not restricted to: fire; explosion; civil disturbance; sabotage; action or restraint by court order or public or government authority, so long as the affected Party has not applied for or assisted in the application for, and has opposed where and to the extent reasonable, such government action. Force Majeure shall not include the following: (i) the Seller's ability to sell Energy or AECs at a more advantageous price, (ii) insufficient sunlight, wind, or other natural resource; (iii) a change in a Requirement of Law or Registry Rules. Increased cost of performance by Seller shall not constitute an event of Force Majeure.

"Forward Contract" has the meaning ascribed to such term in Section 101(25) of the Bankruptcy Code.

"Forward Contract Merchant" has the meaning ascribed to such term in Section 101(26) of the Bankruptcy Code.

"Governmental Authority" means any federal, state or local government, court of competent jurisdiction, administrative agency or commission or other governmental or regulatory authority or instrumentality or authorized arbitral body.

"Indemnified Party" shall have the meaning set forth in Section 11.2.1.

"Interest Rate" means the average Federal Funds Effective Rate for the period of time the funds are on deposit. The Federal Funds Effective Rate is published daily on the Federal Reserve website (http://www.federalreserve.gov/releases/h15/update/).

"Issuer Minimum Requirements" shall have the meaning set forth in Section 6.4.2.

"Letter of Credit" has the meaning set forth in Section 6.4. The Letter of Credit must be in the form of Exhibit 2, or another substantially similar form approved by the Company.

"Lien" shall mean any mortgage, deed of trust, lien, pledge, charge, claim, security interest, easement, covenant, right of way, restriction, equity, hypothecation, usufruct or encumbrance of any nature whatsoever, including any conditional sale agreement.

"Material Debt" shall have the meaning set forth in Section 9.1.1.

"Moody's" means Moody's Investors Service, Inc.

"Month" means a calendar month (or any partial calendar month at the outset of the Term in the event that the Term commences during a calendar month).

"MW" means megawatt.

"Nominal Contract Value" means the dollar amount resulting by multiplying the Contract Amount by the Contract Price by ten (10).

"Non-Defaulting Party" means (i) if the Company is the Defaulting Party, the Seller; or (ii) if the Seller is the Defaulting Party, the Company.

"PaPUC" means the Pennsylvania Public Utility Commission.

"PECO" means PECO Energy Company.

"Permit" shall mean any permit, license, registration, certificates of occupancy, approvals or other authorizations of any Governmental Authority.

"Person" shall mean any individual, entity, corporation, general or limited partnership, limited liability company, joint venture, estate, trust, association or other entity or Governmental Authority.

"PJM" means the regional transmission organization operated by PJM Interconnection, Inc.

"Registry" shall mean the PJM GATS system or any successor AEPS alternative energy credit registry designated by the PaPUC.

"Registry Rules" shall mean the operating rules of the Registry.

"Requirement of Law" means any federal, state and local law, statute, regulation, rule, code, ordinance, resolution, order, writ, judgment or decree enacted, adopted, issued or promulgated by any Governmental Authority (including those pertaining to electrical, building, zoning, environmental and occupational safety and health requirements).

"S&P" means Standard and Poor's Rating Services.

"Safe Harbor Provisions of the Bankruptcy Code" means Sections 101(25), 101(26), 101(38A), 101(38B), 362(b)(6), 362 (b)(27), 546(e), 546(j), 556, 561, 562 and 767 of the Bankruptcy Code together with other sections pertaining or referring to any of them and any future amendments to the Bankruptcy Code which provide protections, rights or remedies to non-bankrupt Forward Contract Merchants or Master Netting Participants against bankrupt counterparties under Forward Contracts or Master Netting Agreements.

"Security Instrument" has the meaning set forth in Section 6.4.

"Seller" shall have the meaning set forth in the Preamble.

"Semi-Annual" means the six month calendar period commencing each July and January of the Contract Year (or any partial six month calendar period in the event the Term commences during such period).

"Semi-Annual AECs" shall have the meaning set forth in Section 3.2.

"Taxes" has the meaning set forth in Section 7.7.

"Term" shall mean the period from the Effective Date until the earlier of (i) the Termination Date and (ii) termination pursuant to Section 2.2.

"Termination Date" has the meaning set forth in Section 2.1.

8.2 **Interpretation**. In this Agreement, unless a different intention clearly appears: (a) the singular includes the plural and vice versa; (b) the reference to any Party includes such Party's legal and/or permitted successors and assignees, and reference to a Party in a particular capacity excludes such Party in any other capacity or individually; (c) the reference to any gender includes the other gender; (d) reference to any document other than this Agreement refers to such documents as may be amended, modified, replaced or superseded from time to time, or any successor document(s) thereto; (e) reference to any Article, Section or Exhibit means such Article, Section or Exhibit of this Agreement unless otherwise indicated; (f) "hereunder", "hereof", "hereto", and words of similar import shall be deemed references to this Agreement as a whole and not to any particular Section or other provision; (g) "including" (and with correlative meaning "include"), when following any general statement or term, is not to be construed as limiting the general statement or term to the specific items or matters set forth or to similar items or matters, but rather as permitting the general statement or term to refer to all other items or matters that could reasonably fall within its broadest possible scope; (h) relative to the determination of any period of time, "from" means "from and including", "to" means "to but excluding" and "through" means "through and including"; (i) reference to any law or regulation refers to such law or regulation as may be amended, modified, replaced or superseded from time to time, or any successor law(s) or regulation(s) thereto; and (j) reference to "termination of this Agreement," "this Agreement is terminated," "this Agreement may be terminated" and similar phrases used in this Agreement refer to the termination of deliveries under this Agreement and related on-going rights and obligations, and does not imply or mean a termination of rights, remedies, obligations and provisions which by their nature or as provided elsewhere in the Agreement survive termination.

ARTICLE 9
TERM AND TERMINATION

9.1 **Effective Date and Term.** This Agreement shall be effective on the Effective Date. Unless sooner terminated as provided herein, this Agreement shall end on May 31, 20__ (the "Termination Date").

9.2 **Early Termination.** This Agreement may be terminated prior to the Termination Date pursuant to the following:

9.2.1 At any time by the mutual written consent of the Parties;

9.2.2 By the Non-Defaulting Party if an Event of Default occurs as provided for in Article 9, with such notice as required therein;

9.2.3 By Either Party in the case of a Force Majeure event, the non-terminating Party fails to substantially perform its obligations under this Agreement on account of such Force

Majeure event for a period exceeding 180 days after the occurrence of such Force Majeure event, and after thirty (30) days written notice; provided that such 180-day period may be extended, by the written agreement of both Parties, for an additional 180 days if (i) such Force Majeure event is not remedied within such 180-day period with reasonable diligence, (ii) such Force Majeure event may reasonably be expected to be remedied within such 180-day period, and (iii) the Party not performing its obligations under this Agreement on account of such Force Majeure event promptly undertakes to remedy such Force Majeure event and continues with reasonable diligence to effect such remedy within the 180-day period.

9.3 **Effectiveness of Termination.** Termination under this Article 2 shall be effective immediately after written notice is given, subject to any applicable notice requirements or extensions agreed to by the Parties. If this Agreement is terminated pursuant to any of the provisions above, the effective date of such termination shall be deemed the "Early Termination Date."

9.4 **Survival**.

9.4.1 Termination of this Agreement for any reason shall not relieve PECO or Seller of any obligation accrued or accruing prior to such termination, and the following provisions of this Agreement shall survive any termination: Article 1, Sections 2.4, 2.5, 3.2, 3.3, 3.4, 3.5, 6.4, 6.5, 7.4, 7.6, 7.7, 11.2, 11.3, 12.1, and Articles 9, 13 and 14.

9.4.2 In addition, if this Agreement is terminated pursuant to:

(a) Section 2.2.2, the Non-Defaulting Party may pursue the remedies provided in Article 9;

(b) Section 2.2.3, the Parties may not pursue the remedies provided for in Article 9 and are entitled to receive only amounts due and owing as of the Early Termination Date and under Section 6.1, if any.

9.5 **Preservation of Security**. In the event that Seller has provided a Letter of Credit under the terms of this Agreement, Seller will preserve the Letter of Credit in place until all payments due under this Agreement for which the Letter of Credit has been provided have been made in full.

ARTICLE 10
PURCHASE AND SALE OF AECS

10.1 **Purchase and Sale of AECs.** Subject to the terms and upon the conditions and provisions of this Agreement, Seller shall sell, and PECO shall purchase, all rights, title and interest in the AECs specified in Exhibit 1 equal to the Contract Amount for each Contract Year. Each AEC transferred under this Agreement to satisfy the Contract Amount in each Contract Year shall be generated in that Contract Year.

10.2 **Delivery of AECs by Seller**. For each Semi-Annual period of the Contract Year during the Term, Seller shall Deliver Certificates to PECO for AECs equal to at least fifty percent of the Contract Amount (the "Semi-Annual AECs") until PECO has received the

Contract Amount for the current Contract Year. The Delivery of the Semi-Annual AECs shall be completed no later than the fortieth (40th) day following the end of such Semi-Annual period, or such other date as PECO and the Seller may agree to in writing. Seller and PECO are each responsible for their own costs associated with establishing and administering any accounts with the Registry sufficient to accomplish the Delivery of all AECs. Seller agrees to execute all other documents or instruments, at its expense, necessary to effectuate the Delivery of the AECs to PECO or as may be reasonably requested by PECO. All AECs transferred to PECO shall be free and clear of all Liens. Nothing in this Section shall reduce Seller's obligations under Section 3.4.

10.3 **Ownership of and Title to AECs.** PECO shall have sole, exclusive and perpetual ownership of all AECs Delivered to PECO by Seller under this Agreement, including all rights to sell, assign, transfer, apply, or retire any AEC transferred to PECO by Seller. Title to AECs shall not transfer to PECO prior to Delivery by Seller. Any benefits derived from the AECs after Delivery to PECO shall inure solely to the benefit of PECO and not to Seller.

10.4 **Contract Amount Guarantee.** Seller shall transfer a total amount of AECs equal to the Contract Amount for each Contract Year. In the event that Seller fails to provide the AECs as provided under this Section, Seller shall pay PECO within forty-five (45) days of the end of the Contract Year an amount equal to the higher of the Contract Price or Alternative Compliance Payment ("AEC Payment") for each AEC which Seller fails to transfer to PECO for such Contract Year as liquidated damages. If the PaPUC subsequently determines that the Alternative Compliance Payment for the AEPS Reporting Year in which Seller failed to Deliver the Contract Amount is more than the amount Seller paid for each AEC not Delivered, Seller shall pay PECO the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. If Seller has paid PECO an amount in excess of the actual Alternative Compliance Payment for each AEC not Delivered, PECO shall pay Seller the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. All such additional payments shall be paid by PECO or Seller, as applicable, within thirty (30) days of the PaPUC's determination of the applicable Alternative Compliance Payment for an AEPS Reporting Year.

10.5 **Non-Compliant AECs.** In the event that any AEC transferred to PECO is subsequently determined to be unable to be used by PECO for AEPS compliance due to Seller's failure to comply with any obligation under this Agreement, Seller shall transfer an equivalent AEC to PECO. All AECs transferred to PECO under this Section shall be available for use by PECO for purposes of compliance under the Act as if the AEC had been created at the time the non-compliant AEC was created. Any additional costs or penalties incurred by PECO resulting from the transfer of non-compliant AECs by Seller shall be paid for by Seller.

10.6 **Financing.** PECO shall have no responsibility whatsoever for any financing or costs associated with Seller, including any expenditures necessary or desirable to deliver AECs to PECO under this Agreement.

ARTICLE 11
RESERVED

ARTICLE 12
SELLER OBLIGATIONS

12.1 **AEC Obligations.** During the Term, at its sole cost and expense, Seller represents, warrants and guarantees that:

12.1.1 Seller shall possess sole and exclusive title and legal rights to an AEC prior to the transfer of such AEC to PECO under this Agreement;

12.1.2 Seller shall transfer only valid AECs to PECO which have not been previously retired, claimed or used to satisfy any renewable energy requirements, obligations or voluntary undertaking by any entity in any jurisdiction; and

12.1.3 Seller shall comply with all Registry requirements that are necessary for Seller to perform its obligations under this Agreement.

12.2 **Insurance**.

12.2.1 Seller shall maintain at its sole expense, commencing with the Effective Date and continuing through the Term, insurance customarily maintained for aggregators of RECs, Seller shall provide certificates of insurance or other reasonable evidence of such insurance coverage acceptable to PECO upon request.

12.2.2 Failure to obtain and maintain the required insurance shall constitute a breach of the Agreement and Seller will be liable for any and all costs, liabilities, damages, and penalties (including attorneys' fees, court, and settlement expenses) resulting to PECO from such breach, unless a written waiver of the specific insurance requirement is provided to Seller by PECO.

12.2.3 Failure of Seller to provide insurance as herein required or failure of PECO to require evidence of insurance or to notify Seller of any breach by Seller of the requirements of this Article 5 shall not be deemed to be a waiver by PECO of any of the terms and conditions of this Agreement, nor shall they be deemed to be a waiver of the obligation of Seller to defend, indemnify, and hold harmless PECO as required herein. The obligation to procure and maintain any insurance required is a separate responsibility of Seller and independent of the duty to furnish a copy or certificate of such insurance policies.

12.2.4 Notwithstanding any provision of this Agreement, none of the requirements contained herein as to insurance coverage to be maintained by Seller are intended to and shall not in any manner limit, qualify, or quantify the liabilities and obligations assumed by Seller under this Agreement, any other agreement with PECO or its Affiliates, or otherwise provided by law.

12.3 **Authorized Representatives**. As a means of securing effective cooperation and interchanges of information and of providing consultation on a prompt and orderly basis between the Parties in connection with various administrative, commercial and technical issues that may arise during the performance of this Agreement, each Party shall appoint an authorized representative (with respect to each Party, the "Authorized Representative") and may appoint an alternate (with respect to each Party, the "Alternate Representative") to act in its Authorized Representative's absence. The Authorized Representatives and Alternate Representatives shall be managers well experienced with regard to matters relating to the implementation of the Parties' rights and obligations under this Agreement with full authority to act for and on behalf of the Party appointing them. Upon execution of this Agreement, each Party will notify the other in writing of the name of its Authorized Representative and Alternate Representative so appointed and these appointments will remain in full force and effect until written notice of substitution is delivered by such Party to the other Party.

12.4 **Publicity**. No party shall issue any press release or make any public announcement relating to the subject matter of this Agreement without the prior written approval of the other party, which approval shall not be unreasonably withheld.

ARTICLE 13
CREDIT AND COLLATERAL REQUIREMENTS

13.1 **Credit Support.** Seller shall post security with PECO, at the commencement of the Contract Year, in an amount based on the number of months remaining in the Term, as determined from the table (Credit Support Requirement) in Exhibit 3.

13.2 **Grant of Security Interest**. To secure its obligations under this Agreement, Seller hereby grants to PECO a present and continuing security interest in, and lien on (and right of setoff against), and assignment of, all cash collateral and cash equivalent collateral and any and all proceeds resulting therefrom or the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of, PECO. Seller agrees to take such action as reasonably required to perfect in favor of PECO such security interest in, and lien on (and right of setoff against), such collateral and any and all proceeds resulting therefrom or from the liquidation thereof.

13.3 **Remedies**. Upon or any time after the occurrence of an Event of Default caused by Seller, PECO may do any one or more of the following: (i) exercise any of the rights and remedies of the Company with respect to all collateral, including any such rights and remedies under law then in effect; (ii) exercise its rights of setoff against any and all property of Seller in the possession of PECO, whether held in connection with this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs; (iii) draw on any outstanding Letter of Credit issued for PECO's benefit; and (iv) liquidate all collateral security held by or for the benefit of the PECO free from any claim or right of any nature whatsoever of the Seller, including any equity or right of purchase or redemption by the Seller. PECO shall apply the proceeds of the collateral security realized upon the exercise of such rights or remedies to reduce Seller's obligation under this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs (the Seller remaining liable for any amounts owing to

the Company after such application), subject to PECO's obligation to return any surplus proceeds remaining after such obligations are satisfied in full.

13.4 **Security Instruments.** At Seller's choice, the following are deemed to be acceptable methods for posting security (each, a "Security Instrument"), if required:

13.4.1 Cash; or

13.4.2 An irrevocable transferable standby letter of credit (a "Letter of Credit") acceptable to the Company issued by a bank or other financial institution with a minimum "A" senior unsecured debt rating from S&P or Moody's (the "Issuer Minimum Requirements"). (A standard format for the Letter of Credit is provided in Exhibit 2.) In the event that senior unsecured debt ratings are unavailable from S&P, the corporate issuer rating, discounted one notch, will be used. In the event that senior unsecured debt ratings are unavailable from Moody's, the issuer rating will be used. The Company will only rely on senior unsecured debt ratings, or if unavailable, issuer or corporate issuer ratings. If the Seller does not have a senior unsecured debt rating and does not have an issuer or corporate issuer rating from a rating agency, it will be deemed by the Company not to be rated by that rating agency. The Letter of Credit shall state that it shall renew automatically for successive one-year or shorter periods unless the Company receives written notice from the issuing financial institution at least thirty (30) days prior to the expiration date stated in the Letter of Credit that the issuing financial institution elects not to extend the Letter of Credit. If the Company receives notice from the issuing financial institution that the Letter of Credit will not be extended, the Seller will be required to provide a substitute Letter of Credit from an alternative bank or financial institution satisfying the Issuer Minimum Requirements. The receipt of the substitute Letter of Credit must be effective on or before the expiration date of the expiring Letter of Credit and delivered to the Company at least fifteen (15) days before the expiration date of the original Letter of Credit. If the Seller fails to supply a substitute Letter of Credit as required herein, then the Company will have the right to draw on the expiring Letter of Credit and to hold the amount as collateral. If the credit rating of the issuer of a Letter of Credit falls below the Issuer Minimum Requirements, the Seller shall have two (2) Business Days (or such longer period as the Company in its sole discretion may permit in writing) following written notice by the Company to obtain a suitable Letter of Credit from another bank or other financial institution that meets the Issuer Minimum Requirements.

13.5 **Calling on Security.** The Company may call upon the Security Instrument posted by the Seller (i) if the Seller fails to pay amounts due to the Company pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy and AECs after written notice of default is provided to the Seller and any applicable cure period ends; and (ii) with respect to the Development Security, to satisfy PECO's rights to such portions of the Development Security specified in Section 6.1. The foregoing notwithstanding, the Security Instrument posted by the Seller shall become due automatically, and may be called upon by the Company, without prior notice or right of cure in the case of any Event of Default involving the Seller arising under Section 9.1.1.

13.6 **Interest on Cash Held by Company.** The Company will pay simple interest (not compounded) calculated at the lower of the Interest Rate or six (6) percent per annum on any

Cash posted by the Seller as Performance Security and directly held by the Company pursuant to this Agreement.

ARTICLE 14
BILLING AND PAYMENT; RECORDS

14.1 **Invoices.** Beginning with the end of the first Semi-Annual period after the Effective Date, Seller shall send PECO a statement following the Delivery of AECs after each Semi-Annual period setting forth all amounts due either to the Seller or to PECO arising during the preceding Semi-Annual period. The statement shall include (i) after the commencement of the Term, the quantity of AECs that were Delivered by Seller to PECO during such Semi-Annual period and the total amount owed by PECO for those AECs at the Contract Price, (ii) any interest due to Seller as provided in Section 6.6, and (iii) any other amount due Seller or to PECO under this Agreement in respect of such Semi-Annual period (including the amount of any Replacement AEC Payment). Such statement shall be sent by Seller to PECO no later than fifteen (15) Business Days following the Delivery of AECs for which the statement is applicable.

14.2 **Payment**. Subject to all conditions and provisions of this Agreement (including Section 7.7), no later than fifteen (15) Business Days after the date of a statement submitted by Seller, or if such day is not a Business Day, the immediately following Business Day, the Party owing the net amount shown to be due on such statement shall remit to the other Party, by wire transfer in accordance with Section 12.1, the amount due pursuant to such statement.

14.3 **Interest.** Amounts not paid shall accrue interest from the due date to the date of payment at the Interest Rate.

14.4 **Taxes.** Seller shall be responsible for all existing and any new taxes, fees, levies, assessments, penalties, licenses, or charges imposed or levied by any federal, state or local governmental agency (collectively, "Taxes") on all AECs prior to and including the Delivery of AECs under this Agreement. PECO shall be responsible for all existing and any new Taxes imposed or levied by any federal, state or local governmental agency on AECs after transfer to PECO. If PECO is required to remit or pay Taxes that are Seller's responsibility under this Agreement, then Seller shall promptly reimburse PECO for such Taxes. If Seller is required to remit or pay Taxes that are PECO's responsibility under this Agreement, then PECO shall promptly reimburse Seller for such Taxes.

14.5 **Disputed Amounts.** If either Party, in good faith, disputes any amount due pursuant to a statement rendered hereunder, such Party shall notify the other Party of the specific basis for the dispute and shall pay that portion of the amount shown to be due on the statement that is undisputed, on or before the due date. If any amount disputed by such Party is determined to be due the other Party, whether by agreement of the Parties or through arbitration in accordance with Section 13.2, the amount due shall be paid within five (5) Business Days of such determination or resolution, along with interest accrued at the Interest Rate from the date due to the date paid. Notwithstanding the above, no dispute may be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such payment or statement within one year after the date of such statement or payment.

14.6 **Records.** Each Party shall keep and maintain all records as may be necessary or useful in performing or verifying any calculations made pursuant to this Agreement, or in verifying such Party's performance hereunder. All such records shall be retained by each Party for at least three (3) calendar years following the calendar year in which such records were created.

14.7 **Audit Rights**. Each Party, through its authorized representatives, shall have the right, at its sole expense and during normal business hours, to examine and copy the records of the other Party to the extent reasonably necessary to verify the accuracy of any statement, charge or computation made hereunder or to verify the other Party's performance of its obligations hereunder. If any statement is determined by the Parties or through arbitration to be inaccurate, a corrected statement shall be issued and any amount due thereunder will be promptly paid and shall bear interest calculated at the Interest Rate from the date of the overpayment or underpayment to the date of receipt of the reconciling payment. Notwithstanding the above, no adjustment shall be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such statement or payment within one year after the date of such statement or payment.

ARTICLE 15
REPRESENTATIONS AND WARRANTIES

15.1 **Mutual Representations.** As a material inducement to execution of this Agreement, each Party hereby represents and warrants to the other Party that:

15.1.1 It is duly organized or formed, validly existing and in good standing under the laws of the jurisdiction of its organization or formation, and is qualified to conduct its business in all jurisdictions necessary to perform its obligations hereunder;

15.1.2 The execution, delivery and performance of this Agreement are within its powers, have been duly authorized by all necessary action and do not violate any of the terms or conditions in its governing documents, any agreement to which it is a party or by which it or any of its property is bound, or any Requirement of Law applicable to it;

15.1.3 Except as set forth in and as required by this Agreement, no consent, approval, order or authorization of, or registration, declaration or filing with, any Governmental Authority is required by such Party in connection with the execution, delivery or performance of this Agreement;

15.1.4 This Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms, subject to bankruptcy, insolvency, reorganization and other laws affecting creditors' rights generally, and with regard to equitable remedies, to the discretion of the court before which proceedings to obtain same may be pending;

15.1.5 No Event of Default has occurred and there are no bankruptcy, insolvency, reorganization, receivership or other arrangement proceedings pending or being contemplated by it, or to its knowledge threatened against it;

15.1.6 To such Party's knowledge, there are no actions, proceedings, judgments, rulings or orders, issued by or pending before any court or other governmental body, that would materially adversely affect its ability to perform its obligations under this Agreement;

15.1.7 It is, and will continue to be for the Term, a Forward Contract Merchant both generally and with respect to the AECs delivered and purchased under this Agreement.

15.2 **Forward Contract.** The Parties acknowledge that this Agreement is a Forward Contract and the Parties are Forward Contract Merchants, both generally and with respect to the deliveries of AECs pursuant to this Agreement, that each party is an "eligible contract participant" as set forth in the Commodities Exchange Act; and, accordingly, the Parties are entitled to the protections of the Safe Harbor Provisions of the Bankruptcy Code. The Parties therefore agree that this Agreement may be terminated and the remedies hereunder exercised by either Party in accordance with Article 2 and Article 9 hereof upon the commencement of a proceeding by the other Party under any chapter of the Bankruptcy Code, and that the automatic stay of Section 362(a) of the Bankruptcy Code shall not apply to such termination.

15.3 **No Representation or Warranty By PECO**. Any review by PECO of any information or material pertaining to the Seller is solely for PECO's information only. By conducting such review, PECO makes no representation or warranty as to the Seller. PECO does not endorse or in any way approve of any representation or warranty of Seller in any agreement or to any Person, and Seller shall not make any such representation that PECO has given any such approval.

ARTICLE 16
EVENTS OF DEFAULT AND REMEDIES

16.1 **Events of Default.** An "Event of Default" by a Party (the "Defaulting Party") shall mean:

16.1.1 With respect to Seller, unless otherwise excused or permitted under the terms of this Agreement, the following events, without notice or the opportunity to cure, if the Seller:

(a) fails to meet the ratings requirements or to comply with the collateral requirements set forth in Article 6 within the time frames set forth in this Agreement;

(b) (1) fails to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise) in respect of any indebtedness for borrowed money involving a principal sum in excess of $5,000,000 ("Material Debt") and such failure continues after the applicable grace or notice period, if any, specified in the relevant document on the date of such failure, or (2) fails to perform or observe any other condition or covenant, or any other event shall occur or condition exist, under any agreement or instrument relating to any Material Debt, if, in any such event, the effect of such failure, event or condition is to cause, or permit the holder or holders thereof or beneficiary or beneficiaries thereof (or a trustee or agent on behalf of such holder

or holders or beneficiary or beneficiaries) to cause (after the expiration of any applicable grace period or notice period, if any, specified in the relevant document on the date of such failure) such Material Debt to become due and payable or to be repurchased, defeased or redeemed prior to its expressed maturity;

(c) is dissolved (other than pursuant to a consolidation, amalgamation or merger);

(d) makes an assignment for the benefit of its creditors;

(e) has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets; or

(f) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger).

16.1.2 With respect to either Party, an Event of Default shall occur if such Party:

(a) is the subject of a voluntary bankruptcy, insolvency or similar proceeding;

(b) applies for, seeks consent to, or acquiesces in the appointment of a receiver, custodian, trustee, liquidator or similar official to manage all or a substantial portion of its assets;

(c) is the subject of an involuntary bankruptcy or similar proceeding, and fails to have such proceeding dismissed within 60 days; or

(d) commits an act or makes an omission that constitutes an "Event of Default" under any other agreement(s) between PECO and the Seller for the provision of Energy or AECs.

16.1.3 Unless otherwise excused or permitted under the terms of this Agreement, a Party's failure to make, when due, any payment required pursuant to this Agreement, shall constitute an Event of Default unless a Party shall have cured the same within three (3) Business Days after receipt of written notice of such payment failure from the other Party.

16.1.4 Unless otherwise excused or permitted under the terms of this Agreement, any of the following events shall constitute an Event of Default unless a Party shall have cured the same within thirty (30) days after receipt of written notice of the occurrence of such event from the other Party:

(a) Any representation, warranty or covenant made by such Party herein is proven to be false or misleading in any material respect at the time it was made;

(b) A Party transfers or assigns or otherwise conveys any of its rights or obligations under this Agreement to another entity without the other Party's prior written consent, to the extent such consent is required under this Agreement, or if at the time of such transfer, assignment or conveyance, the resulting, surviving or transferee entity fails to assume all the obligations of such Party under this Agreement by operation of law or pursuant to an agreement reasonably satisfactory to the other Party;

(c) A Party's unexcused failure to perform any other material covenant or obligation set forth in this Agreement that is not enumerated in this Section 9.1; or

(d) with respect to Seller, Seller fails to have and maintain, during the Term, all federal, state and local Permits to permit its performance under this Agreement.

16.2 **Rights Upon Default.** Upon and during the continuation of an Event of Default, the Non-Defaulting Party shall be entitled to elect or pursue one or more of the following remedies:

16.2.1 terminate the Agreement by providing written notice to the Defaulting Party of an Early Termination, as provided in Section 2.2;

16.2.2 accelerate all amounts then owing by the Defaulting Party to the Non-Defaulting Party;

16.2.3 withhold any payments due to the Defaulting Party under this Agreement;

16.2.4 suspend its performance under this Agreement; and

16.2.5 pursue any other remedies available at law or in equity, except to the extent such remedies are expressly limited by this Agreement.

16.3 **Reliance on Netting.** The Parties are making credit, default, collateral and other decisions and changes based upon and in reliance on the effectiveness of the default, early termination, setoff and netting provisions of this Agreement. The Parties would not enter into this Agreement and would change their position with regard to netting except for their reliance on and with the understanding that these netting terms will be effective. Notwithstanding anything else in this Agreement or in any other agreement between the Parties to the contrary, if for any reason these terms or any right of offset or netting hereunder or under another agreement in favor of the Non-Defaulting Party against a bankrupt Defaulting Party is delayed from being exercised or is not enforceable in accordance with its terms because either Party asserts or is concerned that the Safe Harbor Provisions of the Bankruptcy Code do not apply to such rights of enforcement or for any other reason, the Non-Defaulting Party may (a) exercise its rights to effect a setoff under Section 553 of the Bankruptcy Code or other applicable provisions, equity and law, and (b) withhold payments subject to a claim of offset under any obligations due the Defaulting Party in respect of any transactions or deliveries under this Agreement or any other agreement until such setoff rights are exercised and effected.

16.4 **Setoff of Payment Obligations of the Non-Defaulting Party.** Any payment obligations of the Non-Defaulting Party to the Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs shall be set off: (i) first, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured; (ii) second, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured, but which are subject to a guaranty; and (iii) third, to satisfy any remaining payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs. Any setoff shall not be subject to the automatic stay by virtue of Section 362(b)(6) of the Bankruptcy Code.

16.5 **Preservation of Rights of the Non-Defaulting Party.** The rights of the Non-Defaulting Party under this Agreement, including Sections 9.3 and 9.4 shall be supplemental to, and not in lieu of, any right of recoupment, lien, or set-off afforded by applicable Requirements of Law, and all such rights are expressly preserved for the benefit of the Non-Defaulting Party.

16.6 **Integrated Transaction.** To the extent that Section 365 of the Bankruptcy Code applies to this Agreement, the Parties agree that all transactions under this Agreement constitute one integrated transaction that can only be assumed or rejected in its entirety.

ARTICLE 17
ASSIGNMENT

17.1 **Assignment.** Neither Party shall assign this Agreement or any of its rights or obligations hereunder (including by lease, subcontract, or otherwise) without the prior written consent of the other Party. Notwithstanding the foregoing, either Party may, without the need for consent from the other Party, transfer or assign this Agreement to an Affiliate of such Party, providing that the assigning Party shall provide notice to the other Party and shall remain responsible for its obligations under the Agreement. In all such transfers and assignments, the succeeding Party must agree to comply with all the provisions, terms and conditions of this Agreement, including the credit and collateral security requirements set out in Article 6. Except as specifically provided in this Article 10, any assignment or transfer of this Agreement or any rights, duties or interests hereunder by any Party without the written consent of the other Party shall be void and of no force or effect.

ARTICLE 18
FORCE MAJEURE; INDEMNITY; LIMITATION OF LIABILITY

18.1 **Force Majeure.** If either Party is rendered unable by a Force Majeure event to carry out, in whole or in part, its obligations under this Agreement, then, during the pendency of such event of Force Majeure, but for no longer period, the obligations of the affected Party (other than the obligation to make payments hereunder when due) shall be suspended to the extent required. The affected Party shall (i) give the other Party written notice within 48 hours of the commencement of the Force Majeure event, with details to be supplied within three (3) Business

Days after the commencement of the Force Majeure event further describing the particulars of the occurrence of the Force Majeure event, and (ii) take all reasonable steps to remedy the cause of the Force Majeure event with all reasonable dispatch. Whenever either Party is required to commence or complete any action within a specified period, such period shall be extended by an amount equal to the duration of any event of Force Majeure occurring or continuing during such period; provided, however, that in no event will any Force Majeure event extend this Agreement beyond its Term. A determination of force majeure by the PaPUC under the Act shall not constitute a determination of Force Majeure under this Agreement.

18.2 **Indemnification.**

18.2.1 Each Party shall indemnify, defend and hold harmless the other Party and its officers, directors, agents and employees (each an "Indemnified Party") from and against any and all claims, demands, actions, losses, liabilities, expenses (including reasonable legal fees and expenses), suits and proceedings of any nature whatsoever for personal injury, death or property damage to third parties (collectively "Liabilities") that arise out of or are in any manner connected with the performance of this Agreement.

18.2.2 Any fines, penalties or other costs incurred by a Party or its agents, employees or subcontractors for non-compliance by such Party, its agents, employees or subcontractors with any Requirement of Law will not be reimbursed by the other Party but will be the sole responsibility of such non-complying Party.

18.2.3 A Party seeking indemnification under this Section 11.2 shall give written notice to the indemnifying Party as soon as reasonably practicable after the Indemnified Party becomes aware of any fact, condition or event which may give rise to Liabilities for which indemnification may be sought under this Section 11.2.

18.3 **Limitations of Remedies, Liability and Damages.** The Parties agree that the remedies and measures of damages provided in this Agreement satisfy the essential purposes hereof. If no measure of damages or other remedy is expressly provided herein, the obligor's liability shall be limited to direct actual damages only, which direct actual damages shall be the sole and exclusive remedy and all other remedies or damages at law or in equity are waived. Unless otherwise provided herein, neither Party shall be liable for consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages, (other than consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages recovered by an unaffiliated third party against a Party subject to indemnification hereunder), whether such damages are allowed or provided by statute, in tort, under any indemnity provision or otherwise.

ARTICLE 19
NOTICES AND ADDRESS FOR PAYMENT

19.1 **Notices.**

19.1.1 Except as set forth in Section 12.1.2, all notices, requests, statements or payments, if by check, shall be made to the addresses set out below. Notices required to be in writing shall be delivered by letter, facsimile or other documentary form. Notice by facsimile or

hand delivery shall be deemed to have been received by the close of the Business Day during which the notice is received or hand delivered. Notice by mail or overnight courier shall be deemed to have been received upon delivery as evidenced by the delivery receipt.

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

19.1.2 All notices, demands or requests regarding credit requirements and credit related security or deposit transfers shall be in writing and shall be personally delivered or sent by overnight express mail, courier service or facsimile transmission (with the original transmitted by any of the other aforementioned delivery methods) to the addresses specified below:

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

19.1.3 All amounts due Seller under this Agreement that are paid by check must be sent via United States mail to the address specified below:

19.1.4 All amounts due PECO under this Agreement that are paid by check must be sent via United States mail to the address specified below:

19.1.5 A Party's address or addressee to which notices or invoices shall be sent may be changed from time to time by such Party by notice served as hereinabove provided.

19.2 **Notice After Close of Business.** Notice received after the close of the Business Day shall be deemed received on the next Business Day; provided, however, that notice by

facsimile transmission shall be deemed to have been received by the recipient if the recipient confirms receipt telephonically or in writing.

ARTICLE 20
DISPUTE RESOLUTION

20.1 **Negotiations.** The Parties shall attempt in good faith to resolve all disputes arising out of or related to or in connection with this Agreement promptly by negotiation, as provided in this Section. Any Party may give the other Party written notice of any dispute not resolved in the normal course of business. Executives of both Parties at levels one level above the personnel who have previously been involved in the dispute shall meet at a mutually acceptable time and place within ten (10) Business Days after delivery of such notice, and thereafter as often as they reasonably deem necessary, to exchange relevant information and to attempt to resolve the dispute. If the matter has not been resolved within thirty (30) Business Days from the referral of the dispute to senior executives, or if no meeting of senior executives has taken place within fifteen (15) Business Days after such referral, either Party may initiate arbitration as provided in Section 13.2. All negotiations pursuant to this clause are confidential, shall be considered to be in the nature of settlement discussions and shall be subject to Section 13.3.

20.2 **Arbitration.**

20.2.1 If the negotiation process provided for in Section 13.1 has not resolved the dispute, the dispute shall be decided by binding arbitration at Philadelphia, Pennsylvania in accordance with the Commercial Arbitration Rules of the American Arbitration Association (except as expressly provided otherwise herein). The arbitration shall be governed by the United States Arbitration Act (9 U.S.C. § 1 et seq.), and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. This agreement to arbitrate and any other agreement or consent to arbitrate entered into in accordance herewith will be specifically enforceable under the prevailing arbitration law of any court having jurisdiction. Any arbitration may be consolidated with any other arbitration proceedings between the Parties commenced under this Section 13.2. The award of the arbitrator shall be specifically enforceable in a court of competent jurisdiction.

20.2.2 Either Party may commence the arbitration by giving to the other Party written notice in sufficient detail of the existence and nature of any dispute proposed to be arbitrated. The demand must be made within a reasonable time after the dispute has arisen. In no event may the demand for arbitration be made if the institution of legal or equitable proceedings based on such dispute is barred by the applicable statute of limitations. The Parties shall attempt to agree on a person to serve as arbitrator with respect to the matter at issue. If the Parties cannot agree on an arbitrator within ten (10) Business Days of such notice, each shall then appoint one individual to serve as an arbitrator within thirty (30) Business Days of such notice and the two (2) individuals thus appointed shall select a third arbitrator to serve as chairman of the panel of arbitrators. Such three (3) arbitrators shall determine all matters by majority vote; provided however, if the two (2) arbitrators appointed by the Parties are unable to agree upon the appointment of the third arbitrator within ten (10) Business Days after their appointment, both shall give written notice of such failure to agree to the Parties, and, if the

Parties fail to agree upon the selection of such third arbitrator within five (5) Business Days of such notice, then either of the Parties upon written notice to the other may require such appointment from, and pursuant to the Commercial Arbitration Rules of the American Arbitration Association. Any arbitrator appointed shall be a present or former executive of an electric utility, or private power producer, or an attorney, in each case with substantial experience in electric power purchase agreements. Prior to appointment, each arbitrator shall agree to conduct such arbitration in accordance with the terms of this Agreement.

20.2.3 The Parties shall have sixty (60) calendar days after appointment of all arbitrators to perform discovery and present evidence and argument to the arbitrators. During that period, the arbitrators shall be available to receive and consider all such evidence as is relevant and, within reasonable limits due to the restricted time period, to hear as much argument as is feasible, giving a fair allocation of time to each Party to the arbitration. The arbitrators shall use all reasonable means to expedite discovery and to sanction noncompliance with reasonable discovery requests or any discovery order. The arbitrators shall not consider any evidence or argument not presented during such period and shall not extend such period except by the written consent of both parties. At the conclusion of such period, the arbitrators shall have forty-five (45) calendar days to reach a determination.

20.2.4 The arbitrators shall have the right only to interpret and apply the terms and conditions of this Agreement and to order any remedy allowed by this Agreement, and may not change any term or condition of this Agreement, deprive either Party of any right or remedy expressly provided hereunder, or provide any right or remedy that has been excluded hereunder.

20.2.5 The arbitrators shall give a written decision to the Parties stating their findings of fact, conclusions of law and order, and shall furnish to each Party a copy thereof signed by them within five (5) calendar days from the date of their determination. Each party shall pay the cost of the arbitrator or arbitrators, with respect to those issues as to which they do not prevail, as determined by the arbitrator or arbitrators.

20.3 **Settlement Discussions.** The Parties agree that no statements of position or offers of settlement made in the course of the dispute process described in Section 13.1 above will be offered into evidence for any purpose in any litigation or arbitration between the Parties, nor will any such statements or offers of settlement be used in any manner against either Party in any such litigation or arbitration. Further, no such statements or offers of settlement shall constitute an admission or waiver of rights by either Party in connection with any such litigation or arbitration. At the request of either Party, any such statements and offers of settlement, and all copies thereof, shall be promptly returned to the Party providing the same.

20.4 **Preliminary Injunctive Relief.** Nothing in this Article 13 shall preclude, or be construed to preclude, the resort by either party to a court of competent jurisdiction solely for the purposes of securing a temporary or preliminary injunction to preserve the status quo or avoid irreparable harm pending arbitration pursuant to this Article 13.

ARTICLE 21
MISCELLANEOUS

21.1 **Entire Agreement**. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof, and it supersedes all prior oral or written agreements, commitments, negotiations or understandings with respect to the matters provided for herein.

21.2 **Schedules and Exhibits.** The Schedules and the Exhibits attached hereto are hereby incorporated into this Agreement and are hereby made a part hereof as if set out in full herein.

21.3 **Amendment.** Unless expressly provided otherwise in another provision of this Agreement, this Agreement shall not be amended, altered or modified except by an instrument in writing duly executed by both Parties. It is agreed that no use of trade or other regular practice or method of dealing between the Parties hereto shall be used to modify, interpret, supplement, or alter in any manner the terms of this Agreement.

21.4 **Waiver.** Any agreement on the part of a Party to any extension or waiver of any provision hereof shall be valid only if set forth in an instrument in writing signed on behalf of such Party. A waiver by a Party of the performance of any covenant, agreement, obligation, condition, representation or warranty shall not be construed as a waiver of any other covenant, agreement, obligation, condition, representation or warranty. A waiver by a Party of the performance of any act shall not constitute a waiver of the performance of any other act or an identical act required to be performed at a later time.

21.5 **Remedies Cumulative.** No right or remedy herein conferred upon or reserved to either Party is intended to be exclusive of any other right or remedy, and each and every right and remedy shall be cumulative and in addition to any other right or remedy under this Agreement, or under applicable law, whether now or hereafter existing.

21.6 **Binding Effect; Limitation of Benefits**. This Agreement shall be binding upon and shall insure to the benefit of the Parties hereto and, subject to the provisions of Article 10 hereof, their successors and permitted assigns. Nothing in this Agreement is intended to confer benefits, rights or remedies unto any Person other than the Parties and their permitted successors and assigns, and no third party shall have the right to enforce the provisions of this Agreement.

21.7 **Compliance with Laws**. Except as otherwise provided in this Agreement, each Party to this Agreement shall comply, at its own expense, with all applicable laws, statutes, regulations, rules, ordinances, orders, injunctions, writs, decrees or awards of any government or political subdivision thereof, or any agency, authority, bureau, commission, department or instrumentality thereof, or any court, tribunal, or arbitrator, in all applicable, material respects in connection with all activities and all performance under or in connection with this Agreement.

21.8 **Governing Law**. The validity, interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the Commonwealth of Pennsylvania, without giving effect to any choice of conflict of law provision or rule (whether of the

Commonwealth of Pennsylvania or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the Commonwealth of Pennsylvania.

21.9 **No Partnership or Joint Venture**. This Agreement is not intended to create nor shall it be construed to create any partnership or joint venture relationship between PECO and Seller, and neither Party hereto shall have the power to bind or obligate the other Party. Neither Party hereto shall be liable for the payment or performance of any debts, obligations, or liabilities of the other Party, unless expressly assumed in writing herein or otherwise. Each Party retains full control over the employment, direction, compensation and discharge of its employees, and will be solely responsible for all compensation of such employees, including social security, withholding and worker's compensation responsibilities.

21.10 **Headings.** The titles, headings and table of contents contained in this Agreement are inserted for convenience of reference only, shall not be deemed to be a part of this Agreement for any purpose, and shall not in any way define or affect the meaning, construction or scope of any of the provisions hereof.

21.11 **Number of Days**. In computing the number of days for purposes of this Agreement, all days shall be counted, including Saturdays, Sundays, and holidays; provided, however, that if the final day of any time period falls on a Saturday, Sunday, or holiday, then the final day shall be deemed to be the next day which is not a Saturday, Sunday, or holiday.

21.12 **E-mail in Place of Writing**. Where the parties agree, any written notification required by this Agreement may be transmitted via e-mail.

21.13 **Severability**. Whenever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the domestic laws of the Commonwealth of Pennsylvania as provided herein, but if any provision of this Agreement is held to be illegal, invalid or unenforceable under present or future Laws effective during the term hereof, then (a) in lieu of such illegal, invalid or unenforceable provision, the Parties shall promptly endeavor, in good faith negotiations, to agree on a provision as may be possible and be legal, valid and enforceable, provided that no Party shall be required to agree to any provision that would materially alter any of its rights or obligations under this Agreement, and (b) the legality, validity and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby. To the extent permitted by law, each Party hereby waives any Requirement of Law that renders any such provision prohibited or unenforceable in any respect.

21.14 **Counterparts**. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which taken together shall constitute one single agreement between the Parties.

SAMPLE LETTER OF CREDIT

[On Issuing Bank's Letterhead]
IRREVOCABLE TRANSFERABLE STANDBY LETTER OF CREDIT

_____ (Date)

Letter of Credit No. _____

To: PECO Energy Company
[address]
Attention:_____

We hereby establish this Irrevocable Transferable Standby Letter of Credit (this "Letter of Credit") in your favor in the amount of USD $_____, effective immediately and available to you at sight upon demand at our counters at _____[designate Issuing Bank's location for presentments] and expiring at 5:00 PM [New York, NY time[1]] on _____, 20__, [one year after date of issuance] (the "Initial Expiration Date"), unless terminated earlier in accordance with the provisions of Paragraph 11 hereof or extended one or more times in accordance with the provisions of Paragraph 10 hereof (the "Extended Expiration Date"; the latest of the Initial Expiration Date and any Extended Expiration Date being referred to herein as the "Expiration Date").

3. This Letter of Credit is issued at the request and for the account of _____ _____ _____ (including its successors and assigns, the "Applicant"), to secure its obligations under one or more Alternative Energy Purchase and Sale Agreements between you and the Applicant or its affiliates.

3. We hereby irrevocably authorize you to draw on us, in accordance with the terms and conditions hereof, up to the amount available under this Letter of Credit from time to time, subject to reduction as provided in Paragraph 8. A partial or full drawing hereunder may be presented by you on any Business Day on or prior to the Expiration Date by delivering or transmitting to _____ (identify Issuing Bank), _____ _____ (U.S. address), (a) a notice executed by you substantially in the form of Annex 1 hereto, appropriately completed and duly signed by your Authorized Officer and (b) your draft substantially in the form of Annex 2 hereto, appropriately completed and duly signed by your Authorized Officer.

[1] If the issuer of the Letter of Credit is located in an area that is not in the Eastern time zone, this time and all other times in this Letter of Credit, and the definition of a Business Day should be adjusted accordingly

5. Drafts, document(s) and other communications hereunder may be presented or delivered to us by facsimile transmission. Presentation of documents to effect a draw by facsimile must be made to the following facsimile number: _____, and confirmed by telephone to us at the following number: _____. In the event of a presentation via facsimile transmission, no mail confirmation is necessary and the facsimile transmission will constitute the operative drawing documents.

6. We will honor a drawing hereunder made in compliance with the terms and provisions of this Letter of Credit by transferring in immediately available funds the amount specified in your draft (or so much thereof as is available hereunder) delivered or transmitted to us in connection with such drawing to the account designated as provided below, by 3:00 PM [New York, NY time] on the date of such drawing, if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made prior to 11:00 AM [New York, NY time] on a Business Day, but at the opening of business on the first Business Day next succeeding the date of such drawing if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made on or after 11:00 AM [New York, NY time] on any Business Day.

8. If a demand for payment made by you hereunder does not, in any instance, conform to the terms and conditions of this Letter of Credit, we shall give you notice not later than the time provided in Paragraph 5 above for honor of a drawing presented to us, that the demand for payment was not effected in accordance with the terms and conditions of this Letter of Credit, stating the reasons therefor and that we will upon your instructions hold any documents at your disposal or return the same to you. Upon being notified that the demand for payment was not effected in conformity with this Letter of Credit, you may attempt to correct any such non-conforming demand for payment to the extent that you are entitled to do so, provided, however, in such event a conforming demand for payment must be timely made in accordance with the terms of this Letter of Credit.

9. Unless otherwise hereafter designated in writing to us by your Authorized Officer, all payments made by us under this Letter of Credit shall be transmitted by wire transfer to you pursuant to the following instructions:

   PECO Energy Company
   Account No.: _____
   Bank: _____
   Bank's Address: _____
   _____
   ABA Routing No.: _____
   Contact: _____
   Telephone No.: _____

8. Partial drawings are permitted hereunder and multiple drawings are permitted hereunder. The amount available for drawing by you under this Letter of Credit shall be automatically reduced to the extent of the amount of any drawings referencing this Letter of Credit paid by us. Presentation of demands for drawings in amounts that exceed the amount available to be drawn hereunder shall not be deemed a failure to comply with the requirements of Paragraph 3 hereof,

provided that the amounts payable on any such demand shall not exceed the amount then available to be drawn under this Letter of Credit.

9. We may, but shall not be obligated to, accept any request by you to amend this Letter of Credit to increase or decrease the amount available hereunder. Such request may be made pursuant to a "New Availability Request" in the form of Annex 3 hereto appropriately completed and executed by your Authorized Officer delivered to us requesting us to amend this Letter of Credit to change the amount available hereunder to the amount set forth in such New Availability Request. Upon acceptance by us of your New Availability Request to change the amount of this Letter of Credit, we will issue to you an amendment of this Letter of Credit in the amount set forth in the New Availability Request. The amount available under this Letter of Credit from the date of such amendment shall be the full amount stated therein regardless of our honor and payment of draws under this Letter of Credit prior to such amendment. If we fail to issue an amendment complying with your New Availability Request within two (2) Business Days after we receive it, any such amendment issued thereafter decreasing the amount of this Letter of Credit, even if in accordance with your New Availability Request, shall require your express acceptance before it is effective.

10. It is a condition of this Letter of Credit that its Expiration Date shall be automatically extended from its Initial Expiration Date, or any Extended Expiration Date, for successive one year periods unless you receive written notice from us at least thirty (30) days prior to the then current Expiration Date, sent by Federal Express or other nationally recognized next business day courier or delivery service to you at your address stated above (or such other address an Authorized Officer of your notifies us of in writing) that we elect not to extend this Letter of Credit for such additional one year period.

11. This Letter of Credit shall terminate on the earliest of the date (a) you have made drawings which exhaust the amounts available to be drawn under this Letter of Credit, (b) we receive from you a Certificate of Cancellation in the form of Annex 4 hereto together with the original of this Letter of Credit returned for cancellation, or (c) unless extended, 5:00 PM [New York, NY time] on the Expiration Date.

12. Rule 3.14(a) of the ISP as it applies to this Letter of Credit is hereby modified to provide as follows:

    > If on the last Business Day for presentation the place for presentation stated in this Letter of Credit is for any reason closed, then the last day for presentation is automatically extended to the day occurring thirty calendar days after the place for presentation re-opens for business.

    Rule 3.14(b) of the ISP is hereby modified by providing that any alternate place for presentation we may designate pursuant to this rule must be in the United States.

13. As used herein:

"Authorized Officer" shall mean President, Treasurer, any Vice President or any Assistant Treasurer.

"Business Day" shall mean any day on which commercial banks are not authorized or required to close in [New York, New York] and any day on which payments can be effected on the Fedwire system.

"New Availability Request" shall mean a request form substantially in the form of Annex 3 hereto, appropriately completed and duly signed by your Authorized Officer.

14. This Letter of Credit is transferable pursuant to a notice of transfer in the form of Annex 5 hereto, to an entity you identify to us in such instrument as your transferee, and we hereby consent to such transfer. Any and all transfer fees, expenses and costs shall be borne by the Applicant. Any payments made under this Letter of Credit after its transfer shall be made to the account of the transferee as designated to you by an Authorized Officer of the transferee.

15. This Letter of Credit is subject to and shall be governed by the International Standby Practices 1998 (International Chamber of Commerce Publication No. 590), or any successor publication thereto (the "ISP"), except to the extent that the terms hereof are inconsistent with the provisions of the ISP, in which case the terms of this Letter of Credit shall govern. This Letter of Credit shall, as to matters not governed by the ISP or matters inconsistent with the ISP, be governed and construed in accordance with the laws of the State of [New York], without regard to principles of conflicts of law.

16. This Letter of Credit sets forth in full our undertaking, and such undertaking shall not in any way be modified, amended, changed, amplified or limited by reference to any document, instrument or agreement referred to herein, except for Annexes 1 through 5 hereto and the notices referred to herein; and any such reference shall not be deemed to incorporate herein by reference any document, instrument or agreement except as set forth above. Except as otherwise expressly stated herein, this Letter of Credit may not be amended or modified by us without the consent of an Authorized Officer of the beneficiary.

17. We certify that as of the date of issuance of this Letter of Credit our senior unsecured debt is rated "A" or better by Standard & Poor's Rating Service.

18. This original Letter of Credit has been delivered to you as beneficiary in accordance with the Applicant's instructions. Any demands or communications in the form of the attached Annexes or other communications directed to us under this Letter of Credit must be signed by your Authorized Officer.

Very truly yours,
(Issuing Bank)

Attention: Standby Letter of Credit Unit

Ladies and Gentlemen:

The undersigned is making a drawing under Your Letter of Credit No. _____ (the Letter of Credit) in the amount specified below and hereby certifies to you as follows:

1. Capitalized terms used herein that are not defined herein shall have the meanings ascribed thereto in the Letter of Credit.

2. The undersigned is making a drawing under the Letter of Credit in the amount of USD $_____ (the "Draw Amount").

3. [Check applicable drawing condition]:

☐ An Event of Default has occurred under an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Letter of Credit is scheduled to expire within the next thirty (30) days and the Applicant has failed to deliver a replacement letter of credit as required by the terms of the Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

4. The undersigned acknowledges that, upon your honoring the drawing herein requested, the amount of the Letter of Credit available for drawing shall be automatically decreased by the amount of this drawing honored by you.

Very truly yours,

all rights of the undersigned beneficiary to draw and receive payments under the above-referenced Letter of Credit in its entirety.

By this transfer, all rights of the undersigned beneficiary in such Letter of Credit are transferred to the transferee, and the transferee shall have the sole rights as beneficiary thereof, including sole rights relating to any amendments, whether increases or extensions or other amendments and whether now existing or hereafter made. All amendments are to be advised directly to the transferee without necessity of any consent of or notice to the undersigned beneficiary.

The original Letter of Credit is returned herewith, and we ask you to endorse the transfer thereon and forward it directly to the transferee at the address indicated above with your customary notice of transfer or issue a new Letter of Credit in the form of the Letter of Credit naming the transferee as the beneficiary thereof.

From and after the transfer of the Letter of Credit, payments under the Letter of Credit shall be made to an account of the transferee in accordance with written instructions you receive from an authorized officer of the transferee.

Pursuant to the Letter of Credit and your agreement with the Applicant, your transfer commission and any other expenses that may be incurred by you in conjunction with this transfer are payable by the Applicant.

Very truly yours,

Beneficiary:

RFP BIDDER APPLICATION CHECKLIST

BIDDER APPLICATION CHECKLIST

Facility Name:		Bidder No.:	
Name of Bidder:			
Contact:		Title:	
E-mail:		Phone:	
Address:	City:	State:	Zip Code:

INSTRUCTIONS

A signed original of this checklist must be attached to the Bidder's original Application, with a copy attached to each of the three required additional Application copies.

- ☐ RFP Bidder Application Checklist (this document)
- ☐ Bidder Application
- ☐ Executed Confidentiality Agreement
- ☐ Bid Deposit (certified check or wire payment only)

Contract Amount (Solar AECs)	Bid Deposit:
☐ 50 to 1,000	$2,500
☐ 1,001 to 2,000	$20,000
☐ 2,001 to 3,000	$30,000
☐ 3,001 to 4,000	$40,000

SIGNATURE OF AUTHORIZED REPRESENTATIVE

I am an officer or other authorized representative of the Bidder and certify that all of the information, statements, data and representations in the attached Application are true to the best of my knowledge and belief. I hereby submit this Application on behalf of the Bidder and acknowledge that this submission constitutes acceptance and agreement to all terms of PECO's Solar Alternative Energy Credits Requests for Proposal (issued [date]).

FORM OF BIDDER APPLICATION

FORM OF BIDDER APPLICATION

All Bidder Applications shall be in PDF electronic format with Bidder information organized in sections in the following order. All capitalized terms shall have the meaning set forth in the form Alternative Energy Credit and Purchase Agreement. Aggregator Bidders should not complete Sections 1 through 7. Bidders who are not aggregating AECs should not complete Section 8.

Section 1. Facility Information.

Bidder shall provide a written description of the Facility of no more than 20 pages, which details the following:

- Address of the Facility and legal description of the Facility site
- Basis for certification of Facility as an Alternative Energy System, including description of the electric generation process at the Facility
- Nameplate capacity and anticipated annual energy output of the Facility
- Major equipment, with specifications
- Impact Assessment studies (e.g., environmental reports)
- Interconnection Status
- Plans for use or sale of generation from the Facility
- Anticipated useful life of the Facility

Bidder shall also include a site layout plan and one-line diagrams showing electric generation and any collection and delivery to a Host or, if applicable, delivery point for PJM (or delivery into another delivery point in Pennsylvania if not in PJM).

Section 2. Project Schedule.

For a Facility in development, Bidder shall provide a project milestone schedule. The schedule should include milestone dates for site control, facility construction, equipment supply and delivery, permitting, interconnection, financing, commissioning, and commercial operation.

Section 3. Property Rights.

Bidder shall describe bidder's level of Site Control (including easements and rights-of-way) and provide documentation of Bidder's rights to the property on which the Facility is (or will be) located, including and conditions or limitations upon use affecting those rights, including any rights necessary to interconnect with the Grid.

Section 4. Permits and Government Approvals.

Bidder shall list all federal, state and local permits or approvals required for the Facility, including (i) permit or approval status; (ii) date of issue or expected date of issue; and (iii) expected expiration date. Bidder shall provide copies of all permits and approvals, applications, and relevant associated correspondence.

Section 5. Contracts.

Bidder shall describe all contracts or agreements necessary for development and commercial operation of the Facility and the status of such contracts or agreements, including:

- Contracts for sale of generation or AECs from the Facility.
- Equipment supply agreements
- Equipment warranty agreements
- Any EPC Agreement
- Any Operations and Maintenance Agreements
- Any agreement with a Host

Section 6. Interconnection.

Bidder shall describe in detail the status of any connection of the Facility to its Host or to PJM, including: (i) any interconnection point; (ii) the status of any interconnection agreement or request for interconnection agreement and anticipated date for execution; (iii) the status of any interconnection studies (e.g., Feasibility, System Impact), or (iv) the satisfaction (or anticipated satisfaction) of applicable net metering requirements. Bidder shall attach correspondence documenting any interconnection status of the Facility and the method by which electricity from the Facility will be measured for purposes of PJM GATS.

Section 7. Facility Financing.

For new projects, Bidder shall describe, in detail, the financing structure for the Facility and attach any necessary documentation, including a letter(s) from the institution(s) that will finance the project. A separate letter should be provided for each entity providing financing except in the case in which there is a lead financier authorized to act on behalf of other interests. The letter should include the following:

- The name of the financial institution.
- The contact information for the person preparing the letter.
- The structure of any proposed financing (confidential information such as proposed financing costs need not be disclosed).
- A statement to the effect that the financier(s) have reviewed project pro forma statements.
- A statement to the effect that the financier(s) have reviewed the form Alternative Energy Credit Purchase and Sale Agreement.
- A statement to the effect that the financier(s) have reviewed the bidder's offer to the Company, including pricing terms.
- A statement to the effect that the financier(s) has a strong interest in financing the project.
- A statement confirming that financing will be finalized within sixty (60) days of executing the AEC Purchase and Sale Agreement.

The letter(s) shall not be interpreted to constitute an irrevocable commitment to finance, unless otherwise stated in the letter(s). Rather, the letter (s) will be used by PECO to assess the likelihood that the project can be completed on the schedule and as the price proposed by the bidder. PECO may, at its discretion, contact the person and institution listed in the letter to verify the information presented. By submitting a bid, bidder acknowledges PECO's right to contact the listed institution and person. PECO reserves the right to reject any bid for which it is unable to confirm information presented in the letter(s).

Section 8. Aggregator Bidder Business Plan

Bidder shall provide the following information:

- Provide Business Plan for how Bidder intends to acquire and deliver the maximum Contract Amount bid and to be delivered over the ten year term.

- Documentation of sufficient management and other personnel experienced in the business if aggregating AECs for resale, including the purchase and sale of at least 700 Tier 1 solar AECs in Pennsylvania in the calendar year preceding PECO's RFP.

- Documentation of sufficient financing for aggregation and provision of the Contract Amount of AECs.

Section 9. Bidder Information.

Bidder shall provide the following information:

- Bidder organizational structure (Corporation, LLC, Partnership) and description of principle business (All bidders)
- Description of all ownership interests holding more than 5% of equity in the Facility (including partners, joint venturers), including ultimate corporate parent of each interest (Project bidders)
- Description of Bidder management, consultants, and advisors, and their experience in developing, financing, owning and/or operating generating facilities (Project bidders)
- Description of Bidder's operational plans and maintenance capabilities (Project bidders)
- Description of Bidder's long-term plans for the Facility (Project bidders)
- Documentation of Bidder's ability to satisfy AEC Purchase and Sale Agreement terms, including Development and Performance Security requirements (All bidders)
- For public companies with an ownership interest in the Facility, copies of the most recent 10-K and 10-Q for each company (Project bidders)
- For non-public companies, copies of the most recent audited financial statements and unaudited financial statements (income and balance sheet) for the most recent quarter (Project bidders)

Section 9. Other Bidder Information.

Bidder shall address each of the following specific questions and provide detail with any affirmative answer:

- Has Bidder ever defaulted on a contract?
- Has Bidder ever not met a contractual delivery date?
- Has Bidder ever requested to renegotiate contract pricing in an executed agreement?
- Is there any pending litigation relating to Bidder or the Facility?
- As Bidder or any Affiliate of Bidder ever filed for bankruptcy?

Bidder shall set forth any additional information Bidder believes should be considered by PECO in evaluating its Application.

CONFIDENTIALITY AGREEMENT

CONFIDENTIALITY AGREEMENT

This Confidentiality Agreement ("Agreement") is made on _____, 202[__] by and between PECO Energy Company, a Pennsylvania company ("PECO"), and [Bidder], a _____ company ("Bidder"), each a "Party" and collectively the "Parties."

Background

A. Bidder has determined to submit an application (the "Application") in response to PECO's Request for Proposals ("RFP") for Solar Alternative Energy Credits ("AECs"), as defined by the Alternative Energy Portfolio Standards Act, 73 P.S. § 1648.1 *et seq*.; and provide certain non-public, confidential information to PECO as part of its Application;

B. If Bidder is selected as a successful bidder and Bidder enters into a Solar Alternative Energy Credit and Purchase Agreement (the "AECPA") with PECO, the Parties anticipate the exchange of additional non-public, confidential information with respect to the AECPA;

C. The Parties desire to formally set forth their understanding and agreement with respect to the treatment to be accorded to the non-public, confidential information and have done so in the provisions of this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound hereby, agree as follows:

1. For purposes of this Agreement, the term "Confidential Information" is defined to mean any knowledge, data, business plans, records, operational methods, policies and/or other information disclosed by or on behalf of a Party (the "Disclosing Party"), its officers, employees, contractors, agents, consultants, or representatives (including, without limitation, financial advisors, attorneys and accountants) or those of its affiliates (collectively, the "Representatives" of a Party) to the other Party (the "Receiving Party") or its Representatives, which is not otherwise available to the public or to the Disclosing Party's competitors. Prior to disclosure, the Disclosing Party or its Representatives shall mark or otherwise identify all Confidential Information as "Confidential" or "Proprietary" or with terms or markings of similar import.

2. The term "Confidential Information" does not include information which (i) is or becomes generally available to the public other than as a result of disclosure by a Receiving Party, (ii) was within a Receiving Party's possession prior to being furnished to the Receiving Party on a non-confidential basis, (iii) becomes available to a Receiving Party on a non-confidential basis from a source other than the other Disclosing Party, or (iv) is developed by or for the Receiving Party independently of Confidential Information.

3. The Parties acknowledge that Confidential Information is proprietary to, and a valuable asset of, the Disclosing Party and that any disclosure or unauthorized use thereof in violation of this Agreement may cause irreparable harm and loss to the Disclosing Party.

4. The Receiving Party and its Representatives shall retain the Disclosing Party's Confidential Information in confidence and shall not use, disclose or permit the use or disclosure of the Disclosing Party's Confidential Information, except to persons directly involved in the

Application evaluation process or in the execution and implementation of the AECPA, and then only to the extent necessary in connection with the RFP or AECPA (as applicable), or as otherwise required by law.

5. Each Receiving Party covenants and agrees that it shall not, either directly or indirectly, publish or disclose any of the Disclosing Party's Confidential Information subject to this Agreement or use such Confidential Information for the benefit of itself, another party or any third parties without the prior written consent of the Disclosing Party, except as expressly permitted by this Agreement.

6. The Receiving Party shall continue to treat the Disclosing Party's Confidential Information as confidential in accordance with the terms of this Agreement until three (3) years after the last of (i) the termination of this Agreement, (ii) the completion of the RFP process, (iii) the termination of the AECPA, and (iv) the last disclosure of Confidential Information received by a Receiving Party (the "Confidentiality Period"). After the conclusion of such Confidentiality Period, the Receiving Party shall be under no further duty to treat or protect the Disclosing Party's Confidential Information as confidential under this Agreement.

7. The Parties acknowledge that breach of the terms, covenants or conditions contained in this Agreement by either of them may cause irreparable damage to the other for which a remedy at law would not be adequate. In the event of such breach or threatened breach, the non-breaching Party shall be entitled to seek appropriate injunctive relief in any court of competent jurisdiction, restraining the breaching Party from any such threatened or actual violation of the provision of this Agreement. This provision does not limit a non-breaching Party's right to seek monetary damages in addition to the injunctive relief mentioned above. EXCEPT IN CASES OF GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, NEITHER PARTY SHALL BE LIABLE TO THE OTHER PARTY FOR ANY SPECIAL, EXEMPLARY, PUNITIVE, INCIDENTAL, CONSEQUENTIAL OR INDIRECT DAMAGES, INCLUDING, WITHOUT LIMITATION, ANY LOST REVENUE OR LOST PROFITS, IN CONNECTION WITH THIS CONFIDENTIALITY AGREEMENT.

8. In the event that a Receiving Party is required to disclose any of a Disclosing Party's Confidential Information by court order or regulation, the Receiving Party shall provide the Disclosing Party with prompt written notice of any such requirement (unless forbidden to do so by court order or regulation) in order to provide the Disclosing Party with an opportunity to seek a protective order or other appropriate remedy. The Parties agree to cooperate with each other in any Party's efforts to prevent disclosure of its Confidential Information. Notwithstanding any provision of this Agreement, PECO shall be free to provide any information received from Bidder to the Pennsylvania Public Utility Commission (the "Commission") or its representatives and to any third party monitor participating in the RFP.

9. Nothing in this Agreement shall authorize or empower the Receiving Party to assume or create any obligation or responsibility whatsoever, expressed or implied, on behalf of or in the name of the Disclosing Party, or to bind the Disclosing Party in any manner, or to make any representation, warranty or commitment on behalf of the Disclosing Party.

10. This Agreement shall terminate without further action by either Party (i) in the event that Bidder is not selected as a successful bidder in the RFP, or (ii) Bidder is disqualified by PECO as provided in the RFP, or (iii) Bidder withdraws its Application, or (iv) if Bidder is selected as a successful bidder, upon Bidder's failure to execute the AECPA after written request by PECO or upon termination of the AECPA. Notwithstanding any such termination, all rights and

obligations hereunder shall survive with respect to Confidential Information disclosed prior to such termination.

11. The laws, but not the rules relating to the choice of law, of the Commonwealth of Pennsylvania, shall govern this Agreement. Any action or dispute may only be brought in the Court of Common Pleas in Philadelphia, Pennsylvania, or in the United States District Court for the Eastern District of Pennsylvania.

12. This Agreement and all of its terms and provisions shall be binding upon and shall inure to the benefit of the Parties and their respective successors and assigns as may be permitted by law.

13. The invalidity or non-enforceability of any term or provision contained in this Agreement shall not void or impair the Agreement's remaining provisions, which shall remain in full force and effect as if no such invalid or unenforceable provision existed.

14. Confidential Information is provided on an "As-Is" basis, with no warranty of any nature whether oral or written, statutory, express or implied.

15. Nothing contained in this Agreement shall be construed as granting or conferring any rights by license or otherwise in any Confidential Information disclosed to the Receiving Party or in any intellectual property rights related thereto. Except as provided in the RFP and AECPA, this Agreement is the complete and exclusive agreement regarding the Parties' disclosures of information.

16. This Agreement may be executed in counterparts, each of which shall be deemed an original.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed on the date first written above.

DB1/ 143406159.2

PECO Energy Company

Request for Proposals
To Supply

Solar Alternative Energy Credits

In Compliance With

Pennsylvania's Alternative Energy Portfolio Standards Act

_____, ~~*2021*~~*2025*

ARTICLE 1
INTRODUCTION

1.1 In this Request for Proposals ("RFP"), PECO Energy Company ("PECO" or the "Company") is voluntarily soliciting competitive proposals for supply of Alternative Energy Credits ("AECs") from Tier I solar Alternative Energy Systems under Pennsylvania's Alternative Energy Portfolio Standards Act, 73 P.S. § l648.1 ("AEPS" or the "Act").[1] PECO intends to use these AECs to apply towards its future AEPS obligations, and seeks to enter into fixed-price, ten-year agreements with successful bidders to purchase up to a total of ~~16,000~~**32,000** AECs annually through two solicitations (in ~~2021~~**2025** and ~~2022~~**2026**). PECO will employ a two-phase annual procurement process involving a competitive bid phase (the RFP) followed by a Standard Offer To Purchase ("SOTP") phase. This document describes the process by which bidders may qualify and participate in the RFP and/or the SOTP phase of these solicitations.

1.2 PECO is a corporation organized and existing under the laws of the Commonwealth of Pennsylvania with its principal corporate office in Philadelphia, Pennsylvania. PECO is an electric distribution company under Pennsylvania law and provides electric delivery service to approximately ~~1.6~~**1.7** million retail customers in Southeastern Pennsylvania. PECO's electric delivery service territory falls entirely within the area served by PJM Interconnection, LLC ("PJM").

1.3 PECO is implementing the RFP and SOTP in two stages. Bidders must first qualify by submitting an application (an "Application") to PECO demonstrating their qualifications, as described in detail in Section 4.2 (Bidder Qualifications). These qualifications include the ability to provide AECs to PECO from one or more Tier I, solar Alternative Energy Systems in accordance with the Act commencing no later than twelve (12) months from the date that RFP/SOTP results are approved by the Pennsylvania Public Utility Commission ("PA PUC").

1.4 Following qualification, bidders may submit a bid proposal ("Bid Proposal") to deliver a specified amount of AECs annually from a single or multiple Alternative Energy System for a term of ten (10) years, with a single fixed price for each delivered AEC. Bid Proposals in the RFP stage will be ranked by price, and PECO will execute an AEC purchase and sale agreement with each successful bidder using one of the forms attached hereto as Exhibit 1-a (Form Solar Alternative Energy Credit Purchase and Sale Agreement (Project Version)) or Exhibit 1-b (Form Solar Alternative Energy Credit Purchase and Sale Agreement (Aggregator Version)) (each, an "AEC Purchase and Sale Agreement"). Bidders executing the Project Version will provide Solar AECs from specific facilities, while bidders executing the Aggregator Version will be procuring Solar AECs from multiple solar systems (e.g., smaller residential systems) for delivery to

[1] All capitalized terms not expressly defined herein are defined in the form Solar Alternative Energy Credit Purchase and Sale Agreement attached as Exhibit 1.

PECO. Bidders in the SOTP stage will be ranked on a 'first come, first served' basis, as determined by the Application Receipt Date in the SOTP stage.

1.5 AECs purchased and delivered to PECO will be inventoried by PECO and used to partially satisfy the Company's AEPS solar obligations on or after June 1, ~~2021~~**2025** and in subsequent years. PECO is not purchasing electricity or capacity through this RFP.

1.6 The Pennsylvania Public Utility Commission ("PA PUC") has approved the procedures described in this RFP and the terms of both forms of the AEC Purchase and Sale Agreement by order dated _____, ~~2020~~**2024**, in Pa. PUC Docket No. _____ ("PUC Order"). The RFP process will be managed by PECO, with the opening and ranking of bids monitored by [company name] (the "RFP Monitor"). **Potential bidders are strongly urged to review both the RFP and the AEC Purchase and Sale Agreement and to consult with counsel with respect to requirements and obligations under this RFP and the AEC Purchase and Sale Agreement.**

1.7 The following documents are attached to this RFP Overview and are to be considered part of the RFP:

Exhibit 1:	Form of PECO Solar AEC Purchase and Sale Agreement
	Exhibit 1.a: Project Version
	Exhibit 1.b: Aggregator Version
Exhibit 2:	Non-Binding Notice of Intent to Bid
Exhibit 3:	Bidder Application Submission Form
Exhibit 4:	Form of Bidder Application
Exhibit 5:	Bid Proposal Form
Exhibit 6:	Confidentiality Agreement
Exhibit 7:	Solicitation Schedules for ~~2021~~**2025** and ~~2022~~**2026**

ARTICLE 2
SCHEDULE AND BIDDER INFORMATION

2.1 RFP Schedule. The following table sets forth significant dates for this RFP. The time for each deadline on the specified date is 5:00 pm Eastern Prevailing Time (EPT PECO reserves the right to modify these dates at its discretion. PECO will communicate this solicitation to potentially interested parties in advance of the date of the RFP Overview Conference.

RFP Overview Conference	Day 0
Non-binding Notice of Intent to Bid Due Date	Day 10
Bidder Inquiries Deadline	Day 15
Final Publication of Responses to Inquiries	Day 20
Bidder Applications Due Date	Day 35
Notification of Bidder Qualification	Day 45

Bid Proposal Due Date	Day 50
Notification of Selected Bidders	Day 65
Execution of AEC Purchase and Sale Agreements	Day 80

2.2 RFP Overview Conference. PECO will conduct a teleconference to outline the RFP process and the terms of the AEC Purchase and Sale Agreements. Potential bidders are urged to review this RFP, including exhibits, prior to the teleconference. PECO will answer questions raised at this teleconference to the extent possible. Any party wishing to participate in this teleconference must send an e-mail to [to be supplied]@peco-energy.com with the subject line "AEC Bidder Teleconference." PECO will provide a dial-in number for the teleconference by return e-mail.

2.3 Non-Binding Notice of Intent To Bid. Following the bidder teleconference and no later than [Day 10], all parties seeking to submit a bid in response to this RFP must submit a non-binding Notice of Intent to Bid in the form attached hereto as Exhibit 2 to the address specified on the Notice. Any party who does not submit a non-binding Notice of Intent to Bid may not submit an Application for this RFP.

2.4 Bidder Inquiries. On or before the Bidder Inquiries Deadline [Day 15], bidders may submit questions to PECO via electronic mail ([to be supplied]@peco-energy.com). To the extent possible, questions submitted prior to the RFP Overview Conference will be addressed by PECO at the teleconference. Additional questions submitted and answered by PECO thereafter shall be posted with answers at the RFP website no later than [Day 15]. The person or company submitting the question shall not be identified. While PECO will review and attempt to answer questions in good faith, PECO reserves the right not to answer any question. The RFP Overview Conference and this bidder inquiry procedure are the exclusive methods for inquiring about this RFP and the AEC Purchase and Sale Agreement, and questions submitted to individual PECO employees, the Company, or the RFP Monitor by other means will not be answered and may result in disqualification of the bidder.

2.5 Informational Website and Updates. PECO will establish a website for electronic copies of RFP materials, posting of questions and answers, and other updates on this RFP. Bidders are encouraged to review this website regularly. In its sole discretion, PECO will endeavor to provide e-mail notification of important website updates to those bidders who have filed non-binding notices of intent to bid in this RFP.

ARTICLE 3
PROJECT ELIGIBILITY AND REQUIREMENTS

3.1 Eligibility. Applications may be submitted by qualified entities who currently own, propose to develop, or have rights to, Tier I solar Alternative Energy Credits from solar photovoltaic Alternative Energy Systems. Successful bidders must commence delivery of AECs to PECO no later than twelve (12) months from the date that RFP results are approved by the PA PUC. Entities who seek to submit bids from multiple Alternative

Energy Systems must submit a separate Application for each such system. Entities which own solar photovoltaic Alternative Energy Systems that generate AECs and supply energy to a retail electric customer (a "Host") in accordance with applicable net metering requirements in the service territory of the electric utility in which the System is located are also eligible to apply. Entities that plan to aggregate AECs from multiple systems over the term of the agreement ("Aggregators") must submit one Application as an Aggregator.

3.2 General Requirements. Successful bidders must be able to meet all requirements of the AEC Purchase and Sale Agreement. Bidders will be required to demonstrate in Bidder Applications that they can meet all specified terms of the AEC Purchase and Sale Agreement and that they take no exception to the Agreement terms. Failure to do so will result in exclusion of the bidder's Applications from further consideration.

3.3 Contract for AECs Only; Location of AEC Alternative Energy System. AEC Purchase and Sale Agreements executed pursuant to this RFP will be for AECs only. Successful bidders will retain title to all generated electricity and capacity associated with Alternative Energy Systems generating the AECs purchased by PECO, where applicable. Successful bidders, where applicable, shall be responsible for undertaking all activities and paying all costs and charges associated with developing, permitting, and operating the bidder's Alternative Energy System, including all costs associated with any delivery of energy to a Host or to an interconnection point within the PJM Interconnection Regional Transmission Organization grid. For the RFP stage, AECs delivered must meet the Pa PUC AEPS requirements for the AEPS Solar Tier I obligation. For the SOTP stage, AECs delivered to PECO must meet the Pa PUC AEPS requirements for the AEPS Solar Tier I obligation and the Alternative Energy System(s) used to generate the AECs must be physically located in the service territory of the Company.

3.4 Delivery of AECs. All AECs shall be delivered to PECO using the PJM Generation Attribute Tracking System ("PJM GATS") and become the sole property of PECO.

3.5 Pricing and Term. Bidders in the RFP stage will specify in Bid Proposals an annual contract amount of AECs to be delivered to PECO (the "Contract Amount") during a AEPS reporting period (June 1 – May 31), with a single, fixed price for each delivered AEC. Bids must be based on a ten-year contract term, commencing upon the Commercial Operation Date (Project Version) or Execution Date (Aggregator Version) under the Solar AEC Purchase and Sale Agreement. All agreements (Project Version and Aggregator Version) shall terminate no later than May 31, 20XX. In the event that the Commercial Operation Date does not coincide with the beginning of an AEPS reporting period (i.e., in June), the contract term may be extended an initial period of up to eleven months so that each year of the ten-year term is coincident with AEPS reporting periods. (For example, if an Alternative Energy System is scheduled to achieve Commercial Operation in January, 1, ~~2022~~**2026**, an initial period from the date of Commercial Operation to May 31, ~~2022~~**2026**, would be included in the Term of the AEC Purchase and Sale Agreement, and the agreement would terminate on May 31, ~~2032~~**2036**). Delivery of AECs from an existing system will commence the month after execution of an AEC Purchase and Sale Agreement by the successful bidder. Delivery by an

Aggregator may commence the month after execution of an AEC Purchase and Sale Agreement and may commence up to six months after execution, with the extension periods in this paragraph also applicable for commencement dates after June 1. Timing for commencement of deliveries shall be specified in the Aggregator's bid.

3.6 Development Security and Performance Security. Successful bidders developing new facilities will be required to post Development Security (cash deposit or letter of credit) with PECO of 2% of the Nominal Contract Value, defined as the Contract Amount (in AECs /year) multiplied by ten years multiplied by the bid price (in $/AEC). This development fee shall be returned if the bidder achieves the Commercial Operation Date specified in the bidder's Bid Application. If the date is not achieved, some or all of the development fee will be forfeited and retained by PECO in its sole discretion. Performance security equal to 5% of the Nominal Contract Value, declining annually by 0.5% over the term of AEC Purchase and Sale Agreement, must be posted (i) by bidders of existing facilities upon execution of an AEC Purchase and Sale Agreement; (ii) by developers of new facilities upon commencement of Commercial Operation, or (iii) by Aggregators upon commencement of AEC deliveries. Performance security shall be recalculated annually thereafter based on the method described in Article 6 of the AEC Purchase and Sale Agreement, and shall be based on the remaining year of the term at the time of calculation. Performance Security will be returned to the bidder upon successful completion of all obligations under the AEC Purchase and Sale Agreement.

3.7 Contract Guarantee. In the event that PECO does not annually receive the Contract Amount under the Project Version of the AEC Purchase and Sale Agreement, PECO must be provided with replacement Tier I solar AECs of the same vintage year as the AECs PECO should have received but did not receive. Failure to provide AECs (Aggregator Version) or replacement AECs (Project Version) will require a payment equal to the solar alternative compliance payment established by the PA PUC for each AEPS reporting period, (the "ACP") or the Contract Price of the AEC, whichever is greater, multiplied by the quantity of undelivered AECs.

3.8 AEC Rollover. At Seller's discretion, upon notice to PECO no later than June 30th of each year, AECs produced by a winning bidder's generating unit, where applicable, during the prior AEPS reporting period in excess of the Contract Amount may be sold to PECO and credited against the next Contract Year's delivery obligations. Such excess AECs must be delivered no later than July 31st of such year. The AEC Rollover provision does not apply to Aggregator bidders.

ARTICLE 4
BIDDER QUALIFICATION

4.1 Bidder Application. In order to submit a bid proposal in response to this RFP, a bidder must an Application for approval by PECO using the form attached hereto as Exhibit 3 (Form of Bidder Application). All Applications shall be submitted to the email address [to be specified]. PECO will confirm receipt of Applications by email. Applications which are incomplete, do not conform to the form attached hereto, or otherwise do not satisfy all requirements of this RFP shall not be considered. Submission of a Bidder

Application constitutes a bidder's agreement to and acceptance of all terms and conditions of this RFP. An Application must be received by 5:00 p.m. (Eastern Prevailing Time) by the application deadline date to be considered.

4.2 Bidder Qualifications. Time is of the essence in this solicitation, and bidders that cannot demonstrate an ability to achieve Commercial Operation commencing no later than twelve (12) months from the date that RFP results are approved by the Pennsylvania Public Utility Commission ("PA PUC") will be eliminated from further consideration. In order to qualify to submit a bid proposal, a bidder must demonstrate and document in the Application that it satisfies the following criteria (the "Bidder Qualifications"):

(a) Has secured or will secure all required rights to ensure a Commercial Operation Date within twelve months of approval of the RFP results by the PA PUC (Project bidders);

(b) Has obtained or will obtain all required local, state and federal permits to ensure a Commercial Operation Date within twelve months of approval of the RFP results by the PA PUC (Project bidders);

(c) Has secured or will secure all necessary equipment and services required to ensure construction and testing for a Commercial Operation Date within twelve months of approval of the RFP results (including a commitment letter or equivalent document from a solar module vendor showing the availability and delivery schedule for all modules for the project) (Project bidders);

(d) Has or will be certified as an "Alternative Energy System" capable of delivery of AECs equal to or greater than the Contract Amount the bidder intends to bid in response to this RFP (Project bidders);

(e) Has obtained or will obtain all authorizations necessary for the generation of electricity underlying the AECs (Project bidders);

(f) Has sufficient management and other personnel experienced in developing and operating systems similar to the proposed Alternative Energy System (Project bidders);

(g) Has satisfied or will satisfy all performance and financial security requirements as described in the AEC Purchase and Sale Agreement (All bidders);

(h) Has or will have an operations and maintenance plan with adequate resources (including funding) to maintain the system that will be generating AECs through the term of the AEC Purchase and Sale Agreement (Project bidders);

(i) For new projects, financial backing sufficient for the project to achieve a Commercial Operation Date on or before twelve months after approval of

the RFP results by the PA PUC, demonstrated by a letter from the project financier(s) stating the name of the financial institution, contact information for the person preparing the letter, the structure of any proposed financing (confidential information such as proposed financing costs need not be disclosed), confirmation that the financier(s) have reviewed project pro forma statements, have reviewed this RFP and the AEC Purchase and Sale Agreement, have reviewed the bidder's anticipated offer to the Company, including project costs and pricing terms, and that based on this review, the financier(s) consider the project financeable, given project costs as currently known, at the bidder's proposed price and that the financier(s) has a strong interest in financing the project (Project bidders); and

(j) Has or will own the right to all AECs associated with their bids in their entirety and be capable of transferring undivided rights to those AECs to PECO for the duration of the AEC Purchase and Sale Agreement, without restriction (All bidders).

In order to qualify to submit a bid proposal, an Aggregator bidder must demonstrate and document in the Application that it satisfies the following alternative criteria:

(a) A business plan that supports the delivery of the Contract Amount of AECs in the Aggregator's bid;

(b) Sufficient management and other personnel experienced in the business if aggregating AECs for resale, including the purchase and sale of at least 700 Tier 1 solar AECs in Pennsylvania in the calendar year preceding PECO's RFP; and

(c) Sufficient financing for the business of aggregating and providing the Contract Amount of AECs.

4.3 Reserved.

4.4 Minimum Contract Amount. Only Applications in which the bidder intends to propose a Contract Amount equal to or in excess of ~~200~~**50** AECs shall be considered by PECO.

4.5 Confidentiality Agreement. All Bidder Applications shall include two copies of the Confidentiality Agreement (attached hereto as Exhibit 6) executed by the bidder. PECO will promptly execute the Agreement and return a copy to the bidder.

4.6 PECO Affiliates. Affiliates of PECO are permitted to submit Applications and to participate in this RFP to the same extent as any other entity.

4.7 Multiple Bids. Bidders will be permitted to submit up to three Bid Proposals for a single facility provided that each such Bid Proposal offers different Contract Amounts at different prices. Multiple bids must be structured in a way that, should all bids win, the facility is capable of delivering the total of Contract Amounts offered. If a bidder

intends to bid more than one facility, a separate Application must be submitted for each facility. Aggregators may submit up to three bid Proposals at different prices for each proposal. Aggregators must demonstrate in their Application that, should all bids win, the Aggregator is prepared and capable of delivering the total of Contact Amounts offered. Multiple Bids only apply to the RFP stage; multiple bids do not apply to the SOTP stage of the solicitation process.

4.8 Bid Deposit. Each Application shall be accompanied by a bid deposit (a "Bid Deposit"), in the form of a certified check, or wire payment, equal to the amount corresponding to the Contract Amount of AECs the applying bidder intends to bid in response to the RFP:

Contract Amount (AECs)	Bid Deposit (US$)
~~200~~**50** to 1,000	$~~10,000~~**2,500**
1,001 to 2,000	$20,000
2,001 to 3,000	$30,000
3,001 to 4,000	$40,000

Bid Deposits submitted by a bidder whose Application is rejected or who is not selected for execution of an AEC Purchase and Sale Agreement shall be refunded at the time of rejection or upon notification of successful bidders. No interest shall be paid on Bid Deposits. A qualified bidder may not submit a Bid Proposal for a Contract Amount in excess of the Contract Amount for which the bidder provides a Bid Deposit. PECO will also refund the Bid Deposits of bidders who are qualified but who subsequently do not submit a Bid Proposal. Bid Proposals submitted for Contract Amounts that exceed that maximum Contract Amount for the Bid Deposit received will be rejected.

4.9 Additional Information. PECO may, but is not obligated to, request additional information and materials from any bidder for evaluation of an Application. Information submitted by a bidder absent a request by PECO which is not in the nature of a correction or clarification to the Application will not be considered by PECO. If any information in an Application is no longer true, Bidder shall immediately notify PECO of the changed information. Failure to provide such notification or respond to a request for additional information and materials may result in disqualification of the bidder and rejection of any Bid Proposal. PECO shall have no duty to inform any bidder of any deficiency in its Application.

4.10 Application Evaluation and Notification of Applicants. PECO, in its sole discretion, will evaluate each Application using a standard protocol for its completeness and satisfaction of the Bidder Qualifications. The RFP Monitor will oversee this evaluation. PECO will provide each bidder with notice of its satisfaction or failure to satisfy the Bidder

Qualifications by the date for Notification of Bidder Qualification set forth in Section 2.3 hereof.

ARTICLE 5
BID PROPOSALS

5.1 Submission of Bid Proposals. Only bidders who submit an Application and receive notice of qualification as provided in Article 3 will be permitted to submit a Bid Proposal. PECO will provide Bid Proposal forms to qualified bidders substantially in the form of Exhibit 5. A bidder must submit an original and three copies of its Bid Proposal to the address specified on the Bid Proposal form provided by PECO no later than the Bid Proposal Due Date. Each Bid Proposal shall be submitted in a sealed envelope clearly marked "BID PROPOSAL" with bidder's previously assigned bid number on the outside of the sealed envelope.

5.2 Other Limitations. Bid Proposals that are incomplete, unsigned, or otherwise do not conform to the form of the Bid Proposal provided herein shall be rejected by PECO. No Bid Proposal may be conditioned on any other Bid Proposal. Any bid that is contingent in any way shall be rejected as non-conforming. PECO may reject any Bid Proposal which it determines, in its sole discretion, is submitted by a bidder in coordination or in concert with any other bidder.

ARTICLE 6
EVALUATION OF BID PROPOSALS

6.1 Preparation of Market Benchmarking Analysis. The RFP Monitor will prepare a solar AEC market benchmarking analysis and provide it to the Office of Consumer Advocate ("OCA") and the Office of Small Business Advocate ("OSBA") (if they so desire) on a confidential basis five (5) days ahead of Bid Proposal Due Date. OCA and OSBA will then have three (3) days to submit, on a confidential basis, any comments on the benchmarking analysis to the RFP Monitor and to PECO.

6.2 Evaluation of Bid Proposals. For the RFP stage, all Bid Proposals will be opened by the RFP Monitor, who will rank proposals by price and Contract Amount. A Bid Proposal offering a larger Contract Amount at the same price as another Bid Proposal will be prioritized over the Bid Proposal offering the lower Contract Amount, provided that the RFP Monitor may assign a higher priority to a Bid Proposal with a lower Contract Amount where the Bid Proposal offering the larger Contract Amount will cause PECO to exceed the maximum number of AECs sought in a procurement (the "RFP Maximum"). Where acceptance of a Bid Proposal will cause PECO to exceed the RFP Maximum but rejection would require PECO to contract with a bidder offering AECs at a higher price in order to obtain the RFP Maximum, PECO shall have the right to negotiate a lower Contract Amount with the bidder offering the lower price. In the SOTP stage, Bid Proposals will be ranked by the Application Receipt Date and Contract Amount until the RFP Maximum quantity is met or the 90-day SOTP Window ends, whichever comes first. Any Applications received on or after midnight will be deemed to have been received on that date; PECO will not differentiate Application receipt times within a day.

A Bid Proposal offering a lower Contract Amount at the same Application Receipt Date as another Bid Proposal will be prioritized over the Bid Proposal offering the larger Contract Amount. Where acceptance of a Bid Proposal will cause PECO to exceed the RFP Maximum but rejection would require PECO to contract with a bidder offering AECs at a later Application Receipt Date in order to obtain the RFP Maximum, PECO shall have the right to negotiate a lower Contract Amount.

6.3 Selection of Successful Bidders and PA PUC Approval. Upon completion of the evaluation of Bid Proposals, the RFP Monitor shall prepare a report of the RFP results in consultation with PECO, summarizing the bidder qualification process and the Bid Proposals and identifying the successful and unsuccessful bidders, along with successful and unsuccessful Bid Proposals. The report in the RFP stage shall include the market benchmarking analysis prepared under Section 6.1. The RFP Monitor will append any comments on the analysis submitted by OCA and/or OSBA to its report to the Commission, but shall retain the discretion to take the comments of OCA and/or OSBA into account or not in its own report, as it believes appropriate. The report shall then be submitted to the PA PUC for approval. A report will be submitted to the PA PUC for approvals after the RFP stage and after the SOTP stage.

6.4 PA PUC Approval. The PA PUC will have ten (10) calendar days to review the report of the RFP Monitor and approve the report and bid prices submitted by successful bidders as consistent with the PUC Order. Bids from at least three bidders, who are not affiliated with each other, must be received in response to the RFP as a condition for PA PUC approval of any successful bids. If the results are approved, PECO shall notify all bidders of the PA PUC's decision and the results of the RFP. If the results are not approved, PECO will not sign any AEC Purchase and Sale Agreement with winning bidders.

6.5 Execution of AEC Purchase and Sale Agreement. Upon approval of the results by the PA PUC and subject to all provisions of this RFP (including Section 7.8), PECO shall prepare two copies of an AEC Purchase and Sale Agreement with information from the successful bidder's Application and Bid Proposal inserted and transmit those copies to the applicable bidder within five (5) business days of notification by PECO. Bidder shall execute and return the AEC Purchase and Sale Agreement to PECO with all Development Security or Performance Security as required under the AEC Purchase and Sale Agreement within ten (10) business days.

6.6 Forfeiture of Bid Deposit and Disqualification; Alternative Selection. Failure of a successful bidder to execute the AEC Purchase and Sale Agreement and provide Development Security or Performance Security to PECO as provided in Section 6.5 may result in the disqualification of such bidder from this RFP and forfeit of the entire Bid Deposit of that bidder.

6.7 Consideration of Additional Bidders. PECO reserves the right to enter into discussions with higher cost bidders if agreements with lower cost bidders are not executed.

6.8 Release of Winning Bid Price Information. PECO will release the average weighted price of the winning bids in the RFP Stage no later than fourteen (14) days after all

agreements are executed. The average weighted price will be released regardless of the number of winning bidders, but the number of winning bidders will not be released. This average weighted price of winning bids from the RFP stage will determine the price for the SOTP stage.

ARTICLE 7
GENERAL CONDITIONS

7.1 Address for submissions. All submissions to PECO, unless otherwise communicated at the Bidder Conference and subsequently posted to the website, for this RFP shall be delivered via registered mail, certified mail, overnight courier, or hand delivery to the following address:

PECO AEPS RFP
c/o [Name],
PECO Energy Company
S18-2
2301 Market Street
Philadelphia, PA 19103

Bidder is solely responsible for the timely delivery of any submission for this RFP. Applications and other materials received after the applicable date specified in this RFP shall be accepted only in PECO's sole discretion; however, any Bid Proposal submitted after the date and time specified will be returned unopened and without consideration. Electronic emails of materials other than Bid Proposals (which may not be sent electronically) shall be sent to: [to be supplied]@peco-energy.com.

Address for Bid Proposals. DO NOT SEND BID PROPOSALS TO THE PECO Market Street address.

BID PROPOSAL shall be submitted to the RFP Monitor at the following address:

[address to be specified]

7.2 No Unauthorized Modifications. No interpretation or change to this RFP shall be valid unless it is signed by a duly authorized representative designated by an Officer of PECO.

7.3 Ownership of RFP Materials; Confidentiality. All materials submitted to PECO pursuant to this RFP shall be the property of PECO and shall be treated as confidential in accordance with the terms of the Confidentiality Agreement.

7.4 Presentation and Formatting. All information submitted by a bidder must be in the English language.

7.5 Costs. PECO shall have no responsibility whatsoever with respect to the costs of any bidder in considering or responding to this RFP, including but not limited to (i) any costs of preparing any materials submitted to PECO; (ii) any costs associated with any studies, permits, or other agreements contemplated by this RFP; (iii) any costs associated with any Alternative Energy System or a Host; (iv) any costs associated with financing, employees or consultants, or real property.

7.6 Publicity. Bidders are not permitted to announce or release any information regarding this RFP or PECO's evaluation process without PECO's prior written approval, which PECO may withhold approval in its sole discretion. Each bidder understands and agrees that PECO does not participate in, nor does it allow, bidders to utilize media releases of any kind to publicize bidder's business relationship with PECO. Each bidder shall not use any trade name, trademark, service mark or any other information which identifies PECO in such bidder's sales, marketing and publicity activities, including interviews with representatives of any written publication, or television or radio station or network, without PECO's express prior written consent. Successful bidders agree to cooperate with PECO in preparation of any press release announcing the results of this RFP.

7.7 Disclaimer. PECO makes no representations or warranties regarding the accuracy or completeness of the information contained in this RFP and its exhibits or any statements made by representatives of PECO during the RFP process. Each bidder is responsible for making its own evaluation of information and data contained in this RFP and in preparing and submitting responses to this RFP. The issuance of this RFP and the receipt of information in response to this RFP shall not, in any way, cause PECO to incur any liability (whether contractual, financial or otherwise) to any bidder participating in the RFP process, and by submitting an Application, bidder releases PECO from any and all claims, demands, actions, losses, liabilities, and expenses (including reasonable legal fees and expenses) relating to this RFP.

7.8 Not an Offer. This RFP is issued to elicit responses to PECO's inquiry and is not an offer. The issuance of the RFP and the submission of bidder's information do not create any obligation upon PECO to buy goods or services from a bidder, and PECO reserves the right to accept or reject any or all proposals received. PECO also reserves the right to amend, suspend, or terminate the RFP process at any time, without reason and without liability, and makes no commitments, implied or otherwise, that this process will result in a business transaction with one or more bidders. No contract or other binding obligation on PECO will be implied unless and until an agreement has been executed on terms and conditions acceptable to PECO. PECO also reserves the right to not execute agreements with any or all bidders should the Company determine, in its sole discretion, that would not guarantee delivery, would impose unreasonably high costs on the Company's customers and/or would violate existing regulatory standards.

7.9 Non-conforming Applications and Bid Proposals. PECO reserves the right to reject any Application or Bid Proposal at any time on the grounds that it does not conform to the terms and conditions of this RFP or the bidder has not complied with the provisions of this RFP.

7.10 Interpretation. Notwithstanding any provision of this Agreement, in the event an AEC Purchase and Sale Agreement is executed between a bidder and PECO, that agreement shall control over any provision of this RFP.

SOLAR ALTERNATIVE ENERGY CREDITS PURCHASE AND SALE AGREEMENT

This Solar Alternative Energy Credits Purchase and Sale Agreement (the "Agreement") is entered into as of _____, 20__, by and between_____, a _____ corporation with principal offices located at _____ ("Seller"), and PECO Energy Company, a Pennsylvania corporation with principal offices located at 2301 Market Street, Philadelphia, Pennsylvania 19101 ("PECO" or the "Company"). PECO and the Seller are herein referred to collectively as the "Parties", and individually as a "Party".

RECITALS

WHEREAS, PECO is an electric distribution company under the Alternative Energy Portfolio Standards Act, 73 P.S. § l648.1 ("AEPS" or "the Act"); and

WHEREAS, Seller owns the rights to alternative energy credits associated with the electricity generated by [Facility Name], and desires to sell such credits to PECO; and

WHEREAS, PECO desires to purchase such credits from Seller to satisfy PECO's obligations under the Act, subject to the requirements and conditions set forth herein;

NOW THEREFORE, in consideration of the mutual promises contained herein and other good and valuable consideration, PECO and Seller agree as follows:

ARTICLE 1
DEFINITIONS

1.1 Definitions. Any capitalized or abbreviated term not elsewhere defined in this Agreement shall have the definition set forth in this Article 1. As used in this Agreement, the following terms shall have the respective meanings set forth below.

"AEC" shall be an alternative energy credit as defined in the Act and of the type specified in Exhibit 3.

"AEC Procurement Order" shall mean the order of the PaPUC entered _____ in Docket No. _____ approving the procurement of AECs by PECO.

"AEPS" shall have the meaning set forth in the Recitals.

"AEPS Reporting Year" shall mean the period from June 1 through May 31 of the following year, or such period as the PaPUC may designate for AEPS compliance purposes.

"Affiliate" means any Person that directly or indirectly controls, is controlled by, or is under common control with the Person in question.

"Agreement" means this Agreement.

"Alternative Compliance Payment" shall be equal to the amount per AEC determined by the PaPUC in accordance with the Act during the latest AEPS Reporting Period.

"Alternate Representative" has the meaning provided in Section ~~12.3~~**5.5**.

"Authorized Representative" has the meaning provided in Section ~~12.3~~**5.5**.

"Bankruptcy Code" means those laws of the United States of America related to bankruptcy, codified and enacted as Title 11 of the United States Code, entitled "Bankruptcy" and found at 11 U.S.C. § 101 et seq.

"Business Day" means a day on which Federal Reserve member banks in Philadelphia, PA are open for business, beginning at 0800 EPT and ending at 1700 EPT.

"Certificate" means a certificate corresponding to an AEC, as defined under the Registry Rules.

"Claim" shall mean any claim, demand, audit, cause of action, litigation, lawsuit, grievance, arbitration, mediation, proceeding (including, without limitation, any bankruptcy, reorganization, dissolution, insolvency, liquidation, extension of bankruptcy or similar proceeding).

"Commercial Operation" shall occur for a Facility when (i) the Interconnection Agreement (if applicable) has been executed and delivered, (ii) the Facility has been Commissioned and is capable of generating AECs for Delivery to PECO, and (iii) all related facilities and rights have been completed or obtained, including such facilities and rights contemplated by the Interconnection Agreement (if applicable), to allow regular operation of the Facility and permit Delivery of AECs to PECO.

"Commercial Operation Date" means (i) the date designated by Seller as the Commercial Operation Date Milestone, subject to adjustment pursuant to Section 6.1, or (ii) the Effective Date for a Facility which has achieved Commercial Operation on or prior to the Effective Date.

"Commercial Operation Date Milestone" means the Commercial Operation Date Milestone specified on the Significant Milestone Schedule.

"Commercially Reasonable Efforts" means, with respect to any action required to be made, attempted or taken by a Party under this Agreement, the level of effort in light of the facts known to such Party at the time a decision is made that (i) can reasonably be expected to accomplish the desired action at a reasonable cost, and (ii) is consistent with Prudent Utility Practices.

"Commissioned," as to any equipment, means that such equipment has been functionally tested to ensure that it meets its manufacture and design specifications and is suitable for continuous operation, and has been placed in service.

"Construction Service Agreement" means an agreement relating to the construction and installation of the Interconnection Facilities.

"Contract Amount" means the Contract Amount specified on Exhibit 3, including during the first Contract Year, the Initial Period Contract Amount.

"Contract-Related Capacity" means the design capacity of the Facility to be used to generate the Contract Amount, as set forth on Exhibit 3.

"Contract Price" means the price identified as "Contract Price" on Exhibit 3.

"Contract Year" means a twelve month period during the Term commencing on June 1 and ending on May 31 of the following year, provided that the first Contract Year under this Agreement may be extended for a period of up to eleven months from the Commercial Operation Date to the following June 1 (corresponding to the commencement of the next AEPS Reporting Year).

"Defaulting Party" has the meaning set forth in Section ~~16.1~~**9.1**.

"Deliver" or "Delivery" means the transfer of AECs from Seller to PECO using the Registry in accordance with the Registry Rules.

"Development Security" shall have the meaning set forth in Section 6.1.

"Early Termination Date" means the date upon which an Early Termination becomes effective as specified in Section ~~9.3~~**2.3**.

"Effective Date" means the date upon which this Agreement is executed by the Parties.

"Energy" means three-phase, 60-cycle alternating current electric energy, expressed in units of kilowatt-hours or megawatt-hours.

"Energy Delivery Point" has the meaning set forth on Exhibit 1.

"EPT" means Eastern Prevailing Time (the time then prevailing in the Eastern Time Zone of the United States).

"Estimated Annual Total Facility AEC Production" means the annual amount of AECs that the Facility is expected to produce during a Contract Year, as set forth on Exhibit 3.

"Event of Default" has the meaning set forth in Section ~~16.1~~**9.1**.

"Facility" means the generation facility located at the Premises as described in Exhibit 1.

"Facility Benefits" means production tax credits, investment tax credits, or other direct, third-party federal, state or local subsidies, incentives, grants, credits, rebates or funding for the purchase, ownership, construction or operation of the Facility, or the generation of electricity or production of AECs by the Facility.

"FERC" means the Federal Energy Regulatory Commission.

"Force Majeure" means an event not anticipated as of the Effective Date, which is not within the reasonable control of the Party affected thereby or attributable to such Party's fault or negligence, and which by the exercise of due diligence the affected Party is unable to overcome or obtain or cause to be obtained a commercially reasonable substitute therefor. Force Majeure includes, but is not restricted to: fire; explosion; civil disturbance; sabotage; action or restraint by court order or public or government authority, so long as the affected Party has not applied for or assisted in the application for, and has opposed where and to the extent reasonable, such government action. Force Majeure shall not include the following: (i) the Seller's ability to sell Energy or AECs from the Facility at a more advantageous price, (ii) insufficient sunlight, wind, or other natural resource; (iii) Seller's failure to obtain any Permit; (iv) a change in a Requirement of Law or Registry Rules; and (v) Seller's failure to finance and/or construct the Facility. Increased cost of performance by Seller (including the reduction or elimination of Facility Benefits) shall not constitute an event of Force Majeure.

"Forward Contract" has the meaning ascribed to such term in Section 101(25) of the Bankruptcy Code.

"Forward Contract Merchant" has the meaning ascribed to such term in Section 101(26) of the Bankruptcy Code.

"Forward Pricing" meaning the cost per AEC for the next 12, 24 and 36 month periods determined by the average of 3 separate broker quotes.

"Generating Unit" means an electric generator of the Facility that generates the Energy associated with the AECs to be Delivered to PECO.

"Governmental Authority" means any federal, state or local government, court of competent jurisdiction, administrative agency or commission or other governmental or regulatory authority or instrumentality or authorized arbitral body.

"Grid" means the interconnected electric transmission system to which the Facility or its Host, as applicable, is connected, including through direct interconnection with intermediate distribution facilities of PECO, or other electric utilities located in PJM's service territory, or Pennsylvania.

"Host" means the retail electric utility customer specified on Exhibit 1 to which the Facility is interconnected in accordance with the applicable net metering requirements in the service territory of the electric utility in which the Facility is located.

"Indemnified Party" shall have the meaning set forth in Section 11.1.

"Initial Period Contract Amount" shall have the meaning set forth in Exhibit 3. Such amount shall not exceed the Contract Amount.

"Interconnection Agreement" means a generation interconnection agreement with either or both the RTO and the entity (if different from the RTO) that owns the Grid to which the Facility (or its Host, if applicable) is interconnected that contains the rights and obligations of

those Persons with respect to the interconnection of the Facility, and prescribing the methods and procedures to be used for the safe operation and maintenance of the Interconnection Facilities.

"Interconnection Facilities" means all the facilities installed for the purpose of interconnecting the Facility in accordance with the Interconnection Agreement or net metering requirements, if applicable, including all transformers and associated equipment, relay and switching equipment, and safety equipment.

"Interest Rate" means the average Federal Funds Effective Rate for the period of time the funds are on deposit. The Federal Funds Effective Rate is published daily on the Federal Reserve website (http://www.federalreserve.gov/releases/h15/update/).

"Issuer Minimum Requirements" shall have the meaning set forth in Section ~~13.4.2~~**6.5.2**.

"Letter of Credit" has the meaning set forth in Section ~~13.4~~**6.5**. The Letter of Credit must be in the form of Exhibit 5, or another substantially similar form approved by the Company.

"Lien" shall mean any mortgage, deed of trust, lien, pledge, charge, claim, security interest, easement, covenant, right of way, restriction, equity, hypothecation, usufruct or encumbrance of any nature whatsoever, including any conditional sale agreement.

"Material Debt" shall have the meaning set forth in Section ~~16.1.1~~**9.1.1**.

"Moody's" means Moody's Investors Service, Inc.

"Month" means a calendar month (or any partial calendar month at the outset of the Term in the event that the Term commences during a calendar month).

"MW" means megawatt.

"Net Electricity" means all of the Energy generated at the Facility (other than that needed for a Host or operation of the Facility) that is delivered to the Energy Delivery Point.

"Nominal Contract Value" means the dollar amount resulting by multiplying the Contract Amount by the Contract Price by ten (10).

"Non-Defaulting Party" means (i) if the Company is the Defaulting Party, the Seller; or (ii) if the Seller is the Defaulting Party, the Company.

"PaPUC" means the Pennsylvania Public Utility Commission.

"PECO" means PECO Energy Company.

"Permit" shall mean any permit, license, registration, certificates of occupancy, approvals or other authorizations of any Governmental Authority.

"Person" shall mean any individual, entity, corporation, general or limited partnership, limited liability company, joint venture, estate, trust, association or other entity or Governmental Authority.

"PJM" means the regional transmission organization operated by PJM Interconnection, Inc.

"Premises" shall mean the location of the Facilities as set forth in Exhibit 1.

"Prudent Utility Practice" means any of the practices, methods and acts required or approved by the RTO or engaged in or approved by a significant portion of the electric utility industry in the geographic region covered by RFC during the relevant time period, or any of the practices, methods and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, could have been expected to accomplish the desired result at a reasonable cost consistent with good business practices, reliability, safety and expedition. "Prudent Utility Practice" is not intended to be limited to the optimum practice, method or act to the exclusion of all others, but rather to include acceptable practices, methods or acts generally accepted in the geographic region covered by the RTO or RFC.

"Registry" shall mean the PJM GATS system or any successor AEPS alternative energy credit registry designated by the PaPUC.

"Registry Rules" shall mean the operating rules of the Registry.

"Replacement AEC" means an AEC that the Seller provides to PECO as provided for in Section ~~10.4~~**3.4** due to the failure of the Seller to meet the minimum output requirements in this Agreement.

"Replacement AEC Payment" shall have the meaning set forth in Section ~~10.4~~**3.4**.

"Requirement of Law" means any federal, state and local law, statute, regulation, rule, code, ordinance, resolution, order, writ, judgment or decree enacted, adopted, issued or promulgated by any Governmental Authority or RTO (including those pertaining to electrical, building, zoning, environmental and occupational safety and health requirements).

"RFC" means the ReliabilityFirst Corporation or any successor thereto. If RFC ceases to exist, the successor to RFC shall be any regional reliability organization to which PECO belongs. Any regional entity to which an FERC delegates authority to enforce reliability standards upon PECO shall be deemed to be successor to RFC.

"RTO" means the entity that controls and operates the Grid.

"RTO Requirements" means all the RTO agreements, all tariffs, operational manuals, rules and regulations established by the RTO, and the normal business practices, as they may be amended and modified from time to time, of the RTO.

"S&P" means Standard and Poor's Rating Services.

"Safe Harbor Provisions of the Bankruptcy Code" means Sections 101(25), 101(26), 101(38A), 101(38B), 362(b)(6), 362 (b)(27), 546(e), 546(j), 556, 561, 562 and 767 of the Bankruptcy Code together with other sections pertaining or referring to any of them and any future amendments to the Bankruptcy Code which provide protections, rights or remedies to non-bankrupt Forward Contract Merchants or Master Netting Participants against bankrupt counterparties under Forward Contracts or Master Netting Agreements.

"Security Instrument" has the meaning set forth in Section ~~13.4~~**6.5**.

"Semi-annual" means the six month calendar period commencing each July and January of the Contract Year (or any partial six month calendar period in the event the Term commences during such period).

"Semi-Annual AECs" shall have the meaning set forth in Section 3.2.

"Significant Milestone" shall mean the events identified as significant milestones on Exhibit 2.

"Significant Milestone Schedule" shall mean the dates associated with the Significant Milestones set forth on Exhibit 2.

"Site Control" shall have the meaning set forth in Section 5.3.

"Taxes" has the meaning set forth in Section 7.7.

"Term" has the meaning set forth in Section ~~9.1~~**2.1**.

"Termination Date" has the meaning set forth in Section ~~9.1~~**2.1**.

1.2 Interpretation. In this Agreement, unless a different intention clearly appears: (a) the singular includes the plural and vice versa; (b) the reference to any Party includes such Party's legal and/or permitted successors and assignees, and reference to a Party in a particular capacity excludes such Party in any other capacity or individually; (c) the reference to any gender includes the other gender; (d) reference to any document other than this Agreement refers to such documents as may be amended, modified, replaced or superseded from time to time, or any successor document(s) thereto; (e) reference to any Article, Section or Exhibit means such Article, Section or Exhibit of this Agreement unless otherwise indicated; (f) "hereunder", "hereof", "hereto", and words of similar import shall be deemed references to this Agreement as a whole and not to any particular Section or other provision; (g) "including" (and with correlative meaning "include"), when following any general statement or term, is not to be construed as limiting the general statement or term to the specific items or matters set forth or to similar items or matters, but rather as permitting the general statement or term to refer to all other items or matters that could reasonably fall within its broadest possible scope; (h) relative to the determination of any period of time, "from" means "from and including", "to" means "to but excluding" and "through" means "through and including"; (i) reference to any law or regulation refers to such law or regulation as may be amended, modified, replaced or superseded from time to time, or any successor law(s) or regulation(s) thereto; and (j) reference to "termination of this Agreement," "this Agreement is terminated," "this Agreement may be terminated" and similar

phrases used in this Agreement refer to the termination of deliveries under this Agreement and related on-going rights and obligations, and does not imply or mean a termination of rights, remedies, obligations and provisions which by their nature or as provided elsewhere in the Agreement survive termination.

ARTICLE 2
TERM AND TERMINATION

2.1 Effective Date and Term. This Agreement shall be effective on the Effective Date. If the Facility has achieved Commercial Operation on or prior to the Effective Date, the Term shall commence on the Effective Date; otherwise, the Term shall commence on the Commercial Operation Date. Unless sooner terminated as provided herein, this Agreement shall end on May 31, 20__ (the "Termination Date").

2.2 Early Termination. This Agreement may be terminated prior to the Termination Date pursuant to the following:

2.2.1 At any time by the mutual written consent of the Parties;

2.2.2 By the Non-Defaulting Party if an Event of Default occurs as provided for in Article 9, with such notice as required therein;

2.2.3 By Either Party:

(a) In the event that the Seller shall have failed to enter into an Interconnection Agreement, if applicable, and, if necessary, a Construction Service Agreement within 180 days after the Effective Date, but only if the Party seeking to terminate this Agreement provides notice of its intent to terminate no later than 150 days after the Effective Date;

(b) In the case of a Force Majeure event, the non-terminating Party fails to substantially perform its obligations under this Agreement on account of such Force Majeure event for a period exceeding 180 days after the occurrence of such Force Majeure event, and after thirty (30) days written notice; provided that such 180-day period may be extended, by the written agreement of both Parties, for an additional 180 days if (i) such Force Majeure event is not remedied within such 180-day period with reasonable diligence, (ii) such Force Majeure event may reasonably be expected to be remedied within such 180-day period, and (iii) the Party not performing its obligations under this Agreement on account of such Force Majeure event promptly undertakes to remedy such Force Majeure event and continues with reasonable diligence to effect such remedy within the 180-day period.

2.3 Effectiveness of Termination. Termination under this Article 2 shall be effective immediately after written notice is given, subject to any applicable notice requirements or extensions agreed to by the Parties. If this Agreement is terminated pursuant to any of the provisions above, the effective date of such termination shall be deemed the "Early Termination Date."

2.4 Survival.

2.4.1 Termination of this Agreement for any reason shall not relieve PECO or Seller of any obligation accrued or accruing prior to such termination, and the following

provisions of this Agreement shall survive any termination: Article 1, Sections 2.4, 2.5, 3.2, 3.3, 3.4, 3.5, 3.7, 6.4, 6.6, 7.4, 7.6, 7.7, 11.2, 11.3, 12.1, and Articles 9, 13 and 14.

2.4.2 In addition, if this Agreement is terminated pursuant to:

(a) Section ~~9.2.2~~**2.2.2**, the Non-Defaulting Party may pursue the remedies provided in Article 9;

(b) Section ~~9.2.3~~**2.2.3**, the Parties may not pursue the remedies provided for in Article 9 and are entitled to receive only amounts due and owing as of the Early Termination Date and under Section 6.1, if any.

2.5 Preservation of Security. In the event that Seller has provided a Letter of Credit under the terms of this Agreement, Seller will preserve the Letter of Credit in place until all payments due under this Agreement for which the Letter of Credit has been provided have been made in full.

ARTICLE 3
PURCHASE AND SALE OF AECS

3.1 Purchase and Sale of AECs. Subject to the terms and upon the conditions and provisions of this Agreement, Seller shall sell, and PECO shall purchase, all rights, title and interest in the AECs generated by the Facility up to the Contract Amount for each Contract Year.

3.2 Delivery of AECs by Seller. For each Semi-Annual period of the Contract Year during the Term, Seller shall Deliver Certificates to PECO for all AECs created by the Facility in such Semi-Annual period (the "Semi-Annual AECs") until PECO has received the Contract Amount for the current Contract Year, provided that where the Contract Amount is less than the Estimated Annual Total Facility AEC Production, Seller may Deliver a proportion of the Semi-Annual AECs equal to the product of the number of Semi-Annual AECs multiplied by the Contract Amount and divided by the Estimated Annual Total Facility AEC Production. The Delivery of the Semi-Annual AECs shall be completed no later than the fortieth (40th) day following the end of such Semi-Annual period, or such other date as PECO and the Seller may agree to in writing. Seller and PECO are each responsible for their own costs associated with establishing and administering any accounts with the Registry sufficient to accomplish the Delivery of all AECs. Seller agrees to execute all other documents or instruments, at its expense, necessary to effectuate the Delivery of the AECs to PECO or as may be reasonably requested by PECO. All AECs transferred to PECO shall be free and clear of all Liens. Nothing in this Section shall reduce Seller's obligations under Section 3.4.

3.3 Ownership of and Title to AECs. PECO shall have sole, exclusive and perpetual ownership of all AECs Delivered to PECO by Seller under this Agreement, including all rights to sell, assign, transfer, apply, or retire any AEC transferred to PECO by Seller, provided, however, that Delivery of an AEC shall not transfer eligibility or other rights to Facility Benefits. Title to AECs shall not transfer to PECO prior to Delivery by Seller. Any benefits derived from the AECs after Delivery to PECO shall inure solely to the benefit of PECO and not to Seller.

3.4 Contract Amount Guarantee. Seller shall transfer a total amount of AECs from the Facility equal to the Contract Amount for each Contract Year. In the event that Seller is unable to transfer an amount of AECs equal to the Contract Amount for each Contract Year for any reason other than a Force Majeure Event, Seller shall, within forty-five (45) days of the end of such Contract Year, transfer an amount of AECs to PECO through the Registry which is equal to the amount of AECs Seller failed to provide from the Facility for such Contract Year (each a "Replacement AEC"). Any Replacement AEC transferred to PECO by Seller pursuant to the preceding sentence shall be available to PECO for purposes of compliance under the Act for the two AEPS Reporting Years following the last Month of the Contract Year. In the event that Seller fails to provide Replacement AECs as provided under this Section, Seller shall pay PECO within forty-five (45) days of the end of the Contract Year an amount equal to the Alternative Compliance Payment (a "Replacement AEC Payment") for each AEC which Seller fails to transfer to PECO for such Contract Year as liquidated damages. If the PaPUC subsequently determines that the Alternative Compliance Payment for the AEPS Reporting Year in which Seller failed to Deliver the Contract Amount is more than the amount Seller paid for each AEC not Delivered, Seller shall pay PECO the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. If Seller has paid PECO an amount in excess of the actual Alternative Compliance Payment for each AEC not Delivered, PECO shall pay Seller the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. All such additional payments shall be paid by PECO or Seller, as applicable, within thirty (30) days of the PaPUC's determination of the applicable Alternative Compliance Payment for an AEPS Reporting Year.

3.5 Non-Compliant AECs. In the event that any AEC transferred to PECO is subsequently determined to be unable to be used by PECO for AEPS compliance due to Seller's failure to comply with any obligation under this Agreement, Seller shall transfer an equivalent AEC to PECO. All AECs transferred to PECO under this Section shall be available for use by PECO for purposes of compliance under the Act as if the AEC had been created at the time the non-compliant AEC was created. Any additional costs or penalties incurred by PECO resulting from the transfer of non-compliant AECs by Seller shall be paid for by Seller.

3.6 Excess AECs. In the event that Seller shall generate from the Facility and possess AECs in excess of the Contract Amount during any Contract Year, Seller shall have the right to Deliver such excess AECs to PECO during the first Semi-Annual period of the subsequent Contract Year, to be applied towards Seller's obligations to Deliver AECs in that subsequent year, provided that Seller shall provide notice to PECO of its intent to apply such excess AECs no later than June 30 of the subsequent Contract Year in which the excess AECs are created. Such excess AECs must be delivered no later than July 31 of such year. Except as provided in this Section, PECO shall have no obligation to purchase any AECs in excess of the Contract Amount generated in any Contract Year. Any other AECs created by the Facility in excess of the Contract Amount shall not be Delivered or otherwise transferred to PECO except to the extent Seller elects to Deliver such AECs for purposes of satisfying its obligations under Section ~~10.4~~**3.4**.

3.7 No Sale of Electricity and Capacity. Seller shall retain all rights and title to all electricity generated by the Facility and all capacity associated with the Facility, and shall be responsible for any and all costs and charges associated with such electricity and capacity,

including all costs and charges applicable to or required for the delivery of Energy to or from a Host and to or from the Energy Delivery Point. As between PECO and Seller, Seller shall be deemed to be in exclusive control of, and responsible for, any damage or injury caused by, the Facility or electricity generated by the Facility.

3.8 Financing. PECO shall have no responsibility whatsoever for any financing or costs associated with the Facility or a Host, including any expenditures necessary or desirable to construct, operate, or remove the Facility or to deliver AECs to PECO under this Agreement.

ARTICLE 4
FACILITY DEVELOPMENT *[ARTICLE MAY BE MARKED RESERVED FOR FACILITIES THAT HAVE ACHIEVED COMMERCIAL OPERATION]*

4.1 Development of Facility. Subject to the terms and conditions of this Agreement, Seller represents, warrants and guarantees:

4.1.1 Except as expressly permitted otherwise by this Agreement, the Facility shall be developed and achieve Commercial Operation in accordance with this Agreement and the Significant Milestone Schedule set forth in Exhibit 2.

4.1.2 The Facility shall be designed in compliance with all applicable Permits, each applicable Requirement of Law and Prudent Utility Practice, and for qualification as an Alternative Energy System. The Facility will be capable of generating Energy to create AECs in a safe and reliable manner, consistent with the requirements of each applicable Requirement of Law, the Interconnection Agreement (if applicable), and Prudent Utility Practice.

4.1.3 All Permits necessary for the construction and operation of the Facility, including land use permits, environmental review and authorizations, grading and building permits, and licenses necessary to operate the Facility shall be obtained and maintained, and Seller will provide PECO with evidence of all essential Permits (including copies of any Permit upon PECO's request).

4.1.4 All construction and testing of the Facility shall be in compliance with all applicable Permits, each applicable Requirement of Law, the Interconnection Agreement (if applicable) and Prudent Utility Practice.

4.1.5 Seller shall give prompt written notice to PECO of any material modifications to the Facility after the Effective Date and a brief description of the reasons for the modifications and confirmation that such modifications shall not affect the general location of the Facility or the Contract Amount, except that Seller may modify or revise the Contract Amount and Contract-Related Capacity in accordance with Section 4.5.

4.2 Seller Reports. Seller shall provide monthly reports to PECO on the Facility prior to the Commercial Operation Date in the form attached as Exhibit 4.

4.3 Failure to Achieve Significant Milestones or Contract Amount. Seller shall immediately notify PECO of (i) any inability of Seller to achieve a Significant Milestone in accordance with the Significant Milestone Schedule for any reason, or (ii) any determination by

Seller that the Facility shall be incapable of providing the Contract Amount upon Commercial Operation. Seller acknowledges that failure to achieve a Significant Milestone in accordance with the Significant Milestone Schedule or inability to provide the Contract Amount upon Commercial Operation, unless otherwise excused under the provisions of this Agreement, shall constitute a material breach of this Agreement and permit PECO to terminate this Agreement and retain the Development Security as provided in Section 6.1.

4.4 Extension of Significant Milestones. Subject to the notice requirements of Section 4.3, in the event that Seller does not achieve or determines that it will not achieve a Significant Milestone in accordance with the Significant Milestone Schedule, Seller shall provide a revised Significant Milestone Schedule to PECO. PECO shall review this revised Significant Milestone Schedule and, in PECO's sole discretion and subject to Section 6.1, PECO may approve an extension of one or more Significant Milestones. Any such approval by PECO shall be in writing.

4.5 Downsizing of Facility. In the event that Seller determines that the Facility shall be incapable of providing the Contract Amount upon Commercial Operation, Seller may request that PECO agree to a downsizing of the Facility under which the Facility would provide a lesser amount of AECs. PECO shall review any downsizing request and, in PECO's sole discretion and subject to Section 6.1, may approve a downsizing of the Facility and a revised Contract Amount and Contract-Related Capacity. Any such approval by PECO shall be in writing.

4.6 Other Reasons for Delay. Seller shall be excused from a failure to meet the Commercial Operation Date where Seller can establish that such a failure is attributable solely to any delay or failure by PECO in taking any action or obtaining any consents or approvals from Governmental Authorities or third parties required for PECO to perform its obligations under this Agreement, the Interconnection Agreement or any Construction Service Agreement (if applicable), unless such delay or failure to act is consistent with Prudent Utility Practice or results from delays or failure to take timely action by Seller or other third party, whether or not caused by any conditions or events of Force Majeure, and in the event of such a failure, the Commercial Operation Date shall be extended for a period of time equal to the duration of the resulting delay.

ARTICLE 5
SELLER OBLIGATIONS

5.1 Generation of AECs. Subject to the terms and conditions of this Agreement, Seller shall ensure operation of the Facility to generate Energy sufficient to deliver the Contract Amount of AECs during each Contract Year of the Term.

5.2 Facility Obligations. During the Term, at its sole cost and expense, Seller represents, warrants and guarantees that:

5.2.1 The Facility (including all Generating Units) shall be operated, controlled and maintained in compliance with all Requirements of Laws and Prudent Utility Practice;

5.2.2 All of the Interconnection Facilities located at the Facility shall be operated, controlled and maintained to the extent required without expense to PECO (except as may be otherwise provided in an applicable Interconnection Agreement or applicable net metering requirements), including any system upgrades beyond the Energy Delivery Point necessary to interconnect with the Grid for delivery of Net Electricity;

5.2.3 The Facility shall obtain, maintain and comply with all Permits and agreements (including the Interconnection Agreement, if applicable, and all environmental permits) that are required or desirable in order for the Facility and Seller to generate, schedule, deliver, meter and transmit electricity and generate and Deliver AECs in compliance with this Agreement, except as otherwise permitted by Requirements of Law or by written agreement with PECO;

5.2.4 Seller shall take all actions necessary for the scheduling and delivery of any Energy to a Host and/or any Net Electricity to PJM, as applicable;

5.2.5 The Facility shall be maintained as an Alternative Energy System under the Act;

5.2.6 Seller shall possess sole and exclusive title and legal rights to an AEC prior to the transfer of such AEC to PECO under this Agreement;

5.2.7 Seller shall transfer only valid AECs to PECO which have not been previously retired, claimed or used to satisfy any renewable energy requirements, obligations or voluntary undertaking by any entity in any jurisdiction;

5.2.8 Seller and the Facility shall comply with all RTO requirements that are necessary for Seller to comply with its obligations under this Agreement, and Seller shall be responsible for all costs or charges that are required by the RTO to enable the Grid to accept any Net Electricity from the Facility; and

5.2.9 Seller shall comply with all Registry requirements that are necessary for Seller to perform its obligations under this Agreement.

5.3 Site Control. At all times after the Effective Date, Seller shall ensure site control ("Site Control") of the Premises, which means that Seller shall have all rights to the Premises necessary to perform its obligations under the Agreement. Seller shall provide PECO with prompt notice of any change in the status of Seller's Site Control.

5.4 Insurance.

5.4.1 Seller shall maintain at its sole expense, commencing with the Effective Date and continuing through the Term, insurance for the Facility (including commercial general liability insurance) customarily maintained for facilities of similar fuel source and electric generating capacity in the state in which the Facility is located, but no less than a commercially reasonable business would obtain for a facility of similar value and operation. Seller shall

provide certificates of insurance or other reasonable evidence of such insurance coverage acceptable to PECO upon request.

5.4.2 Failure to obtain and maintain the required insurance shall constitute a breach of the Agreement and Seller will be liable for any and all costs, liabilities, damages, and penalties (including attorneys' fees, court, and settlement expenses) resulting to PECO from such breach, unless a written waiver of the specific insurance requirement is provided to Seller by PECO.

5.4.3 Failure of Seller to provide insurance as herein required or failure of PECO to require evidence of insurance or to notify Seller of any breach by Seller of the requirements of this Article 5 shall not be deemed to be a waiver by PECO of any of the terms and conditions of this Agreement, nor shall they be deemed to be a waiver of the obligation of Seller to defend, indemnify, and hold harmless PECO as required herein. The obligation to procure and maintain any insurance required is a separate responsibility of Seller and independent of the duty to furnish a copy or certificate of such insurance policies.

5.4.4 Notwithstanding any provision of this Agreement, none of the requirements contained herein as to insurance coverage to be maintained by Seller are intended to and shall not in any manner limit, qualify, or quantify the liabilities and obligations assumed by Seller under this Agreement, any other agreement with PECO or its Affiliates, or otherwise provided by law.

5.5 Authorized Representatives. As a means of securing effective cooperation and interchanges of information and of providing consultation on a prompt and orderly basis between the Parties in connection with various administrative, commercial and technical issues that may arise during the performance of this Agreement, each Party shall appoint an authorized representative (with respect to each Party, the "Authorized Representative") and may appoint an alternate (with respect to each Party, the "Alternate Representative") to act in its Authorized Representative's absence. The Authorized Representatives and Alternate Representatives shall be managers well experienced with regard to matters relating to the implementation of the Parties' rights and obligations under this Agreement with full authority to act for and on behalf of the Party appointing them. Upon execution of this Agreement, each Party will notify the other in writing of the name of its Authorized Representative and Alternate Representative so appointed and these appointments will remain in full force and effect until written notice of substitution is delivered by such Party to the other Party.

5.6 Access to Facility; Publicity. Upon reasonable prior notice (in light of the circumstances), Seller will provide PECO and its authorized agents, employees and inspectors with reasonable access to the Facility: (i) to provide tours of the Facility to guests of PECO, to the extent practicable, (ii) to ascertain the status of the Facility with respect to any Significant Milestone or any other obligation of Seller under this Agreement, and (iii) for other reasonable purposes at the reasonable request of PECO. Upon request by PECO, Seller shall use reasonable efforts to permit PECO to take photographs of the Facility for use by PECO for publicity purposes and internal communications. No party shall issue any press release or make any

public announcement relating to the subject matter of this Agreement without the prior written approval of the other party, which approval shall not be unreasonably withheld.

ARTICLE 6
CREDIT AND COLLATERAL REQUIREMENTS

6.1 Development Security. *[Section may be marked reserved for Facilities that have achieved Commercial Operation]*

6.1.1 If the Facility has not achieved Commercial Operation by the Effective Date, Seller shall post and thereafter maintain development security equal to two percent (2%) of the Nominal Contract Value upon execution of this Agreement. The Development Security shall be held by PECO as security for Seller meeting the Commercial Operation Date. The Development Security shall be in the form of either a cash deposit or a Letter of Credit as provided for in Section ~~13.4~~**6.5**.

6.1.2 The following provisions shall govern disposition of the Development Security:

(a) In the event that the Facility achieves Commercial Operation by the original Commercial Operation Date established on the Effective Date, the entire Development Security shall be returned to Seller.

(b) In the event that the Commercial Operation Date is extended pursuant to the provisions of Section 4.4 for a period of 180 days or less and the Facility achieves Commercial Operation on such extended date, Seller shall be entitled only to a portion of the Development Security equal to (i) the Development Security, less (ii) the ratio of the number of calendar days that the Commercial Operation Date is delayed beyond the original Commercial Operation Date to 180 days, multiplied by the Development Security. The portion of the Development Security retained by PECO shall be kept as liquidated damages, and PECO shall be entitled to retain the entire Development Security as such liquidated damages in the event that the Commercial Operation Date is extended more than 180 days.

(c) In the event that the Commercial Operation Date is not extended pursuant to the provisions of Section 4.4, but the Facility is resized pursuant to the provisions of Section 4.5, Seller shall be entitled only to a portion of the Development Security equal to (i) two percent (2%) times the Nominal Contract Value multiplied by (ii) the ratio of the revised Contract Amount resulting from the resizing to the original Contract Amount prior to the resizing The remainder of the Development Security shall be kept by PECO as liquidated damages.

(d) In the event that the Commercial Operation Date is extended pursuant to the provisions of Section 4.4 and the Seller meets such extended date but the Facility is resized pursuant to the provisions of Section 4.5, Seller shall be entitled only to a portion of the Development Security equal to (i) two percent (2%) times the Nominal Contract Value multiplied by (ii) the ratio of the revised Contract Amount resulting from the resizing to the original Contract Amount

prior to the resizing multiplied by (iii) 1 – [(the number of calendar days that the Commercial Operation Date is delayed beyond the original Commercial Operation Date) divided by 180]. The remainder of the Development Security shall be kept by PECO as liquidated damages.

(e) If some or all of the Development Security is to be returned to the Seller under this Section 6.1, it shall be returned within thirty (30) Business Days of the achievement of the Commercial Operation Date, with interest paid only if Seller satisfied the Development Security requirements by providing Cash to PECO. Such interest shall be calculated using the London Interbank Offered Rate (LIBOR) at the time of the Cash is returned to Seller, plus thirty (30) basis points.

(f) In the event the Seller fails to obtain the Commercial Operation Date Milestone, as may be extended pursuant to Section 4.4, PECO may terminate this Agreement pursuant to Section 9.1 and retain the entire Development Security.

6.1.3 The Parties acknowledge and agree that it is difficult or impossible to determine with precision the amount of damages that would or might be incurred by PECO as a result of the Facility failing to operate by the Commercial Operation Date Milestone. It is understood and agreed by the Parties that (a) PECO shall be damaged by failure of Seller to meet such obligations, (b) it would be impracticable or extremely difficult to fix the actual damages resulting therefrom, (c) any sums which would be creditable or payable under this Article 6 are in the nature of liquidated damages, and not a penalty, and are fair and reasonable, and (d) each payment represents a reasonable estimate of fair compensation for the losses that may reasonably be anticipated from each such failure. The liquidated damages available under this Section shall constitute PECO's sole damages for failure of the Seller to achieve the Commercial Operation Date or for any resizing of the Facility as provided in Article 4.

6.2 Credit Support. The Seller shall post security with PECO, on the Commercial Operation Date, in an amount based on the number of months remaining in the Term, as determined from the table (Credit Support Requirement) in Exhibit 6.

6.3 Grant of Security Interest. To secure its obligations under this Agreement, Seller hereby grants to PECO a present and continuing security interest in, and lien on (and right of setoff against), and assignment of, all cash collateral and cash equivalent collateral and any and all proceeds resulting therefrom or the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of, PECO, provided, however, that such interest may be junior to an interest granted by Seller in such collateral or proceeds for purposes of financing the development, construction or operation of the Facility. Seller agrees to take such action as reasonably required to perfect in favor of PECO such security interest in, and lien on (and right of setoff against), such collateral and any and all proceeds resulting therefrom or from the liquidation thereof.

6.4 Remedies. Upon or any time after the occurrence of an Event of Default caused by Seller, PECO may do any one or more of the following: (i) exercise any of the rights and remedies of the Company with respect to all collateral, including any such rights and remedies

under law then in effect; (ii) exercise its rights of setoff against any and all property of Seller in the possession of PECO, whether held in connection with this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs; (iii) draw on any outstanding Letter of Credit issued for PECO's benefit; and (iv) liquidate all collateral security held by or for the benefit of the PECO free from any claim or right of any nature whatsoever of the Seller, including any equity or right of purchase or redemption by the Seller. PECO shall apply the proceeds of the collateral security realized upon the exercise of such rights or remedies to reduce Seller's obligation under this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs (the Seller remaining liable for any amounts owing to the Company after such application), subject to PECO's obligation to return any surplus proceeds remaining after such obligations are satisfied in full.

6.5 Security Instruments. At Seller's choice, the following are deemed to be acceptable methods for posting security (each, a "Security Instrument"), if required:

6.5.1 Cash; or

6.5.2 An irrevocable transferable standby letter of credit (a "Letter of Credit") acceptable to the Company issued by a bank or other financial institution with a minimum "A" senior unsecured debt rating from S&P or Moody's (the "Issuer Minimum Requirements"). (A standard format for the Letter of Credit is provided in Exhibit 5.) In the event that senior unsecured debt ratings are unavailable from S&P, the corporate issuer rating, discounted one notch, will be used. In the event that senior unsecured debt ratings are unavailable from Moody's, the issuer rating will be used. The Company will only rely on senior unsecured debt ratings, or if unavailable, issuer or corporate issuer ratings. If the Seller does not have a senior unsecured debt rating and does not have an issuer or corporate issuer rating from a rating agency, it will be deemed by the Company not to be rated by that rating agency. The Letter of Credit shall state that it shall renew automatically for successive one-year or shorter periods unless the Company receives written notice from the issuing financial institution at least thirty (30) days prior to the expiration date stated in the Letter of Credit that the issuing financial institution elects not to extend the Letter of Credit. If the Company receives notice from the issuing financial institution that the Letter of Credit will not be extended, the Seller will be required to provide a substitute Letter of Credit from an alternative bank or financial institution satisfying the Issuer Minimum Requirements. The receipt of the substitute Letter of Credit must be effective on or before the expiration date of the expiring Letter of Credit and delivered to the Company at least fifteen (15) days before the expiration date of the original Letter of Credit. If the Seller fails to supply a substitute Letter of Credit as required herein, then the Company will have the right to draw on the expiring Letter of Credit and to hold the amount as collateral. If the credit rating of the issuer of a Letter of Credit falls below the Issuer Minimum Requirements, the Seller shall have two (2) Business Days (or such longer period as the Company in its sole discretion may permit in writing) following written notice by the Company to obtain a suitable Letter of Credit from another bank or other financial institution that meets the Issuer Minimum Requirements.

6.6 Calling on Security. The Company may call upon the Security Instrument posted by the Seller (i) if the Seller fails to pay amounts due to the Company pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of

Energy and AECs after written notice of default is provided to the Seller and any applicable cure period ends; and (ii) with respect to the Development Security, to satisfy PECO's rights to such portions of the Development Security specified in Section 6.1. The foregoing notwithstanding, the Security Instrument posted by the Seller shall become due automatically, and may be called upon by the Company, without prior notice or right of cure in the case of any Event of Default involving the Seller arising under Section ~~16.1.1~~**9.1.1**.

6.7 Interest on Cash Held by Company. The Company will pay simple interest (not compounded) calculated at the lower of the Interest Rate or six (6) percent per annum on any Cash posted by the Seller as Performance Security and directly held by the Company pursuant to this Agreement.

ARTICLE 7
BILLING AND PAYMENT; RECORDS

7.1 Invoices. Beginning with the end of the first Semi-Annual period after the Effective Date, Seller shall send PECO a statement following the Delivery of AECs after each Semi-Annual period setting forth all amounts due either to the Seller or to PECO arising during the preceding Semi-Annual period. The statement shall include (i) after the commencement of the Term, the quantity of AECs that were Delivered by Seller to PECO during such Semi-Annual period and the total amount owed by PECO for those AECs at the Contract Price, (ii) any interest due to Seller as provided in Section ~~13.6~~**6.7**, and (iii) any other amount due Seller or to PECO under this Agreement in respect of such Semi-Annual period (including the amount of any Replacement AEC Payment). Such statement shall be sent by Seller to PECO no later than fifteen (15) Business Days following the Delivery of AECs for which the statement is applicable.

7.2 Payment. Subject to all conditions and provisions of this Agreement (including Section ~~14.7~~**7.7**), no later than fifteen (15) Business Days after the date of a statement submitted by Seller, or if such day is not a Business Day, the immediately following Business Day, the Party owing the net amount shown to be due on such statement shall remit to the other Party, by wire transfer in accordance with Section ~~19.1~~**12.1**, the amount due pursuant to such statement.

7.3 Interest. Amounts not paid shall accrue interest from the due date to the date of payment at the Interest Rate.

7.4 Taxes. Seller shall be responsible for all existing and any new taxes, fees, levies, assessments, penalties, licenses, or charges imposed or levied by any federal, state or local governmental agency (collectively, "Taxes") on the electricity and capacity associated with the Facility and on all AECs prior to and including the Delivery of AECs under this Agreement. PECO shall be responsible for all existing and any new Taxes imposed or levied by any federal, state or local governmental agency on AECs after transfer to PECO. If PECO is required to remit or pay Taxes that are Seller's responsibility under this Agreement, then Seller shall promptly reimburse PECO for such Taxes. If Seller is required to remit or pay Taxes that are PECO's responsibility under this Agreement, then PECO shall promptly reimburse Seller for such Taxes.

7.5 Disputed Amounts. If either Party, in good faith, disputes any amount due pursuant to a statement rendered hereunder, such Party shall notify the other Party of the specific basis for the dispute and shall pay that portion of the amount shown to be due on the statement that is undisputed, on or before the due date. If any amount disputed by such Party is determined to be due the other Party, whether by agreement of the Parties or through arbitration in accordance with Section ~~20.2~~13.2, the amount due shall be paid within five (5) Business Days of such determination or resolution, along with interest accrued at the Interest Rate from the date due to the date paid. Notwithstanding the above, no dispute may be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such payment or statement within one year after the date of such statement or payment.

7.6 Records. Each Party shall keep and maintain all records as may be necessary or useful in performing or verifying any calculations made pursuant to this Agreement, or in verifying such Party's performance hereunder. All such records shall be retained by each Party for at least three (3) calendar years following the calendar year in which such records were created.

7.7 Audit Rights. Each Party, through its authorized representatives, shall have the right, at its sole expense and during normal business hours, to examine and copy the records of the other Party to the extent reasonably necessary to verify the accuracy of any statement, charge or computation made hereunder or to verify the other Party's performance of its obligations hereunder. If any statement is determined by the Parties or through arbitration to be inaccurate, a corrected statement shall be issued and any amount due thereunder will be promptly paid and shall bear interest calculated at the Interest Rate from the date of the overpayment or underpayment to the date of receipt of the reconciling payment. Notwithstanding the above, no adjustment shall be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such statement or payment within one year after the date of such statement or payment.

ARTICLE 8
REPRESENTATIONS AND WARRANTIES

8.1 Mutual Representations. As a material inducement to execution of this Agreement, each Party hereby represents and warrants to the other Party that:

8.1.1 It is duly organized or formed, validly existing and in good standing under the laws of the jurisdiction of its organization or formation, and is qualified to conduct its business in all jurisdictions necessary to perform its obligations hereunder;

8.1.2 The execution, delivery and performance of this Agreement are within its powers, have been duly authorized by all necessary action and do not violate any of the terms or conditions in its governing documents, any agreement to which it is a party or by which it or any of its property is bound, or any Requirement of Law applicable to it;

8.1.3 Except as set forth in and as required by this Agreement, no consent, approval, order or authorization of, or registration, declaration or filing with, any Governmental

Authority is required by such Party in connection with the execution, delivery or performance of this Agreement;

8.1.4 This Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms, subject to bankruptcy, insolvency, reorganization and other laws affecting creditors' rights generally, and with regard to equitable remedies, to the discretion of the court before which proceedings to obtain same may be pending;

8.1.5 No Event of Default has occurred and there are no bankruptcy, insolvency, reorganization, receivership or other arrangement proceedings pending or being contemplated by it, or to its knowledge threatened against it;

8.1.6 To such Party's knowledge, there are no actions, proceedings, judgments, rulings or orders, issued by or pending before any court or other governmental body, that would materially adversely affect its ability to perform its obligations under this Agreement;

8.1.7 It is, and will continue to be for the Term, a Forward Contract Merchant both generally and with respect to the AECs delivered and purchased under this Agreement.

8.2 Forward Contract. The Parties acknowledge that this Agreement is a Forward Contract and the Parties are Forward Contract Merchants, both generally and with respect to the deliveries of AECs pursuant to this Agreement, that each party is an "eligible contract participant" as set forth in the Commodities Exchange Act; and, accordingly, the Parties are entitled to the protections of the Safe Harbor Provisions of the Bankruptcy Code. The Parties therefore agree that this Agreement may be terminated and the remedies hereunder exercised by either Party in accordance with Article 2 and Article 9 hereof upon the commencement of a proceeding by the other Party under any chapter of the Bankruptcy Code, and that the automatic stay of Section 362(a) of the Bankruptcy Code shall not apply to such termination.

8.3 No Representation or Warranty By PECO of Facility or Seller. Any review by PECO of any information or material pertaining to the Seller or the Facility (including its design, operation, and compliance with Requirements of Law) is solely for PECO's information only. By conducting such review, PECO makes no representation or warranty as to the Seller or to the Facility, including its reliability, capacity, economic viability, operation, performance, safety, or compliance with Requirements of Law, RTO Requirements, or Prudent Utility Practice. PECO does not endorse or in any way approve of any representation or warranty of Seller in any agreement or to any Person, and Seller shall not make any such representation that PECO has given any such approval.

ARTICLE 9
EVENTS OF DEFAULT AND REMEDIES

9.1 Events of Default. An "Event of Default" by a Party (the "Defaulting Party") shall mean:

9.1.1 With respect to Seller, unless otherwise excused or permitted under the terms of this Agreement, the following events, without notice or the opportunity to cure, if the Seller:

(a) fails to achieve the Commercial Operation Date or any other Significant Milestone in accordance with the Significant Milestone Schedule, as may be extended pursuant to the provisions of Article 4;

(b) fails to meet the ratings requirements or to comply with the collateral requirements set forth in Article 6 within the time frames set forth in this Agreement;

(c) fails to provide at least ten percent (10%) of the Contract Amount of AECs for any Contract Year from the Facility;

(d) (1) fails to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise) in respect of any indebtedness for borrowed money involving a principal sum in excess of $5,000,000 ("Material Debt") and such failure continues after the applicable grace or notice period, if any, specified in the relevant document on the date of such failure, or (2) fails to perform or observe any other condition or covenant, or any other event shall occur or condition exist, under any agreement or instrument relating to any Material Debt, if, in any such event, the effect of such failure, event or condition is to cause, or permit the holder or holders thereof or beneficiary or beneficiaries thereof (or a trustee or agent on behalf of such holder or holders or beneficiary or beneficiaries) to cause (after the expiration of any applicable grace period or notice period, if any, specified in the relevant document on the date of such failure) such Material Debt to become due and payable or to be repurchased, defeased or redeemed prior to its expressed maturity;

(e) is dissolved (other than pursuant to a consolidation, amalgamation or merger);

(f) makes an assignment for the benefit of its creditors;

(g) has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets; or

(h) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger).

9.1.2 With respect to either Party, an Event of Default shall occur if such Party:

(a) is the subject of a voluntary bankruptcy, insolvency or similar proceeding;

(b) applies for, seeks consent to, or acquiesces in the appointment of a receiver, custodian, trustee, liquidator or similar official to manage all or a substantial portion of its assets;

(c) is the subject of an involuntary bankruptcy or similar proceeding, and fails to have such proceeding dismissed within 60 days; or

(d) commits an act or makes an omission that constitutes an "Event of Default" under any other agreement(s) between PECO and the Seller for the provision of Energy or AECs.

9.1.3 Unless otherwise excused or permitted under the terms of this Agreement, a Party's failure to make, when due, any payment required pursuant to this Agreement, regardless of whether a payment or portion thereof may be subject to a billing dispute, shall constitute an Event of Default unless a Party shall have cured the same within three (3) Business Days after receipt of written notice of such payment failure from the other Party.

9.1.4 Unless otherwise excused or permitted under the terms of this Agreement, any of the following events shall constitute an Event of Default unless a Party shall have cured the same within thirty (30) days after receipt of written notice of the occurrence of such event from the other Party:

(a) Any representation, warranty or covenant made by such Party herein is proven to be false or misleading in any material respect at the time it was made;

(b) A Party transfers or assigns or otherwise conveys any of its rights or obligations under this Agreement to another entity without the other Party's prior written consent, to the extent such consent is required under this Agreement, or if at the time of such transfer, assignment or conveyance, the resulting, surviving or transferee entity fails to assume all the obligations of such Party under this Agreement by operation of law or pursuant to an agreement reasonably satisfactory to the other Party;

(c) A Party's unexcused failure to perform any other material covenant or obligation set forth in this Agreement that is not enumerated in this Section ~~16.1~~**9.1**; or

(d) with respect to Seller, Seller fails to have and maintain, during the Term, all federal, state and local Permits to permit its performance under this Agreement.

9.2 Rights Upon Default. Upon and during the continuation of an Event of Default, the Non-Defaulting Party shall be entitled to elect or pursue one or more of the following remedies:

9.2.1 terminate the Agreement by providing written notice to the Defaulting Party of an Early Termination, as provided in Section 2.2;

9.2.2 accelerate all amounts then owing by the Defaulting Party to the Non-Defaulting Party;

9.2.3 withhold any payments due to the Defaulting Party under this Agreement;

9.2.4 suspend its performance under this Agreement; and

9.2.5 pursue any other remedies available at law or in equity, except to the extent such remedies are expressly limited by this Agreement.

9.3 Reliance on Netting. The Parties are making credit, default, collateral and other decisions and changes based upon and in reliance on the effectiveness of the default, early termination, setoff and netting provisions of this Agreement. The Parties would not enter into this Agreement and would change their position with regard to netting except for their reliance on and with the understanding that these netting terms will be effective. Notwithstanding anything else in this Agreement or in any other agreement between the Parties to the contrary, if for any reason these terms or any right of offset or netting hereunder or under another agreement in favor of the Non-Defaulting Party against a bankrupt Defaulting Party is delayed from being exercised or is not enforceable in accordance with its terms because either Party asserts or is concerned that the Safe Harbor Provisions of the Bankruptcy Code do not apply to such rights of enforcement or for any other reason, the Non-Defaulting Party may (a) exercise its rights to effect a setoff under Section 553 of the Bankruptcy Code or other applicable provisions, equity and law, and (b) withhold payments subject to a claim of offset under any obligations due the Defaulting Party in respect of any transactions or deliveries under this Agreement or any other agreement until such setoff rights are exercised and effected.

9.4 Setoff of Payment Obligations of the Non-Defaulting Party. Any payment obligations of the Non-Defaulting Party to the Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs shall be set off: (i) first, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured; (ii) second, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured, but which are subject to a guaranty; and (iii) third, to satisfy any remaining payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs. Any setoff shall not be subject to the automatic stay by virtue of Section 362(b)(6) of the Bankruptcy Code.

9.5 Preservation of Rights of the Non-Defaulting Party. The rights of the Non-Defaulting Party under this Agreement, including Sections ~~16.3~~9.3 and ~~16.4~~9.4 shall be supplemental to, and not in lieu of, any right of recoupment, lien, or set-off afforded by

applicable Requirements of Law, and all such rights are expressly preserved for the benefit of the Non-Defaulting Party.

9.6 Integrated Transaction. To the extent that Section 365 of the Bankruptcy Code applies to this Agreement, the Parties agree that all transactions under this Agreement constitute one integrated transaction that can only be assumed or rejected in its entirety.

ARTICLE 10
ASSIGNMENT

10.1 Assignment. Neither Party shall assign this Agreement or any of its rights or obligations hereunder (including by lease, subcontract, or otherwise) without the prior written consent of the other Party. Notwithstanding the foregoing, either Party may, without the need for consent from the other Party, transfer or assign this Agreement to an Affiliate of such Party, providing that the assigning Party shall provide notice to the other Party and shall remain responsible for its obligations under the Agreement. In all such transfers and assignments, the succeeding Party must agree to comply with all the provisions, terms and conditions of this Agreement, including the credit and collateral security requirements set out in Article 6. Except as specifically provided in this Article 10, any assignment or transfer of this Agreement or any rights, duties or interests hereunder by any Party without the written consent of the other Party shall be void and of no force or effect.

10.2 Collateral Assignment by Seller. Without the consent of PECO, Seller may, in its discretion, make a collateral assignment of this Agreement to any and all lenders or grant any or all lenders a lien or security interest in any right, title or interest in part or all of the Facility or any or all of Seller's rights under this Agreement for the purpose of the financing or refinancing of the Facility; provided, however, that Seller shall provide notice of each such assignment (including the identity of the assignee) prior to assignment and such assignment shall recognize PECO's rights under this Agreement. In order to facilitate the obtaining of financing or refinancing of the Facility, PECO shall cooperate with Seller and execute consents, agreements or similar documents with respect to a collateral assignment hereof to any lender as such lender may reasonably request in connection with the financing or refinancing of the Facility, including an agreement to give notice to such lenders of any default by Seller under this Agreement and to allow such lenders to cure any such default during periods which are equal to and consistent with the cure periods Seller has under this Agreement, provided that PECO shall be reasonably satisfied that any such consents, agreements or similar documents do not in any manner adversely affect its rights under this Agreement or impose material obligations on PECO except with respect to providing any additional notice of default and opportunity to cure consistent with this Agreement.

ARTICLE 11
FORCE MAJEURE; INDEMNITY; LIMITATION OF LIABILITY

11.1 Force Majeure. If either Party is rendered unable by a Force Majeure event to carry out, in whole or in part, its obligations under this Agreement, then, during the pendency of such event of Force Majeure, but for no longer period, the obligations of the affected Party (other than the obligation to make payments hereunder when due) shall be suspended to the extent

required. The affected Party shall (i) give the other Party written notice within 48 hours of the commencement of the Force Majeure event, with details to be supplied within three (3) Business Days after the commencement of the Force Majeure event further describing the particulars of the occurrence of the Force Majeure event, and (ii) take all reasonable steps to remedy the cause of the Force Majeure event with all reasonable dispatch. Whenever either Party is required to commence or complete any action within a specified period, such period shall be extended by an amount equal to the duration of any event of Force Majeure occurring or continuing during such period; provided, however, that in no event will any Force Majeure event extend this Agreement beyond its Term. A determination of force majeure by the PaPUC under the Act shall not constitute a determination of Force Majeure under this Agreement.

11.2 Indemnification.

11.2.1 Each Party shall indemnify and hold harmless the other Party and its officers, directors, agents and employees (each an "Indemnified Party") from and against any and all claims, demands, actions, losses, liabilities, expenses (including reasonable legal fees and expenses), suits and proceedings of any nature whatsoever for personal injury, death or property damage to third parties (collectively "Liabilities") that arise out of or are in any manner connected with the performance of this Agreement.

11.2.2 Without limiting the foregoing, Seller shall indemnify, defend and hold harmless PECO (and any PECO Indemnified Party) from any Liabilities arising from the generation of Energy by the Facility prior to delivery of any Energy to the Energy Delivery Point and for any Claims arising from the design, construction, operation and removal of the Facility.

11.2.3 Any fines, penalties or other costs incurred by a Party or its agents, employees or subcontractors for non-compliance by such Party, its agents, employees or subcontractors with any Requirement of Law will not be reimbursed by the other Party but will be the sole responsibility of such non-complying Party.

11.2.4 A Party seeking indemnification under this Section 11.2 shall give written notice to the indemnifying Party as soon as reasonably practicable after the Indemnified Party becomes aware of any fact, condition or event which may give rise to Liabilities for which indemnification may be sought under this Section 11.2.

11.3 Limitations of Remedies, Liability and Damages. The Parties agree that the remedies and measures of damages provided in this Agreement satisfy the essential purposes hereof. If no measure of damages or other remedy is expressly provided herein, the obligor's liability shall be limited to direct actual damages only, which direct actual damages shall be the sole and exclusive remedy and all other remedies or damages at law or in equity are waived. Unless otherwise provided herein, neither Party shall be liable for consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages, (other than consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages recovered by an unaffiliated third party against a Party subject to indemnification hereunder), whether such damages are allowed or provided by statute, in tort, under any indemnity provision or otherwise.

ARTICLE 12
NOTICES AND ADDRESS FOR PAYMENT

12.1 Notices.

12.1.1 Except as set forth in Section 12.1.2, all notices, requests, statements or payments, if by check, shall be made to the addresses set out below. Notices required to be in writing shall be delivered by letter, facsimile or other documentary form. Notice by facsimile or hand delivery shall be deemed to have been received by the close of the Business Day during which the notice is received or hand delivered. Notice by mail or overnight courier shall be deemed to have been received upon delivery as evidenced by the delivery receipt.

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

12.1.2 All notices, demands or requests regarding credit requirements and credit related security or deposit transfers shall be in writing and shall be personally delivered or sent by overnight express mail, courier service or facsimile transmission (with the original transmitted by any of the other aforementioned delivery methods) to the addresses specified below:

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

12.1.3 All amounts due Seller under this Agreement that are paid by check must be sent via United States mail to the address specified below:

12.1.4 All amounts due PECO under this Agreement that are paid by check must be sent via United States mail to the address specified below:

12.1.5 A Party's address or addressee to which notices or invoices shall be sent may be changed from time to time by such Party by notice served as hereinabove provided.

12.2 Notice After Close of Business. Notice received after the close of the Business Day shall be deemed received on the next Business Day; provided, however, that notice by facsimile transmission shall be deemed to have been received by the recipient if the recipient confirms receipt telephonically or in writing.

ARTICLE 13
DISPUTE RESOLUTION

13.1 Negotiations. The Parties shall attempt in good faith to resolve all disputes arising out of or related to or in connection with this Agreement promptly by negotiation, as provided in this Section. Any Party may give the other Party written notice of any dispute not resolved in the normal course of business. Executives of both Parties at levels one level above the personnel who have previously been involved in the dispute shall meet at a mutually acceptable time and place within ten (10) Business Days after delivery of such notice, and thereafter as often as they reasonably deem necessary, to exchange relevant information and to attempt to resolve the dispute. If the matter has not been resolved within thirty (30) Business Days from the referral of the dispute to senior executives, or if no meeting of senior executives has taken place within fifteen (15) Business Days after such referral, either Party may initiate arbitration as provided in Section ~~20.2~~**13.2**. All negotiations pursuant to this clause are confidential, shall be considered to be in the nature of settlement discussions and shall be subject to Section ~~20.3~~**13.3**.

13.2 Arbitration.

13.2.1 If the negotiation process provided for in Section ~~20.1~~**13.1** has not resolved the dispute, the dispute shall be decided by binding arbitration at Philadelphia, Pennsylvania in accordance with the Commercial Arbitration Rules of the American Arbitration Association (except as expressly provided otherwise herein). The arbitration shall be governed by the United States Arbitration Act (9 U.S.C. § 1 et seq.), and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. This agreement to arbitrate and any other agreement or consent to arbitrate entered into in accordance herewith will be specifically enforceable under the prevailing arbitration law of any court having jurisdiction. Any arbitration may be consolidated with any other arbitration proceedings between the Parties commenced under this Section ~~20.2~~**13.2**. The award of the arbitrator shall be specifically enforceable in a court of competent jurisdiction.

13.2.2 Either Party may commence the arbitration by giving to the other Party written notice in sufficient detail of the existence and nature of any dispute proposed to be arbitrated. The demand must be made within a reasonable time after the dispute has arisen. In no event may the demand for arbitration be made if the institution of legal or equitable proceedings based on such dispute is barred by the applicable statute of limitations. The Parties shall attempt to agree on a person to serve as arbitrator with respect to the matter at issue. If the

Parties cannot agree on an arbitrator within ten (10) Business Days of such notice, each shall then appoint one individual to serve as an arbitrator within thirty (30) Business Days of such notice and the two (2) individuals thus appointed shall select a third arbitrator to serve as chairman of the panel of arbitrators. Such three (3) arbitrators shall determine all matters by majority vote; provided however, if the two (2) arbitrators appointed by the Parties are unable to agree upon the appointment of the third arbitrator within ten (10) Business Days after their appointment, both shall give written notice of such failure to agree to the Parties, and, if the Parties fail to agree upon the selection of such third arbitrator within five (5) Business Days of such notice, then either of the Parties upon written notice to the other may require such appointment from, and pursuant to the Commercial Arbitration Rules of the American Arbitration Association. Any arbitrator appointed shall be a present or former executive of an electric utility, or private power producer, or an attorney, in each case with substantial experience in electric power purchase agreements. Prior to appointment, each arbitrator shall agree to conduct such arbitration in accordance with the terms of this Agreement.

13.2.3 The Parties shall have sixty (60) calendar days after appointment of all arbitrators to perform discovery and present evidence and argument to the arbitrators. During that period, the arbitrators shall be available to receive and consider all such evidence as is relevant and, within reasonable limits due to the restricted time period, to hear as much argument as is feasible, giving a fair allocation of time to each Party to the arbitration. The arbitrators shall use all reasonable means to expedite discovery and to sanction noncompliance with reasonable discovery requests or any discovery order. The arbitrators shall not consider any evidence or argument not presented during such period and shall not extend such period except by the written consent of both parties. At the conclusion of such period, the arbitrators shall have forty-five (45) calendar days to reach a determination.

13.2.4 The arbitrators shall have the right only to interpret and apply the terms and conditions of this Agreement and to order any remedy allowed by this Agreement, and may not change any term or condition of this Agreement, deprive either Party of any right or remedy expressly provided hereunder, or provide any right or remedy that has been excluded hereunder.

13.2.5 The arbitrators shall give a written decision to the Parties stating their findings of fact, conclusions of law and order, and shall furnish to each Party a copy thereof signed by them within five (5) calendar days from the date of their determination. Each party shall pay the cost of the arbitrator or arbitrators, with respect to those issues as to which they do not prevail, as determined by the arbitrator or arbitrators.

13.3 Settlement Discussions. The Parties agree that no statements of position or offers of settlement made in the course of the dispute process described in Section ~~20.1~~**13.1** above will be offered into evidence for any purpose in any litigation or arbitration between the Parties, nor will any such statements or offers of settlement be used in any manner against either Party in any such litigation or arbitration. Further, no such statements or offers of settlement shall constitute an admission or waiver of rights by either Party in connection with any such litigation or arbitration. At the request of either Party, any such statements and offers of settlement, and all copies thereof, shall be promptly returned to the Party providing the same.

13.4 Preliminary Injunctive Relief. Nothing in this Article 13 shall preclude, or be construed to preclude, the resort by either party to a court of competent jurisdiction solely for the purposes of securing a temporary or preliminary injunction to preserve the status quo or avoid irreparable harm pending arbitration pursuant to this Article 13.

ARTICLE 14
MISCELLANEOUS

14.1 Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof, and it supersedes all prior oral or written agreements, commitments, negotiations or understandings with respect to the matters provided for herein.

14.2 Schedules and Exhibits. The Schedules and the Exhibits attached hereto are hereby incorporated into this Agreement and are hereby made a part hereof as if set out in full herein.

14.3 Amendment. Unless expressly provided otherwise in another provision of this Agreement, this Agreement shall not be amended, altered or modified except by an instrument in writing duly executed by both Parties. It is agreed that no use of trade or other regular practice or method of dealing between the Parties hereto shall be used to modify, interpret, supplement, or alter in any manner the terms of this Agreement.

14.4 Waiver. Any agreement on the part of a Party to any extension or waiver of any provision hereof shall be valid only if set forth in an instrument in writing signed on behalf of such Party. A waiver by a Party of the performance of any covenant, agreement, obligation, condition, representation or warranty shall not be construed as a waiver of any other covenant, agreement, obligation, condition, representation or warranty. A waiver by a Party of the performance of any act shall not constitute a waiver of the performance of any other act or an identical act required to be performed at a later time.

14.5 Remedies Cumulative. No right or remedy herein conferred upon or reserved to either Party is intended to be exclusive of any other right or remedy, and each and every right and remedy shall be cumulative and in addition to any other right or remedy under this Agreement, or under applicable law, whether now or hereafter existing.

14.6 Binding Effect; Limitation of Benefits. This Agreement shall be binding upon and shall insure to the benefit of the Parties hereto and, subject to the provisions of Article 10 hereof, their successors and permitted assigns. Nothing in this Agreement is intended to confer benefits, rights or remedies unto any Person other than the Parties and their permitted successors and assigns, and no third party shall have the right to enforce the provisions of this Agreement.

14.7 Compliance with Laws. Except as otherwise provided in this Agreement, each Party to this Agreement shall comply, at its own expense, with all applicable laws, statutes, regulations, rules, ordinances, orders, injunctions, writs, decrees or awards of any government or

political subdivision thereof, or any agency, authority, bureau, commission, department or instrumentality thereof, or any court, tribunal, or arbitrator, in all applicable, material respects in connection with all activities and all performance under or in connection with this Agreement.

14.8 Governing Law. The validity, interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the Commonwealth of Pennsylvania, without giving effect to any choice of conflict of law provision or rule (whether of the Commonwealth of Pennsylvania or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the Commonwealth of Pennsylvania.

14.9 No Partnership or Joint Venture. This Agreement is not intended to create nor shall it be construed to create any partnership or joint venture relationship between PECO and Seller, and neither Party hereto shall have the power to bind or obligate the other Party. Neither Party hereto shall be liable for the payment or performance of any debts, obligations, or liabilities of the other Party, unless expressly assumed in writing herein or otherwise. Each Party retains full control over the employment, direction, compensation and discharge of its employees, and will be solely responsible for all compensation of such employees, including social security, withholding and worker's compensation responsibilities.

14.10 Headings. The titles, headings and table of contents contained in this Agreement are inserted for convenience of reference only, shall not be deemed to be a part of this Agreement for any purpose, and shall not in any way define or affect the meaning, construction or scope of any of the provisions hereof.

14.11 Number of Days. In computing the number of days for purposes of this Agreement, all days shall be counted, including Saturdays, Sundays, and holidays; provided, however, that if the final day of any time period falls on a Saturday, Sunday, or holiday, then the final day shall be deemed to be the next day which is not a Saturday, Sunday, or holiday.

14.12 E-mail in Place of Writing. Where the parties agree, any written notification required by this Agreement may be transmitted via e-mail.

14.13 Severability. Whenever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the domestic laws of the Commonwealth of Pennsylvania as provided herein, but if any provision of this Agreement is held to be illegal, invalid or unenforceable under present or future Laws effective during the term hereof, then (a) in lieu of such illegal, invalid or unenforceable provision, the Parties shall promptly endeavor, in good faith negotiations, to agree on a provision as may be possible and be legal, valid and enforceable, provided that no Party shall be required to agree to any provision that would materially alter any of its rights or obligations under this Agreement, and (b) the legality, validity and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby. To the extent permitted by law, each Party hereby waives any Requirement of Law that renders any such provision prohibited or unenforceable in any respect.

14.14 Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which taken together shall constitute one single agreement between the Parties.

[Signatures Appear on the Following Page]

IN WITNESS WHEREOF, this Agreement has been executed and delivered by the duly authorized representatives of PECO and Seller as of the date first written above.

SAMPLE LETTER OF CREDIT

[On Issuing Bank's Letterhead]
IRREVOCABLE TRANSFERABLE STANDBY LETTER OF CREDIT

_____ (Date)

Letter of Credit No. _____

To: PECO Energy Company
[address]
Attention:_____

1. We hereby establish this Irrevocable Transferable Standby Letter of Credit (this "Letter of Credit") in your favor in the amount of USD $_____, effective immediately and available to you at sight upon demand at our counters at _____[designate Issuing Bank's location for presentments] and expiring at 5:00 PM [New York, NY time[1]] on _____, 20__, [one year after date of issuance] (the "Initial Expiration Date"), unless terminated earlier in accordance with the provisions of Paragraph 11 hereof or extended one or more times in accordance with the provisions of Paragraph 10 hereof (the "Extended Expiration Date"; the latest of the Initial Expiration Date and any Extended Expiration Date being referred to herein as the "Expiration Date").

2. This Letter of Credit is issued at the request and for the account of _____ _____ _____ (including its successors and assigns, the "Applicant"), to secure its obligations under one or more Alternative Energy Purchase and Sale Agreements between you and the Applicant or its affiliates.

3. We hereby irrevocably authorize you to draw on us, in accordance with the terms and conditions hereof, up to the amount available under this Letter of Credit from time to time, subject to reduction as provided in Paragraph 8. A partial or full drawing hereunder may be presented by you on any Business Day on or prior to the Expiration Date by delivering or transmitting to _____ (identify Issuing Bank), _____ (U.S. address), (a) a notice executed by you substantially in the form of Annex 1 hereto, appropriately completed and duly signed by your Authorized Officer and (b) your draft substantially in the form of Annex 2 hereto, appropriately completed and duly signed by your Authorized Officer.

[1] If the issuer of the Letter of Credit is located in an area that is not in the Eastern time zone, this time and all other times in this Letter of Credit, and the definition of a Business Day should be adjusted accordingly

4. Drafts, document(s) and other communications hereunder may be presented or delivered to us by facsimile transmission. Presentation of documents to effect a draw by facsimile must be made to the following facsimile number: _____, and confirmed by telephone to us at the following number: _____. In the event of a presentation via facsimile transmission, no mail confirmation is necessary and the facsimile transmission will constitute the operative drawing documents.

5. We will honor a drawing hereunder made in compliance with the terms and provisions of this Letter of Credit by transferring in immediately available funds the amount specified in your draft (or so much thereof as is available hereunder) delivered or transmitted to us in connection with such drawing to the account designated as provided below, by 3:00 PM [New York, NY time] on the date of such drawing, if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made prior to 11:00 AM [New York, NY time] on a Business Day, but at the opening of business on the first Business Day next succeeding the date of such drawing if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made on or after 11:00 AM [New York, NY time] on any Business Day.

6. If a demand for payment made by you hereunder does not, in any instance, conform to the terms and conditions of this Letter of Credit, we shall give you notice not later than the time provided in Paragraph 5 above for honor of a drawing presented to us, that the demand for payment was not effected in accordance with the terms and conditions of this Letter of Credit, stating the reasons therefor and that we will upon your instructions hold any documents at your disposal or return the same to you. Upon being notified that the demand for payment was not effected in conformity with this Letter of Credit, you may attempt to correct any such non-conforming demand for payment to the extent that you are entitled to do so, provided, however, in such event a conforming demand for payment must be timely made in accordance with the terms of this Letter of Credit.

7. Unless otherwise hereafter designated in writing to us by your Authorized Officer, all payments made by us under this Letter of Credit shall be transmitted by wire transfer to you pursuant to the following instructions:

   PECO Energy Company
   Account No.: _____
   Bank: _____
   Bank's Address: _____
   _____
   ABA Routing No.: _____
   Contact: _____
   Telephone No.: _____

8. Partial drawings are permitted hereunder and multiple drawings are permitted hereunder. The amount available for drawing by you under this Letter of Credit shall be automatically reduced to the extent of the amount of any drawings referencing this Letter of Credit paid by

us. Presentation of demands for drawings in amounts that exceed the amount available to be drawn hereunder shall not be deemed a failure to comply with the requirements of Paragraph 3 hereof, provided that the amounts payable on any such demand shall not exceed the amount then available to be drawn under this Letter of Credit.

9. We may, but shall not be obligated to, accept any request by you to amend this Letter of Credit to increase or decrease the amount available hereunder. Such request may be made pursuant to a "New Availability Request" in the form of Annex 3 hereto appropriately completed and executed by your Authorized Officer delivered to us requesting us to amend this Letter of Credit to change the amount available hereunder to the amount set forth in such New Availability Request. Upon acceptance by us of your New Availability Request to change the amount of this Letter of Credit, we will issue to you an amendment of this Letter of Credit in the amount set forth in the New Availability Request. The amount available under this Letter of Credit from the date of such amendment shall be the full amount stated therein regardless of our honor and payment of draws under this Letter of Credit prior to such amendment. If we fail to issue an amendment complying with your New Availability Request within two (2) Business Days after we receive it, any such amendment issued thereafter decreasing the amount of this Letter of Credit, even if in accordance with your New Availability Request, shall require your express acceptance before it is effective.

10. It is a condition of this Letter of Credit that its Expiration Date shall be automatically extended from its Initial Expiration Date, or any Extended Expiration Date, for successive one year periods unless you receive written notice from us at least thirty (30) days prior to the then current Expiration Date, sent by Federal Express or other nationally recognized next business day courier or delivery service to you at your address stated above (or such other address an Authorized Officer of your notifies us of in writing) that we elect not to extend this Letter of Credit for such additional one year period.

11. This Letter of Credit shall terminate on the earliest of the date (a) you have made drawings which exhaust the amounts available to be drawn under this Letter of Credit, (b) we receive from you a Certificate of Cancellation in the form of Annex 4 hereto together with the original of this Letter of Credit returned for cancellation, or (c) unless extended, 5:00 PM [New York, NY time] on the Expiration Date.

12. Rule 3.14(a) of the ISP as it applies to this Letter of Credit is hereby modified to provide as follows:

    > If on the last Business Day for presentation the place for presentation stated in this Letter of Credit is for any reason closed, then the last day for presentation is automatically extended to the day occurring thirty calendar days after the place for presentation re-opens for business.

    Rule 3.14(b) of the ISP is hereby modified by providing that any alternate place for presentation we may designate pursuant to this rule must be in the United States.

13. As used herein:

"Authorized Officer" shall mean President, Treasurer, any Vice President or any Assistant Treasurer.

"Business Day" shall mean any day on which commercial banks are not authorized or required to close in [New York, New York] and any day on which payments can be effected on the Fedwire system.

"New Availability Request" shall mean a request form substantially in the form of Annex 3 hereto, appropriately completed and duly signed by your Authorized Officer.

14. This Letter of Credit is transferable pursuant to a notice of transfer in the form of Annex 5 hereto, to an entity you identify to us in such instrument as your transferee, and we hereby consent to such transfer. Any and all transfer fees, expenses and costs shall be borne by the Applicant. Any payments made under this Letter of Credit after its transfer shall be made to the account of the transferee as designated to you by an Authorized Officer of the transferee.

15. This Letter of Credit is subject to and shall be governed by the International Standby Practices 1998 (International Chamber of Commerce Publication No. 590), or any successor publication thereto (the "ISP"), except to the extent that the terms hereof are inconsistent with the provisions of the ISP, in which case the terms of this Letter of Credit shall govern. This Letter of Credit shall, as to matters not governed by the ISP or matters inconsistent with the ISP, be governed and construed in accordance with the laws of the State of [New York], without regard to principles of conflicts of law.

16. This Letter of Credit sets forth in full our undertaking, and such undertaking shall not in any way be modified, amended, changed, amplified or limited by reference to any document, instrument or agreement referred to herein, except for Annexes 1 through 5 hereto and the notices referred to herein; and any such reference shall not be deemed to incorporate herein by reference any document, instrument or agreement except as set forth above. Except as otherwise expressly stated herein, this Letter of Credit may not be amended or modified by us without the consent of an Authorized Officer of the beneficiary.

17. We certify that as of the date of issuance of this Letter of Credit our senior unsecured debt is rated "A" or better by Standard & Poor's Rating Service.

18. This original Letter of Credit has been delivered to you as beneficiary in accordance with the Applicant's instructions. Any demands or communications in the form of the attached Annexes or other communications directed to us under this Letter of Credit must be signed by your Authorized Officer.

Very truly yours,
(Issuing Bank)

DRAWING UNDER LETTER OF CREDIT NO. _____

_____, 20__

To: (Issuing
(Address)

Attention: Standby Letter of Credit Unit

Ladies and Gentlemen:

The undersigned is making a drawing under Your Letter of Credit No. _____ (the Letter of Credit) in the amount specified below and hereby certifies to you as follows:

1. Capitalized terms used herein that are not defined herein shall have the meanings ascribed thereto in the Letter of Credit.

2. The undersigned is making a drawing under the Letter of Credit in the amount of USD $_____ (the "Draw Amount").

3. [Check applicable drawing condition]:

☐ An Event of Default has occurred under an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Commercial Operation Date for the Facility that is subject to an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned has been delayed, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Facility that is subject to an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned has been downsized, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Letter of Credit is scheduled to expire within the next thirty (30) days and the Applicant has failed to deliver a replacement letter of credit as required by the terms of the Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

4. The undersigned acknowledges that, upon your honoring the drawing herein requested, the amount of the Letter of Credit available for drawing shall be automatically decreased by the amount of this drawing honored by you.

Very truly yours,

SOLAR ALTERNATIVE ENERGY CREDITS PURCHASE AND SALE AGREEMENT

This Solar Alternative Energy Credits Purchase and Sale Agreement (the "Agreement") is entered into as of _____, 20__ (the "Effective Date"), by and between_____, a _____ with principal offices located at _____ ("Seller"), and PECO Energy Company, a Pennsylvania corporation with principal offices located at 2301 Market Street, Philadelphia, Pennsylvania 19101 ("PECO" or the "Company"). PECO and the Seller are herein referred to collectively as the "Parties", and individually as a "Party".

RECITALS

WHEREAS, PECO is an electric distribution company under the Alternative Energy Portfolio Standards Act, 73 P.S. § l648.1 ("AEPS" or "the Act"); and

WHEREAS, Seller owns the rights to alternative energy credits associated with the electricity generated by solar alternative energy systems under the Act, and desires to sell such credits to PECO; and

WHEREAS, PECO desires to purchase such credits from Seller to satisfy PECO's obligations under the Act, subject to the requirements and conditions set forth herein;

NOW THEREFORE, in consideration of the mutual promises contained herein and other good and valuable consideration, PECO and Seller agree as follows:

ARTICLE 8
DEFINITIONS

8.1 **Definitions.** Any capitalized or abbreviated term not elsewhere defined in this Agreement shall have the definition set forth in this Article 1. As used in this Agreement, the following terms shall have the respective meanings set forth below.

"AEC" shall be an alternative energy credit as defined in the Act and of the type specified in Exhibit 1.

"AEC Payment" shall have the meaning set forth in Section 3.4.

"AEPS" shall have the meaning set forth in the Recitals.

"AEPS Reporting Year" shall mean the period from June 1 through May 31 of the following year, or such period as the PaPUC may designate for AEPS compliance purposes.

"Affiliate" means any Person that directly or indirectly controls, is controlled by, or is under common control with the Person in question.

"Agreement" means this Agreement.

"Alternative Compliance Payment" shall be equal to the amount per AEC determined by the PaPUC in accordance with the Act during the latest AEPS Reporting Period.

"Alternate Representative" has the meaning provided in Section 5.3.

"Authorized Representative" has the meaning provided in Section 5.3.

"Bankruptcy Code" means those laws of the United States of America related to bankruptcy, codified and enacted as Title 11 of the United States Code, entitled "Bankruptcy" and found at 11 U.S.C. § 101 et seq.

"Business Day" means a day on which Federal Reserve member banks in Philadelphia, PA are open for business, beginning at 0800 EPT and ending at 1700 EPT.

"Certificate" means a certificate corresponding to an AEC, as defined under the Registry Rules.

"Claim" shall mean any claim, demand, audit, cause of action, litigation, lawsuit, grievance, arbitration, mediation, proceeding (including, without limitation, any bankruptcy, reorganization, dissolution, insolvency, liquidation, extension of bankruptcy or similar proceeding).

"Company" shall have the meaning set forth in the Preamble.

"Contract Amount" means the Contract Amount specified on Exhibit 1, including during the first Contract Year, the Initial Period Contract Amount.

"Contract Price" means the price identified as "Contract Price" on Exhibit 1.

"Contract Year" means a twelve month period during the Term commencing on June 1 and ending on May 31 of the following year.

"Defaulting Party" has the meaning set forth in Section ~~16.1~~**9.1**.

"Deliver" or "Delivery" means the transfer of AECs from Seller to PECO using the Registry in accordance with the Registry Rules.

"Early Termination Date" means the date upon which an Early Termination becomes effective as specified in Section ~~9.3~~**2.3**.

"Effective Date" shall have the meaning set forth in the Preamble.

"Energy" means three-phase, 60-cycle alternating current electric energy, expressed in units of kilowatt-hours or megawatt-hours.

"EPT" means Eastern Prevailing Time (the time then prevailing in the Eastern Time Zone of the United States).

"Event of Default" has the meaning set forth in Section ~~16.1~~9.1.

"FERC" means the Federal Energy Regulatory Commission.

"Force Majeure" means an event not anticipated as of the Effective Date, which is not within the reasonable control of the Party affected thereby or attributable to such Party's fault or negligence, and which by the exercise of due diligence the affected Party is unable to overcome or obtain or cause to be obtained a commercially reasonable substitute therefor. Force Majeure includes, but is not restricted to: fire; explosion; civil disturbance; sabotage; action or restraint by court order or public or government authority, so long as the affected Party has not applied for or assisted in the application for, and has opposed where and to the extent reasonable, such government action. Force Majeure shall not include the following: (i) the Seller's ability to sell Energy or AECs at a more advantageous price, (ii) insufficient sunlight, wind, or other natural resource; (iii) a change in a Requirement of Law or Registry Rules. Increased cost of performance by Seller shall not constitute an event of Force Majeure.

"Forward Contract" has the meaning ascribed to such term in Section 101(25) of the Bankruptcy Code.

"Forward Contract Merchant" has the meaning ascribed to such term in Section 101(26) of the Bankruptcy Code.

"Governmental Authority" means any federal, state or local government, court of competent jurisdiction, administrative agency or commission or other governmental or regulatory authority or instrumentality or authorized arbitral body.

"Indemnified Party" shall have the meaning set forth in Section 11.2.1.

"Interest Rate" means the average Federal Funds Effective Rate for the period of time the funds are on deposit. The Federal Funds Effective Rate is published daily on the Federal Reserve website (http://www.federalreserve.gov/releases/h15/update/).

"Issuer Minimum Requirements" shall have the meaning set forth in Section 6.4.2.

"Letter of Credit" has the meaning set forth in Section 6.4. The Letter of Credit must be in the form of Exhibit 2, or another substantially similar form approved by the Company.

"Lien" shall mean any mortgage, deed of trust, lien, pledge, charge, claim, security interest, easement, covenant, right of way, restriction, equity, hypothecation, usufruct or encumbrance of any nature whatsoever, including any conditional sale agreement.

"Material Debt" shall have the meaning set forth in Section ~~16.1.1~~9.1.1.

"Moody's" means Moody's Investors Service, Inc.

"Month" means a calendar month (or any partial calendar month at the outset of the Term in the event that the Term commences during a calendar month).

"MW" means megawatt.

"Nominal Contract Value" means the dollar amount resulting by multiplying the Contract Amount by the Contract Price by ten (10).

"Non-Defaulting Party" means (i) if the Company is the Defaulting Party, the Seller; or (ii) if the Seller is the Defaulting Party, the Company.

"PaPUC" means the Pennsylvania Public Utility Commission.

"PECO" means PECO Energy Company.

"Permit" shall mean any permit, license, registration, certificates of occupancy, approvals or other authorizations of any Governmental Authority.

"Person" shall mean any individual, entity, corporation, general or limited partnership, limited liability company, joint venture, estate, trust, association or other entity or Governmental Authority.

"PJM" means the regional transmission organization operated by PJM Interconnection, Inc.

"Registry" shall mean the PJM GATS system or any successor AEPS alternative energy credit registry designated by the PaPUC.

"Registry Rules" shall mean the operating rules of the Registry.

"Requirement of Law" means any federal, state and local law, statute, regulation, rule, code, ordinance, resolution, order, writ, judgment or decree enacted, adopted, issued or promulgated by any Governmental Authority (including those pertaining to electrical, building, zoning, environmental and occupational safety and health requirements).

"S&P" means Standard and Poor's Rating Services.

"Safe Harbor Provisions of the Bankruptcy Code" means Sections 101(25), 101(26), 101(38A), 101(38B), 362(b)(6), 362 (b)(27), 546(e), 546(j), 556, 561, 562 and 767 of the Bankruptcy Code together with other sections pertaining or referring to any of them and any future amendments to the Bankruptcy Code which provide protections, rights or remedies to non-bankrupt Forward Contract Merchants or Master Netting Participants against bankrupt counterparties under Forward Contracts or Master Netting Agreements.

"Security Instrument" has the meaning set forth in Section 6.4.

"Seller" shall have the meaning set forth in the Preamble.

"Semi-Annual" means the six month calendar period commencing each July and January of the Contract Year (or any partial six month calendar period in the event the Term commences during such period).

"Semi-Annual AECs" shall have the meaning set forth in Section 3.2.

"Taxes" has the meaning set forth in Section 7.7.

"Term" shall mean the period from the Effective Date until the earlier of (i) the Termination Date and (ii) termination pursuant to Section 2.2.

"Termination Date" has the meaning set forth in Section ~~9.1~~**2.1**.

8.2 **Interpretation**. In this Agreement, unless a different intention clearly appears: (a) the singular includes the plural and vice versa; (b) the reference to any Party includes such Party's legal and/or permitted successors and assignees, and reference to a Party in a particular capacity excludes such Party in any other capacity or individually; (c) the reference to any gender includes the other gender; (d) reference to any document other than this Agreement refers to such documents as may be amended, modified, replaced or superseded from time to time, or any successor document(s) thereto; (e) reference to any Article, Section or Exhibit means such Article, Section or Exhibit of this Agreement unless otherwise indicated; (f) "hereunder", "hereof", "hereto", and words of similar import shall be deemed references to this Agreement as a whole and not to any particular Section or other provision; (g) "including" (and with correlative meaning "include"), when following any general statement or term, is not to be construed as limiting the general statement or term to the specific items or matters set forth or to similar items or matters, but rather as permitting the general statement or term to refer to all other items or matters that could reasonably fall within its broadest possible scope; (h) relative to the determination of any period of time, "from" means "from and including", "to" means "to but excluding" and "through" means "through and including"; (i) reference to any law or regulation refers to such law or regulation as may be amended, modified, replaced or superseded from time to time, or any successor law(s) or regulation(s) thereto; and (j) reference to "termination of this Agreement," "this Agreement is terminated," "this Agreement may be terminated" and similar phrases used in this Agreement refer to the termination of deliveries under this Agreement and related on-going rights and obligations, and does not imply or mean a termination of rights, remedies, obligations and provisions which by their nature or as provided elsewhere in the Agreement survive termination.

ARTICLE 9
TERM AND TERMINATION

9.1 **Effective Date and Term.** This Agreement shall be effective on the Effective Date. Unless sooner terminated as provided herein, this Agreement shall end on May 31, 20__ (the "Termination Date").

9.2 **Early Termination.** This Agreement may be terminated prior to the Termination Date pursuant to the following:

9.2.1 At any time by the mutual written consent of the Parties;

9.2.2 By the Non-Defaulting Party if an Event of Default occurs as provided for in Article 9, with such notice as required therein;

9.2.3 By Either Party in the case of a Force Majeure event, the non-terminating Party fails to substantially perform its obligations under this Agreement on account of such Force Majeure event for a period exceeding 180 days after the occurrence of such Force Majeure event, and after thirty (30) days written notice; provided that such 180-day period may be extended, by the written agreement of both Parties, for an additional 180 days if (i) such Force Majeure event is not remedied within such 180-day period with reasonable diligence, (ii) such Force Majeure event may reasonably be expected to be remedied within such 180-day period, and (iii) the Party not performing its obligations under this Agreement on account of such Force Majeure event promptly undertakes to remedy such Force Majeure event and continues with reasonable diligence to effect such remedy within the 180-day period.

9.3 **Effectiveness of Termination.** Termination under this Article 2 shall be effective immediately after written notice is given, subject to any applicable notice requirements or extensions agreed to by the Parties. If this Agreement is terminated pursuant to any of the provisions above, the effective date of such termination shall be deemed the "Early Termination Date."

9.4 **Survival**.

9.4.1 Termination of this Agreement for any reason shall not relieve PECO or Seller of any obligation accrued or accruing prior to such termination, and the following provisions of this Agreement shall survive any termination: Article 1, Sections 2.4, 2.5, 3.2, 3.3, 3.4, 3.5, 6.4, 6.5, 7.4, 7.6, 7.7, 11.2, 11.3, 12.1, and Articles 9, 13 and 14.

9.4.2 In addition, if this Agreement is terminated pursuant to:

(a) Section ~~9.2.2~~**2.2.2**, the Non-Defaulting Party may pursue the remedies provided in Article 9;

(b) Section ~~9.2.3~~**2.2.3**, the Parties may not pursue the remedies provided for in Article 9 and are entitled to receive only amounts due and owing as of the Early Termination Date and under Section 6.1, if any.

9.5 **Preservation of Security**. In the event that Seller has provided a Letter of Credit under the terms of this Agreement, Seller will preserve the Letter of Credit in place until all payments due under this Agreement for which the Letter of Credit has been provided have been made in full.

ARTICLE 10
PURCHASE AND SALE OF AECS

10.1 **Purchase and Sale of AECs.** Subject to the terms and upon the conditions and provisions of this Agreement, Seller shall sell, and PECO shall purchase, all rights, title and interest in the AECs specified in Exhibit 1 equal to the Contract Amount for each Contract Year. Each AEC transferred under this Agreement to satisfy the Contract Amount in each Contract Year shall be generated in that Contract Year.

10.2 **Delivery of AECs by Seller**. For each Semi-Annual period of the Contract Year during the Term, Seller shall Deliver Certificates to PECO for AECs equal to at least fifty percent of the Contract Amount (the "Semi-Annual AECs") until PECO has received the Contract Amount for the current Contract Year. The Delivery of the Semi-Annual AECs shall be completed no later than the fortieth (40th) day following the end of such Semi-Annual period, or such other date as PECO and the Seller may agree to in writing. Seller and PECO are each responsible for their own costs associated with establishing and administering any accounts with the Registry sufficient to accomplish the Delivery of all AECs. Seller agrees to execute all other documents or instruments, at its expense, necessary to effectuate the Delivery of the AECs to PECO or as may be reasonably requested by PECO. All AECs transferred to PECO shall be free and clear of all Liens. Nothing in this Section shall reduce Seller's obligations under Section 3.4.

10.3 **Ownership of and Title to AECs.** PECO shall have sole, exclusive and perpetual ownership of all AECs Delivered to PECO by Seller under this Agreement, including all rights to sell, assign, transfer, apply, or retire any AEC transferred to PECO by Seller. Title to AECs shall not transfer to PECO prior to Delivery by Seller. Any benefits derived from the AECs after Delivery to PECO shall inure solely to the benefit of PECO and not to Seller.

10.4 **Contract Amount Guarantee.** Seller shall transfer a total amount of AECs equal to the Contract Amount for each Contract Year. In the event that Seller fails to provide the AECs as provided under this Section, Seller shall pay PECO within forty-five (45) days of the end of the Contract Year an amount equal to the higher of the Contract Price or Alternative Compliance Payment ("AEC Payment") for each AEC which Seller fails to transfer to PECO for such Contract Year as liquidated damages. If the PaPUC subsequently determines that the Alternative Compliance Payment for the AEPS Reporting Year in which Seller failed to Deliver the Contract Amount is more than the amount Seller paid for each AEC not Delivered, Seller shall pay PECO the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. If Seller has paid PECO an amount in excess of the actual Alternative Compliance Payment for each AEC not Delivered, PECO shall pay Seller the difference between the amount Seller paid per AEC and the actual Alternative Compliance Payment. All such additional payments shall be paid by PECO or Seller, as applicable, within thirty (30) days of the PaPUC's determination of the applicable Alternative Compliance Payment for an AEPS Reporting Year.

10.5 **Non-Compliant AECs.** In the event that any AEC transferred to PECO is subsequently determined to be unable to be used by PECO for AEPS compliance due to Seller's failure to comply with any obligation under this Agreement, Seller shall transfer an equivalent

AEC to PECO. All AECs transferred to PECO under this Section shall be available for use by PECO for purposes of compliance under the Act as if the AEC had been created at the time the non-compliant AEC was created. Any additional costs or penalties incurred by PECO resulting from the transfer of non-compliant AECs by Seller shall be paid for by Seller.

10.6 **Financing.** PECO shall have no responsibility whatsoever for any financing or costs associated with Seller, including any expenditures necessary or desirable to deliver AECs to PECO under this Agreement.

ARTICLE 11
RESERVED

ARTICLE 12
SELLER OBLIGATIONS

12.1 **AEC Obligations.** During the Term, at its sole cost and expense, Seller represents, warrants and guarantees that:

12.1.1 Seller shall possess sole and exclusive title and legal rights to an AEC prior to the transfer of such AEC to PECO under this Agreement;

12.1.2 Seller shall transfer only valid AECs to PECO which have not been previously retired, claimed or used to satisfy any renewable energy requirements, obligations or voluntary undertaking by any entity in any jurisdiction; and

12.1.3 Seller shall comply with all Registry requirements that are necessary for Seller to perform its obligations under this Agreement.

12.2 **Insurance**.

12.2.1 Seller shall maintain at its sole expense, commencing with the Effective Date and continuing through the Term, insurance customarily maintained for aggregators of RECs, Seller shall provide certificates of insurance or other reasonable evidence of such insurance coverage acceptable to PECO upon request.

12.2.2 Failure to obtain and maintain the required insurance shall constitute a breach of the Agreement and Seller will be liable for any and all costs, liabilities, damages, and penalties (including attorneys' fees, court, and settlement expenses) resulting to PECO from such breach, unless a written waiver of the specific insurance requirement is provided to Seller by PECO.

12.2.3 Failure of Seller to provide insurance as herein required or failure of PECO to require evidence of insurance or to notify Seller of any breach by Seller of the requirements of this Article 5 shall not be deemed to be a waiver by PECO of any of the terms and conditions of this Agreement, nor shall they be deemed to be a waiver of the obligation of Seller to defend, indemnify, and hold harmless PECO as required herein. The obligation to procure and maintain any insurance required is a separate responsibility of Seller and independent of the duty to furnish a copy or certificate of such insurance policies.

12.2.4 Notwithstanding any provision of this Agreement, none of the requirements contained herein as to insurance coverage to be maintained by Seller are intended to and shall not in any manner limit, qualify, or quantify the liabilities and obligations assumed

by Seller under this Agreement, any other agreement with PECO or its Affiliates, or otherwise provided by law.

12.3 **Authorized Representatives**. As a means of securing effective cooperation and interchanges of information and of providing consultation on a prompt and orderly basis between the Parties in connection with various administrative, commercial and technical issues that may arise during the performance of this Agreement, each Party shall appoint an authorized representative (with respect to each Party, the "Authorized Representative") and may appoint an alternate (with respect to each Party, the "Alternate Representative") to act in its Authorized Representative's absence. The Authorized Representatives and Alternate Representatives shall be managers well experienced with regard to matters relating to the implementation of the Parties' rights and obligations under this Agreement with full authority to act for and on behalf of the Party appointing them. Upon execution of this Agreement, each Party will notify the other in writing of the name of its Authorized Representative and Alternate Representative so appointed and these appointments will remain in full force and effect until written notice of substitution is delivered by such Party to the other Party.

12.4 **Publicity**. No party shall issue any press release or make any public announcement relating to the subject matter of this Agreement without the prior written approval of the other party, which approval shall not be unreasonably withheld.

ARTICLE 13
CREDIT AND COLLATERAL REQUIREMENTS

13.1 **Credit Support.** Seller shall post security with PECO, at the commencement of the Contract Year, in an amount based on the number of months remaining in the Term, as determined from the table (Credit Support Requirement) in Exhibit 3.

13.2 **Grant of Security Interest**. To secure its obligations under this Agreement, Seller hereby grants to PECO a present and continuing security interest in, and lien on (and right of setoff against), and assignment of, all cash collateral and cash equivalent collateral and any and all proceeds resulting therefrom or the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of, PECO. Seller agrees to take such action as reasonably required to perfect in favor of PECO such security interest in, and lien on (and right of setoff against), such collateral and any and all proceeds resulting therefrom or from the liquidation thereof.

13.3 **Remedies**. Upon or any time after the occurrence of an Event of Default caused by Seller, PECO may do any one or more of the following: (i) exercise any of the rights and remedies of the Company with respect to all collateral, including any such rights and remedies under law then in effect; (ii) exercise its rights of setoff against any and all property of Seller in the possession of PECO, whether held in connection with this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs; (iii) draw on any outstanding Letter of Credit issued for PECO's benefit; and (iv) liquidate all collateral security held by or for the benefit of the PECO free from any claim or right of any nature whatsoever of the Seller, including any equity or right of purchase or redemption by the Seller. PECO shall

apply the proceeds of the collateral security realized upon the exercise of such rights or remedies to reduce Seller's obligation under this Agreement or any other agreement(s) between PECO and Seller for the provision of Energy or AECs (the Seller remaining liable for any amounts owing to the Company after such application), subject to PECO's obligation to return any surplus proceeds remaining after such obligations are satisfied in full.

13.4 **Security Instruments.** At Seller's choice, the following are deemed to be acceptable methods for posting security (each, a "Security Instrument"), if required:

13.4.1 Cash; or

13.4.2 An irrevocable transferable standby letter of credit (a "Letter of Credit") acceptable to the Company issued by a bank or other financial institution with a minimum "A" senior unsecured debt rating from S&P or Moody's (the "Issuer Minimum Requirements"). (A standard format for the Letter of Credit is provided in Exhibit 2.) In the event that senior unsecured debt ratings are unavailable from S&P, the corporate issuer rating, discounted one notch, will be used. In the event that senior unsecured debt ratings are unavailable from Moody's, the issuer rating will be used. The Company will only rely on senior unsecured debt ratings, or if unavailable, issuer or corporate issuer ratings. If the Seller does not have a senior unsecured debt rating and does not have an issuer or corporate issuer rating from a rating agency, it will be deemed by the Company not to be rated by that rating agency. The Letter of Credit shall state that it shall renew automatically for successive one-year or shorter periods unless the Company receives written notice from the issuing financial institution at least thirty (30) days prior to the expiration date stated in the Letter of Credit that the issuing financial institution elects not to extend the Letter of Credit. If the Company receives notice from the issuing financial institution that the Letter of Credit will not be extended, the Seller will be required to provide a substitute Letter of Credit from an alternative bank or financial institution satisfying the Issuer Minimum Requirements. The receipt of the substitute Letter of Credit must be effective on or before the expiration date of the expiring Letter of Credit and delivered to the Company at least fifteen (15) days before the expiration date of the original Letter of Credit. If the Seller fails to supply a substitute Letter of Credit as required herein, then the Company will have the right to draw on the expiring Letter of Credit and to hold the amount as collateral. If the credit rating of the issuer of a Letter of Credit falls below the Issuer Minimum Requirements, the Seller shall have two (2) Business Days (or such longer period as the Company in its sole discretion may permit in writing) following written notice by the Company to obtain a suitable Letter of Credit from another bank or other financial institution that meets the Issuer Minimum Requirements.

13.5 **Calling on Security.** The Company may call upon the Security Instrument posted by the Seller (i) if the Seller fails to pay amounts due to the Company pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy and AECs after written notice of default is provided to the Seller and any applicable cure period ends; and (ii) with respect to the Development Security, to satisfy PECO's rights to such portions of the Development Security specified in Section 6.1. The foregoing notwithstanding, the Security Instrument posted by the Seller shall become due automatically, and may be called

upon by the Company, without prior notice or right of cure in the case of any Event of Default involving the Seller arising under Section ~~16.1.1~~**9.1.1**.

13.6 **Interest on Cash Held by Company.** The Company will pay simple interest (not compounded) calculated at the lower of the Interest Rate or six (6) percent per annum on any Cash posted by the Seller as Performance Security and directly held by the Company pursuant to this Agreement.

ARTICLE 14
BILLING AND PAYMENT; RECORDS

14.1 **Invoices.** Beginning with the end of the first Semi-Annual period after the Effective Date, Seller shall send PECO a statement following the Delivery of AECs after each Semi-Annual period setting forth all amounts due either to the Seller or to PECO arising during the preceding Semi-Annual period. The statement shall include (i) after the commencement of the Term, the quantity of AECs that were Delivered by Seller to PECO during such Semi-Annual period and the total amount owed by PECO for those AECs at the Contract Price, (ii) any interest due to Seller as provided in Section 6.6, and (iii) any other amount due Seller or to PECO under this Agreement in respect of such Semi-Annual period (including the amount of any Replacement AEC Payment). Such statement shall be sent by Seller to PECO no later than fifteen (15) Business Days following the Delivery of AECs for which the statement is applicable.

14.2 **Payment**. Subject to all conditions and provisions of this Agreement (including Section ~~14.7~~**7.7**), no later than fifteen (15) Business Days after the date of a statement submitted by Seller, or if such day is not a Business Day, the immediately following Business Day, the Party owing the net amount shown to be due on such statement shall remit to the other Party, by wire transfer in accordance with Section ~~19.1~~**12.1**, the amount due pursuant to such statement.

14.3 **Interest.** Amounts not paid shall accrue interest from the due date to the date of payment at the Interest Rate.

14.4 **Taxes.** Seller shall be responsible for all existing and any new taxes, fees, levies, assessments, penalties, licenses, or charges imposed or levied by any federal, state or local governmental agency (collectively, "Taxes") on all AECs prior to and including the Delivery of AECs under this Agreement. PECO shall be responsible for all existing and any new Taxes imposed or levied by any federal, state or local governmental agency on AECs after transfer to PECO. If PECO is required to remit or pay Taxes that are Seller's responsibility under this Agreement, then Seller shall promptly reimburse PECO for such Taxes. If Seller is required to remit or pay Taxes that are PECO's responsibility under this Agreement, then PECO shall promptly reimburse Seller for such Taxes.

14.5 **Disputed Amounts.** If either Party, in good faith, disputes any amount due pursuant to a statement rendered hereunder, such Party shall notify the other Party of the specific basis for the dispute and shall pay that portion of the amount shown to be due on the statement that is undisputed, on or before the due date. If any amount disputed by such Party is determined to be due the other Party, whether by agreement of the Parties or through arbitration in accordance with Section ~~20.2~~**13.2**, the amount due shall be paid within five (5) Business Days of

such determination or resolution, along with interest accrued at the Interest Rate from the date due to the date paid. Notwithstanding the above, no dispute may be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such payment or statement within one year after the date of such statement or payment.

14.6 **Records.** Each Party shall keep and maintain all records as may be necessary or useful in performing or verifying any calculations made pursuant to this Agreement, or in verifying such Party's performance hereunder. All such records shall be retained by each Party for at least three (3) calendar years following the calendar year in which such records were created.

14.7 **Audit Rights**. Each Party, through its authorized representatives, shall have the right, at its sole expense and during normal business hours, to examine and copy the records of the other Party to the extent reasonably necessary to verify the accuracy of any statement, charge or computation made hereunder or to verify the other Party's performance of its obligations hereunder. If any statement is determined by the Parties or through arbitration to be inaccurate, a corrected statement shall be issued and any amount due thereunder will be promptly paid and shall bear interest calculated at the Interest Rate from the date of the overpayment or underpayment to the date of receipt of the reconciling payment. Notwithstanding the above, no adjustment shall be made with respect to any statement or payment hereunder unless a Party questions the accuracy of such statement or payment within one year after the date of such statement or payment.

ARTICLE 15
REPRESENTATIONS AND WARRANTIES

15.1 **Mutual Representations.** As a material inducement to execution of this Agreement, each Party hereby represents and warrants to the other Party that:

15.1.1 It is duly organized or formed, validly existing and in good standing under the laws of the jurisdiction of its organization or formation, and is qualified to conduct its business in all jurisdictions necessary to perform its obligations hereunder;

15.1.2 The execution, delivery and performance of this Agreement are within its powers, have been duly authorized by all necessary action and do not violate any of the terms or conditions in its governing documents, any agreement to which it is a party or by which it or any of its property is bound, or any Requirement of Law applicable to it;

15.1.3 Except as set forth in and as required by this Agreement, no consent, approval, order or authorization of, or registration, declaration or filing with, any Governmental Authority is required by such Party in connection with the execution, delivery or performance of this Agreement;

15.1.4 This Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms, subject to bankruptcy, insolvency, reorganization and other laws affecting creditors' rights generally, and with regard to equitable remedies, to the discretion of the court before which proceedings to obtain same may be pending;

15.1.5 No Event of Default has occurred and there are no bankruptcy, insolvency, reorganization, receivership or other arrangement proceedings pending or being contemplated by it, or to its knowledge threatened against it;

15.1.6 To such Party's knowledge, there are no actions, proceedings, judgments, rulings or orders, issued by or pending before any court or other governmental body, that would materially adversely affect its ability to perform its obligations under this Agreement;

15.1.7 It is, and will continue to be for the Term, a Forward Contract Merchant both generally and with respect to the AECs delivered and purchased under this Agreement.

15.2 **Forward Contract.** The Parties acknowledge that this Agreement is a Forward Contract and the Parties are Forward Contract Merchants, both generally and with respect to the deliveries of AECs pursuant to this Agreement, that each party is an "eligible contract participant" as set forth in the Commodities Exchange Act; and, accordingly, the Parties are entitled to the protections of the Safe Harbor Provisions of the Bankruptcy Code. The Parties therefore agree that this Agreement may be terminated and the remedies hereunder exercised by either Party in accordance with Article 2 and Article 9 hereof upon the commencement of a proceeding by the other Party under any chapter of the Bankruptcy Code, and that the automatic stay of Section 362(a) of the Bankruptcy Code shall not apply to such termination.

15.3 **No Representation or Warranty By PECO**. Any review by PECO of any information or material pertaining to the Seller is solely for PECO's information only. By conducting such review, PECO makes no representation or warranty as to the Seller. PECO does not endorse or in any way approve of any representation or warranty of Seller in any agreement or to any Person, and Seller shall not make any such representation that PECO has given any such approval.

ARTICLE 16
EVENTS OF DEFAULT AND REMEDIES

16.1 **Events of Default.** An "Event of Default" by a Party (the "Defaulting Party") shall mean:

16.1.1 With respect to Seller, unless otherwise excused or permitted under the terms of this Agreement, the following events, without notice or the opportunity to cure, if the Seller:

(a) fails to meet the ratings requirements or to comply with the collateral requirements set forth in Article 6 within the time frames set forth in this Agreement;

(b) (1) fails to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise) in respect of any indebtedness for borrowed money involving a principal sum in excess of $5,000,000 ("Material Debt") and such failure continues after the applicable grace or notice period, if any, specified in the relevant document on the date of such failure, or (2) fails to perform or observe any other condition or covenant, or any

other event shall occur or condition exist, under any agreement or instrument relating to any Material Debt, if, in any such event, the effect of such failure, event or condition is to cause, or permit the holder or holders thereof or beneficiary or beneficiaries thereof (or a trustee or agent on behalf of such holder or holders or beneficiary or beneficiaries) to cause (after the expiration of any applicable grace period or notice period, if any, specified in the relevant document on the date of such failure) such Material Debt to become due and payable or to be repurchased, defeased or redeemed prior to its expressed maturity;

(c) is dissolved (other than pursuant to a consolidation, amalgamation or merger);

(d) makes an assignment for the benefit of its creditors;

(e) has a secured party take possession of all or substantially all of its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all of its assets; or

(f) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger).

16.1.2 With respect to either Party, an Event of Default shall occur if such Party:

(a) is the subject of a voluntary bankruptcy, insolvency or similar proceeding;

(b) applies for, seeks consent to, or acquiesces in the appointment of a receiver, custodian, trustee, liquidator or similar official to manage all or a substantial portion of its assets;

(c) is the subject of an involuntary bankruptcy or similar proceeding, and fails to have such proceeding dismissed within 60 days; or

(d) commits an act or makes an omission that constitutes an "Event of Default" under any other agreement(s) between PECO and the Seller for the provision of Energy or AECs.

16.1.3 Unless otherwise excused or permitted under the terms of this Agreement, a Party's failure to make, when due, any payment required pursuant to this Agreement, shall constitute an Event of Default unless a Party shall have cured the same within three (3) Business Days after receipt of written notice of such payment failure from the other Party.

16.1.4 Unless otherwise excused or permitted under the terms of this Agreement, any of the following events shall constitute an Event of Default unless a Party shall have cured the same within thirty (30) days after receipt of written notice of the occurrence of such event from the other Party:

(a) Any representation, warranty or covenant made by such Party herein is proven to be false or misleading in any material respect at the time it was made;

(b) A Party transfers or assigns or otherwise conveys any of its rights or obligations under this Agreement to another entity without the other Party's prior written consent, to the extent such consent is required under this Agreement, or if at the time of such transfer, assignment or conveyance, the resulting, surviving or transferee entity fails to assume all the obligations of such Party under this Agreement by operation of law or pursuant to an agreement reasonably satisfactory to the other Party;

(c) A Party's unexcused failure to perform any other material covenant or obligation set forth in this Agreement that is not enumerated in this Section ~~16.1~~**9.1**; or

(d) with respect to Seller, Seller fails to have and maintain, during the Term, all federal, state and local Permits to permit its performance under this Agreement.

16.2 **Rights Upon Default.** Upon and during the continuation of an Event of Default, the Non-Defaulting Party shall be entitled to elect or pursue one or more of the following remedies:

16.2.1 terminate the Agreement by providing written notice to the Defaulting Party of an Early Termination, as provided in Section 2.2;

16.2.2 accelerate all amounts then owing by the Defaulting Party to the Non-Defaulting Party;

16.2.3 withhold any payments due to the Defaulting Party under this Agreement;

16.2.4 suspend its performance under this Agreement; and

16.2.5 pursue any other remedies available at law or in equity, except to the extent such remedies are expressly limited by this Agreement.

16.3 **Reliance on Netting.** The Parties are making credit, default, collateral and other decisions and changes based upon and in reliance on the effectiveness of the default, early termination, setoff and netting provisions of this Agreement. The Parties would not enter into this Agreement and would change their position with regard to netting except for their reliance on and with the understanding that these netting terms will be effective. Notwithstanding anything else in this Agreement or in any other agreement between the Parties to the contrary, if for any reason these terms or any right of offset or netting hereunder or under another agreement in favor of the Non-Defaulting Party against a bankrupt Defaulting Party is delayed from being exercised or is not enforceable in accordance with its terms because either Party asserts or is concerned that the Safe Harbor Provisions of the Bankruptcy Code do not apply to such rights of enforcement or for any other reason, the Non-Defaulting Party may (a) exercise its rights to

effect a setoff under Section 553 of the Bankruptcy Code or other applicable provisions, equity and law, and (b) withhold payments subject to a claim of offset under any obligations due the Defaulting Party in respect of any transactions or deliveries under this Agreement or any other agreement until such setoff rights are exercised and effected.

16.4 **Setoff of Payment Obligations of the Non-Defaulting Party.** Any payment obligations of the Non-Defaulting Party to the Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs shall be set off: (i) first, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured; (ii) second, to satisfy any payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs that are unsecured, but which are subject to a guaranty; and (iii) third, to satisfy any remaining payment obligations of the Defaulting Party to the Non-Defaulting Party pursuant to this Agreement or any other agreement(s) between the Company and the Seller for the provision of Energy or AECs. Any setoff shall not be subject to the automatic stay by virtue of Section 362(b)(6) of the Bankruptcy Code.

16.5 **Preservation of Rights of the Non-Defaulting Party.** The rights of the Non-Defaulting Party under this Agreement, including Sections ~~16.3~~**9.3** and ~~16.4~~**9.4** shall be supplemental to, and not in lieu of, any right of recoupment, lien, or set-off afforded by applicable Requirements of Law, and all such rights are expressly preserved for the benefit of the Non-Defaulting Party.

16.6 **Integrated Transaction.** To the extent that Section 365 of the Bankruptcy Code applies to this Agreement, the Parties agree that all transactions under this Agreement constitute one integrated transaction that can only be assumed or rejected in its entirety.

ARTICLE 17
ASSIGNMENT

17.1 **Assignment.** Neither Party shall assign this Agreement or any of its rights or obligations hereunder (including by lease, subcontract, or otherwise) without the prior written consent of the other Party. Notwithstanding the foregoing, either Party may, without the need for consent from the other Party, transfer or assign this Agreement to an Affiliate of such Party, providing that the assigning Party shall provide notice to the other Party and shall remain responsible for its obligations under the Agreement. In all such transfers and assignments, the succeeding Party must agree to comply with all the provisions, terms and conditions of this Agreement, including the credit and collateral security requirements set out in Article 6. Except as specifically provided in this Article 10, any assignment or transfer of this Agreement or any rights, duties or interests hereunder by any Party without the written consent of the other Party shall be void and of no force or effect.

ARTICLE 18
FORCE MAJEURE; INDEMNITY; LIMITATION OF LIABILITY

18.1 **Force Majeure.** If either Party is rendered unable by a Force Majeure event to carry out, in whole or in part, its obligations under this Agreement, then, during the pendency of such event of Force Majeure, but for no longer period, the obligations of the affected Party (other than the obligation to make payments hereunder when due) shall be suspended to the extent required. The affected Party shall (i) give the other Party written notice within 48 hours of the commencement of the Force Majeure event, with details to be supplied within three (3) Business Days after the commencement of the Force Majeure event further describing the particulars of the occurrence of the Force Majeure event, and (ii) take all reasonable steps to remedy the cause of the Force Majeure event with all reasonable dispatch. Whenever either Party is required to commence or complete any action within a specified period, such period shall be extended by an amount equal to the duration of any event of Force Majeure occurring or continuing during such period; provided, however, that in no event will any Force Majeure event extend this Agreement beyond its Term. A determination of force majeure by the PaPUC under the Act shall not constitute a determination of Force Majeure under this Agreement.

18.2 **Indemnification.**

18.2.1 Each Party shall indemnify, defend and hold harmless the other Party and its officers, directors, agents and employees (each an "Indemnified Party") from and against any and all claims, demands, actions, losses, liabilities, expenses (including reasonable legal fees and expenses), suits and proceedings of any nature whatsoever for personal injury, death or property damage to third parties (collectively "Liabilities") that arise out of or are in any manner connected with the performance of this Agreement.

18.2.2 Any fines, penalties or other costs incurred by a Party or its agents, employees or subcontractors for non-compliance by such Party, its agents, employees or subcontractors with any Requirement of Law will not be reimbursed by the other Party but will be the sole responsibility of such non-complying Party.

18.2.3 A Party seeking indemnification under this Section 11.2 shall give written notice to the indemnifying Party as soon as reasonably practicable after the Indemnified Party becomes aware of any fact, condition or event which may give rise to Liabilities for which indemnification may be sought under this Section 11.2.

18.3 **Limitations of Remedies, Liability and Damages.** The Parties agree that the remedies and measures of damages provided in this Agreement satisfy the essential purposes hereof. If no measure of damages or other remedy is expressly provided herein, the obligor's liability shall be limited to direct actual damages only, which direct actual damages shall be the sole and exclusive remedy and all other remedies or damages at law or in equity are waived. Unless otherwise provided herein, neither Party shall be liable for consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages, (other than consequential, incidental, punitive, exemplary or indirect damages, lost profits or other business interruption damages recovered by an unaffiliated third party against a Party subject to indemnification hereunder), whether such damages are allowed or provided by statute, in tort, under any indemnity provision or otherwise.

ARTICLE 19
NOTICES AND ADDRESS FOR PAYMENT

19.1 **Notices.**

19.1.1 Except as set forth in Section 12.1.2, all notices, requests, statements or payments, if by check, shall be made to the addresses set out below. Notices required to be in writing shall be delivered by letter, facsimile or other documentary form. Notice by facsimile or hand delivery shall be deemed to have been received by the close of the Business Day during which the notice is received or hand delivered. Notice by mail or overnight courier shall be deemed to have been received upon delivery as evidenced by the delivery receipt.

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

19.1.2 All notices, demands or requests regarding credit requirements and credit related security or deposit transfers shall be in writing and shall be personally delivered or sent by overnight express mail, courier service or facsimile transmission (with the original transmitted by any of the other aforementioned delivery methods) to the addresses specified below:

To PECO:

with a copy to: PECO Energy Acquisition
S18-2
2301 Market Street
Philadelphia, PA 19103
Attn: Director, PECO Energy Acquisition

to Seller:

19.1.3 All amounts due Seller under this Agreement that are paid by check must be sent via United States mail to the address specified below:

19.1.4 All amounts due PECO under this Agreement that are paid by check must be sent via United States mail to the address specified below:

19.1.5 A Party's address or addressee to which notices or invoices shall be sent may be changed from time to time by such Party by notice served as hereinabove provided.

19.2 **Notice After Close of Business.** Notice received after the close of the Business Day shall be deemed received on the next Business Day; provided, however, that notice by facsimile transmission shall be deemed to have been received by the recipient if the recipient confirms receipt telephonically or in writing.

ARTICLE 20
DISPUTE RESOLUTION

20.1 **Negotiations.** The Parties shall attempt in good faith to resolve all disputes arising out of or related to or in connection with this Agreement promptly by negotiation, as provided in this Section. Any Party may give the other Party written notice of any dispute not resolved in the normal course of business. Executives of both Parties at levels one level above the personnel who have previously been involved in the dispute shall meet at a mutually acceptable time and place within ten (10) Business Days after delivery of such notice, and thereafter as often as they reasonably deem necessary, to exchange relevant information and to attempt to resolve the dispute. If the matter has not been resolved within thirty (30) Business Days from the referral of the dispute to senior executives, or if no meeting of senior executives has taken place within fifteen (15) Business Days after such referral, either Party may initiate arbitration as provided in Section ~~20.2~~**13.2**. All negotiations pursuant to this clause are confidential, shall be considered to be in the nature of settlement discussions and shall be subject to Section ~~20.3~~**13.3**.

20.2 **Arbitration.**

20.2.1 If the negotiation process provided for in Section ~~20.1~~**13.1** has not resolved the dispute, the dispute shall be decided by binding arbitration at Philadelphia, Pennsylvania in accordance with the Commercial Arbitration Rules of the American Arbitration Association (except as expressly provided otherwise herein). The arbitration shall be governed by the United States Arbitration Act (9 U.S.C. § 1 et seq.), and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. This agreement to arbitrate and any other agreement or consent to arbitrate entered into in accordance herewith will be specifically enforceable under the prevailing arbitration law of any court having jurisdiction. Any arbitration may be consolidated with any other arbitration proceedings between the Parties commenced under this Section ~~20.2~~**13.2**. The award of the arbitrator shall be specifically enforceable in a court of competent jurisdiction.

20.2.2 Either Party may commence the arbitration by giving to the other Party written notice in sufficient detail of the existence and nature of any dispute proposed to be arbitrated. The demand must be made within a reasonable time after the dispute has arisen. In no event may the demand for arbitration be made if the institution of legal or equitable proceedings based on such dispute is barred by the applicable statute of limitations. The Parties shall attempt to agree on a person to serve as arbitrator with respect to the matter at issue. If the

Parties cannot agree on an arbitrator within ten (10) Business Days of such notice, each shall then appoint one individual to serve as an arbitrator within thirty (30) Business Days of such notice and the two (2) individuals thus appointed shall select a third arbitrator to serve as chairman of the panel of arbitrators. Such three (3) arbitrators shall determine all matters by majority vote; provided however, if the two (2) arbitrators appointed by the Parties are unable to agree upon the appointment of the third arbitrator within ten (10) Business Days after their appointment, both shall give written notice of such failure to agree to the Parties, and, if the Parties fail to agree upon the selection of such third arbitrator within five (5) Business Days of such notice, then either of the Parties upon written notice to the other may require such appointment from, and pursuant to the Commercial Arbitration Rules of the American Arbitration Association. Any arbitrator appointed shall be a present or former executive of an electric utility, or private power producer, or an attorney, in each case with substantial experience in electric power purchase agreements. Prior to appointment, each arbitrator shall agree to conduct such arbitration in accordance with the terms of this Agreement.

20.2.3 The Parties shall have sixty (60) calendar days after appointment of all arbitrators to perform discovery and present evidence and argument to the arbitrators. During that period, the arbitrators shall be available to receive and consider all such evidence as is relevant and, within reasonable limits due to the restricted time period, to hear as much argument as is feasible, giving a fair allocation of time to each Party to the arbitration. The arbitrators shall use all reasonable means to expedite discovery and to sanction noncompliance with reasonable discovery requests or any discovery order. The arbitrators shall not consider any evidence or argument not presented during such period and shall not extend such period except by the written consent of both parties. At the conclusion of such period, the arbitrators shall have forty-five (45) calendar days to reach a determination.

20.2.4 The arbitrators shall have the right only to interpret and apply the terms and conditions of this Agreement and to order any remedy allowed by this Agreement, and may not change any term or condition of this Agreement, deprive either Party of any right or remedy expressly provided hereunder, or provide any right or remedy that has been excluded hereunder.

20.2.5 The arbitrators shall give a written decision to the Parties stating their findings of fact, conclusions of law and order, and shall furnish to each Party a copy thereof signed by them within five (5) calendar days from the date of their determination. Each party shall pay the cost of the arbitrator or arbitrators, with respect to those issues as to which they do not prevail, as determined by the arbitrator or arbitrators.

20.3 **Settlement Discussions.** The Parties agree that no statements of position or offers of settlement made in the course of the dispute process described in Section ~~20.1~~**13.1** above will be offered into evidence for any purpose in any litigation or arbitration between the Parties, nor will any such statements or offers of settlement be used in any manner against either Party in any such litigation or arbitration. Further, no such statements or offers of settlement shall constitute an admission or waiver of rights by either Party in connection with any such litigation or arbitration. At the request of either Party, any such statements and offers of settlement, and all copies thereof, shall be promptly returned to the Party providing the same.

20.4 **Preliminary Injunctive Relief.** Nothing in this Article 13 shall preclude, or be construed to preclude, the resort by either party to a court of competent jurisdiction solely for the purposes of securing a temporary or preliminary injunction to preserve the status quo or avoid irreparable harm pending arbitration pursuant to this Article 13.

ARTICLE 21
MISCELLANEOUS

21.1 **Entire Agreement**. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof, and it supersedes all prior oral or written agreements, commitments, negotiations or understandings with respect to the matters provided for herein.

21.2 **Schedules and Exhibits.** The Schedules and the Exhibits attached hereto are hereby incorporated into this Agreement and are hereby made a part hereof as if set out in full herein.

21.3 **Amendment.** Unless expressly provided otherwise in another provision of this Agreement, this Agreement shall not be amended, altered or modified except by an instrument in writing duly executed by both Parties. It is agreed that no use of trade or other regular practice or method of dealing between the Parties hereto shall be used to modify, interpret, supplement, or alter in any manner the terms of this Agreement.

21.4 **Waiver.** Any agreement on the part of a Party to any extension or waiver of any provision hereof shall be valid only if set forth in an instrument in writing signed on behalf of such Party. A waiver by a Party of the performance of any covenant, agreement, obligation, condition, representation or warranty shall not be construed as a waiver of any other covenant, agreement, obligation, condition, representation or warranty. A waiver by a Party of the performance of any act shall not constitute a waiver of the performance of any other act or an identical act required to be performed at a later time.

21.5 **Remedies Cumulative.** No right or remedy herein conferred upon or reserved to either Party is intended to be exclusive of any other right or remedy, and each and every right and remedy shall be cumulative and in addition to any other right or remedy under this Agreement, or under applicable law, whether now or hereafter existing.

21.6 **Binding Effect; Limitation of Benefits**. This Agreement shall be binding upon and shall insure to the benefit of the Parties hereto and, subject to the provisions of Article 10 hereof, their successors and permitted assigns. Nothing in this Agreement is intended to confer benefits, rights or remedies unto any Person other than the Parties and their permitted successors and assigns, and no third party shall have the right to enforce the provisions of this Agreement.

21.7 **Compliance with Laws**. Except as otherwise provided in this Agreement, each Party to this Agreement shall comply, at its own expense, with all applicable laws, statutes, regulations, rules, ordinances, orders, injunctions, writs, decrees or awards of any government or political subdivision thereof, or any agency, authority, bureau, commission, department or instrumentality thereof, or any court, tribunal, or arbitrator, in all applicable, material respects in connection with all activities and all performance under or in connection with this Agreement.

21.8 **Governing Law**. The validity, interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the Commonwealth of Pennsylvania,

without giving effect to any choice of conflict of law provision or rule (whether of the Commonwealth of Pennsylvania or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the Commonwealth of Pennsylvania.

21.9 **No Partnership or Joint Venture**. This Agreement is not intended to create nor shall it be construed to create any partnership or joint venture relationship between PECO and Seller, and neither Party hereto shall have the power to bind or obligate the other Party. Neither Party hereto shall be liable for the payment or performance of any debts, obligations, or liabilities of the other Party, unless expressly assumed in writing herein or otherwise. Each Party retains full control over the employment, direction, compensation and discharge of its employees, and will be solely responsible for all compensation of such employees, including social security, withholding and worker's compensation responsibilities.

21.10 **Headings.** The titles, headings and table of contents contained in this Agreement are inserted for convenience of reference only, shall not be deemed to be a part of this Agreement for any purpose, and shall not in any way define or affect the meaning, construction or scope of any of the provisions hereof.

21.11 **Number of Days**. In computing the number of days for purposes of this Agreement, all days shall be counted, including Saturdays, Sundays, and holidays; provided, however, that if the final day of any time period falls on a Saturday, Sunday, or holiday, then the final day shall be deemed to be the next day which is not a Saturday, Sunday, or holiday.

21.12 **E-mail in Place of Writing**. Where the parties agree, any written notification required by this Agreement may be transmitted via e-mail.

21.13 **Severability**. Whenever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the domestic laws of the Commonwealth of Pennsylvania as provided herein, but if any provision of this Agreement is held to be illegal, invalid or unenforceable under present or future Laws effective during the term hereof, then (a) in lieu of such illegal, invalid or unenforceable provision, the Parties shall promptly endeavor, in good faith negotiations, to agree on a provision as may be possible and be legal, valid and enforceable, provided that no Party shall be required to agree to any provision that would materially alter any of its rights or obligations under this Agreement, and (b) the legality, validity and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby. To the extent permitted by law, each Party hereby waives any Requirement of Law that renders any such provision prohibited or unenforceable in any respect.

21.14 **Counterparts**. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which taken together shall constitute one single agreement between the Parties.

SAMPLE LETTER OF CREDIT

[On Issuing Bank's Letterhead]
IRREVOCABLE TRANSFERABLE STANDBY LETTER OF CREDIT

_____ (Date)

Letter of Credit No. _____

To: PECO Energy Company
[address]
Attention:_____

We hereby establish this Irrevocable Transferable Standby Letter of Credit (this "Letter of Credit") in your favor in the amount of USD $_____, effective immediately and available to you at sight upon demand at our counters at _____[designate Issuing Bank's location for presentments] and expiring at 5:00 PM [New York, NY time[1]] on _____, 20__, [one year after date of issuance] (the "Initial Expiration Date"), unless terminated earlier in accordance with the provisions of Paragraph 11 hereof or extended one or more times in accordance with the provisions of Paragraph 10 hereof (the "Extended Expiration Date"; the latest of the Initial Expiration Date and any Extended Expiration Date being referred to herein as the "Expiration Date").

3. This Letter of Credit is issued at the request and for the account of _____ _____ _____ (including its successors and assigns, the "Applicant"), to secure its obligations under one or more Alternative Energy Purchase and Sale Agreements between you and the Applicant or its affiliates.

3. We hereby irrevocably authorize you to draw on us, in accordance with the terms and conditions hereof, up to the amount available under this Letter of Credit from time to time, subject to reduction as provided in Paragraph 8. A partial or full drawing hereunder may be presented by you on any Business Day on or prior to the Expiration Date by delivering or transmitting to _____ (identify Issuing Bank), _____ (U.S. address), (a) a notice executed by you substantially in the form of Annex 1 hereto, appropriately completed and duly signed by your Authorized Officer and (b) your draft substantially in the form of Annex 2 hereto, appropriately completed and duly signed by your Authorized Officer.

[1] If the issuer of the Letter of Credit is located in an area that is not in the Eastern time zone, this time and all other times in this Letter of Credit, and the definition of a Business Day should be adjusted accordingly

5. Drafts, document(s) and other communications hereunder may be presented or delivered to us by facsimile transmission. Presentation of documents to effect a draw by facsimile must be made to the following facsimile number: _____, and confirmed by telephone to us at the following number: _____. In the event of a presentation via facsimile transmission, no mail confirmation is necessary and the facsimile transmission will constitute the operative drawing documents.

6. We will honor a drawing hereunder made in compliance with the terms and provisions of this Letter of Credit by transferring in immediately available funds the amount specified in your draft (or so much thereof as is available hereunder) delivered or transmitted to us in connection with such drawing to the account designated as provided below, by 3:00 PM [New York, NY time] on the date of such drawing, if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made prior to 11:00 AM [New York, NY time] on a Business Day, but at the opening of business on the first Business Day next succeeding the date of such drawing if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made on or after 11:00 AM [New York, NY time] on any Business Day.

8. If a demand for payment made by you hereunder does not, in any instance, conform to the terms and conditions of this Letter of Credit, we shall give you notice not later than the time provided in Paragraph 5 above for honor of a drawing presented to us, that the demand for payment was not effected in accordance with the terms and conditions of this Letter of Credit, stating the reasons therefor and that we will upon your instructions hold any documents at your disposal or return the same to you. Upon being notified that the demand for payment was not effected in conformity with this Letter of Credit, you may attempt to correct any such non-conforming demand for payment to the extent that you are entitled to do so, provided, however, in such event a conforming demand for payment must be timely made in accordance with the terms of this Letter of Credit.

9. Unless otherwise hereafter designated in writing to us by your Authorized Officer, all payments made by us under this Letter of Credit shall be transmitted by wire transfer to you pursuant to the following instructions:

   PECO Energy Company
   Account No.: _____
   Bank: _____
   Bank's Address: _____
   _____
   ABA Routing No.: _____
   Contact: _____
   Telephone No.: _____

8. Partial drawings are permitted hereunder and multiple drawings are permitted hereunder. The amount available for drawing by you under this Letter of Credit shall be automatically reduced to the extent of the amount of any drawings referencing this Letter of Credit paid by us. Presentation of demands for drawings in amounts that exceed the amount available to be

drawn hereunder shall not be deemed a failure to comply with the requirements of Paragraph 3 hereof, provided that the amounts payable on any such demand shall not exceed the amount then available to be drawn under this Letter of Credit.

9. We may, but shall not be obligated to, accept any request by you to amend this Letter of Credit to increase or decrease the amount available hereunder. Such request may be made pursuant to a "New Availability Request" in the form of Annex 3 hereto appropriately completed and executed by your Authorized Officer delivered to us requesting us to amend this Letter of Credit to change the amount available hereunder to the amount set forth in such New Availability Request. Upon acceptance by us of your New Availability Request to change the amount of this Letter of Credit, we will issue to you an amendment of this Letter of Credit in the amount set forth in the New Availability Request. The amount available under this Letter of Credit from the date of such amendment shall be the full amount stated therein regardless of our honor and payment of draws under this Letter of Credit prior to such amendment. If we fail to issue an amendment complying with your New Availability Request within two (2) Business Days after we receive it, any such amendment issued thereafter decreasing the amount of this Letter of Credit, even if in accordance with your New Availability Request, shall require your express acceptance before it is effective.

10. It is a condition of this Letter of Credit that its Expiration Date shall be automatically extended from its Initial Expiration Date, or any Extended Expiration Date, for successive one year periods unless you receive written notice from us at least thirty (30) days prior to the then current Expiration Date, sent by Federal Express or other nationally recognized next business day courier or delivery service to you at your address stated above (or such other address an Authorized Officer of your notifies us of in writing) that we elect not to extend this Letter of Credit for such additional one year period.

11. This Letter of Credit shall terminate on the earliest of the date (a) you have made drawings which exhaust the amounts available to be drawn under this Letter of Credit, (b) we receive from you a Certificate of Cancellation in the form of Annex 4 hereto together with the original of this Letter of Credit returned for cancellation, or (c) unless extended, 5:00 PM [New York, NY time] on the Expiration Date.

12. Rule 3.14(a) of the ISP as it applies to this Letter of Credit is hereby modified to provide as follows:

    If on the last Business Day for presentation the place for presentation stated in this Letter of Credit is for any reason closed, then the last day for presentation is automatically extended to the day occurring thirty calendar days after the place for presentation re-opens for business.

    Rule 3.14(b) of the ISP is hereby modified by providing that any alternate place for presentation we may designate pursuant to this rule must be in the United States.

13. As used herein:

"Authorized Officer" shall mean President, Treasurer, any Vice President or any Assistant Treasurer.

"Business Day" shall mean any day on which commercial banks are not authorized or required to close in [New York, New York] and any day on which payments can be effected on the Fedwire system.

"New Availability Request" shall mean a request form substantially in the form of Annex 3 hereto, appropriately completed and duly signed by your Authorized Officer.

14. This Letter of Credit is transferable pursuant to a notice of transfer in the form of Annex 5 hereto, to an entity you identify to us in such instrument as your transferee, and we hereby consent to such transfer. Any and all transfer fees, expenses and costs shall be borne by the Applicant. Any payments made under this Letter of Credit after its transfer shall be made to the account of the transferee as designated to you by an Authorized Officer of the transferee.

15. This Letter of Credit is subject to and shall be governed by the International Standby Practices 1998 (International Chamber of Commerce Publication No. 590), or any successor publication thereto (the "ISP"), except to the extent that the terms hereof are inconsistent with the provisions of the ISP, in which case the terms of this Letter of Credit shall govern. This Letter of Credit shall, as to matters not governed by the ISP or matters inconsistent with the ISP, be governed and construed in accordance with the laws of the State of [New York], without regard to principles of conflicts of law.

16. This Letter of Credit sets forth in full our undertaking, and such undertaking shall not in any way be modified, amended, changed, amplified or limited by reference to any document, instrument or agreement referred to herein, except for Annexes 1 through 5 hereto and the notices referred to herein; and any such reference shall not be deemed to incorporate herein by reference any document, instrument or agreement except as set forth above. Except as otherwise expressly stated herein, this Letter of Credit may not be amended or modified by us without the consent of an Authorized Officer of the beneficiary.

17. We certify that as of the date of issuance of this Letter of Credit our senior unsecured debt is rated "A" or better by Standard & Poor's Rating Service.

18. This original Letter of Credit has been delivered to you as beneficiary in accordance with the Applicant's instructions. Any demands or communications in the form of the attached Annexes or other communications directed to us under this Letter of Credit must be signed by your Authorized Officer.

Very truly yours,
(Issuing Bank)

Attention: Standby Letter of Credit Unit

Ladies and Gentlemen:

The undersigned is making a drawing under Your Letter of Credit No. _____ (the Letter of Credit) in the amount specified below and hereby certifies to you as follows:

1. Capitalized terms used herein that are not defined herein shall have the meanings ascribed thereto in the Letter of Credit.

2. The undersigned is making a drawing under the Letter of Credit in the amount of USD $_____ (the "Draw Amount").

3. [Check applicable drawing condition]:

☐ An Event of Default has occurred under an Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

☐ The Letter of Credit is scheduled to expire within the next thirty (30) days and the Applicant has failed to deliver a replacement letter of credit as required by the terms of the Alternative Energy Credits Purchase and Sale Agreement between the Applicant and the undersigned, which entitles the undersigned to draw on the Letter of Credit for the Draw Amount.

4. The undersigned acknowledges that, upon your honoring the drawing herein requested, the amount of the Letter of Credit available for drawing shall be automatically decreased by the amount of this drawing honored by you.

Very truly yours,

NOTICE OF TRANSFER

_____, 20__
To: _____[Issuing Bank]
_____[Address]

To Whom It May Concern:
Re: Your Letter of Credit No. _____

For value received, the undersigned beneficiary hereby irrevocably transfers to:

_____
(Name of Transferee)

_____
(Address)

all rights of the undersigned beneficiary to draw and receive payments under the above-referenced Letter of Credit in its entirety.

By this transfer, all rights of the undersigned beneficiary in such Letter of Credit are transferred to the transferee, and the transferee shall have the sole rights as beneficiary thereof, including sole rights relating to any amendments, whether increases or extensions or other amendments and whether now existing or hereafter made. All amendments are to be advised directly to the transferee without necessity of any consent of or notice to the undersigned beneficiary.

The original Letter of Credit is returned herewith, and we ask you to endorse the transfer thereon and forward it directly to the transferee at the address indicated above with your customary notice of transfer or issue a new Letter of Credit in the form of the Letter of Credit naming the transferee as the beneficiary thereof.

From and after the transfer of the Letter of Credit, payments under the Letter of Credit shall be made to an account of the transferee in accordance with written instructions you receive from an authorized officer of the transferee.

Pursuant to the Letter of Credit and your agreement with the Applicant, your transfer commission and any other expenses that may be incurred by you in conjunction with this transfer are payable by the Applicant.

INSTRUCTIONS

A signed original of this checklist must be attached to the Bidder's original Application, with a copy attached to each of the three required additional Application copies.

- ☐ RFP Bidder Application Checklist (this document)
- ☐ Bidder Application
- ☐ Executed Confidentiality Agreement
- ☐ Bid Deposit (certified check or wire payment only)

Contract Amount (Solar AECs)	Bid Deposit:
☐ ~~200~~**50** to 1,000	$~~10,000~~**2,500**
☐ 1,001 to 2,000	$20,000
☐ 2,001 to 3,000	$30,000
☐ 3,001 to 4,000	$40,000

SIGNATURE OF AUTHORIZED REPRESENTATIVE

I am an officer or other authorized representative of the Bidder and certify that all of the information, statements, data and representations in the attached Application are true to the best of my knowledge and belief. I hereby submit this Application on behalf of the Bidder and acknowledge that this submission constitutes acceptance and agreement to all terms of PECO's Solar Alternative Energy Credits Requests for Proposal (issued [date]).

FORM OF BIDDER APPLICATION

FORM OF BIDDER APPLICATION

All Bidder Applications shall be in PDF electronic format with Bidder information organized in sections in the following order. All capitalized terms shall have the meaning set forth in the form Alternative Energy Credit and Purchase Agreement. Aggregator Bidders should not complete Sections 1 through 7. Bidders who are not aggregating AECs should not complete Section 8.

Section 1. Facility Information.

Bidder shall provide a written description of the Facility of no more than 20 pages, which details the following:

- Address of the Facility and legal description of the Facility site
- Basis for certification of Facility as an Alternative Energy System, including description of the electric generation process at the Facility
- Nameplate capacity and anticipated annual energy output of the Facility
- Major equipment, with specifications
- Impact Assessment studies (e.g., environmental reports)
- Interconnection Status
- Plans for use or sale of generation from the Facility
- Anticipated useful life of the Facility

Bidder shall also include a site layout plan and one-line diagrams showing electric generation and any collection and delivery to a Host or, if applicable, delivery point for PJM (or delivery into another delivery point in Pennsylvania if not in PJM).

Section 2. Project Schedule.

For a Facility in development, Bidder shall provide a project milestone schedule. The schedule should include milestone dates for site control, facility construction, equipment supply and delivery, permitting, interconnection, financing, commissioning, and commercial operation.

Section 3. Property Rights.

Bidder shall describe bidder's level of Site Control (including easements and rights-of-way) and provide documentation of Bidder's rights to the property on which the Facility is (or will be) located, including and conditions or limitations upon use affecting those rights, including any rights necessary to interconnect with the Grid.

Section 4. Permits and Government Approvals.

Bidder shall list all federal, state and local permits or approvals required for the Facility, including (i) permit or approval status; (ii) date of issue or expected date of issue; and (iii) expected expiration date. Bidder shall provide copies of all permits and approvals, applications, and relevant associated correspondence.

Section 5. Contracts.

Bidder shall describe all contracts or agreements necessary for development and commercial operation of the Facility and the status of such contracts or agreements, including:

- Contracts for sale of generation or AECs from the Facility.
- Equipment supply agreements
- Equipment warranty agreements
- Any EPC Agreement
- Any Operations and Maintenance Agreements
- Any agreement with a Host

Section 6. Interconnection.

Bidder shall describe in detail the status of any connection of the Facility to its Host or to PJM, including: (i) any interconnection point; (ii) the status of any interconnection agreement or request for interconnection agreement and anticipated date for execution; (iii) the status of any interconnection studies (e.g., Feasibility, System Impact), or (iv) the satisfaction (or anticipated satisfaction) of applicable net metering requirements. Bidder shall attach correspondence documenting any interconnection status of the Facility and the method by which electricity from the Facility will be measured for purposes of PJM GATS.

Section 7. Facility Financing.

For new projects, Bidder shall describe, in detail, the financing structure for the Facility and attach any necessary documentation, including a letter(s) from the institution(s) that will finance the project. A separate letter should be provided for each entity providing financing except in the case in which there is a lead financier authorized to act on behalf of other interests. The letter should include the following:

- The name of the financial institution.
- The contact information for the person preparing the letter.
- The structure of any proposed financing (confidential information such as proposed financing costs need not be disclosed).
- A statement to the effect that the financier(s) have reviewed project pro forma statements.
- A statement to the effect that the financier(s) have reviewed the form Alternative Energy Credit Purchase and Sale Agreement.
- A statement to the effect that the financier(s) have reviewed the bidder's offer to the Company, including pricing terms.
- A statement to the effect that the financier(s) has a strong interest in financing the project.
- A statement confirming that financing will be finalized within sixty (60) days of executing the AEC Purchase and Sale Agreement.

The letter(s) shall not be interpreted to constitute an irrevocable commitment to finance, unless otherwise stated in the letter(s). Rather, the letter (s) will be used by PECO to assess the likelihood that the project can be completed on the schedule and as the price proposed by the bidder. PECO may, at its discretion, contact the person and institution listed in the letter to verify the information presented. By submitting a bid, bidder acknowledges PECO's right to contact the listed institution and person. PECO reserves the right to reject any bid for which it is unable to confirm information presented in the letter(s).

Section 8. Aggregator Bidder Business Plan

Bidder shall provide the following information:

- Provide Business Plan for how Bidder intends to acquire and deliver the maximum Contract Amount bid and to be delivered over the ten year term.

- Documentation of sufficient management and other personnel experienced in the business if aggregating AECs for resale, including the purchase and sale of at least 700 Tier 1 solar AECs in Pennsylvania in the calendar year preceding PECO's RFP.

- Documentation of sufficient financing for aggregation and provision of the Contract Amount of AECs.

Section 9. Bidder Information.

Bidder shall provide the following information:

- Bidder organizational structure (Corporation, LLC, Partnership) and description of principle business (All bidders)
- Description of all ownership interests holding more than 5% of equity in the Facility (including partners, joint venturers), including ultimate corporate parent of each interest (Project bidders)
- Description of Bidder management, consultants, and advisors, and their experience in developing, financing, owning and/or operating generating facilities (Project bidders)
- Description of Bidder's operational plans and maintenance capabilities (Project bidders)
- Description of Bidder's long-term plans for the Facility (Project bidders)
- Documentation of Bidder's ability to satisfy AEC Purchase and Sale Agreement terms, including Development and Performance Security requirements (All bidders)
- For public companies with an ownership interest in the Facility, copies of the most recent 10-K and 10-Q for each company (Project bidders)
- For non-public companies, copies of the most recent audited financial statements and unaudited financial statements (income and balance sheet) for the most recent quarter (Project bidders)

Section 9. Other Bidder Information.

Bidder shall address each of the following specific questions and provide detail with any affirmative answer:

- Has Bidder ever defaulted on a contract?
- Has Bidder ever not met a contractual delivery date?
- Has Bidder ever requested to renegotiate contract pricing in an executed agreement?
- Is there any pending litigation relating to Bidder or the Facility?
- As Bidder or any Affiliate of Bidder ever filed for bankruptcy?

Bidder shall set forth any additional information Bidder believes should be considered by PECO in evaluating its Application.

BID PROPOSAL FORM

BID PROPOSAL

(not to be submitted with Bidder Application)

Facility (n/a for Aggregators):

Legal Name of Bidder:

Contract Amount of Solar Alternative Energy Credits (AECs) to be delivered annually to PECO for each AEPS reporting period during the Term:

_____ AECs

Amount of Solar Alternative Energy Credits (AECs) to be delivered to PECO during the first AEPS reporting period if such period is less than twelve months in length (not to exceed the product of the Contract Amount and the ratio of the length of the first delivery period to twelve months, adjusted for peak season production):

_____ AECs

Price per Solar AEC (in whole dollars/cents) delivered annually to PECO during the Term:

$ _____ / AEC

☐ Multiple bids have been submitted for this Facility (Check box if applicable; multiple bids may not exceed 100% of Facility production capability).

I hereby certify that I am an officer or other authorized representative of the Bidder named above and submit this Bid Proposal on behalf of the Bidder. By submitting this Bid Proposal, Bidder acknowledges and accepts all terms of PECO's Request for Proposal dated _____ and offers to enter into a Solar Alternative Energy Credit Purchase and Sale Agreement for the Contract Amount of solar AECs at the price specified above.

CONFIDENTIALITY AGREEMENT

CONFIDENTIALITY AGREEMENT

This Confidentiality Agreement ("Agreement") is made on _____, 202[__] by and between PECO Energy Company, a Pennsylvania company ("PECO"), and [Bidder], a _____ company ("Bidder"), each a "Party" and collectively the "Parties."

Background

A. Bidder has determined to submit an application (the "Application") in response to PECO's Request for Proposals ("RFP") for Solar Alternative Energy Credits ("AECs"), as defined by the Alternative Energy Portfolio Standards Act, 73 P.S. § 1648.1 *et seq*.; and provide certain non-public, confidential information to PECO as part of its Application;

B. If Bidder is selected as a successful bidder and Bidder enters into a Solar Alternative Energy Credit and Purchase Agreement (the "AECPA") with PECO, the Parties anticipate the exchange of additional non-public, confidential information with respect to the AECPA;

C. The Parties desire to formally set forth their understanding and agreement with respect to the treatment to be accorded to the non-public, confidential information and have done so in the provisions of this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound hereby, agree as follows:

1. For purposes of this Agreement, the term "Confidential Information" is defined to mean any knowledge, data, business plans, records, operational methods, policies and/or other information disclosed by or on behalf of a Party (the "Disclosing Party"), its officers, employees, contractors, agents, consultants, or representatives (including, without limitation, financial advisors, attorneys and accountants) or those of its affiliates (collectively, the "Representatives" of a Party) to the other Party (the "Receiving Party") or its Representatives, which is not otherwise available to the public or to the Disclosing Party's competitors. Prior to disclosure, the Disclosing Party or its Representatives shall mark or otherwise identify all Confidential Information as "Confidential" or "Proprietary" or with terms or markings of similar import.

2. The term "Confidential Information" does not include information which (i) is or becomes generally available to the public other than as a result of disclosure by a Receiving Party, (ii) was within a Receiving Party's possession prior to being furnished to the Receiving Party on a non-confidential basis, (iii) becomes available to a Receiving Party on a non-confidential basis from a source other than the other Disclosing Party, or (iv) is developed by or for the Receiving Party independently of Confidential Information.

3. The Parties acknowledge that Confidential Information is proprietary to, and a valuable asset of, the Disclosing Party and that any disclosure or unauthorized use thereof in violation of this Agreement may cause irreparable harm and loss to the Disclosing Party.

4. The Receiving Party and its Representatives shall retain the Disclosing Party's Confidential Information in confidence and shall not use, disclose or permit the use or disclosure of the Disclosing Party's Confidential Information, except to persons directly involved in the

Application evaluation process or in the execution and implementation of the AECPA, and then only to the extent necessary in connection with the RFP or AECPA (as applicable), or as otherwise required by law.

5. Each Receiving Party covenants and agrees that it shall not, either directly or indirectly, publish or disclose any of the Disclosing Party's Confidential Information subject to this Agreement or use such Confidential Information for the benefit of itself, another party or any third parties without the prior written consent of the Disclosing Party, except as expressly permitted by this Agreement.

6. The Receiving Party shall continue to treat the Disclosing Party's Confidential Information as confidential in accordance with the terms of this Agreement until three (3) years after the last of (i) the termination of this Agreement, (ii) the completion of the RFP process, (iii) the termination of the AECPA, and (iv) the last disclosure of Confidential Information received by a Receiving Party (the "Confidentiality Period"). After the conclusion of such Confidentiality Period, the Receiving Party shall be under no further duty to treat or protect the Disclosing Party's Confidential Information as confidential under this Agreement.

7. The Parties acknowledge that breach of the terms, covenants or conditions contained in this Agreement by either of them may cause irreparable damage to the other for which a remedy at law would not be adequate. In the event of such breach or threatened breach, the non-breaching Party shall be entitled to seek appropriate injunctive relief in any court of competent jurisdiction, restraining the breaching Party from any such threatened or actual violation of the provision of this Agreement. This provision does not limit a non-breaching Party's right to seek monetary damages in addition to the injunctive relief mentioned above. EXCEPT IN CASES OF GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, NEITHER PARTY SHALL BE LIABLE TO THE OTHER PARTY FOR ANY SPECIAL, EXEMPLARY, PUNITIVE, INCIDENTAL, CONSEQUENTIAL OR INDIRECT DAMAGES, INCLUDING, WITHOUT LIMITATION, ANY LOST REVENUE OR LOST PROFITS, IN CONNECTION WITH THIS CONFIDENTIALITY AGREEMENT.

8. In the event that a Receiving Party is required to disclose any of a Disclosing Party's Confidential Information by court order or regulation, the Receiving Party shall provide the Disclosing Party with prompt written notice of any such requirement (unless forbidden to do so by court order or regulation) in order to provide the Disclosing Party with an opportunity to seek a protective order or other appropriate remedy. The Parties agree to cooperate with each other in any Party's efforts to prevent disclosure of its Confidential Information. Notwithstanding any provision of this Agreement, PECO shall be free to provide any information received from Bidder to the Pennsylvania Public Utility Commission (the "Commission") or its representatives and to any third party monitor participating in the RFP.

9. Nothing in this Agreement shall authorize or empower the Receiving Party to assume or create any obligation or responsibility whatsoever, expressed or implied, on behalf of or in the name of the Disclosing Party, or to bind the Disclosing Party in any manner, or to make any representation, warranty or commitment on behalf of the Disclosing Party.

10. This Agreement shall terminate without further action by either Party (i) in the event that Bidder is not selected as a successful bidder in the RFP, or (ii) Bidder is disqualified by PECO as provided in the RFP, or (iii) Bidder withdraws its Application, or (iv) if Bidder is selected as a successful bidder, upon Bidder's failure to execute the AECPA after written request by PECO or upon termination of the AECPA. Notwithstanding any such termination, all rights and

obligations hereunder shall survive with respect to Confidential Information disclosed prior to such termination.

11. The laws, but not the rules relating to the choice of law, of the Commonwealth of Pennsylvania, shall govern this Agreement. Any action or dispute may only be brought in the Court of Common Pleas in Philadelphia, Pennsylvania, or in the United States District Court for the Eastern District of Pennsylvania.

12. This Agreement and all of its terms and provisions shall be binding upon and shall inure to the benefit of the Parties and their respective successors and assigns as may be permitted by law.

13. The invalidity or non-enforceability of any term or provision contained in this Agreement shall not void or impair the Agreement's remaining provisions, which shall remain in full force and effect as if no such invalid or unenforceable provision existed.

14. Confidential Information is provided on an "As-Is" basis, with no warranty of any nature whether oral or written, statutory, express or implied.

15. Nothing contained in this Agreement shall be construed as granting or conferring any rights by license or otherwise in any Confidential Information disclosed to the Receiving Party or in any intellectual property rights related thereto. Except as provided in the RFP and AECPA, this Agreement is the complete and exclusive agreement regarding the Parties' disclosures of information.

16. This Agreement may be executed in counterparts, each of which shall be deemed an original.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed on the date first written above.

VII. CONCLUSION 29

REBUTTAL TESTIMONY
OF
SULMA DALESSIO

I. INTRODUCTION AND PURPOSE

1. Q. Please state your full name and business address.

A. My name is Sulma Dalessio and I am employed by PECO Energy Company ("PECO" or the "Company") as Director of Energy Acquisition. My business address is PECO Energy Company, 2301 Market Street, Philadelphia, PA, 19103.

2. Q. Have you previously submitted testimony in this proceeding?

A. Yes. I submitted direct testimony that is marked as PECO Statement No. 1. My background and qualifications are set forth in that statement.

3. Q. What is the purpose of your rebuttal testimony?

A. The purpose of my rebuttal testimony is to respond to various issues regarding PECO's sixth default service program ("DSP VI") raised by witnesses for the Office of Consumer Advocate ("OCA"), the Energy Justice Advocates ("EJA"),[1] the Retail Energy Supply Association ("RESA"), and the Tenant Union Representative Network and Coalition for Affordable Utility Service and Energy Efficiency in Pennsylvania ("TURN/CAUSE-PA"). My testimony is divided into several parts.

First, I respond to the direct testimony of several parties regarding the procurement design of PECO's proposed default service supply plan and

[1] The Energy Justice Advocates consist of POWER, Vote Solar, Clean Air Council, Sierra Club, Physicians for Social Responsibility Pennsylvania, and PennEnvironment.

portfolio of supply products. Specifically, I address the direct testimony of EJA witnesses Karl Rábago and Ben Kujala proposing that PECO develop a "Renewable Energy Procurement Process" or "RESP" during the first year of DSP VI aimed at securing 7% of residential default service load from zero-emission renewable energy resources under long-term contracts. As part of this discussion, I address testimony of RESA witness Frank Caliva III opposing PECO's proposal to double its solicitation of long-term contracts for solar alternative energy credits ("AECs") to meet a portion of PECO's requirements under Pennsylvania's Alternative Energy Portfolio Standards Act ("AEPS" or the "AEPS Act") as the default service provider. I also respond to concerns regarding PECO's reserve price proposal expressed by Dr. Serhan Ogur on behalf of the OCA.

Second, I address OCA witness Ogur's recommended changes to PECO's proposed contingency plans in the event that the Company does not obtain sufficient supply through its competitive procurements or a winning supplier subsequently defaults on its contractual obligations to provide default service supply.

Third, I respond to RESA's arguments against PECO's proposed change to its Supplier Master Agreement ("SMA") Transaction Confirmation that would allow the Company to use a Capacity Proxy Price ("CPP") for those portions of fixed-price full requirements ("FPFR") products that would extend into an unpriced capacity period.

Fourth, I address issues relating to PECO's proposed continuation of its standard offer customer referral program ("Standard Offer Program" or "SOP").

Finally, I will address the following competitive retail market topics: (1) RESA witness Caliva's recommendation that the Pennsylvania Public Utility Commission (the "Commission") initiate a generic, statewide proceeding to re-examine messaging of default service as the "Price-to-Compare" ("PTC"); (2) PECO's proposed residential bill format changes; (3) new rules proposed by TURN/CAUSE-PA witness Elizabeth Marx that she believes are necessary to remove barriers to enrollment in PECO's Customer Assistance Program ("CAP") for customers with pre-existing electric generation supplier ("EGS") contracts; and (4) supplier issues related to PECO customer information system ("CIS") upgrade.

II. PROCUREMENT PROCESS AND PORTFOLIO OF SUPPLY PRODUCTS

4. Q. Please summarize Mr. Rábago's testimony in support of his proposal that PECO develop a RESP process and procure 7% of residential default service load from renewable energy resources through 10-year contracts.

A. Before addressing Mr. Rábago's alternative portfolio for residential default service customers, I believe it is important to understand what PECO currently procures from alternative energy resources and exactly what Mr. Rábago is – and is not – proposing to change.

As I explained in my Direct Testimony, the AEPS Act requires PECO and other default service providers to obtain specified percentages of

electricity sold to retail customers from alternative energy sources, as measured by AECs and defined by the AEPS Act. An AEC is equivalent to one megawatt-hour of electricity from an eligible alternative energy resource. PECO's current AEPS requirement from "Tier I" resources – such as wind and solar energy systems – is 8%. Of this 8%, 0.5% must come from solar energy resources. PECO is also required to procure an additional 10% from "Tier II" resources, which include hydropower and hydro-pumped storage.

The majority of AECs that PECO obtains to meet its AEPS obligations as a default service provider are provided by wholesale full requirements suppliers who have competitively bid to provide electricity corresponding to approximately 99% of PECO's residential default service load (which varies from moment to moment as customers use electricity). Specifically, under the SMA, wholesale suppliers must deliver AECs to PECO from Tier I alternative energy resources equal to 8% of the load each supplier serves, as well as another 10% from Tier II resources. The Tier I AECs that PECO receives are generated from a variety of resources, including wind, solar energy, and low-impact hydropower. In addition, PECO procures approximately 22% of its solar AEPS requirement directly through long-term 10-year contracts, which PECO has proposed to increase to 44% in this proceeding. The solar AECs that PECO procures are also used to meet AEPS requirements associated with a small amount (approximately 1%) of residential default service load served directly by PECO using energy purchased in the spot market operated by PJM Interconnection, L.L.C. ("PJM") and approximately 5 MW of hydropower

capacity provided by the New York Power Authority ("NYPA"). The remainder of PECO's AECs from its separate procurements are distributed to PECO's wholesale suppliers to meet the AEPS requirement for the load they serve.

In 2023, PECO met its 8% Tier I AEPS requirement with AECs from wholesale suppliers procured from wind projects (36%), solar energy systems (31%), cellulosic biomass (10%), low-impact hydropower (9%), and a mix of other resources comprising the remaining 14% (including biologically derived landfill gas).

In his testimony, Mr. Rábago proposes that the Commission require PECO to develop and conduct a new renewable energy procurement process (the RESP) over several years, with a goal of reducing the percentage of residential default service load supplied by wholesale suppliers by 7% (i.e., from approximately 99% to 92%). Instead of receiving 7% percent of residential default service energy and AECs from wholesale suppliers under full requirements contracts, PECO would be required to enter into long-term, 10-year contracts directly with renewable energy projects, with either PECO or full requirements suppliers serving all of the default service customer load that is not supplied through the proposed 10-year renewable generation contracts (or the NYPA allocation). While the renewable energy projects would be required to deliver their energy to PJM wholesale energy markets for delivery to PECO's zone, the number of AECs procured by PECO would not increase. Under Mr. Rábago's proposal, the AECs from the renewable

energy contracts would replace the AECs that PECO now receives from wholesale suppliers, with the estimated "avoided cost" of those AECs used to lower the projected cost of the long-term renewable energy contracts Mr. Rábago would require PECO to procure.

In order to justify his proposal, Mr. Rábago makes a variety of allegations and arguments that I would group as follows: (i) procurement of energy and AECs from renewable energy resources by PECO under long-term, 10-year contracts would have been less expensive than PECO's current Commission-approved default service program ("DSP V") portfolio and will better meet statutory requirements than PECO's proposed DSP VI procurement plan, including the "least cost over time" requirement; (ii) consideration of various federal and state policy initiatives and Pennsylvania's Environmental Rights Amendment (the "ERA") in the context of climate change mandates an alternative portfolio as outlined by Mr. Rábago; and (iii) PECO has not properly considered the needs or views of its customers in continuing to propose a default service supply mix consistent with the default service programs previously approved by the Commission.

5. Q. Do you agree with Mr. Rábago's alternative procurement plan and his allegations and arguments?

A. No, I do not. Much of Mr. Rábago's contentions regarding the purported "least cost" of his alternative portfolio relies upon the energy procurement modeling of Mr. Kujala of Dunsky Energy and Climate Advisors. In his rebuttal testimony, Mr. Fisher details the flaws in Mr. Kujala's modeling and explains why PECO's proposed DSP VI portfolio is better designed to ensure adequate and reliable service for residential default service customers at least cost over time. In particular, Mr. Fisher describes the significant conceptual and technical flaws in Mr. Kujala's analysis as well as the new costs and risks to customers that EJA's long-term contract proposal would introduce. As Mr. Fisher testifies in detail:

- If Mr. Kujala had used the latest (and therefore the most relevant) long-term contract price of $75.14 per megawatt-hour that he obtained to project the cost of the EJA portfolio – instead of assuming that the contract price would not be any higher than an average of the $75.14 price and a lower historic price no longer available in the market– he would have found that his model actually indicates that the EJA portfolio would have ***higher costs*** for default service customers.

- Mr. Kujala's projection of past savings for default service customers under DSP V if EJA's long-term renewable contracts had been used is based on a period in which energy prices were generally rising. While it is always possible to design a default service portfolio that would have performed better with hindsight, new long-term contracts could be more costly than future generation supply (including from renewable resources), thus locking in default service costs that would be higher for customers for an extended period compared to PECO's proposed DSP VI portfolio.

- Mr. Rábago's contention that PECO's use of long-term contracts for renewable resources would result in a more adequate and reliable source of power for PECO customers is simply wrong. All of PECO's retail customer load will continue to be served by PJM, which has numerous mechanisms in place to ensure that electricity is delivered to

meet customer needs. Notably, the same article Mr. Rábago cites to support his claims regarding Winter Storm Ida and renewable resources explained that solar generation was not much of a factor since the energy shortfall happened overnight.

6. Q. In his testimony, Mr. Rábago suggests PECO is not properly considering evolving climate change-related policies and evolving market developments in designing DSP VI. Do you agree?

A. No, I do not. As an initial matter, Mr. Rábago correctly notes that PECO agrees with the scientific consensus on climate change. In its latest sustainability report, Exelon Corporation ("Exelon"), PECO's parent company, describes its perspective on the challenges of climate change:

> [Greenhouse gas ("GHG")] emissions drive climate change and must be dramatically and expeditiously reduced to move the U.S. economy toward net-zero.[2]
>
> Through Exelon's Path to Clean goal, our utilities are collectively acting to reduce operations-driven emissions 50 percent from a 2015 baseline by 2030 and focused on achieving net-zero operations by 2050.[3]
>
> While we are focused on actions that Exelon can take and how we can enable customers and communities, the broader backdrop is that all sectors of the economy and all nations must work to transform their energy use toward carbon neutrality to reduce the impacts of climate change for future generations. The physical changes to the climate and environment occurring because of past greenhouse gas (GHG) emissions will continue for decades to come due to the long life of GHG emissions in the atmosphere.
>
> Therefore, we are focusing on both eliminating future GHG emissions (transition planning) and preparing for the unavoidable physical impacts of climate change already occurring (adaptation planning).

[2] Exelon Sustainability Report 2022, available at https://www.exeloncorp.com/sustainability/interactive-csr/Documents/2022/csr-year-2022-pdf.pdf, p. 14.

[3] *Id.*

> We also recognize that, since climate change will have a disproportionate impact on under-resourced communities, solutions for adapting to physical climate change impacts and transitioning the country's energy systems to support a net-zero economy must address and overcome equity barriers. Economy-wide transition will require unprecedented levels of action by all stakeholders, from suppliers to customers who ultimately decide what products and services they will buy. It will also require timely and effective policy measures to ensure that GHG emissions goals can be achieved equitably and as quickly as possible. While this is a daunting challenge, it is also a tremendous opportunity.[4]

As detailed in the report, PECO has undertaken a variety of initiatives to support a clean energy policy transformation in Pennsylvania, including supporting transportation electrification and expanded interconnection of solar energy.[5] Locally, our solar energy interconnection process is managed by PECO's Green Power Connect team, which is staffed by 14 employees dedicated to streamlining the interconnection process and assisting customers seeking to install solar energy systems and interconnect to the grid. We also established a solar collaborative in 2016, the first of its kind in the region, to discuss how to best advance solar options for PECO customers. The stakeholders included in this collaborative include solar developers, environmental groups, public officials, utilities, and competitive electric suppliers. To further facilitate solar applications and solar interconnections, PECO created a Digital Solar Toolkit with an interactive viability map. With this toolkit, customers can see if their home or area can support solar or other

[4] *Id.*, p. 42.

[5] *Id.*, p. 39.

distributed generation resources or if any system upgrades would be necessary.

As I explained in my direct testimony, in designing DSP VI, we are required to comply with the requirements of the Public Utility Code, which mandates that PECO's default service procurements be comprised of a competitively-procured "prudent mix" of spot market purchases, short-term contracts and long-term contracts designed to ensure adequate and reliable service at least cost to customers over time. With respect to alternative energy, the DSP VI plan must be designed to meet the requirements of the AEPS Act.

While the policies and plans Mr. Rábago cites demonstrate an increasing awareness of the challenges of climate change and include specific directions and guidance for government entities such as Commonwealth and city agencies, as well as recommendations to the General Assembly, those policies and plans do not change the statutory requirements of the Public Utility Code or permit PECO to create a default service portfolio that increases costs or risks for default service customers, as the proposed EJA portfolio does. Mr. Rábago's reference to the recent proposal by Governor Shapiro to create a 35% clean energy standard in Pennsylvania based on AEPS is a case in point. When that proposal was introduced, PECO made the following public comment:

> PECO commends Governor Shapiro on putting forward these ambitious proposals to support the development of new clean energy resources, create jobs, and to ensure reliable and resilient electricity supply to meet the state's growing energy demands while addressing

> the issue of climate change. We look forward to reviewing the full proposal. At PECO, we continue to be supportive of driving the transition to cleaner and greener energy for our customers and communities in a way that continues to keep affordability and reliability front and center. Supporting our customers with the transition to cleaner energy solutions is an important part of our Path to Clean commitment.

At this time, however, this policy proposal is not yet law and has not even been introduced in legislative form. Nevertheless, PECO's DSP VI is designed to ensure that changes in law that occur during DSP VI that increase AEPS requirements can be implemented without further Commission action, and wholesale suppliers are able to procure all types of energy supplies – including supply from renewable energy facilities that may be decreasing in cost – to enable them to make competitive offers in PECO's default service supply procurements.

7. Q. Mr. Rábago also contends that approval of PECO's proposed DSP VI would be inconsistent with the ERA. How do you respond?

A. I am advised by counsel that this issue will be addressed in PECO's briefs given its legal nature, but I understand that the ERA does not expand the powers of the Commission to address climate change to the extent Mr. Rábago appears to believe. The General Assembly enacted specific provisions in the AEPS Act that establish a level of alternative energy that PECO must procure, and the Public Utility Code precludes the Commission from requiring PECO to procure power from any particular fuel type. As such, I am advised by counsel that the Commission's approval of DSP VI – consistent with past approvals of PECO's default service programs – would not conflict with the ERA.

8. Q. In criticizing PECO's increasing procurement of solar AECs under long-term contracts, Mr. Rábago asserts that solar AECs "are a good thing," but they are not "generation supply." Do you agree?

A. As with the ERA, I am advised by counsel that the extent to which long-term contracts for AECs meet Public Utility Code requirements is a legal issue that will be addressed in briefing in this proceeding. However, I am aware that in voting to approve PECO's DSP V, the former chair of the Commission, Gladys Brown Dutreille, stated:

> I would like to take this opportunity to commend PECO for its inclusion of long-term contracts within its proposed default service portfolio. Anyone who has followed my votes on default service proceedings will know that the inclusion of long-term contracts, or the substantiation of omitting long-term contracts, has been a key factor in my review in these proceedings. Here PECO proposes four separate procurements of unbundled solar alternative energy credits in the amount of 4,000 per year over 10 years. Further, the Company's plan includes one-year fixed price, two-year fixed price, hourly-priced, and spot-priced energy products. Taken together, I believe this portfolio meets the requirements under 2807(e) of the Public Utility Code.[6]

In addition, I note that Mr. Rábago references PPL Electric Utilities Corporation's ("PPL's") recent default service filing as support for the use of long-term contracts. However, as clearly set forth in that filing, PPL is not proposing to procure renewable energy under long-term contracts. Instead, consistent with PECO's plan, PPL is proposing to rely upon full requirements

[6] *See* Statement Of Chairman Gladys Brown Dutrieuille, *PECO Energy Company- Electric Petition for Approval of its Default Service Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019290 (December 3, 2020).

suppliers to provide AECs and plans to enter into a long-term contract for solar AECs without purchasing the energy associated with those AECs.[7]

9. Q. In his testimony, Mr. Rábago argues that long-term contracts with renewable energy facilities are a "good way" to procure AECs, and presumably preferable to PECO's method of procuring AECs for compliance with AEPS. Do you believe that he is correct?

A. I do not believe his method would result in a procurement plan for AEPS requirements that would be preferable to PECO's proposed DSP VI. Mr. Rábago's method necessarily involves a substantially larger number of long-term contractual obligations with renewable energy projects, with the additional costs and risks discussed by Mr. Fisher. Although Mr. Rábago asserts that long-term contracts for AECs reduces "PECO's exposure to AEC price arbitrage," he does not provide any supporting evidence that PECO is paying a higher price for AECs as a result of any such arbitrage, or even that any such arbitrage is occurring.

10. Q. Mr. Rábago also argues that the design of PECO's DSP VI plan necessitates the procurement of more fossil-based energy, and that PECO's claim that its procurement plan results in least cost supply under long-term contracts is "duplicitous at best." How do you respond?

A. PECO is not claiming that the one and two-year contracts executed with full requirements suppliers are long-term contracts. As Mr. Fisher explains,

[7] *See generally Petition of PPL Elect. Utils. Corp. for Approval of a Default Serv. Program and Procurement Plan for the Period June 1, 2025 through May 31,* 2029, Docket No. P-2024-3047290 (filed Mar. 12, 2024).

PECO's reliance on full requirements contracts – approved by the Commission since PECO's first default service program – permits suppliers to determine the best procurement strategy to deliver a competitive price. If long-term contracts for renewable energy are indeed the least cost source of supply, then suppliers are incentivized to select those sources. If a supplier does not supply PECO with energy directly from an alternative energy facility, the supplier is nevertheless obligated to procure AECs necessary to meet the 8% Tier I and 10% Tier II AEPS requirements associated with the default service load that the supplier serves. As Mr. Fisher's analysis of EJA's proposal shows, simply swapping out 7% of PECO's full requirements contracts for long-term contracts with renewable energy projects does not result in a lower cost portfolio in light of both the projected costs under EJA's own analysis and the additional risks to customers.

11. Q. Mr. Rábago contends that the Commission should also direct PECO to enforce its SMA provision related to reporting generation sources instead of allowing default service suppliers to use the PJM system mix as a proxy for their generation sources. Do you agree?

A. No. Appendix H to the SMA requires suppliers to report on the percentage of supply served by fuel and renewable technology. PECO's suppliers include not only generation owners, but also energy traders, energy marketers, and financial players. Each supplier assembles its own portfolio of products, including market trades, to meet its supply obligations under the SMA. For suppliers that do not own or contract with specific forms of generation and

therefore are unable to identify their specific sources of supply, the PJM mix is a reasonable proxy for their generation source mix.

12. Q. Mr. Rábago asserts that PECO's DSP VI procurement plan fails to consider customer preferences or the challenges faced by PECO's low-income customers. Is he correct?

A. PECO has more than 1.7 million electric customers, and Mr. Rábago's apparent assumption that his views reflect the views of all of PECO's residential customers is not supported. I note that Dr. Ogur, testifying on behalf of the OCA – the entity charged with representing the interests of residential customers before the Commission – views the composition of PECO's proposed residential default supply mix favorably and does not propose any change in PECO's procurement plan. In reaching his opinion, Dr. Ogur noted the stability of PECO's DSP V portfolio in comparison to other Pennsylvania electric distribution companies ("EDCs"), with PECO having the lowest volatility over the past four years. Furthermore, as reflected in a recent press release by the Commission, PECO's PTC – achieved under PECO's current DSP V plan – has delivered one of the lowest rates for electric generation supply in the Commonwealth for PECO's default service customers, including low-income customers.[8]

While Mr. Rábago emphasizes the testimony of several PECO customers at two public input hearings held in these proceedings (which I

[8] *See PUC Reminds Consumers of December 1 Energy Price Changes*, available at https://www.puc.pa.gov/press-release/2023/puc-reminds-consumers-of-december-1-energy-price-changes.

attended), he fails to note that many of the individuals testifying were also associated with one or another of the parties comprising EJA. Several individuals were employed by EJA organizations or identified themselves as members or otherwise affiliated with those organizations.[9] The testimony of individuals employed by or affiliated with parties to this proceeding at a public input hearing should not be given undue weight by the Commission.

13. Q. Is default service the only option for PECO residential customers?

A. No. All of our customers – except for those customers participating in our CAP, who receive credits to assist with energy costs paid for by other residential customers – are able to shop for electric generation with electric generation suppliers ("EGSs"). In fact, as of today's date, there are many EGSs offering a variety of renewable energy options on www.papowerswitch.com, the official electric shopping website operated by the Commission. Customers who wish to use more renewable energy remain entirely free to choose an EGS that incorporates more renewable energy in its portfolio, and CAP customers who wish to do so are free to leave the CAP and contract with an EGS in the same manner.

[9] *See Petition of PECO Energy Co. for Approval of Its Default Serv. Program for the Period from June 1, 2025 through May 31, 2029*, Docket No. P-2024-3046008, Public Input Hearing Tr., pp. 83 (participating on behalf of POWER), 97 (member of Sierra Club), 112 (employee of PennEnvironment), 207 (board member of Physicians for Social Responsibility Pennsylvania), 253-257 (member of POWER), 302 (member of POWER), 304 (member of POWER), 321 (member of POWER), 330-333 (participating on behalf of POWER), 339-343 (member of an EJA group), 363-366 (employee of Clean Air Council), 380-381 (member of POWER).

14. Q. Do you believe that PECO needs to survey its default service customers to determine whether its default service program is adequate and prudent, as Mr. Rábago suggests?

A. No. PECO's default service procurements clearly continue to meet the needs of a large number of customers who do have choice in generation supply. There is no need for PECO to undertake an extensive survey of what default service customers want given the long-standing retail energy choice market in Pennsylvania, as well as the ability of a variety of organizations – including the OCA and organizations constituting EJA – to participate in default service proceedings before the Commission. Furthermore, I disagree with Mr. Rábago's belief that PECO should survey its customers to foster development of the competitive market, as many EGSs marketing their products are clearly working to ascertain (and meet) evolving customer preferences for new types of generation supply and alternative pricing options.

15. Q. Ms. Dalessio, does PECO have any changes to the manner in which it is administering the electricity received from NYPA?

A. Yes. As discussed in my direct testimony, PECO receives a small amount of energy from NYPA. In preparing responses to interrogatories in this proceeding, we learned that the PJM subaccount in which this energy is delivered and then used to serve residential customers had not been configured correctly to include a capacity obligation. PECO is correcting this configuration issue, and the capacity obligation will apply for DSP VI.

16. Q. Mr. Caliva, on behalf of RESA, opposes PECO's proposal to double its procurement 10-year solar AEC contracts during DSP VI because PECO would allocate the delivered solar AECs to default service suppliers but not EGSs. Is it appropriate for PECO to procure solar AECs for competitive retail suppliers?

A. No. The AEPS Act requires all load serving entities, like PECO and EGSs, to obtain specific percentages of electricity sold to retail customers from alternative energy sources. RESA has not provided any evidence or even alleged that the Company's long-term solar AEC procurement will lead to an inadequate supply of solar AECs generated in the Commonwealth. In fact, solar AECs are readily available from the over 600 MW of installed solar electric capacity in Pennsylvania as of the end of 2022.[10] EGSs have the ability to hedge their position. Therefore, it is reasonable for EGSs to procure their own solar AECs.

17. Q. Do any parties oppose PECO's proposal to include a reserve price for each residential FPFR product in the post-solicitation report provided to the Commission by the Independent Evaluator?

A. Yes. OCA witness Ogur outlines potential benefits and drawbacks of a reserve price and concludes that it would be "risky" to approve such an element in PECO's competitive bid process without additional information on how the reserve price would be determined. PECO's reserve price proposal is

[10] *See* 2022 Annual AEPS Report, (Mar. 2023), p. 35, available at https://www.puc.pa.gov/media/2332/aeps-2022-report-final-032223-_dm.pdf.

intended to serve as an additional protection to help mitigate the risk of residential customers paying rates that are out of line with then-current market conditions. In her rebuttal testimony (PECO Statement No. 4-R), Company witness Katie Orlandi of NERA Economic Consulting ("NERA") provides further details on how the reserve price would operate and the potential benefits of PECO's proposal to residential default service customers.

III. CONTINGENCY PLANS

18. Q. Ms. Dalessio, in your direct testimony, you explained that PECO proposes to use the same contingency plans approved by the Commission for DSP V. Can you please describe and respond to changes to those contingency plans proposed by the OCA?

A. Certainly. OCA witness Ogur believes that any contingency plan should minimize residential customers' exposure to spot market purchases and recommends an addition to PECO's existing contingency plans to require PECO to solicit and acquire energy blocks within days of a procurement shortfall or supplier default. In her rebuttal testimony (PECO Statement No. 4-R), Ms. Orlandi explains why modifications to PECO's long-standing contingency plans are unnecessary. She also explains why Dr. Ogur's proposal to add block energy purchases could adversely impact the competitiveness of the Company's residential procurements and would exert upward pressure on residential rates compared to PECO's long-standing contingency plans.

IV. SUPPLIER MASTER AGREEMENT

19. Q. In his direct testimony, RESA witness Caliva argues that PECO's CPP proposal is anticompetitive because delays in PJM's Base Residual Auction ("BRA") affect both EGSs and wholesale suppliers, and other options exist for default suppliers to manage the risk of an unknown capacity price. Do you agree?

A. No. As I explained in my direct testimony, the CPP is a reasonable mechanism to address potential delays in PJM BRAs during the DSP VI term that eliminates the need for bidders to add risk premiums if a portion of a FPFR product would extend into an unpriced capacity period. PECO procures its FPFR default supply in two solicitations each year, and the delivery periods under the SMA are for 12-month or 24-month supply terms. In contrast, EGSs are free to offer products, including contract term lengths and pricing, that align with their costs and profit expectations. For example, EGSs may make offers with 6- or 12- month contract terms that cover delivery periods with completed PJM BRA auctions. Ms. Orlandi addresses this point, along with Mr. Caliva's arguments regarding alternative options being available to default suppliers to address unknown capacity prices. Ms. Orlandi also further describes the benefits of reducing capacity uncertainty in PECO's default solicitations.

V. STANDARD OFFER PROGRAM

20. Q. Ms. Dalessio, do any parties oppose continuing PECO's existing SOP as previously approved by the Commission?

A. Yes. OCA witness Barbara R. Alexander recommends termination of the SOP on May 31, 2025 because, in her view, the program has accomplished its "purpose of exposing customers to the retail generation market" and PECO should no longer operate as the "marketing and enrollment arm" of EGSs that have a long history of charging residential shopping customers more than the PTC. If the SOP continues during DSP VI, Ms. Alexander recommends that PECO return SOP customers to default service if they do not make an affirmative decision to either stay with their SOP supplier or elect a new EGS at the end of the 12-month contract.

21. Q. Do you agree that the SOP should terminate at the end of DSP V?

A. No. The SOP was first established in PECO's second default service proceeding, consistent with the Commission's guidelines in its Retail Markets Investigation.[11] The Company's current SOP has evolved over the course of a decade in four default service proceedings and is consistent with the parameters approved by the Commission.

In addition, in 2019, the Commission concluded that continuation of FirstEnergy Pennsylvania Electric Company's ("FE-PA's") customer referral

[11] *See Investigation of Pennsylvania's Retail Elec. Mkt.: Intermediate Work Plan*, Docket No. I-2011-2237952 (Final Order entered Mar. 2, 2012) ("Intermediate Work Plan Order"), p. 31 ("The Standard Offer Customer Referral Program should be voluntary for customers, i.e., 'opt-in,' as well as for participating EGSs."); *Petition of PECO Energy Co. for Approval of its Default Serv. Program II*, Docket No. P-2012-2283641 (Opinion and Order entered Oct. 12, 2012) ("DSP II Order"), pp. 108-109.

program ("CRP") was in the public interest, notwithstanding the OCA's testimony that some FE-PA customers paid prices above the PTC during and after the CRP.[12] In the FE-PA Order (p. 39), the Commission found that OCA's concern regarding an alleged lack of customers savings was unwarranted and reasoned:

> In response to OCA's concerns with the savings or lack of customer savings, we have always acknowledged that a customer's savings or lack of savings can change with the quarterly changes of the default PTC. This is one of the reasons why we structured the program to include no early termination fees. And with 3-business day accelerated switching (and the customer right to contact the EDC directly to return to default service that we instituted in 2014) a change can take place within days. We also point out that any analysis of savings is heavily dependent upon the time-period examined, how long the customer remained in the program, and which EDCs are examined.
>
> **
>
> We also note that CRP enrollees, like all shoppers, receive a written disclosure explaining the terms and conditions that includes a 3-business day rescission period and a contract summary that highlights the key information such as the price. Statewide, nearly a million consumers have enrolled in Standard Offer Programs like CRP, with few informal or formal complaints. We maintain that the CRP is the easiest and safest way for a consumer to shop, especially for those consumers who, for whatever reason, do not want the bother of comparison-shopping but would still like to try a competitive offer.

[12] *See Joint Petition of Metro. Edison Co., Pennsylvania Elec. Co. , Pennsylvania Power Co., and West Penn Power Co. for Approval of their Default Serv. Programs for the Period Beginning June 1, 2019 through May 31, 2023,* Docket Nos. P-2017-2637855 et al. (Opinion and Order entered Feb. 19, 2019)

In short, the Commission has approved continuation of the SOP on several prior occasions regardless of whether SOP customers pay a price for competitive generation supply above or below the PTC.

22. Q. Does PECO object to the OCA's recommendation that participating customers who do not make an affirmative election at the end of the SOP contract term should revert back to default service?

A. Yes. Ms. Alexander's proposal deviates from the Commission's current guidance about customer options upon expiration of the SOP contract. Consistent with the Intermediate Work Plan Order (p. 21) and DSP II Order (pp. 114-116), PECO's SOP provides the same options at the end of the contract term to SOP customers as to other shopping customers.

Notably, the Commission rejected a proposal to modify the SOP of PPL so that customers would automatically return to default service at the end of the initial 12-month term instead of rolling onto a month-to-month contract with their SOP supplier with no cancellation fees, despite evidence in that case that more than 90% of PPL's customers who remained with their SOP supplier after the conclusion of the initial contract paid prices above the PTC.[13] The Commission found that those statistics did not demonstrate harm to SOP customers from the existing SOP design necessary to implement the new program rule proposed by PPL.

[13] *Petition of PPL Elec. Utils. Corp. for Approval of Its Default Serv. Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019356 (Dec. 17, 2020), pp. 92-98.

VI. COMPETITIVE MARKET ISSUES

23. Q. RESA witness Caliva requests that the Commission initiate a statewide investigation to revisit messaging of default service as the PTC as a "first step" to address "structural barriers" that he largely blames on the presence of an EDC default service provider. Do you agree with that recommendation?

A. No. As Mr. Caliva acknowledges, in its Final Order on the "end state" of default service, the Commission considered whether PECO and other EDCs should remain in the default service provider role, and the Commission determined that it would be prudent to retain EDCs in this role.[14]

In PECO Statement No. 3, Mr. Fisher addresses Mr. Caliva's arguments that the retail market has "stagnated" in light of the declining percentage of customers served by EGSs, which he attributes to the presence of an EDC default service provider and years of consumer education to compare competitive offers relative to the PTC. Mr. Caliva also presents no evidence to support his claim that changing the messaging of the default service product would allow EGSs to "develop more innovation and a greater variety of competitive products." PECO has served as the default service provider in its service area and customers have been making shopping decisions based on the PTC since the beginning of electric restructuring,

[14] *Investigation of Pennsylvania's Retail Elec. Mkt.: End State of Default Serv.*, Docket No. I-2011-2237952 (Final Order entered Feb. 15, 2013), p. 20.

without any Commission finding that such framework sends a message to customers that default service is somehow "superior" to competitive offerings.

24. Q. Have you the reviewed the positions of witnesses for the OCA, TURN/CAUSE-PA, and RESA regarding PECO's revisions to its residential bill format for DSP VI?

A. Yes. OCA witness Alexander and TURN/CAUSE-PA witness Marx both support adding a graphic to the first page of the residential customer bill that compares the customer's total supplier charges for the billing period and what the dollar amount of the charges would be under PECO's applicable PTC based on the customer's usage during the billing period. However, Ms. Alexander recommends removing the third column of the proposed chart shown in PECO Exhibit SD-6 presenting the variance between the two dollar amount figures. She contends that PECO should implement the modified disclosure as soon as possible via a "temporary methodology," such as an email to shopping customers.

On the other hand, RESA witness Caliva opposes PECO's proposed bill design changes, asserting that the new price comparison is misleading because it does not reflect the nature of the EGS product (e.g., flat rates, time-varying rates, green power, etc.), the length of the EGS contract, and other reasons supplier charges could be higher than the PTC for reasons unrelated to generation service. Alternatively, Mr. Caliva recommends development of disclosures through a collaborative process regarding PECO's lack of knowledge of the characteristics of the EGS price and the nature of PECO's

default service rate. In conjunction with that recommendation, Mr. Caliva argues that PECO should consider adding more space on the utility consolidated bill to accommodate EGS customer-specific messaging about the supplier product.

25. Q. Do you agree with Ms. Alexander's recommendations regarding PECO's proposed bill design change?

A. In part. To address concerns regarding confusion expressed by Ms. Alexander, PECO agrees to remove the third column of the table entitled "Electric Supplier Savings." However, in light of the testimony in this proceeding, PECO does not wish to implement any bill format changes, via email or otherwise, until the Commission approves the final bill design in its Final Order entered in this proceeding.

26. Q. Are Mr. Caliva's concerns about providing a dollars and cents comparison of the customer's EGS charges and what the charges would have been under PECO's PTC valid?

A. No. As I explained in my direct testimony, PECO's proposal is based on its stakeholder collaborative held in January 2021 to explore mechanisms to collect EGS pricing information compatible with PECO's "bill-ready" billing system and to develop bill improvements to ensure that shopping information is clear and transparent to residential customers. Several EGSs participated in those stakeholder discussions. Moreover, PECO's consolidated billing option provides ample space for EGSs to describe their products and pricing by allocating EGSs up to four lines, with 80 characters per line, in the bill

message center where the PTC is displayed. For example, an EGS could fully present its product in bill messaging using only two of the four lines allocated to suppliers:

Your [EGS name] 12-month fixed electric price is $0.XXX per kWh.
This supply plan includes 100% green energy and up to $XX reward dollars.

Notably, the majority of EGSs, including several of RESA's members, currently describe their offers in PECO's service area on PaPowerSwitch.com in one or two lines – well within the space allocated on PECO's consolidated bill. As such, there is no need to provide additional space to EGSs on the utility consolidated bill to accommodate Mr. Caliva's recommended disclosures on the nature of PECO's default service procurement approach and EGS products and services. In addition, allotting more lines on the bill to EGSs would require system changes and associated costs.

27. Q. Please respond to Ms. Marx's recommendations to ensure that low-income customers will be able to access CAP without facing fees.

A. PECO's CAP customers are not permitted to purchase competitive generation supply. Ms. Marx recommends that PECO allow low-income customers to join CAP and return to default service without fees or penalties imposed by suppliers. However, PECO cannot implement Ms. Marx's proposal because the Company has no authority over the terms of EGS contracts with non-CAP customers, including cancellation and early termination fees.

Ms. Marx also recommends that PECO add a statement to the CAP application for prospective enrollees to indicate that they consent to returning to default service at the time of CAP enrollment. PECO objects to this

recommendation. The decision to cancel an EGS contract should be made by the customer as they may be subject to early termination or other fees which PECO is not aware of at the time of CAP enrollment. In addition, PECO's existing process ensures customers are receiving default service before enrolling them in CAP. If a customer is shopping with a supplier at the time of submitting their CAP application, they are sent a letter advising them of the action they need to take to finish their CAP enrollment, including considering whether they would be subject to early termination fees by switching to default service.

28. Q. Have you reviewed Mr. Caliva's assertions regarding supplier issues experienced during PECO's CIS upgrade?

A. Yes. Mr. Caliva raises concerns regarding the transition to a new Choice ID and customer account number with the same number of digits in connection with PECO's new CIS. He asserts that suppliers did not know that they needed to ensure that the PECO customer provides them with a Choice ID and not a new account number to process the enrollment. Mr. Caliva also expresses concerns about rejection of certain supplier invoices due to PECO's new customer account numbers. Based on those concerns, Mr. Caliva recommends that PECO: (1) provide daily updates to competitive suppliers and weekly updates to Commission staff for at least the first 90 days of any system upgrade; and (2) assign each EGS a consistent point of contact for addressing issues related to the CIS upgrade.

29. Q. Do you agree with Mr. Caliva's recommendations?

A. No. PECO launched its new CIS system on February 20, 2024. Prior to going live, PECO held webinars and issued several supplier bulletins regarding the CIS upgrade, including a webinar in June 2023 and in December 2023 attended by 26 and 60 RESA members, respectively, where the transition to new Choice IDs was discussed in detail. PECO's Energy Acquisition team has also responded to approximately 1,600 supplier inquiries regarding the CIS upgrade in the last three months. By the time of the Commission's Final Order in this proceeding, PECO's new CIS will have been in place for almost eight months – well beyond the 90 days of reporting recommended by Mr. Caliva. Moreover, providing a direct point of contact for each of the 98 EGSs registered in PECO's service area is not feasible because the Energy Acquisition team responsible for handling EGS-related inquiries consists of four employees.

30. Q. Has PECO resolved the technical issue that caused rejection of some EGS invoices mentioned by Mr. Caliva?

A. Yes. On March 15, 2024, PECO implemented information technology programming that allows EGSs to resume sending 814 electronic data information transactions using the customer's legacy account number.

VII. CONCLUSION

31. Q. Does this conclude your rebuttal testimony?

A. Yes.

PECO ENERGY COMPANY

III. TIME-OF-USE RATES 9

IV. RECOVERY OF DEFAULT SERVICE PROGRAM IMPLEMENTATION COSTS 17

V. CONCLUSION 18

DIRECT TESTIMONY
OF
MEGAN A. MCDEVITT

I. INTRODUCTION AND PURPOSE

1. Q. Please state your full name and business address.

A. My name is Megan A. McDevitt. My business address is PECO Energy Company, 2301 Market Street, Philadelphia, Pennsylvania 19103.

2. Q. By whom are you employed and in what capacity?

A. I am employed by PECO Energy Company ("PECO" or the "Company") as Senior Manager, Retail Rates. I am responsible for the management and oversight of PECO's electric and gas retail and supplier service tariffs and oversee numerous filings with the Pennsylvania Public Utility Commission (the "Commission").

3. Q. Please describe your educational background and professional experience.

A. I earned a Bachelor of Science in Accounting from DeSales University in 2001. In 2006, I became a Certified Public Accountant in Pennsylvania. In March 2022, I was promoted to my current position in PECO's Regulatory Policy and Strategy department, following roles of increasing responsibility within Accounting, Finance, Energy Acquisition, and Gas Supply and Transportation since joining PECO in September 2004.

4. Q. What is the purpose of your direct testimony?

A. The primary purpose of my direct testimony is to describe the rate design to take effect with the commencement of PECO's sixth default service program ("DSP

VI") on June 1, 2025. PECO is adopting the same rate design employed in its fifth default service program ("DSP V"), which the Commission previously approved as consistent with the Public Utility Code ("Code") and the Commission's default service regulations, including continuation of the Company's time-of-use ("TOU") rate options approved in the DSP V proceeding.

5. Q. Please identify the exhibits you are sponsoring.

A. I am sponsoring the following exhibits:

Exhibit MAM-1	Revised Electric Service Tariff (Relevant Pages)
Exhibit MAM-2	Revised Electric Service Tariff (Blackline)
Exhibit MAM-3	PECO System Peak Usage Analysis
Exhibit MAM-4	TOU Period Allocator Calculations
Exhibit MAM-5	TOU Pricing Methodology – Illustrative Example
Exhibit MAM-6	PECO DSP VI Estimated Filing and Program Costs
Exhibit MAM-7	Responses to Questions in 52 Pa. Code Section 53.52(a)

II. DEFAULT SERVICE RATE DESIGN

6. Q. Ms. McDevitt, please provide an overview of PECO's current default service rate design and the costs those rates recover.

A. Under DSP V, PECO conducts competitive procurements of default service supply for three different customer classes ("procurement classes"):

(i) Residential Class or "GSA 1" (Rate Schedules R and RH);

(ii) Small Commercial Class or "GSA 2" with up to and including 100 kW of annual peak demand (Rate Schedules GS, PD, and HT) and lighting customers (Rate Schedules AL, POL, SLE, SLS, SLC, and TLCL); and

(iii) Consolidated Large Commercial and Industrial ("C&I") Class or "GSA 3/4" whose annual peak demand is greater than 100 kW (Rate Schedules GS, PD, HT and EP).

Each default service rate consists of a generation and transmission component. The Generation Supply Adjustment ("GSA") currently recovers generation supply costs, Alternative Energy Portfolio Standards ("AEPS") compliance costs, and ancillary service costs. In addition, the GSA includes an administrative cost factor and a working capital factor. Administrative costs include the costs incurred by PECO to implement its Commission-approved programs designed to enhance the competitive retail market. PECO allocates the majority of administrative costs to the procurement classes based on default service supply sales unless a direct assignment is required.[1] The working capital component is a fixed price per kWh that was established at $0.00021 per kWh in the settlement of PECO's last electric distribution rate case at Docket No. R-2021-3024601.

PECO recovers Network Integration Transmission Service and Non-Firm Point-to-Point Transmission costs imposed by PJM Interconnection, L.L.C. ("PJM") for transmission service that PECO acquires on behalf of default service customers through the Company's Transmission Service Charge ("TSC").

The Commission's regulations (52 Pa. Code § 54.187(h)) provide that default service rates may be adjusted no more frequently than quarterly for customers

[1] Administrative costs incurred specifically to implement PECO's TOU default service rate options were allocated as prescribed by the terms of the Commission-approved settlement of PECO's DSP V proceeding at Docket P-2020-3019290 ("DSP V Settlement"). Seventy percent of these costs were allocated based on the total number of default service customers in the Residential and Small Commercial procurement classes. The remaining 30% of these costs were allocated based on the default service kWh consumed by the Residential and Small Commercial procurement classes.

with load requirements up to 25 kW. Those regulations (52 Pa. Code § 54.187(i)) also provide that default service rates shall be adjusted on a quarterly basis, or more frequently, for customers with load requirements between 25 kW and 500 kW. Finally, the Commission's regulations (52 Pa. Code § 54.187(j)) provide that default service rates shall be adjusted on a monthly basis, or more frequently, for customers with load requirements equal to or greater than 500 kW.

7. Q. Please describe how the Company's default service rates are structured and adjusted for customers with annual peak demand up to and including 100 kW.

A. Under the current GSA approved by the Commission in DSP V, PECO projects the cost of generation supply for each customer class with an annual peak of up to and including 100 kW (i.e., residential and small commercial customers) on a quarterly basis. Those GSA projection periods are synchronized with PJM's planning year (June 1-May 31), corresponding to the quarters of June-August, September-November, December-February, and March-May. The projected cost of supply is a function of projected default service sales and projected procurement costs under PECO's generation supply contracts. This projection, combined with PECO's TSC, forms the basis of the Price-to-Compare ("PTC") that customers may use to evaluate competitive generation service offerings by electric generation suppliers ("EGSs").

PECO files the GSA for each quarter 45 days before the start of that quarter. In accordance with its tariff, PECO compares its actual default service supply costs to the billed revenue it receives from customers under the GSA for default

service. The GSA includes a charge or credit, known as the "E-Factor," for semi-annual reconciliation of any over/undercollection of actual revenues against actual costs for each procurement class. For example, PECO calculates the over/undercollection for the six-month period January 1 through June 30 by July 15 and includes that amount in the E-Factor during the six-month period beginning September 1. Interest on any overcollection and undercollection accrues from the month of such over/undercollection to the midpoint of the refund period in accordance with the Commission's default service regulations at 52 Pa. Code § 54.190.[2]

8. Q. Please describe how the Company's default service rates are structured and adjusted for commercial and industrial customers receiving hourly-priced default service.

A. Under DSP V, commercial and industrial customers with annual peak demand greater than 100 kW are supplied entirely by hourly priced products for generation. These include the day-ahead hourly price of energy as well as a demand charge based upon the reliability pricing model ("RPM") implemented by PJM, PECO's regional transmission organization. The individual customer's RPM charges are based upon the customer's Peak Load Contribution and RPM prices.

[2] Those regulations, adopted by the Commission in 2015, establish a symmetrical rate of interest applicable to both overcollections and undercollections resulting from the reconciliation of default service costs. Specifically, the applicable rate of interest for over/undercollections is the prime rate for commercial borrowing, not to exceed the legal rate of interest, in effect on the last day of the month the over/undercollection occurred, as reported in the Wall Street Journal. *See generally Automatic Adjustment Clauses Related to Elec. Default Serv.*, Docket No. L-2014-2421001 (Final Rulemaking Order entered June 11, 2015).

Additionally, the costs of acquiring ancillary services from the PJM market, AEPS compliance costs, administrative costs and working capital are charged to these customers each month. The Company provides an estimate of these components of hourly-priced default service rates, exclusive of energy and capacity costs, known as the "Hourly Pricing Adder" at least 45 days prior to the start of each quarter.

Under the current GSA, PECO reconciles any over/undercollection for customers receiving hourly-priced default service on a semi-annual basis through the E-Factor in the same manner as the Residential and Small Commercial Classes. Likewise, interest on any over/undercollection accrues in the same manner and at the same rate as for the Residential and Small Commercial Classes, as described above.

9. Q. Has PECO implemented any strategy to mitigate fluctuations in the PTC caused by over/under collections?

A. Yes. Over/undercollections are driven by two factors: (1) the difference between actual and projected supply costs, and (2) billing cycle lag. Customer billing cycles (mostly non-calendar months) are not perfectly aligned with the actual incurrence of generation supply costs (mostly calendar months). Because customers are billed at different times throughout the month, the revenue from the month reflects sales from the subject month and the prior month that may have experienced higher or lower usage. This billing cycle lag results in a timing difference between revenue and expense that can produce significant fluctuations in the PTC that are not directly related to the underlying cost of default service

supply. PECO uses a semi-annual, rather than quarterly, schedule for the reconciliation of over/undercollection amounts for the Residential and Small Commercial Classes to mitigate the potential volatility in default service rates for these customers.

Billing lag is also the primary driver of fluctuations in the Consolidated Large C&I Class PTC. Billing lag can cause a large overcollection for commercial and industrial customers receiving hourly-priced default service in one month immediately followed by a large undercollection the next month. Accordingly, PECO currently reconciles the E-Factor of the GSA for those customers on a semi-annual, instead of a monthly, basis in the same manner as over/undercollections are handled for the Residential and Small Commercial Classes.

10. Q. Is PECO proposing to maintain its existing default service rate design in DSP VI?

A. Yes, with updates to the Company's GSA and Reconciliation tariff pages to reflect the effective date of DSP VI. These changes are shown in the clean and blacklined versions of PECO's electric service tariff attached to my testimony as Exhibit MAM-1 and Exhibit MAM-2, respectively.

11. Q. Is PECO seeking a waiver of the Commission's regulations to continue semi-annual reconciliation of the over/undercollection component of the GSA?

A. Yes. As I explained previously, the Commission's regulations (52 Pa. Code §§ 54.187(h)-(j)) require adjustment of default service rates on a quarterly basis, or

more frequently, for customers with load requirements up to 500 kW and on a monthly basis, or more frequently, for customers with load requirements above 500 kW. However, the Commission has recognized that more extended periods for over/undercollection reconciliation may help keep default rates more market-reflective,[3] and the Commission granted PECO a waiver from these regulations in DSP V to implement a semi-annual E-Factor reconciliation for the Residential, Small Commercial and Consolidated Large C&I Classes.[4] PECO again requests a waiver of these regulations, to the extent necessary, to maintain its current semi-annual reconciliation schedule for the Residential and Small Commercial procurement classes throughout DSP VI to continue to mitigate potential default service rate volatility that may otherwise result from billing cycle lag.

12. Q. Is PECO seeking any other waiver of the Commission's regulations to implement the proposed DSP VI rate design?

A. Yes. In the DSP V Order (p. 66), the Commission granted PECO a waiver of the regulations (52 Pa. Code § 54.187(j)) to implement a quarterly, instead of monthly, filing schedule for Consolidated Large C&I Class default service rates in the same manner and at the same time as the Residential and Small Commercial Class default service rates. To the extent necessary, PECO again requests a waiver to continue to align the filing schedule for Consolidated Large C&I Class

[3] *See Investigation of Pennsylvania's Retail Elec. Mkt.: Recommendations Regarding Upcoming Default Serv. Plans*, Docket No. I-2011-2237952, at pp. 54-55 (Order entered Dec. 16, 2011).

[4] *Petition of PECO Energy Co. for Approval of its Default Serv. Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-30319290 (Opinion and Order entered Dec. 3, 2020) ("DSP V Order"), p. 67.

default service rates with PECO's other procurement classes and reduce administrative burden on both the Company and Commission Staff.

III. TIME-OF-USE RATES

13. Q. Does PECO currently offer TOU rate options as required by Act 129 of 2008 ("Act 129")?[5]

A. Yes. PECO currently offers TOU rate options to eligible Residential and Small Commercial default service customers as approved by the Commission in the DSP V Order. PECO's existing TOU rates differentiate prices across three periods (peak, off-peak and super off-peak) that remain constant year-round based on price multipliers for each procurement class that are updated on an annual basis and are designed to motivate customers to shift usage to lower-cost, off-peak hours.

The Company's TOU rate structure offers a higher rate during non-holiday weekday afternoons from 2 p.m. to 6 p.m. relative to PECO's non-time varying GSA rate and a reduced rate during two off-peak periods. The current TOU rates include a super off-peak pricing period to encourage electric vehicle ("EV") charging during overnight low-priced hours (12 a.m. to 6 a.m.). The off-peak period consists of all other hours.

Eligible default service customers may enroll in PECO's TOU rates online or through the Company's Care Center. Participating customers remain on the TOU

[5] 66 Pa.C.S. § 2807(f)(5). The hourly-priced GSA rate for the Consolidated Large C&I Class already meets Act 129 requirements.

rate until they affirmatively elect to return to PECO's standard default service rate, switch to an EGS or otherwise become ineligible. Participating customers may leave PECO's TOU rate for any reason and at any time without penalty. However, they may not re-enroll for 12 billing months to reduce the possibility of "free riders" who enroll in a TOU rate only for times of the year when they do not have to shift usage to save money.

14. Q. Ms. McDevitt, please summarize PECO's experience with the current TOU rates implemented during DSP V.

A. Eligible customers were able to enroll in PECO's current TOU rates beginning on September 1, 2021. As of May 31, 2023, 1,902 Residential and 12 Small Commercial default service customers have enrolled in PECO's TOU rates, and 400 participating customers left their TOU rate during that period. As shown in the Company's 2022-2023 Default Service Program Time-of-Use Annual Reports,[6] most customers who enrolled in PECO's TOU rates during that period took action to shift consumption away from peak hours and saved money as a result, with monthly bill savings ranging from $3 to $23 (on average, $11). The average monthly bill savings per customer enrolled in PECO's TOU rate during the September 1, 2021 to May 31, 2022 period was $8.46.[7]

[6] *See* PECO Energy Company's 2022-2023 Default Service Program Time-of-Use Annual Report, Docket No. P-2020-3019290 (filed Oct. 20, 2023).

[7] *See* PECO Energy Company's 2021-2022 Default Service Program Time-of-Use Annual Report, Docket No. P-2020-3019290 (filed Oct. 21, 2022).

15. Q. Is PECO proposing any changes to the eligibility rules for its TOU rates?

A. No. PECO's TOU rate options are available, with limited exceptions, to default service customers with smart meters who are not receiving hourly-priced default service (i.e., the Residential and Small Commercial Classes). The customer must have a valid e-mail address to ensure the Company is able to provide the enrolled TOU customer with timely and meaningful communications regarding the customer's bill savings performance. Residential customers enrolled in PECO's Customer Assistance Program ("CAP") are not eligible for the residential TOU rate at this time. In addition, customer generators who have virtual net metering are not eligible due to the administrative and billing complexity of offering a TOU rate to those customers.

16. Q. Please explain why CAP customers are not offered the residential TOU rate.

A. CAP customers receive a discounted bill for the utility service they receive based on their ability to pay subject to both monthly minimum bill amounts and annual maximum credit amounts.[8] The selection of the TOU rate could adversely impact those benefits because CAP customers may not have the flexibility to shift usage outside of the higher-priced peak period. Notably, nine of the fourteen confirmed low-income customers enrolled on PECO's TOU rate during the June 1, 2022 to May 31, 2023 period paid more than they would have under PECO's standard non-time varying default service rates (with individual amounts ranging from $0.01 to $14.89 per month). Therefore, PECO proposes to continue to exclude

[8] PECO does not apply CAP credit limits to its natural gas accounts.

CAP customers from the TOU rate at this time. This avoids the risk of higher generation charges on those customers' electric bills that could jeopardize affordability (e.g., by causing the customer to more rapidly approach their annual maximum credit amount) and impose an unreasonable cost burden on all residential customers who pay for CAP.

17. Q. Is PECO proposing to maintain the same price-differentiated usage periods for DSP VI?

A. Yes. PECO's TOU pricing structure is designed to reasonably encompass the expected system peak usage times while addressing the need for simplicity to encourage customer enrollment. The Company examined PJM's PECO zonal load data over a five-year historic period (2018-2022). As shown on Exhibit MAM-3, using PJM's PECO zonal load data over a five-year historic period (2018-2022), system peak usage generally occurred during weekdays over five months of the year (May-September). The hours between 2 p.m. and 6 p.m. from May through September tended to have the highest system loads.

Based on this data, PECO's definition of the peak period as 2 p.m. to 6 p.m. on non-holiday weekdays remains appropriate. As I previously explained, since the Company's TOU rate options were launched in September 2021, participating customers have successfully responded to TOU price signals to shift usage and achieve bill savings. Maintaining the same peak period approved in DSP V also allows for material price differentials that are expected to motivate customers to shift consumption to lower-priced (off-peak) hours.

PECO's proposed TOU rates also maintain a super off-peak pricing period to provide cost savings opportunities for EV operators. Based on PECO's system load patterns, the super off-peak period will remain as 12 a.m. to 6 a.m. every day to encourage EV charging within times of low energy consumption.

18. Q. Why is PECO proposing to maintain year-round price-differentiated usage periods without seasonal variation?

A. PECO applies the TOU rates year round to make them easy for customers to understand and to reduce the number of variables that customers need to consider before changing their consumption patterns. This design also simplifies the development of TOU price ratios. PECO believes the year-round nature of its TOU rates strikes a balance reflective of time periods that include the system peak while remaining more convenient and actionable for customers.

19. Q. Has PECO updated the price ratios approved in the DSP V Order that are used to set TOU rates for peak, off-peak and super off-peak usage periods to reflect current market conditions?

A. Yes. The TOU price multipliers reflect the ratios calculated from average PJM PECO Zone spot market prices as well as the cost of capacity during peak and off-peak hours. PECO allocates the cost of capacity to peak and off-peak hours only to send cost-based price signals and create larger price differentials that are more likely to motivate customers to adjust the time of day they use electricity. The Company's current TOU pricing multipliers effective June 1, 2023 through May 31, 2024 are shown in Table 1 below.

Table 1

TOU Pricing Period	GSA-1 TOU Pricing Multipliers*	GSA-2 TOU Pricing Multipliers*
Peak	7.21	5.56
Super Off-Peak	1	1
Off-Peak	1.46	1.55

*Ratio to Super Off-Peak TOU price

In accordance with Paragraph 46 of the DSP V Settlement, PECO reviews the TOU pricing multipliers on an annual basis by procurement class, using an updated rolling five years of historical PJM Day-Ahead Spot Market Pricing energy data and RPM capacity pricing data for the PECO Zone. PECO only updates the class's applicable TOU pricing multipliers for the upcoming program year (June 1 through May 31) if the use of this data results in no more than a 10% change from the prior year's TOU pricing multipliers. If the price multiplier change would exceed 10%, the applicable multipliers are changed by exactly 10%. PECO proposes to continue updating the TOU pricing multipliers on an annual basis in the same manner as DSP V, and the updated multipliers for the first year of DSP VI will be reflected in PECO's GSA filing 45 days before June 1, 2025.

20. Q. Ms. McDevitt, how are the TOU Rates set for each procurement class using the Company's pricing differentials?

A. As explained by Company witness Sulma Dalessio (PECO Statement No. 1), PECO will continue to source the residential and small commercial customer's standard and TOU default service from the same supply portfolio for each

procurement class. PECO will then continue to calculate the standard, non-time varying GSA on a quarterly basis based on the results of these procurements and use the standard GSA as the reference price for PECO's TOU rate calculations. The super off-peak price will continue to provide a discount from the standard GSA price in a way that offsets the higher peak and off-peak period prices and ensures revenue neutrality. The revenue neutral super off-peak price for each procurement class is derived from the portion of total system kWh usage attributable to each TOU pricing period. PECO determined these percentages (the "TOU Period Allocators") described in Exhibit MAM-4 based on PJM energy market settlements over the most recent historical five year period (2018-2022).

The peak and off-peak TOU prices are a factor of multiplying the super off-peak price by the multiplier for the applicable procurement class and TOU pricing period. Exhibit MAM-5 provides an illustration of the TOU Rate for residential customers based on the proposed TOU pricing multipliers for DSP VI and the GSA rate effective as of January 1, 2024.

21. Q. Will PECO continue its current methodology for adjusting default service rates for customers enrolled in the Company's TOU rates?

A. Yes. The TOU rates are calculated on a quarterly basis and synchronized with the GSA adjustment periods for the Residential and Small Commercial Classes, using the Company's proposed pricing methodology. TOU customer kWh sales and costs are included in the semi-annual reconciliation of the over/undercollection component of the GSA for the entire procurement class (i.e., Residential or Small Commercial). PECO's reconciliation process uses a single E-Factor for each

procurement class that helps mitigate potential large swings in GSA over/undercollections that could arise if customers switch between PECO's standard default service rate and TOU default service rate. In addition, the Commission has previously authorized other electric distribution companies to recover TOU over/undercollection amounts from all default service customers based on its finding that the TOU rates mandated by Act 129 are a "form of default service."[9]

22. Q. Does PECO provide updates to enrolled TOU customers about the opportunity for bill savings?

A. Yes. PECO distributes progress e-mails to enrolled TOU customers on a monthly basis that update customers on their energy costs on the TOU rate and remind customers about the mechanics of the TOU rates. In addition, PECO updates TOU generation prices on its website quarterly, concurrently with standard, fixed-price GSA updates, and in the Company's quarterly GSA filings with the Commission.

[9] *See Pa. P.U.C. v. PPL Elec. Utils. Corp.*, Docket No. R-2011-2264771 (Opinion and Order entered Aug. 30, 2012), pp. 22-23.

IV. RECOVERY OF DEFAULT SERVICE PROGRAM IMPLEMENTATION COSTS

23. Q. Is PECO entitled to full and current recovery of all costs associated with DSP VI?

A. Yes. In accordance with Section 2807(e)(3.9) of the Public Utility Code, PECO is formally requesting that the Commission expressly affirm PECO's right to full and current recovery of all costs of DSP VI.

24. Q. Is the Company seeking to continue to recover the cost of its default service proceedings through the GSA?

A. Yes. Consistent with the Commission's Policy Statement at 52 Pa. Code § 69.1808(a)(4) and the current GSA, the cost of this proceeding, including consultant fees, attorney fees, billing format changes described by Ms. Dalessio in PECO Statement No. 1, and costs related to information technology changes, will be recovered through the GSA as an expense over the DSP VI term. The estimated administrative cost is delineated on Exhibit MAM-6.

25. Q. How does PECO propose to recover Standard Offer Program ("SOP") costs during DSP VI?

A. Consistent with PECO's existing tariff and the DSP V Order, the Company proposes to continue to recover Standard Offer Program costs through the cost recovery mechanisms approved in the Company's prior default service proceedings. This includes an EGS participant fee not to exceed $30 per referred customer, with any remaining costs recovered in the following manner: (1) 50% from EGSs through a Purchase of Receivables discount; and (2) 50% from

Residential and Small Commercial default service customers via the GSA. In accordance with the DSP V settlement at Docket No. P-2020-3019290, PECO waives the $30 referral fee for customers who enroll in the SOP through its website.

26. Q. Has the Company submitted responses to the questions regarding changes to its tariff required by the Commission's regulations?

A. Yes. Exhibit MAM-7 provides the Company's responses to the questions in 52 Pa. Code § 53.52(a).

V. CONCLUSION

27. Q. Does this conclude your direct testimony?

A. Yes.

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

PETITION OF PECO ENERGY COMPANY FOR APPROVAL OF ITS DEFAULT SERVICE PROGRAM FOR THE PERIOD FROM JUNE 1, 2025 THROUGH MAY 31, 2029	:	**DOCKET NO. P-2024-_____**

VERIFICATION

I, Megan A. McDevitt, hereby state that I am a Senior Manager, Retail Rates for PECO; that I am authorized to and do make this Verification; and that the facts set forth in PECO Statement No. 2 and the accompanying exhibits listed below are true and correct to the best of my knowledge, information and belief and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa. C.S. § 4904, relating to unsworn falsification to authorities.

GENERATION SUPPLY ADJUSTMENT FOR PROCUREMENT CLASSES 1 AND 2
LOADS UP TO 100KW

Applicability: June 1, 2025 this adjustment shall apply to all customers taking default service from the Company with demands up to 100 kW. The rate contained herein shall be calculated to the nearest one thousandth of a cent. The GSA shall contain the cost of generation supply for each tariff rate. The Company will apply Standard Pricing unless customers voluntarily request and are eligible to participate in the Time-Of-Use Pricing Option as detailed below. **(C)**

Standard Pricing: Standard Pricing provides default service to customers who have not selected or are not eligible for PECO's Time-Of-Use Pricing Option. The rates below shall include the cost of procuring power to serve the default service customers including the cost of complying with the Alternative Energy Portfolio Standards Act ("AEPS" or the "Act") plus associated administrative expenses incurred in acquiring power and gaining regulatory approval of any procurement strategy and plan. The standard pricing for default service will represent the estimate of the cost to serve the specific tariff rate for the next quarterly period beginning with the three months ended August 31, 2025 The rates in this tariff shall be updated quarterly on June 1, September 1, December 1 and March 1 commencing June 1, 2025 and are not prorated. If the balance of over/(under) recovery gets too large, the Company can file a reconciliation that will mitigate the subsequent impact. The standard generation service charge shall be calculated using the following formula: **(C)**

Standard GSA(n) = (C-E+A)/S*1/(1-T)* (1-ALL)/(1-LL) +AEPS/S*1/(1 - T) + WC where;

C= The sum of the amounts paid to the full requirements suppliers providing the power for the quarterly period, the spot market purchases for the quarterly period, plus the cost of any other energy acquired for the quarterly period. Cost shall include energy, capacity and ancillary services, distribution line losses, cost of complying with the Alternative Energy Portfolio Standards, and any other load serving entity charges other than network transmission service and costs assigned under the Regional Transmission Expansion Plan. Ancillary services shall include any allocation by PJM to PECO default service associated with the failure of a PJM member to pay its bill from PJM as well as the load serving entity charges listed in the Supply Master Agreement Exhibit D as the responsibility of the supplier. This component shall include the proceeds and costs from the exercise of Auction Revenue Rights granted to PECO by PJM.

AEPS = The projected total cost of complying with the Alternative Energy Portfolio Standards Act ("AEPS" or the "Act") not included in the C component above for the quarterly period for each procurement class. Costs include the amount paid for Alternative Energy and/or Alternative Energy Credits ("AEC's") purchased for compliance with the Act, the cost of administering and conducting any procurement of Alternative Energy and/or AEC's, payments to the AEC program administrator for its costs of administering an alternative energy credits program, payments to a third party for its costs in operating an AEC registry, any charge levied by PECO's regional transmission operator to ensure that alternative energy sources are reliable, a credit for the sale of any AEC's sold during the calculation period, and the cost of Alternative Compliance Payments that are deemed recoverable by the Commission, plus any other direct or indirect cost of acquiring Alternative Energy and/or AEC's and complying with the AEPS statute.

E = Experienced over or under-collection calculated under the reconciliation provision of the tariff to be effective semiannually with recovery during the periods March 1 through August 31 of the current year and September 1 of the current year through February 28 (29) of the following year.

A = Administrative Cost - This includes the cost of the Independent Evaluator, consultants providing guidance on the development of the procurement plan, legal fees incurred gaining approval of the plan and any other costs associated with designing and implementing a procurement plan including the cost of the pricing forecast necessary for estimating cost recoverable under this tariff. Also included in this component shall be the cost to implement real time pricing or other time sensitive pricing such as dynamic pricing that is required of the Company or is approved in its Act 129 filing. Administrative Costs also includes any other costs incurred to implement retail market enhancements directed by the Commission in its Retail Market Investigation at Docket No. I-2011-2237952 or any other applicable docket that are not recovered from EGSs or through another rate.

S = Estimated sales for the period the rate is in effect for the classes to which the rate is applicable. Six month sales are used for the E factor with effective periods March 1 through August 31 of the current year and September 1 of the current year through February 28 (29) of the following year.

T = The currently effective gross receipts tax rate.

n = The procurement class for which the GSA is being calculated.

ALL = Average line losses for the procurement class.

LL = Line losses for the specific rate class provided in the Company's Electric Generation Supplier Coordination Tariff rule 6.6.

WC = $0.00021/kWh to represent the cash working capital for power purchases.

Auction Revenue Rights (ARR) = Allocated annually by PJM to Firm transmission customers, the ARR's allow a Company to select rights to specific transmission paths in order to avoid congestion charges. In general, the line loss adjustment is applicable to Procurement Class 2 only as those classes contain rate classes with three different line loss factors: Current Charges:

HT	GSA (2)	$0.xxxxx
POL*	GSA (2)	$0.xxxxx
SL-S*	GSA (2)	$0.xxxxx
TLCL	GSA (2)	$0.xxxxx
SL-E*	GSA (2)	$0.xxxxx
AL*	GSA (2)	$0.xxxxx
SL-C*, **	GSA (2)	$0.xxxxx

* Prices shall exclude capacity from the Procurement Class 2 RFP results.
** Rate SL-C was effective July 1, 2019 pursuant to the Order at Docket No. R-2018-3000164

Procedure: For Procurement Classes 1 and 2 the GSA shall be filed 45 days before the effective dates of June 1, September 1**,** December 1 and March 1 in conjunction with the Reconciliation Schedule.

Time-Of-Use (TOU) Pricing Option: The TOU Pricing Option provides eligible customers with an opportunity to shift energy usage away from peak periods, when wholesale electricity demand and prices are high, to off-peak periods, when demands and prices are lower. Customers may voluntarily request this option in lieu of Standard Pricing described above and must meet the TOU Eligibility Requirements below. (Customers electing this option are billed based on interval-metered consumption of usage within each TOU Pricing Period. Beginning and ending reads are not applicable TOU billing determinants.) Commencing September 1, 2021, TOU Pricing Option rates will be updated quarterly in concurrence with the Standard GSA on June 1, September 1, December 1 and March 1 and are not prorated.

The year-round TOU Pricing Periods, TOU Period Allocators ["PA-GSA(n)"], and TOU Pricing Multipliers ["PM-GSA(n)"] from June 1, 2025 through May 31, 2026 are as follows: **(C)**

TOU Pricing Period	Days/Hours Included	TOU Period Allocator PA-GSA(1)	TOU Period Allocator PA-GSA(2)	TOU Pricing Multiplier PM-GSA(1) (Ratio to Super Off-Peak)	TOU Pricing Multiplier PM-GSA(2) (Ratio to Super Off-Peak)
Peak ("PP")	2:00 – 6:00 p.m. Monday through Friday, excluding PJM holidays	12%	14%	x-to-x	x-to-x
Super Off-Peak ("SOPP")	Midnight (12 a.m.) – 6 a.m. Every day	20%	20%	1-to-1	1-to-1
Off-Peak ("OPP")	All other hours	68%	66%	x-to-x	x-to-x

(C)

Commencing with the GSA and TOU rates effective June 1, 2022, PECO may update the TOU Pricing Multipliers in the above table annually, using a rolling five years of historical PJM Day-Ahead Spot Market Pricing energy data and Reliability Pricing Model capacity pricing data for the PECO zone. PECO will **only** update the applicable TOU Pricing Multipliers if the use of such data would result in no more than a 10% change from the prior-year's TOU Pricing Multipliers. If these updates would exceed 10%, the applicable TOU Pricing Multipliers will be changed by exactly 10%.

To calculate the quarterly TOU Pricing Option rates, the Company will first calculate the quarterly TOU Super Off-Peak Price ("SOPP") in accordance with the formula set forth below:

TOU SOPP GSA(n) = Standard GSA(n) * [1 / SOPP-F(n)] where;

Standard GSA(n) = Defined as above for Standard Pricing.

SOPP-F(n) = Super Off-Peak Price Factor representing the ratio of the Standard GSA(n) to the Super Off-Peak Price, calculated as follows:

TOU SOPP PA-GSA(n) + [(TOU OPP PM-GSA(n) * TOU OPP PA-GSA(n)] + [(TOU PP PM-GSA(n) * TOU PP PA-GSA(n)]

The Company will then calculate the quarterly TOU Peak ("PP") and Off-Peak ("OPP") prices as follows:

TOU PP GSA(n) = TOU SOPP GSA(n) * TOU PP PM-GSA and;

TOU OPP GSA(n) = TOU SOPP (GSA(n) * TOU OPP PM-GSA.

PD (GSA 2)	$0.xxxxx	$0.xxxxx	$0.xxxxx
HT (GSA 2)	$0.xxxxx	$0.xxxxx	$0.xxxxx

TOU Eligibility Requirements and Switching Rules:

The TOU Pricing Option is available to new and existing Customers in Procurement Classes 1 or 2 with a smart meter configured to measure energy consumption in watt-hours. This includes Customers in the above referenced Procurement Classes taking default service from the Company and who also participate in the Company's RS-2 (Net Metering) tariff, except for virtual net metered Customers. Residential Customers enrolled in the Company's Customer Assistance Program (CAP) are not eligible for the TOU Pricing Option.

As a prerequisite for enrollment, the Customer must have a valid e-mail address to ensure the Company is able to provide the enrolled TOU Pricing Option Customer with timely and meaningful communications regarding their bill savings performance.

Participating Customers will remain on the TOU Pricing Option rate until they affirmatively elect to return to PECO's Standard GSA rate, switch to an EGS, or otherwise become ineligible.

Customers who select the TOU Pricing Option may leave at any time without incurring related penalties or fees. However, Customers who select and subsequently leave the TOU Pricing Option for any reason may not re-enroll on the TOU Pricing Option rate for twelve billing months after switching off the TOU Pricing Option rate.

GENERATION SUPPLY ADJUSTMENT FOR PROCUREMENT CLASS 3/4 LOADS GREATER THAN 100KW

Applicability: June 1, 2025 this adjustment shall apply to all customers taking default service from the Company with demands greater than 100 kw. **(C)**

Hourly Pricing Service
Pricing: The rates below shall include the cost of procuring power to serve the default service customers plus associated administrative expenses incurred in acquiring power and gaining regulatory approval of any procurement strategy and plan. The rates for the GSA 3/4 Hourly Pricing Adder* shall be updated quarterly on June 1, September 1, December 1 and March 1 commencing June 1, 2025 and are not prorated. **(C)** If the balance of over/(under) recovery gets too large due to billing lag, the Company can file a reconciliation that will mitigate the subsequent impact. The cost for this hourly service rate shall be as follows:

Generation Supply Cost (GSC) = (C+R+AS+AC-E)/(1-T)+WCA where;

C = The PJM day ahead hourly price multiplied by the customers usage in the hour summed up for all hours in the month

$$\Sigma PJM_{DA} \text{ x usage / (1-LL)}$$

PJM_{DA} – PJM on day ahead hourly price.
Usage - Electricity used by an end use customer.
R = The PJM reliability pricing model (RPM) charge for month for the customer. The RPM charge shall be the customers peak load contribution as established for PJM purposes multiplied by the current RPM monthly charge and the PJM established reserve margin adjustment.
PLC x (1+ RM) x P_{RPM} x Bill Days
PLC = Peak load contribution
RM = Reserve margin adjustment per PJM
P_{RPM} = Capacity price per MW-day
AC = Administrative Cost - This includes an allocation of the cost of the Independent Evaluator, consultants providing guidance on the development of the procurement strategy, legal fees incurred gaining approval of the plan, and any other costs associated with designing and implementing a procurement plan divided by the total default service sales and then multiplied by the customers usage for the month. Administrative Costs also includes any other costs incurred to implement retail market enhancements directed by the Commission in its Retail Market Investigation at Docket No. I-2011-2237952 or any other applicable docket that are not recovered from EGSs or through another rate.
A / S x Usage
A = Administrative cost
S = Default service sales
AS = The cost, on a $/MWH basis, of acquiring ancillary services from PJM and of complying with the Alternative Energy Portfolio Standard, multiplied by the customers usage for the month and divided by (1-LL). Congestion charges including the proceeds and costs from the exercise of
Auction Revenue Rights shall be included in this component. Ancillary services shall be those included in the Supply Master Agreement as being the responsibility of the supplier.

$$((PJM_{AS} \text{ x Usage*}1/(1\text{-LL}) + AEPS/S_{AEPS} \text{ x Usage})$$

PJM_{AS} = $/MWH charged by PJM for ancillary services
AEPS = Cost of complying with the alternative energy portfolio standard
S_{AEPS} = Sales for which AEPS cost is incurred
If the supplier provides the ancillary services and AEPS cost then the customer shall be charged the supplier's rate for these services times usage and divided by (1-LL).

Auction Revenue Rights (ARR) = Allocated annually by PJM to Firm transmission customers, the ARR's allow a Company to select rights to specific transmission paths in order to avoid congestion charges
LL = Line loss factor as provided in the Company's Electric Generation Supplier Coordination Tariff Rule 6.6 based upon the customers distribution rate class adjusted to remove losses included in the PJM LMP
T = The currently effective gross receipts tax rate
E = $\Sigma O/(U)/S_3/_4$ x usage where
E (Purchased Generation Adj.) = Over/under recovery as calculated in the reconciliation
$S_3/_4$ = Procurement class 3/4 sales
WC = $0.00021 kWh for working capital associated with power purchases
WCA = Individual customer sales x WC
Procedure: The "E" factor shall be updated semiannually in conjunction with the Reconciliation. The applicable above items are converted to the rates listed below.

Tariff Rate	GS	PD	HT	EP
Hourly Pricing Adder* (dollars/kWh)	$0.xxxxx	$0.xxxxx	$0.xxxxx	$0.xxxxx

(C)

* Includes administrative cost (AC), ancillary service charge (AS), E factor (E) and working capital (WC).

(C) Denotes Change

RECONCILIATION

Applicability: June 1, 2025 this adjustment shall apply to all customers who received default service during the period **(C)** the cost of which is being reconciled. Customers taking default service during the reconciliation period that leave default service prior to the assessment of the collection of the over/(under) adjustment shall still pay or receive credit for the over/(under) adjustment through the migration provision. The Company shall notify the Commission and parties to the Default Service Settlement 15 days in advance of the quarterly or monthly filing if the Migration Provision will be implemented in the filing.

This adjustment shall be calculated on a semiannual basis for Procurement Classes 1, 2 and 3/4 Hourly. The reconciliation period will include the six month period beginning January 1 and July 1 commencing with the July 1, 2024 through December 31, 2024 **(C)** reconciliation period. The reconciliation shall be separate for each procurement class. Any resulting over or under recovery shall be assessed on an equal cents per kilowatt hour basis to all customers in the relevant procurement group. Any over/(under) recovery shall be collected after the occurrence of two months from the end of the reconciliation period. Recovery shall be over a six month period commencing September 1 and March 1. The initial six month period is March 1, 2025 through August 31, 2025. **(C)** For purposes of this rider the reconciliation shall be calculated 45 days before the effective date of recovery. The over or under recovery shall be calculated using the formula below. The calculation of the over/(under) recovery shall be done separately for the following procurement classes – Class 1 – Residential, Class 2 – Small C&I up to and including 100 kW, and Class 3/4 – Large C&I greater than 100 kW. For Procurement Classes 1 and 2, Standard Pricing and TOU Pricing Option revenue and cost of supply will be included for the entire Procurement Class.

Reconciliation Formula

$E_N = \Sigma O/(U) + I$

Migration Provision $E_M = [\Sigma O/(U) + I]/S/(1\text{-}GRT)*(1\text{-}ALL)/(1\text{-}LL)$

Where:

E = Experienced over or under collection plus associated interest

N = Procurement class

M = Migration Rider

O/(U) = The monthly difference between revenue billed to the procurement class and the cost of supply as described below in Cost, AEPS Cost and Administrative Cost.

Revenue = Amount billed to the tariff rates applicable to the procurement class including approved Real Time Price or other time sensitive rates for the period being reconciled through the GSA.

Cost = The sum of the amounts paid to all of the full requirements suppliers providing the power for the period being reconciled, the spot market purchases for the period being reconciled, plus the cost of any other energy acquired for the period being reconciled. Cost shall include energy, capacity and ancillary services as well as the proceeds and costs of auction revenue rights for Procurement Classes 1 and 2. Ancillary services shall include any allocation by PJM to PECO default service associated with the failure of a PJM member to pay its bill from PJM as well as those costs listed in the Supply Master Agreement as the responsibility of the seller.

AEPS = The total cost of complying with the Alternative Energy Portfolio Standards Act ("AEPS" or the "Act") not included in the Cost component above for the reconciliation period for Procurement Classes 1 and 2 and not included in the ancillary services component for Procurement Class 3/4 Hourly Service. Costs include the amount paid for Alternative Energy and/or Alternative Energy Credits ("AEC's") purchased for compliance with the Act, the cost of administering and conducting any procurement of Alternative Energy and/or AEC's, payments to the AEC program administrator for its costs of administering an alternative energy credits program, payments to a third party for its costs in operating an AEC registry, any charge levied by PECO's regional transmission operator to ensure that alternative energy sources are reliable, a credit for the sale of any AEC's sold during the calculation period, and the cost of Alternative Compliance Payments that are deemed recoverable by the Commission, plus any other direct or indirect cost of acquiring Alternative Energy and/or AEC's and complying with the AEPS statute.

Administrative Cost = This includes the cost of the Independent Evaluator, consultants providing guidance on the development of the procurement strategy, legal fees incurred gaining approval of the strategy, and any other costs associated with designing and implementing a procurement plan including the cost of the pricing forecast necessary for estimating cost recoverable under this tariff. Also included in this component shall be the cost to implement real time pricing or other time sensitive pricing such as dynamic pricing that is required of the Company or approved in its Act 129 filing. Administrative Costs also includes other costs incurred to implement retail market enhancements directed by the Commission in its Retail Market Investigation at Docket No. I-2011-2237952 or any other applicable docket that are not recovered from EGS's or through another rate.

Full Requirements Supply = A product purchased by the Company that includes a fixed price for all energy consumed. The only cost added by the Company to the full requirements price is for gross receipts tax, distribution line losses, and administrative cost.

Ancillary Services = The following services in the PJM OATT- reactive support, frequency control, operating reserves, supplemental reserves, imbalance charges, PJM annual charges, any PJM assessment associated with non-payment by members, and any other load serving entity charges not listed here but contained in Exhibit D of the Supply Master Agreement. Also included shall be the proceeds and costs from the exercise of auction revenue rights for Procurement Class 3/4 Hourly Service.

(C) Denotes Change

RECONCILIATION
(CONTINUED)

Auction Revenue Rights (ARR) = Allocated annually by PJM to Firm transmission customers, the ARR's allow a Company to select rights to specific transmission paths in order to avoid congestion charges.

Capacity = The amount charged to PECO by PJM for capacity for its default service load under the reliability pricing model (RPM).

I = interest on the over or under collection at the prime rate of interest for commercial banking, not to exceed the legal rate of interest, in effect on the last day of the month the over collection or under collection occurs, as reported in the Wall Street Journal in accordance with the Order at Docket No. L-2014-2421001.

S= Estimated default service retail sales in kWh for the period the cost of which is being reconciled.

ALL = The average line losses in a procurement class as a percent of generation.

LL = The average line losses for a particular rate (e.g. HT, PD, GS) as provided in the Electric Generation Supplier Coordination Tariff rule 6.6.

GRT = The current gross receipts tax rate.

Procurement Class - Set of customers for which the company has a common procurement plan.

Procedural Schedule
The Company shall file the calculation of the over/under collection for the period being reconciled and the proposed adjustment to the GSA 45 days before the effective date as described below. The over/under collection adjustment shall be effective no earlier than the first day of the month such that the commencement of recovery shall lag by two months. The GSA will be effective June 1, September 1, December 1 and March 1 commencing June 1, 2025 with over/under collection recovery occurring over the six month period beginning September 1 and March 1. The data provided in the reconciliation shall be audited on an annual basis by the PaPUC Bureau of Audits. **(C)**

Supplement No. X to
Tariff Electric Pa. P.U.C. No. 7
X Revised Page No. 36
PECO Energy Company Supersedes X Revised Page No. 36

GENERATION SUPPLY ADJUSTMENT FOR PROCUREMENT CLASSES 1 AND 2
LOADS UP TO 100KW

Applicability: June 1, 2025 this adjustment shall apply to all customers taking default service from the Company with demands up to 100 kW. The rate contained herein shall be calculated to the nearest one thousandth of a cent. The GSA shall contain the cost of generation supply for each tariff rate. The Company will apply Standard Pricing unless customers voluntarily request and are eligible to participate in the Time-Of-Use Pricing Option as detailed below. (C)

Standard Pricing: Standard Pricing provides default service to customers who have not selected or are not eligible for PECO's Time-Of-Use Pricing Option. The rates below shall include the cost of procuring power to serve the default service customers including the cost of complying with the Alternative Energy Portfolio Standards Act ("AEPS" or the "Act") plus associated administrative expenses incurred in acquiring power and gaining regulatory approval of any procurement strategy and plan. The standard pricing for default service will represent the estimate of the cost to serve the specific tariff rate for the next quarterly period beginning with the three months ended August 31, 2025. The rates in this tariff shall be updated quarterly on June 1, September 1, December 1 and March 1 commencing June 1, 2025, and are not prorated. If the balance of over/(under) recovery gets too large, the Company can file a reconciliation that will mitigate the subsequent impact. The standard generation service charge shall be calculated using the following formula: (C)

Standard GSA(n) = (C-E+A)/S*1/(1-T)* (1-ALL)/(1-LL) +AEPS/S*1/(1 - T) + WC where;

C= The sum of the amounts paid to the full requirements suppliers providing the power for the quarterly period, the spot market purchases for the quarterly period, plus the cost of any other energy acquired for the quarterly period. Cost shall include energy, capacity and ancillary services, distribution line losses, cost of complying with the Alternative Energy Portfolio Standards, and any other load serving entity charges other than network transmission service and costs assigned under the Regional Transmission Expansion Plan. Ancillary services shall include any allocation by PJM to PECO default service associated with the failure of a PJM member to pay its bill from PJM as well as the load serving entity charges listed in the Supply Master Agreement Exhibit D as the responsibility of the supplier. This component shall include the proceeds and costs from the exercise of Auction Revenue Rights granted to PECO by PJM.

AEPS = The projected total cost of complying with the Alternative Energy Portfolio Standards Act ("AEPS" or the "Act") not included in the C component above for the quarterly period for each procurement class. Costs include the amount paid for Alternative Energy and/or Alternative Energy Credits ("AEC's") purchased for compliance with the Act, the cost of administering and conducting any procurement of Alternative Energy and/or AEC's, payments to the AEC program administrator for its costs of administering an alternative energy credits program, payments to a third party for its costs in operating an AEC registry, any charge levied by PECO's regional transmission operator to ensure that alternative energy sources are reliable, a credit for the sale of any AEC's sold during the calculation period, and the cost of Alternative Compliance Payments that are deemed recoverable by the Commission, plus any other direct or indirect cost of acquiring Alternative Energy and/or AEC's and complying with the AEPS statute.

E = Experienced over or under-collection calculated under the reconciliation provision of the tariff to be effective semiannually with recovery during the periods March 1 through August 31 of the current year and September 1 of the current year through February 28 (29) of the following year.

A = Administrative Cost - This includes the cost of the Independent Evaluator, consultants providing guidance on the development of the procurement plan, legal fees incurred gaining approval of the plan and any other costs associated with designing and implementing a procurement plan including the cost of the pricing forecast necessary for estimating cost recoverable under this tariff. Also included in this component shall be the cost to implement real time pricing or other time sensitive pricing such as dynamic pricing that is required of the Company or is approved in its Act 129 filing. Administrative Costs also includes any other costs incurred to implement retail market enhancements directed by the Commission in its Retail Market Investigation at Docket No. I-2011-2237952 or any other applicable docket that are not recovered from EGSs or through another rate.

S = Estimated sales for the period the rate is in effect for the classes to which the rate is applicable. Six month sales are used for the E factor with effective periods March 1 through August 31 of the current year and September 1 of the current year through February 28 (29) of the following year.

T = The currently effective gross receipts tax rate.

n = The procurement class for which the GSA is being calculated.

ALL = Average line losses for the procurement class.

LL = Line losses for the specific rate class provided in the Company's Electric Generation Supplier Coordination Tariff rule 6.6.

WC = $0.00021/kWh to represent the cash working capital for power purchases.

Auction Revenue Rights (ARR) = Allocated annually by PJM to Firm transmission customers, the ARR's allow a Company to select rights to specific transmission paths in order to avoid congestion charges. In general, the line loss adjustment is applicable to Procurement Class 2 only as those classes contain rate classes with three different line loss factors: Current Charges:

Standard Rate		Standard GSA Price
R	GSA (1)	$0.xxxx
RH	GSA (1)	$0.xxxx
GS	GSA (2)	$0.xxxx

X Revised Page No. 37
Supersedes X Revised Page No. 37

PECO Energy Company

GENERATION SUPPLY ADJUSTMENT FOR PROCUREMENT CLASSES 1 AND 2
LOADS UP TO 100KW (CONTINUED)

PD	GSA (2)	$0.xxxxx	(C)
HT	GSA (2)	$0.xxxxx	
POL*	GSA (2)	$0.xxxxx	
SL-S*	GSA (2)	$0.xxxxx	
TLCL	GSA (2)	$0.xxxxx	
SL-E*	GSA (2)	$0.xxxxx	
AL*	GSA (2)	$0.xxxxx	
SL-C*, **	GSA (2)	$0.xxxxx	

* Prices shall exclude capacity from the Procurement Class 2 RFP results.
** Rate SL-C was effective July 1, 2019 pursuant to the Order at Docket No. R-2018-3000164

Procedure: For Procurement Classes 1 and 2 the GSA shall be filed 45 days before the effective dates of June 1, September 1, December 1 and March 1 in conjunction with the Reconciliation Schedule.

Time-Of-Use (TOU) Pricing Option: The TOU Pricing Option provides eligible customers with an opportunity to shift energy usage away from peak periods, when wholesale electricity demand and prices are high, to off-peak periods, when demands and prices are lower. Customers may voluntarily request this option in lieu of Standard Pricing described above and must meet the TOU Eligibility Requirements below. (Customers electing this option are billed based on interval-metered consumption of usage within each TOU Pricing Period. Beginning and ending reads are not applicable TOU billing determinants.) Commencing September 1, 2021, TOU Pricing Option rates will be updated quarterly in concurrence with the Standard GSA on June 1, September 1, December 1 and March 1 and are not prorated.

The year-round TOU Pricing Periods, TOU Period Allocators ["PA-GSA(n)"], and TOU Pricing Multipliers ["PM-GSA(n)"] from June 1, 2025 (C) through May 31, 2026 are as follows:

TOU Pricing Period	Days/Hours Included	TOU Period Allocator PA-GSA(1)	TOU Period Allocator PA-GSA(2)	TOU Pricing Multiplier PM-GSA(1) (Ratio to Super Off-Peak)	TOU Pricing Multiplier PM-GSA(2) (Ratio to Super Off-Peak)
Peak ("PP")	2:00 – 6:00 p.m. Monday through Friday, excluding PJM holidays	12%	14%	x-to-x	x-to-x
Super Off-Peak ("SOPP")	Midnight (12 a.m.) – 6 a.m. Every day	20%	20%	1-to-1	1-to-1
Off-Peak ("OPP")	All other hours	68%	66%	x-to-x	x-to-x

(C)

Commencing with the GSA and TOU rates effective June 1, 2022, PECO may update the TOU Pricing Multipliers in the above table annually, using a rolling five years of historical PJM Day-Ahead Spot Market Pricing energy data and Reliability Pricing Model capacity pricing data for the PECO zone. PECO will **only** update the applicable TOU Pricing Multipliers if the use of such data would result in no more than a 10% change from the prior-year's TOU Pricing Multipliers. If these updates would exceed 10%, the applicable TOU Pricing Multipliers will be changed by exactly 10%.

To calculate the quarterly TOU Pricing Option rates, the Company will first calculate the quarterly TOU Super Off-Peak Price ("SOPP") in accordance with the formula set forth below:

TOU SOPP GSA(n) = Standard GSA(n) * [1 / SOPP-F(n)] where;

Standard GSA(n) = Defined as above for Standard Pricing.

SOPP-F(n) = Super Off-Peak Price Factor representing the ratio of the Standard GSA(n) to the Super Off-Peak Price, calculated as follows:

TOU SOPP PA-GSA(n) + [(TOU OPP PM-GSA(n) * TOU OPP PA-GSA(n)] + [(TOU PP PM-GSA(n) * TOU PP PA-GSA(n)]

The Company will then calculate the quarterly TOU Peak ("PP") and Off-Peak ("OPP") prices as follows:

TOU PP GSA(n) = TOU SOPP GSA(n) * TOU PP PM-GSA and;

TOU OPP GSA(n) = TOU SOPP (GSA(n) * TOU OPP PM-GSA.

TOU Eligibility Requirements and Switching Rules:

The TOU Pricing Option is available to new and existing Customers in Procurement Classes 1 or 2 with a smart meter configured to measure energy consumption in watt-hours. This includes Customers in the above referenced Procurement Classes taking default service from the Company and who also participate in the Company's RS-2 (Net Metering) tariff, except for virtual net metered Customers. Residential Customers enrolled in the Company's Customer Assistance Program (CAP) are not eligible for the TOU Pricing Option.

As a prerequisite for enrollment, the Customer must have a valid e-mail address to ensure the Company is able to provide the enrolled TOU Pricing Option Customer with timely and meaningful communications regarding their bill savings performance.

Participating Customers will remain on the TOU Pricing Option rate until they affirmatively elect to return to PECO's Standard GSA rate, switch to an EGS, or otherwise become ineligible.

Customers who select the TOU Pricing Option may leave at any time without incurring related penalties or fees. However, Customers who select and subsequently leave the TOU Pricing Option for any reason may not re-enroll on the TOU Pricing Option rate for twelve billing months after switching off the TOU Pricing Option rate.

Supplement No. X to
Tariff Electric Pa. P.U.C. No. 7
X Revised Page No. 38
PECO Energy Company — Supersedes X Revised Page No. 38

GENERATION SUPPLY ADJUSTMENT FOR PROCUREMENT CLASS 3/4
LOADS GREATER THAN 100KW

Applicability: June 1, 2025 this adjustment shall apply to all customers taking default service from the Company with demands greater than 100 kw. (C)

Hourly Pricing Service
Pricing: The rates below shall include the cost of procuring power to serve the default service customers plus associated administrative expenses incurred in acquiring power and gaining regulatory approval of any procurement strategy and plan. The rates for the GSA 3/4 Hourly Pricing Adder* shall be updated quarterly on June 1, September 1, December 1 and March 1 commencing June 1, 2025 and are not prorated. (C)
If the balance of over/(under) recovery gets too large due to billing lag, the Company can file a reconciliation that will mitigate the subsequent impact. The cost for this hourly service rate shall be as follows:

Generation Supply Cost (GSC) = (C+R+AS+AC-E)/(1-T)+WCA where;

C = The PJM day ahead hourly price multiplied by the customers usage in the hour summed up for all hours in the month

$$\Sigma PJM_{DA} \times usage / (1\text{-}LL)$$

PJM_{DA} – PJM on day ahead hourly price.
Usage - Electricity used by an end use customer.
R = The PJM reliability pricing model (RPM) charge for month for the customer. The RPM charge shall be the customers peak load contribution as established for PJM purposes multiplied by the current RPM monthly charge and the PJM established reserve margin adjustment.
PLC x (1+ RM) x P_{RPM} x Bill Days
PLC = Peak load contribution
RM = Reserve margin adjustment per PJM
P_{RPM} = Capacity price per MW-day
AC = Administrative Cost - This includes an allocation of the cost of the Independent Evaluator, consultants providing guidance on the development of the procurement strategy, legal fees incurred gaining approval of the plan, and any other costs associated with designing and implementing a procurement plan divided by the total default service sales and then multiplied by the customers usage for the month. Administrative Costs also includes any other costs incurred to implement retail market enhancements directed by the Commission in its Retail Market Investigation at Docket No. I-2011-2237952 or any other applicable docket that are not recovered from EGSs or through another rate.
A / S x Usage
A = Administrative cost
S = Default service sales
AS = The cost, on a $/MWH basis, of acquiring ancillary services from PJM and of complying with the Alternative Energy Portfolio Standard, multiplied by the customers usage for the month and divided by (1-LL). Congestion charges including the proceeds and costs from the exercise of
Auction Revenue Rights shall be included in this component. Ancillary services shall be those included in the Supply Master Agreement as being the responsibility of the supplier.

$$((PJM_{AS} \times Usage^{*}1/(1\text{-}LL) + AEPS/S_{AEPS} \times Usage)$$

PJM_{AS} = $/MWH charged by PJM for ancillary services
AEPS = Cost of complying with the alternative energy portfolio standard
S_{AEPS} = Sales for which AEPS cost is incurred
If the supplier provides the ancillary services and AEPS cost then the customer shall be charged the supplier's rate for these services times usage and divided by (1-LL).

Auction Revenue Rights (ARR) = Allocated annually by PJM to Firm transmission customers, the ARR's allow a Company to select rights to specific transmission paths in order to avoid congestion charges
LL = Line loss factor as provided in the Company's Electric Generation Supplier Coordination Tariff Rule 6.6 based upon the customers distribution rate class adjusted to remove losses included in the PJM LMP
T = The currently effective gross receipts tax rate
E = $\Sigma O/(U)/S_{3/4}$ x usage where
E (Purchased Generation Adj.) = Over/under recovery as calculated in the reconciliation
$S_{3/4}$ = Procurement class 3/4 sales
WC = $0.00021 kWh for working capital associated with power purchases
WCA = Individual customer sales x WC
Procedure: The "E" factor shall be updated semiannually in conjunction with the Reconciliation. The applicable above items are converted to the rates listed below.

Tariff Rate	GS	PD	HT	EP
Hourly Pricing Adder* (dollars/kWh)	$0.xxxxx	$0.xxxxx	$0.xxxxx	$0.xxxxx

(C)

* Includes administrative cost (AC), ancillary service charge (AS), E factor (E) and working capital (WC).

Supplement No. X to
Tariff Electric PA. P.U.C No. 7
X Revised Page NO. 39
PECO Energy Company Supercedes X Revised Page No. 39

RECONCILIATION

Applicability: June 1, 2025 this adjustment shall apply to all customers who received default service during the period the cost of which is being reconciled. Customers taking default service during the reconciliation period that leave default service prior to the assessment of the collection of the over/(under) adjustment shall still pay or receive credit for the over/(under) adjustment through the migration provision. The Company shall notify the Commission and parties to the Default Service Settlement 15 days in advance of the quarterly or monthly filing if the Migration Provision will be implemented in the filing. (C)

This adjustment shall be calculated on a semiannual basis for Procurement Classes 1, 2 and 3/4 Hourly. The reconciliation period will include the six month period beginning January 1 and July 1 commencing with the July 1, 2024 through December 31, 2024 reconciliation period. The reconciliation shall be separate for each procurement class. Any resulting over or under recovery shall be assessed on an equal cents per kilowatt hour basis to all customers in the relevant procurement group. Any over/(under) recovery shall be collected after the occurrence of two months from the end of the reconciliation period. Recovery shall be over a six month period commencing September 1 and March 1. The initial six month period is March 1, 2025 through August 31, 2025. (C) For purposes of this rider the reconciliation shall be calculated 45 days before the effective date of recovery. The over or under recovery shall be calculated using the formula below. The calculation of the over/(under) recovery shall be done separately for the following procurement classes – Class 1 – Residential, Class 2 – Small C&I up to and including 100 kW, and Class 3/4 – Large C&I greater than 100 kW. For Procurement Classes 1 and 2, Standard Pricing and TOU Pricing Option revenue and cost of supply will be included for the entire Procurement Class. (C)

Reconciliation Formula
$E_N = \Sigma O/(U) + I$
Migration Provision $E_M = [\Sigma O/(U) + I]/S/(1\text{-}GRT)*(1\text{-}ALL)/(1\text{-}LL)$

Where:
E = Experienced over or under collection plus associated interest
N = Procurement class
M = Migration Rider
O/(U) = The monthly difference between revenue billed to the procurement class and the cost of supply as described below in Cost, AEPS Cost and Administrative Cost.

Revenue = Amount billed to the tariff rates applicable to the procurement class including approved Real Time Price or other time sensitive rates for the period being reconciled through the GSA.

Cost = The sum of the amounts paid to all of the full requirements suppliers providing the power for the period being reconciled, the spot market purchases for the period being reconciled, plus the cost of any other energy acquired for the period being reconciled. Cost shall include energy, capacity and ancillary services as well as the proceeds and costs of auction revenue rights for Procurement Classes 1 and 2. Ancillary services shall include any allocation by PJM to PECO default service associated with the failure of a PJM member to pay its bill from PJM as well as those costs listed in the Supply Master Agreement as the responsibility of the seller.

AEPS = The total cost of complying with the Alternative Energy Portfolio Standards Act ("AEPS" or the "Act") not included in the Cost component above for the reconciliation period for Procurement Classes 1 and 2 and not included in the ancillary services component for Procurement Class 3/4 Hourly Service. Costs include the amount paid for Alternative Energy and/or Alternative Energy Credits ("AEC's") purchased for compliance with the Act, the cost of administering and conducting any procurement of Alternative Energy and/or AEC's, payments to the AEC program administrator for its costs of administering an alternative energy credits program, payments to a third party for its costs in operating an AEC registry, any charge levied by PECO's regional transmission operator to ensure that alternative energy sources are reliable, a credit for the sale of any AEC's sold during the calculation period, and the cost of Alternative Compliance Payments that are deemed recoverable by the Commission, plus any other direct or indirect cost of acquiring Alternative Energy and/or AEC's and complying with the AEPS statute.

Administrative Cost = This includes the cost of the Independent Evaluator, consultants providing guidance on the development of the procurement strategy, legal fees incurred gaining approval of the strategy, and any other costs associated with designing and implementing a procurement plan including the cost of the pricing forecast necessary for estimating cost recoverable under this tariff. Also included in this component shall be the cost to implement real time pricing or other time sensitive pricing such as dynamic pricing that is required of the Company or approved in its Act 129 filing. Administrative Costs also includes other costs incurred to implement retail market enhancements directed by the Commission in its Retail Market Investigation at Docket No. I-2011-2237952 or any other applicable docket that are not recovered from EGS's or through another rate.

Full Requirements Supply = A product purchased by the Company that includes a fixed price for all energy consumed. The only cost added by the Company to the full requirements price is for gross receipts tax, distribution line losses, and administrative cost.

Ancillary Services = The following services in the PJM OATT- reactive support, frequency control, operating reserves, supplemental reserves, imbalance charges, PJM annual charges, any PJM assessment associated with non-payment by members, and any other load serving entity charges not listed here but contained in Exhibit D of the Supply Master Agreement. Also included shall be the proceeds and costs from the exercise of auction revenue rights for Procurement Class 3/4 Hourly Service.

Supplement No. X to
Tariff Electric PA. P.U.C. No. 7
X Revised Page No. 40
PECO Energy Company Supersedes X Revised Page No. 40

RECONCILIATION
(CONTINUED)

Auction Revenue Rights (ARR) = Allocated annually by PJM to Firm transmission customers, the ARR's allow a Company to select rights to specific transmission paths in order to avoid congestion charges.

Capacity = The amount charged to PECO by PJM for capacity for its default service load under the reliability pricing model (RPM).

I = interest on the over or under collection at the prime rate of interest for commercial banking, not to exceed the legal rate of interest, in effect on the last day of the month the over collection or under collection occurs, as reported in the Wall Street Journal in accordance with the Order at Docket No. L-2014-2421001.

S= Estimated default service retail sales in kWh for the period the cost of which is being reconciled.

ALL = The average line losses in a procurement class as a percent of generation.

LL = The average line losses for a particular rate (e.g. HT, PD, GS) as provided in the Electric Generation Supplier Coordination Tariff rule 6.6.

GRT = The current gross receipts tax rate.

Procurement Class - Set of customers for which the company has a common procurement plan.

Procedural Schedule
The Company shall file the calculation of the over/under collection for the period being reconciled and the proposed adjustment to the GSA 45 days before the effective date as described below. The over/under collection adjustment shall be effective no earlier than the first day of the month such that the commencement of recovery shall lag by two months. The GSA will be effective June 1, September 1, December 1 and March 1 commencing June 1, 2025 with over/under collection recovery occurring over the six month period beginning September 1 (C) and March 1. The data provided in the reconciliation shall be audited on an annual basis by the PaPUC Bureau of Audits.

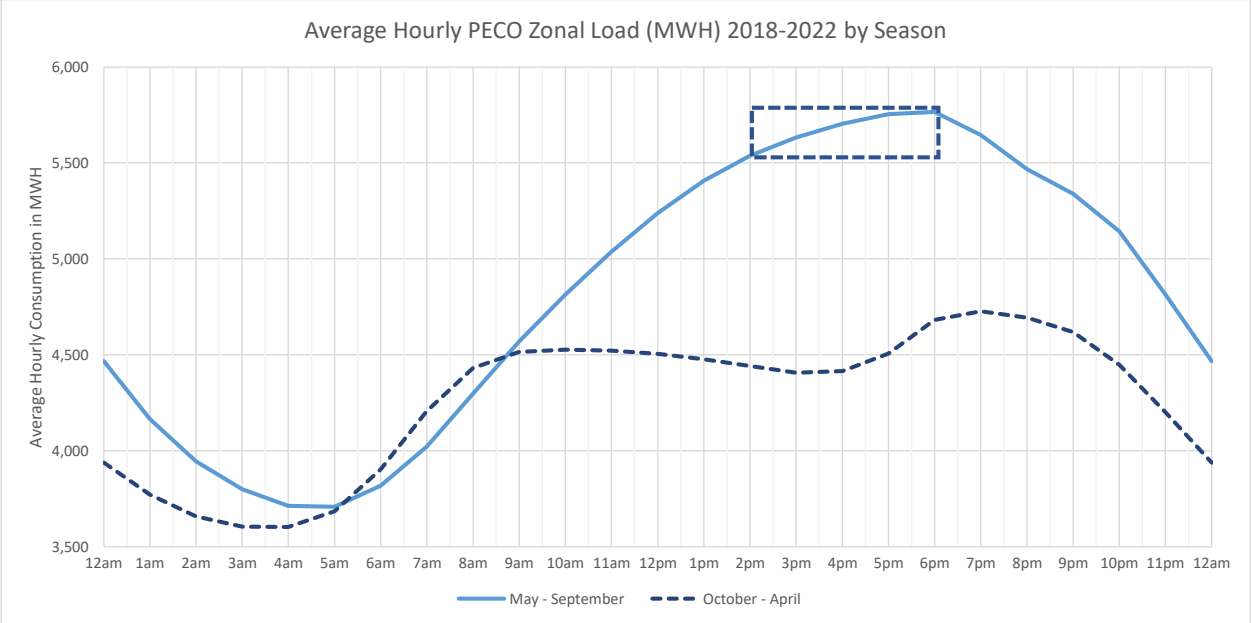
PECO System Peak Usage Analysis



TOU Period Allocator Calculations

		Residential (GSA 1)		Small Commercial (GSA 2)	
TOU Pricing Period	**Year Round Days/Hours Included (ET)**	**Total Zonal Load, 2018-2022 (kWh)**	**TOU Period Allocator***	**Total Zonal Load, 2018-2022 (kWh)**	**TOU Period Allocator***
Peak	2 p.m. - 6 p.m. Monday through Friday, excluding PJM Holidays	51,179,895	**67.52%**	16,157,784	**65.50%**
Super Off-Peak	Midnight (12 a.m.) - 6 a.m. Every day	9,648,169	**12.73%**	3,491,219	**14.15%**
Off-Peak	All other hours	14,967,017	**19.75%**	5,019,655	**20.35%**
		75,795,081	*100%*	*24,668,658*	*100%*

*The TOU Period Allocator represents the ratio of generation (kWh) attributable to each TOU pricing period based on PJM energy market settlements over the most recent historical five-year period (2018-2022).

PECO TOU Pricing Methodology – Illustrative Example

The calculations in this exhibit provide an illustration of PECO's DSP Time-Of-Use ("TOU") Rate for residential default service customers based on the proposed DSP-TOU period allocators for DSP VI, the current DSP-TOU Pricing Multipliers as of June 1, 2023, and the current Residential Generation Supply Adjustment ("GSA-1") rate as of January 1, 2024.

DSP-TOU Pricing Period	Days/Hours Included	DSP-TOU Period Allocators PA-GSA(1)	DSP-TOU Pricing Multipliers, PM-GSA(1) (Ratio to Super Off-Peak)
Peak ("PP")	2 p.m. – 6 p.m. Monday through Friday, excluding PJM holidays	12.73%	7.21-to-1
Super Off-Peak ("SOPP")	Midnight(12 a.m.) – 6 a.m. Every day	19.75%	1-to-1
Off-Peak ("OPP")	All Other Hours	67.52%	1.46-to-1

There are three steps in developing the DSP-TOU Rate for the Residential Class each quarter.

First, PECO will calculate the ratio of the Standard GSA(1) rate to the SOPP price based on the portion of total system kWh usage attributable to each DSP-TOU pricing period calculated in PECO Exhibit MAM-3. This factor will remain constant throughout the DSP VI term.

Super Off-Peak Price Factor ("SOPP-F")

= [TOU SOPP GSA(1) * 19.75%] + [TOU OPP GSA(1) * 67.52%] + [TOU PP GSA(1) * 12.73%]

= [TOU SOPP GSA(1) * 0.1975] + [(1.46 * TOU SOPP GSA(1)) * 0.6752] + [(7.21 * TOU SOPP GSA(1)) * 0.1273]
= [0.1975 * TOU SOPP GSA(1)] + [0.9858 * TOU SOPP GSA(1)] + [0.9178 * TOU SOPP GSA(1)]
= 2.1 * TOU SOPP GSA(1)

Second, PECO will solve the DSP-TOU SOPP price for revenue neutrality. The assumed existing rate used in this illustrative revenue neutrality calculation is the quarterly standard GSA(1) rate effective on January 1, 2024 – $0.08060/kWh.

TOU SOPP GSA(1) = Standard GSA(1-R) *[(1 / SOPP-F GSA(1)]

TOU SOPP GSA(1) = $0.08060 * [1 / 2.1]
= $0.03838

Third, PECO will use this DSP-TOU SOPP price and the TOU pricing multipliers to calculate the peak and off-peak TOU prices, as shown in Table 2 below.

DSP-TOU Pricing Period	DSP-TOU Generation Price GSA(1)
Peak	$0.27672/kWh
Super Off-Peak	$0.03838/kWh
Off-Peak	$0.05603/kWh

PECO DSP VI Estimated Filing and Program Costs

Item	Description	Estimated Cost ($Millions)[1]	Recovery Mechanism
1	Cost of DSP V Proceeding (a)	$ 1.18	GSA
2	Independent Evaluator	$ 1.34	GSA
3	GSA Forecasting Costs	$ 0.80	GSA
4	Residential Billing Format Changes	$ 0.16	GSA
5	Customer Referral Program - $30 per customer referred	$ 1.13	EGS receiving the referral
6	Independent Consultant for Procurement of Solar Alternative Energy Credits	$ 0.14	GSA

Notes:

1	Subject to change based on final program design and implementation.		
(a)	Consultants	$	0.18
	Legal Expense	$	1.00
	Total	$	1.18
(b)	Expense	$	0.13
	Capital	$	0.03
	Total	$	0.16

Responses to Questions in 52 Pa. Code Section 53.52(a)

1. The specific reason for each change.

PECO Energy Company ("PECO" or the "Company") is proposing tariff changes to implement its sixth proposed default service program ("DSP VI"). The Company's DSP VI is being filed in compliance with the Commission's regulations at Title 52 Pa. Code Section 54.185. Furter details can be found in PECO's Petition and direct testimony, specifically, PECO Statement No. 1, the direct testimony of Sulma Dalessio, and PECO Statement No. 2, the direct testimony of Megan A. McDevitt.

2. The total number of customers served by the utility.

The total number of electric customers served by PECO was 1,703,925 as of November 30, 2023.

3. A calculation of the number of customers, by tariff subdivision, whose bills will be affected by the change.

All of the proposed tariff changes are explained in PECO Statement No. 2, the direct testimony of Megan A. McDevitt.

4. The effect of the change on the utility's customers.

All of the proposed tariff changes and their potential effects are discussed in detail in PECO Statement No. 2, the direct testimony of Megan A. McDevitt.

5. The effect, whether direct or indirect, of the proposed change on the utility's revenue and expenses.

The effects of the proposed tariff changes on PECO's revenues and expenses cannot be determined at this time and will depend upon the implementation of PECO's procurement plan that is approved as part of this filing and the market prices in effect when generation supply service is procured.

6. The effect of the change on the service rendered by the utility.

PECO does not expect the proposed tariff changes to affect service.

7. A list of factors considered by the utility.

The changes are being made to comply with 66 Pa.C.S. § 2807(e) of the Pennsylvania Public Utility Code, the Commission's Default Service Regulations, 52 Pa. Code §§ 54.181-54.190, and the Commission's Policy Statement on default service, 52 Pa. Code §§ 69.1801-1817; *see also Default Serv. and Retail Elec. Mkts.*, Docket No. M-2009-2140580 (Order entered Sept. 23, 2011). PECO Statement No. 2, the direct testimony of Megan A. McDevitt, discusses the reasons for all of the proposed tariff changes.

8. Studies undertaken by the utility in order to draft its proposed change.

No specific studies were undertaken.

9. Customer polls taken and other documents, which indicate customer acceptance and desire for the proposed change.

No customer polls were taken.

10. Plans the utility has for introducing or implementing the changes with respect to its customers.

The Company's Petition requesting approval of its DSP VI summarizes how the Company proposes to implement the changes and references specific testimony being filed with the Petition that provides further details about PECO's DSP VI and how it will be implemented.

11. F.C.C., or FERC or Commission Orders or rulings applicable to the filings.

The following orders and PUC guidance are applicable to this filing:

Docket No. P-2020-3019290 - Petition of PECO Energy Company for Approval of Its Default Service Program for the Period June 1, 2021 to May 31, 2025 (Opinion and Order entered December 3, 2020).

Docket No. I-2011-2237952 - Investigation of Pennsylvania's Retail Electricity Market: End State of Default Service (Order entered February 15, 2013)

IV. CONCLUSION 9

REBUTTAL TESTIMONY
OF
MEGAN A. MCDEVITT

I. INTRODUCTION AND PURPOSE

1. Q. Please state your full name and business address.

A. My name is Megan A. McDevitt. I am employed by PECO Energy Company ("PECO" or the "Company") as Senior Manager, Retail Rates. My business address is PECO Energy Company, 2301 Market Street, Philadelphia, Pennsylvania 19103.

2. Q. Have you previously submitted testimony in this proceeding?

A. Yes. I submitted direct testimony that is marked as PECO Statement No. 2. My background and qualifications are set forth in that statement.

3. Q. What is the purpose of your rebuttal testimony?

A. The purpose of my rebuttal testimony is to respond to various issues regarding the rate design for PECO's sixth default service program ("DSP VI") raised by witnesses for the Office of Consumer Advocate ("OCA") and the Tenant Union Representative Network and Coalition for Affordable Utility Services and Energy Efficiency in Pennsylvania ("TURN/CAUSE-PA"). My testimony is divided into two parts. First, I respond to the proposal of Serhan Ogur on behalf of the OCA (OCA St. No. 1) regarding the adjustment and reconciliation of default service rates for residential customers. Second, I address the direct testimony of several parties relating to PECO's proposed time-of-use ("TOU") rate options for eligible default service customers in the Company's Residential and Small Commercial procurement classes.

Specifically, I will address the direct testimony of OCA witnesses Barbara Alexander and Ogur and TURN/CAUSE-PA witness Elizabeth Marx relating to the following issues:

- Customer eligibility for the Company's TOU rates (TURN/CAUSE-PA);
- TOU pricing periods and multipliers (OCA); and
- Incentive and reward pilot programs (OCA).

II. ADJUSTMENT AND RECONCILIATION OF DEFAULT SERVICE RATES

4. Q. Ms. McDevitt, in your direct testimony, you explained that PECO proposes to continue to adjust its residential default service rates each quarter, with semi-annual reconciliation of the over/undercollection component of the Generation Supply Adjustment ("GSA") known as the "E-Factor". Have any parties taken issue with that proposal?

A. Yes. OCA witness Ogur recommends that PECO adjust residential default service rates on a semi-annual instead of quarterly basis. In addition, Dr. Ogur supports semi-annual reconciliation of the GSA E-Factor for residential default service customers, but recommends that PECO collect or refund the net overcollection or undercollection balance from each reconciliation period over a prospective twelve-month period, with a two-month lag, instead of a six-month period. Dr. Ogur argues that his proposal will provide additional stability and certainty for residential default service customers and reduce administrative costs associated with GSA filings.

5. Q. Does the Company oppose Dr. Ogur's proposal to adjust default service rates for the Residential procurement class on a semi-annual instead of quarterly basis?

A. Yes. While a semi-annual schedule may offer less administrative complexity as Dr. Ogur notes, using a three-month default supply price projection period provides additional opportunities for PECO to update forecasted procurement costs and usage data. This projection, combined with PECO's Transmission Service Charge, forms the basis of the Price-to-Compare ("PTC") that customers may use to evaluate competitive generation service offerings by electric generation suppliers ("EGSs"). In addition, GSA over/under collections may accumulate to a greater extent using a six-month GSA projection period if generation costs unexpectedly increase or decrease during the interim between price changes. Quarterly changes to the PTC allow for more incremental adjustments consistent with the ratemaking principle of gradualism and to insulate customers from potential larger rate changes. In short, PECO believes that its current approach appropriately balances the responsiveness of the PTC to current market conditions and fluctuations caused by billing lag.

6. Q. Does PECO agree with Dr. Ogur's recommendation to use a twelve-month amortization period for the reconciliation of over/under collections for the Company's residential GSA rate?

A. No. In the Company's second default service proceeding, the Pennsylvania Public Utility Commission (the "Commission") rejected PECO's proposal to

reconcile GSA overcollections and undercollections on an annual basis, citing concerns about the clarity of price signals from the PTC of which the GSA is a component, and underlying wholesale supply costs.[1] The Commission also denied PECO's proposed annual reconciliation as part of the Company's Customer Assistance Program ("CAP") shopping plan proposed in 2013, observing: "[W]e are not inclined to exacerbate the effect that the reconciliation of the GSA has on the sensitivity of the PTC by extending the reconciliation period to a full year."[2]

In light of these decisions, the Company proposed to recover or refund the net balances of GSA revenues minus costs over a six-month period for all default service procurement classes in PECO's last three default service proceedings. In its final Orders issued in those proceedings, the Commission concluded that this semi-annual reconciliation would be beneficial to customers.[3] PECO believes that its proposed six-month reconciliation period continues to benefit customers and appropriately balances the Company's goal of mitigating volatility with the Commission's concern about maintaining the PTC as a price signal for customers and EGSs. In addition, Dr. Ogur has not

2 *See Petition of PECO Energy Co. For Approval of Its Default Serv. Program II*, Docket No. P-2012-2283641 (Order entered Jan. 24, 2014) ("*2014 CAP Shopping Order*"), p. 45.

3 *See Petition of PECO Energy Co. For Approval of Its Default Serv. Program for the Period From June 1, 2015 through May 31, 2017*, Docket No. P-2014-2409362 (Opinion and Order entered Dec. 4, 2014), p. 25; *Petition of PECO Energy Co. For Approval of Its Default Serv. Program for the Period From June 1, 2017 through May 31, 2021*, Docket No. P-2016-2534980 (Opinion and Order entered Dec. 8, 2016), p. 35; *Petition of PECO Energy Co. for Approval of Its Default Service Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019290 (Opinion and Order entered Dec. 3, 2020) ("DSP V Order"), p. 16.

provided any analysis or other evidence supporting his conclusion that semi-reconciliation (with twelve-month refund/recovery periods) could provide more stable rates.[4] As Dr. Ogur observes in his direct testimony, PECO's GSA E-Factor has comprised only about 3-4% of the residential PTC, and he does not suggest that greater adoption of TOU rates and/or the use of a reserve price in PECO's residential procurements would necessarily lead to higher over/under collections. Moreover, as Dr. Ogur acknowledges, his proposal would require a transition plan with associated administrative costs.

III. TIME-OF-USE RATE OPTIONS

7. Q. Please describe and respond to the recommendations related to customer eligibility for PECO's TOU rates proposed by TURN/CAUSE-PA.

A. CAUSE-PA witness Marx supports the exclusion of CAP customers from PECO's TOU Rates, but proposes additional protections for all low-income customers. Specifically, Ms. Marx proposes that PECO conduct affirmative outreach to confirmed low-income ("CLI") customers enrolled in TOU rates whose generation costs are exceeding the applicable PTC. As part of such outreach, Ms. Marx recommends that PECO encourage those households to return to standard, non-time varying default service and enroll in available universal service programs. Additionally, Ms. Marx urges PECO to include the following language, as the first TOU prompt in its call center scripts:

> If your household is having trouble affording your electricity, PECO has low income assistance programs

[4] A copy of the OCA's response to Interrogatory PECO (OCA) II-4 is attached to my rebuttal testimony as exhibit MAM-1R.

> that may be able to assist you. Would you like more information about assistance programs?

PECO recognizes TURN/CAUSE-PA's concern regarding the potential impact of PECO's TOU rates on vulnerable customers who may not have the ability to shift their electric usage throughout the day. PECO does not agree, however, that the Company should influence a customer's decision on whether to enroll in PECO's CAP with standard non-TOU default service rates, participate in PECO's TOU rates, or shop with a competitive supplier. In addition, CLI customer participation in the PECO's TOU rates is small, and PECO already provides information on a weekly and monthly basis to help residential customers make an informed decision regarding whether to stay or leave the TOU rate, which they are free to do at any time. The customized CLI outreach that Ms. Marx recommends is not warranted at this time.

In addition, Ms. Marx's recommended addition of a TOU prompt in PECO's call center scripts that asks customers if they are having trouble paying bills and would like to hear about universal service programs should not be adopted at this time. Asking about ability to pay immediately after a customer asks about TOU rates could lead to customer confusion, especially if the customer is not income-eligible for PECO's CAP or other universal service programs. However, in order to address the concern identified by Ms. Marx, the Company will add the following disclosure to PECO's TOU webpage in the "Is Time-of-Use Pricing right for me?" section:

> If you are having trouble affording your electricity bill, PECO offers programs and services to help those in

need. Contact PECO at 1-800-494-4000 for more information and to apply.

8. Q. Do you believe PECO must perform an analysis for its next default service program ("DSP VII") to determine the potential bill impacts and peak load reductions under the Company's TOU rate options compared to other TOU rate designs, as the OCA suggests?

A. No. PECO's current and proposed TOU rate design incorporates the Commission's guidance on electric distribution company ("EDC") TOU rate structures to satisfy requirements under Act 129 of 2008[5] and balances a variety of objectives, including simplicity, user friendliness, and aligning TOU rates with market price signals. I note that the Commission approved the current voluntary TOU default service rates for PECO and the FirstEnergy EDCs without requiring the evaluation that Dr. Ogur and Ms. Alexander propose.[6]

9. Q. Does Dr. Ogur criticize other aspects of PECO's TOU rate design?

A. Yes. Dr. Ogur raises concerns with the lack of seasonal variation in the Company's proposed TOU rate design. Dr. Ogur claims that PECO should consider allocating all capacity costs to the summer peak period, consistent with cost causation principles, and varying the TOU pricing periods

---

[5] *See Petition of PPL Elec. Utils. Corp. for Approval of a New Pilot Time-of-Use Program*, Docket Nos. P-2013-2389572 and M-2016-2578051 (Secretarial Letter issued Apr. 6, 2017).

[6] *See Petition of PECO Energy Co. for Approval of Its Default Service Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019290 (Recommended Decision issued Oct. 20, 2020 and adopted DSP V Order) p. 82; *Petition of Metro. Edison Co. et al. for Approval of Its Default Service Plan for the Period from June 1, 2023 through May 31, 2027*, Docket Nos. P-2021-3030012 et al. (Recommended Decision issued June 29, 2022 and adopted by Order entered Aug. 4, 2022), p. 71.

throughout the year to align with peak load periods in summer and winter periods. However, he does not offer any specific proposals as to how PECO's proposed TOU rate design should be modified at this time, but instead argues that the Company must perform additional analyses on alternative multipliers and report its findings in the DSP VII filing. As discussed above, PECO does not believe additional analyses are necessary.

10. Q. Please respond to Ms. Alexander's recommendation that the Commission direct the Company to explore incentive and reward pilot programs, such as a peak time rebate.

A. PECO, as well as other EDCs in Pennsylvania, have an unconditional statutory obligation to offer TOU rate options to eligible default service customers under Section 2807(f)(5) of the Pennsylvania Public Utility Code. A peak time rebate, such as programs offered by Maryland utilities mentioned by Ms. Alexander, pays customers to reduce usage during a handful of load reduction event days annually. PECO does not believe it is appropriate to consider offering peak time rebates in addition to or in lieu of its TOU rates until the Commission determines that a rebate may be incorporated in a TOU rate for purposes of Section 2807(f)(5). Further, while PECO recognizes that its proposed TOU offerings are relatively basic and simple by design, the Company's expectation is that the retail market is the more appropriate place for customers to secure more sophisticated or alternative price offerings that may be more closely tailored to individual customer needs.

IV. CONCLUSION

11. Q. Does this conclude your rebuttal testimony?

A. Yes.

EXHIBIT MAM-1R

Pa. P.U.C. v. PECO Energy Company – Electric Division
Docket Nos. P-2024-3046008
Interrogatories of PECO Energy Company
Set II to OCA

PECO-OCA-II-4. Reference OCA Statement No. 1, p. 30, lines 10-23. Has Dr. Ogur conducted any analysis of the residential default service over/undercollection balances using a twelve-month rolling average reconciliation schedule in comparison to the over/undercollection balances using a six-month reconciliation schedule? If so, please provide all such analyses with all associated workpapers (with formulas intact), electronic files (with formulas intact), assumptions and calculations.

Response:

No such quantitative analysis was conducted.

IV. CONCLUSION 43

DIRECT TESTIMONY
OF
SCOTT G. FISHER

I. INTRODUCTION AND PURPOSE OF TESTIMONY

1. Q. Please state your full name and business address.

A. My name is Scott G. Fisher. My business address is 30 Monument Square, Suite 105, Concord, Massachusetts 01742.

2. Q. What is your current position?

A. I am a Partner with The NorthBridge Group ("NorthBridge"), an economic and strategic consulting firm serving the electric and natural gas industries.

3. Q. On whose behalf are you submitting testimony?

A. I am submitting direct testimony on behalf of PECO Energy Company ("PECO").

4. Q. Please summarize your professional and academic background.

A. Since joining NorthBridge in 1998, I have advised companies in the electric industry on decisions related to risk management, asset valuation and portfolio management, product pricing, contract negotiations, regulatory affairs, supply procurement, rate design, emerging technologies, public policy formulation and negotiations, and overall corporate strategy. I also have served as an expert witness on several of these topics, particularly with respect to default service supply procurement and ratemaking, in state public utility commission proceedings. Before joining NorthBridge, I was a consultant at Strategic Decisions Group, a management consulting firm serving a variety of industries. I received an A.B. from Dartmouth

College and a B.E. from the Thayer School of Engineering at Dartmouth College, with high honors. In addition, I received an M.S. in Engineering-Economic Systems from Stanford University and an M.B.A. from the Tuck School of Business at Dartmouth College, with high honors. I also serve as a guest lecturer at the Tuck School of Business on energy industry matters.

5. Q. Have you testified previously before this Commission?

A. Yes, I testified in Docket No. P-2008-2062739, Petition of PECO Energy Company for Approval of its Default Service Program and Rate Mitigation Plan ("DSP I"),[1] Docket No. P-2012-2283641, Petition of PECO Energy Company for Approval of its Default Service Program ("DSP II"),[2] Docket No. P-2014-2409362, Petition of PECO Energy Company for Approval of its Default Service Program for the Period from June 1, 2015 through May 31, 2017 ("DSP III"),[3] Docket No. P-2016-2534980, Petition of PECO Energy Company for Approval of its Default Service Program for the Period from June 1, 2017 through May 31, 2021 ("DSP IV"),[4] and Docket No. P-P-2020-3019290, Petition of PECO Energy Company for Approval of its Default Service Program for the Period from June 1, 2021 through May 31, 2025 ("DSP V").[5]

---

[2] See Petition of PECO Energy Company for Approval of Its Default Service Program II, Docket No. P-2012-2283641 (Order entered Oct. 12, 2012) ("DSP II Order").

[3] See Petition of PECO Energy Company for Approval of Its Default Service Program for the Period from June 1, 2015 through May 31, 2017, Docket No. P-2014-2409362 (Order entered Dec. 4, 2014) ("DSP III Order").

[4] See Petition of PECO Energy Company for Approval of Its Default Service Program for the Period from June 1, 2017 through May 31, 2021, Docket No. P-2016-2534980 (Order entered Dec. 8, 2016) ("DSP IV Order").

[5] See Petition of PECO Energy Company for Approval of Its Default Service Program for the Period from June 1, 2021 through May 31, 2025, Docket No. P-2020-3019290 (Order entered Dec. 3, 2020) ("DSP V Order").

I also testified in Docket No. P-2012-2301664, Petition of Duquesne Light Company for Approval of a Default Service Program and Procurement Plan for the Period from June 1, 2013 through May 31, 2015,[6] and Docket No. P-2020-3019522, Petition of Duquesne Light Company for Approval of its Default Service Plan for the Period from June 1, 2021 through May 31, 2025.[7]

6. Q. What is the purpose of your direct testimony?

A. The purpose of my direct testimony is to evaluate PECO's proposed default service plan (the "Default Service Plan" or "Plan" or "DSP VI") to procure supply for default service customers for the period beginning June 1, 2025, and ending May 31, 2029. My testimony is divided into two parts. First, I briefly review PECO's first five default service plans, DSP I, DSP II, DSP III, DSP IV, and DSP V, and I identify several lessons learned. This discussion includes an analysis of the "residual compensation" incorporated in the prices of the residential full requirements contracts procured by PECO in accordance with these plans. Second, I evaluate PECO's DSP VI with respect to Act 129's (the "Act's") requirement that the plan include a "prudent mix" of contracts designed to ensure the least cost to customers over time.[8]

7. Q. Please summarize your conclusions.

A. First, regarding the lessons learned from PECO's earlier DSP plans (DSP I, DSP II,

---

[6] See Petition of Duquesne Light Company for Approval of a Default Service Program and Procurement Plan for the Period from June 1, 2013 through May 31, 2015, Docket No. P-2012-2301664 (Order entered Jan. 25, 2013).

[7] See Petition of Duquesne Light Company for Approval of Its Default Service Plan for the Period from June 1, 2021 through May 31, 2025, Docket No. P-2020-3019522 (Order entered Jan. 14, 2021).

[8] 66 Pa.C.S. § 2807(e)(3.4).

DSP III, DSP IV, and DSP V), I conclude the following:

- The participation by multiple suppliers in PECO's open solicitations for fixed-price full requirements ("FPFR") default service supply products, combined with my quantitative analysis of the results of these solicitations, indicate that the resulting contract prices obtained by PECO have been consistent with underlying market conditions.

- The mix of one-year and two-year FPFR products in PECO's residential default service supply portfolio, and the semi-annual overlapping of their delivery periods, provide price stability benefits for residential customers.

- The basic default service model used by PECO has supported the competitive retail electricity market. In fact, 98 alternative electric generation suppliers ("EGSs" or "competitive retail suppliers") currently serve PECO customers, which is roughly triple the number since the DSP I period began.[9]

Second, regarding PECO's proposed DSP VI, I conclude the following:

- DSP VI incorporates a prudent mix of contracts designed to ensure least cost to customers over time, taking into account the benefits of price stability, and includes prudent steps necessary to obtain least cost generation supply contracts on a long-term, short-term and spot market

[9] Source: PECO. Data is for the month starting November 1, 2023.

basis, as required by Section 2807(e)(3.4) and Section 2807(e)(3.7) of the Act.[10]

- PECO's Default Service Plan is designed to support the competitive retail electricity market in PECO's service area while providing price stability benefits for small customers.

Each of these findings is discussed further below.

II. REVIEW OF EARLIER DSPS AND THE LESSONS LEARNED

8. Q. Please provide a brief overview of the mix of products procured under DSP I, DSP II, DSP III, and DSP IV.

A. Under PECO's DSP I, a unique and tailored portfolio of supply products was procured for each of four different customer classes at different points in time. The portfolio consisted of a mix of one-year and two-year FPFR products and varying levels of spot-priced purchases by customer class.[11] Twenty-five percent of the Residential class portfolio was served through a "block-and-spot" approach in which PECO made forward purchases of energy blocks (of one-year, two-year, five-year, and seasonal delivery periods that were targeted to supply 20% of Residential default

[10] In PECO Energy Statement No. 1, PECO witness Sulma Dalessio provides the details regarding PECO's proposal to solicit long-term contracts for a portion of the solar alternative energy credits ("AECs") required for compliance with Pennsylvania's Alternative Energy Portfolio Standards ("AEPS") Act, and accordingly she addresses how this specific aspect of DSP V is consistent with the Act's requirement that the plan include a "prudent mix" of contracts designed to ensure the least cost to customers over time.

[11] Some of the initial delivery periods of the full requirements supply products procured in DSP I included an extra five months (from January 1, 2011 to May 31, 2011) to align the delivery periods of subsequent products with the commencement of the annual planning period of PJM Interconnection, L.L.C. ("PJM"), the regional transmission organization in which PECO participates.

service load[12]), and the spot market transactions were made to cover the mismatches between the fixed quantities of block energy supply purchased and the 25% portion of the actual hourly load requirement.

Under DSP II, PECO began to phase out the block-and-spot aspect of the supply portfolio for the Residential class and replace these products with FPFR products. For smaller customers, DSP II also included more frequent replacements of the supply products, as supply product delivery periods were timed to expire every six months rather than every year. Finally, DSP II involved generally shorter product delivery periods and shorter times between product procurement and the start of delivery.

PECO's DSP III continued the basic procurement strategy that was established in DSP II, with a few changes. For the Medium Commercial class, PECO transitioned the supply portfolio from six-month FPFR products to hourly priced default service. The supply portfolio for the Residential class continued the procurement design established in DSP II consisting of 40% one-year FPFR products and 60% two-year FPFR products, with delivery periods that overlap on a semi-annual basis. During the DSP III period, approximately 96% of the supply portfolio transitioned to this product arrangement. By the end of the DSP III period, the remaining 4% of the overall default service supply portfolio for the Residential class consisted of a mix of 17-

[12] Unlike full requirements products, deliveries under block products do not scale with changes in default service load, so the percentages of default service load served by the block products often deviated from the targeted percentage.

month FPFR products (approximately 3% of Residential default service load) and spot purchases (approximately 1% of Residential default service load) directly from the energy markets operated by PJM.

Under DSP IV, PECO consolidated the Medium Commercial class (peak demands 100 kW to 500 kW) and the Large Commercial and Industrial class (peak demands greater than 500 kW) into a Consolidated Large Commercial and Industrial class consisting of customers with peak demands that are equal to or greater than 100 kW. These customers continued to receive default service based on spot market prices. For the Small Commercial class, PECO transitioned from the previous supply portfolio composed entirely of one-year FPFR products to a supply portfolio consisting of 50% one-year FPFR products and 50% two-year FPFR products, and it continued the practice for this class of overlapping delivery periods on a semi-annual basis. The supply portfolio for the Residential class continued the basic procurement design established in DSP III.

9. Q. Please provide a brief overview of the mix of products procured under DSP V.

A. PECO's DSP V, the plan currently in effect, continues the basic procurement strategy that was established in DSP IV, which includes procurement of a prudent mix of products from competitive wholesale suppliers and has supported retail market competition.

- Customers in the Consolidated Large Commercial and Industrial class (peak demands equal to or greater than 100 kW) continue to receive

default service based on spot market prices. In PECO's service area, 93% of the Consolidated Large Commercial and Industrial load has switched to service from competitive retail suppliers.[13] As such, this customer class does not rely on having price stability in its default service rates, so the continuance of default service based on spot market prices is reasonable for it.

- The Small Commercial Class load continues to be supplied by a supply portfolio consisting of 50% one-year FPFR products and 50% two-year FPFR products, with overlapping delivery periods on a semi-annual basis. Each of the FPFR default service supply products for the Small Commercial class is procured approximately two months before delivery of the product begins.

- The supply portfolio for the Residential class continues the basic procurement design established previously, in which 96% of the supply consists of a mix of 40% one-year FPFR products and 60% two-year FPFR products, with delivery periods that overlap on a semi-annual basis. The remaining 4% of the overall default service supply portfolio for the Residential class consists of two tranches (each supplying 1.6% of the Residential class default service load) of two-year FPFR products, and the

[13] Source: PECO. Data is for the month starting November 1, 2023. The figure includes customers who will be switched to EGSs within 45 days. Percentage of load is based on kW.

remaining sliver of the supply need is satisfied through spot purchases.[14] Each of the FPFR default service supply products for the Residential class is procured approximately two months before delivery of the product begins.

The following exhibit provides a summary of the DSP V portfolio for each customer class:

DSP V

Residential	Small Commercial	Consolidated Large Commercial and Industrial

• 96% of the load is supplied by a mix of products in the following proportions:
  ○ 40% 1-year FPFR products with delivery periods that overlap on a semi-annual basis
  ○ 60% 2-year FPFR products with delivery periods that overlap on a semi-annual basis
• The other 4% of the load is supplied by two tranches of 2-year FPFR products (approximately 3% of the supply) and spot purchases (approximately 1% of the supply)
• All products are procured approximately two months before delivery of the product begins
	Supplied by a mix of:
	  ○ 50% 1-year FPFR products
	  ○ 50% 2-year FPFR products
	• Delivery periods overlap on a semi-annual basis
	• All products are procured approximately two months before delivery of the product begins
		• 100% spot-priced full requirements products with 1-year delivery periods
		• All products are procured approximately two months before delivery of the product begins

[14] Including these two tranches of two-year FPFR products, the total default service supply portfolio for the Residential class consists of 38 tranches of two-year FPFR products (supplying approximately 61% of the load), 24 tranches of one-year FPFR products (supplying approximately 38% of the load), and a small portion of spot purchases.

10. Q. Mr. Fisher, you have testified that the majority of default service supply for the Residential and Small Commercial classes was procured in the form of FPFR products in DSP I, DSP II, DSP III, DSP IV, and DSP V. Please describe the characteristics of an FPFR product.

A. An FPFR default service supply product obligates the seller of the product to satisfy a specified percentage of all of the default service customers' supply requirements in every hour of the delivery period, regardless of the default service customers' instantaneous changes in energy consumption, regardless of how frequently customers switch to or from default service, and regardless of how the seller's cost to satisfy its supply obligation may change. The seller is paid a predetermined price per megawatt-hour for this service. The full requirements products that PECO has procured under DSP I, DSP II, DSP III, DSP IV, and DSP V include the generation components required to supply PECO's default service customers, including energy, capacity, and ancillary services, as well as AECs required for AEPS compliance. In PECO's solicitations for FPFR products, qualified bidders compete with one another by submitting the prices at which they are willing to provide the full requirements default service supply, and the bids of the suppliers with the lowest prices are then submitted for review and approval of the procurement by the Pennsylvania Public Utility Commission (the "Commission").

11. Q. Have PECO's solicitations for FPFR supply products attracted many qualified suppliers?

A. Yes. Between 6 and 13 suppliers participated in each of the FPFR product

solicitations in DSP I, DSP II, DSP III, DSP IV, and DSP V.[15] Furthermore, the Commission has approved the bid results for approximately 99% of the FPFR default service supply product tranches that have been solicited to date.[16] These facts indicate that many suppliers understand the products being solicited and are willing to compete to provide those products. This is beneficial for customers and helps to ensure that the winning prices are the lowest possible for the products being solicited. When bidders are faced with a high likelihood that other bidders are also competing based on price for the same product, they have the incentive to submit their lowest possible price in order to avoid being underpriced by another bidder.

12. Q. Do the bidders in FPFR product solicitations require compensation in the prices that they offer to help them cover the associated costs and risks of their obligation, to the benefit of customers?

A. Yes. As in any market, participants require compensation for the costs and risks that they bear by providing a product.

[15] Sources: PECO Energy Statement No. 4 (Direct Testimony of Katie Orlandi); PECO Statement No. 4 (Direct Testimony of Scott G. Fisher), *Petition of PECO Energy Company for Approval of Its Default Service Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019290 (filed Mar. 13, 2020). Participation in this context involves at least completing the steps required to be qualified to submit bids.

[16] Source: http://www.pecoprocurement.com/index.cfm?s=background&p=previousResults. To date, 981 FPFR default service supply product tranches have been solicited by PECO. The Commission has approved the bid results for all but seven of these tranches.

13. Q. Have you performed a quantitative analysis of the results of PECO's historical solicitations for FPFR default service supply products, to better understand the compensation that is required by suppliers?

A. Yes. I have performed an analysis of the residential supply product pricing for all solicitations held during roughly the past ten years.[17]

14. Q. What was the basic approach that you adopted in your analysis?

A. For each of the FPFR product solicitations that PECO completed, I calculated the values of the individual cost components that can be quantified in a fairly simple way, and I deducted them from the winning bid prices to determine the difference (i.e., the "residual compensation") required by suppliers to cover the other costs and risks that I did not individually quantify. I then determined whether the resulting contract prices obtained by PECO are consistent with underlying market conditions. To do this, I examined the values of the cost components (including the residual compensation) and the winning bid prices, recognizing that FPFR product suppliers bear risks to the benefit of customers.

15. Q. Please identify the cost components of full requirements service that you individually quantified.

A. For each solicitation, I used market price information and load data available at the time of the solicitation to quantify cost components related to energy (including the

[17] Specifically, I have analyzed pricing of residential FPFR products procured in all of PECO's solicitations stretching back to the November 2012 solicitation, the first solicitation under DSP II, with bids due on December 18, 2012.

effect of load shape), capacity, ancillary services, and various credits.[18]

16. Q. How did you quantify each of these cost components?

A. For energy, I relied on forward block energy prices.[19] I then added a load shaping adjustment to account for the fact that market prices are generally higher during hours in which customer loads are higher.[20] The load shaping was performed using actual PECO hourly loads and prices.

For capacity, I applied PJM-published capacity prices to megawatt quantities of required capacity,[21] and I divided the products by the commensurate megawatt-hour loads to express capacity costs in terms of dollars per megawatt-hour. The capacity quantities were calculated based on the reported peak load contribution values for the appropriate classes of customers, and the corresponding megawatt-hour load values were calculated from publicly available load values as of the times of the

[18] For the March 2015 solicitation, I partially relied on capacity price outcomes after the solicitation had been held. At the time of the March 2015 solicitation, PJM had filed its Capacity Performance Proposal with the Federal Energy Regulatory Commission, and it was widely recognized that approval of this proposal would increase the costs of capacity for June 2016 and beyond. As such, for the March 2015 solicitation, the price used for capacity for deliveries starting in June 2016 and the corresponding Zonal UCAP Obligation are based on the actual results of the Capacity Performance Transition Incremental Auction, which incorporate the Capacity Performance Resources in PJM's Capacity Performance Proposal.

[19] Reported PJM Western Hub forward block energy prices, from NYMEX as reported by Hitachi Energy Velocity Suite, as available, and from NERA daily marks provided to PECO calculated on the basis of quotes from Amerex, NYMEX, TFS, and ICE, were used and a basis adjustment was applied. The basis adjustment was calculated based on historical market price data available as of the time of the respective solicitation.

[20] The calculation of this load shaping adjustment involved applying actual historical percentage differences between load-weighted hourly energy prices and straight-average hourly energy prices.

[21] In cases in which the delivery period of the FPFR product extended beyond the period for which a PJM Base Residual Auction for capacity had been held at the time of the solicitation, the PJM-published capacity price for the prior period (for which a capacity auction had cleared) was used for the period for which a PJM Base Residual Auction for capacity had not been held.

solicitations.

The other cost components that I individually quantified include ancillary services costs,[22] AECs,[23] Auction Revenue Rights ("ARR") credits,[24] and marginal loss credits.[25] These values tend to be much smaller than the cost of energy and capacity and, therefore, they have a much smaller effect on the results of my analysis.[26]

For each solicitation, I quantified these cost components and then deducted the resulting values from the winning bid price to determine how much was left over – the "residual compensation" for all other cost and risk items that were not individually quantified. The following illustrative exhibit graphically portrays this approach:

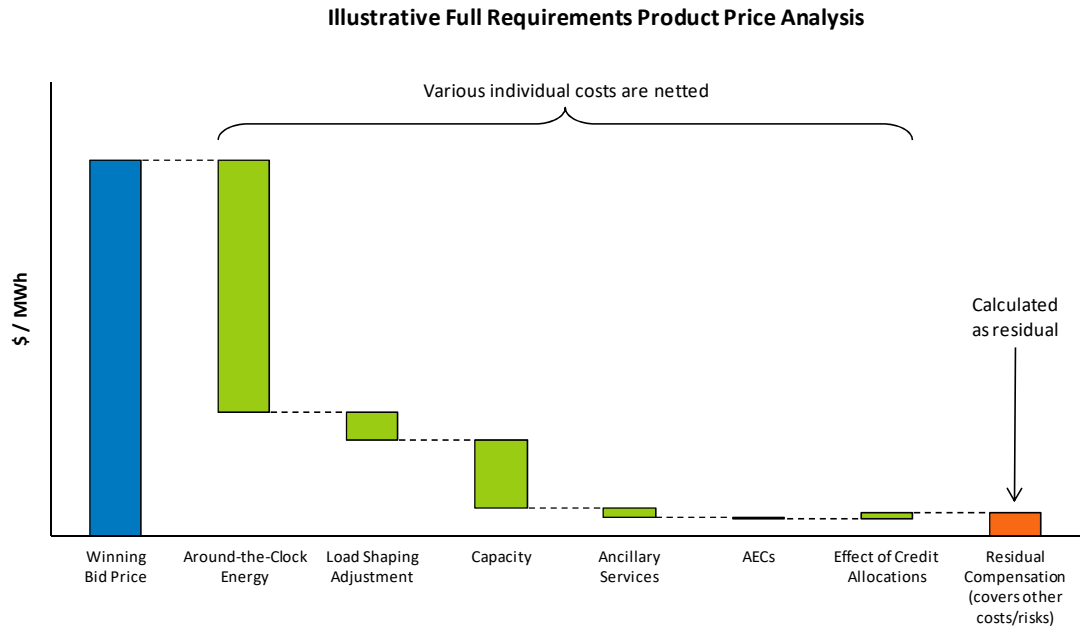
[22] The ancillary services costs that I used were based on PECO's historical ancillary services costs.

[23] The costs of AECs were calculated using AEC prices as of the time of the solicitation and the volume requirements of the winning suppliers.

[24] ARR credits were calculated by dividing zonal ARR credit allocations published by PJM by zonal loads calculated from PJM zonal load forecasts.

[25] Marginal loss credits were calculated using actual credit data provided by PJM.

[26] The values of both the ARR credits and the marginal loss credits were netted from the values of the other cost components that I calculated (i.e., these credit values effectively act as cost components with negative values), because a positive value for these credits equates to a positive dollar value allocated to the winning bidders in the solicitations.



17. Q. Do the residual compensation values that you calculated represent the "profit margins" for the winning bidders?

A. No, these residual compensation values do not represent the profit margins for winning bidders. While it is reasonable for winning bidders to expect some level of profit in order to assume the full requirements obligations, there clearly are costs and risks that were not quantified and deducted from the winning bid prices; suppliers require the residual compensation to cover these costs and risks. Therefore, the residual compensation that I calculated simply represents what is left over after deducting the values of cost components that I individually quantified. It does not represent the supplier profit margin.

18. Q. What are some of the other costs and risks that this "residual compensation" is intended to cover?

A. The residual compensation must cover a wide range of other costs and risks,

including:

- Usage and price uncertainty – various costs and risks due to unexpected events that affect usage and price levels.[27] Price uncertainty applies to energy, Alternative Energy Credits, and capacity, especially in cases in which PJM's Base Residual Auctions ("BRA") for capacity have not yet cleared for the full term of the default service supply product being solicited.

- Unexpected congestion – various costs and risks associated with the possibility that differences in prices between a given trading hub and the delivery location will be higher than expected values.

- Customer migration – the financial costs and risks associated with the uncertainty regarding customer switching and its effect on the default service volumes to be supplied.

- Adverse selection – the costs and risks associated with the likelihood that high cost-to-serve customers (e.g., with less attractive load shapes) will disproportionately remain on default service due to competitive retail suppliers' lack of interest in marketing to such customers.

[27] These include extreme weather patterns, changes in customer usage patterns, plant outages or transmission line outages (which also affect congestion costs), fuel price shocks, and unexpected economic growth levels. Furthermore, the general positive correlation between loads and prices (e.g., a heat wave drives up both prices and loads) compounds the potential costs associated with this uncertainty.

- Adverse developments in energy markets during the time a bid is held open – even for the short time during which the bids are evaluated and considered for approval by the applicable regulatory body.

- Potential changes in laws and regulations – such changes could impact supplier costs during the contract period.

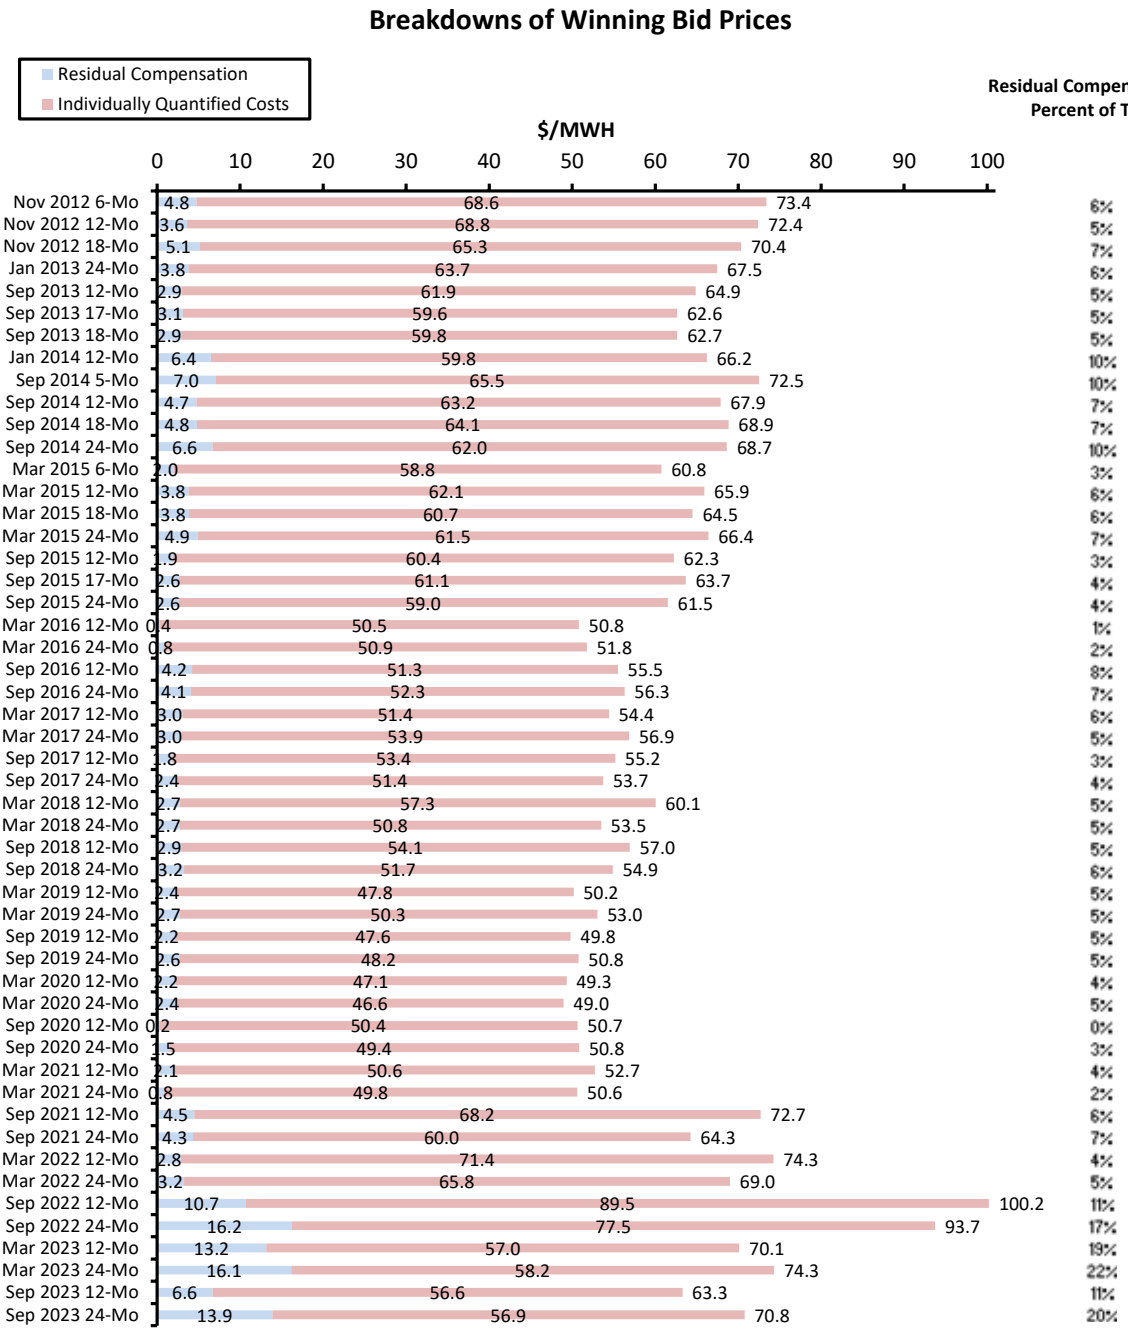
- Administrative and legal costs

- Credit-related costs (e.g., costs associated with posting collateral).

Again, my analysis does not include a quantification and deduction of these costs and risks from the winning bid prices. Therefore, winning bidders in the FPFR solicitations would need to cover these costs and risks in the residual compensation values that I calculated.

19. Q. Please provide the aggregate cost component values that you calculated, residual compensation values, and winning bid prices for the residential FPFR default service supply products solicited by PECO.

A. The following exhibit provides the tranche-weighted aggregate cost component values, residual compensation values, and winning bid prices for the residential FPFR default service supply products solicited by PECO the values for all the cost component values and the associated tranche-weighted winning bid prices.



20. Q. Have residual compensation values recently been higher than they were in past years?

A. Yes. As shown in the exhibit above, residual compensation values up to and

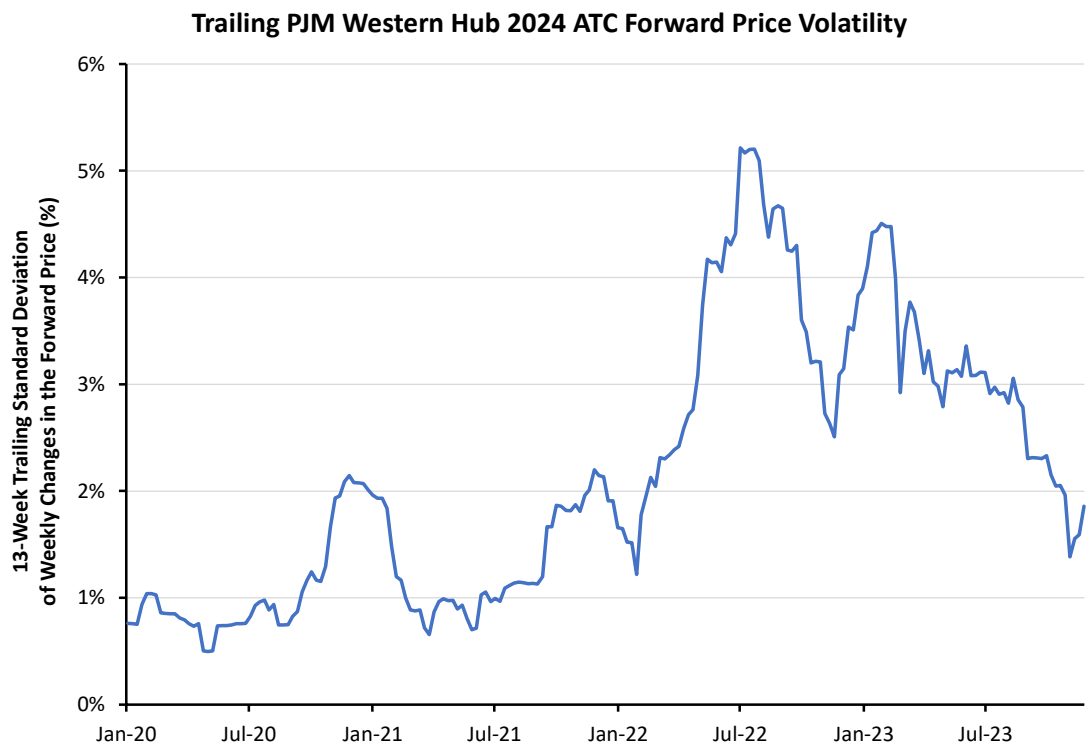
including the March 2022 solicitation were 10% or less of the associated average winning bid price. In contrast, the average residual compensation value across the last three solicitations (September 2022, March 2023, and September 2023) is 16% of the associated average winning bid price, although the residual compensation value for the 12-month product had decreased to 11% by the most recent solicitation.

21. Q. Are there reasons why PECO experienced higher residual compensation values in recent solicitations?

A. Yes, there are several reasons why PECO experienced higher residual compensation values in recent solicitations. These include, but may not be limited to, higher levels of underlying wholesale energy market volatility, greater variation in load-weighting gross-ups, higher financing costs, and capacity price uncertainty for portions of the delivery period of certain products in certain solicitations.

22. Q. Please describe the higher underlying wholesale energy market volatility, and how this translated into greater costs and risks that FPFR default service supply product suppliers bore to the benefit of customers.

A. Underlying wholesale energy market volatility has been higher in recent years than it was previously, as shown in the following exhibit.



Source: Mantis Innovation, derived from data at https://mantisinnovation.com/market-intelligence/market-update/.

This exhibit shows the trailing standard deviation (over the previous 13 weeks, or roughly three months) of weekly percentage changes in the forward price for around-the-clock ("ATC") calendar year 2024 energy delivery at PJM Western Hub over time. In other words, this exhibit indicates the variations in market price changes over time. As can be seen, starting in early 2022, forward price volatility increased to higher levels.

Multiple factors contributed to the increased market volatility during this period. Rapidly increasing American exports of liquified natural gas caused American natural gas prices, and therefore American electricity prices, to be more closely tied to

volatile global energy prices,[28] with the volatility exacerbated by Russia's February 2022 invasion of Ukraine.[29] Furthermore, shortages in coal supply limited utility operators' ability to switch to coal-fired generation in response to higher natural gas prices, further exposing American electricity prices to the increased volatility of the international natural gas market.[30] In addition, four extreme weather events in 2022 in the United States, two winter storms and two heat waves, caused major price spikes in regional wholesale electricity prices,[31] providing further evidence of the increasing frequency of significant climate events[32] and the potential energy price risk associated with this trend.[33]

The increased market volatility contributed to the costs and risks that FPFR default service product suppliers bore. First, it affected the level of exposure to which a bidder was subjected between the time that it submitted its bid and the time that it was informed whether its bid was selected. Second, the increased market volatility contributed to the cost exposure on the load that a default service supplier must supply but for which it is not hedged (due to actual loads varying from expectations, etc.), or commensurately to the cost borne by the supplier to purchase any such hedges. The FPFR product obligation requires suppliers to bear this cost exposure at

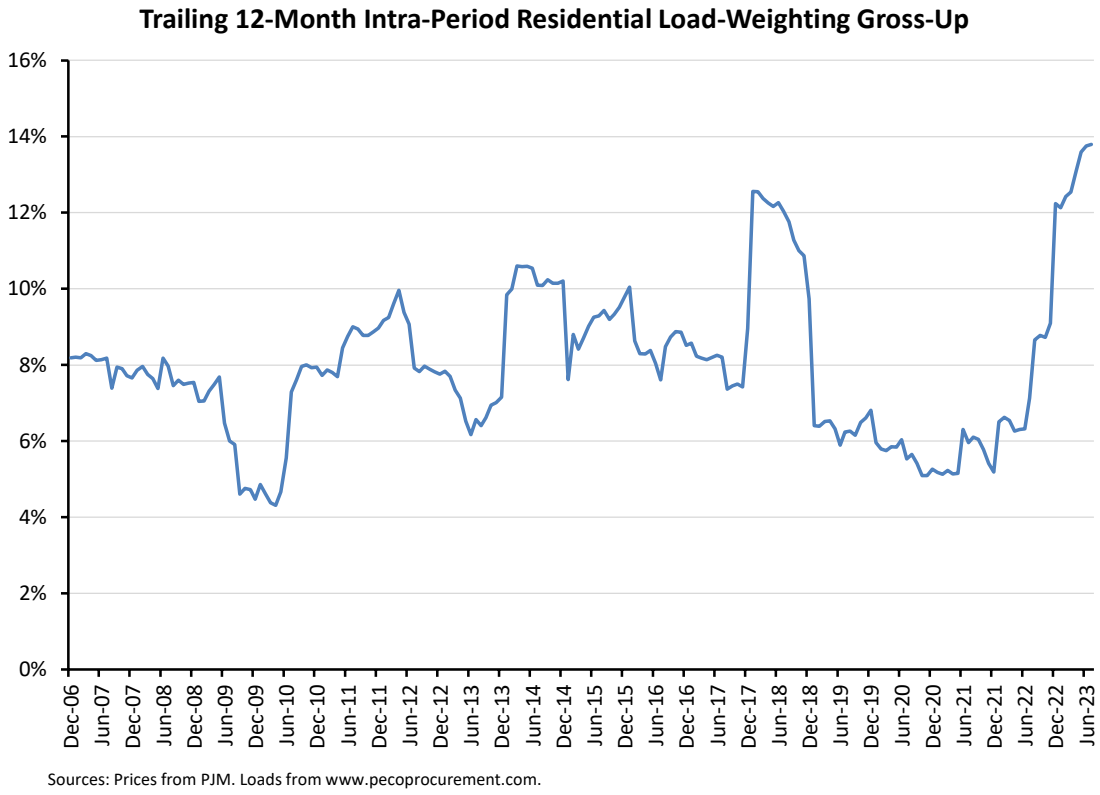
[33] https://www.sciencedirect.com/science/article/abs/pii/S0140988321002139.

a fixed price for customers, thereby protecting customers from this cost exposure. Third, the increased market volatility indicated a greater likelihood of prevailing market price levels moving away from more stable default service supply levels (which are based on a portfolio of supply products purchased at some time in the past). Variations can incentivize greater customer switching, which can result in expectedly high default service loads that must be served when prevailing market prices are high (because customers may tend to remain on, or switch back to, default service) and unexpectedly low default service loads to be served when prevailing market prices are low (because customers may tend to switch away from default service). Consequently, in more volatile markets, FPFR default service product suppliers are more likely to bear greater costs due to customers' options to switch away from default service when market price levels drop below default service rates, and back to default service when market price levels increase above default service rates.

23. Q. Please describe the greater variation in load-weighting gross-ups, and how this translated into greater costs and risks that FPFR default service supply product suppliers bore to the benefit of customers.

A. The load-weighting gross-up refers to the difference between the cost to supply a load that varies by hour and the cost to supply a constant amount over the same period. FPFR default service suppliers must supply uncertain loads that vary hourly. There are no commonly traded physical or financial products that default service suppliers can purchase to hedge load-weighting gross-ups within the periods of the standard

blocks (monthly on-peak and off-peak periods) traded in the wholesale markets (i.e., the intra-period load-weighting gross-ups). So, FPFR default service suppliers not only bear the cost of load-weighting gross-ups, but they also have fewer means of hedging the gross-ups while still guaranteeing a fixed price per megawatt-hour to the utility to the benefit of customers, per the terms of the FPFR obligation. The following exhibit shows the actual historical intra-period load-weighting gross-ups over time for PECO residential load on a trailing-year basis.[34]



Sources: Prices from PJM. Loads from www.pecoprocurement.com.

As the exhibit shows, 2022 and 2023 were characterized by an increase in the intra-

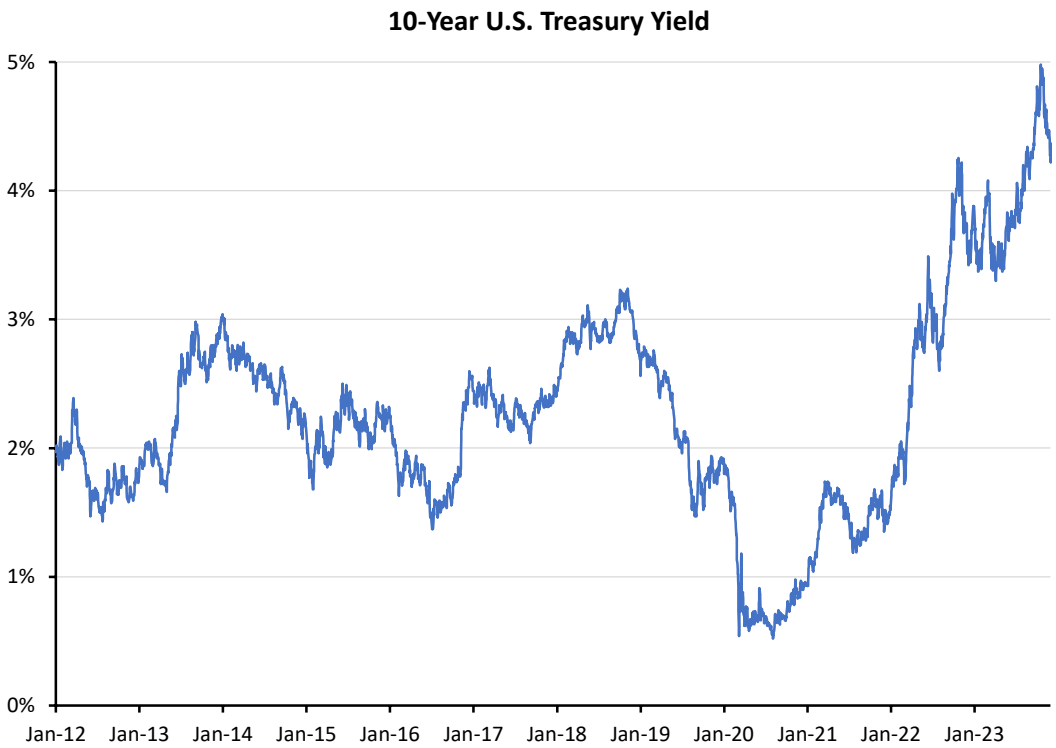
[34] The values shown represent the overall effect of the intra-period gross-ups over a 12-month period as a percentage of the straight average hourly energy price. The values are calculated using real-time PECO Zone energy prices and total residential derated hourly loads.

period load-weighting gross-ups to higher levels. Furthermore, this was the second large change in the intra-period load-weighting gross-ups in the past five years. It is reasonable to assume that bidders in the FPFR product solicitations considered the magnified risks (due to this higher level of uncertainty about load-weighting gross-ups) that they would bear and from which they would shield customers through their fixed-price obligation. Accordingly, it is also understandable that the residual compensation values they included in their bid prices reflected this risk.

24. Q. Please describe the higher financing costs, and how this translated into greater costs and risks that FPFR default service supply product suppliers bore to the benefit of customers.

A. Higher costs of financing contribute to the financial burdens that suppliers bear to fulfill their fixed-price default service supply obligations, to the benefit of customers. When FPFR product suppliers provide fixed pricing, they take on the risk of market movements and hence unexpected costs that customers would otherwise bear. Accordingly, the FPFR contract obligates FPFR product suppliers to satisfy requirements associated with the posting of collateral as an assurance that customers will be protected from these risks. The cost of financing obligations such as collateral requirements has increased since early 2022, as the following exhibit indicates.[35]

[35] https://www.macrotrends.net/2016/10-year-treasury-bond-rate-yield-chart.



Source: www.macrotrends.net

This exhibit depicts 10-year U.S. Treasury yields over time. Treasury yields represent the interest rates that the U.S. government pays to borrow money. Consequently, Treasury yields affect interest rates and financing costs throughout the economy. As shown in the exhibit, Treasury yields increased during the recent period of higher residual compensation values, indicating that higher financing costs contributed to the higher costs and risks that FPFR default service supply product suppliers expected to bear, and therefore to the higher residual compensation values in their bid prices.

25. Q. Please describe the capacity price uncertainty for portions of the delivery period of certain products in certain solicitations, and how this translated into greater costs and risks that FPFR default service supply product suppliers bore to the benefit of customers.

A. On the dates in which bids were due in some of PECO's FPFR product solicitations, the period over which PJM's BRAs for capacity had produced market clearing capacity prices did not fully cover the delivery period of the 24-month FPFR products solicited. This was the case for the September 2020, March 2021, September 2021, March 2022, September 2022, and September 2023 solicitations. This lack of capacity price transparency translated into additional capacity cost risk for the FPFR suppliers, who must fulfill their FPFR obligations at a fixed price per megawatt-hour. Consequently, it is likely that the FPFR product suppliers bid a higher price to bear and manage this risk on behalf of customers.

Furthermore, in some cases, there were significant risks that the BRA capacity market rules themselves would change before the BRA prices were known across the full delivery period of the FPFR product. For example, bidders for the 24-month FPFR products in the September 2023 solicitation did not know the BRA clearing prices for the full 24-month delivery period. In addition, for the portion of the delivery period for which a BRA had not been held, bidders were also subject to uncertainty about the capacity market reforms that PJM would propose (per an earlier FERC Order

allowing for BRA delays so that PJM could propose capacity market reforms[36]) and FERC's future decision on those proposed reforms. As a result, FPFR product suppliers faced even greater risks because the capacity market price uncertainty was compounded by uncertainty regarding the capacity market rules themselves and the impacts that the rule changes would have on capacity market clearing prices. This likely was a contributing factor to higher bid prices for the 24-month products.

In addition to the increased uncertainty associated with the uncertain capacity market reforms, bidders in the September 2023 solicitation for the 24-month FPFR product may have expected that capacity prices, and hence the costs associated with the FPFR product obligation, would increase due to the capacity market reforms. In approving the delay in the BRAs to accommodate the development of market reforms, FERC Commissioner James Danly stated that the market reforms should address certain aspects of the capacity market rules that may excessively mitigate the prices that capacity sellers could offer, such as restrictions on incorporating the cost of certain risks in capacity sellers' offered prices.[37] Correspondingly, one of PJM's proposed capacity market reforms filed on October 13, 2023, included changes to the capacity market rules to lift restrictions on the incorporation of the cost of risk in capacity sellers' offer prices.[38] While my residual compensation calculations are based on an

[36] *Order Accepting Tariff Revisions, Subject to Condition, and Granting Waiver Request*, Federal Energy Regulatory Commission Docket No. ER23-1609-000 (Order issued June 9, 2023), p. 15.

[37] Concurring Statement of Commissioner James Danly, *Order Accepting Tariff Revisions, Subject to Condition, and Granting Waiver Request*, Federal Energy Regulatory Commission Docket No. ER23-1609-000 (Order issued June 9, 2023).

[38] Proposed Enhancements to PJM's Capacity Market Rules - Market Seller Offer Cap, Performance Payment

assumption that the capacity price for a period for which the respective BRA has not yet been held is equal to the capacity price for the previous period, the likelihood that FPFR product bidders expected that capacity prices would be higher could also help explain the higher residual compensation values that I calculated.

26. Q. Have the contract prices (i.e., winning bid prices) obtained by PECO been consistent with underlying market conditions?

A. Yes. A few facts support this conclusion. First, the overall levels of the winning bid prices tracked the aggregate values of the underlying cost components that I individually quantified.[39] In fact, the correlation between the aggregate values of these underlying costs and the winning bid prices was very high, at 95% with an R-squared value of 91% across all residential products solicited since the November 2012 solicitation, and at 92% with an R-squared value of 85% across all residential supply products solicited in the DSP V solicitations. This indicates that supplier bid prices reflected underlying market conditions at the time of the solicitation.

Second, changes in market conditions explained why residual compensation values were higher in more recent solicitations. As I have described, these changes included higher levels of underlying wholesale energy market volatility, greater variation in load-weighting gross-ups, higher financing costs, and capacity price uncertainty for

Eligibility, and Forward Energy and Ancillary Service Revenues, PJM Interconnection, L.L.C., Federal Energy Regulatory Commission Docket No. ER24-98-000 (filed Oct. 13, 2023).

[39] The costs of these components in aggregate represent the bulk of the underlying costs of the supply obligation. These components include all components other than the residual compensation, which is calculated as a difference, as I described previously.

portions of the delivery period of certain products in certain solicitations. Furthermore, these changes introduced both greater costs and risks that FPFR product suppliers bore, and greater uncertainty about the magnitudes of the risks themselves. Accordingly, the price stability benefits that the FPFR products provided were especially valuable to customers given the extent of the uncertainty during the more recent solicitations, and it is not surprising that suppliers required higher residual compensation values in their FPFR product bids to protect customers from these risks.

Third, as I noted previously, there has been robust participation in the FPFR product solicitations. This indicates that the winning prices were the lowest possible for the products being solicited, given underlying market conditions and the associated costs and risks at the time of the solicitation.

27. Q. Does PECO's specific mix of one-year and two-year FPFR products in PECO's residential default service supply portfolio, and the semi-annual overlapping of their delivery periods, provide price stability benefits for residential customers?

A. Yes, having a majority of two-year FPFR products supplemented almost entirely by one-year FPFR products, all with semiannually overlapping delivery periods, provides price stability benefits for residential customers. PECO's portfolio of overlapping one-year and two-year products limits the percentage of supply that must be solicited or replaced at any given time or in any given short period, thereby reducing the likelihood of significant rate changes due to adverse circumstances or market conditions at any given time. For example, the January 2014 solicitation was

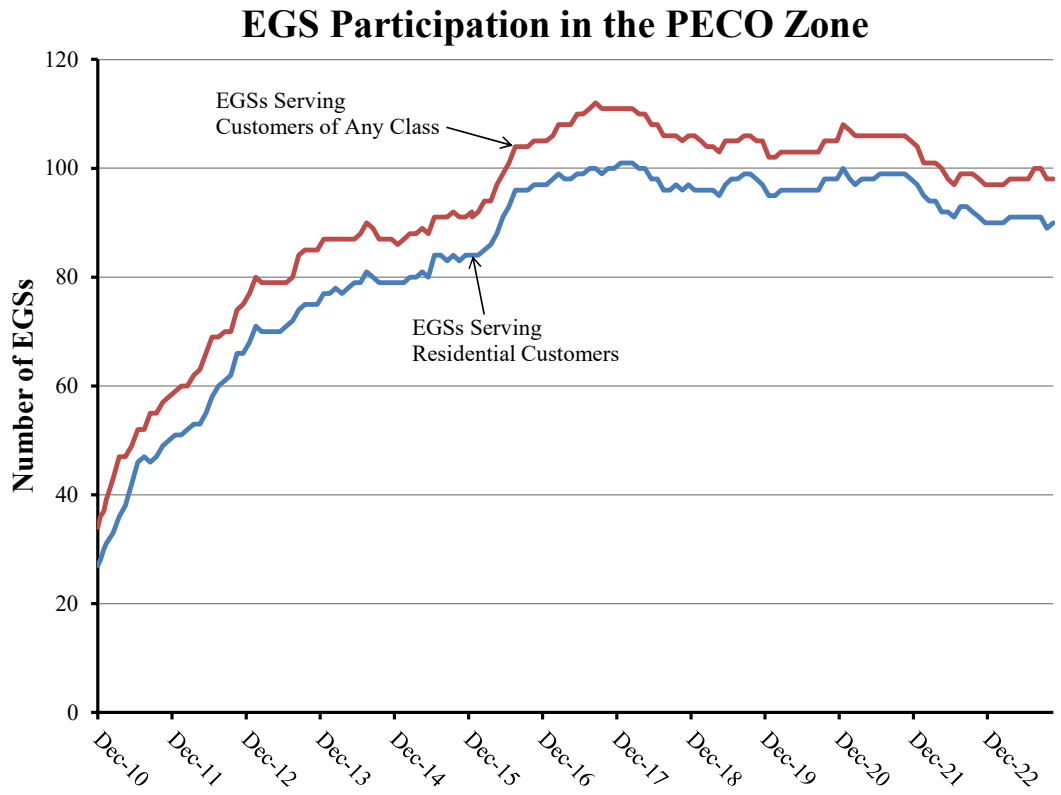
held at a time in which unprecedented short-term factors caused potential default service bidders to divert their attention and resources to urgent matters other than PECO's solicitation.[40] This resulted in higher residual compensation values and some tranches that were not procured. However, PECO's residential product mix and overlapping delivery periods restricted the amount of supply that needed to be solicited in that solicitation to only 27.2% of the overall residential default service supply requirement, thereby limiting the effect on customer rates of the adverse conditions.

28. Q. Has the basic default service model used by PECO supported the competitive retail electricity market?

A. Yes. In fact, since the DSP I period began, competitive retail market activity in PECO's service area has grown considerably. As the following exhibit shows, there has been substantial growth in the number of EGSs competing in PECO's service

[40] During the weeks leading up to PECO's January 2014 solicitation, the regional energy market was in the throes of a prolonged, record-breaking, cold spell. As a result, hourly wholesale energy market prices were very volatile during January 2014. It is likely that potential default service bidders needed to divert resources to urgent portfolio management issues precipitated by the extreme market conditions at the time of PECO's January 2014 default service supply solicitation, resulting in low bidder participation. In addition, in light of the urgencies caused by the weather-related turbulence in the markets, both PJM and the neighboring New York Independent System Operator, Inc. submitted filings shortly before bids in PECO's default service supply solicitation were due, intervenors were required to file their comments on these filings within one week after the filings were made, and numerous parties dedicated resources to developing and submitting comments in these proceedings in the short periods allotted. Furthermore, bids were due in multiple other default service supply solicitations on the same day or within one day of PECO's January 2014 solicitation's bid due date. Given the issues related to the market-related events that I have described, potential bidders may have had abnormally limited resources available to fully compete in multiple default service supply solicitations at that time, and some may have chosen to focus on solicitations other than PECO's. (PECO Energy Statement No. 3 (Direct Testimony of Scott G. Fisher) in Docket No. P-2014-2409362. *Petition of PECO Energy Co. for Approval of Its Default Serv. Program for the Period from June 1, 2015 through May 31, 2017*, pp. 18-21.)

area since the DSP I period began:[41]



The number of EGSs serving PECO customers has roughly tripled since the DSP I period began, as has the number of EGSs serving PECO residential customers. Currently, 98 EGSs serve PECO customers, and 90 of these EGSs currently serve PECO residential customers.[42] Furthermore, 52% of PECO's total customer load is currently being served by an EGS, with switching percentages equal to 22% for the Residential class, 50% for the Small Commercial class, and 93% for the Consolidated Large Commercial and Industrial class.[43] In contrast, as of October 1, 2010, only a

[41] Data provided by PECO.

[42] Source: PECO. Data is for the month starting November 1, 2023.

[43] Source: PECO. Data is for the month starting November 1, 2023. The figure includes customers who will be

few months before supply deliveries under DSP I began, only 1.7% of PECO's total customer load was being served by an EGS.[44]

Clearly, PECO's transition from long-term, capped default service rates to default service rates based on competitive market pricing for PECO's prudent mix of default service supply products has supported a competitive retail market in PECO's service area.[45]

III. EVALUATION OF PECO'S PROPOSED DSP VI

29. Q. Please summarize PECO's proposed plan for DSP VI.

A. PECO's proposed DSP VI will continue the basic procurement strategy that was established in DSP V, which includes procurement of a prudent mix of products from competitive wholesale suppliers and has supported retail market competition. The following exhibit provides a summary of the DSP VI portfolio for each customer class:

switched to EGSs within 45 days. Percentages of load are based on kW.

[44] Figure is "Percentage of Customers Load (MW) Served By An Alternative Supplier As Of 10/1/2010" as found in "Pennsylvania Electric Shopping Statistics – October 1, 2010" published by the PA Office of Consumer Advocate.

[45] The successful phase-out of the block-and-spot aspect of the supply portfolio and the greater reliance on FPFR products also has supported retail market development. Specifically, this has decreased the likelihood of material reconciliations between supply costs and retail revenues that can distort default service rates and reduce the transparency of future default service rates, which is important for customers to make informed supply decisions.

DSP VI

Residential	Small Commercial	Consolidated Large Commercial and Industrial

• 96% of the load is supplied by a mix of products in the following proportions:
  ○ 40% 1-year FPFR products with delivery periods that overlap on a semi-annual basis
  ○ 60% 2-year FPFR products with delivery periods that overlap on a semi-annual basis
• The other 4% of the load is supplied by two tranches of 2-year FPFR products (approximately 3% of the supply) and spot purchases (approximately 1% of the supply)
• All products are procured approximately two months before delivery of the product begins
	Supplied by a mix of:
	  ○ 50% 1-year FPFR products
	  ○ 50% 2-year FPFR products
	• Delivery periods overlap on a semi-annual basis
	• All products are procured approximately two months before delivery of the product begins
		• 100% spot-priced full requirements products with 1-year delivery periods
		• All products are procured approximately two months before delivery of the product begins

30. Q. Is PECO proposing any new mechanisms for DSP VI to further ensure that customers are provided with generation supply at the least cost as required by Act 129?

A. Yes, PECO is proposing two changes to further ensure least cost for customers.[46] First, as explained by PECO witness Katie Orlandi (PECO Energy Statement No. 4), PECO is proposing to incorporate a reserve price for each of the 12-month and 24-month products for the Residential class. As a part of this proposal, the Independent Evaluator will recommend that the Commission reject any lowest-priced bids for a residential product that cause the average bid price to exceed the reserve price.

[46] PECO witness Katie Orlandi (PECO Energy Statement No. 4) also addresses PECO's proposal to increase the load cap applicable to the Consolidated Large Commercial and Industrial Class to encourage greater participation in the solicitations for these products and hence achieve better prices for customers.

Incorporation of the reserve price will help ensure that customers will not pay FPFR product prices that exceed the level that they may be willing to pay for the benefits of FPFR products.[47] There is ample precedent for the incorporation of a reserve price in utilities' default service solicitations. In Pennsylvania, all the FirstEnergy Pennsylvania utilities[48] and Duquesne Light Company[49] incorporate reserve prices in their solicitations. Furthermore, the four major Maryland utilities[50] and some Ohio utilities[51] also incorporate reserve prices in their default service solicitations.

Second, as explained by PECO witness Orlandi, PECO is proposing implementation of a capacity price proxy and true-up mechanism. The purpose of this mechanism is to mitigate increases in FPFR product suppliers' bid prices due to uncertainty about capacity prices for portions of the FPFR product delivery period for which a capacity price from PJM's Reliability Pricing Model is not available at least five business days prior to the default service solicitation bid date.

[47] There are various reasons for which the Independent Evaluator could recommend rejection in addition to the reserve price, such as on the basis of competitive measures or if the RFP process was not conducted in accord with the process approved by the Commission.

31. Q. Mr. Fisher, the Act requires a default service plan to produce a prudent mix of contracts, and include prudent steps necessary to obtain least cost generation supply contracts on a long-term, short-term and spot market basis.[52] What guidance has the Commission provided in interpreting that standard?

A. On October 4, 2011, the Commission entered its Second Default Service Rulemaking Order, in which it provided guidance regarding interpretation of the terms "least cost" and "prudent mix" as follows:

> [T]he ["least cost"] standard must give the DSP sufficient latitude to select contracts that constitute a "prudent mix" which includes a sufficient variety of products that adequately take into consideration price volatility, changes in generation supply, customer usage characteristics and the need to assure safe and reliable service.[53]

> In implementing default service standards, the Commission must be concerned about rate stability as well as other considerations such as ensuring a "prudent mix" of supply and ensuring safe and reliable service. In our view, a default service plan that meets the "least cost over time" standard should not have, as its singular focus, the achievement of the absolute lowest cost over the default service plan time frame but rather a cost for power that is both relatively stable and also economical relative to other options.[54]

> Price stability benefits are very important to some customer groups, so an interpretation of "least cost" that mandates subjecting all default service customers to significant price volatility through general reliance on short term pricing is inconsistent with Act 129's objectives.[55]

> We agree with the majority of parties that the "prudent mix" of contracts be interpreted in a flexible fashion which allows the DSPs to design their

[53] *Default Serv. and Retail Elec. Mkts.*, Docket No. L-2009-2095604 (Order entered Oct. 4, 2011) ("Second Default Service Rulemaking Order"), p. 38.

[54] *Id.*, p. 40.

[55] *Id.*, p. 41.

own combination of products that meets the various obligations to achieve "least cost to customers over time," ensure price stability, and maintain adequate and reliable service.[56]

We do reject the positions of those parties that "prudent mix" be defined to always require a specific mix or percentage of types of contract components in each default service plan or a minimum of two types of products.[57]

32. Q. Do you believe that PECO's proposed DSP VI incorporates a prudent mix of contracts, and includes prudent steps necessary to obtain least cost generation supply contracts on a long-term, short-term and spot market basis, as required by Section 2807(e)(3.4) and Section 2807(e)(3.7) of the Act?

A. Yes, I do. There are several reasons for this conclusion:

1. The procurement process is designed to ensure the least cost to customers by requiring qualified bidders in the supply product solicitations to compete and be selected based on the lowest price. Furthermore, when FPFR products are solicited, default service customers are provided the benefits of competition on all aspects of the full requirements supply obligation, including the portfolio management function.[58] It is reasonable to assume that bidders in the FPFR product solicitations will consider the costs and risks associated with all forms of supply available to them to satisfy their fixed-price full requirements obligation, and will reflect in their bid prices the benefits of any

[56] *Id.*, p. 60.

[57] *Id.*

[58] FPFR product suppliers have the responsibility for continuously satisfying the uncertain and constantly changing supply requirements at the agreed-upon price, and therefore must manage the associated costs and risks through their supply portfolio decisions.

opportunity that they believe is the least cost supply opportunity.

2. PECO's Plan predominantly relies on FPFR default service supply products, which are well-tested in the marketplace. These products have been successfully procured by PECO in DSP I, DSP II, DSP III, DSP IV, and DSP V, and they are frequently procured by utilities in Pennsylvania and in other jurisdictions.[59]

3. As I have shown, the contract prices obtained by PECO for the types of products relied upon under the Plan have been consistent with underlying market conditions. This fact, combined with the robust participation in the FPFR product solicitations that I described previously, indicate that the winning prices were the lowest possible for the products being solicited, given underlying market conditions and the associated costs and risks at the time of the solicitation.

4. The Commission has recognized the benefits of reliance on full requirements products in a default service portfolio, as it stated in its Second Default Service Rulemaking Order:

> The [full requirements] process insulates default supply customers from the volatility associated with wholesale market conditions with the supplier bearing the risks of factors such as customer migration, weather, load variation and economic activity.[60]

[59] Examples of specific jurisdictions in which full requirements supply products are procured include Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Ohio, Pennsylvania, and Washington, D.C.

[60] Second Default Service Rulemaking Order, p. 54.

> We do express a preference for continued reliance by DSPs on the [full requirements] approach to the extent this method best suits the DSP's particular procurement needs.[61]

The seller of an FPFR product is responsible for assuming, managing, and covering the financial costs and risks associated with electricity supply, while customers are protected against adverse market and/or generation cost outcomes. Sellers of FPFR products must satisfy their obligation, regardless of how much market prices or generation costs may increase during the delivery period and regardless of the default service load level. Yet if market prices decrease after these types of supply contracts are signed, customers may elect service from a lower cost competitive retail supplier.

5. The incorporation of the reserve price mitigates the possibility that residential customers will pay FPFR product prices that exceed the level that they may be willing to pay for the benefits of FPFR products. This will further ensure that customers are provided generation supply at the least cost. Furthermore, if the Commission rejects any bids that would have been accepted if not for the reserve price, PECO's contingency plan will help ensure that the remaining load is filled in an appropriate manner.

6. PECO's Plan continues the use of a standard supply contract, which lets bidders know the terms and requirements of the default service supply obligation well in advance of the bid due date, and therefore allows qualified

[61] *Id.*, p. 56.

bidders to submit firm bid prices knowing that these contract terms and conditions will not change. The use of a standard contract also assures qualified bidders that the selection of the winning bidders will be an objective process. Consequently, the use of a standard contract encourages participation in the solicitations from a large number of potential suppliers.

7. PECO's Plan is also prudent because it includes tailored supply portfolios for different customer classes that take into account the benefits of price stability, the different shopping propensity of each customer class, and the desire to support the competitive retail market in PECO's service area.

33. Q. Has the Commission supported the use of a tailored supply portfolio for each customer class?

A. Yes. Specifically, in its Second Default Service Rulemaking Order, in its discussion of the "prudent mix" requirement under Act 129, the Commission stated:

> The Commission notes there was substantial unanimity on this point and agrees with the parties that the "prudent mix" standard should be interpreted to allow for a class-specific product mix that best matches the needs of each DSP customer class.[62]

34. Q. Does PECO's proposed DSP VI include a reasonable degree of flexibility to accommodate the possibility of future changes in the default service supply approach?

A. Yes. PECO's proposed DSP VI incorporates this flexibility in several ways. First, the default service supply product portfolio for the Consolidated Large Commercial

[62] *Id.*, p. 69.

and Industrial class does not include any supply products with delivery periods that extend beyond May 31, 2029, the end of the DSP VI period. As a result, the Commission can easily adopt a similar plan or a very different plan for the period starting June 1, 2029, without the need to face situations involving pre-existing default service supply products for this customer class with deliveries that extend beyond the DSP VI period.

Second, the first solicitation for Residential and Small Commercial supply products with delivery periods that extend beyond May 31, 2029 (the end of the DSP VI period) does not occur until September 2027. As a result, there is a significant amount of time before commitments to new supply products extending beyond the DSP VI period are made, should changes need to be made due to legislative or regulatory mandates. In the meantime, these solicitations remain scheduled because they allow for the option for a fairly seamless continuation of the laddered procurement cycle as PECO transitions from DSP VI to DSP VII,[63] and they avoid subjecting Residential and Small Commercial customers to a "hard stop" with regard to their supply products at the end of the DSP VI period. This is consistent with the approach approved by the Commission in DSP II, DSP III, DSP IV, and DSP V, and it helps to avoid the need to replace a large portion of default service supply in a short period at the end of the DSP VI period. Customers could be exposed to magnified

[63] In its Second Default Service Rulemaking Order, the Commission recognized the importance of "laddering" contracts in procuring default service supply. Specifically, the Commission stated, "We agree with those parties that utilizing such practices as laddering contracts, with varying procurement periods and contract durations over multiple procurements provide definite benefits in terms of minimizing the impacts of market volatility and decreasing customer risk." (*Id.,* pp. 62-63.)

risks and rate instability if a default service plan were to require that a large portion of the customers' default service supply must be procured in a short period.

Finally, PECO's proposed DSP VI provides flexibility because it relies on full requirements supply products. Full requirements products provide just enough supply to satisfy the actual load obligations, thereby mitigating the risk of being saddled with commitments to purchase supply that is not needed. This is especially valuable given ongoing uncertainty about future customer migration.

35. Q. Is PECO's Plan designed to support the competitive retail electricity market?

A. Yes. As in previous PECO default service plans, EGSs will compete against market-based default service rates, as the default service rates will be based on the prices for supply products obtained through competitive solicitations in which multiple bidders compete to sell the products solely based on price. In addition, the use of FPFR supply products for the Residential and Small Commercial classes will allow those classes' default service rates to closely match the market-based supply costs, reducing the likelihood of significant over- and under-collections from retail customers and enhancing rate transparency for retail supply decisions.[64] Furthermore, the FPFR

[64] Over- and under-collections are related to the degree to which actual costs during a given period may vary from the retail rates that were set for that period. If there is significant uncertainty about the all-in dollar-per-megawatt-hour default service supply cost for an upcoming rate period when the default service retail supply rate for that period is set, then the likelihood of significant over- and under-collections is increased. This is the case when a block-and-spot supply component is included in the portfolio, because under the block-and-spot approach the electric distribution company must forecast future default service loads and spot prices, and actual outcomes may deviate significantly from the forecasted values. In contrast, FPFR products generally entail very little uncertainty about the default service supply costs on a dollars-per-megawatt-hour basis for any given upcoming rate period at the time that the default service retail rate for that period is set, effectively reducing the potential for significant over- or under-collections. It should be noted that over- and under-collections also can occur due to billing cycle lag.

supply products and their procurement timing under PECO's proposed DSP VI will result in a relatively stable and transparent residential price-to-compare benchmark against which residential customers can compare competing retail offers. Finally, as discussed by PECO witness Dalessio (PECO Energy Statement No. 1), PECO will continue its existing Standard Offer Program through May 31, 2029.

36. Q. Do you believe that FPFR suppliers' bid prices will be noticeably higher due to PECO's continued inclusion of the supply for PECO's Time-of-Use ("TOU") default service customers in the FPFR products?[65]

A. No. Both the standard default service and the TOU default service will continue to be supplied via the same FPFR products, so customer switching between standard default service and TOU default service will not cause load uncertainty issues that the suppliers otherwise may be expected to price into their bids.[66] Furthermore, since suppliers will be paid the same price for a megawatt-hour of supply whether that supply is for a standard default service customer or a TOU default service customer, suppliers will not bear any revenue risk associated with whether a given megawatt-hour of supply is needed by a standard default service customer or a TOU default service customer. In addition, to the extent that customers elect TOU default service and shift their usage to lower-priced periods or reduce their usage during higher-

[65] In PECO Energy Statement No. 2, PECO witness Megan A. McDevitt describes PECO's TOU default service proposal in detail.

[66] In contrast, if the supply for the TOU default service customers were solicited separately, the suppliers of the standard default service FPFR supply products would bear additional risks related to customer switching to and from the TOU default service option. PECO's approach eliminates these risks and is relatively easy to administer.

priced periods, the underlying market-based cost to supply the customers could be reduced, resulting in lower FPFR supplier bid prices over time. Finally, PECO expects that relatively few customers (compared to the number of customers who receive fixed-price default service) will enroll in the optional TOU default service in light of the customer participation levels described by PECO witness Megan A. McDevitt in PECO Statement No. 2 since PECO's new TOU rates were launched in September 2021. If TOU default service is expected to represent a small percentage of a given FPFR product's supply, then any effects of the TOU default service offering on the FPFR product supplier's bid price should be small.

IV. CONCLUSION

37. Q. Does this conclude your direct testimony?

A. Yes, it does.

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

PETITION OF PECO ENERGY COMPANY FOR APPROVAL OF ITS DEFAULT SERVICE PROGRAM FOR THE PERIOD FROM JUNE 1, 2025 THROUGH MAY 31, 2029	:	**DOCKET NO. P-2024-_____**

VERIFICATION

I, Scott G. Fisher, hereby state that I am a Partner with the NorthBridge Group, on behalf of PECO; that I am authorized to and do make this Verification; and that the facts set forth in the PECO Statement No. 3 are true and correct to the best of my knowledge, information and belief and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa. C.S. § 4904, relating to unsworn falsification to authorities.

DOCKET NO. P-2024-3046008

REBUTTAL TESTIMONY

CONFIDENTIAL VERSION

WITNESS: SCOTT G. FISHER

SUBJECT: DEFAULT SERVICE PROCUREMENT

DATED: MAY 15, 2024

TABLE OF CONTENTS

Page

I. INTRODUCTION AND PURPOSE OF TESTIMONY 1

II. DESPITE EJA'S ARGUMENTS FOR EXPANDED USE OF LONG-TERM CONTRACTS, PECO'S PROPOSED PRODUCT MIX AND USE OF LONG-TERM CONTRACTS ARE ALIGNED WITH ACT 129'S REQUIREMENTS AND COMMISSION PRECEDENT AND GUIDANCE 3

III. CONTRARY TO EJA'S CLAIMS, PECO'S PROPOSAL IS DESIGNED TO PROVIDE APPROPRIATE LEVELS OF PRICE STABILITY FOR CUSTOMERS 12

IV. CONTRARY TO EJA'S CLAIMS, PECO'S PROPOSAL IS DESIGNED TO ENSURE ADEQUATE AND RELIABLE SERVICE, AS REQUIRED BY SECTION 2807(E)(3.4) OF THE ACT 13

V. PECO'S DSP VI IS DESIGNED TO FLEXIBLY ACCOMMODATE, AT LEAST COST, POTENTIAL CHANGES IN PENNSYLVANIA CLIMATE POLICY, SUCH AS THE POTENTIAL LAWS WITH WHICH EJA INCORRECTLY IMPLIES DSP VI IS INCONGRUENT 15

VI. EJA'S ANALYSIS HAS SIGNIFICANT CONCEPTUAL FLAWS THAT UNDERMINE EJA'S ALLEGATIONS THAT HAVING PECO DIRECTLY PROCURE LONG-TERM CONTRACTS AS EJA SUGGESTS WOULD BE SYSTEMATICALLY LEAST COST FOR CUSTOMERS 18

VII. AN UNCOVERING OF TECHNICAL FLAWS IN EJA'S ANALYSIS INDICATES THAT EJA'S ALLEGED SAVINGS FROM ITS LONG-TERM CONTRACTING PROPOSAL ARE NON-EXISTENT 30

VIII. WHILE EJA ATTEMPTS TO SUPPORT ITS PROPOSAL ON THE BASIS OF FINDING WAYS TO INCREASE THE AMOUNT OF RENEWABLE ENERGY SUPPLY PROCURED TO SERVE DEFAULT SERVICE CUSTOMERS, IRONICALLY EJA'S PROPOSAL IS NOT DESIGNED TO ACCOMPLISH THIS 36

IX. EJA HAS ENTIRELY OVERLOOKED NEW COSTS AND RISKS TO CUSTOMERS THAT ITS LONG-TERM CONTRACT PROPOSAL WOULD INTRODUCE..... 43

X. EJA'S CLAIMS ABOUT THE IMPACTS OF ITS PROPOSAL ON RETAIL COMPETITION ARE MERITLESS 52

XI. THE PRODUCT MIX THAT PECO PROPOSES FOR DSP VI STRIKES A REASONABLE BALANCE OF STAKEHOLDER PERSPECTIVES..... 53

XII. RESA'S ARGUMENTS ABOUT THE COMPETITIVE MARKET ARE NOT VALID 57

XIII. CONCLUSION 60

DIRECT TESTIMONY
OF
SCOTT G. FISHER

I. INTRODUCTION AND PURPOSE OF TESTIMONY

1. Q. Please state your full name, professional position, and business address.

A. My name is Scott G. Fisher. I am a Partner at The NorthBridge Group, which is an economic and strategic consulting firm serving the electric and natural gas industries. My business address is 30 Monument Square, Suite 105, Concord, Massachusetts 01742.

2. Q. Have you previously submitted testimony in this proceeding?

A. Yes, I submitted direct testimony that is marked as PECO Statement No. 3. My background and qualifications are set forth in that statement.

3. Q. What is the purpose of your rebuttal testimony?

A. The main purpose of my testimony is to respond to arguments and recommendations offered by the Energy Justice Advocates ("EJA")[1] witness Karl R. Rábago regarding the default service supply product mix that PECO has proposed in its sixth default service program ("DSP VI") for the period from June 1, 2025 through May 31, 2029, and the associated analysis presented by EJA witness Ben Kujala. I also respond to Retail Energy Supply Association ("RESA") witness Frank Caliva III's arguments to support his view that the competitive market has become stagnant.[2]

---

[1] The EJA consist of POWER, Vote Solar, Clean Air Council, Sierra Club, Physicians for Social Responsibility, and PennEnvironment.

[2] RESA Statement No. 1, p. 12.

4. Q. Please summarize your major conclusions.

A. My main conclusion is that neither Mr. Rábago nor Mr. Kujala offers any arguments that invalidate the fact that PECO's proposed DSP VI complies with the requirement of Pennsylvania's Act 129 of 2008 (the "Act" or "Act 129") that the procurement plan include a "prudent mix" of contracts designed to ensure the least cost to customers over time.[3]

Furthermore, EJA's proposed Renewable Energy Supply Procurement ("RESP") program should be rejected for several reasons, including the following:[4]

- Mr. Kujala's analysis has significant conceptual flaws that undermine Mr. Rábago and Mr. Kujala's allegations that having PECO directly procure long-term contracts as Mr. Rábago suggests would be systematically least cost for customers.

- There are technical flaws in Mr. Kujala's analysis that, when uncovered, indicate that Mr. Kujala's alleged savings associated with long-term contracts are non-existent. Particularly, Mr. Kujala's own analysis indicates that his alleged savings associated with long-term contracts are non-existent when a correction is made to his analysis to appropriately use the most recent price expectations for long-term solar generation contracts.

[3] 66 Pa.C.S. § 2807(e)(3.4).

[4] In addition to the reasons identified here, as explained by PECO witness Sulma Dalessio, PECO has shown that competitive solicitations for long-term contracts for AECs (without bundling energy, capacity, and other grid services with the AECs) can be successful in its service area. *See* PECO Statement No. 1, p. 15.

- Mr. Rábago and Mr. Kujala have entirely overlooked new costs and risks to customers that their long-term contract proposal would introduce.

- Despite Mr. Rábago's focus on increasing the amount of renewable energy supply for default service customers, his proposal is not designed to accomplish this. Mr. Rábago's proposal does not increase the number of Alternative Energy Credits ("AECs") procured and retired for default service customers.

Finally, I conclude that RESA witness Caliva's arguments about the competitive market are not valid. Each of these findings is discussed further below.

II. DESPITE EJA'S ARGUMENTS FOR EXPANDED USE OF LONG-TERM CONTRACTS, PECO'S PROPOSED PRODUCT MIX AND USE OF LONG-TERM CONTRACTS ARE ALIGNED WITH ACT 129'S REQUIREMENTS AND COMMISSION PRECEDENT AND GUIDANCE

5. Q. What are EJA witness Rábago's main conclusions regarding PECO's DSP VI?

A. Mr. Rábago concludes that PECO's proposed procurement plan fails to result in a prudent mix of spot, short-term, and long-term contracts for generation supply and will not ensure service that is adequate, reliable, and least cost over time. To support this conclusion, Mr. Rábago claims that PECO has failed to consider the economic, environmental, and social benefits of generation supply from zero emission renewables procured through long-term contracts, and as a result, PECO's proposed default service approach imposes unnecessary costs and price volatility on default service customers and fails to make necessary progress on addressing the impacts of

climate change.[5] Mr. Rábago recommends that the Commission order PECO to implement his proposed RESP program, which entails PECO expanding its use of long-term contracts and engaging in long-term contracts for energy, capacity, AECs, and other grid services from renewable generators,[6] presumably because in Mr. Rábago's opinion this use of long-term contracts is needed to satisfy the requirements of Act 129.

6. Q. Do you agree with Mr. Rábago's conclusion that "PECO's proposed plan fails to result in a prudent mix of spot, short-term, and long-term contracts for generation supply and will not ensure service that is adequate, reliable, and least cost over time"?[7]

A. No. I provided extensive findings in my direct testimony that support the fact that PECO's proposed DSP VI incorporates a prudent mix of contracts designed to ensure least cost to customers over time, taking into account the benefits of price stability, and includes prudent steps necessary to obtain least cost generation supply contracts on a long-term, short-term and spot market basis, as required by Section 2807(e)(3.4) and Section 2807(e)(3.7) of the Act.[8]

5 EJA Statement No. 1, pp. 5-6.

6 *Id.*, p. 76.

7 *Id.*, p. 5.

8 PECO Statement No. 3, pp. 35-39.

7. Q. Has the Commission previously concluded that the type of default service supply product mix and procurement approach which PECO is proposing for DSP VI satisfies the requirements of Act 129?

A. Yes. PECO's proposed DSP VI will continue the basic procurement strategy that was established in DSP V and approved by the Commission.[9]

8. Q. In approving PECO's current default service program ("DSP V"), did the Commission's DSP V Opinion and Order address PECO's consideration of the use of long-term contracts?

A. Yes. When approving PECO's DSP V procurement plan as recommended by the Administrative Law Judge in that proceeding, the Commission noted:

> The ALJ reasoned further that PECO appropriately considered the use of long-term contracts and stakeholder preferences when developing DSP V and refuted the overly broad statements made by the Environmental Stakeholders about the benefits of long-term contracts for renewable supply. R.D. at 82. Accordingly, the ALJ recommended that the Commission reject the Environmental Stakeholders' proposal that PECO undertake a new default service analysis. R.D. at 82.[10]

9. Q. Despite Mr. Rábago's claims to the contrary, has anything changed to indicate that PECO's proposed product mix and procurement strategy no longer satisfies the requirements of Act 129?

A. No. In the remainder of my testimony, I address the flaws in the arguments that Mr.

---

[9] PECO Energy Company Statement No. 3, pp. 9 and 33, referencing *Petition of PECO Energy Co. for Approval of Its Default Serv. Program for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019290 (Opinion and Order entered Dec. 3, 2020) ("DSP V Order").

[10] DSP V Order, p. 29.

Rábago presents to support his contention that DSP VI fails to result in a prudent mix or ensure service that is adequate, reliable, and least cost over time. This includes an assessment of EJA witness Kujala's analysis, upon which Mr. Rábago relies to reach his conclusions.

10. Q. Mr. Fisher, as a general matter, do you oppose the use of long-term contracts?

A. No, I support the use of long-term contracts in certain circumstances. However, the use of long-term contracts for default service supply can result in costs and risks for customers, especially given the uncertainty about default service load levels over longer periods, so any decision to engage in long-term contracts for default service supply must be made carefully.

11. Q. Does PECO include any long-term contracts in its DSP VI supply portfolio?

A. Yes. PECO includes limited quantities of long-term contract purchases in its default service portfolio. As explained by Sulma Dalessio in PECO Statement No. 1, PECO is proposing to purchase an additional 16,000 solar Tier I Solar AECs annually through ten-year Solar AEC purchase agreements in DSP VI, for a total of 32,000 Solar Tier I AECs annually purchased through ten-year AEC purchase agreements.[11] Similar to the approach in DSP V, PECO will allocate these procured Solar AECs across all of its customer classes.[12]

[11] PECO Statement No. 1, p. 15.

[12] *Id.*, p. 18.

12. Q. Does Act 129 mandate any minimum quantity of long-term contracts in a default service program?

A. No. In its Second Default Service Rulemaking Order, the Commission provided guidance regarding interpretation of the terms "least cost" and "prudent mix." The Commission's guidance included the following:

> We agree with the majority of parties that the "prudent mix" of contracts be interpreted in a flexible fashion which allows the DSPs to design their own combination of products that meets the various obligations to achieve "least cost to customers over time," ensure price stability, and maintain adequate and reliable service.[13]
>
> We do reject the positions of those parties that "prudent mix" be defined to always require a specific mix or percentage of types of contract components in each default service plan or a minimum of two types of products.[14]

In other words, the Commission's guidance is that flexibility is a valuable aspect in satisfying the requirements of Act 129, and no minimum quantity of long-term contracts is stipulated.

13. Q. Has the Commission recommended that the use of long-term contracts be limited in default service programs?

A. Yes. In a December 16, 2011 Commission Order in the Retail Markets Investigation, the Commission recommended that the use of long-term contracts be limited in future default service programs:

---

[13] *Default Serv. and Retail Elec. Mkts.*, Docket No. L-2009-2095604 (Order entered Oct. 4, 2011) ("Second Default Service Rulemaking Order"), p. 60.

[14] *Id.*

> [T]he Commission continues to recommend the following:...that EDCs limit the proportion of long-term contracts that make up their default service plan energy portfolios, and consider using already existing long-term contracts from previous or presently effective default service plans.[15]

14. Q. Has the Commission recognized concerns from Pennsylvania default service stakeholders about the risks associated with long-term contracts and stakeholders' cautions against the use of long-term contracts as a part of default service programs?

A. Yes. In its Secretarial Letter closing the Investigation into Default Service and PJM Interconnection, L.L.C. ("PJM") Settlement Reforms, the Commission summarized stakeholder comments on the prudency of long-term contracts in default service programs given today's evolving marketplace. Specifically, the Commission stated:

> Most commenters did not support or cautioned against the use of long term contracts. Some commenters stated that extending the contract term beyond the PJM three-year forward capacity market would increase risks and cause higher financial collateral requirements. Commenters noted that, as with TOU rates, EGSs are free to serve customers who are seeking long-term contracts. Other than that, most commenters agreed that contracting long-term poses a risk of locking in above market prices that may cause customers to leave default service.[16]

[15] *Investigation of Pennsylvania's Retail Elec. Mkt.: Recommendations Regarding Upcoming Default Serv. Plans,* Docket No. I-2011-2237952 (Order entered Dec. 16, 2011), p. 19.

[16] *Investigation into Default Service and PJM Interconnection, LLC. Settlement Reforms,* Docket No. M-2019-3007101 (Secretarial Letter issued Jan. 23, 2020) ("January 2020 Secretarial Letter"), pp. 7-8.

15. Q. Is there any merit to Mr. Rábago's claim that "[a] fundamental flaw in PECO's approach is its institutionalized focus on the short term" and that PECO "applies its own definition of 'least cost over time' to mean only the four-year term of its DSP"?[17]

A. No. By not including extensive commitments for long-term supply at this time, PECO's DSP VI promotes least cost for customers by maintaining the flexibility to develop default service proposals for future periods that can be most effectively tailored to future market changes or regulatory requirements. Specifically, having the Commission approve default service procurements plans for four-year periods without extensive long-term contracts allows for the design of a plan that provides clarity during the near-to-medium term (i.e., the term of the default service program), while allowing for greater flexibility to make modifications in the longer term, through the next DSP proceeding for the subsequent DSP period, if needed. Furthermore, PECO's DSP VI includes some contracts with deliveries that extend beyond May 31, 2029 because they allow for the option for a fairly seamless continuation of the laddered procurement cycle as PECO transitions from DSP VI to DSP VII. Contract terms with delivery periods that extend beyond the end of the DSP VI term also avoid subjecting Residential and Small Commercial customers to a "hard stop" with regard to their supply products at the end of the DSP VI period, which could otherwise expose customers to magnified risks and rate instability.[18]

[17] EJA Statement No. 1, p. 22.

[18] PECO Energy Company Statement No. 3, pp. 40-41.

The flexibility created by these aspects of PECO's DSP VI design contributes to ensuring least cost over time for a period that spans the four-year term and beyond. In its Second Default Service Rulemaking Order, the Commission highlighted the importance of flexibility with respect to the satisfaction of the "least cost over time" standard of Act 129:

> [W]e find no compelling reason to prescribe specific time periods for purposes of evaluating whether an EDC plan meets the standard of producing the "least cost to customers over time"…We do not discern a need to establish precise time constraints that would unduly constrain the flexibility of DSPs to design a procurement plan that best fits the character of the customer base and the service territory.[19]

16. Q. Given Mr. Rábago's stated preference for increased use of long-term contracts for renewable generation supply,[20] does the flexibility built into PECO's DSP VI extend to the possibility of increased use of long-term contracts for renewable generation supply if it is the lowest cost alternative?

A. Yes. PECO's proposed DSP VI does not include any limitation on the extent to which a full requirements product supplier may rely upon long-term contracts for renewable generation supply to fulfill its default service supply obligation. Suppliers of the full requirements products that PECO has proposed to solicit in DSP VI are free to procure increased amounts of renewable generation through long-term contracts if that represents the lowest cost option for them.

---

[19] Second Default Service Rulemaking Order, p. 44.

[20] EJA Statement No. 1, pp. 4, 72, 78.

PECO's reliance on full requirements supply products is especially conducive to innovation and competition with respect to all aspects of the electricity supply obligation, encouraging a wide range of supply options to be considered by the winning bidders to satisfy their full requirements obligation, as opposed to limiting the supply options by restricting the supply procured by PECO to certain types. Through the procurement of full requirements supply products, PECO's DSP VI is designed to ensure the least cost to customers because bidders compete based on the lowest price to satisfy all aspects of the default service customers' load requirements, including the portfolio management function. Suppliers of the full requirements products that PECO has proposed to solicit are free to procure the products and follow the procurement strategies that they believe will result in the least-cost full requirements supply, and they have the economic incentives to consider any supply opportunity that would allow them to offer a lower-priced bid and to satisfy their default service supply obligation at the lowest cost. In comparison, Mr. Rábago's RESP program would impose a limitation on the procurement approach (specifically, long-term contracts for renewable generation supply procured at specific times) for a significant portion of the supply, thereby forgoing innovation and competition with respect to the least cost approaches to provide that supply and introducing unnecessary costs and risks for customers.

17. Q. What do you conclude from these facts?

A. PECO's proposed product mix and use of long-term contracts are aligned with Act 129's requirements, commission precedent and guidance, and Commission-cited

concerns from default service stakeholders about the use of long-term contracts.

III. CONTRARY TO EJA'S CLAIMS, PECO'S PROPOSAL IS DESIGNED TO PROVIDE APPROPRIATE LEVELS OF PRICE STABILITY FOR CUSTOMERS

18. Q. Do you agree with Mr. Rábago's insinuation that more long-term contracts are needed in PECO's DSP VI to adequately protect customers from unnecessary costs and price volatility?[21]

A. No. In my direct testimony, I describe how PECO's specific product mix provides price stability benefits for customers.[22] Furthermore, as Pennsylvania Office of Consumer Advocate ("OCA") witness Serhan Ogur states, PECO's proposed product mix "represents a reasonable balance between rate stability, which is extremely important to residential customers, and reflectiveness of competitive market conditions."[23] Regarding price stability, Dr. Ogur performed an analysis showing that PECO had the lowest Price-to-Compare ("PTC") volatility among Pennsylvania utilities over the last four years, with a product mix that is nearly identical to the product mix it is proposing for DSP VI.[24] Furthermore, Pennsylvania Office of Small Business Advocate ("OSBA") witness Mark D. Ewen notes that he considered the fact that "[p]urchasing strategies should endeavor to optimize price stability" when he concluded that he has no concerns about PECO's proposed product mix.[25] Finally, as I explain later, while long-term contracts could potentially provide additional price

[21] EJA Statement No. 1, pp. 5-6.

[22] PECO Statement No. 3, p. 29-30, 39, 40-42.

[23] OCA Statement No. 1, p. 11.

[24] *Id.*, p. 12.

[25] OSBA Statement No. 1, pp. 3, 5.

stability for customers, they can also cause unexpectedly costly outcomes for customers.

IV. CONTRARY TO EJA'S CLAIMS, PECO'S PROPOSAL IS DESIGNED TO ENSURE ADEQUATE AND RELIABLE SERVICE, AS REQUIRED BY SECTION 2807(E)(3.4) OF THE ACT

19. Q. Is DSP VI designed to ensure adequate and reliable service, as required by Section 2807(e)(3.4) of the Act?

A. Yes.

20. Q. How is DSP VI designed to ensure adequate and reliable service?

A. DSP VI is designed to ensure adequate and reliable service through three means. First, PECO's proposed supply contracts contain protections to provide reliability with respect to the suppliers' ability to satisfy the terms and conditions of the contracts. Under DSP VI, suppliers must satisfy certain requirements (including being a member in good standing of PJM) that help ensure that they are able to perform their obligations.

Second, since all load served under the contracts will be supplied through PJM, regardless of whether the winning default service supply bidders own or control generation, reliable and adequate service is further ensured. PJM is a FERC-approved regional transmission organization with a central responsibility to ensure the reliability of its regional electricity grid, of which PECO is a part, and PJM has numerous mechanisms in place to meet this responsibility. Furthermore, if a default service supplier defaults on its contract, PECO can procure from PJM the physical supply necessary to ensure adequate and reliable service to satisfy its default service

obligations.

Third, the contingency plans included as a part of DSP VI further ensure reliable and adequate service. These contingency plans address situations in which PECO fails to obtain sufficient approved bids for all tranches of supply offered in a solicitation and situations in which a supplier enters into a supply agreement and subsequently defaults on its obligations.[26]

21. Q. Is there merit to Mr. Rábago's insinuation that zero emission renewable energy procured via long-term contracts is needed to ensure adequate and reliable service as required by Section 2807(e)(3.4) of the Act, because there is a high likelihood that solar and wind energy "will perform as expected and when expected"?[27]

A. No. As I have explained, DSP VI is already sufficiently designed to ensure adequate and reliable service. Furthermore, just because a generation resource may perform "as expected and when expected" does not mean that it ensures adequate and reliable service. To support his assertion, Mr. Rábago refers to the performance of wind and solar generation during Winter Storm Elliott in 2022, quoting PJM spokesperson Jeff Shields, who stated, "I can tell you that wind and solar resources performed as the near-term forecasts projected based upon wind speed and solar irradiance."[28] While this indicates that wind generation performed predictably given wind speeds expected

[26] PECO Energy Company Statement No. 1, p. 24.

[27] EJA Statement No. 1, p. 19.

[28] Zullo, Robert, "How Did Renewables Fare During Winter Storm Elliott?: Analysis," Pennsylvania Capital-Star (Jan. 31, 2023), https://penncapital-star.com/energy-environment/how-did-renewables-fare-during-winter-storm-elliott-analysis/.

soon beforehand and that solar generation performed predictably given the levels of sunlight expected soon beforehand, this is much different from concluding that wind generation and solar generation can be disproportionately relied upon to satisfy customer load requirements across a multitude of environmental or demand conditions at least cost, or that it somehow justifies the direct procurement of long-term renewable generation contracts for default service load. For example, it would be foolish to rely upon solar generation to ensure adequate and reliable service during a winter storm. Indeed, in the same article quoted by Mr. Rábago, a Duke Energy executive noted that its albeit modest solar generation performed "as expected" during Winter Storm Elliott, but that "it wasn't much of a factor because the electric shortfall happened overnight."[29]

V. PECO'S DSP VI IS DESIGNED TO FLEXIBLY ACCOMMODATE, AT LEAST COST, POTENTIAL CHANGES IN PENNSYLVANIA CLIMATE POLICY, SUCH AS THE POTENTIAL LAWS WITH WHICH EJA INCORRECTLY IMPLIES DSP VI IS INCONGRUENT

22. Q. How do you respond to Mr. Rábago's references to two legislative proposals announced by Governor Shapiro,[30] which Mr. Rábago appears to make to support his contention that PECO's DSP VI somehow does not reflect a prudent mix of contracts designed to ensure least cost to customers over time?

A. Despite any insinuation by Mr. Rábago to the contrary, PECO's DSP VI is designed to be sufficiently flexible to accommodate changes to environmental or renewable

[29] Zullo, Robert, "How Did Renewables Fare During Winter Storm Elliott?: Analysis," Pennsylvania Capital-Star (January 31, 2023), https://penncapital-star.com/energy-environment/how-did-renewables-fare-during-winter-storm-elliott-analysis/.

[30] EJA Statement No. 1, pp. 30-31.

energy policies established by the General Assembly, and on a least cost basis for customers, with no or minimal modifications to the procurement plan. While the details of Governor Shapiro's proposals are not yet fully known, PECO's proposed DSP VI is designed to accommodate changes to environmental or renewable energy policies such as those proposed by Governor Shapiro.

23. Q. How is PECO's proposed DSP VI designed to accommodate changes to environmental or renewable energy policies such as those proposed by Governor Shapiro?

A. As Mr. Rábago mentions, Governor Shapiro recently announced two proposed initiatives designed to "protect and create nearly 15,000 energy jobs, lower utility bills for Pennsylvania households, and take real action to address carbon pollution."[31] The first initiative, the Pennsylvania Reliable Energy Sustainability Standard ("PRESS"), would increase alternative energy quantity requirements under the Alternative Energy Portfolio Standards Act, 73 P.S. §§ 1643.1 et seq. ("AEPS" or "AEPS Act"). PRESS would require that Pennsylvania source 50% of its electricity from a diverse range of energy resources by 2035, including 35% from clean energy sources like solar, wind, small modular reactors, and fusion.[32] PECO's DSP VI accommodates this and any other future legislation that modifies the AEPS quantity

[31] Office of Governor Josh Shapiro, "Governor Josh Shapiro's Energy Plan Builds on Pennsylvania's Legacy of Energy Leadership by Protecting and Creating Energy Jobs and Lowering Electricity Costs for Consumers," Press Release on March 13 2024, https://www.governor.pa.gov/newsroom/governor-josh-shapiros-energy-plan-builds-on-pennsylvanias-legacy-of-energy-leadership-by-protecting-and-creating-energy-jobs-and-lowering-electricity-costs-for-consumers/.

[32] *Id.*

requirements pertaining to resource types, by requiring the full requirements default service suppliers to provide the resultant modified percentages of AECs. This is specified in Appendix E of the proposed Supplier Master Agreement attached as PECO Exhibit SD-2 to PECO witness Sulma Dalessio's direct testimony, which specifies that "if AEPS requirements change by law or any other reason, [the Default Service] Supplier shall be responsible for providing the credits at its expense in order to comply with its obligations under Full Requirements Service."[33]

The flexibility built into PECO's DSP VI also allows it to accommodate Governor Shapiro's second proposed initiative, which targets state greenhouse gas emissions. The Pennsylvania Climate Emissions Reduction Act ("PACER") is intended to establish a Pennsylvania-specific cap-and-invest program.[34] PECO's DSP VI is designed to incorporate the facets of this type of policy, specifically regarding the cost associated with carbon dioxide emissions that this type of policy would require electric generation resources that emit carbon dioxide in Pennsylvania to internalize, to the benefit of clean energy generation resources. Any effects on wholesale electricity prices due to generators' internalization of a cost associated with carbon dioxide emissions would be considered by bidders in the full requirements default service supply product solicitations, just like any other effect on wholesale prices is

[33] PECO Exhibit SD-2, p. 118.

[34] Office of Governor Josh Shapiro, "Governor Josh Shapiro's Energy Plan Builds on Pennsylvania's Legacy of Energy Leadership by Protecting and Creating Energy Jobs and Lowering Electricity Costs for Consumers," Press Release on March 13 2024, https://www.governor.pa.gov/newsroom/governor-josh-shapiros-energy-plan-builds-on-pennsylvanias-legacy-of-energy-leadership-by-protecting-and-creating-energy-jobs-and-lowering-electricity-costs-for-consumers/.

considered, and bidders would respond accordingly when submitting their bids. Furthermore, any opportunities to source supply from renewable resources – if they are the lowest cost opportunity considering any cost of carbon dioxide emissions established through the policy – would also be considered by the bidders in the full requirements default service supply solicitations.

While we may not yet know the details of PRESS and PACER, PECO's DSP VI is designed to be sufficiently flexible to accommodate these types of policies with no or minimal modifications.

VI. EJA'S ANALYSIS HAS SIGNIFICANT CONCEPTUAL FLAWS THAT UNDERMINE EJA'S ALLEGATIONS THAT HAVING PECO DIRECTLY PROCURE LONG-TERM CONTRACTS AS EJA SUGGESTS WOULD BE SYSTEMATICALLY LEAST COST FOR CUSTOMERS

24. Q. Have you reviewed the testimony of EJA witness Ben Kujala?

A. Yes, I have.

25. Q. What are Mr. Kujala's general conclusions?

A. Mr. Kujala attempts to assess the impact that procuring long-term contracts for solar generation equal to 7% of PECO's Residential default service load would have on the cost of PECO's Residential default service portfolio.[35] Based on his analysis, Mr. Kujala concludes that in almost all of the scenarios he attempted to model, procuring long-term contracts for solar generation equal to 7% of PECO's Residential default service load would lower the cost of PECO's Residential default service portfolio.

[35] EJA Statement No. 2, pp. 6, 10, 13.

Mr. Kujala notes that his analysis considers solar generation as an illustrative potential approach to help satisfy loads with a long-term contract or long-term contracts from zero emission renewable generation.[36]

26. Q. Does EJA witness Mr. Rábago rely on the results of Mr. Kujala's analysis to support Mr. Rábago's proposed RESP?

A. Yes. While Mr. Kujala references neither Mr. Rábago's testimony nor Mr. Rábago's proposed RESP, Mr. Rábago relies heavily on Mr. Kujala's analysis to support adoption of his RESP proposal, leaning on it nine times throughout his testimony.[37] Based on Mr. Kujala's testimony, Mr. Rábago concludes, "PECO's failure to procure zero emission renewable energy under long-term PPAs has cost DSP residential customers a great deal of money, and continued failure to do so will most likely cost DSP residential customers even more."[38]

27. Q. Please provide an overview of Mr. Kujala's analysis.

A. Mr. Kujala performed two closely related analyses. The first is a historical analysis, and the second is a forward-looking analysis. In both analyses, Mr. Kujala attempted to determine whether a default service supply portfolio that is constructed in part using direct procurement of long-term solar generation contracts would produce savings versus a portfolio constructed without such a supply component.

---

[36] *Id.*, p. 6.

[37] EJA Statement No. 1, pp. 17, 18-19, 22-23, 31, 32, 45, 49-51, 59, 68-69.

[38] EJA Statement No. 2, p. 51.

28. Q. What is Mr. Kujala's approach to determine if the direct procurement of long-term solar generation contracts would produce savings?

A. Mr. Kujala first calculates the total cost to supply Residential default service load[39] using a reference portfolio that is comprised of hydroelectric, spot market, and fixed-price full requirements ("FPFR") products using contract and spot prices for each supply component. Next, Mr. Kujala recalculates the total cost to supply the default service load assuming instead that PECO procures the equivalent of 7% of its total energy needs via long-term solar generation contracts. When he applies the cost of the long-term solar generation contracts, he applies it as a net cost, in which the financial value of the AECs procured through the long-term contracts is subtracted to calculate the net cost of the long-term solar generation contracts. Mr. Kujala then compares his estimated cost of the reference portfolio with his estimated cost of the portfolio with the long-term solar generation contracts to estimate the potential savings or added costs.

On the surface, Mr. Kujala's calculations may appear to be complex, but ultimately there are only a few parts of his analysis that affect his estimated savings calculations. The core comparison is whether the cost of the unbundled energy that PECO would receive via the long-term solar generation contracts (i.e., the cost of the long-term contracts after the embedded AECs have been sold or otherwise monetized) is lower than if the same energy is purchased instead at on-peak wholesale block energy

[39] Unless specified otherwise, in my discussions of Mr. Kujala's analysis, I refer to only Residential default service load and costs.

prices.[40] If the unbundled energy from the long-term solar generation contracts is priced lower than that of on-peak wholesale forward block energy, then Mr. Kujala concludes that the portfolio including the long-term solar generation contracts would produce savings.

Mr. Kujala's historical and forward-looking analyses are substantially similar in approach. Differences between the historical and forward-looking analyses include differences between the assumed long-term solar generation contract prices used, and the fact that the historical analysis relies on the prices received by PECO for FPFR products from its DSP V solicitations that have been completed while the forward-looking analysis estimates the prices of FPFR products based on the current prices of forward energy products.

29. Q. Are there fatal flaws in EJA witness Kujala's analysis, upon which Mr. Rábago relies to conclude that PECO's DSP VI fails to comply with the statutory obligations of Act 129 and to conclude that his RESP program should be adopted?

A. Yes. As I will explain, Mr. Kujala's analysis has both conceptual and technical flaws that make it useless for the determination of whether PECO's DSP VI satisfies the statutory requirement that the procurement plan include a "prudent mix" of contracts designed to ensure the least cost to customers over time. In this section of my

[40] A long-term fixed-price contract sourced from a renewable energy source can be thought of as a bundle of energy, capacity, and AECs provided at a single price. As described in more detail later in my testimony, by netting the cost of the AECs received from the long-term contracts at estimated market prices for AECs, Mr. Kujala's analysis assumes that the AECs that are bundled as part of the long-term contracts are used to offset an equivalent number of AECs that PECO would otherwise have needed to procure to satisfy its AEC obligations. The net cost of the long-term contracts is thus the "unbundled" energy and capacity.

testimony, I describe the conceptual flaws in Mr. Kujala's analysis. I start by describing a broad conceptual flaw, and then I describe a conceptual flaw specific to Mr. Kujala's historical analysis. In a later section, I describe technical flaws that are independent of the conceptual flaws but that, when uncovered, indicate that Mr. Kujala's alleged savings associated with long-term contracts are non-existent.

30. Q. Please describe the broad conceptual flaw associated with the ability of Mr. Kujala's analysis to determine whether a default service supply portfolio that is constructed in part using direct procurement of long-term renewable generation contracts would be lower cost than a portfolio constructed without such a supply component.

A. If one were to accept Mr. Rábago's contention, based on Mr. Kujala's analysis, that implementing Mr. Rábago's proposed RESP would be lower cost for customers, then one must accept a hypothesis that procuring energy by bundling it in a long-term contract is a systematically lower-cost approach than procuring the same energy through shorter-term FPFR product solicitations. Furthermore, one must be convinced of this, and thereby be willing to diverge further from FPFR products, with substantial confidence – despite the fact that FPFR products are recognized by the Commission as being specifically tailored to the electricity needs of the customers,[41] despite the fact that the Commission has explicitly expressed its preference for

[41] As explained by the Commission, "[t]he [full requirements] process insulates default supply customers from the volatility associated with wholesale market conditions with the supplier bearing the risks of factors such as customer migration, weather, load variation and economic activity." Second Default Service Rulemaking Order, p. 54.

continued reliance on full requirements products,[42] despite the fact that long-term contracts for default service supply can result in costs and risks for customers that I describe later, and despite the fact that the Commission has recommended that the use of long-term contracts be limited in future default service programs.[43]

However, neither Mr. Kujala nor Mr. Rábago provides a clear explanation as to why energy purchased through long-term renewable generation contracts would be systematically lower cost than procuring the same energy through solicitations for shorter-term products. On the contrary, there are economic reasons to believe that having PECO directly procure energy through long-term contracts as Mr. Rábago suggests would be at least as costly as shorter-term wholesale procurements, when the risks are considered.

First, there is strong reason to believe that, all else equal, the price of energy purchased via long-term contracts would be comparable to the price of the same energy purchased via solicitations for shorter-term products. Second, even if the price of energy obtained through a long-term contract were systematically lower than the expected price of the same energy purchased in the shorter-term markets, this would not necessarily indicate that committing to long-term contracts to supply default

[42] As explained by the Commission, "[w]e do express a preference for continued reliance by DSPs on the [full requirements] approach to the extent this method best suits the DSP's particular procurement needs." *Id.*, p. 56.

[43] As explained by the Commission, "the Commission continues to recommend the following:...that EDCs limit the proportion of long-term contracts that make up their default service plan energy portfolios, and consider using already existing long-term contracts from previous or presently effective default service plans." *Investigation of Pennsylvania's Retail Elec. Mkt.: Recommendations Regarding Upcoming Default Serv. Plans,* Docket No. I-2011-2237952 (Order entered Dec. 16, 2011), p. 19.

service load is the least cost solution. Finally, Mr. Kujala and Mr. Rábago have entirely overlooked new costs and risks to customers that Mr. Rábago's long-term contract proposal would introduce.

31. Q. Why is it reasonable to believe that the price of energy purchased via long-term contracts would be comparable to the price of the same energy purchased via solicitations for shorter-term products?

A. Since both approaches seek to acquire the same fundamental product (i.e., energy), we should expect that both methods would produce comparable prices. In other words, the price of energy procured through long-term contracts and the price of the same energy procured through solicitations for shorter-term products should converge. The logic for this convergence is straightforward. If there were a systematic bias in the price of a product purely based on the procurement approach, there would be a strong profit motive for suppliers and other market entities to arbitrage between the two approaches (e.g., long-term contracting and solicitations for shorter-term products). If Mr. Kujala's analysis were actually indicative of a systematic bias in prices, we would expect that energy traders would eagerly purchase energy through long-term contracts and resell that energy through solicitations for shorter-term products for an expected and reliable profit. And if this were true, even initially, the actions of those traders would quickly work to equilibrate the prices of the two products. For Mr. Kujala's analysis to be indicative of reliable long-term savings, we would need to believe that energy markets and traders were systematically ignoring a reliable profit opportunity. It is simply not plausible that such an arbitrage

opportunity would go both unnoticed and unexploited for long periods.

Further, the mismatch in delivery period duration between long-term contracts and shorter-term contracts does not offer a plausible explanation to support a cost difference. PECO's proposal to continue to directly solicit full requirements supply products does not preclude winning default service suppliers from utilizing other types of supply products, such as long-term contracts, to fulfill their default service supply obligation. If suppliers observed that they could procure energy via a long-term contract at a lower cost than through shorter-term contracts, then they would have the economic incentive to engage in long-term contracts, and the competition based on price in PECO's default service solicitations would translate into the financial benefits being provided to customers. Mr. Kujala and Mr. Rábago fail to articulate why default service suppliers would not consider the least cost option when constructing their bids in PECO's proposed FPFR default service supply product solicitations. Even if the delivery period of a potentially least cost option (hypothetically, for example, a long-term contract) extended past the delivery period of the supply product being solicited by PECO (e.g., a FPFR product), the supplier could still take advantage of the option and it could resell the energy to be delivered beyond the period of PECO's solicited product in the wholesale market or through other market opportunities.

32. Q. If the price of energy obtained through a long-term contract hypothetically were systematically lower than the expected price of the same energy purchased in the shorter-term markets, would this necessarily indicate that committing to long-term contracts to supply default service load is the least cost solution?

A. No. The most likely reason for any such difference in price would be related to a transfer of risk (caused by the long-term contracts) away from the generation project developer and onto default service customers. Part of a developer's cost is the cost to finance the generation project. Regardless of how the project is financed (e.g., how much or little debt the developer uses), the price it needs for it to earn its required return is related to the riskiness of its future revenue stream. If a developer could lock in a stream of future revenues (or at least if it can obtain a fixed price per megawatt-hour) by engaging in a long-term contract with PECO, it might be able to reduce its financing costs and thereby offer a contract price at a discount to the price at which it would otherwise expect to be able to sell its output. However, this does not mean that the long-term contract would be the least cost alternative for PECO's default service customers. The lower contract price would result from the fact that PECO's customers (through the rates charged to them to cover PECO's costs) would provide financial assurances to the developer through the fixed contract prices. These customers therefore would bear the risk that contract prices (and retail rates) will be well above future market price levels, potentially for long periods.[44] It is that exact

[44] Indeed, using figures cited by the Congressional Budget Office, from a study performed by Resource Data International, it is estimated that U.S. utilities at the time of industry restructuring incurred about $37 billion in stranded costs due to long-term electricity supply contracts that locked in prices that turned out to be higher than later market price levels. See Congressional Budget Office. "Electric Utilities: Deregulation and Stranded

same risk – that market price levels in the future turn out to be lower than expected – that developers would bear without the long-term contract. Therefore, any such difference in price (between the long-term contract price and the expected price of the same energy purchased in the shorter-term markets) would be due to a transfer of risk (caused by the long-term contract) away from the generation project developer and onto default service customers.

33. Q. Are there additional risks associated with Mr. Rábago's long-term contract proposal that could increase costs for customers and that both Mr. Kujala and Mr. Rábago ignore?

A. Yes. As I will describe in more detail later in my testimony, Mr. Rábago's long-term contract proposal would expose PECO's customers to additional costs and risks that might otherwise be avoided with shorter-term contracts, and that both Mr. Kujala and Mr. Rábago ignore.

34. Q. You mentioned that there is also a conceptual flaw specific to Mr. Kujala's historical analysis. Please describe that flaw.

A. Mr. Kujala's historical analysis focuses on a single period, DSP V, and it calculates the estimated savings based on that sample period. Even if all the other flaws in Mr. Kujala's analysis are ignored for a moment, this historical analysis does not really provide any useful information to inform the decision whether PECO's DSP VI fails to comply with the statutory obligations of Act 129 or whether Mr. Rábago's RESP

Costs." Washington, D.C.: October 1998. Page 17 cites stranded costs of $122 billion and page 16 states that 30% of stranded costs were due to long-term contracts.

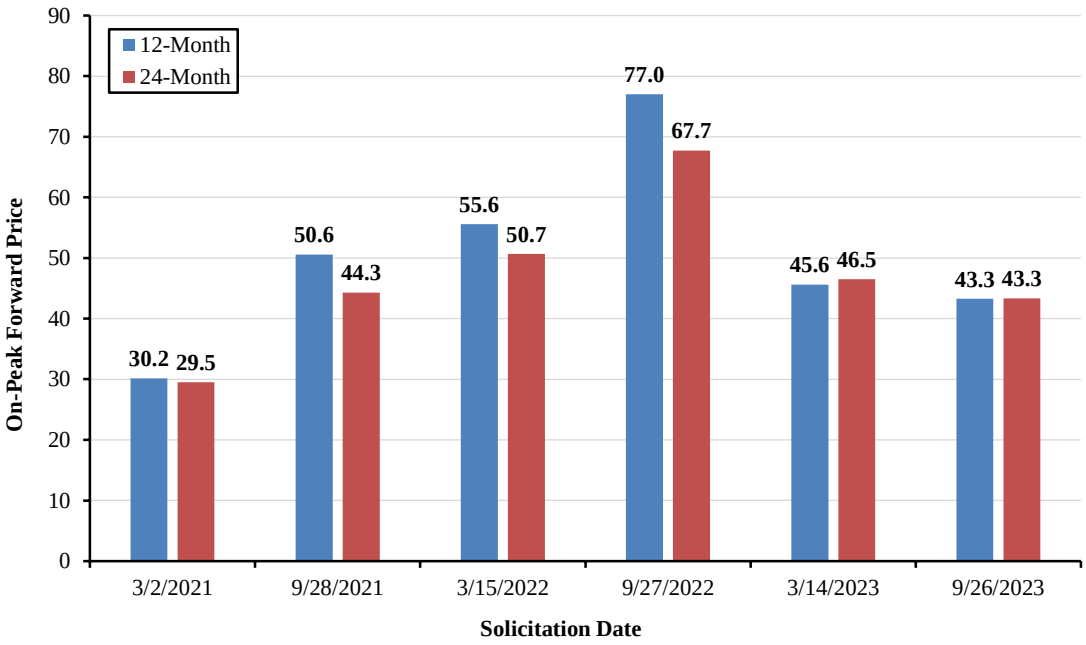
program should be adopted. There are two major reasons why this is true.

First, the historical period studied is unlikely to represent the universe of potential market outcomes that could have occurred or that are likely to occur in the future, and the effects that these alternative market outcomes would have on default service supply costs could be very different under one procurement approach versus under another. Whether PECO could have chosen a different supply portfolio during DSP V with perfect hindsight of how market conditions unfolded during DSP V is not relevant to the supply mix decision for DSP VI. The market price outcomes that unfolded during DSP V were unique to that period, while very different market price outcomes could unfold in the future. With perfect knowledge of past market trends, it is always possible to design a supply approach that would have resulted in lower costs than the supply approach that was actually implemented. This observation does not invalidate a historical supply choice, as information used to construct a "super-optimal" approach was not known at the time. Constructing a portfolio that outperforms all others under all states of the world is an impossible task.

The second reason why Mr. Kujala's historical analysis should not be relied upon is related to the first. Specifically, during the period studied by Mr. Kujala, market prices happened to generally increase over time, biasing the results to the extent that Mr. Rábago or Mr. Kujala relies upon them to predict future results, because market prices could just as easily rise or fall in the future. As shown in the following figure, on-peak forward energy prices for 12-month delivery at the PECO Zone increased over the course of the DSP V period, from $30 per megawatt-hour as of the date of

the Spring 2021 Solicitation to $77 per megawatt-hour as of the date of the Fall 2022 solicitation.[45] Although the price later dropped to $43 per megawatt-hour as of the Fall 2023 Solicitation, the price as of the Fall 2023 Solicitation was still 43% higher than the comparable price as of the Spring 2021 Solicitation. The prices of 24-month forward products followed a similar pattern. However, Mr. Kujala blindly compares the rising market prices to long-term contract prices with effective market dates as early as 2020, long before wholesale market prices rose.[46]

On-Peak PECO Zone Forward Prices as of FPFR Product Solicitation Dates



Sources of Data: PJM Western Hub forward prices from NYMEX provided by Hitachi Energy Velocity Suite and from NERA daily marks provided to PECO calculated on the basis of quotes from Amerex, NYMEX, TFS, and ICE, as available; basis to PECO Zone based on FTR prices from PJM and historical locational marginal prices from PJM.

It is therefore unsurprising that when Mr. Kujala compared escalating on-peak energy

[45] Prices are calculated assuming delivery begins in the prompt June or December.

[46] *See* EJA Statement No. 2, pp. 15-16.

forward prices to an earlier static view of the cost of a long-term solar generation contract, he identified cost savings. However, this comparison is inappropriate and not indicative of any expectation of cost savings in the future. Furthermore, it suffers from technical flaws that I describe later in my testimony.

VII. AN UNCOVERING OF TECHNICAL FLAWS IN EJA'S ANALYSIS INDICATES THAT EJA'S ALLEGED SAVINGS FROM ITS LONG-TERM CONTRACTING PROPOSAL ARE NON-EXISTENT

35. Q. In addition to the conceptual flaws that you have identified, are there technical flaws in Mr. Kujala's analysis that, when uncovered, indicate that Mr. Kujala's alleged savings associated with long-term contracts are non-existent?

A. Yes. Perhaps most notably, when performing his forward-looking analysis, Mr. Kujala disregarded his most recent, and thereby his most relevant, price expectation for long-term solar generation contracts. Moreover, ***Mr. Kujala assumed in all his cases that the long-term contract price would be lower than this price***. Mr. Kujala's conclusion that the long-term contracting would produce savings entirely relies on these biased assumptions.

36. Q. How does Mr. Kujala establish cases for the pricing of proposed long-term solar generation contracts in his analysis?

A. Mr. Kujala constructs three cases for long-term solar generation contract pricing: "Low," "Mid," and "High." The "Low" case reflects contract prices in PJM in 2020, adjusted for inflation.[47] The "Mid" case reflects assessments of project costs

[47] EJA Statement No. 2, p. 38.

performed by the National Renewable Energy Laboratory ("NREL") that were published in 2023 and derived from benchmarks from the first quarter of 2022, adjusted for inflation.[48] The "High" case is calculated as the average of two prices applicable to PJM, both reported by LevelTen and reflecting actual market data.[49] The two prices that Mr. Kujala averaged to calculate his "High" case value are as of the first quarter of 2023 and the first quarter of 2024.[50]

37. Q. Are any of these cases indicative of the best estimate of current pricing of long-term solar generation contracts?

A. No. All of Mr. Kujala's cases, as presented, reflect obsolete or misleading data that substantially underestimate current expectations of long-term solar generation contracts. The "Low" case reflects market evidence for contract pricing that is four years out of date.[51] Regardless of whether that pricing was indicative of contract pricing at that time, it cannot be relied upon as indicative of pricing in today's market. Mr. Kujala's "Mid" case does not even rely on actual market evidence. It is simply an assessment made by NREL of its estimate of the levelized cost of energy for a new solar generation project.[52] NREL makes many assumptions about project cost, financing structure, and operational performance that may not be consistent with the assumptions of market participants when they prepare their contract price offers.

[54] These results can be replicated by changing [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx]'Summary - DSP VI'!$F$8 to "High" and [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx]'Scenario Inputs'!$G$10 to Redacted in Mr. Kujala's workpaper, [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx].

39. Q. Does additional publicly available market data about contract pricing support the fact that, in all of Mr. Kujala's modeled cases, he underestimates current expectations of pricing for long-term solar generation contracts?

A. Yes. Another source of contract pricing data, Trio, reports a representative PJM solar generation contract price of $79.50 per megawatt-hour as of the first quarter of 2024.[55] **[BEGIN CONFIDENTIAL]**

Redacted

[END CONFIDENTIAL] This additional evidence of current contract pricing further supports the fact that all of Mr. Kujala's long-term contract price estimates ("Low" case, "Mid" case, and "High" case) are likely to be much lower than a reasonable expectation for the contract price, and therefore his savings estimates have no merit.

40. Q. Are there other technical flaws in Mr. Kujala's analysis that, when uncovered, may further invalidate his results?

A. Yes. First, it is very possible that Mr. Kujala has over-credited the value of the energy that the long-term solar generation contracts would contribute to the default service supply portfolio. By assuming that all of the energy provided via the long-term solar generation contract could be purchased instead at on-peak wholesale block energy prices, Mr. Kujala effectively assumes that all of the energy provided via the long-term solar generation contract would be on-peak energy. However, this assumption

[55] Trio, "Global Renewables Market Update | Q1 2024," p. 12, available at https://www.edisonenergy.com/reports-whitepapers/q1-2024-global-renewables-market-update/?utm_source=trio&utm_medium=social&utm_campaign=renewables_report_q1_24.

ignores the fact that solar generators are just as likely to generate electricity on weekends as they are on weekdays, despite the fact that the on-peak period only includes weekday hours. Since on-peak period prices are generally higher than off-peak period prices,[56] this oversight could result in overvaluing roughly 29%[57] of the energy from the long-term solar generation contract, because on two days of the week the solar generation would offset off-peak energy.

Second, when performing his analysis, Mr. Kujala ignored the fact that changing the FPFR products solicited to accommodate the proposed long-term solar generation contracts (i.e., such that the FPFR product obligation is net of an uncertain and significant amount of energy) would increase the uncertainty that the FPFR product suppliers would bear. Specifically, the FPFR product suppliers would need to provide the energy that the long-term solar generation contracts do not supply. Indeed, the output of solar generation sources is uncertain, and is often driven by unpredictable solar irradiation levels. The FPFR product suppliers would need to factor this additional uncertainty into their bids. Furthermore, they would need to factor in the possibility that the online dates of the solar generation projects (that support the long-term contracts) themselves are delayed or that the projects do not come online at all. In order to shoulder this unnecessary additional risk imposed to accommodate the

[56] During 2020-2023, PJM Western Hub weekend and holiday real-time prices (during the same 16 hours of the day as those that delineate the on-peak period, which falls on weekday non-holidays) averaged $40.67 per megawatt-hour ("MWh"), compared to $47.91/MWh for on-peak hours. Source: PJM data provided by Hitachi Velocity Suite.

[57] 29% is roughly 2/7 of the time, as two days of the week fall on weekends. This calculation does not account for the portion of days that are holidays, but that would have a negligible effect.

long-term solar generation contracts, it is reasonable to assume that the FPFR product suppliers would require additional compensation and incorporate it into their bid prices.[58] Mr. Kujala ignores this potential additional cost.

VIII. WHILE EJA ATTEMPTS TO SUPPORT ITS PROPOSAL ON THE BASIS OF FINDING WAYS TO INCREASE THE AMOUNT OF RENEWABLE ENERGY SUPPLY PROCURED TO SERVE DEFAULT SERVICE CUSTOMERS, IRONICALLY EJA'S PROPOSAL IS NOT DESIGNED TO ACCOMPLISH THIS

41. Q. Does EJA witness Rábago attempt to justify his proposed RESP program based on input that was provided by various citizens at recent public input hearings?

A. Yes. To support his proposal, Mr. Rábago notes that citizens at the recent public input hearings generally expressed a desire to find ways to increase the amount of renewable energy supply procured to serve default service customers.[59]

42. Q. Is Mr. Rábago's proposed RESP program designed to increase the amount of renewable energy supply procured to serve default service customers?

A. Ironically, no. Mr. Rábago's proposed RESP program is not designed to increase the amount of renewable energy supply procured to serve default service customers. Mr. Rábago's proposed RESP program would seek to acquire long-term contracts sourced from renewable generation. On the surface, this might appear to increase the

[58] As explained by PECO witness Sulma Dalessio, PECO receives an allocation of five megawatts of hydropower from the New York Power Authority ("NYPA") for residential customers in PECO's service area under a multi-state agreement administered in Pennsylvania by Allegheny Electric Cooperative, Inc., and this is used to offset the amount of Residential default service supply provided by wholesale suppliers. However, this amount corresponds to only 0.2% of PECO's Residential default service load. See PECO Energy Company Statement No. 3, pp. 14-15. Consequently, it has a very small effect on the FPFR product suppliers' obligations. In contrast, Mr. Rábago proposes netting a much more substantial amount, specifically at least 35 times the amount of the NYPA allocation. See EJA Statement No. 1, pp. 72-74.

[59] EJA Statement No. 1, p. 63.

renewable generation "footprint" of PECO's default service supply. However, under Mr. Rábago's proposal, the AECs procured through the long-term contracts would be used to offset the purchase of other AECs that PECO would otherwise need to make to meet its AEC obligations. This is clearly stated by Mr. Rábago when he describes his proposed RESP program:

> The Company should use the AECs procured through the PPAs to offset the AEC purchase requirements costs.[60]

Mr. Rábago further confirms this in discovery. Specifically, Mr. Rábago confirms in discovery that his proposed RESP program is not designed to result in PECO procuring and retiring more AECs than it needs to satisfy the requirements of the AEPS Act.[61] Consequently, implementation of the RESP program would not increase the number of AECs procured and retired for default service customers.

43. Q. Why is the amount of renewable energy supply procured determined by the number of AECs procured and retired?

A. AECs (which are commonly called "Renewable Energy Credits" or "RECs" in other states) represent the renewable energy attributes of one megawatt-hour of electricity generated by a renewable energy source.[62] The laws of physics make it impossible to ensure that electricity generated by a given renewable energy source connected to the

---

60 *Id.*, p. 74.

61 EJA Response to PECO-EJA-II-7 (PECO Exhibit SGF-1R).

62 Resources that qualify for Pennsylvania Tier I AECs include solar thermal electric, out-of-state solar photovoltaic, wind, low-impact hydropower, geothermal electric energy, biologically derived methane gas, fuel cells, biomass, electricity produced in-state from the by-products of pulping and wood manufacturing industries, and coal mine methane. See https://www.puc.pa.gov/media/2784/alternative_energy_economic_development_in_pa_factsheet-feb2024.pdf.

electricity grid is exclusively delivered, in a physical sense, to a given entity. Consequently, AECs (i.e., RECs) allow for an accounting of who is ultimately being provided the renewable energy supply. This is explained by the U.S. Federal Trade Commission:

> Once renewable electricity is introduced into the grid, it is physically indistinguishable from electricity generated from conventional sources. Accordingly, consumers cannot determine the source of the electricity flowing into their homes and businesses. However, because electricity transactions can be tracked, entities can "buy" renewable power by purchasing power bundled with RECs. Under the REC system, a renewable electricity generator splits its output into two components: (1) the electricity itself (i.e., "null" electricity); and (2) certificates representing the renewable attributes of that electricity. Generators that produce renewable electricity sell their electricity at market prices for conventionally produced power and then sell the renewable attributes of that electricity through separate certificates. Organizations purchase these RECs to characterize all or a portion of their electricity usage as "renewable" by matching the certificates with the conventionally-produced electricity they normally purchase. By allowing these certificates to be sold separately and not requiring the renewable attribute to remain attached to the generated electricity, the REC approach provides flexibility and efficiency for the renewable electricity market.[63]

The U.S. Environmental Protection Agency also explains:

> Retail renewable energy certificates (RECs) are sold, delivered, or purchased separately from electricity (commonly referred to as "unbundled"). They represent proof of renewable electricity delivered to the grid and represent the environmental effect or energy attributes of that renewable electricity.
>
> RECs are a marketable commodity that are in demand with electric utilities and large and small electricity consumers (e.g., residential, commercial, and industrial)…[64]

---

[63] Federal Register, Volume 75, Issue 199, October 15, 2010. https://www.govinfo.gov/content/pkg/FR-2010-10-15/html/2010-25000.htm.

[64] United States Environmental Protection Agency, "Green Power Pricing," https://www.epa.gov/green-power-markets/green-power-pricing#one.

Consequently, the amount of renewable energy supplied to an entity is determined by the number of AECs procured and retired by the entity.

44. Q. Is Mr. Rábago's criticism of PECO's DSP VI consistent with the fact that his proposed RESP program is not designed to increase the amount of renewable energy supply procured to serve default service customers?

A. No, it is not. In fact, Mr. Rábago criticizes PECO's proposed procurement plan for exactly the same thing, using the AECs that PECO proposes to procure through long-term contracts to offset the cost of the AECs that PECO must procure and retire. Specifically, in criticizing PECO's proposed DSP VI, Mr. Rábago argues the following:

> Furthermore, PECO's [solar AEC ("SAEC") purchases will merely offset those that its FPFR suppliers would otherwise be required to make.[65]

45. Q. Are there other related inconsistencies in Mr. Rábago's arguments regarding PECO's proposed DSP VI that undermine his arguments to support implementation of his proposed RESP program?

A. Yes, when discussing PECO's proposed DSP VI, Mr. Rábago argues the following:

> There is no evidence to support any assertion that PECO's procurement of SAECs would be at lower cost than that paid by FPFR suppliers.[66]

So, when it comes to PECO's proposal to directly purchase more AECs through long-term contracts, Mr. Rábago criticizes PECO's proposal because it will not increase the number of AECs retired by PECO, and he also criticizes it because there is no

[65] EJA Statement No. 1, p. 54.

[66] *Id.*

reason to believe that PECO could procure the AECs via long-term contracts at a lower cost than that which a FPFR product supplier could procure the AECs. However, the exact same arguments also apply to Mr. Rábago's proposed RESP program.

46. Q. Could the proposed RESP program be modified to increase the amount of renewable energy supply procured to serve default service customers?

A. Yes. Hypothetically, the RESP program could be modified such that PECO would be required to retire the AECs procured through the long-term contracts rather than using them to offset AECs that it would otherwise need to purchase.

47. Q. Would this modification to the proposed RESP program result in increased costs to customers?

A. Yes, this modification would result in materially increased costs to customers. With this modification, default service customers would not receive any of the financial value from the AECs that they would otherwise receive if the modification were not made and PECO instead used the AECs procured through the long-term contracts to offset the purchase of other AECs to satisfy its AEC obligations.

48. Q. If this modification to the proposed RESP program were made, why would default service customers not receive any of the financial value that they would otherwise receive if the modification were not made and PECO instead used the AECs procured through the long-term contracts to offset the purchase of other AECs to satisfy its AEC obligations?

A. In order to use the AECs procured through the long-term contracts to offset the

purchase of other AECs that PECO would otherwise need to make to meet its AEC obligations, as Mr. Rábago's proposes, PECO would either (1) directly apply the AECs procured through the long-term contracts toward its AEC obligations and therefore it would need to purchase fewer AECs from other sources (e.g., the FPFR product suppliers), or (2) it would still purchase the same number of AECs from other sources to meet its AEC obligations and it would sell the extra AECs procured through the long-term contracts into the market. Either way, default service customers would receive financial value from the AECs procured through the long-term contracts, either by PECO avoiding the need to purchase as many AECs from other sources or by PECO obtaining revenues from the sale of the AECs procured through the long-term contracts, and passing along the savings to customers.

However, if the RESP program were modified such that PECO retired the AECs procured through the long-term contracts rather than using them to offset AECs that it would otherwise need to purchase (i.e., if PECO retired the AECs procured through the long-term contracts in addition to procuring and retiring an amount of AECs equal to its total AEC obligation), default service customers would forego the financial value that they would otherwise receive. PECO would not avoid the need to purchase as many AECs from other sources, and it would not receive revenues from any sale of the AECs procured through the long-term contracts.

49. Q. How would the financial value forgone by this modification affect the savings calculations performed by Mr. Kujala and relied upon by Mr. Rábago?

A. Even if the other flaws in Mr. Kujala's analysis are ignored, this modification (to retire the AECs procured through the long-term contracts instead of using them to offset the purchase of other AECs that PECO would otherwise need to make to satisfy its AEC obligations) would result in Mr. Kujala's analysis showing net costs to customers rather than savings. A substantial portion of the savings that Mr. Kujala calculates is associated with the financial value that default service customers would receive by using the AECs obtained through the long-term contracts to offset the purchase of other AECs to satisfy PECO's AEC obligations. If those AECs were retired rather than used to offset other AEC purchases, the savings in Mr. Kujala's analysis would become net increases in costs to customers in Mr. Kujala's "Mid" and "High" cases (before correcting to assume an appropriate long-term contract price). Furthermore, the estimated net increase in cost to customers becomes even greater in the case in which an appropriate long-term contract price is assumed. **[BEGIN CONFIDENTIAL]**

Forward-Looking Added Costs if AECs Do Not Offset Other AECs

		Long-Term Contract Price Assumption ($/MWh)	Estimated Increased Costs / (Savings) if Long-Term Contract AECs Offset Other AECs	Estimated Increased Costs / (Savings) if Long-Term Contract AECs Do Not Offset Other AECs ($MM)[67]

[67] These results can be replicated by inputting the respective scenario ("Low", "Medium", or "High") in

			($MM)	
Mr. Kujala's Uncorrected Results	"Low" Case	32.44	-64.5	-30.9

	"High" Case	Redacted	Redacted	Redacted
Results with Price Correction[68]	**With Most Recent Long-Term Contract Pricing**	Redacted		

[END CONFIDENTIAL] In other words, Mr. Kujala's analysis shows a net increase in the costs to customers from modifying Mr. Rábago's proposed RESP program so that it is designed to increase the amount of renewable energy supply procured to serve default service customers.

IX. EJA HAS ENTIRELY OVERLOOKED NEW COSTS AND RISKS TO CUSTOMERS THAT ITS LONG-TERM CONTRACT PROPOSAL WOULD INTRODUCE

50. Q. Would the development and implementation of Mr. Rábago's proposed RESP program introduce significant new costs and activities?

A. Yes, developing and implementing Mr. Rábago's proposed RESP program would introduce significant new costs and activities. Mr. Rábago proposes to use the first year of DSP VI to develop a solicitation process for his RESP program.[69] Mr. Rábago's proposal would require PECO to develop a request for proposals ("RFP") document as well as related documents such a supplier master agreement. Mr. Rábago

[PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx]'Summary - DSP VI'!$F$8 and adding the value in [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx]'Summary - DSP VI'!$L$12 to the value in [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx]'Summary - DSP VI'!$M$13 in Mr. Kujala's workpaper, [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx].

[68] These results can be replicated by changing [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx]'Summary - DSP VI'!$F$8 to "High" and [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx]'Scenario Inputs'!$G$10 to Redacted in Mr. Kujala's workpaper, [PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx].

[69] EJA Statement No. 1, p. 6.

proposes that PECO first use a request for information process to gather stakeholder input as to how to best procure zero emission renewables through his proposed RESP program, including requesting stakeholder responses and holding at least one public stakeholder meeting.[70] PECO would then prepare and file its proposed RFP (and presumably all related documents, including a supplier master agreement) at the Commission, and this would be followed by rounds of comments and reply comments to be filed at the Commission by the public.[71] Finally, according to Mr. Rábago, the Commission would issue an order on PECO's proposed RFP,[72] and then PECO would engage an independent RFP administrator to execute the solicitations, including developing recommendations and reports to assist the Commission in determining which offers (if any) should be approved.[73] In essence, Mr. Rábago is asking the Commission to engage in an additional default service supply proceeding.

Furthermore, if the Commission were to accept Mr. Rábago's proposal, it would need to address several substantive issues. For example, Mr. Rábago expresses a preference for long-term contracts with new generation resources located in Pennsylvania,[74] but he does not describe how that preference should be factored into offer evaluation, versus either generation resources located outside of Pennsylvania or versus already existing and operational generation resources that would also be

[70] *Id.*, pp. 76-77.

[71] *Id.*, p. 77.

[72] *Id.*, p. 78.

[73] *Id.*, p. 77.

[74] *Id.*, p. 73.

eligible to be awarded the long-term contracts under his proposal.[75] Mr. Rábago proposes "bid pricing threshold limits," but he does not define how they would be determined.[76] He proposes that PECO should "determine the best methods for securing any necessary additional capacity, ancillary services, or grid services to provide adequate and reliable service," without consideration of the administrative costs such a determination would require.[77] Mr. Rábago also does not address how FPFR supplier obligations would be impacted by the inherent intermittency of renewable generation.[78] These and the many other gaps in Mr. Rábago's proposal would need to be addressed in his proposed additional proceeding, which would add cost and complexity to PECO's overall default service procurement process. Moreover, additional costs would be incurred through the execution of the solicitation processes.

51. Q. Does Mr. Rábago provide an estimate of the cost required to develop and implement his proposed RESP program?

A. No. In discovery, when Mr. Rábago was asked whether he had an estimate of the cost required to develop and implement his proposed RESP program, he simply answered, "No."[79]

52. Q. Please elaborate on the risks to which customers would be exposed from the long-

[75] EJA Response to PECO-EJA-II-6 (PECO Exhibit SGF-2R).

[76] EJA Statement No. 1, p. 73.

[77] *Id.*

[78] *Id.*

[79] EJA Response to PECO-EJA-II-1 (PECO Exhibit SGF-3R).

term contracts for default service supply proposed by Mr. Rábago.

A. Long-term contracts increase the risk that contract costs (and retail rates) will be well above future market price levels, potentially for long periods.[80] When long-term contracts are used to supply default service load, these risks can create disproportionately costly situations for customers. For example, suppose PECO were to implement Mr. Rábago's recommendation to procure long-term contracts at fixed prices for quantities of supply that are based on the output of a given power generation resource. If market prices then decline and customers exercise their option to switch to Electric Generation Supplier ("EGS") service, PECO could be left with excess supply that it would be forced to sell at a loss, and/or customers would find that an unexpectedly high portion of their default service supply portfolio is composed of above-market contracts, and these customers would need to pay for the above-market costs through higher default service rates. This would further encourage customers to switch to EGS service, leaving the above-market costs of the long-term contracts to be incurred by a smaller default service customer base, thereby further driving up the default service rates. In this perverse situation, default service rates would tend to increase as market prices decline. Furthermore, to the extent that the customers who remain on default service are those without the ability or knowledge to switch to an EGS, or that the customers who remain on default service

[80] Indeed, using figures cited by the Congressional Budget Office, from a study performed by Resource Data International, it is estimated that U.S. utilities at the time of industry restructuring incurred about $37 billion in stranded costs due to long-term electricity supply contracts that locked in prices that turned out to be higher than later market price levels. See Congressional Budget Office. "Electric Utilities: Deregulation and Stranded Costs." Washington, D.C.: October 1998. Page 17 cites stranded costs of $122 billion and page 16 states that 30 percent of stranded costs were due to long-term contracts.

skew toward lower-than average household income as Mr. Rábago assumes,[81] those customers will bear this cost burden.

53. Q. But haven't customer switching levels in PECO's service area been somewhat stable recently, and doesn't that historical stability mitigate this risk?

A. Relatively speaking, customer switching levels in PECO's service area have been somewhat stable recently. But this has been in an environment in which PECO has not exposed its default service customers to the risks of long-term contracts for energy, capacity, and other grid services, as Mr. Rábago recommends should be done. Furthermore, in the January 2020 Secretarial Letter (pp. 7-8), the Commission recognized that "[m]ost commenters did not support or cautioned against the use of long term [default service supply] contracts" and "most commenters agreed that contracting long-term poses a risk of locking in above market prices that may cause customers to leave default service." So, the recent relative stability of customer switching levels in PECO's service area should not be treated as evidence that this risk is mitigated.

54. Q. In what other ways would adoption of Mr. Rábago's proposed RESP program needlessly introduce new risks for default service customers?

A. To the extent that offers supported by new (yet-to-be-built) generation resources are accepted in Mr. Rábago's proposed long-term contract solicitations, Mr. Rábago ignores the project development risks and the associated costs to customers that can

[81] EJA Statement No. 1, p. 44.

result from these risks. Mr. Rábago states without any support at all that "[n]ew long-term contracts for 100% zero emission renewable generation supply can be phased well before the end of the term of the current DSP VI proposed term."[82] However, actual experience of other utilities attempting to enter into long-term contracts for new solar generation shows that securing these contracts involves risks of delays and contract termination by the developer. For example, Duquesne Light Company ("Duquesne Light") attempted to enter a long-term contract for the supply of energy and SAECs in 2021, which resulted in a contract with Pine Gate Renewables, LLC ("Pine Gate").[83] Duquesne Light filed the contract with the Commission in April 2022.[84] However, this contract was terminated roughly one year later, due to Pine Gate failing to meet a project development milestone.[85] Similarly, the Public Service Commission of the District of Columbia ordered Potomac Electric Power Company ("Pepco"), PECO's affiliate, to solicit a long-term contract to supply approximately 5% of its load, and Pepco was able to successfully negotiate a 15-year contract for energy and renewable energy credits in July of 2022.[86] Similar to the Duquesne Light case, the contract counterparty terminated the agreement less than a year later, using its contractual right to terminate because it had failed to contract for the sale of 90%

86 Potomac Electric Power Company, Public Service Commission of the District of Columbia F.C. 1017-2022-E-937, July 25, 2022, p. 1.

of the project.[87] In both cases, the contract did not commence output as expected, and the utility needed to administer a second solicitation for a long-term contract to replace the failed contract.[88,89] This proven risk of project delays and contract termination would add unnecessary potential costs for customers under Mr. Rábago's proposal.

On a related note, despite Mr. Rábago's stated preference for long-term contracts with new generation resources located in Pennsylvania,[90] the timeline that Mr. Rábago proposes for his RESP program is likely unrealistic for new generation resources to participate in his proposed long-term contract solicitations. Mr. Rábago proposes that the Commission issue an order on PECO's proposed RFP soon enough to provide "PECO sufficient time to execute the RFP and procure zero emission renewable energy that can be delivered to residential customers no later than June 1, 2026."[91] However, as explained in the report by Trio, as of the first quarter of 2024, guaranteed commercial operation dates of renewable generation projects are now shifting to 2027, contributing to an ongoing trend of developers offering projects roughly three years from their operation dates.[92] If Mr. Rábago's RESP program

[91] *Id.*

[92] Trio, "Global Renewables Market Update | Q1 2024," p. 6, available at https://www.edisonenergy.com/reports-

process were followed as he proposes, the first RFP would be issued no earlier than 2025.[93] Given the reported market lead times for renewable generation projects, commercial operation of any new generation resources awarded long-term contracts in Mr. Rábago's proposed first solicitation likely would not be until 2028 or later, near the end of PECO's DSP VI term, with commercial operation of any new generation resources awarded long-term contracts in subsequent solicitations being in even later years.

Another risk to default service customers that would be introduced by adoption of Mr. Rábago's proposed RESP program is that the long-term contract prices may be higher than anticipated, causing any anticipated savings to be unachievable. Mr. Rábago's proposal relies on the belief that long-term contracts will be lower cost than all other alternatives, even though the cost of the long-term contract is unknown. This belief is supported only by Mr. Kujala's erroneous analysis and hypothetical long-term contract price assumptions. While shorter-term forward block energy prices are relatively transparent, with market price quotations generally available from multiple sources, long-term contract prices are less transparent, often project specific, and not knowable until offers are submitted. By restricting a portion of default service supply to long-term contracts for specific types of generation and excluding alternative supply approaches, Mr. Rábago would exclude alternative supply approaches that could be lower cost. Mr. Rábago is asking the Commission to ignore the possibility of

whitepapers/q1-2024-global-renewables-market-update/?utm_source=trio&utm_medium=social&utm_campaign=renewables_report_q1_24.

[93] EJA Statement No. 1, pp. 76-78.

lower-cost alternatives and simply trust that no other supply approach would be lower cost. In comparison, if PECO were to rely on FPFR products instead, the suppliers of those products may utilize any approach (including long-term contracts if they believe they would be the least cost) to fulfill their supply obligations under the FPFR contract.

55. Q. What other issues do long-term contracts for default service supply entail?

A. Long-term contracts reduce the flexibility to make future changes to the default service supply portfolio if they are warranted. PECO's proposal to continue its basic supply approach, which does not include a heavy reliance on long-term contracts, provides long-term value by more easily allowing for future changes to the supply portfolio if they are warranted. This flexibility would be diminished if PECO were to engage in larger quantities of long-term default service supply contracts, as Mr. Rábago recommends.

56. Q. Did either of EJA's witnesses address the long-term contract costs and risks to customers that you have identified, when they recommended that PECO engage in larger quantities of long-term contracts for default service supply that include attributes other than AECs?

A. No. EJA's witnesses have entirely overlooked these costs and risks to customers that their long-term contract proposal would introduce.

X. EJA'S CLAIMS ABOUT THE IMPACTS OF ITS PROPOSAL ON RETAIL COMPETITION ARE MERITLESS

57. Q. Does Mr. Rábago make any claims about the impacts of his proposed RESP program on retail competition?

A. Yes, Mr. Rábago claims that "the cost-savings opportunities from long-term renewable energy PPAs will improve the performance of the competitive [retail] market for electricity supply" and "[b]y maintaining a price to compare that is unreasonably high by ignoring the savings available through long-term generation supply contracts, competitive prices remain higher than they should be."[94] He also claims that "a mix of supply that includes long-term contracts will provide a better reference point and benchmark for competitive supply shopping."[95] Finally, he asserts, "By incorporating long-term contracts for zero emission renewables in its DSP generation supply mix, PECO can lower long-term costs for the supply mix. Competitive [retail] suppliers will follow these reductions once PECO has reflected them in the price to compare."[96]

58. Q. Is there any merit to Mr. Rábago's claims that implementation of his proposed RESP program can be expected to improve retail competition?

A. No. Mr. Rábago's claims are based on his hypothesis that his proposed long-term contract procurements will result in a lower cost supply mix than that of PECO's proposed DSP VI, systematically providing the savings that Mr. Kujala estimates, and

---

94 *Id.*, p. 23.

95 *Id.*, p. 55.

96 *Id.*, p. 79.

thereby putting additional competitive pressures on EGSs to lower the prices that they offer to customers. However, as I have explained, Mr. Kujala's analysis suffers from significant conceptual and technical flaws, and his own analysis indicates that his alleged savings associated with long-term contracts are non-existent when a correction is made to his analysis to appropriately use the most recent price expectations for long-term contracts. Furthermore, as I have explained, Mr. Rábago and Mr. Kujala have entirely overlooked new costs and risks to customers that their long-term contract proposal would introduce. As a result, there is no merit to Mr. Rábago's claims that implementation of his proposed RESP program can be expected to improve retail competition.

XI. THE PRODUCT MIX THAT PECO PROPOSES FOR DSP VI STRIKES A REASONABLE BALANCE OF STAKEHOLDER PERSPECTIVES

59. Q. Separate from all of the facts and information that you have presented to show that PECO's proposed DSP VI satisfies the requirements of Act 129 and that Mr. Rábago's proposed RESP program should be rejected, how has PECO's proposed default service supply product mix been received by other intervenors and statutory parties?

A. No other intervenor or statutory party has expressed any opposition to PECO's proposed default service supply product mix, with the exception that RESA opposes PECO's proposal to incorporate a capacity proxy price and true-up mechanism for certain supply products in certain circumstances as discussed by PECO witness Katie

Orlandi.[97]

In supporting PECO's proposed product mix, OCA witness Ogur states, "In general, I view the composition of the proposed residential default service supply portfolio favorably,"[98] and the product mix "represents a reasonable balance between rate stability, which is extremely important to residential customers, and reflectiveness of competitive market conditions."[99] Furthermore, Dr. Ogur's analysis of the performance of PECO's near-identical product mix in DSP V shows that the product mix "performed well, relative to other EDCs in Pennsylvania, in terms of default service rate (PTC) stability during the recent wholesale power and natural gas market volatility."[100]

Similarly, after considering several factors, OSBA witness Ewen concludes that he has no concerns about PECO's proposed product mix.[101]

The other intervenor that submitted direct testimony, the Tenant Union Representative Network / Coalition for Affordable Utility Services and Energy Efficiency in Pennsylvania ("TURN-CAUSE-PA"), did not comment on PECO's specific proposed product mix.

---

97 RESA Statement No. 1, p. 5.

98 OCA Statement No. 1, p. 11.

99 *Id.*

100 *Id.*, pp. 11-13. Dr. Ogur notes a concern in principle about the 0.8% "spot market component" of the residential supply portfolio, but he states that he does not oppose this component under the circumstances. (OCA Statement No. 1, p. 12.)

101 OSBA Statement No. 1, pp. 2-5.

60. Q. To support his position that PECO's DSP VI does not constitute a prudent mix of contracts,[102] EJA witness Rábago states, "[T]he supply procured by the Company is unrelated to customer preferences and therefore is less likely to support the development of competitive markets."[103] How do you respond?

A. Mr. Rábago is incorrect. All of the other intervenors and statutory parties have either voiced their support for PECO's proposed default service supply product mix, or have not voiced any opposition (with the exception of RESA's opposition to the capacity proxy price).[104] These parties represent a diversity of interests, including residential customers, low-income customers, business customers, and retail electric suppliers.

61. Q. Have any other parties opined on PECO's procurement plan for DSP VI?

A. Yes. As Mr. Rábago notes, additional input was provided by various citizens at recent public input hearings,[105] and these citizens expressed a desire to find ways to increase the amount of renewable energy supply procured to serve default service customers.[106] Along these lines, as I have explained, PECO's DSP VI is designed to both provide default service on a least cost basis to customers and be sufficiently flexible to accommodate changes to environmental or renewable energy policies established by the General Assembly, with no or minimal modifications to the procurement plan. I have also explained that Mr. Rábago's reliance on input from these public input

[102] EJA Statement No. 1, pp. 5, 37, 49, 82.

[103] *Id.*, p. 48.

[104] See direct testimony on behalf of the OCA, OSBA, RESA, and TURN-CAUSE-PA.

[105] EJA Statement No. 1, pp. 18, 49, 63-68, 70-72.

[106] *Id.*, p. 63.

hearings to support his proposal is misplaced, because ironically his proposal is not designed to increase the amount of renewable energy supply procured to serve default service customers.

62. Q. At a high level, what do these additional facts about the stakeholder perspectives indicate about PECO's proposed default service supply mix?

A. At a high level, PECO's DSP V strikes a reasonable balance of perspectives. This is supported by the fact that no intervenor or statutory party except the EJA has opposed any aspect of PECO's proposed supply mix (except RESA's concern about the capacity proxy price), and the fact that PECO's DSP VI is designed to both provide default service on a least cost basis to customers and be sufficiently flexible to accommodate changes to environmental or renewable energy policies established by the General Assembly, with no or minimal modifications to the procurement plan.

PECO's carefully designed approach incorporates stakeholder input, past Commission approvals of both PECO's tailored supply portfolios for different customer classes[107] and the results of default service supply solicitations, and other Commission guidance. It provides the benefits of competition on all aspects of the full requirements supply obligation (including the portfolio management function) through the procurement of FPFR products,[108] and it incorporates design components

[107] PECO Statement No. 3, p. 39.

[108] *Id.*, p. 36.

to support the competitive retail electricity market.[109]

XII. RESA'S ARGUMENTS ABOUT THE COMPETITIVE MARKET ARE NOT VALID

63. Q. RESA witness Caliva argues that his proposed changes to PECO's DSP VI are necessary due to his belief that the market has become stagnant.[110] Are Mr. Caliva's arguments about the competitive market valid?

A. No. First of all, it is important to recognize that, under the existing default service model which PECO proposes to continue, regardless of how many customers are being served through default service, they are all being provided the benefits of competitive markets even if they choose not to enroll with an EGS, because the default service model that PECO proposes to continue requires qualified bidders in the default service supply product solicitations to compete and be selected based on the lowest price. PECO simply passes through the resultant supply costs to customers. Any insinuation that a greater number of default service customers equates to a less competitive default service offering is invalid.

Furthermore, as I noted in my direct testimony, 98 EGSs currently serve PECO customers (roughly triple the number since DSP I began), 90 of these EGSs currently serve PECO residential customers, and 52% of PECO's total customer load is currently being served by an EGS.[111] Clearly, there are many options available to

[109] *Id.*, pp. 41-42.

[110] RESA Statement No. 1, pp. 12-17.

[111] PECO Statement No. 3, p. 31. As noted, data is for the month starting November 1,2023. The 52% value includes customers who will be switched to EGSs within 45 days, and it is based on kW.

default service customers to take advantage of the benefits of the competitive retail market, if they choose to do so, and there are many EGSs competing to serve PECO's customers.

Finally, Mr. Caliva's characterization of the statistics he uses to argue that the competitive market has become stagnant is misleading. Mr. Caliva uses statistics on customer accounts being served by EGSs and EGS sales from the Commission's Retail Electricity Choice Activity Report for Calendar Year 2022 and statistics on switching rates from the Commission's PowerSwitch Monthly Update as of March 2024 to argue that the competitive market has become stagnant.[112] He repeatedly refers to these statistics as describing the percentage of customers that are shopping in the state of Pennsylvania.[113] His use of the word "shopping" implies that no other customers aside from those represented by these statistics (of switched customers) are considering or have considered switching to EGS service. However, the statistics from the Commission's PowerSwitch Monthly Update, which Mr. Caliva primarily relies upon to make his argument about alleged market stagnation, only represent "customers who have switched to an electric generation supplier as of March 2024"[114] and are in no way represented as all the customers who have considered switching to EGS service but decided against it, or as the customers who have switched in the past but who are now back on default service, whether for reasons of cost or some other

[112] RESA Statement No. 1, pp. 11-12.

[113] *Id.*, pp. 11-12.

[114] RESA Ex. FC-3 PA PowerSwitch Monthly Update as of March 2024.

issue with the products that were offered or with their experience in the retail market. Similarly, the statistics that Mr. Caliva cites from the Commission's Retail Electricity Choice Activity Report for Calendar Year 2022 also do not represent anything more than the customer accounts or loads switched to EGS service at a given time. Indeed, many more customers may be aware of their choices but choose not to switch to an EGS.

64. Q. Are there reasons why customers might choose not to be served by an EGS, other than any competitive market issues that Mr. Caliva implies?

A. Yes. In her direct testimony, TURN/CAUSE-PA witness Elizabeth R. Marx documents several trends indicating that "with incredible consistency, residential customers who shopped for electricity were charged, on average, significantly more than default service customers."[115] This increased charge was not, by Ms. Marx's analysis, attributable to higher usage,[116] nor is it unique to the residential customer class.[117] Ms. Marx's analysis also indicates that confirmed low income ("CLI") customers have faced higher prices for EGS service, on average, than non-CLI customers.[118] While these facts may not be the case for all EGSs, they provide a reasonable explanation for why customers might choose not to be served by an EGS.

Even in cases in which an EGS offer is lower than the default service supply rate,

[115] TURN/CAUSE-PA Statement No. 1, p. 8.

[116] *Id.*

[117] *Id.*, p. 11.

[118] *Id.*, p. 12.

there are other legitimate reasons why customers might opt not to enroll with an EGS. For some residential and small commercial customers who have not switched from default service to an EGS, the potential cost savings or other benefits (offset by any risk of being charged a higher price after an introductory period if they do not take affirmative action) may be insufficient to divert from their other affairs to devote additional time to making and managing choices in the retail electricity market.

XIII. CONCLUSION

65. Q. Does this conclude your rebuttal testimony?

A. Yes, it does.

Exhibit SGF-1R

Petition of PECO Energy Company for Approval of Its Default Service Plan for the Period from June 1, 2025 Through May 31, 2029

Docket No. P-2024-3046008

EJA Response to PECO-EJA-II-7

Response Provided By: Karl R. Rábago

Date of Response: 05/10/2024

Question

PECO-EJA-II-7. Reference EJA Statement No. 1, p. 74, lines 4-5, where Mr. Rábago states, "The Company should use the AECs procured through the PPAs to offset the AEC purchase requirements costs."

a. Is Mr. Rábago's recommended RESP program designed to result in PECO procuring and retiring more AECs than it needs to satisfy the requirements of the Alternative Energy Portfolio Standards Act, 73 P.S. §§ 1643.1 et seq.?

b. If the answer to part (a) is yes, then please reconcile the answer to part (a) with Energy Justice Advocates Statement No. 1, p. 74, lines 4-5, where Mr. Rábago states, "The Company should use the AECs procured through the PPAs to offset the AEC purchase requirements costs."

c. If the answer to part (a) is yes, then please describe how many more AECs (i.e., how many more AECs in aggregate than it needs to satisfy the requirements of the Alternative Energy Portfolio Standards Act, 73 P.S. §§ 1643.1 et seq.), Mr. Rábago's recommended RESP program would target to procure and retire. Please provide these quantities both per year and in total. Please provide all workpapers, electronic files (with formulas intact), assumptions and calculations that were utilized to prepare your answer.

Answer

a. No. Mr. Rábago's proposal is designed as a path to cost-effectively capturing the affordability and climate benefits of long-term contracts for zero emission renewable energy generation for default service supply. Mr. Rábago believes there are both economic and climate benefits of outperforming the AEPS standard and does not see the AEPS standard as a ceiling on renewable energy for the Commonwealth.

b. Not applicable.

c. Not applicable.

EJA Response to PECO-EJA-II-6

Response Provided By: Karl R. Rábago

Date of Response: 05/10/2024

Question

PECO-EJA-II-6. Reference EJA Statement No. 1, p. 73, lines 13-14, where Mr. Rábago states, "The RESP should express a preference, but not a requirement, for new renewable energy generation sited in Pennsylvania."

a. Under Mr. Rábago's recommended RESP program, would zero emission renewable energy generators that are already operational as of the time that the winning bids are determined qualify for the long-term contracts that are awarded under the RESP program?

b. Under Mr. Rábago's recommended RESP program, would zero emission renewable energy generators that are not yet operational, but that are already under construction, as of the time that the winning bids are determined qualify for the long-term contracts that are awarded under the RESP program?

c. Is the answer to part (a) different if the generator is located in Pennsylvania versus if it is not? If so, please explain how the answer to part (a) differs based on geographic location.

d. Is the answer to part (b) different if the generator is located in Pennsylvania versus if it is not? If so, please explain how the answer to part (b) differs based on geographic location.

Answer

a. Yes. As referenced lines state, "The RESP should express a preference, but not a requirement, for new renewable energy generation sited in Pennsylvania." EJA St. No. 1, Direct Testimony of Karl R. Rábago, at 73:13-14.

b. Yes. As referenced lines state, "The RESP should express a preference, but not a requirement, for new renewable energy generation sited in Pennsylvania." EJA St. No. 1, Direct Testimony of Karl R. Rábago, at 73:13-14.

c. No.

d. No.

Exhibit SGF-3R

Petition of PECO Energy Company for Approval of Its Default Service Plan for the Period from June 1, 2025 Through May 31, 2029

Docket No. P-2024-3046008

EJA Response to PECO-EJA-II-1

Response Provided By: Karl R. Rábago

Date of Response: 05/10/2024

Question

PECO-EJA-II-1. Reference EJA Statement No. 1, p. 6, lines 7-10, where Mr. Rábago recommends that PECO develop a "Renewable Energy Supply Procurement" or "RESP" solicitation process aimed at securing 7% of default supply from zero emission renewables under long-term power purchase agreements.

a. Does Mr. Rábago have an estimate of the time required to develop the RESP process? If so, how long would the planning process take to develop?

b. Does Mr. Rábago have an estimate of the time required to implement the recommended RESP process? If so, how long would the RESP process take to implement?

c. Does Mr. Rábago have an estimate of the cost required to develop and implement the recommended RESP process? If so, provide any cost estimates and any support for those cost estimates.

d. Under Mr. Rábago's recommendation, who would pay for the costs of developing and implementing the RESP process? How would the recovery of such costs be allocated?

Answer

a. Please see EJA St. No. 1, Direct Testimony of Karl R. Rábago, at 76:8–78:6 (Apr. 25, 2024).

b. Please see EJA St. No. 1, Direct Testimony of Karl R. Rábago, at 76:8–78:6 (Apr. 25, 2024).

c. No.

d. Assuming PECO develops a reasonable and prudent proposal, it would be appropriate for the Commission to consider a request by PECO to allow PECO to recover the development and implementation costs from residential DSP customers.

I. INTRODUCTION AND PURPOSE OF TESTIMONY 1

II. CONTEXT FOR THE LONG-TERM CONTRACTING ALTERNATIVES CONSIDERED BY THE OCA 2

III. EVALUATION OF THE LONG-TERM CONTRACTING ALTERNATIVES CONSIDERED BY THE OCA 6

IV. CONCLUSION 11

SURREBUTTAL TESTIMONY
OF
SCOTT G. FISHER

I. INTRODUCTION AND PURPOSE OF TESTIMONY

1. Q. Please state your full name, professional position, and business address.

A. My name is Scott G. Fisher. I am a Partner at The NorthBridge Group, an economic and strategic consulting firm serving the electric and natural gas industries. My business address is 30 Monument Square, Suite 105, Concord, Massachusetts 01742.

2. Q. Have you previously submitted testimony in this proceeding?

A. Yes, I submitted direct and rebuttal testimony on behalf of PECO Energy Company ("PECO" or the "Company"), which is designated as PECO Statement Nos. 3 and 3-R.

3. Q. What is the purpose of your surrebuttal testimony?

A. The purpose of my testimony is to respond to rebuttal testimony offered by the Office of Consumer Advocates ("OCA") witness Serhan Ogur regarding the incorporation of long-term contracts in PECO's sixth default service program ("DSP VI"), for the period from June 1, 2025, through May 31, 2029. Specifically, I address the two alternatives that Dr. Ogur presents[1] for consideration if the Commission were inclined to approve Energy Justice Advocates ("EJA") witness Karl R. Rábago's long-term contracting proposal[2] instead of PECO's long-term contracting proposal.[3]

[1] OCA Statement No. 1R, pp. 10-13.

[2] EJA Statement No. 1, pp. 72-78.

[3] PECO Statement No. 1, pp. 26-28.

II. CONTEXT FOR THE LONG-TERM CONTRACTING ALTERNATIVES CONSIDERED BY THE OCA

4. Q. Has PECO historically used long-term contracts to procure default service supply from renewable energy facilities?

A. Yes. As discussed in the direct testimony of PECO witness Sulma Dalessio, in PECO's fifth default service program ("DSP V"), the Commission authorized PECO to procure approximately 22.6% of its Solar Alternative Energy Credit ("Solar AEC") requirements per the Alternative Energy Portfolio Standards Act, 73 P.S. §§ 1643.1 *et seq.* ("AEPS" or "AEPS Act") associated with the load of PECO customers receiving default service during the DSP V term through two-stage solicitations in 2021 and 2022 for delivery of a total of 16,000 Solar AECs annually (i.e., 4,000 Solar AECs in each of the four solicitations).[4] PECO subsequently conducted successful requests for proposals ("RFP") and, upon approval of the Commission, entered into contracts for the annual delivery of 16,000 Solar AECs over a ten-year period, with 8,000 of each year's Solar AECs from solar generating facilities located within PECO's service area.[5]

5. Q. As a part of its DSP VI, is PECO proposing to solicit additional long-term contracts for default service supply from renewable energy facilities?

A. Yes. PECO is proposing to procure an additional 16,000 Solar AECs in the first two years of the DSP VI term using the same RFP process approved by the Commission for DSP V.[6]

---

4 *Id.*, p. 25.

5 *Id.*, pp. 25-26.

6 PECO Statement No. 1, p. 26.

6. Q. Did EJA witness Rábago suggest a different approach to long-term contracting for default service supply from renewable energy facilities?

A. Yes. In his direct testimony, Mr. Rábago recommends that instead of approving PECO's proposal to procure additional long-term contracts for Solar AECs, the Commission should require PECO to take action to secure at least 7% of generation supply for residential customers through ten-year contracts from zero-emission renewable resources for energy, AECs, capacity, and ancillary services via what Mr. Rábago refers to as a "Renewable Energy Supply Procurement" ("RESP") program.[7] Specifically, Mr. Rábago recommends that these contracts total about 150 MW in Year 2 of DSP VI, 175 MW in Year 3 of DSP VI, and 200 MW in Year 4 of DSP VI, for a total of 525 MW (DC).[8,9] As part of his recommendation, Mr. Rábago suggests that PECO's proposed residential fixed-price full requirements ("FPFR") products be redefined to provide the energy and grid services requirements that his proposed long-term contracts do not provide.[10]

7. Q. Do you support Mr. Rábago's RESP program proposal?

A. No. I have discussed Mr. Rábago's RESP proposal at length in my rebuttal testimony, and I conclude that the analysis that Mr. Rábago relies upon to support his proposal is materially flawed, and that his proposal would unnecessarily introduce

[7] EJA Statement No. 1, pp. 72-73.

[8] *Id.*, p. 73.

[9] Based on the workpaper, "PECO_Futures_Analysis_2024_04_25 - CONFIDENTIAL.xlsx", provided by EJA witness Ben Kujala, Mr. Rábago's quoted megawatt values appear to be expressed in DC megawatts and not AC megawatts. Based on the AC/DC conversion factor of 1.2 contained in this workpaper, Mr. Rábago's recommended aggregate 525 MW (DC) is equivalent to 437.5 MW (AC).

[10] EJA Statement No. 1, p. 74.

new costs and risks to customers.[11]

8. Q. Does Dr. Ogur recommend that the Commission approve PECO's proposal to enter into new long-term Solar AEC contracts?

A. Yes. In his rebuttal testimony, Dr. Ogur states that he previously supported PECO's proposal in his direct testimony because "long-term contracts for the provision of solar Tier 1 AECs can help stabilize prices for what would otherwise be a volatile component of the overall portfolio."[12] He further confirms that he still recommends the Commission approve PECO's proposal to enter into new 10-year Solar AEC contracts.[13] He also notes that "PECO's proposed approach is broadly consistent with the applicable standards for default service."[14]

9. Q. If the Commission were inclined to approve Mr. Rábago's long-term contracting proposal instead of PECO's long-term contracting proposal, does Dr. Ogur identify any conditions under which he could support Mr. Rábago's proposal?

A. Yes. Dr. Ogur states that, with the addition of two specific conditions, he could support Mr. Rábago's proposal, if the Commission were inclined to approve Mr. Rábago's proposal.[15] Dr. Ogur's first condition is that the long-term contracts be incorporated into PECO's residential default service portfolio in a way that does not raise the cost of the FPFR products supplying the remaining portion (approximately

[11] PECO Statement No. 1-R, pp. 2-3.

[12] OCA Statement No. 1R, p. 5.

[13] *Id.*

[14] *Id.*, p. 8.

[15] OCA Statement No. 1R, pp. 8-9, 13.

93 percent) of the residential default service load.[16] His second condition is that contract lengths longer than ten years, and up to 20 years, be explored to "minimize the generation supply and administrative costs of the renewable energy PPA procurements."[17]

10. Q. What specific modifications to Mr. Rábago's proposal does Dr. Ogur contemplate to avoid raising the cost of the FPFR products supplying the remaining portion of the residential default service load that is not supplied by the long-term contracts proposed by Mr. Rábago?

A. Dr. Ogur contemplates two separate alternatives to modify Mr. Rábago's proposal. The first alternative, to which I refer as Alternative One in this testimony, would not change the procurement timing or quantities of PECO's proposed FPFR products.[18] Unlike Mr. Rábago's proposed approach, the FPFR product requirements would not be offset by the supply provided by the long-term contracts that Mr. Rábago proposes (with the exception of the AECs provided by these contracts).[19] PECO would sell the energy acquired under these long-term contracts into the PJM real-time energy market, PECO would bid and hopefully clear the capacity acquired under these long-term contracts into the capacity market operated by PJM Interconnection, L.L.C. ("PJM"), and the revenue from these sales would be credited to residential default service customers.[20]

---

[16] *Id.*, pp. 8-10.

[17] *Id.*, pp. 8-9, 13.

[18] *Id.*, p. 10.

[19] OCA Statement No. 1R, pp. 10, 11-12.

[20] *Id.*, pp. 10, 12.

The second alternative that Dr. Ogur contemplates, to which I refer as Alternative Two in this testimony, would entail a reduction in the portion (i.e., the number of tranches) of the residential default service load supplied through FPFR products.[21] The remaining load (approximately 7%) would be in part supplied by the long-term contracts proposed by Mr. Rábago. Differences between the actual hourly customer loads associated with this 7% of PECO's default service load and the hourly volumes of energy received under the long-term contracts with zero-emission resources would be covered by purchases or sales in PJM's real-time energy market.[22] As in Alternative One, PECO would bid and hopefully clear the capacity acquired under these long-term contracts into the PJM capacity market, and the revenue from these sales would be credited to residential default service customers.[23]

III. EVALUATION OF THE LONG-TERM CONTRACTING ALTERNATIVES CONSIDERED BY THE OCA

11. Q. Do you still support PECO's long-term contracting proposal for DSP VI?

A. Yes. The analysis and conclusions described in my rebuttal testimony still stand.

12. Q. Did Dr. Ogur present any new cost or pricing analysis that indicates that either of the two alternatives that he considers (if the Commission were inclined to approve Mr. Rábago's long-term contracting proposal) would be least cost for customers?

A. No, he did not present any new cost or pricing analysis for either of the alternatives he considers.

---

[21] *Id.*, p. 11.

[22] *Id.*

[23] *Id.*, pp. 10, 12.

13. Q. Would adoption of either of the two alternatives considered by Dr. Ogur entail the costs and risks that you associated with Mr. Rábago's proposal in your rebuttal testimony?

A. Yes. While Dr. Ogur's two alternatives for consideration (if the Commission were inclined to approve Mr. Rábago's long-term contracting proposal) would alleviate the potential for higher FPFR product prices that could result under Mr. Rábago's proposal,[24] neither of these alternatives would avoid the other unnecessary costs and risks associated with Mr. Rábago's proposal that I discuss at length in my rebuttal testimony.[25]

Moreover, as I explained in my rebuttal testimony, the analysis conducted by EJA witness Ben Kujala, which Mr. Rábago relied upon to support his proposal, suffers from substantial conceptual and technical flaws.[26] While Dr. Ogur did not rely upon Mr. Kujala's analysis when considering the two alternatives he presents in his rebuttal testimony, this analysis likewise should not be relied upon to support the alternatives considered by Dr. Ogur, due to these substantial conceptual and technical flaws.

14. Q. How could either of the alternatives considered by Dr. Ogur be modified to mitigate the risks to which customers would consequently be exposed?

A. The risks associated with the long-term contracts could generally be mitigated by reducing the volume of supply procured through the long-term contracts. For example, one risk associated with the alternatives that Dr. Ogur considers is that

[24] I discuss this potential at PECO Statement No. 3-R, pp. 35-36.

[25] PECO Statement No. 3-R, pp. 36-53.

[26] *Id.*, pp. 18-36.

contract costs will be well above future market price levels, potentially for long periods, which can also create a customer switching dynamic that can result in disproportionately costly situations for customers.[27] This risk can be mitigated, but not entirely eliminated, if the volume of supply procured under the long-term contracts is reduced to a very small portion of the overall supply mix (e.g., much smaller than 7% as suggested by Mr. Rábago), resulting in a smaller effect on overall customer default service rates.

15. Q. Since the risks to customers are generally related to the volumes of supply procured through the long-term contracts, would the risks to customers generally be higher if the long-term contract volume were to be increased by extending the delivery periods?

A. Yes, all else equal, the risks to customers generally would be higher if the delivery periods of the long-term contracts were extended. For example, with a 15-year or 20-year delivery period rather than a ten-year delivery period, as Dr. Ogur states that he could support, there is more time for market price levels to move significantly after the contract is signed, and there is more time for any significant changes in market price levels to result in sustained differences between contract price levels and market price levels. Therefore, with a 15-year or 20-year delivery period rather than a ten-year delivery period, there is a greater chance that contract costs in the future will be well above future market price levels for long periods.

[27] *Id.*, pp. 46-47.

16. Q. What implications does this relationship (between the risks to customers and the delivery period of the long-term contracts) have for Dr. Ogur's recommendation to explore contract lengths longer than ten years?[28]

A. If either of the alternatives that Dr. Ogur considers were to be adopted, then the risks to customers would be further increased if the contract delivery periods were extended beyond ten years.

17. Q. Does Dr. Ogur associate any real-world examples with either of the alternatives he considers?

A. Yes. When discussing Alternative One, Dr. Ogur states that this approach is the same as that approved by the Commission in Duquesne Light Company's ("Duquesne Light") current default service program.[29]

18. Q. Is there any difference in the size of Duquesne Light's long-term contracting approach versus Mr. Rábago's recommended long-term contracting approach or the alternatives considered by Dr. Ogur for PECO's DSP VI?

A. Yes, there is a significant difference in the size of Duquesne Light's long-term contracting approach versus Mr. Rábago's recommended long-term contracting approach or the alternatives considered by Dr. Ogur for PECO's DSP VI. Specifically, the long-term solar contract that the Commission approved for Duquesne Light was capped at 7 MW, or approximately 0.3% of Duquesne Light's default service load.[30] In comparison, Mr. Rábago's recommended long-term

[28] OCA Statement No. 1R, pp. 8-9.

[29] *Id.*, p. 11.

[30] "The Solar PPA is expected to procure slightly more than 50% of the required solar AECs or SAECs on a long-

contracting approach and the alternatives considered by Dr. Ogur for PECO's DSP VI would have PECO solicit long-term bundled contracts targeted to supply volumes of at least 7% of PECO's residential default service load.[31,32] In other words, these alternatives considered in the instant proceeding for PECO would be at a scale of over 20 times that approved for Duquesne Light on an annual delivery volume basis,[33] when normalizing for the size of the customer base that would be responsible for covering the associated costs. Therefore, the risks to customers would be substantially magnified if the size of the long-term contracts was comparable to that under Mr. Rábago's proposal.

19. Q. Did Duquesne Light recognize the importance of limiting the size of its long-term contracts when it proposed its long-term contracting approach?

A. Yes, Duquesne Light emphasized the fact that the quantity of supply that it would solicit under long-term contracts would be limited, specifically noting that its proposed quantity is "a limited quantity that mitigates risks associated with the long-term commitment."[34]

term basis." (*Petition of Duquesne Light Co. for Approval of its Default Serv. Plan for the Period from June 1, 2021 through May 31, 2025*, Docket No. P-2020-3019522 (Opinion and Order entered Jan. 14, 2021) ("*DLC Order*"), p. 63.) Since the Solar AEC requirement is 0.5% of the default service load, Duquesne Light's proposed long-term contract was designed to supply slightly more than 50% x 0.5% of Duquesne Light's default service load.

[31] EJA Statement No. 1, pp. 72-73.

[32] OCA Statement No. 1R, pp. 10-11.

[33] The ultimate contract delivery periods could have an impact on the comparison of contract volumes over the lives of the contracts. Regardless, the alternatives considered in the instant proceeding for PECO would be at a scale of many times that approved for Duquesne Light.

[34] *DLC Order*, pp. 61-62.

20. Q. Are there any other notable differences between the context for Duquesne Light's long-term contracting approach and the context for the instant proceeding regarding PECO's DSP VI?

A. Yes. PECO has shown recently that competitive solicitations for long-term contracts for AECs (without bundling energy, capacity, and other grid services with the AECs) can be successful in its service area, and PECO has already developed and executed a process to procure these contracts.[35] Consequently, PECO reasonably seeks to capitalize on that proven success by doubling the total annual number of AECs obtained under these types of long-term contracts.[36] In comparison, when Duquesne Light proposed its long-term contracting approach, it did not have a long-term contracting model that it recently and successfully established and used, and instead its available information included a preliminary market survey that indicated, at least in Duquesne Light's case, that solar developers may face challenges associated with long-term contracting only for AECs.[37]

IV. CONCLUSION

21. Q. Does this conclude your surrebuttal testimony?

A. Yes, it does.

V. NERA'S ROLE AS INDEPENDENT EVALUATOR 20
VI. CONCLUSION 20

DIRECT TESTIMONY
OF
KATIE ORLANDI

I. INTRODUCTION AND PURPOSE OF TESTIMONY

1. Q. Please state your full name and business address.

A. My name is Katie Orlandi. My business address is 633 West 5th Street, Suite 1200, Los Angeles, CA, 90071.

2. Q. By whom are you employed and in what capacity?

A. I am a Managing Director with NERA Economic Consulting ("NERA"). NERA has served as the Independent Evaluator since the inception of PECO Energy Company's ("PECO" or the "Company") first default service program ("DSP"), with a first solicitation held in spring of 2009.

3. Q. Please summarize your educational background.

A. I hold a B.A. and an M.A. in Economics from Boston University.

4. Q. Please summarize your professional experience.

A. I joined the energy auctions practice at NERA in 2010. Since then, my consulting experience has principally consisted of providing advice on the design and implementation of competitive bidding processes, managing such bidding processes, and analyzing energy market trends.

I first worked with PECO on the implementation of its first DSP ("DSP I"). My role at this time was to support all aspects of the administration of the Requests for Proposals ("RFPs") process including maintaining the website, marketing to

prospective suppliers, evaluating proposal materials, drafting responses to bidder questions, drafting and sending correspondence to bidders, and updating information and figures in the Independent Evaluator's market report and report on the results of the solicitation provided to the Pennsylvania Public Utility Commission ("Commission"). Throughout PECO's DSP I to III, from 2010 to 2016, my responsibilities increased progressively. In addition to supporting the day-to-day administration of the RFP, I became a presenter to bidders during information webcasts, I evaluated bids received on the bid date, and I was responsible for portions of reports presented to the Commission, including reporting on energy market trends. I also supported the review of default service plan elements during the regulatory proceedings related to DSP III and DSP IV and assisted in the preparation of the RFP Rules and Protocols.

Beginning with PECO's DSP IV in 2017, my role expanded to managing the administration of the RFP. These responsibilities included overseeing and participating in promotion activities and marketing, qualifying bidders, responding to bidder questions, evaluating bids, notifying bidders of the results, and writing the market and final reports presented to the Commission. Beginning in spring of 2020 and for each solicitation held under DSP V, I was leading the NERA team and I assumed responsibility for all aspects of the DSP for which NERA was responsible.

I have also provided conceptual and practical advice for competitive bid processes in other jurisdictions in the United States. In Ohio, on behalf of Ohio Power Company ("AEP Ohio"), I have supported the administration of a competitive

bidding process that utilizes a descending clock auction format since the company's second Electric Security Plan with a first auction held in 2014. Since 2015, the product offered at auction by AEP Ohio has also been for full requirements supply. My responsibilities have increased over the years and have included managing promotion and marketing, qualifying bidders, administering the clock auction, and reporting on the results to the Public Utilities Commission of Ohio. Additionally, I oversee the determination of auction parameters, including the starting prices for products available in the auction.

In Illinois, where NERA has served as the Procurement Administrator to the Illinois Power Agency since its creation in 2008, the increase in my responsibilities followed a similar progression as described above in relation to PECO. In Illinois, the products procured include blocks of energy, Zonal Resource Credits for compliance with the Midcontinent Independent System Operator, Inc. Planning Resource Auction, and renewable energy credits from a range of renewable technologies. Over the years my responsibilities included supporting the development and writing of detailed rules for the conduct of the competitive bidding processes including qualification requirements and bid evaluation procedures, supporting the annual comment processes with stakeholders on the standard contract form and credit instruments, managing promotion and marketing, qualifying bidders, developing benchmarks, evaluating bids, notifying bidders of the results, and reporting on the results to the Illinois Commerce Commission ("ICC"). Since 2020, I have led the NERA team, overseeing all aspects of the design of the competitive bidding processes, the

development of benchmarks for all products procured, and reporting on the results to the ICC.

5. Q. What is the purpose of your testimony?

A. In its sixth default service program ("DSP VI"), PECO is proposing to continue to procure full requirements supply through an RFP process for all default service customers. The full requirements supply is on a fixed-price basis for the Residential and Small Commercial Classes. For the Consolidated Large Commercial and Industrial Class, energy is priced to the PJM Interconnection L.L.C. ("PJM") hourly day-ahead market. My testimony:

- Describes the main elements of the RFP process that remain unchanged from DSP V, including the product structure;
- Describes improvements for DSP VI;
- Summarizes NERA's role as Independent Evaluator and the protocols that NERA will follow to conduct the solicitations under the RFP process; and
- Explains why the RFP process and associated protocols should be approved.

6. Q. Have you prepared any exhibits to accompany your testimony?

A. Yes. PECO Exhibits KO-1 to KO-4 were prepared at my direction and under my supervision and are described in my testimony. These exhibits are:

- The RFP Rules (PECO Ex. KO-1), which contains a number of appendices, including illustrative versions of the online forms that potential suppliers would use to submit their qualifications;
- The RFP Protocol (PECO Ex. KO-2), which describes how NERA will manage the RFP process and will communicate with all parties;
- A blackline of the RFP Rules for DSP VI to the RFP Rules approved for DSP V (PECO Ex. KO-3); and

- A blackline of the RFP Protocols for DSP VI to the RFP Protocols filed for DSP V (PECO Ex. KO-4).

II. PRODUCTS AND APPLICABLE LOAD CAPS

7. Q. Is PECO proposing changes to the product structure under DSP VI?

A. No, PECO is proposing to continue using the same product structure as in DSP V.

8. Q. Please summarize the products PECO proposes to procure under DSP VI.

A. For procurement and rate design purposes, PECO divides its customers into the following customer classes:

- Residential;
- Small Commercial (up to and including 100 kW); and
- Consolidated Large Commercial and Industrial (over 100 kW).

PECO proposes to continue to procure full requirements supply through an RFP process for all default service customers. The full requirements supply is on a fixed-price basis for the Residential and Small Commercial Classes and with energy priced to the PJM hourly day-ahead market for the Consolidated Large Commercial and Industrial Class.

Default service supply for the Residential Class would consist primarily of laddered one-year and two-year contracts procured approximately two months prior to delivery.[1] Default service supply for the Small Commercial Class would consist of laddered one-year and two-year contracts also procured approximately

[1] Approximately 1% of default service supply for the Residential Class is supplied directly from PJM's spot energy, capacity and ancillary service markets. In addition, PECO receives an allocation of five megawatts of low-cost hydropower from the New York Power Authority for residential customers in PECO's service territory under a multi-state agreement administered in Pennsylvania by Allegheny Electric Cooperative, Inc.

two months prior to delivery. Default service supply for the Consolidated Large Commercial and Industrial Class would consist of spot-priced 12-month full requirements contracts.

9. Q. Is PECO proposing changes to the load caps under DSP VI?

A. PECO is proposing to maintain the load caps used in DSP V for the Residential and Small Commercial Classes. Load caps are limitations on the amount of load that a wholesale supplier can serve for a given customer class. PECO is proposing to increase the load cap applicable to the Consolidated Large Commercial and Industrial Class.

10. Q. Please summarize the load caps applicable to each customer class under DSP VI.

A. As in DSP V, all suppliers will be subject to a 50% load cap for the Residential and Small Commercial Classes. This means that on any given day in the DSP VI period, a supplier may supply up to but not more than 50% of the required supply for the Residential and Small Commercial Classes.

The load cap for the Consolidated Large Commercial and Industrial Class would increase from 50% to 75%. These load caps will continue to ensure that, for each customer class, there will be at least two suppliers during any given period. This supplier diversification will mitigate the effects of any default by a single supplier.

11. Q. What is the benefit of increasing the load cap for the Consolidated Large Commercial and Industrial Class?

A. Each year under DSP V, eight tranches are procured for the Consolidated Large Commercial and Industrial Class in a single solicitation. A load cap of four tranches is applied, which means that a bidder qualified to submit bids for this customer class may submit bids for up to only four of the eight tranches available in each solicitation.

In DSP V, in each of the three solicitations in which tranches for the Consolidated Large Commercial and Industrial Class were procured, bidders typically submitted a bid for all four tranches for which they were eligible. In other words, bidders typically bid up to the load cap. It is reasonable to assume that some, if not all of these bidders, would have bid more than four tranches if they had been able to do so. Thus, an increase in the load cap for this customer class may lead to an increase in the number of bids competing for the eight available tranches.

Additionally, an increase in the load cap may improve participation for this customer class. Currently, the amount of default load that a bidder can win at the load cap is smaller relative to the other customer classes and enabling bidders to bid and win more volume may encourage participation. The amount of load that a bidder could win in a solicitation under DSP V was on average approximately 28 MW per tranche, based on the average estimated MW measure of a tranche across the three bid dates in which a product for the Consolidated Large Commercial and Industrial Class was available, times four tranches for a total of approximately 111 MW. As a basis for comparison, a single tranche of the Residential Class has

been approximately 49 MW, on average throughout DSP V thus far, and bidders that provide sufficient pre-bid security and that are not already default suppliers for that customer class could win on average up to 31 tranches for a total of approximately 1,517 MW. Using a similar approach, the total a bidder can bid on and win for the Small Commercial Class is 257 MW, which is more than double the volume available for the Consolidated Large Commercial and Industrial Class. As I commented previously, if the larger volume improves participation, all else equal, greater participation leads to greater competition and better prices for customers.

III. THE RFP PROCESS

12. Q. Has the RFP process under PECO's current default service program ("DSP V") been successful?

A. Yes. The Commission has thus far approved the results of every solicitation under DSP V. PECO's solicitations under DSP V have attracted wide-ranging interest, resulting in between six and thirteen suppliers being qualified to bid. The solicitations produced prices for customers that are generally consistent with then-current market conditions. The main activities of each solicitation, including the submission of possible modifications to the credit instruments, the qualification of bidders, and the submission of bids, were completed successfully and on schedule.

13. Q. What are the key elements of the RFP process?

A. The key elements of the RFP process are:

1) The communication with bidders;

2) The qualification of bidders;

3) The submission and evaluation of bids;

4) The reports provided to the Commission; and

5) The notification of bidders on the bid date.

14. Q. Is PECO proposing changes to the key elements of the RFP process?

A. PECO is proposing to continue with the same process for the first three elements of the RFP process (the communication with bidders, the qualification of bidders, and the submission and evaluation of bids). PECO is proposing improvements to the notification of bidders on the bid date and to the content of the reports that the Independent Evaluator presents to the Commission.

15. Q. Please describe how the Independent Evaluator communicates with bidders under DSP VI.

A. Under DSP VI (as was also the case under DSP V), the RFP Protocol establishes how NERA communicates with bidders. In particular, the RFP Protocol specifies the procedures for managing the dissemination of information to bidders and ensuring that information is provided fairly and equally to all bidders. In order to provide information to bidders on a fair and equal basis, NERA maintains a website that provides bidders with access to historical data, including hourly usage data, number of retail customers, and capacity peak load contributions. The website also allows bidders to submit questions concerning the RFP process and/or data provided. If PECO receives any questions directly, PECO directs those questions to NERA.

NERA responds individually to each questioner and posts the question and answer to the frequently asked questions ("FAQs") page of the RFP website so that all bidders have access to the same information. When necessary, NERA draws on PECO's expertise in drafting responses after the identity of the questioner is redacted.

NERA communicates with bidders regarding the status of their proposals or bids with individuals directly authorized to assist with the RFP process. This is essential to maintain the confidentiality of the bidder's information. A bidder submits its proposal in two parts and, after processing each part, NERA notifies the bidder of the status of its proposal. Any notification that a bidder has qualified to continue in the RFP process, along with any documents necessary for such participation, are delivered by secure file transfer to individuals directly authorized to assist with the RFP process.

16. Q. Please describe how the Independent Evaluator qualifies bidders under DSP VI.

A. Under DSP VI (as was also the case under DSP V), the bidder qualification process requires bidders to submit their proposals in two parts. All representations and certifications required in the RFP process must be made by a single individual. This individual must be an individual who can bind the bidder and is authorized to undertake contracts, including the PECO Energy Company – Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA" or "SMA") which is the standard contract that suppliers and PECO execute for the provision of default service supply. Such an individual is an "Officer of the RFP

Bidder" and has the option of submitting all of the representations for the RFP process ("Part 1" and "Part 2") at once.

In the Part 1 proposal, bidders are required to submit to a creditworthiness assessment and have the opportunity to propose modifications to the standard credit instruments. Bidders that are not existing suppliers are also required to demonstrate that they can fulfill all technical and regulatory requirements of the SMA. Additionally, bidders are asked to either provide information for the preparation of the SMA or certify that the necessary information will be provided on the day after the bid date should the bidder have bids identified as lowest-priced bids to the Commission. The bidder must represent that it is bidding independently and that all information provided is accurate and will remain valid throughout the RFP process.

Only bidders that submit a successful Part 1 proposal can submit a Part 2 proposal. In the Part 2 proposal, bidders provide pre-bid security to support their bids. A bidder certifies that the bids it submits will be binding and agrees to promptly execute the SMA, the transaction confirmations, and, if the bidder is relying on the financial standing of a guarantor, the guaranty, upon approval of its lowest-priced bids by the Commission. If relying on the financial standing of a guarantor, such bidder is also asked to either provide information for preparation of the guaranty or certify that the necessary information will be provided on the day after the bid date should the bidder have bids identified as lowest-priced bids to the Commission.

Additionally, with each solicitation, under the alternative guaranty process, bidders with corporate policies that preclude them from using the standard guaranty can request consideration by PECO of an alternate guaranty form. Required documentation related to an approved alternate guaranty is due with the Part 2 Proposal.

For each part of the proposal, NERA evaluates whether the bidder has submitted all information and documents in a manner consistent with the requirements of the RFP process. NERA advises the bidder of any deficiencies in the proposal and provides a pre-determined period to cure any such deficiencies.

17. Q. Please describe how bidders submit bids and how the Independent Evaluator evaluates the bids under DSP VI.

A. Under DSP VI (as was also the case under DSP V), after qualifying to bid, pursuant to completing the Part 1 and Part 2 proposals, bidders may submit their bids or price offers. A bidder submits a separate price offer for each tranche that it wishes to supply, stated in dollars per MWh. A bidder may bid on as many tranches as are available, subject to load cap restrictions and provided that these bids are supported by sufficient pre-bid security. A bidder uses a spreadsheet provided by the Independent Evaluator to enter its bids and submits its bids through a secure electronic interface.

Bids are evaluated on a price-only basis. For each "product", which is specific to a given supply period and for a given customer class, NERA selects the lowest-

priced bids to fill the available tranches of that product and identifies these to the Commission as the lowest-priced bids.

18. Q. Please describe the reports that NERA submits to the Commission in its role as Independent Evaluator under DSP V.

A. NERA provides two confidential reports to the Commission. One week to ten days before bids are due, NERA provides a "Market Report". This report summarizes the then-current market conditions and provides visible market prices for components of the full-requirements product. NERA is available for any questions or any supplemental information request from the Commission in this regard. Further, if there are significant changes in market conditions in the period between submitting the report and the bid date, NERA updates the visible market prices and submits a supplement to the Commission on the bid date.

By 8 AM on the day after bids are due, NERA provides to the Commission a full factual report on the results of the solicitation (the "Final Report"). This report summarizes the efforts to inform potential suppliers of the solicitation, the results of the procedure to qualify bidders, as well as the results of the evaluation of the bids. This report includes a recommendation from the Independent Evaluator on whether the lowest-priced bids should be approved. The Commission renders a decision on the results of the solicitation within one business day of the submission of the Final Report. If the Commission does not act within one business day of receiving the Final Report, the results of the solicitation are deemed approved.

19. Q. What changes is PECO proposing to the reports that NERA submits to the Commission for DSP VI?

A. PECO is proposing that, as part of the Market Report, NERA would calculate a reserve price for each of the 12-month and 24-month products of the Residential Class. PECO is also proposing that, as part of its Final Report, NERA would recommend that any lowest-priced bids for a residential product that cause the average bid price to exceed the reserve price would be rejected.

20. Q. What would be the basis for calculating the reserve price for a residential product?

A. The reserve price would account for the costs and risks of serving the residential products. It would be calculated separately for each residential product on the basis of the best available market data relevant to the PECO zone and supply period. The reserve price would be updated on the bid date and provided to the Commission in the Final Report. PECO would assist in providing the most accurate data to the Independent Evaluator. Neither the method for calculation of the reserve price or the level of the reserve price is provided to bidders.

21. Q. Can you provide an example of when the reserve price would lead NERA to recommend rejection of some of the bids identified as lowest-priced bids?

A. If the lowest-priced bids for a residential product are 50, 55, 63, 80, and 90 dollars per MWh, and the reserve price for this product is 61 dollars per MWh, NERA would recommend rejection of some of the bids identified as lowest-priced bids as follows. NERA would first calculate the average of the lowest-priced bids. The average of 50, 55, 63, 80, and 90 is 67.60, which exceeds the reserve price of 61.

NERA would remove the highest of the lowest-priced bids, 90, and recalculate the average of the lowest-priced bids. The average of 50, 55, 63, and 80 is 62.00, which still exceeds the reserve price of 61, so NERA would again remove the highest of the lowest-priced bids, 80, and recalculate the average of the lowest-priced bids excluding both 80 and 90. The average of 50, 55, and 63 is 56.00, which no longer exceeds the reserve price. As such, NERA would recommend that the Commission approve the lowest-priced bids of 50, 55, and 63 and recommend rejection of the lowest-priced bids of 80 and 90.

The reserve price aims to provide protection to residential customers from prices that may exceed the level they may be willing to pay for the benefits of fixed-price full requirements products in cases where bids on average appear outside of a reasonable range given then-current market conditions. Of course, the Commission has the final say on whether to approve or reject each of the lowest-priced bids.

22. Q. Is failure to meet the reserve price the only reason that the Independent Evaluator could recommend rejection of lowest-priced bids to the Commission?

A. No, the Independent Evaluator could recommend rejection of lowest-priced bids for other reasons, such as on the basis of competitive measures or if the RFP process was not conducted in accordance with the process approved by the Commission.

23. Q. Please describe the notification that bidders received under DSP V regarding their bids on the bid date.

A. Under DSP V, the Independent Evaluator identifies the bidder's bids that will be provided to the Commission as the lowest-priced bids on the bid date.

24. Q. What change is PECO proposing to the notification of bidders on the bid date under DSP VI?

A. PECO is proposing that bidders also be notified whether the Independent Evaluator will be recommending their lowest-priced bids for approval to the Commission on the bid date. This change is reflected in paragraph VII.3.1. of the RFP Rules provided as PECO Exhibit KO-1.

25. Q. What is the benefit of letting bidders that hold the lowest-priced bids know if the Independent Evaluator is recommending acceptance of those bids to the Commission?

A. This change reduces uncertainty as bidders are not only given the information that their bids are part of the lowest-priced bids, but also about the recommendation of the Independent Evaluator regarding these bids. Less uncertainty should encourage participation. Greater participation, all else equal, leads to greater competition and better prices for customers.

26. Q. Please explain the additional revisions shown in the blacklines of the RFP Rules and Protocols that are not reflected by the changes that you have discussed thus far.

A. The additional edits to the RFP Rules and RFP Protocol capture modifications to the processing of proposals that were made to the RFP Rules in response to emergency stay-at-home measures due to COVID-19, including:

- use of digital signatures;
- submission of credit instruments by electronic means; and
- electronic contract execution process between PECO and winning suppliers.

The modifications were necessary to accommodate suppliers that were unable to work from their usual place of business. Similarly, changes to the NERA's process for reviewing proposal and bid materials were also necessary as the NERA team was working remotely. Non-material modifications of this nature are allowed for under paragraph I.1.12. of the RFP Rules.

The blackline of the RFP Rules also shows an earlier time for notifying bidders whether their bids are provided as lowest-priced bids to the Commission, from 6 PM to 3 PM. This change was first made in September 2022, in light of volatility in energy markets. At that time, the Independent Evaluator undertook making this notification by 3 PM on a voluntary basis. This undertaking was announced to bidders prior to the bid date. Beginning in September 2023, this change in timing was incorporated into the RFP Rules to be maintained as a commitment by the Independent Evaluator for the remainder of DSP V. A notification by 3 PM allows bidders to make trades on the same day to update their hedging strategies

should they choose to do so. This change reduces uncertainty and thereby encourages participation, especially in periods of market volatility.

Additionally, the blackline of the RFP Rules captures modifications required by the ongoing improvement of the online proposal submission platform aiming at securing confidential data, including removing sensitive bidder materials between solicitations. Also, information about PECO's Time-of-Use rates, which were introduced as a result of the PECO's DSP V proceeding, was added prior to the first solicitation held under DSP V.

IV. THE UNIFORM SMA

27. Q. Is PECO proposing to make any changes to the Uniform SMA?

A. Yes, PECO is proposing a modification to the Uniform SMA that would be used to establish a capacity proxy price ("CPP") and true-up mechanism for when PJM does not conduct its Base Residual Auction ("BRA") under the Reliability Pricing Model ("RPM") for capacity in time for bidders to incorporate a known capacity price into the formulation of their bids. If the capacity price is not known for all months of the delivery period for a product offered at least five business days prior to the bid date, bidders would use the CPP to formulate their bids. Under the Uniform SMA, winning bidders would be made whole for the difference between the CPP and the actual capacity price that bidders pay to PJM.

28. Q. How would the CPP be calculated?

A. The CPP would be calculated as the average of the most recent results under PJM's RPM from the two most recent delivery years for which PJM has held a capacity auction.

29. Q. How would winning bidders be made whole?

A. Winning bidders would be made whole through a true-up mechanism under the Uniform SMA. For each month for which the capacity price was not known ahead of time, a true-up for a given day would be calculated as the difference between the actual capacity price and the CPP multiplied by the winning bidder's daily capacity obligation. Thus, if the CPP is less than the actual capacity price, the winning bidder would receive an additional payment to ensure they are fully compensated for their capacity cost to serve the product. Conversely, if the CPP is greater than the actual capacity price from PJM, the winning bidder's payment under the contract would be reduced based on the same calculation.

30. Q. Why is this a desirable change?

A. The true-up mechanism provides certainty to bidders that they will be fully compensated for their costs to PJM for capacity. This certainty should encourage participation leading to greater competition and better prices for customers.

31. Q. Where is this change incorporated?

A. The true-up mechanism is reflected in the Transaction Confirmation to the Uniform SMA (Exhibit 1 to Appendix C).

V. NERA'S ROLE AS INDEPENDENT EVALUATOR

32. Q. Is PECO proposing changes to the division of responsibilities for the administration of the RFP process under DSP VI?

A. No. NERA would continue to be the main point of contact with bidders and will ensure that the RFP process and rules, as approved by the Commission, are followed. NERA would also continue to provide reports to the Commission to facilitate its review of solicitation results. PECO would continue to assess the creditworthiness of bidders, to review proposed changes to credit instruments, and to review contract documents.

33. Q. Is PECO proposing any changes to the RFP Protocol regarding interactions between NERA and PECO?

A. No. The process has worked well and there is no reason for change.

VI. CONCLUSION

34. Q. Should the RFP process be approved for DSP VI?

A. Yes. The RFP process for DSP V was successful. The RFP process proposed for DSP VI maintains the elements that were successful in DSP V and introduces targeted changes that will build upon this success.

35. Q. Ms. Orlandi, does this conclude your direct testimony?

A. Yes.

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

PETITION OF PECO ENERGY COMPANY FOR APPROVAL OF ITS DEFAULT SERVICE PROGRAM FOR THE PERIOD FROM JUNE 1, 2025 THROUGH MAY 31, 2029	:	**DOCKET NO. P-2024-_____**

VERIFICATION

I, Katie Orlandi, hereby state that I am a Managing Director with NERA Economic Consulting; that I am authorized to and do make this Verification; and that the facts set forth in PECO Statement No. 4 and the accompanying exhibits are true and correct to the best of my knowledge, information and belief and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa. C.S. § 4904, relating to unsworn falsification to authorities.

Dated: February 2, 2024

ARTICLE I. INTRODUCTION

I.1. Overview

I.1.1. Capitalized terms in this document, which are not defined explicitly herein, are defined in the PECO Energy Company - Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA" or "SMA"). The Uniform SMA is attached as Appendix 1 to this document.

I.1.2. As part of its sixth Default Service Plan ("DSP VI"), PECO Energy Company ("Company" or "PECO") is proposing a competitive bidding process to obtain full requirements supply for the Company to meet a portion of its obligations as Default Service Provider pursuant to Chapter 28 of the Pennsylvania Public Utility Code, 66 Pa. C. S. §§ 2801-2812. This competitive bidding process is consistent with Chapter 28, with P.L. 1592 No. 129 ("Act 129"), with the Pennsylvania Public Utility Commission's ("Commission" or "PaPUC") Default Service regulations in its Final Rulemaking Order in Docket No. L-2009-2095604, and the Commission's Final Policy Statement on Default Service in Docket No. M-2009-2140580.

I.1.3. PECO currently provides electric generation service to all customers within its service territory who do not select an electric generation supplier ("EGS"). Such customers are "Default Service customers" or "DS Customers". The competitive bidding process would procure supply for the period beginning June 1, 2025 when PECO's fifth Default Service Plan ("DSP V") expires.

I.1.4. The competitive bidding process will be conducted through a series of Requests for Proposals ("RFPs") issued twice yearly. The RFP consists of a total of fourteen (14) documents. This main document is called the "RFP Rules" and it describes generally how the RFP will be conducted. Prior to each solicitation, an "Addendum to the RFP Rules" will be issued and it will provide information relevant to that solicitation such as the schedule and products to be procured. The following documents are appended to, and shall be considered an integral part of, the RFP Rules:

Appendix 0: Addendum to the RFP Rules
Appendix 1: Uniform SMA
Appendix 2: Alternate Guaranty Process
Appendix 3: Illustrative Standard Part 1 Form
Appendix 4: Illustrative Short Part 1 Form
Appendix 5: Chief Financial Officer Attestation
Appendix 6: Officers' Certificate (for RFP Bidders under an Agency Agreement)
Appendix 7: Illustrative Standard Part 2 Form

Appendix 8: Illustrative Short Part 2 Form
Appendix 9: Standard Pre-Bid Letter of Credit
Appendix 10: Sample Bid Form
Appendix 11: Tentative Schedule for Future Solicitations
Appendix 12: Confidentiality Statement

I.1.5. DSP VI plans for the procurement of full requirements supply for three (3) "Classes" of Default Service customers: the Residential ("RES") Class, the Small Commercial ("SC") Class, and the Consolidated Large Commercial and Industrial ("CCI") Class. Each such Class (or "DS Customer Group") is a group of specific rate schedules as provided in the following table:

Table I-1. Customer Classes.

Class	Customers Included	Rate Schedule	Description
Residential	All residential customers	R	Residence Service
		RH	Residential Heating Service
Small Commercial	Non-residential customers with Peak Load Contribution up to and including 100kW and lighting customers	GS	General Service
		HT	High-Tension Power
		PD	Primary – Distribution Power
		AL	Alley Lighting in City of Philadelphia
		TLCL	Traffic Lighting Constant Load Service
		POL	Private Outdoor Lighting
		SL-C	Smart Lighting Control Lighting Customer Owned Facilities
		SL-E	Street Lighting Customer-Owned Facilities
		SL-S	Street Lighting-Suburban Counties
Consolidated Large Commercial and Industrial	Non-residential customers with Peak Load Contribution greater than 100kW	GS	General Service
		HT	High-Tension Power
		PD	Primary –Distribution Power
		EP	Electric Propulsion

I.1.6. For the RES and SC Classes, the Company will solicit bids for the procurement of full requirements service on a fixed-price basis. For the CCI Class, the Company will solicit bids for the procurement of full requirements service with energy priced to the PJM day-ahead spot market. The Default Service supply ("Default Supply" or "DS Supply") for a Class is the full requirements electricity supply based on the load of the retail customers in that Class measured and recorded by the Company and settled by PJM. The load of the Default Service customers in a Class is the "Default Load" or "DS Load" of that Class. A supplier selected through the competitive bidding process under DSP VI to provide Default

Supply for a particular Class and approved by the Commission becomes a "Default Supplier" or "DS Supplier" for that Class.

I.1.7. A Default Service customer may choose to begin receiving service from an EGS on the customer's meter reading date in accordance with the Company's standard switching requirements as described in the Company's Electric Generation Supplier Coordination Tariff including, without limitation, prior advance notice to the Company. A customer served by an EGS may return to Default Service on the customer's meter reading date in accordance with the Company's standard switching requirements as described in the Company's Electric Generation Supplier Coordination Tariff including, without limitation, prior advance notice to the Company.

I.1.8. There are eight (8) "solicitations" or "DS Solicitations" under DSP VI that will select electricity suppliers to provide Default Supply for the period June 1, 2025 through May 31, 2029 and for a portion of the Company's requirements for the RES Class and SC Class for the period beyond June 1, 2029. Each solicitation will be identified by the month and year in which the Bid Date occurs. Solicitations will be held in March and September of each year, starting with a solicitation in March 2025 and ending with a solicitation in September 2028. A typical schedule for a solicitation is provided in Paragraph II.2.1. For each solicitation, the Addendum to the RFP Rules will be updated to include the dates for that solicitation and to refer to the particular products to be procured in that solicitation. The Independent Evaluator and the Company may advise the Commission to postpone or modify the schedule of a solicitation when market conditions are impacted by extraordinary events, such as the advent of war, terrorism, or an act of God.

I.1.9. Standard rates of Default Service customers for a Class are determined on the basis of the prices determined through this RFP for that Class. As provided in the Commission's directive dated October 12, 2010 (Docket No. M-2009-2082042), PECO provides a Default Service rate calculation model that translates the prices determined through this RFP into Default Service rates. This calculation model is posted to the PECO website:

https://www.peco.com/MyAccount/MyService/Pages/ElectricPricetoCompare.aspx

I.1.10. Except for customers who participate in PECO's Customer Assistance Program, default service customers in the Residential and Small Commercial Classes can elect a time of use ("TOU") default

service rate. Under this option, a customer: 1) pays a higher rate for peak usage (2 PM through 6 PM each week day) compared to the standard default service rate; 2) receives a discount off the standard default service rate during super off-peak hours (12 AM to 6 AM each day); and 3) receives a smaller discount in all other hours.

I.1.11. The rates for the Residential Class are also determined on the basis of the cost to PECO to acquire the necessary supply through PJM-administered markets to serve 0.8% of the Default Load of the RES Class. For this portion of the RES Class, PECO acquires sufficient Alternative Energy Credits ("AECs") at market prices to satisfy any near-term obligations under the AEPS Act. PECO also receives an annual allocation of capacity and associated energy from the New York Power Authority and uses this allocation to offset the amount of supply needed for the RES Class.

I.1.12. These RFP Rules may be updated to reflect additional decisions by the Commission, relevant changes in law, or non-material modifications to the processing of Proposals expected to improve potential participation by suppliers. Additionally, the Independent Evaluator and the Company may amend the RFP Rules if necessary to correct typographical errors, cure inconsistencies in the provisions of this RFP, or clarify the intent of the provisions of this RFP.

I.2. Products and Bids

I.2.1. Default Load for each Class is divided into tranches. A tranche for a Class represents a fixed percentage of the Default Load for that Class. A Default Supplier serving a tranche in a particular Class provides full requirements service for the percentage of that Class' Default Load represented by that one (1) tranche for a specified period.

I.2.2. The total number of tranches of Default Load is based on that Class' annual Peak Load Contribution ("PLC") on the PECO system in accordance with PJM. The MW-Measure is calculated as the annual PLC for the Default Load of the Class divided by the total number of tranches. This figure is calculated for reference purposes only.

I.2.3. Each Class has "Load Caps", which are limits on the number of tranches of Default Supply that an RFP Bidder can bid and serve for that Class. The Load Caps ensure that there will be a diversified pool of Default Suppliers for each Class. The Load Caps for the Residential and Small Commercial Classes are

set so that the Default Service customers of that Class have no more than a 50% exposure to any one Default Supplier at any given time. The Load Cap for the Consolidated Large Commercial and Industrial Class is set so that the Default Service customers of that Class have no more than a 75% exposure to any one Default Supplier at any given time. If two or more Default Suppliers are affiliated, the Load Caps will apply jointly to such group of Default Suppliers.

I.2.4. The total number of tranches, Load Caps, and the percentage size of each tranche to be procured under DSP VI are shown in the table below. The Total Peak (MW), Default Peak (MW), and MW-Measure of each tranche are updated for each solicitation and will be provided in the Addendum to the RFP Rules.

Table I-2. Number of Tranches and Size of a Tranche for Default Load.

Class	Total Tranches	Load Cap	% Size of a Tranche
RES	62	31	1.60%
SC	24	12	4.17%
CCI	8	6	12.50%

I.2.5. The total number of tranches and the tranche size for the SC and CCI Classes are subject to change. The Independent Evaluator and PECO may revise the total number of tranches for a Class if doing so is expected to increase supplier interest. The Independent Evaluator informs Commission Staff of such a revision and announces the revision to suppliers in advance of suppliers presenting their qualifications.

I.2.6. The actual Default Load for the RES, SC, or CCI Class will depend upon many factors including, but not limited to, customer migration to EGSs and weather conditions. The maximum peak load of a Class may be higher or lower than the PLC utilized to determine the MW-Measure of tranches for that Class. Each participant is responsible for evaluating the uncertainties associated with Default Service Load for a particular Class and supply period.

I.2.7. A product for purposes of this RFP is defined by three characteristics: a) the Class to which it contributes Default Supply; b) the length of the supply period; and c) the date at which the supply period begins. For example, the RES-12-Jun26 product represents Default Supply for the RES Class for the supply period from June 1, 2026 through May 31, 2027. A product name may be abbreviated

when the context is clear; for example, RES-12 refers to all products for the Residential Class that are twelve (12) months in duration, regardless of the start date of the supply period.

I.2.8. A Proposal is a response to this RFP for a solicitation pursuant to these RFP Rules. An entity that submits any part of a response to this RFP for a solicitation is an "RFP Bidder". A Bid for a tranche for any product is a price in dollars per MWh rounded to the nearest cent. An RFP Bidder may submit different Bids for different tranches of a given product.

I.2.9. The table below provides the products that will be procured for each solicitation under DSP VI.

Table I-3. Schedule of Procurement for Products.

Product	Solicitation							
	March 2025	*September 2025*	*March 2026*	*September 2026*	*March 2027*	*September 2027*	*March 2028*	*September 2028*

SC-24-Jun28	0	0	0	0	0	0	3	0
SC-12-Dec28	0	0	0	0	0	0	0	6
SC-24-Dec28	0	0	0	0	0	0	0	3
CCI-12-Jun25	8	0	0	0	0	0	0	0
CCI-12-Jun26	0	0	8	0	0	0	0	0
CCI-12-Jun27	0	0	0	0	8	0	0	0
CCI-12-Jun28	0	0	0	0	0	0	8	0

I.2.10. The Load Caps apply to all products that contribute to Default Supply for a Class at a given point in time. The table below provides the products procured under DSP V and products to be procured under DSP VI that contribute to Default Supply for that Class during that time period and that should be considered in determining whether Load Caps apply to a particular Default Supplier. The products procured under DSP V are italicized. For example, at any given point in time in the period from June 1, 2026 to November 30, 2026, the Default Supply for the RES Class includes the following products:

RES-24-Dec24 and RES-24-Jun25 and RES-12-Dec25 and RES-24-Dec25 and RES-12-Jun26 and RES-24-Jun26.

Table I-4. Load Caps.

Class	Time Period	Products that contribute to Default Supply during time period

CCI	Any		CCI-12

I.2.11. The Addendum to the RFP Rules for each solicitation will contain a table with the available tranches and Load Caps for that solicitation specifically as well as an explanation of the Load Caps for that solicitation.

I.2.12. A supplier participating in this RFP bids to provide Default Supply for one or more of the RES, SC, and CCI Classes, and for one or more supply periods. The obligations of the Default Supplier are described in the "Uniform SMA". The term Uniform SMA is an abbreviation for PECO Energy Company Pennsylvania Default Service Supplier Master Agreement, which may also be abbreviated by "SMA", "DS Supplier Master Agreement" or "Supplier Master Agreement". The main provisions of the Uniform SMA are summarized in Section I.4.

I.2.13. The contingency plan in the event that PECO is unable to obtain Default Supply for all tranches of a product in a solicitation is as follows. If the product is more than six (6) months in duration, PECO will assume responsibility for the unfilled tranches as a PJM LSE for the first six (6) months of the supply period, acquiring the necessary supply through PJM-administered markets and obtaining sufficient AECs at market prices to satisfy any near-term obligations under the AEPS Act. The unfilled tranches, with a supply period that starts six (6) months later than the supply period of the tranches that were unfilled, will be placed for re-bid in the next solicitation. For products that are six (6) months or shorter, PECO will assume responsibility for the unfilled tranches as an LSE and will acquire the necessary supply through PJM-administered markets for the entire supply period. PECO reserves the right to file an alternate plan with the Commission.

I.2.14. Any prospective supplier that meets the qualification standards established in these RFP Rules and that is willing to provide prices at which to serve tranches of Default Service Load can respond to this RFP, including any PECO affiliates.

I.3. Process

I.3.1. To qualify for a typical solicitation, suppliers provide materials to respond to the qualification standards described in Article IV. RFP Bidders that did not qualify in a previous solicitation under DSP VI use the Standard Part 1 Form available online through the Proposal submission website to respond to these qualification standards. Previously qualified RFP Bidders under DSP VI may participate in an abbreviated qualification process by using the Short Part 1 Form available online through the Proposal submission website to respond to these qualification standards. An Illustrative Standard Part 1 Form and an Illustrative Short Part 1 Form are available as Appendix 3 and Appendix

4 respectively to these RFP Rules and are also available electronically on the RFP website: www.PECOProcurement.com. The generic term "Part 1 Form" refers either to the Standard Part 1 Form or the Short Part 1 Form. Part 1 Proposals are submitted during the "Part 1 Window".

I.3.2. Prior to a typical solicitation, a supplier unable to use the Guaranty provided as Appendix G to the Uniform SMA (the "Standard Guaranty") can request consideration by PECO of an alternate form of guaranty that the supplier uses in its normal course of business. Such request must be received no later than fifteen (15) business days prior to the opening of the Part 1 Window. Within three (3) business days of receipt of such a request, the Independent Evaluator will issue a timetable for receipt of the materials from the supplier and for consideration of these materials by PECO. This timetable will be such that a final decision on whether to accept the supplier's alternate form of guaranty will be communicated to the supplier prior to the Part 1 Window.

I.3.3. To become eligible to bid for a solicitation, RFP Bidders that have met the qualification standards of Article IV must respond to the Part 2 Proposal requirements described in Article V of these RFP Rules. RFP Bidders use the Part 2 Form available online through the Proposal submission website to respond to these requirements. RFP Bidders that became eligible to submit Bids in a previous solicitation held under DSP VI may participate in an abbreviated process by using the Short Part 2 Form available online through the Proposal submission website to respond to these requirements. The generic term "Part 2 Form" refers either to the Standard Part 2 Form or the Short Part 2 Form. Part 2 Proposals are submitted during the "Part 2 Window".

I.3.4. RFP Bidders use the Bid Form provided by the Independent Evaluator to submit their Bids. A sample Bid Form is provided for illustrative purposes as Appendix 10 of these RFP Rules. Each RFP Bidder's Bids must be received between 10 AM and 12 PM (noon) on the "Bid Date" or "Bid Proposal Due Date".

I.3.5. On the first business day after the Bid Date, the Independent Evaluator presents to the Commission the results of the solicitation in a confidential report. The Commission has one (1) business day to consider the report of the Independent Evaluator and to approve or reject each of the lowest-priced Bids. If the PaPUC does not act within one (1) business day, the lowest-priced Bids are deemed to be approved.

I.3.6. PECO and each RFP Bidder with Bids that are approved by the Commission proceed to the execution of the Uniform SMA and the Transaction Confirmations within three (3) business days of the Bid Date. PECO and each such RFP Bidder execute a single Uniform SMA during the course of DSP VI. Each solicitation, PECO and each such RFP Bidder execute a Transaction Confirmation for each product for which such RFP Bidder has Bids that are approved by the Commission. Appendix E to the Uniform SMA specifies the AEPS percentage obligations in effect on the Bid Date for the period covered by each Transaction Confirmation.

I.3.7. Within fifteen (15) days of the Bid Date, the Independent Evaluator releases the weighted average price for each product procured as well as the percentage of load represented by each tranche.

I.4. Supplier's Obligations

I.4.1. A supplier selected through this RFP to provide Default Supply for a particular Class and approved by the Commission becomes a "Default Supplier" for that Class. A Default Supplier may be providing Default Supply for one or more of the RES, SC, and CCI Classes.

I.4.2. This section describes in general terms several provisions of the Uniform SMA. This is a summary only and is subject to and qualified in its entirety by the Uniform SMA provided as Appendix 1 to the RFP Rules. Each RFP Bidder accepts the obligations and associated rights to provide Default Supply as defined in the Uniform SMA as part of its Proposal.

I.4.3. Default Suppliers for a Class will serve the Company's Default Load for that Class. Default Service for one of these Classes is the Company's full requirements service including, without limitation, energy, capacity, transmission (excluding Network Integration Transmission Service), ancillary services, AECs for compliance with the AEPS Act, transmission and distribution losses, congestion management costs, and such other services or products that are required to serve the specified percentage of Default Load for that Class (except for distribution service). Default Load for the RES Class is reduced by a fractional percentage of committed energy and capacity obtained under contract with Allegheny Electric Cooperative, Inc. for supply from the New York Power Authority.

I.4.4. Default Suppliers are also responsible for providing AECs during the term of the Uniform SMA necessary for PECO to meet its obligations under the AEPS Act, as well as other Orders, regulations

and rules that may be promulgated by the PaPUC with respect to the AEPS. Default Suppliers will be required to participate in the PJM Generation Attribute Tracking System ("PJM-EIS GATS") to transfer AECs to PECO. The Company will provide an estimate of the Default Supplier's AEPS obligation following the second quarter of the AEPS Reporting Period and the Default Supplier will be required to transfer AECs to PECO in the amount of the estimate within forty-five (45) calendar days of the date of that estimate. The Company will provide a final statement to the Default Supplier within thirty (30) calendar days of the end of AEPS Reporting Period and the Default Supplier will be required to transfer AECs in the amount of the final statement within forty-five (45) calendar days after the date of the final statement.

I.4.5. A Default Supplier that fails to provide sufficient AECs for a tranche will be required to pay any AEPS penalties, costs, charges, etc. assessed against the Default Supplier and/or the Company associated with the Default Supplier's non-performance with AEPS requirements.

I.4.6. PECO has obtained AECs from separate AEPS procurement(s) approved by the Commission and PECO will reduce the amount of AECs that Default Suppliers must provide. Prior to each solicitation, PECO will inform RFP Bidders of the amounts of AECs allocated for this purpose for each tranche of each product for which Default Supply is procured in that solicitation.

I.4.7. A Default Supplier for a product will be paid a supplier-specific price for each MWh of electric load served as specified in the Transaction Confirmation for that product. The supplier-specific price for a Default Supplier for a product will be the average of approved Bids for that Default Supplier and for that product. The PJM day-ahead price for energy and the Reliability Pricing Model ("RPM") price for capacity are also paid to a Default Supplier providing full requirements service on a spot-price basis.

I.4.8. The Default Supplier will specify in the Transaction Confirmation the price of each type of AECs included in its supplier-specific price.

I.4.9. PECO will transfer or assign Auction Revenue Rights ("ARRs") to each Default Supplier in proportion to the percentage of Default Load that it serves. A Default Supplier will participate in the PJM process for the nominations of ARRs to the extent that the supply period under the Transaction Confirmation is inclusive of the PJM Planning Period for which the ARRs are nominated; otherwise, PECO will participate in the PJM ARR nomination process. Specifically, for any product with a supply period

that starts in June, PECO will participate in the PJM ARR nomination process and will transfer or assign ARRs to each Default Supplier for the first June-May period, and for a 24-month product the Default Supplier will participate directly in the PJM ARR nomination process for the second June-May period. For any product with a supply period that starts in December, PECO will transfer or assign ARRs to each Default Supplier for the first 6-months of the supply period, and the Default Supplier will participate in each applicable PJM ARR nomination process directly for the remainder of the supply period beginning with the first PJM Planning Period applicable to the first June-May period.

I.4.10. If the results for the Base Residual Auction ("BRA") under PJM's RPM for a delivery year (June-May) relevant to a product in a solicitation are not announced by PJM at least five (5) business days prior to the Bid Date, a capacity proxy price ("CPP") is established for the delivery year for which the capacity price was not announced. The CPP would be calculated as the average of the most recent results under PJM's RPM from the two most recent delivery years for which PJM has held a capacity auction. For the avoidance of doubt, the results of the most recent Incremental Auction held under PJM's RPM would be used if an Incremental Auction has been held for a delivery year. If a CPP is established for a product in a solicitation, a true-up mechanism, described in the Capacity Supplement in Exhibit 1 to Appendix C of the Uniform SMA, will apply to the Transaction Confirmation for the product.

ARTICLE II. Information and Schedule

II.1. RFP Website

II.1.1. PECO and its Independent Evaluator have established an RFP website that is the main source of information. RFP Bidders and other stakeholders can visit this RFP website to obtain information and documents related to this RFP. The RFP website address is www.PECOProcurement.com.

II.1.2. The RFP website contains the sections described below. New sections may be added as necessary to assist RFP Bidders.

Home: This section provides announcements of interest to RFP Bidders and to other interested parties, an outline of the RFP process, a search function, and a summary of important dates.

Background: These sections provide background information on the regulatory process, the results of previous solicitations and archives of documents. FAQs and announcements from previous solicitations are provided for reference purposes only.

Supplier Information: This section provides documents regarding the RFP as well as frequently asked questions ("FAQs"), RFP-related announcements, and NITS rate information. All stakeholders, including RFP Bidders, are able to ask questions via a web form. The Independent Evaluator provides an answer to the question via email to the questioner, and a copy of the question and answer is posted so that all stakeholders and RFP Bidders have access to the same information. Aspects of the question and/or answer that might identify the party asking the question are removed before posting to the extent practical.

Data Room: This section provides historical data to assist prospective suppliers. Links to the PJM website and related documents can also be found in this section.

Calendar: This section provides the timeline for the main events in the current and upcoming solicitations.

Contact Us: This section gives any stakeholder an opportunity to register its email address to receive updates and announcements regarding this RFP. The section also provides the contact information for the Independent Evaluator, an electronic web form to submit questions to the Independent Evaluator, and a web form for prospective suppliers to register for bidder information sessions.

II.2. RFP Schedule

II.2.1. Each solicitation will follow the order of events in the general schedule provided below.

Table II-1. General Schedule.

Event	Timing
Deadline to request consideration of an alternate form of guaranty	Day -15
Bidder Information Webcast	Day -7
Decision on alternate guaranty forms (if any)	Day -2
Part 1 Window Opens	Day 0
Part 1 Date (Part 1 Window Closes)	Day 4
Part 1 Notification Date	Day 6
Approved modifications to Standard Guaranty posted	Day 7
Part 2 Proposal Window Opens	Day 7
Bid Submission training	Day 10
Part 2 Date (Part 2 Window Closes)	Day 11
Part 2 Notification Date	Day 13
Bid Date (Bids are Due)	Day 14
IE provides its report to the PaPUC	Day 15
PaPUC Decision (close of business)	No later than Day 16
If Bids are approved by the PaPUC:	
PECO and each winning RFP Bidder proceed to execution of the Uniform SMA and each Transaction Confirmation	Within three business days of the Bid Date

II.2.2. A total of eight (8) solicitations are planned under DSP VI. The Bid Dates for each of the solicitations are provided below.

Table II-2. Bid Dates.

Solicitation	Bid Dates
March 2025	Tuesday, March 11, 2025
September 2025	Tuesday, September 23, 2025
March 2026	Tuesday, March 10, 2026
September 2026	Tuesday, September 29, 2026
March 2027	Tuesday, March 9, 2027
September 2027	Tuesday, September 28, 2027
March 2028	Tuesday, March 14, 2028
September 2028	Tuesday, September 26, 2028

II.2.3. The date for each event in each future solicitation is provided in the Tentative Schedule for Future Solicitations attached as Appendix 11 to these RFP Rules. The dates for each event in the current solicitation is provided in the Addendum to the RFP Rules. The dates follow the order of events and the number of days between events in the general schedule above except as needed to accommodate

holidays. The schedule for a solicitation may be amended if circumstances warrant. Any such amendments will be posted to the RFP website.

II.2.4. Specific times for submission of materials for the Part 1 Proposals, the Part 2 Proposals, and the Bids are provided elsewhere in this RFP. All such times are Eastern Prevailing Time ("EPT") unless specifically noted.

ARTICLE III. General Requirements for Proposals

III.1.1. An entity that submits any part of a response to this RFP for a solicitation is an "RFP Bidder". An RFP Bidder can submit at most one Part 1 Proposal and one Part 2 Proposal for each solicitation. An RFP Bidder that qualifies for a solicitation by submitting a Part 1 Proposal that fulfills all requirements described in Article IV and that submits a Part 2 Proposal that fulfills all the requirements described in Article V is eligible to submit Bids in that solicitation. Aside from submission of financial guarantees to support its Bids, all materials for the Part 1 Proposals and all Part 2 Proposals are submitted to the Independent Evaluator online through the online Proposal submission website or by email at pecoprocurement@nera.com in accordance with the instructions provided in Article VII.

III.1.2. The submission of a Part 1 Proposal or a Part 2 Proposal to the Independent Evaluator constitutes the RFP Bidder's acknowledgement and acceptance of all the terms and conditions of this RFP, regardless of the outcome of the solicitation or the outcome of such Proposal.

III.1.3. Each solicitation will have a Part 1 Window during which Part 1 Proposals may be submitted. The last day of the Part 1 Window is the "Part 1 Date". The requirements of the Part 1 Proposal are described in Article IV. "Previously qualified RFP Bidder" means an RFP Bidder that met the qualification standards in a previous solicitation under DSP VI by submitting a Part 1 Proposal that fulfilled all the requirements of Article IV. A previously qualified RFP Bidder may participate in an abbreviated Part 1 Proposal process. A supplier selected through the competitive bidding process under DSP VI to provide Default Supply for a particular Class and approved by the Commission becomes a Default Supplier for that Class.

III.1.4. The exclusive method for an RFP Bidder to complete the Part 1 Proposal is to submit the online Part 1 Form as well as provide Inserts to the Part 1 Form available as separate Word Forms on the Proposal submission website or from the Independent Evaluator. Documents (supporting documents, draft Letter of Credit, and draft Standard Guaranty) may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com An Insert to the Part 1 Form that does not require a signature may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com.

An Insert to the Part 1 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

III.1.5. Each RFP Bidder must comply with all Part 1 Proposal requirements described in Article IV. Section IV.1 describes the contact information and representations required. Section IV.2 describes financial requirements including requirements that apply to RFP Bidders relying on the financial standing of an RFP Guarantor and additional requirements applicable only to RFP Bidders submitting a Proposal under an Agency Agreement. Section IV.3 describes the process by which RFP Bidders may propose modifications to the credit instruments (the Standard Pre-Bid Letter of Credit, the Standard Post-Bid Letter of Credit, and the Standard Guaranty) and describes the information that an RFP Bidder is asked to provide for the Independent Evaluator to prepare the Uniform SMA documents should the Independent Evaluator identify one or more of the RFP Bidder's Bids to the Commission as lowest-priced Bids. Section IV.4 describes the representations required. Section IV.5 lists additional requirements applicable only to RFP Bidders that have not been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia ("Foreign RFP Bidders"), or to RFP Bidders that rely on the financial standing of an entity that has not been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia ("Foreign Entity"). Each of the Sections of Article IV explains the abbreviated Part 1 Proposal process in which previously qualified RFP Bidders may participate.

III.1.6. The Independent Evaluator informs each RFP Bidder of whether it has met all qualification standards of Article IV through a Part 1 Notification that the Independent Evaluator sends to the RFP Bidder by the Part 1 Notification Date. The Independent Evaluator transmits within two (2) business days of the Part 1 Notification Date to each RFP Bidder that has a successful Part 1 Proposal a number of documents and instructions, called the "Part 1 Materials".

III.1.7. All information provided and certifications made in the Part 1 Proposal must remain valid and remain in full force and effect until six (6) business days after the Bid Date. Regardless of the reason, if any information provided in the Part 1 Proposal changes or any previous certification fails to remain valid, it is the sole responsibility of the RFP Bidder to notify the Independent Evaluator as soon as

practicable. Failing to do so may result in disqualification of the RFP Bidder and of its Proposal. The Independent Evaluator reserves the right to change the assessment of an RFP Bidder's qualifications based on any revised information provided by the RFP Bidder.

III.1.8. Each solicitation will have a Part 2 Window during which Part 2 Proposals may be submitted. The last day of the Part 2 Window is the "Part 2 Date". RFP Bidders also have the option to submit the representations and certifications required by the online Part 2 Form during the Part 1 Window for early processing. The requirements of the Part 2 Proposal are described in Article V. "Previously eligible RFP Bidder" means an RFP Bidder that became eligible to submit Bids in a previous solicitation held under DSP VI by submitting a Part 1 Proposal that fulfilled all the requirements of Article IV and a Part 2 Proposal that fulfilled all the requirements of Article V. A previously eligible RFP Bidder may participate in an abbreviated Part 2 Proposal process.

III.1.9. The exclusive method for an RFP Bidder to complete the Part 2 Proposal is to submit the online Part 2 Form as well as provide an executed Pre-Bid Letter of Credit. The Pre-Bid Letter of Credit must be submitted as an electronic PDF file via electronic means only to the Independent Evaluator at pecoprocurement@nera.com. An Insert to the Part 2 Form that does not require a signature may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 2 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions. Any other documents, excluding Inserts and the Pre-Bid Letter of Credit, required by the Part 2 Proposal may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com.

III.1.10. Each RFP Bidder must comply with all Part 2 Proposal requirements described in Article V. Section V.1 describes the contact information and representations required by the Part 2 Proposal. Section V.2 describes the Pre-Bid Letter of Credit required to support the RFP Bidder's Bids. Section V.3 lists additional requirements for RFP Bidders relying on the financial standing of an RFP Guarantor. Section V.4 lists additional requirements applicable only to RFP Bidders submitting a Proposal under an Agency Agreement. Section V.5 lists additional requirements applicable only to Foreign RFP Bidders or to RFP Bidders that rely on the financial standing of a Foreign Entity. Each of the Sections

of Article V explains the abbreviated Part 2 Proposal process in which previously eligible RFP Bidders may participate.

III.1.11. The Independent Evaluator informs each RFP Bidder of whether it has met all qualification standards of Article IV and all requirements of Article V so that it is eligible to submit Bids through a Part 2 Notification. The Independent Evaluator sends the Part 2 Notification to the RFP Bidder by the Part 2 Notification Date.

III.1.12. All information provided and certifications made in the Part 2 Proposal must remain valid and remain in full force and effect until six (6) business days after the Bid Date. Regardless of the reason, if any information provided in the Part 2 Proposal changes or any previous certification fails to remain valid, it is the sole responsibility of the RFP Bidder to notify the Independent Evaluator as soon as practicable. Failing to do so may result in disqualification of the RFP Bidder and of its Proposal. The Independent Evaluator reserves the right to change the assessment of an RFP Bidder's eligibility to submit Bids based on any revised information provided by the RFP Bidder.

III.1.13. For a given solicitation, all representations and certifications required by this RFP must be made by a single individual who serves as Officer of the RFP Bidder. An Officer of the RFP Bidder is an individual authorized to undertake contracts (including the Uniform SMA) and bind that RFP Bidder. As a requirement of the Part 1 Proposal, the RFP Bidder must name an individual who serves as Officer of the RFP Bidder and must provide full contact information for this individual. The Officer of the RFP Bidder may sign all representations and certifications of the Part 1 Form and Part 2 Form at one time and RFP Bidders have the option to submit certifications required by the online Part 2 Form during the Part 1 Window for early processing.

III.1.14. The Officer of the RFP Bidder named in the Part 1 Proposal will sign, or will nominate another authorized individual to execute the Uniform SMA as well as any Transaction Confirmations if any of the RFP Bidder's Bids are approved by the Commission.

III.1.15. Each RFP Bidder must comply with the instructions for the submission of Bids provided with its Part 1 Notification. Article VI describes in general terms the requirements for the submission of Bids.

III.1.16. Proposals that do not adhere to the terms and conditions of this RFP, or that do not fulfill all requirements of Article IV, Article V, and Article VI of this RFP, or that are not submitted in accordance

with the process of Article VII or in accordance with the instructions provided by the Independent Evaluator in an addendum to these RFP Rules, will not be considered.

III.1.17. The Independent Evaluator will send to each RFP Bidder that submitted a successful Part 1 Proposal in a previous solicitation under DSP VI an email confirming its status as a previously qualified RFP Bidder. Such RFP Bidder may participate in an abbreviated Part 1 Proposal process. The Independent Evaluator will send to each RFP Bidder that submitted a successful Part 1 Proposal and a successful Part 2 Proposal in a previous solicitation under DSP VI an email confirming its status as a previously eligible RFP Bidder. Such RFP Bidder may participate in an abbreviated Part 1 Proposal process and an abbreviated Part 2 Proposal process.

III.1.18. The RFP Bidder, at its own cost and expense, shall defend PECO, and the Independent Evaluator and their subsidiaries, affiliates, successors and assigns, and each and every one of their respective past, present, or future officers, directors, trustees, employees, shareholders, executors, administrators, successors and assigns, other than entities that are also RFP Bidders, against any and all manner of past, present, or future claims, demands, disputes, controversies, complaints, suits, actions, proceedings, or allegations of any kind which in any manner relate to, arise out of, or result from any false statement in the Proposal or breach of any covenant by the RFP Bidder set forth herein. The RFP Bidder shall indemnify and hold harmless PECO, the Independent Evaluator, their parent companies, subsidiaries, affiliates, successors and assigns, and each and every one of their respective past, present, or future officers, directors, trustees, employees, shareholders and agents, as well as the heirs, executors, administrators, successors and assigns, other than entities that are RFP Bidders, against any and all liens, judgments, liabilities, losses, injuries, damages, fees, fines, penalties, costs or expenses which in any manner relate to, arise out of, or result from any false statement or misrepresentation in the Proposal or breach of any warranty by the RFP Bidder as set forth herein.

ARTICLE IV. Part 1 Proposal Requirements

Previously qualified RFP Bidders under DSP VI may participate in an abbreviated qualification process by using the Short Part 1 Form available online through the Proposal submission website to respond to these qualification standards.

IV.1. Contact Information and Representations

IV.1.1. Contact Information for the RFP Bidder. Each RFP Bidder must provide the RFP Bidder's legal name and address.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder is required to submit contact information in its Part 1 Proposal.
- If a previously qualified RFP Bidder updates the RFP Bidder's legal name since the RFP Bidder last submitted a successful Part 1 Proposal, the RFP Bidder must provide evidence of the change of name. If there was a change in the corporate structure of the RFP Bidder, through a merger for example, the RFP Bidder may not participate in the abbreviated Part 1 Proposal or Part 2 Proposal process.

IV.1.2. Officer of the RFP Bidder. The Officer of the RFP Bidder must be an officer, a director, or an individual otherwise authorized to undertake contracts (including the Uniform SMA) and bind the RFP Bidder. The Officer of the RFP Bidder whose contact information is provided in the Part 1 Proposal must make all representations required by the online Part 1 Form. Should the RFP Bidder submit a Part 2 Proposal, the individual named as Officer of the RFP Bidder in the Part 1 Proposal must make the representations required by the online Part 2 Form. The Officer of the RFP Bidder may sign all representations and certifications of the online Part 1 Form and online Part 2 Form at one time and RFP Bidders have the option to submit the certifications required by the online Part 2 Form during the Part 1 Window for early processing.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must provide the name, title, and full contact information (address, phone number, email address) of the individual who will serve as the Officer of the RFP Bidder.

IV.1.3. Representative of the RFP Bidder. The Independent Evaluator uses the Representative as the main point of contact for the RFP Bidder. The Independent Evaluator contacts the Representative if the Independent Evaluator requires additional information regarding the RFP Bidder's Proposal. The Independent Evaluator sends correspondence related to the solicitation to the Representative, including confidential information required to submit Bids on the Bid Date.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must designate an individual to serve as Representative of the RFP Bidder by completing the Representative Insert prepared for this purpose and available on the Proposal submission website. The RFP Bidder must provide the name, title, and full contact information (address, phone number, email address) of the individual named by the Officer of the RFP Bidder who will serve as Representative of the RFP Bidder.

IV.1.4. Nominees. The Independent Evaluator provides notifications to the RFP Bidder by email and provides documents needed for participation by secure file transfer. Whether or not an RFP Bidder has previously qualified, the RFP Bidder may designate up to three (3) authorized individuals to receive communications from the Independent Evaluator in addition to the Representative of the RFP Bidder. Each such authorized individual is a Nominee. Either the Representative of the RFP Bidder or the Officer of the RFP Bidder may complete the Nominee Insert prepared for this purpose. The Nominee Insert requires that the following be provided for each authorized individual who will serve as Nominee: the individual's name and title, phone number, and email address. The Representative of the RFP Bidder or the Officer of the RFP Bidder may designate such other authorized individuals at any time during the solicitation using the Nominee Insert. The RFP Bidder is not required to do so in the Part 1 Proposal provided, however, that the total number of Nominees not exceed three (3) individuals at any one time.

IV.1.5. All information required by this Section IV.1 must be provided exclusively by completing Section 1 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will

contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.2. Financial Requirements and Agency Agreements

IV.2.1. Agency Agreement. The RFP Bidder must state whether it is submitting a Proposal under an agency authorization ("Agency Agreement"). If an RFP Bidder is submitting a Proposal under an Agency Agreement, the RFP Bidder must identify a Principal as the entity on whose financial standing the RFP Bidder relies, as further explained in the next paragraph.

IV.2.2. Election of Entity on Whose Financial Standing the RFP Bidder is relying. For purposes of submitting to the requirements of this section, each RFP Bidder elects: (a) to rely on its own financial standing; or: (b) to rely on the financial standing of an "RFP Guarantor"; or: (c) to rely on the financial standing of a Principal. An RFP Bidder submitting a Proposal under an Agency Agreement must select option (c) and option (c) may only be selected by an RFP Bidder submitting a Proposal under an Agency Agreement.

- An RFP Bidder that has not previously qualified must clearly select one of these options. For a previously qualified RFP Bidder, the option will be selected based on the last submitted successful Part 1 Proposal.
- For a previously qualified RFP Bidder, the entity on whose financial standing the RFP Bidder last relied must be the same entity identified in the current solicitation in order to participate in the abbreviated Part 1 Proposal process. If such RFP Bidder changes the identity of the entity on whose financial standing the RFP Bidder relies, the RFP Bidder must use the Standard Part 1 Form and submit all information required for the Part 1 Proposal as if the RFP Bidder had not previously qualified.
- If the RFP Bidder updates the entity's legal name since the RFP Bidder last submitted a successful Part 1 Proposal, the RFP Bidder must provide evidence of the change of name. If there was a change in the corporate structure of the entity, through a merger for example, the RFP Bidder must use the Standard Part 1 Form to present its Part 1 Proposal.

IV.2.3. Information Required from RFP Bidders Relying on Their Own Financial Standing. The requirements of this paragraph only apply to an RFP Bidder that selects option (a) in response to Paragraph IV.2.2.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must submit available financial information for the RFP Bidder by upload to the online Part 1 Form or by email at PECOProcurement@nera.com. If available, the RFP Bidder must submit its most recent quarterly financial information, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules. If available, the most recent Securities and Exchange Commission ("SEC") Form 10-Q or 10-K (whichever is more recent) must be submitted to fulfill this requirement. If the SEC Form 10-Q/10-K is unavailable, the RFP Bidder must submit its most recent quarterly, monthly or bi-annual financial information accompanied by an attestation by the RFP Bidder's Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of these RFP Rules. If such financial information is unavailable for the RFP Bidder, the RFP Bidder must clearly state this fact.
- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must submit all available credit ratings for the RFP Bidder from the following rating agencies: S&P Global Ratings ("S&P"), Moody's Investors Service, Inc. ("Moody's"), and Fitch Ratings ("Fitch"). If no ratings are available for the entity, the RFP Bidder must clearly state this fact.

IV.2.4. Information Required from RFP Bidders Relying on the Financial Standing of an RFP Guarantor. The requirements of this paragraph only apply to an RFP Bidder that selects option (b) in response to Paragraph IV.2.2.

- Financial information must be available for the RFP Guarantor.
- Whether or not the RFP Bidder has previously qualified, the RFP Bidder must provide the RFP Guarantor's legal name and address. If the RFP Bidder updates the RFP Guarantor's legal name since the RFP Bidder last submitted a successful Part 1 Proposal, the RFP Bidder must provide

evidence of the change of name. If there was a change in the corporate structure of the RFP Guarantor, through a merger for example, the RFP Bidder must use the Standard Part 1 Form to present its Part 1 Proposal.

- An RFP Bidder must submit by upload to the online Part 1 Form or by email at PECOProcurement@nera.com, if available, the RFP Guarantor's most recent quarterly financial information, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules. If available, the most recent SEC Form 10-Q or 10-K (whichever is more recent) must be submitted to fulfill this requirement. If the SEC Form 10-Q/10-K is unavailable, the RFP Bidder must submit the RFP Guarantor's most recent quarterly, monthly, or bi-annual financial information accompanied by an attestation by the entity's Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the entity. The requirements for this attestation are provided more specifically in Appendix 5 of these RFP Rules.
- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must submit all available credit ratings for the RFP Guarantor from the following rating agencies: S&P, Moody's, and Fitch. Such ratings must be available for the RFP Guarantor. The Independent Evaluator may inquire specifically about one or more credit ratings on file for the entity on whose financial standing the RFP Bidder and ask the RFP Bidder to confirm that no updates have been issued.

IV.2.5. Information Required from RFP Bidders Relying on the Financial Standing of an RFP Principal. The requirements of this paragraph only apply to an RFP Bidder submitting a Proposal under an Agency Agreement that selects option (c) in response to Paragraph IV.2.2.

- Whether or not the RFP Bidder has previously qualified, the RFP Bidder must provide each Principal's legal name and address.
- If not previously qualified, the RFP Bidder must provide a copy of the Agency Agreement by upload to the online Part 1 Form or by email at PECOProcurement@nera.com. If previously

qualified, the RFP Bidder must either confirm that the previously provided document remains valid or the RFP Bidder must update this information.

- If the RFP Bidder is acting as an agent for multiple Principals, the RFP Bidder must identify the Principal with the lowest credit rating as the entity on whose financial standing the RFP Bidder relies. If several Principals have the same lowest credit rating, the RFP Bidder must identify the Principal that also has the lowest tangible net worth as the entity on whose financial standing the RFP Bidder relies. This Principal is referred to as the "RFP Principal". If there is a single Principal, the single Principal is the "RFP Principal". Financial information must be available for the RFP Principal.

- An RFP Bidder must submit by upload to the online Part 1 Form or by email at PECOProcurement@nera.com, if available, the RFP Principal's most recent quarterly financial information, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules. If available, the most recent SEC Form 10-Q or 10-K (whichever is more recent) must be submitted to fulfill this requirement. If the SEC Form 10-Q/10-K is unavailable, the RFP Bidder must submit the RFP Principal's most recent quarterly, monthly, or bi-annual financial information accompanied by an attestation by the entity's Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Principal. The requirements for this attestation are provided more specifically in Appendix 5 of these RFP Rules.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must submit all available credit ratings for the RFP Principal from the following rating agencies: S&P, Moody's, and Fitch. Such ratings must be available from at least two rating agencies for the RFP Principal. The Independent Evaluator may inquire specifically about one or more credit ratings on file for the RFP Principal and ask the RFP Bidder to confirm that no updates have been issued.

- Whether or not an RFP Bidder has previously qualified, the Officer of the RFP Bidder must: (i) certify that the Officer of the RFP Bidder has the authority to bind the Principal(s); and (ii) acknowledge that an Officers' Certificate, signed by an officer of each Principal and substantially in the form of Appendix 6 to these RFP Rules, must be provided with the Part 2 Proposal. The Officer of the RFP Bidder makes this certification and this acknowledgment by completing the P1 Agency Certifications Insert.

- Whether or not the RFP Bidder has previously qualified, the RFP Bidder may, but is not required to, submit a draft Officers' Certificate for evaluation. If an RFP Bidder submits a draft Officers' Certificate for evaluation, the Independent Evaluator will provide this evaluation to the RFP Bidder, including notice of any changes required to the Officers' Certificate, along with the Part 1 Notification. This Officers' Certificate will state that: (i) the Agency Agreement submitted in response to this RFP is a true and complete copy of the Agency Agreement as currently in effect; (ii) the Agency Agreement is in full force and effect and shall remain in full force and effect for a period extending to six (6) business days following the Bid Date; (iii) there are no proceedings pending for the amendment or termination of the Agency Agreement, contemplated by the RFP Bidder, or contemplated by the Principal(s) to the RFP Bidder's knowledge; (iv) each individual who has executed the Officers' Certificate and the Agency Agreement is (or was at the time of the execution of such documents) authorized to execute and deliver such documents on behalf of the Principal(s); and (v) the Officer of the RFP Bidder is authorized to execute the Uniform SMA as well as any Transaction Confirmation(s) pursuant to the Uniform SMA on behalf of the Principal(s).

IV.2.6. All information required by this Section IV.2 must be provided exclusively by completing Section 2 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.3. Credit Instruments and Uniform SMA

IV.3.1. Standard Pre-Bid Letter of Credit. RFP Bidders have an opportunity, in the Part 1 Proposal, to propose modifications to the Pre-Bid Letter of Credit.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must, in its Part 2 Proposal, submit a Pre-Bid Letter of Credit in an amount of at least: $250,000 per tranche bid on products of the RES and SC Classes; and $125,000 per tranche bid on a CCI product (if applicable). This Pre-Bid Letter of Credit must be in the form of the Standard Pre-Bid Letter of Credit provided as Appendix 9 to these RFP Rules or must incorporate only modifications that have been approved by PECO and provided to RFP Bidders by the Independent Evaluator.
- As part of the Part 1 Proposal, an RFP Bidder may request modifications to the Standard Pre-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder. An RFP Bidder requests modifications to the Standard Pre-Bid Letter of Credit by submitting a Draft Pre-Bid Letter of Credit substantially in the form of the Standard Pre-Bid Letter of Credit indicating clearly any and all modifications to the Standard Pre-Bid Letter of Credit. The Draft Pre-Bid Letter of Credit must be submitted in Microsoft Word with tracked changes by upload to the online Part 1 Form or by email at PECOProcurement@nera.com. A Draft Pre-Bid Letter of Credit that is not substantially in the form of the Standard Pre-Bid Letter of Credit will not be considered or evaluated.
- An RFP Bidder must confirm whether the Draft Pre-Bid Letter of Credit submitted as part of the Part 1 Proposal contains the same requested modifications as a Draft Pre-Bid Letter of Credit submitted in a prior solicitation. If the Draft Pre-Bid Letter of Credit submitted does contain the same requested modifications as a prior submittal, the Independent Evaluator will provide the RFP Bidder with PECO's assessment of the prior submittal upon request and the Draft Pre-Bid Letter of Credit will not be reviewed again.
- All approved modifications to the Standard Pre-Bid Letter of Credit will be posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

- An RFP Bidder that chooses not to propose modifications to the Standard Pre-Bid Letter of Credit must clearly state that fact.

IV.3.2. Standard Post-Bid Letter of Credit. RFP Bidders have an opportunity, in the Part 1 Proposal, to propose modifications to the Post-Bid Letter of Credit.

- The Uniform SMA includes, as Appendix F, Letter of Credit Documentation that may be used to post security under the terms of the Uniform SMA. This Paragraph refers to this letter of credit as the "Standard Post-Bid Letter of Credit".
- Whether or not the RFP Bidder has previously qualified, an RFP Bidder may, in its Part 1 Proposal, request modifications to the Standard Post-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder. An RFP Bidder requests modifications to the Standard Post-Bid Letter of Credit by submitting a Draft Post-Bid Letter of Credit substantially in the form of the Standard Post-Bid Letter of Credit indicating clearly any and all modifications to the Standard Post-Bid Letter of Credit. The Draft Post-Bid Letter of Credit must be submitted in Microsoft Word by upload to the online Part 1 Form or by email at pecoprocurement@nera.com. A Draft Post-Bid Letter of Credit that is not substantially in the form of the Standard Post-Bid Letter of Credit will not be considered or evaluated.
- An RFP Bidder must confirm whether the Draft Post-Bid Letter of Credit submitted as part of the Part 1 Proposal contains the same requested modifications as a Draft Post-Bid Letter of Credit submitted in a prior solicitation. If the Draft Post-Bid Letter of Credit submitted does contain the same requested modifications as a prior submittal, the Independent Evaluator will provide the RFP Bidder with PECO's assessment of the prior submittal upon request and the Draft Post-Bid Letter of Credit will not be reviewed again.
- All approved modifications to the Standard Post-Bid Letter of Credit will be posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.
- An RFP Bidder that chooses not to propose modifications to the Standard Pre-Bid Letter of Credit must clearly indicates that fact.

IV.3.3. Standard Guaranty. RFP Bidders have an opportunity, in the Part 1 Proposal, to propose modifications to the Standard Guaranty.

- The Uniform SMA includes, as Appendix G, Guaranty Documentation that may be used to provide a financial guaranty under the terms of the Uniform SMA. This Paragraph refers to this financial guaranty as the "Standard Guaranty".
- Whether or not the RFP Bidder has previously qualified, an RFP Bidder may, in its Part 1 Proposal, request modifications to the Standard Guaranty that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder. An RFP Bidder requests modifications to the Standard Guaranty by submitting a Draft Guaranty substantially in the form of the Standard Guaranty indicating clearly any and all modifications to the Standard Guaranty. The Draft Guaranty must be submitted in Microsoft Word by upload to the online Part 1 Form or by email at pecoprocurement@nera.com. A Draft Guaranty that is not substantially in the form of the Standard Guaranty will not be considered or evaluated.
- An RFP Bidder must confirm whether the Draft Guaranty submitted as part of the Part 1 Proposal contains the same requested modifications as a Draft Guaranty submitted in a prior solicitation. If the Draft Guaranty submitted does contain the same requested modifications as a prior submittal, the Independent Evaluator will provide the RFP Bidder with PECO's assessment of the prior submittal upon request and the Draft Guaranty will not be reviewed again.
- All approved modifications to the Standard Guaranty will be posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.
- An RFP Bidder that chooses not to propose modifications to the Standard Pre-Bid Letter of Credit must clearly indicate that fact.

IV.3.4. Information to Prepare the Uniform SMA. This paragraph applies only to RFP Bidders that are not Default Suppliers. Such RFP Bidder is asked, in its Part 1 Proposal, to provide all information needed by the Independent Evaluator to prepare for execution the Uniform SMA and its Exhibits by

completing the Uniform SMA Insert prepared for this purpose and available on the Proposal submission website. The RFP Bidder provides the Uniform SMA Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com. If the Independent Evaluator identifies one or more of such RFP Bidder's Bids to the Commission as lowest-priced Bids, the Independent Evaluator will use this information to prepare the Uniform SMA and its Exhibits for execution.

- Such RFP Bidder is asked: (i) to specify any elections to be made in the Uniform SMA; and (ii) to provide the contact information required to prepare the Form of Notice, which is included as Exhibit 2 to the Uniform SMA; and (iii) to provide any additional information required to prepare the Uniform SMA and its Exhibits.
- If such RFP Bidder fails to submit these elections and information with the Part 1 Proposal, the Officer of the RFP Bidder must acknowledge that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as lowest-priced Bids, the RFP Bidder will be required to provide: (i) any elections to be made in the Uniform SMA; and (ii) the contact information to prepare the Form of Notice; and (iii) any additional information required to prepare the Uniform SMA and its Exhibits; by 12 PM (noon) EPT on the business day after such notification is received. The Officer of the RFP Bidder provides the required acknowledgement by completing the Delay (SMA) Insert prepared for this purpose and available on the Proposal submission website.

IV.3.5. All information required by this Section IV.3 must be provided exclusively by completing Section 3 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or by email to the Independent Evaluator at pecoprocurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.4. Representations

IV.4.1. Representations by the Officer of the RFP Bidder. Whether or not an RFP Bidder has previously qualified, the Officer of the RFP must certify that:

- he/she is an officer, a director, or an individual otherwise authorized to undertake contracts (including the Uniform SMA) and bind the RFP Bidder;
- all information provided in the Part 1 Proposal is true and accurate to the best of the knowledge and belief of the Officer of the RFP Bidder;
- if, for any reason or due to any circumstance, any information provided in the Part 1 Proposal changes or any previous certification fails to remain valid before the sixth business day after the Bid Date, the Officer of the RFP Bidder or the Representative will notify the Independent Evaluator of such changes as soon as practicable but in no event later than one (1) business day before the Bid Date;
- the Part 1 Proposal will remain valid and remain in full force and effect until six (6) business days after the Bid Date; and
- the RFP Bidder is not part of a bidding agreement, a joint venture for purposes of participating in any solicitation for this RFP, a bidding consortium, or any other type of agreement related to bidding in any solicitation of this RFP. An RFP Bidder found to be acting in concert with another RFP Bidder may be disqualified by the Independent Evaluator.

The Officer of the RFP Bidder presents such certifications by completing the P1 Certifications (A) Insert prepared for this purpose.

IV.4.2. Additional Representations for RFP Bidders that have not previously qualified. If an RFP Bidder has not previously qualified, the Officer of the RFP Bidder must certify that:

- he/she understands the terms of the Uniform SMA, that the RFP Bidder accepts all of the terms of the Uniform SMA without modifications, and that the RFP Bidder will execute the Uniform SMA and the Transaction Confirmation(s) for all Bids approved by the Commission;
- the submission of the Part 1 Proposal constitutes the RFP Bidder's acknowledgement and acceptance of all the terms and conditions of the RFP, regardless of the outcome of the solicitation or the outcome of such Proposal;
- the RFP Bidder has no actions at law, suits in equity, proceedings or claims pending or, to the RFP Bidder's knowledge, threatened against it before any federal, state, foreign or local court,

tribunal or governmental agency or authority that might materially delay, prevent or hinder the RFP Bidder's performance of its obligations under the Uniform SMA;

- the RFP Bidder is not bankrupt or insolvent and there are no proceedings pending or being contemplated by it or, to its knowledge, threatened against it which would result in it being or becoming bankrupt or insolvent; and
- if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as lowest-priced Bids, all information required for the preparation of the Uniform SMA and its Exhibits must be submitted and complete by 12 PM (noon) EPT on the business day after such notification is received;

The Officer of the RFP Bidder presents such certifications by completing the P1 Certifications (B) Insert prepared for this purpose.

IV.4.3. Additional Representations for RFP Bidders have previously qualified but that are not Default Suppliers. If an RFP Bidder has previously qualified but is not a Default Supplier, the Officer of the RFP Bidder must certify that:

- The RFP Bidder has no actions at law, suits in equity, proceedings or claims pending or, to the RFP Bidder's knowledge, threatened against it before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the RFP Bidder's performance of its obligations under the Uniform SMA;
- The RFP Bidder is not bankrupt or insolvent and there are no proceedings pending or being contemplated by it or, to its knowledge, threatened against it which would result in it being or becoming bankrupt or insolvent; and
- if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as lowest-priced Bids, all information required for the preparation of the Uniform SMA and its Exhibits must be submitted and complete by 12 PM (noon) EPT on the business day after such notification is received.

The Officer of the RFP Bidder presents such certifications by completing the P1 Certifications (C) Insert prepared for this purpose.

IV.4.4. PJM Load Serving Entity. The requirements of this paragraph apply only to RFP Bidders that are not previously qualified RFP Bidders. A Default Supplier must be an LSE by the start of the supply period.

- An RFP Bidder that has not previously qualified must, in its Part 1 Proposal, either: (i) demonstrate that the RFP Bidder is an LSE in PJM by providing the signature page of the Reliability Assurance Agreement ("RAA"); or (ii) certify that the RFP Bidder has investigated the requirements to become an LSE in PJM and that there exist no impediments for the RFP Bidder to become an LSE by the start of the supply period and to remain an LSE for the duration of the supply period.
- An RFP Bidder that provides the signature page of the RAA does so by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.
- An RFP Bidder that submits the certification above does so by completing the LSE Representation Insert prepared for this purpose and available on the Proposal submission website.

IV.4.5. All information required by this Section IV.4 must be provided exclusively by completing Section 4 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.5. Foreign RFP Bidders and Foreign Entities

IV.5.1. The requirements of this section apply only to: (1) Foreign RFP Bidders; or (2) RFP Bidders that rely on the financial standing of a Foreign Entity as RFP Guarantor; or RFP Bidders submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal. Other RFP Bidders are not subject to the requirements of this section.

IV.5.2. Additional requirements for Foreign RFP Bidders. The requirements of this Paragraph apply only to Foreign RFP Bidders; other RFP Bidders are not subject to the requirements of this Paragraph.

- Whether or not such RFP Bidder has previously qualified, such RFP Bidder may provide, in addition to supplying all required information and documents under Section IV.2, any additional evidence of creditworthiness so as to provide PECO with comparable assurances of creditworthiness as is applicable for an RFP Bidder that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.
- If such RFP Bidder has not previously qualified, the Officer of a Foreign RFP Bidder must acknowledge that the following additional documents are required with the Part 2 Proposal: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.
- Whether or not such RFP Bidder has previously qualified, such RFP Bidder may, but is not required to, submit a draft of the following documents for evaluation: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute

the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal. If such RFP Bidder submits a draft of these documents for evaluation, the Independent Evaluator will provide this evaluation to such RFP Bidder, including notice of any changes required to the documents, along with the Part 1 Notification.

- The RFP Bidder presents this information by completing the P1 Foreign Bidder Insert prepared for this purpose and provides associated documents. This Insert is available on the Proposal submission website.

IV.5.3. Additional requirements for RFP Bidders relying on the financial standing of a Foreign Guarantor. The requirements of this Paragraph apply only to RFP Bidders that rely on the financial standing of a Foreign Entity as RFP Guarantor; other RFP Bidders are not subject to the requirements of this Paragraph.

- Whether or not such RFP Bidder has previously qualified, an RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor may provide, in addition to supplying all required information and documents under Section IV.2, any additional evidence of creditworthiness for the RFP Guarantor so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

- If such RFP Bidder has not previously qualified, the Officer of such RFP Bidder must acknowledge that the following additional documents are required with the Part 2 Proposal for the Foreign Entity as RFP Guarantor to be granted unsecured credit and for the RFP Bidder to rely on the financial standing of the RFP Guarantor under the terms of the Uniform SMA: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform

SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.

- Whether or not such RFP Bidder has previously qualified, the RFP Bidder may, but is not required to, submit with its Part 1 Proposal a draft of the following documents: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal. If an RFP Bidder submits a draft of the documents for evaluation, the Independent Evaluator will provide this evaluation to the RFP Bidder, including notice of any changes required to the documents, along with the Part 1 Notification.

- The RFP Bidder presents this information by completing the P1 Foreign Guarantor Insert prepared for this purpose and provides associated documents. This Insert is available on the Proposal submission website.

IV.5.4. Additional Requirements for RFP Bidders submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal. The requirements of this Paragraph apply only to RFP Bidders that are submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal; other RFP Bidders are not subject to the requirements of this Paragraph.

- Whether or not such RFP Bidder has previously qualified, if the RFP Principal is a Foreign Entity, an RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as RFP Principal may, in addition to supplying all required information and documents under Section IV.2, provide any additional evidence of creditworthiness for the Principal so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

- If such RFP Bidder has not previously qualified, the Officer of such RFP Bidder must acknowledge that the following additional documents are required with the Part 2 Proposal: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

- Whether or not such RFP Bidder has previously qualified, such RFP Bidder may, but is not required to, submit with its Part 1 Proposal a draft of the following additional documents: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion

of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal. If an RFP Bidder submits a draft of the documents for evaluation, the Independent Evaluator will provide this evaluation to the RFP Bidder, including notice of any changes required to the documents, along with the Part 1 Notification.

- The RFP Bidder presents this information by completing the P1 Foreign Principal Insert prepared for this purpose and provides associated documents. This Insert is available on the Proposal submission website.

IV.5.5. All information required by this Section IV.5 must be provided exclusively by completing Section 5 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

ARTICLE V. Part 2 Proposal Requirements

RFP Bidders that became eligible to submit Bids in a previous solicitation held under DSP VI may participate in an abbreviated process by using the Short Part 2 Form available online through the Proposal submission website to respond to these requirements.

V.1. Contact Information and Representations

V.1.1. Contact Information for the RFP Bidder. The RFP Bidder has an opportunity to update contact information provided in the Part 1 Proposal for the RFP Bidder or any individual. Whether or not the RFP Bidder is previously eligible, the RFP Bidder either must confirm that the contact information for the RFP Bidder, the Officer of the RFP Bidder and Representative of the RFP Bidder remains valid or must update this information in the online Part 2 Form. The RFP Bidder may, at any point during the solicitation, provide contact information for Nominees or update this information by submission of the Nominee Insert.

V.1.2. Representations of the Officer of the RFP Bidder. For a given solicitation, all representations and certifications must be made by a single individual who serves as Officer of the RFP Bidder. All representations and certifications required by this RFP may be made at a single point in time and RFP Bidders have the option to submit the online Part 1 Form and the certifications required by the online Part 2 Form together during the Part 1 Window. If an RFP Bidder did not avail itself of this option and if the Officer of the RFP Bidder who made the representations and certifications of the online Part 1 Form is unavailable to make the representations of the online Part 2 Form, the RFP Bidder must re-submit the certifications of the Part 1 Form by email naming a new individual to serve as Officer of the RFP Bidder by the Part 2 Date, and that Officer of the RFP Bidder must make all representations and certifications required by the online Part 1 Form and the online Part 2 Form. Whether or not the RFP Bidder is previously eligible, the Officer of the RFP Bidder must certify that:

- the Part 2 Proposal will remain valid and remain in full force and effect until six (6) business days after the Bid Date and if any information provided in the Part 2 Proposal changes or any previous certification fails to remain valid during that time, the RFP Bidder will notify the Independent Evaluator as soon as practicable;

- the RFP Bidder is bidding independently and that it has no knowledge of any information concerning a Proposal by another RFP Bidder in response to this solicitation or any future solicitation under this RFP. Such information includes, but is not limited to: the fact that another RFP Bidder is submitting a Proposal in response to this solicitation or a subsequent solicitation under this RFP; the Bids by another RFP Bidder in this or in a subsequent solicitation under this RFP; the number of tranches bid by another RFP Bidder for any product in this or in a subsequent solicitation under this RFP; the estimation by another RFP Bidder of the value of a tranche of a product; the estimation by another RFP Bidder of the risks associated with providing supply under the Uniform SMA; the preference of another RFP Bidder for bidding on specific products in this or in a subsequent solicitation under the RFP; and the contractual arrangements for power of another RFP Bidder to serve tranches of Default Service Load were that RFP Bidder to become a Default Supplier. This certification must be binding and in effect until the Commission has either approved or rejected each of the lowest-priced Bids for this solicitation;
- although the RFP Bidder may disclose aspects of its Proposal in communicating with its financial institution for the purpose of preparing the Pre-Bid Letter of Credit or in communicating with advisors (if any), any such communication is made in a manner that can reasonably be expected to maintain the confidentiality of its Proposal;
- with only the exceptions noted in the immediately previous certification, the RFP Bidder has not disclosed, and will not otherwise disclose, publicly or to any other party any information relating to its Proposal, which could have an effect on whether another party submits a Proposal in any solicitation under the RFP, or on the contents of the Proposal that another RFP Bidder would be willing to submit in response to the RFP. Such information includes, but is not limited to: the fact that the RFP Bidder is submitting a Proposal in response to this RFP; the RFP Bidder's Bids in this or in a subsequent solicitation under this RFP; the RFP Bidder's number of tranches bid for any product in this or in a subsequent solicitation under this RFP; the RFP Bidder's estimation of the value of a tranche of a product; the RFP Bidder's estimation of the risks associated with providing supply under the Uniform SMA; and the RFP Bidder's

preference for bidding on specific products in this or in a subsequent solicitation under this RFP. This certification must be binding and in effect until the Commission has either approved or rejected each of the lowest-priced Bids for this solicitation;

- any Bid on any product submitted in response to this RFP for this solicitation is binding until six (6) business days after the Bid Date and constitutes a binding and irrevocable offer to provide service under the terms of the Uniform SMA at the price specified in the Bid;
- the Officer of the RFP Bidder will execute (or will nominate another authorized individual to execute) the Uniform SMA and all Transaction Confirmation(s) for the RFP Bidder's Bids that are approved by the Commission no later than 2PM on the fifth business day after the Bid Date; and
- In each Transaction Confirmation, the RFP Bidder will specify a price for each type of AECs (Tier I, Tier I Solar, and Tier II) that is included in the RFP Bidder's lowest-priced Bids and each such price must be greater than $0/AEC.

The RFP Bidder submits such certifications by completing the P2 Certifications Insert prepared for this purpose and available on the Proposal submission website.

V.1.3. All information required by this Section V.1 must be provided exclusively by completing Section 1 of the online Part 2 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

V.2. Pre-Bid Letter of Credit

V.2.1. Whether or not an RFP Bidder is previously eligible, the RFP Bidder must provide an executed Pre-Bid Letter of Credit, drawn for the account of the RFP Bidder and acceptable to PECO, in an amount of at least: $250,000 per tranche bid on products for the RES and SC Classes, plus $125,000 per tranche bid on a product for the CCI Class (if applicable) in accordance with the requirements of this

Section V.2. A single Pre-Bid Letter of Credit is submitted even if the RFP Bidder bids on more than one product or if the RFP Bidder bids to supply both full requirements on a fixed-price basis and full requirements on a spot-price basis.

V.2.2. The executed Pre-Bid Letter of Credit must be submitted as an electronic PDF file via electronic means only to the Independent Evaluator at PECOProcurement@nera.com. A Pre-Bid Letter of Credit sent in hard copy cannot be accepted.

V.2.3. The RFP Bidder must either use the Standard Pre-Bid Letter of Credit provided in Appendix 9 to these RFP Rules, or the RFP Bidder must submit a Pre-Bid Letter of Credit that incorporates only those modifications to the Standard Pre-Bid Letter of Credit accepted as a result of the evaluation of the Part 1 Proposals. All approved modifications will be posted to the RFP website. An RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification. The RFP Bidder cannot, in its Part 2 Proposal, propose or incorporate any modification to its Pre-Bid Letter of Credit other than the modifications approved and posted as such on the RFP website.

V.2.4. Generally, PECO and the Independent Evaluator will release the Pre-Bid Letter of Credit no later than six (6) business days after the Bid Date. An RFP Bidder may, in Section 2 of the Part 2 Form, provide special instructions for the return of the Pre-Bid Letter of Credit. If the Commission does not approve any of the RFP Bidder's Bids, PECO and the Independent Evaluator will release that RFP Bidder's Pre-Bid Letter of Credit within three (3) business days of the Bid Date. The prompt release of the Pre-Bid Letter of Credit will be conditioned upon the RFP Bidder not having violated any undertakings agreed to as part of the RFP.

V.2.5. Payment under the Pre-Bid Letter of Credit can be demanded by PECO if: (i) the RFP Bidder has made a material omission or misrepresentation in its Part 1 Proposal or in its Part 2 Proposal; (ii) the RFP Bidder discloses information relating to its Proposal publicly or to any other party before the Commission has rendered its decision on the results of this solicitation; or (iii) the RFP Bidder has one or more Bids approved by the Commission and the RFP Bidder fails to execute the Uniform SMA and its Exhibits or fails to meet the creditworthiness requirements within the timeframe required.

V.2.6. All information required by this Section V.2 must be provided exclusively by completing Section 2 of the online Part 2 Form, as further explained in Article VII. Any special instructions for the return of the Pre-Bid Letter of Credit may be submitted by upload to the online Part 2 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com.

V.3. RFP Bidders Relying on the Financial Standing of an RFP Guarantor

V.3.1. The requirements of this Section V.3 apply only to RFP Bidders relying on the financial standing of an RFP Guarantor; other RFP Bidders are not subject to the requirements of this Section V.3.

V.3.2. Intent to Provide a Guaranty. The requirements of this paragraph only apply to RFP Bidders that are not Default Suppliers.

- Such RFP Bidder must provide in its Part 2 Proposal a statement from a representative of the RFP Guarantor acknowledging that the RFP Guarantor: (i) has been asked to provide a financial guaranty on behalf of the RFP Bidder should the RFP Bidder become a Default Supplier pursuant to its response under this RFP for procuring supply under the terms of the Uniform SMA; (ii) has a senior unsecured debt rating that meets the Minimum Rating as defined in the Uniform SMA; and (iii) would consider providing a financial guaranty on behalf of the RFP Bidder should there be no material change in affairs for at least the Indicative Amount. This RFP Guarantor may add that this statement should not and cannot be taken as an indication of financing commitment of any kind whatsoever, or an absolute commitment to provide a financial guaranty.
- The Indicative Amount must meet or exceed the sum of: (i) $600,000 times the number of tranches bid on products for the RES and SC Classes for full requirements on a fixed-price basis; and (ii) $300,000 times the number of tranches bid for the CCI Class for full requirements on a spot-price basis (if applicable).
- The individual signing the intent to provide a guaranty must be a representative of the RFP Guarantor authorized to undertake contracts (including the Guaranty) and bind that RFP Guarantor.

The RFP Bidder provides this statement by completing the Guaranty Intent Insert prepared for this purpose and available on the Proposal submission website.

V.3.3. Information to Prepare the Guaranty. This paragraph applies to RFP Bidders that are not Default Suppliers.

- The RFP Bidder is asked: (i) to specify the governing laws under which the RFP Guarantor is organized; (ii) to provide the name and title of the signatory to the guaranty as well as contact information for an individual who will receive notice under the guaranty; and (iii) to make elections to incorporate any or all of the approved modifications to the Standard Guaranty.
- If an RFP Bidder that is not a Default Supplier with a Guaranty in force fails to submit information required for preparation of the Guaranty with the Part 1 Proposal, the Officer of the RFP Bidder must acknowledge that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as lowest-priced Bids, the RFP Bidder must provide all required information by 12 PM (noon) EPT on the business day after such notification is received.

The RFP Bidder either provides information needed to prepare the guaranty for execution by completing the Guaranty Insert prepared for this purpose or the RFP Bidder provides an acknowledgement from the Officer of the RFP Bidder that such information will be required if one or more of the RFP Bidder's Bids to the Commission as lowest-priced Bids by completing the Delay (Guaranty) Insert prepared for this purpose.

V.3.4. Enforceability Opinion for an Alternate Guaranty. The requirements of this Paragraph only apply to RFP Bidders that have obtained approval from PECO to use an alternate guaranty form under the Alternate Guaranty Process and that are not previously eligible. The Alternate Guaranty Process allows a supplier unable to use the Standard Guaranty provided as Appendix G to the Uniform SMA to submit for consideration by PECO the guaranty that the supplier uses in its normal course of business. Such a guaranty is called an "alternate guaranty form" and the process by which suppliers may obtain approval to use an alternate guaranty is described in Appendix 2. Such RFP Bidder must provide, with its Part 2 Proposal, an executed enforceability opinion for its approved alternate

guaranty form on the letterhead of a law firm of national standing by upload to the online Part 2 Form or by email at pecoprocurement@nera.com.

V.3.5. All information required by this Section V.1 must be provided exclusively by completing Section 3 of the online Part 2 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

V.4. RFP Bidders Relying on the Financial Standing of an RFP Principal

V.4.1. The requirements of this Section V.4 apply only to RFP Bidders relying on the financial standing of an RFP Principal; other RFP Bidders are not subject to the requirements of this Section V.3.

V.4.2. Officers' Certificate. Whether or not the RFP Bidder is previously eligible, an RFP Bidder submitting a Proposal under an Agency Agreement must submit an Officers' Certificate substantially in the form of Appendix 6 to these RFP Rules.

- The Officers' Certificate must be signed by an officer of each Principal.
- The Officers' Certificate states that: (i) the copy of the Agency Agreement submitted with the Part 1 Proposal is a true and complete copy of the Agency Agreement as currently in effect; (ii) the Agency Agreement is in full force and effect and shall remain in full force and effect for a period extending to six (6) business days following the Bid Date; (iii) there are no proceedings pending for the amendment or termination of the Agency Agreement; (iv) each individual who has executed the Officers' Certificate and the Agency Agreement is (or was at the time of the execution of such documents) authorized to execute and deliver such documents on behalf of the Principal(s); and (v) the Officer of the RFP Bidder is authorized to execute the Uniform SMA as well as any Transaction Confirmation pursuant to the Uniform SMA on behalf of the Principal(s).

- An Officers' Certificate submitted by a previously eligible RFP Bidder and that was previously acceptable to PECO will remain acceptable to PECO unless there has been a change in the circumstances of the RFP Bidder submitting a Proposal under an Agency Agreement.

Appendix 6 will contain instructions describing the acceptable methods of completion and submission an Officers' Certificate and an RFP Bidder must follow such instructions.

V.4.3. Signatory to the Uniform SMA. If an RFP Bidder is submitting a Proposal under an Agency Agreement and the Principal does not authorize the RFP Bidder to sign the Uniform SMA or to execute a Transaction Confirmation, such RFP Bidder must name a representative of the Principal who will be authorized to sign the Uniform SMA and all necessary exhibits should such RFP Bidder have lowest-priced Bids that are approved by the Commission as required by Section VII.3. The RFP Bidder must provide contact information for this individual (address, phone number, and email address). The RFP Bidder provides the information in the online Part 2 Form or by email at pecoprocurement@nera.com.

V.4.4. An RFP Bidder that relies on the financial standing of a Principal that is a Foreign Entity must also comply with requirements detailed in Paragraph V.5.4.

V.4.5. All information required by this Section V.1 must be provided exclusively by completing Section 4 of the online Part 2 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

V.5. Foreign RFP Bidders and Foreign Entities

V.5.1. The requirements of this Section V.5 apply only to Foreign RFP Bidders, or to RFP Bidders that rely on the financial standing of a Foreign Entity as RFP Guarantor, or to RFP Bidders that submit a Proposal under an Agency Agreement with a Foreign Entity as Principal. Other RFP Bidders are not subject to the requirements of this Section V.5. An RFP Bidder fulfills the requirements by completing

the P2 Foreign Entity Insert prepared for this purpose and available on the Proposal submission website.

V.5.2. Required Documents for Foreign RFP Bidders. A Foreign RFP Bidder receives from the Independent Evaluator upon successfully completing the Part 1 Proposal a provisional assessment that presumes the receipt of the following fully executed additional documents: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient.

- If the Foreign RFP Bidder is not previously eligible, such RFP Bidder must submit these fully executed documents in a form acceptable to PECO for the Independent Evaluator to confirm the assessment provided with the Part 1 Notification. If the Foreign RFP Bidder submits these fully executed documents in a form acceptable to PECO, the Independent Evaluator includes in the Part 2 Notification a confirmation of the assessment provided with the Part 1 Notification. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the Foreign RFP Bidder is not granted unsecured credit or that the Foreign RFP Bidder is not eligible to continue further in the RFP.
- If the Foreign RFP Bidder is previously eligible and has previously submitted these additional documents in a form acceptable to PECO, such RFP Bidder either: (i) must confirm that these documents remain valid; or (ii) must update any document that failed to remain valid. The Independent Evaluator confirms the assessment in the Part 2 Notification if all required

documents are submitted and are acceptable to PECO. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the Foreign RFP Bidder is not granted unsecured credit or that the Foreign RFP Bidder is not eligible to continue further in the RFP.

V.5.3. Required Documents for RFP Bidders with a Foreign Entity as RFP Guarantor. An RFP Bidder that relies on the financial standing of a Foreign Entity as RFP Guarantor receives, with its Part 1 Notification, a provisional creditworthiness assessment for its RFP Guarantor that presumes the receipt of the following fully executed additional documents in a form acceptable to PECO: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as RFP Guarantor.

- If such RFP Bidder is not previously eligible, such RFP Bidder must submit these fully executed documents in a form acceptable to PECO for the Independent Evaluator to confirm the creditworthiness assessment provided with the Part 1 Notification. If the RFP Bidder submits these fully executed documents and these documents are acceptable to PECO, the Independent Evaluator includes in the Part 2 Notification a confirmation of the creditworthiness assessment provided with the Part 1 Notification. If the RFP Bidder does not submit these documents, or if these documents are not acceptable to PECO, the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that

the Foreign Entity as RFP Guarantor is not granted unsecured credit. The RFP Bidder may not rely on the financial standing of the RFP Guarantor. Any guaranty submitted in the Part 2 Proposal will be removed from consideration and the Independent Evaluator may request additional information regarding the RFP Bidder under Section IV.2.

- If such RFP Bidder is previously eligible and has submitted these additional documents in a form acceptable to PECO, such RFP Bidder either: (i) must confirm that these documents remain valid; or (ii) must update any document that failed to remain valid. The Independent Evaluator confirms the creditworthiness assessment provided with the Part 1 Notification if the RFP Bidder all required documents are submitted and are acceptable to PECO. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that the RFP Guarantor is not granted unsecured credit. The RFP Bidder may not rely on the financial standing of the RFP Guarantor. The Independent Evaluator may request additional information regarding the RFP Bidder under Section IV.2.

V.5.4. Required Documents for RFP Bidders submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal. An RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal receives, with its Part 1 Notification, a provisional assessment that presumes the receipt of the following documents fully executed and acceptable to PECO: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal.

- If such RFP Bidder is not previously eligible, such RFP Bidder must submit these fully executed documents in a form acceptable to PECO for the Independent Evaluator to confirm the assessment provided with the Part 1 Notification. If the RFP Bidder submits these fully

executed documents and these documents are acceptable to PECO, the Independent Evaluator includes in the Part 2 Notification a confirmation of the assessment provided with the Part 1 Notification. If the RFP Bidder does not submit these documents, or if these documents are not acceptable to PECO, the Independent Evaluator provides with the Part 2 Notification a revised assessment that either states that the RFP Bidder and the Foreign Entity as RFP Principal are not granted unsecured credit or that the RFP Bidder is not eligible for continue further in the RFP.

- If such RFP Bidder is previously eligible, such RFP Bidder either: (i) must confirm that these documents remain valid; or (ii) must update any document that failed to remain valid. The Independent Evaluator confirms the assessment provided with the Part 1 Notification if the RFP Bidder all required documents are submitted and are acceptable to PECO. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the RFP Bidder and the Foreign Entity as RFP Principal are not granted unsecured credit or that the RFP Bidder is not eligible to continue further in the RFP.

V.5.5. The information required by this Section V.5 must be provided exclusively by completing Section 5 of the online Part 2 Form, as further explained in Article VII. Documents must be submitted by upload to the online Part 2 Form or sent by email to the Independent Evaluator at pecoprocurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

ARTICLE VI. Bid Submission

VI.1.1. The Independent Evaluator prepares an electronic Bid Form for each RFP Bidder qualified pursuant to a successful Part 1 Proposal. If the RFP Bidder cannot bid on all tranches available of a product because of the Load Cap for the Class to which such product belongs and because of tranches previously won by the RFP Bidder, the Bid Form reflects that fact. The Independent Evaluator sends at the same time instructions for completion of the Bid Form, for the optional encryption of the Bid Form, for electronic transfer of the completed Bid Form to the Independent Evaluator, for an alternate submission method for Bids in case of technical difficulties with the electronic transfer, as well as information used for authenticating the Bids, including the RFP Bidder's unique username, password, and security codes. The Independent Evaluator transmits these materials, the "Part 1 Materials", within two (2) business days of the Part 1 Notification Date, by secure file transfer. The Independent Evaluator requires a confirmation of receipt of these materials in the online Part 2 Form.

VI.1.2. The exclusive method for submitting an RFP Bidder's Bids is the Bid Form. An RFP Bidder must fill out all required information on the Bid Form according to the instructions provided by the Independent Evaluator. An RFP Bidder may, but is not required to, encrypt its Bid Form. Encryption provides an additional layer of protection for the confidentiality of the RFP Bidder's data. An RFP Bidder must submit the Bid Form to the Independent Evaluator through a secure file transfer system according to the instructions provided by the Independent Evaluator. An RFP Bidder must fill out contact information on its Bid Form and the Independent Evaluator will use that information to confirm receipt of the Bids. All instructions noted in this Paragraph are included in the Part 1 Materials.

VI.1.3. In case of technical difficulties while using the secure file transfer system, the Independent Evaluator will instruct the RFP Bidder to email the Bid Form to the Independent Evaluator. The Independent Evaluator will recommend that the Bid Form in this case be encrypted and the Independent Evaluator will note for the RFP Bidder that such transmission may not be secure. An RFP Bidder that is not able to use the secure file transfer system must advise the Independent Evaluator of that fact by email

or text. The Independent Evaluator will provide additional instructions for such a contingency that will be included with the Part 1 Materials.

VI.1.4. All Bid Forms must be received between 10 AM and 12 PM (noon) on the Bid Date. No late Bid Forms will be accepted regardless of the method used by the RFP Bidder to submit its Bid Form.

VI.1.5. A Bid for a tranche for any product is a price in U.S. Dollars per MWh, and must be displayed in the format $xx.xx or $xxx.xx, rounded to the nearest cent. The number of tranches bid on a product is the number of tranches of that product for which a Bid is provided.

VI.1.6. A Bid that is not expressed in dollars per MWh will automatically be rejected. A Bid that that has more than two (2) decimals will be automatically rounded to the nearest cent.

VI.1.7. The RFP Bidder may not bid on less than a full tranche for a product. The RFP Bidder may not bid on fractions, portions, or parts of tranches.

VI.1.8. The RFP Bidder may not submit any additional instructions, contingencies, or conditions on its Bids. Any such additional instructions, contingencies, or conditions will be ignored.

VI.1.9. An RFP Bidder may not submit Bids that exceed the Load Caps and the Bid Form will include guidance for the RFP Bidder so that the RFP Bidder submits Bids that conform with the Load Caps. The Load Caps are described in Paragraph I.2.11.

VI.1.10. The number of tranches bid for an RFP Bidder may not exceed the number of tranches supported by the Pre-Bid Letter of Credit. The amount of the Pre-Bid Letter of Credit is described in Paragraph V.2.1. The procedure used by the Independent Evaluator to modify the Bid Form is described in Paragraph VII.2.10.

VI.1.11. Bids are evaluated on a price-only basis, in accordance with the process described in Section VII.2.

ARTICLE VII. Process

VII.1. Part 1 and Part 2 Proposals: Submission and Processing

VII.1.1. The Independent Evaluator, for the purposes of this RFP, transmits all communications to the "Bidder Team" consisting of the Representative of the RFP Bidder and any Nominees. The Representative or the Officer of the RFP Bidder may designate up to three (3) Nominees.

VII.1.2. Any notification or written communication will be deemed received by the RFP Bidder at the time of delivery or transmission, provided that when delivery or transmission occurs after 6 PM on a business day or occurs on a day that is not a business day, receipt will be deemed to occur at 9 AM on the following business day.

VII.1.3. The exclusive method of responding to the qualification standards for the Part 1 Proposal listed in Article IV of these RFP Rules is the use of the online Part 1 Form. RFP Bidders that did not qualify in a previous solicitation under DSP VI must use the Standard Part 1 Form to respond to the qualification standards described in Article IV. Previously qualified RFP Bidders may participate in an abbreviated Part 1 Proposal process by using the Short Part 1 Form. The generic term "Part 1 Form" refers either to the Standard Part 1 Form or to the Short Part 1 Form. Responses to the qualification standards of Article IV that do not use the online Part 1 Form will not be considered and the Part 1 Proposal will be considered deficient.

VII.1.4. An RFP Bidder must provide contact information for the RFP Bidder, name an Officer of the RFP Bidder who designates a Representative of the RFP Bidder and make general representations as required by Section IV.1, exclusively by completing Section 1 of the online Part 1 Form. An RFP Bidder must show compliance with the financial requirements of Section IV.2 exclusively by completing Section 2 of the online Part 1 Form and by providing all documents supporting the financial information and credit information as requested in that Section of the online Part 1 Form. The RFP Bidder is asked to provide all information to prepare the Uniform SMA, as required by Section IV.3 exclusively by completing Section 3 of the online Part 1 Form. The RFP Bidder must show that it has all regulatory authorizations necessary for it to legally perform its obligations under the Uniform SMA and the Transaction Confirmations as required by Section IV.4, exclusively by

completing Section 4 of the online Part 1 Form. A Foreign RFP Bidder that seeks to be granted unsecured credit under the terms of the Uniform SMA, or an RFP Bidder relying on the financial standing of a Foreign Entity, either an RFP Guarantor or a Principal, must provide any additional information required by Section IV.5, exclusively by completing Section 5 of the Part 1 Form.

VII.1.5. The Part 1 Proposal for an RFP Bidder includes the completed Part 1 Form as well Inserts to the Part 1 Form available as separate Word Forms on the Proposal submission website or from the Independent Evaluator. Documents (supporting documents, draft Letter of Credit and draft Standard Guaranty) may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 1 Form that does not require a signature may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 1 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions. Responses to the qualification standards of Article IV that do not use the online Part 1 Form and the Inserts prepared for this purpose will not be considered and the part 1 Proposal will be considered deficient. No late Part 1 Proposals will be accepted under any circumstances.

VII.1.6. The Independent Evaluator considers and processes the Part 1 Proposals during the Part 1 Window. When a Part 1 Proposal is received, the Independent Evaluator sends an acknowledgment to the RFP Bidder by email. The Independent Evaluator only processes Part 1 Proposals during the Part 1 Window and, if the Part 1 Proposal is received before the Part 1 Window opens, the Independent Evaluator confirms receipt no later than on the first day of the Part 1 Window.

VII.1.7. If the Part 1 Proposal is received before 12 PM (noon) on any business day during the Part 1 Window, the Independent Evaluator sends the acknowledgment confirming receipt on the day the Part 1 Proposal is received with the results of an initial review. The initial review states either that the Part 1 Proposal is complete and is being considered, or the initial review lists items of the Part 1 Proposal that are deficient or require clarification. If a Part 1 Proposal is received after 12 PM (noon) on any business day during the Part 1 Window prior to the Part 1 Date, the Independent Evaluator sends the

acknowledgment along with the initial review by 12 PM (noon) of the next business day. The Independent Evaluator sends such acknowledgments to the RFP Bidder by email.

VII.1.8. An RFP Bidder that submits a Draft Pre-Bid Letter of Credit will receive a review of any proposed modifications within two (2) business days. The Independent Evaluator sends such review by email. The RFP Bidder can only submit one (1) Draft Pre-Bid Letter of Credit. Any review communicated to the RFP Bidder of the Draft Pre-Bid Letter of Credit is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this review. All modifications accepted to the Standard Pre-Bid Letter of Credit for the benefit of a single RFP Bidder will be made available to all RFP Bidders on an optional basis. All such modifications will be posted in a single document on the RFP website that will be updated daily during the Part 1 Window. By 12 PM (noon) on the day the Part 2 Window opens, the final document containing all accepted modifications will be posted.

VII.1.9. An RFP Bidder that submits a Draft Post-Bid Letter of Credit will receive a review of any proposed modifications within seven (7) business days. The Independent Evaluator sends such review by email. The RFP Bidder can only submit one (1) Draft Post-Bid Letter of Credit. Any review communicated to the RFP Bidder of the Draft Post-Bid Letter of Credit is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this review. All modifications accepted to the Standard Post-Bid Letter of Credit for the benefit of a single RFP Bidder will be made available to all RFP Bidders on an optional basis. All such modifications will be posted in a single document on the RFP website that will be posted no later than 6 PM on the Part 2 Date.

VII.1.10. An RFP Bidder that submits a Draft Standard Guaranty will receive a review of any proposed modifications within two (2) business days. The Independent Evaluator sends such review by email. The RFP Bidder can only submit one (1) Draft Standard Guaranty. Any review communicated to the RFP Bidder of the Draft Standard Guaranty is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this review. All modifications accepted to the Standard Guaranty for the benefit of a single RFP Bidder will be made available to all RFP Bidders on an optional basis. All such modifications will be posted in a single document on the RFP website that will be updated daily during the Part 1 Window. By 12 PM (noon) on the day the Part 2 Window opens, the final document containing all accepted modifications will be posted.

VII.1.11. An RFP Bidder submitting a Proposal under an Agency Agreement that submits a Draft Officers' Certificate will receive an evaluation of this document by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of the Draft Officers' Certificate is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

VII.1.12. A Foreign RFP Bidder that submits a draft of any of the documents described in Paragraph IV.5.2 will receive an evaluation of these documents by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of such draft documents is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

VII.1.13. An RFP Bidder that relies on the financial standing of a Foreign Entity as RFP Guarantor and that submits a draft of any of the documents described in Paragraph IV.5.3 will receive an evaluation of these documents by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of such draft documents is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

VII.1.14. An RFP Bidder submitting a Proposal under an Agency Agreement that relies on the financial standing of a Foreign Entity as Principal and that submits a draft of any of the documents described in Paragraph IV.5.4 will receive an evaluation of these documents by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of such draft documents is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

VII.1.15. The RFP Bidder includes, in its Part 1 Proposal, a certification from the Officer of the RFP Bidder that the RFP Bidder is bidding independently and is not acting in concert with another RFP Bidder. The Independent Evaluator may request additional information to ascertain that the RFP Bidder is bidding independently of other RFP Bidders. An RFP Bidder that is not bidding independently of another RFP Bidder may fail to qualify.

VII.1.16. If an RFP Bidder receives any notice from the Independent Evaluator that any item of the Part 1 Proposal is deficient or requires clarification, the RFP Bidder has until 12 PM (noon) on the Part 1

Date, or until 6 PM on the business day following the business day during which the Independent Evaluator transmits such notice, whichever comes later, to respond. If the RFP Bidder does not correct or adequately explain the deficiency within the time allowed, the Part 1 Proposal may be rejected. The Independent Evaluator sends such notice to the RFP Bidder by email.

VII.1.17. An RFP Bidder meets the qualification standards of this RFP if its Part 1 Proposal is received on or before 12 PM (noon) on the Part 1 Date, if its Part 1 Proposal is complete, and if its Part 1 Proposal fully complies with all requirements of Article IV.

VII.1.18. The Independent Evaluator informs each RFP Bidder of whether it has met all qualification standards of Article IV through a Part 1 Notification that the Independent Evaluators sends no later than 6 PM on the Part 1 Notification Date.

VII.1.19. If the RFP Bidder has a successful Part 1 Proposal, within two (2) business days of the Part 1 Notification Date, the Independent Evaluator transmits to the RFP Bidder a number of documents and instructions, called the Part 1 Materials. The Part 1 Materials include: (i) the Bid Form; (ii) instructions for filling out and optionally encrypting the Bid Form; (iii) instructions for the submission of the completed Bid Form from the RFP Bidder to the Independent Evaluator by secure file transfer system; (iv) instructions for an alternate method for submission of the Bids in case of technical difficulties with the secure file transfer system; (v) an invitation to a training session on the Bid submission process; and (vi) a username, a password, and security codes to be used for Bid submission uniquely by that RFP Bidder. The Part 1 Materials may also include other training materials or important notifications to RFP Bidders. The Independent Evaluator transmits the Part 1 Materials by secure file transfer. However, if special circumstances warrant, the Independent Evaluator may transmit by email a particular document needed for participation in a solicitation upon agreement by the RFP Bidder.

VII.1.20. The Independent Evaluator requires an acknowledgment from the RFP Bidder that the RFP Bidder has received intact the information necessary to submit Bids and that no one but authorized personnel of the RFP Bidder has had access to this information. The RFP Bidder may make this acknowledgment by email. The RFP Bidder's Bids are only evaluated if this acknowledgment is received.

VII.1.21. The exclusive method of responding to the requirements for Part 2 Proposals listed in Article V of these RFP Rules is the use of the online Part 2 Form. Responses to the requirements of Article V that do not use the online Part 2 Form will not be considered and the Part 2 Proposal will be considered deficient.

VII.1.22. An RFP Bidder must confirm its contact information and make any general representations required by Section V.1 exclusively by completing Section 1 of the online Part 2 Form. An RFP Bidder must submit the Pre-Bid Letter of Credit as required by Section V.2 and as instructed in Section 2 of the online Part 2 Form. An RFP Bidder relying on the financial standing of an RFP Guarantor will provide intent to provide a guaranty from its RFP Guarantor and an RFP Bidder submitting a Proposal under an Agency Agreement must submit additional documents as required by Section V.3 exclusively by completing Section 3 of the online Part 2 Form. A Foreign RFP Bidder that seeks to be granted unsecured credit under the terms of the Uniform SMA, or an RFP Bidder that seeks to rely on the financial standing of a Foreign Entity (either an RFP Guarantor or a Principal), must submit any additional documents as required by Section V.4 and as instructed by Section 4 of the online Part 2 Form.

VII.1.23. The Part 2 Proposal consists of the completed online Part 2 Form, the Pre-Bid Letter of Credit, as well as Inserts to the Part 1 Form available as separate Word Forms on the Proposal submission website or from the Independent Evaluator. The Pre-Bid Letter of Credit must be submitted as an electronic PDF file via electronic means only to the Independent Evaluator at pecoprocurement@nera.com. An Insert to the Part 2 Form that does not require a signature may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 2 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions. Any other documents, excluding Inserts and the Pre-Bid Letter of Credit, may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. In particular:

- For an RFP Bidder relying on the financial standing of an RFP Guarantor and that is not a Default Supplier, the Part 2 Proposal also includes an acknowledgment from a representative of the RFP Guarantor.
- For an RFP Bidder submitting a Proposal under an Agency Agreement, the Part 2 Proposal also includes an executed Officers' Certificate.
- For an RFP Bidder that: (i) is submitting a Proposal under an Agency Agreement and relying on the financial standing of a Foreign Entity as Principal; or (ii) is a Foreign RFP Bidder; or (iii) relies on the financial standing of a Foreign Entity as RFP Guarantor; the Part 2 proposal also includes any documents required by Section V.4 as a condition of being granted unsecured credit. These documents may include an executed legal opinion of outside counsel and a sworn certificate of the corporate secretary.

VII.1.24. The Independent Evaluator considers and processes the Part 2 Proposals during the Part 2 Window. No late Part 2 Proposals will be accepted under any circumstances. RFP Bidders also have the option to submit the certifications required by the online Part 2 Form during the Part 1 Window for early processing. When a Part 2 Proposal is received, the Independent Evaluator sends an acknowledgment to the RFP Bidder by email. The Independent Evaluator confirms receipt as long as the Part 2 Proposal is received after the opening of the Part 1 Window. However, Part 2 Proposals are only processed during the Part 2 Window (with the exception of certifications, which may be processed during the Part 1 Window).

VII.1.25. If the Part 2 Proposal is received before 12 PM (noon) on any business day after the opening of the Part 1 Window, the Independent Evaluator sends the acknowledgment confirming receipt on the day the Part 2 Proposal is received with the results of an initial review. The initial review states either that the Part 2 Proposal is complete and is being considered, or the initial review lists items of the Part 2 Proposal that are deficient or require clarification. If a Part 2 Proposal is received after 12 PM (noon) on any business day during the Part 2 Window prior to the Part 2 Date, the Independent Evaluator sends the acknowledgment along with the initial review by 12 PM (noon) of the next business day. The Independent Evaluator sends such acknowledgments by email.

VII.1.26. An RFP Bidder's Part 2 Proposal is automatically deficient if the Pre-Bid Letter of Credit proposes or includes modifications to the Standard Pre-Bid Letter of Credit included as Appendix 9 of these RFP Rules other than those accepted modifications posted in a single document on the RFP website. If an RFP Bidder receives notice from the Independent Evaluator that its Pre-Bid Letter of Credit is deficient, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. The Independent Evaluator sends such notices by email.

VII.1.27. The amount of the Pre-Bid Letter of Credit must be at least $250,000 per tranche bid on products for full requirements service on a fixed-price basis, plus $125,000 per tranche bid on the CCI product for full requirements service on a spot-price basis (if applicable). The Indicative Amount for RFP Bidders that rely on the financial standing of an RFP Guarantor and that do not hold a current Uniform SMA with PECO must be equal or exceed $600,000 per tranche bid on products for full requirements service on a fixed-price basis, plus $300,000 per tranche bid on a CCI product for full requirements service on a spot-price basis (if applicable). An RFP Bidder's Part 2 Proposal is automatically deficient if the amount of the Pre-Bid Letter of Credit is not consistent with the Indicative Amount of the Guaranty provided in the Part 2 Form. If an RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. The Independent Evaluator provides such notice to the RFP Bidder by email.

VII.1.28. For an RFP Bidder that received approval from PECO to use an alternate guaranty form through the Alternate Guaranty Process, PECO and the Independent Evaluator will determine whether the enforceability opinion required under Paragraph V.3.3 is acceptable to PECO, without any liability or obligation to the RFP Bidder or the RFP Guarantor. If the document is not acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the document remains insufficient, the RFP Bidder's Part 2

Proposal may be rejected. The Independent Evaluator provides such notice to the RFP Bidder by email.

VII.1.29. For an RFP Bidder submitting a Proposal under an Agency Agreement that provides the documents required under Section V.4, PECO and the Independent Evaluator will determine whether the documents provided are sufficient, without any liability or obligation to the RFP Bidder or its Principal(s). If the documents are insufficient and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the documents remain insufficient, the RFP Bidder's Part 2 Proposal may be rejected. The Independent Evaluator provides such notice to the RFP Bidder by email.

VII.1.30. For a Foreign RFP Bidder that submits the documents required under Paragraph V.5.2, PECO and the Independent Evaluator will determine whether the documents provided are acceptable to PECO, without any liability or obligation to the Foreign RFP Bidder. If the documents are not acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the deficiency remains, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the Foreign RFP Bidder is not granted unsecured credit or that the Foreign RFP Bidder is not eligible to continue further in the RFP. If the Foreign RFP Bidder had submitted these documents with its Part 1 Proposal for evaluation and if the Foreign RFP Bidder conforms the documents submitted with the Part 2 Proposal to the evaluation provided with its Part 1 Notification, then these documents will automatically be considered acceptable to PECO. The Independent Evaluator provides such notices to the RFP Bidder by email.

VII.1.31. For an RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor and that submits the documents required under Paragraph V.5.3, PECO and the Independent Evaluator will determine whether the documents provided are acceptable to PECO, without any liability or

obligation to the RFP Bidder or the RFP Guarantor. If the documents are acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the deficiency remains, the RFP Bidder the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that the RFP Guarantor is not granted unsecured credit. The RFP Bidder may not rely on the financial standing of the RFP Guarantor and the Independent Evaluator may request additional information regarding the RFP Bidder under Section IV.2. If the RFP Bidder had submitted these documents with its Part 1 Proposal for evaluation and if the RFP Bidder conforms the documents submitted with the Part 2 Proposal to the evaluation provided with its Part 1 Notification, then these documents will automatically be considered acceptable to PECO. The Independent Evaluator provides such notices to the RFP Bidder by email.

VII.1.32. For an RFP Bidder relying on a Foreign Entity as Principal that provides the documents required under Paragraph V.5.4, PECO and the Independent Evaluator will determine whether the documents provided are acceptable to PECO, without any liability or obligation to the RFP Bidder or its Principal(s). If the documents are not acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the deficiency remains, the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that the RFP Bidder and its Principal are not granted unsecured credit. If the RFP Bidder had submitted these documents with its Part 1 Proposal for evaluation and if the RFP Bidder conforms the documents submitted with the Part 2 Proposal to the evaluation provided with its Part 1 Notification, then these documents will automatically be considered acceptable to PECO. The Independent Evaluator provides such notices to the RFP Bidder by email.

VII.1.33. With the exceptions noted in the Paragraphs of this section, if an RFP Bidder receives any notice from the Independent Evaluator that an item of the Part 2 Proposal is deficient or requires clarification, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the RFP Bidder does not correct or adequately explain the deficiency within the time allowed, the Part 2 Proposal may be rejected. The Independent Evaluator sends such notice to the RFP Bidder by email.

VII.1.34. An RFP Bidder's Part 2 Proposal is successful if its Part 2 Proposal is received on or before 12 PM (noon) on the Part 2 Date, if its Part 2 Proposal is complete, and if its Part 2 Proposal fully complies with the requirements of Article V of these RFP Rules.

VII.1.35. An RFP Bidder that submits a Part 2 Proposal will be notified whether it is eligible to submit Bids no later than 6 PM on the Part 2 Notification Date. The Independent Evaluator provides such notification to the RFP Bidder by email.

VII.2. Bids: Submission, Processing, and Evaluation

VII.2.1. An RFP Bidder must submit its Bids in accordance with the instructions provided in the Part 1 Materials and in accordance with the requirements of Article VI. An RFP Bidder's Bids must be received between 10 AM and 12 PM (noon) on the Bid Date. The requirements for Bid submission are the same for all RFP Bidders, regardless of whether they were previously eligible to submit Bids.

VII.2.2. The Bid Form, as provided to each RFP Bidder with the Part 1 Notification, is the exclusive method for the submission of Bids. A sample of the Bid Form is provided for illustrative purposes as Appendix 10 of these RFP Rules. The Bid Form is prepared specifically for each RFP Bidder. The Bid Form must be filled out completely and transferred according to the instructions provided by the Independent Evaluator in the Part 1 Materials. The RFP Bidder may encrypt the Bid Form using the instructions provided by the Independent Evaluator. Bids on any Bid Form that is incompletely or inconsistently filled out will be considered deficient and will not be evaluated.

VII.2.3. An RFP Bidder submits its Bids electronically, by transferring its Bid Form through a secure file transfer system. The RFP Bidder must use the username and the password provided by the

Independent Evaluator to access the secure file transfer system. The Independent Evaluator supplies a security code that the RFP Bidder may use to encrypt the Bid Form.

VII.2.4. An RFP Bidder that must resort to an alternate method for submitting its Bid Form by email because of technical difficulties with the secure file transfer system must follow the instructions provided by the Independent Evaluator for this contingency. These instructions will include a representative of the RFP Bidder emailing or texting the Independent Evaluator to advise the Independent Evaluator of the use of an alternate method for the submission of the Bid Form. The Independent Evaluator will recommend that the Bid Form in this case be encrypted and the Independent Evaluator will note for the RFP Bidder that such transmission may not be secure.

VII.2.5. All Bid Forms must be received between 10 AM and 12 PM (noon) on the Bid Date. No late Bid Forms will be considered regardless of the method used by the RFP Bidder to submit its Bid Form.

VII.2.6. If an RFP Bidder submits its Bid Form more than once between 10 AM and 12 PM (noon) on the Bid Date, the last Bid Form submitted in accordance with all requirements of the Bid Form and of Article VI automatically supersedes all previously submitted Bid Form(s).

VII.2.7. The Independent Evaluator acknowledges receipt of the Bid Form with each RFP Bidder by telephone. The telephone number used is the telephone number provided on the Bid Form. If the Bid Form received by the Independent Evaluator is not encrypted by the RFP Bidder, the Independent Evaluator will require that the RFP Bidder provide the security code to the Independent Evaluator before the Bid Form is acknowledged and evaluated. The Independent Evaluator makes this acknowledgment within thirty (30) minutes of receipt of the Bid Form. An RFP Bidder that does not receive an acknowledgment within thirty (30) minutes of submitting its Bid Form should assume technical difficulties, should proceed to submitting its Bid Form by an alternate method, and should email or text the Independent Evaluator immediately. RFP Bidders may email the Independent Evaluator at pecoprocurement@nera.com to ask for confirmation of receipt of the Bid Form.

VII.2.8. If the Bid Form received by the Independent Evaluator is incomplete or inconsistent with all requirements of the Bid Form and of Article VI, the Independent Evaluator will advise the RFP Bidder of that fact when confirming receipt of the Bid Form. In the case where the Independent Evaluator provides the evaluation of a Bid Form with at least ten minutes left in the Bid Window for that Bid

Form, if the Bid Form is incomplete or inconsistent with the RFP Rules, or if the Pre-Bid Letter of Credit is insufficient to support the number of tranches bid by the RFP Bidder, then the RFP Bidder may correct and resubmit that Bid Form as long as it is received between 10 AM and 12 PM (noon) on the Bid Date. In the case where the Independent Evaluator provides the evaluation of a Bid Form with less than ten minutes left in the Bid Window, or after the Bid Window has closed, the following will apply. If the Bid Form is incomplete or inconsistent with the RFP Rules, or if the Pre-Bid Letter of Credit is insufficient to support the number of tranches bid by the RFP Bidder, the RFP Bidder will have ten minutes to resubmit the Bid Form strictly for the purpose of addressing the deficiencies identified by the Independent Evaluator. Only one such resubmission will be considered. The Independent Evaluator will reject a resubmitted Bid Form that modifies Bids that were consistent with the RFP Rules as originally submitted.

VII.2.9. It is the responsibility of the RFP Bidder to ensure that a completely and consistently filled out Bid Form is submitted between 10 AM and 12 PM (noon) on the Bid Date. The Independent Evaluator will hold a training session for RFP Bidders to practice the Bid submission process. RFP Bidders are encouraged to participate to minimize the possibility of technical difficulties with the submission of their Bid Forms.

VII.2.10. The Independent Evaluator will verify that the Pre-Bid Letter of Credit is in an amount sufficient to support the number of tranches bid by each RFP Bidder. If an RFP Bidder's Pre-Bid Letter of Credit is insufficient to support the number of tranches bid by the RFP Bidder, the Independent Evaluator will contact the RFP Bidder on a best efforts basis. The RFP Bidder may correct and resubmit the Bid Form in accordance with paragraph VII.2.8. If the Independent Evaluator is not able to contact the RFP Bidder in time or if the RFP Bidder has not submitted a revised Bid Form in accordance with paragraph VII.2.8, the Independent Evaluator will modify the Bid Form. The Independent Evaluator will determine for such RFP Bidder the greatest number of whole tranches that its Pre-Bid Letter of Credit is sufficient to support. The Independent Evaluator will strike a Bid from a Bid Form for any tranche that is not supported by the Pre-Bid Letter of Credit. The Independent Evaluator will remove a Bid first from the product where there is most competition, as measured by the ratio of the number of tranches bid to the number of tranches needed. For that product, the Independent Evaluator will

start with the tranche that has the highest Bid. If more than one RFP Bidder submitted Pre-Bid Letters of Credit that are insufficient to support the number of tranches bid by each such RFP Bidder, the Independent Evaluator will first modify the Bid Form from the RFP Bidder whose Bid Form is received last.

VII.2.11. By submitting a Proposal in response to an RFP, each RFP Bidder is authorizing the Independent Evaluator to modify the RFP Bidder's Bid Form as specified Paragraph VII.2.10. Each RFP Bidder acknowledges and accepts that the methodology may result in removal of a Bid that would have been approved by the Commission or the retention of a Bid that was not approved by the Commission.

VII.2.12. The Bids supported by an adequate Pre-Bid Letter of Credit will be evaluated on a price-only basis. The Bids for each product will be ranked from lowest to highest price until all Bids are ranked or until the number of Bids that are ranked equals the number of tranches available for the product.

VII.2.13. If two or more RFP Bidders submit Bids that are identical for a product, these Bids will be considered "Tied Bids" at that price. The Independent Evaluator will use the tie-breaking procedure described in the next Paragraph if: i) in total, more Bids must be ranked for a product than there are tranches available for that product; ii) the tie among two or more Tied Bids must be broken in order to determine the RFP Bidders that have submitted the lowest Bids on that product.

VII.2.14. The tie-breaking procedure will award tranches in the following order: (1) to the RFP Bidder which, if awarded the tranche, would hold the fewest tranches for the product for any one month during the product term; (2) to the RFP Bidder which, if awarded the tranche, would hold the fewest tranches for the Class in question for any one month during the product term, including tranches won for the Class in prior solicitations; and then (3) to the RFP Bidder which, if awarded the tranche, would hold the fewest tranches in aggregate for any one month during the product term, including tranches won for the Class in prior solicitations. If a tie were to remain, it would be broken by random selection.

VII.2.15. An RFP Bidder acting in concert with another RFP Bidder may be disqualified by the Independent Evaluator on behalf of the Company in its sole and exclusive discretion. The RFP Bidder will be considered to have made a material misrepresentation in its Part 2 Proposal and payment under the Pre-Bid Letter of Credit can be demanded by PECO.

VII.3. Post-Bid Process

VII.3.1. The Independent Evaluator phones each RFP Bidder that has submitted Bids by 3 PM on the Bid Date and identifies the RFP Bidder's Bids that are provided to the Commission as lowest-priced Bids. The Independent Evaluator also identifies the RFP Bidder's lowest-priced Bids that the Independent Evaluator will be recommending for approval by the Commission in its confidential report. The Independent Evaluator also provides a notification to the RFP Bidder by email.

VII.3.2. An RFP Bidder that: (i) is not a Default Supplier; and (ii) has Bids that are identified to the Commission as lowest-priced Bids; and (iii) did not provide the necessary information to prepare the Uniform SMA with the Part 1 Proposal, will receive a notification from the Independent Evaluator on the Bid Date. This notification will require that such RFP Bidder provide all information needed to prepare the Uniform SMA by 12 PM (noon) on the next day. The Independent Evaluator uses this information to prepare the Uniform SMA for each such RFP Bidder.

VII.3.3. An RFP Bidder that: (i) relies on the financial standing of an RFP Guarantor; (ii) has Bids that are identified to the Commission as lowest-priced Bids; and (iii) did not provide the information necessary to prepare the guaranty with the Part 1 Proposal will receive a notification from the Independent Evaluator on the Bid Date. This notification will require that such RFP Bidder provide all information needed to prepare the guaranty by 12 PM (noon) on the next day. The Independent Evaluator uses this information to prepare the guaranty for each such RFP Bidder.

VII.3.4. The Independent Evaluator presents the results of the solicitation to the Commission on the business day after the Bid Date in a confidential report. This confidential report will include the lowest-priced Bids identified during the evaluation as well as a recommendation from the Independent Evaluator on whether or not the lowest-priced Bids should be approved. The Independent Evaluator will not recommend approval for lowest-priced Bids for a Residential product that cause the average of the lowest-priced Bids to exceed the reserve price for that product. The reserve price is calculated separately for each Residential product on the basis of the best available market data and is provided to the Commission on a confidential basis. Neither the method for calculation of the reserve price or the level of the reserve price is provided to RFP Bidders.

VII.3.5. The Commission will have one (1) business day to consider the report of the Independent Evaluator and to approve or reject each of the lowest-priced Bids. The Commission may reject Bids that the

Independent Evaluator recommended be approved and the Commission may approve Bids that the Independent Evaluator recommended be rejected. If the Commission does not act within one (1) business day, the lowest-priced Bids are deemed to be approved.

VII.3.6. For each product, a Default Supplier will be paid a supplier-specific price for each MWh of electric load served as specified in the Transaction Confirmation for that product. The supplier-specific price will be the average of approved Bids for that product and that Default Supplier.

VII.3.7. The winning RFP Bidders and PECO must execute the Transaction Confirmations and Uniform SMAs (if applicable) within five (5) business days of the Bid Date.

VII.3.8. PECO can collect on the Pre-Bid Letter of Credit if a winning RFP Bidder does not execute the Uniform SMA and all Transaction Confirmations, or if the winning RFP Bidder does not fulfill the creditworthiness requirements in the required timeframe.

VII.3.9. On the day that the Commission approves some or all of the lowest-priced Bids, the Independent Evaluator notifies all RFP Bidders that have lowest-priced Bids. Such RFP Bidders are called Default Suppliers. When referring specifically to RFP Bidders that are not already Default Suppliers, the term New Default Suppliers will be used. When referring specifically to RFP Bidders that are already Default Suppliers, the term Existing Default Suppliers will be used.

VII.3.10. On the day the Commission approves some or all of the lowest-priced Bids, the Independent Evaluator provides to PECO the name of each Default Supplier, the number of tranches won by each Default Supplier, and the Default Supplier's price for each product. The price for each such Default Supplier and for a given product is the average of the Default Supplier's approved Bids for that product in this solicitation.

VII.3.11. On the day the Commission approves some or all of the lowest-priced Bids, the Independent Evaluator sends to PECO by secure file transfer the Uniform SMA, including all Exhibits, for each New Default Supplier. On the same day, the Independent Evaluator sends to PECO by secure file transfer the guaranty for each New Default Supplier relying on the financial standing of an RFP Guarantor. The Independent Evaluator also sends to PECO by secure file transfer the most current contact information that the Independent Evaluator has for each Default Supplier.

VII.3.12. On the business day following the Commission approval of some or all of the lowest-priced Bids, PECO prepares a Transaction Confirmation (Exhibit 1 of the Uniform SMA) for each product and Default Supplier. PECO partially executes each Transaction Confirmation for each Default Supplier and each product using a digital signature. PECO also partially executes the Uniform SMA with each New Default Supplier using a digital signature.

VII.3.13. By 12PM on the second business day following the Commission approval of some or all of the lowest-priced Bids, PECO sends by email:

- An electronic version of the Uniform SMA, including all Exhibits, to each New Default Supplier;
- An electronic version of the partially executed Transaction Confirmation to each Default Supplier for each product for which the Default Supplier has won tranches; and
- An electronic version of the guaranty to each New Default Supplier relying on the financial standing of an RFP Guarantor.

PECO also informs each Default Supplier of its specific creditworthiness requirements. No hardcopy versions will be provided by overnight delivery service.

VII.3.14. By 2PM on the third business day following Commission approval of some or all of the lowest-priced Bids:

- Each New Default Supplier partially executes the Uniform SMA, including signing Exhibit 3 and the PJM Declaration of Authority, using a digital signature and returns an electronic version to PECO by email;
- Each Default Supplier partially executes the Transaction Confirmation(s) using a digital signature and returns an electronic version to PECO by email; and
- Each New Default Supplier relying on the financial standing of an RFP Guarantor executes the guaranty using a digital signature and returns an electronic version to PECO by email.

No hardcopy versions should be mailed.

VII.3.15. By close of the third business day following Commission approval of some or all of the lowest-priced Bids, each Default Supplier complies with all instructions from PECO to fulfill the creditworthiness requirements under the Uniform SMA.

VII.3.16. Following receipt of documents by PECO:

- PECO and each New Default Supplier have a fully executed Uniform SMA, Exhibit 3, PJM Declaration of Authority, as well as all other Exhibits; and
- PECO and each Default Supplier have a fully executed Transaction Confirmation for each product for which the Default Supplier has approved Bids.

VII.3.17. As provided in the Commission's directive dated October 12, 2010 (Docket No. M-2009-2082042), the Independent Evaluator will release, within fifteen (15) days of the Bid Date, the weighted average price and the percentage of load represented by each tranche for each product procured through this RFP. The Independent Evaluator will issue an announcement on behalf of PECO with this information and the announcement will also be posted to the RFP website.

VII.3.18. Within fifteen (15) days of the full execution of the Uniform SMA, the Independent Evaluator provides to PECO a report on the solicitation. This report is based on the confidential report provided to the Commission, except that no losing bid information specific to a particular RFP Bidder is provided and that any information that an RFP Bidder may consider confidential or proprietary is also redacted.

VII.3.19. As provided in the PaPUC's directive dated October 12, 2010 (Docket No. M-2009-2082042), PECO will continue to provide a default service rate calculation model. The model shows the methodology for translating RFP results into default service rates. A separate tool or illustrative example will be provided for determination of TOU rates. The calculation model is posted to the PECO website: https://www.peco.com/MyAccount/MyService/Pages/ElectricPricetoCompare.aspx

VII.4. Personnel and Confidentiality

VII.4.1. Any information provided by an RFP Bidder in its Part 1 Proposal is provided on a confidential basis to the Independent Evaluator and may be provided on a confidential basis to the Commission Staff. PECO representatives will review the information provided to fulfill the requirements of Section IV.2, Section IV.3, and Section IV.5 and will participate in the evaluation of the creditworthiness of each RFP Bidder.

VII.4.2. Any information provided by an RFP Bidder in its Part 2 Proposal is provided on a confidential basis to the Independent Evaluator, and may be provided on a confidential basis to the Commission Staff. PECO representatives will review the Pre-Bid Letter of Credit with the name of the RFP Bidder and

the amount redacted and will participate in the evaluation of this Pre-Bid Letter of Credit. PECO representatives will also review the documents provided to fulfill the requirements of Section V.4 and Section V.5.

VII.4.3. The Independent Evaluator and representatives from PECO involved in the evaluation of Proposals will consider all data and information provided by RFP Bidders in response to this RFP to be confidential and will attempt to limit its disclosure to the public in accordance with the provisions of this section. PECO will also take reasonable action to ensure that its employees, representatives and agents authorized to consider and evaluate all Proposals protect the confidentiality of such data and information. Each representative of the Independent Evaluator and PECO that has access to any portion of the Proposals is required to sign a Confidentiality Statement in the form of Appendix 12 to these RFP Rules prior to evaluation of any portion of the Proposals. The list of all signatories is available to an RFP Bidder upon request.

VII.4.4. However, absolute protection from public disclosure of the RFP Bidders' data and information filed in response to this RFP cannot be provided and is not intended. By submitting a Proposal in response to this RFP, each RFP Bidder acknowledges and agrees to the limitations of the confidentiality provisions set forth in this section.

VII.4.5. In addition, the RFP Bidders' data and information filed in response to the RFP will be disclosed if required by any federal, state or local agency (including, without limitation, the Commission) or by a court of competent jurisdiction. PECO or the Independent Evaluator will notify the RFP Bidder in advance of such disclosure and cooperate with such RFP Bidder, to the extent deemed reasonable by PECO, and at the expense of the RFP Bidder, to prevent the disclosure of such materials. In any event, PECO, its employees, and agents including the Independent Evaluator will not be responsible to the RFP Bidders or any other party or liable for any disclosure of such designated materials before, during or subsequent to this RFP.

ARTICLE VIII. Reserved Rights

VIII.1.1. PECO will not be liable to any RFP Bidder or any other party for failure to execute a Uniform SMA or any Transaction Confirmation. Nothing herein may be construed to bind PECO unless and until the Commission has approved lowest-priced Bids, and the Uniform SMA and each Transaction Confirmation with an approved Default Supplier has been executed and is effective. Once effective, it is the Uniform SMA and not the RFP Rules or any documents relating thereto that will govern the relationship between and the responsibilities of the parties.

VIII.1.2. The Independent Evaluator reserves the right to reject Proposals submitted in response to this RFP that are incomplete, or do not conform with the requirements of this RFP, or are submitted beyond the deadline for submission, or are submitted by an RFP Bidder that tries to unduly influence in any way the evaluation process.

ADDENDUM to the RFP Rules

I.1. Auction Schedule

The schedule for this solicitation is below. All times in this schedule are Eastern Prevailing Time ("EPT") unless specifically noted.

Table 1. Schedule

Event	Timing
Deadline to request consideration of an alternate form of guaranty	Tuesday, January 28, 2025
Bidder Information Webcast	Friday, February 7, 2025
Decision on alternate guaranty forms (if any)	Friday, February 14, 2025
Part 1 Window Opens	Wednesday, February 19, 2025
Part 1 Date (Part 1 Window Closes)	Tuesday, February 25, 2025
Part 1 Notification Date	Thursday, February 27, 2025
Approved modifications to Standard Guaranty posted	Friday, February 28, 2025
Part 2 Window Opens	Friday, February 28, 2025
Bid Submission training	Wednesday, March 5, 2025
Part 2 Date (Part 2 Window Closes)	Thursday, March 6, 2025
Part 2 Notification Date	Monday, March 10, 2025
Bid Date (Bids are Due)	Tuesday, March 11, 2025
IE provides its report to the PaPUC	Wednesday, March 12, 2025
PaPUC Decision (close of business)	Thursday, March 13, 2025
If Bids are approved by the PaPUC:	
PECO sends partially executed Uniform SMA and Transaction Confirmation(s) (by 12PM on the fourth business day after the Bid Date)	Monday, March 17, 2025
Uniform SMA and Transaction Confirmation(s) fully executed (by 2PM on the fifth business day after the Bid Date)	Tuesday, March 18, 2025
Default Service Supplier meets the creditworthiness requirements (by close of the fifth business day after the Bid Date)	Tuesday, March 18, 2025

I.2. Size of a Tranche for Default Load and Products Available

The total number of tranches, Load Caps, and the percentage size of each tranche to be procured under DSP VI are shown in the table below. The Total Peak (MW), Default Peak (MW), and MW-Measure of each tranche have been updated for this solicitation and are also provided in Table 2.

Table 2. Number of Tranches and Size of a Tranche for Default Load.

DSP VI				Updated for March 2025 Solicitation		
Class	**Total Tranches**	**Load Cap**	**% Size of a Tranche**	**Total Peak (MW)**	**Default Peak (MW)**	**MW-Measure of a Tranche**
RES	62	31	1.60%	3,982.83	3,099.78	49.50
SC	24	12	4.17%	1,044.70	515.16	21.46
CCI	8	6	12.50%	3,013.90	206.07	25.76

The products and number of tranches available in this solicitation are provided in Table 3. A product for purposes of this RFP is defined by three characteristics: a) the Class to which it contributes Default Supply; b) the length of the supply period; and c) the date at which the supply period begins. For example, the RES-12-Jun25 product represents Default Supply for the RES Class for the supply period from June 1, 2025 through May 31, 2026.

Table 3. Products and Number of Tranches Available.

Product	Tranches Available
RES-12-Jun25	12
RES-24-Jun25	11
SC-12-Jun25	6
SC-24-Jun25	3
CCI-12-Jun25	8

I.3. Load Caps for Products Available

Each Class has "Load Caps", which are limits on the number of tranches of Default Supply that an RFP Bidder can bid and serve for that Class. The Load Caps ensure that there will be a diversified pool of Default Suppliers for each Class. The Load Caps for the RES and SC Classes are set so that the Default Service customers of that Class have no more than a 50% exposure to any one Default Supplier at any given time. The Load Cap for the CCI Class is set so that the Default Service customers of that Class have no more than a 75% exposure to any one Default Supplier at any given time. The Load Caps in this solicitation are provided here:

Table 4. Available Tranches and Load Caps (March 2025 Solicitation; RES Class).

Products	Available Tranches	Load Caps Apply to an RFP Bidder When an RFP Bidder Has:	Load Caps for RES Class
RES-12-Jun25	12	Won more than 19 RES-24-Dec23, RES-24-Jun24, RES-12-Dec24, and RES-24-Dec24 tranches under DSP V	31 less RES-24-Dec23, RES-24-Jun24, RES-12-Dec24, and RES-24-Dec24 tranches won under DSP V
RES-24-Jun25	11	Won more than 20 RES-24-Dec23, RES-24-Jun24, RES-12-Dec24, and RES-24-Dec24 tranches under DSP V	

Table 5. Available Tranches and Load Caps (March 2025 Solicitation; SC and CCI Classes).

Products	Available Tranches	Load Caps Apply to an RFP Bidder When an RFP Bidder Has:	Load Caps
SC-12-Jun25	6	Won more than 6 tranches of SC-24-Dec23, SC-24-Jun24, SC-12-Dec24, and SC-24-Dec24 under DSP V	12 less SC-24-Dec23, SC-24-Jun24, SC-12-Dec24, and SC-24-Dec24 tranches won under DSP V
SC-24-Jun25	3	Won more than 9 tranches of SC-24-Dec23, SC-24-Jun24, SC-12-Dec24, and SC-24-Dec24 under DSP V	
CCI-12-Jun25	8	Load Caps apply always	6

- The Load Cap for the RES Class will apply as follows. An RFP Bidder is limited to 31 tranches of the RES-24-Dec23, RES-24-Jun24, RES-12-Dec24, RES-24-Dec24, RES-12-Jun25, and RES-24-Jun25 products combined, including tranches of these products won in previous solicitations and tranches bid for the RES-12-Jun25 and RES-24-Jun25 products in this solicitation.
- The Load Cap for the SC Class will apply as follows. An RFP Bidder is limited to 12 tranches of the SC-24-Dec23, SC-24-Jun24, SC-12-Dec24, SC-24-Dec24, SC-12-Jun25, and SC-24-Jun25 products combined, including tranches of these products won in previous solicitations and tranches bid for the SC-12-Jun25 and SC-24-Jun25 products in this solicitation.

- The Load Cap for the CCI Class will apply as follows. In this solicitation, an RFP Bidder is limited to 6 tranches for the CCI-12-Jun25 product.

Appendix 1
PECO Energy Company
Pennsylvania Default Service Supplier Master Agreement

See PECO Exhibit SD-2

Appendix 2 – Alternate Guaranty Process

The Alternate Guaranty Process allows a prospective supplier unable to use the standard format of the guaranty provided as Appendix G to the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA") to submit for consideration by PECO Energy Company ("PECO") an alternate guaranty form that the prospective supplier uses in its normal course of business.

Any prospective supplier can apply to use an alternate guaranty form. Any alternate guaranty form, as is the case with the standard format of the guaranty of the Uniform SMA, must be a financial guaranty. While alternate forms of financial guaranty may be acceptable, performance guaranties are not acceptable.

Process and Ground Rules

The process for submitting an alternate guaranty form and the ground rules for PECO's consideration of alternate guaranty forms are as follows:

1. A prospective supplier wishing to have PECO evaluate an alternate guaranty form must initiate the process by making a request for such consideration to the Independent Evaluator no later than fifteen (15) business days prior to the opening of the Part 1 Window. Within three (3) business days of receipt of such a request, the Independent Evaluator will issue a timetable for receipt of the materials from the prospective supplier and for consideration of these materials by PECO.

2. PECO will consider alternate guaranty forms only if the guaranty is for unlimited liability. (A prospective supplier can utilize the safe harbor provided by the Standard Guaranty, which has a liability limit.)

3. PECO has specified a list of minimum requirements that any alternate guaranty form must satisfy. This list is under the heading: "Minimum Requirements for the Alternate Guaranty Form" below.

4. The Independent Evaluator will receive the alternate guaranty form, remove any information identifying the prospective supplier, and forward it to PECO and to outside counsel retained on behalf of PECO. PECO will determine, with the consultation of outside counsel and the Independent Evaluator as necessary, whether the alternate guaranty form provides sufficient assurances of payment, taking into account the following general considerations:

    a. whether the alternate guaranty form conforms to the minimum requirements identified by PECO;

    b. whether the alternate guaranty form, which is not subject to a monetary limit, provides credit protections comparable to the credit protections provided to PECO by the Standard Guaranty; and

    c. whether the alternate guaranty form includes defenses in favor of the guarantor not found in the Standard Guaranty.

    PECO may also identify specific changes that would permit the alternate guaranty form to be acceptable.

The Independent Evaluator will inform the prospective supplier of PECO's decision. The Independent Evaluator will inform the prospective supplier of any specific changes that may be required for the proposed alternate guaranty form to be acceptable to PECO. Prospective suppliers will be given an opportunity to resubmit the alternate guaranty form if changes are identified by PECO. Alternate guaranty forms that have been resubmitted may be rejected if they do not include the changes identified by PECO.

5. An alternate guaranty form approved through this Guaranty Process will be acceptable to PECO. This alternate guaranty form may be used by the prospective supplier through the end of DSP VI barring changes in the applicable law or changes to the RFP as may be ordered by the Pennsylvania Public Utility Commission.

Minimum Requirements for the Alternate Guaranty Form

Below are the minimum requirements that must be met in order for any alternate guaranty form to be acceptable. As stated above, in determining whether an alternate guaranty form is acceptable and provides sufficient assurances of payment, PECO takes into account several general considerations, including whether the alternate guaranty form fulfills the following minimum requirements:

1. The guaranty must be an unconditional guaranty of payment of all amounts due by the Seller to PECO under the applicable SMA(s), i.e., the Uniform SMA and any previously entered Default Service SMA(s). To clarify the meaning of the term "unconditional guaranty of payment", sample language is provided in the last section of this document. The applicable SMA(s) must be expressly identified and the satisfaction of obligations through performance may not be authorized.

2. The guaranty may be terminated upon no less than thirty (30) calendar days advance written notice to PECO and termination will not discharge liabilities and obligations of the guarantor that have been incurred up to and including the effective date of the termination. The termination of an alternate guaranty will be effective only upon the receipt of substitute security or credit support that is acceptable to PECO.

3. The guaranty must not be subject to any monetary limit.

4. The guaranty must be accompanied by a certification from the guarantor that the alternate guaranty form, subject to changes needed to conform to the minimum requirements specified herein or to the specific changes identified by PECO, has been in general use by the prospective supplier in its ordinary course of business over the past twelve (12) months.

5. The guaranty must be a guaranty of payment and not of collection.

6. Assignment of the guaranty will not be permitted except with the prior written consent of PECO, except in the case of a Successor Guarantor as defined below (see sample assignment language).

7. The prospective supplier must provide an enforceability opinion with respect to the alternate guaranty form from its outside counsel. The enforceability opinion must be from a law firm of national (i.e., United States) standing. The prospective supplier must name the law firm that is offering the enforceability opinion in its submission. The enforceability opinion must not be weaker than would be the industry norm and must contain only those qualifications that would be typical. The opinion will name PECO and explicitly state that PECO is entitled to rely on the opinion.

The enforceability opinion must not be qualified by or conditioned on any of the following:

a. the valid existence and good standing of the parties to the Uniform SMA;

b. the power and authority of the prospective supplier and guarantor to execute, deliver, and perform their respective agreements;

c. due execution of the Uniform SMA and the alternate guaranty form; or

d. that the Uniform SMA is legal, valid, binding, and enforceable against all parties.

At the time that the prospective supplier submits its alternate guaranty form and supporting documentation, the opinion may be unsigned. If the prospective supplier becomes an RFP Bidder, the RFP Bidder will be required to submit, with its Part 2 Proposal, the enforceability opinion exactly as approved, duly signed, and on letterhead of a law firm of national standing.

Sample Language

The process for submission of alternate guaranty forms is designed to give prospective suppliers some flexibility while at the same time assuring adequate credit protection for PECO and its customers. PECO provides sample language below for the purpose of clarifying certain aspects of the minimum requirements for alternate guaranty forms. This language is not required, but would be deemed acceptable to PECO. PECO reserves the right to reject alternate guaranty forms that do not contain language that, in PECO's view, provides substantially comparable protections to the language set forth below.

Subject	**Sample Language**
Unconditional Guaranty	"Guarantor agrees that its obligations hereunder are unconditional and will not be discharged except by complete payment of all amounts due under the Uniform SMA, irrespective of any claim or dispute as to the Uniform SMA's validity, regularity or enforceability, or the lack of authority of the RFP Bidder to enter into the Uniform SMA."
Assignment	"Guarantor may not assign its rights nor delegate its obligations under this Guaranty, in whole or in part, without the prior written consent of PECO, and any purported assignment or delegation absent such consent is void, except for an assignment and delegation of all of Guarantor's rights and obligations hereunder to a Successor Guarantor. For purposes of this paragraph, a "Successor Guarantor" means a partnership, corporation, trust or other organization in whatever form that succeeds to all or substantially all of the Guarantor's assets and business and that assumes all of the Guarantor's obligations hereunder by contract or operation of law; provided, that, such Successor Guarantor will have a long-term unsubordinated debt rating that is not lower than the lesser of (i) A2/A or (ii) the rating of the Guarantor immediately prior to such assumption."

APPENDIX 3 – ILLUSTRATIVE STANDARD PART 1 FORM DEFAULT SERVICE PROGRAM REQUEST FOR PROPOSALS

PECO Energy Company ("Company" or "PECO") is intending to obtain full requirements electric supply to meet a portion of its obligations as Default Service Provider through this Request for Proposals ("RFP").

Before completing this online Part 1 Form, please review the RFP, including the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA"), so that you understand the conditions under which the RFP will be conducted. These documents are posted at www.PECOprocurement.com.

By submitting a Part 1 Proposal in response to this RFP, you are agreeing to all terms and conditions of this RFP.

Any information provided by an RFP Bidder in this Part 1 Proposal is provided on a confidential basis to the Independent Evaluator, and may be provided on a confidential basis to the Staff of the Pennsylvania Public Utility Commission. PECO representatives will review financial information and will participate in the evaluation of the creditworthiness of each RFP Bidder. Information regarding the content or status of any Part 1 Proposal will not be released publicly or to any individual RFP Bidder during the evaluation process.

STANDARD PART 1 FORM

1. Contact Information and Representations

First Item: Name and Address of the RFP Bidder

PLEASE PROVIDE THE RFP BIDDER'S LEGAL NAME AND ADDRESS.

Legal Name of RFP Bidder

Street Address Line 1

Street Address Line 2

City *State* *Zip Code*

Second Item: Officer of the RFP Bidder

The Officer of the RFP Bidder must be an officer, a director, or an individual otherwise authorized to undertake contracts (including the Uniform SMA) and bind the RFP Bidder. The Officer of the RFP Bidder whose contact information is provided in this online Part 1 Form must:

- make all representations required by the Part 1 Proposal requirements; and
- make all representations required by the Part 2 Proposal requirements.

PLEASE PROVIDE THE NAME AND CONTACT INFORMATION FOR THE OFFICER OF THE RFP BIDDER.

First Name *Last Name*

Title

Street Address Line 1

Street Address Line 2

City *State* *Zip Code*

Business Phone No. *Cell Phone No.* *Email Address*

Third Item: Representative of the RFP Bidder

The Independent Evaluator uses the Representative as the main point of contact for the RFP Bidder.

PLEASE PROVIDE THE NAME AND CONTACT INFORMATION FOR THE REPRESENTATIVE OF THE RFP BIDDER. The Officer of the RFP Bidder may also serve as the Representative.

First Name *Last Name*

Title

Street Address Line 1

Street Address Line 2

City *State* *Zip Code*

Business Phone No. *Cell Phone No.* *Email Address*

THE OFFICER OF THE RFP BIDDER MUST DESIGNATE THE INDIVIDUAL NAMED ABOVE TO SERVE AS THE REPRESENTATIVE OF THE RFP BIDDER BY COMPLETING THE REPRESENTATIVE INSERT. The Representative Insert is also labelled INSERT #P1-1.

PLEASE REFER TO THE REPRESENTATIVE INSERT (#P1-1) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

REPRESENTATIVE INSERT (#P1-1)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

THE OFFICER OF THE RFP BIDDER MUST DESIGNATE THE INDIVIDUAL WHOSE CONTACT INFORMATION IS PROVIDED IN THE ONLINE PART 1 FORM AS THE REPRESENTATIVE.

I, _____ (the Officer of the RFP Bidder), hereby designate _____ (name of the Representative) to serve as the Representative of the RFP Bidder.

_____ _____
Signature of Officer Date

Fourth Item: Nominees

The Independent Evaluator provides notifications to the RFP Bidder by email and provides documents needed for participation by secure file transfer. Any such notification will be deemed received by the RFP Bidder at the time of delivery or transmission, provided that where delivery or transmission occurs after 6 PM on a business day or occurs on a day that is not a business day, receipt will be deemed to occur at 9 AM on the following business day.

The RFP Bidder may designate up to three (3) authorized individuals (each called a "Nominee") to receive communications from the Independent Evaluator in addition to the Representative. The RFP Bidder may make such a designation at any time during the solicitation.

Is the RFP Bidder designating Nominees at this time?

☒ **Yes** ☐ **No**

THE REPRESENTATIVE OF THE RFP BIDDER OR THE OFFICER OF THE RFP BIDDER DESIGNATES NOMINEES BY COMPLETING THE NOMINEE INSERT. The Nominee Insert is also labelled INSERT #P1-2.

PLEASE REFER TO THE NOMINEE INSERT (#P1-2) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER OR THE REPRESENTATIVE OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

NOMINEE INSERT (#P1-2)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder or the Representative of the RFP Bidder) or with the signatory on copy.

Please note! This insert is optional.

I, _____ (the Officer of the RFP Bidder or the Representative of the RFP Bidder), authorize the individuals whose contact details are immediately below to receive communications from the Independent Evaluator and to act on behalf of the RFP Bidder during the Proposal submission process.

Signature _____ Date _____

Contact Information for Nominee #1

First Name *Last Name*

Title

Business Phone No. *Cell Phone No.* *Email Address*

Contact Information for Nominee #2

First Name *Last Name*

Title

Business Phone No. *Cell Phone No.* *Email Address*

Contact Information for Nominee #3

First Name *Last Name*

Title

Business Phone No. *Cell Phone No.* *Email Address*

Notes (*optional*)

The RFP Bidder may provide additional information here, such as the period during which a particular individual will act as Nominee or the individual that a Nominee is replacing.

2. Financial Requirements and Agency Agreements

First Item: Agency Agreement

Is the RFP Bidder submitting a Proposal under an Agency Agreement?

☐ **Yes** ☐ **No**

If Yes, the RFP Bidder must elect a Principal as the entity on whose financial standing it is relying in responding to the next item.

Second Item: Election of Entity on Whose Financial Standing the RFP Bidder Is Relying

PLEASE SELECT THE ENTITY UPON WHOSE FINANCIAL STANDING THE RFP BIDDER IS RELYING AS REQUIRED BY PARAGRAPH IV.2.2 OF THE RFP RULES:

☐ **(a)** the RFP Bidder is relying on its own financial standing.
☐ **(b)** the RFP Bidder is relying on the financial standing of a guarantor.
☐ **(c)** the RFP Bidder is submitting a Proposal under an Agency Agreement and the RFP Bidder is relying on the financial standing of a Principal.

2.a. Financial and Credit Requirements

The RFP Bidder is the entity on whose financial standing the RFP Bidder is relying.

First Item: Financial Information

IF AVAILABLE, PLEASE PROVIDE THE MOST RECENT QUARTERLY FINANCIAL INFORMATION FOR THE RFP BIDDER, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules:

- **IF AVAILABLE, YOU MUST PROVIDE THE MOST RECENT SECURITIES AND EXCHANGE COMMISSION ("SEC") FORM 10-Q OR 10-K (WHICHEVER IS MORE RECENT) TO FULFILL THIS REQUIREMENT;**
- **IF THE SEC FORM 10-Q OR 10-K IS UNAVAILABLE, PLEASE PROVIDE, IF AVAILABLE, THE RFP BIDDER'S MOST RECENT QUARTERLY, MONTHLY, OR BI-ANNUAL FINANCIAL INFORMATION** accompanied by an attestation by the Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of the RFP Rules.

	Most recent quarterly financial information (or, if unavailable, most recent monthly or bi-annual financial information accompanied by an attestation by the Chief Financial Officer) **IF THE INFORMATION IS UNAVAILABLE, PLEASE SO STATE IN THE JUSTIFICATION OF OMISSIONS SECTION.**
	Attestation from Chief Financial Officer if necessary.

Second Item: Credit Ratings

PLEASE PROVIDE ALL AVAILABLE CREDIT RATINGS FOR THE RFP BIDDER.

Is the RFP Bidder rated by S&P Global Ratings ("S&P")?

☒ **Yes** ☐ **No**

RFP Bidder's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Bidder rated by Moody's Investors Service, Inc. ("Moody's")?

☒ **Yes** ☐ **No**

RFP Bidder's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Bidder rated by Fitch, Inc. ("Fitch")?

☒ **Yes** ☐ **No**

RFP Bidder's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

2.b. Financial and Credit Requirements

The RFP Bidder is relying on the financial standing of an RFP Guarantor.

First Item: Name and Address of RFP Guarantor

PLEASE PROVIDE THE LEGAL NAME AND ADDRESS OF THE RFP GUARANTOR.

Legal Name of RFP Guarantor

Street Address Line 1

Street Address Line 2

City *State* *Zip Code*

Second Item: Financial Information

Financial information must be available for the RFP Guarantor.

PLEASE PROVIDE THE MOST RECENT QUARTERLY FINANCIAL INFORMATION FOR THE RFP GUARANTOR, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules:

- **IF AVAILABLE, YOU MUST PROVIDE THE MOST RECENT SECURITIES AND EXCHANGE COMMISSION ("SEC") FORM 10-Q OR 10-K (WHICHEVER IS MORE RECENT) TO FULFILL THIS REQUIREMENT;**
- **IF THE SEC FORM 10-Q OR 10-K IS UNAVAILABLE, YOU MUST PROVIDE THE RFP GUARANTOR'S MOST RECENT QUARTERLY, MONTHLY, OR BI-ANNUAL FINANCIAL INFORMATION** accompanied by an attestation by the Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of the RFP Rules.

	Most recent quarterly financial information (or, if unavailable, most recent monthly or bi-annual financial information accompanied by an attestation by the Chief Financial Officer)
	Attestation from Chief Financial Officer (if necessary)

Third Item: Credit Ratings

PLEASE PROVIDE THE CREDIT RATINGS FOR THE RFP GUARANTOR.

Is the RFP Guarantor rated by S&P Global Ratings ("S&P")?

☒ **Yes** ☐ **No**

RFP Guarantor's rating: ____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Guarantor rated by Moody's Investors Service, Inc. ("Moody's")?

☒ **Yes** ☐ **No**

RFP Guarantor's rating: ____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Guarantor rated by Fitch, Inc. ("Fitch")?

☒ **Yes** ☐ **No**

RFP Guarantor's rating: ____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

2.c. Financial and Credit Requirements

The RFP Bidder is submitting a Proposal under an Agency Agreement and is relying on the financial standing of a Principal.

First Item: Principals to the Agency Agreement

PLEASE PROVIDE THE LEGAL NAME OF ALL PRINCIPALS UNDER THE AGENCY AGREEMENT.

Legal Name of Principal(s)

Second Item: Agency Agreement

A copy of the Agency Agreement is required. **PLEASE PROVIDE ONE (1) COPY OF THE AGENCY AGREEMENT.**

	Agency Agreement

Third Item: Principal on Whose Financial Standing the RFP Bidder is Relying

PLEASE PROVIDE THE LEGAL NAME AND ADDRESS OF THE PRINCIPAL ON WHOSE FINANCIAL STANDING THE RFP BIDDER IS RELYING.

- If there are several Principals in the Agency Agreement, you must identify the Principal with the lowest credit rating.
- If several Principals have the same lowest credit rating, you must identify the Principal among these that also has the lowest tangible net worth.

The Principal on whose financial standing the RFP Bidder is relying is referred to as the "RFP Principal".

Name of RFP Principal

Street Address Line 1

Street Address Line 2

City	*State*	*Zip Code*

Fourth Item: Financial Information

PLEASE PROVIDE THE MOST RECENT QUARTERLY FINANCIAL INFORMATION FOR THE RFP PRINCIPAL, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules:

- **IF AVAILABLE, YOU MUST PROVIDE THE MOST RECENT SECURITIES AND EXCHANGE COMMISSION ("SEC") FORM 10-Q OR 10-K (WHICHEVER IS MORE RECENT) TO FULFILL THIS REQUIREMENT;**

- **IF THE SEC FORM 10-Q OR 10-K IS UNAVAILABLE, YOU MUST PROVIDE THE RFP PRINCIPAL'S MOST RECENT QUARTERLY, MONTHLY, OR BI-ANNUAL FINANCIAL INFORMATION** accompanied by an attestation by the Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of the RFP Rules.

	Most recent quarterly financial information (or, if unavailable, most recent monthly or bi-annual financial information accompanied by an attestation by the Chief Financial Officer)
	Attestation from Chief Financial Officer (if necessary)

Fifth Item: Credit Ratings

PLEASE PROVIDE THE CREDIT RATINGS FOR THE RFP PRINCIPAL.

Is the RFP Principal rated by S&P Global Ratings ("S&P")?

☒ **Yes** ☐ **No**

RFP Principal's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Principal rated by Moody's Investors Service, Inc. ("Moody's")?

☒ **Yes** ☐ **No**

RFP Principal's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Principal rated by Fitch, Inc. ("Fitch")?

☒ **Yes** ☐ **No**

RFP Principal's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Sixth Item: Agency Certifications

THE OFFICER OF THE RFP BIDDER MUST CERTIFY TO HAVING AUTHORITY TO BIND THE PRINCIPAL(S) AND ACKNOWLEDGE THAT AN OFFICERS' CERTIFICATE MUST BE SIGNED BY COMPLETING THE AGENCY CERTIFICATIONS INSERT. The Agency Certifications Insert is also labelled INSERT #P1-3.

PLEASE REFER TO THE AGENCY CERTIFICATIONS INSERT (#P1-3) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

P1 AGENCY CERTIFICATIONS INSERT (#P1-3)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! Only RFP Bidders submitting a Proposal under an Agency Agreement are required to submit this Insert.

THE OFFICER OF THE RFP BIDDER MUST MAKE THE FOLLOWING REPRESENTATION.

I, _____ (the Officer of the RFP Bidder), certify that I have the authority to bind the Principal(s) under the Agency Agreement provided with this Part 1 Proposal. I acknowledge that with the Part 2 Proposal, the RFP Bidder will be required to submit an Officers' Certificate signed by an officer of each Principal and substantially in the form of Appendix 6 to the RFP Rules.

_____ _____
Signature of Officer Date

Seventh Item: Draft Officers' Certificate

The RFP Bidder may, but is not required to, submit a draft Officers' Certificate for evaluation. If a draft Officers' Certificate is submitted for evaluation, the Independent Evaluator will inform the RFP Bidder of any changes required.

Is the RFP Bidder submitting a draft Officers' Certificate?
☒ **Yes** ☐ **No**

PLEASE PROVIDE THE RFP BIDDER'S DRAFT OFFICERS' CERTIFICATE.

	Draft Officers' Certificate

3. Credit Instruments and Uniform SMA

First Item: Standard Pre-Bid Letter of Credit

An RFP Bidder may request modifications to the Standard Pre-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder.

AN RFP BIDDER REQUESTS MODIFICATIONS TO THE STANDARD PRE-BID LETTER OF CREDIT BY SUBMITTING A DRAFT PRE-BID LETTER OF CREDIT SUBSTANTIALLY IN THE FORM OF THE STANDARD PRE-BID LETTER OF CREDIT INDICATING CLEARLY ANY AND ALL MODIFICATIONS TO THE STANDARD PRE-BID LETTER OF CREDIT USING TRACKED CHANGES IN MICROSOFT WORD.

All approved modifications to the Standard Pre-Bid Letter of Credit are posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

Is the RFP Bidder submitting a Draft Pre-Bid Letter of Credit?
☒ **Yes** ☐ **No**

Does the Draft Pre-Bid Letter of Credit contain the same requested modifications as a Draft Pre-Bid Letter of Credit submitted in a prior solicitation?
☐ **Yes** ☐ **No**

☒ **No**
A Draft Pre-Bid Letter of Credit that is not substantially in the form of the Standard Pre-Bid Letter of Credit will not be considered or evaluated. **PLEASE PROVIDE THE DRAFT PRE-BID LETTER OF CREDIT.**

	Draft Pre-Bid Letter of Credit

☒ **Yes**
A Draft Pre-Bid Letter of Credit that contains the same requested modifications as a prior submittal will not be reviewed again by PECO. To request the Independent Evaluator to email to you PECO's assessment of the prior submittal, please email such request to pecoprocurement@nera.com.

Second Item: Standard Post-Bid Letter of Credit

An RFP Bidder may request modifications to the Standard Post-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder.

AN RFP BIDDER REQUESTS MODIFICATIONS TO THE STANDARD POST-BID LETTER OF CREDIT BY SUBMITTING A DRAFT POST-BID LETTER OF CREDIT SUBSTANTIALLY IN THE FORM OF THE STANDARD POST-BID LETTER OF CREDIT INDICATING CLEARLY ANY AND ALL MODIFICATIONS TO THE STANDARD POST-BID LETTER OF CREDIT USING TRACKED CHANGES IN MICROSOFT WORD.

All approved modifications to the Standard Post-Bid Letter of Credit are posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

Is the RFP Bidder submitting a Draft Post-Bid Letter of Credit?
☒ **Yes** ☐ **No**

Does the Draft Post-Bid Letter of Credit contain the same requested modifications as a Draft Post-Bid Letter of Credit submitted in a prior solicitation?
☐ **Yes** ☐ **No**

☒ **No**
A Draft Post-Bid Letter of Credit that is not substantially in the form of the Standard Post-Bid Letter of Credit will not be considered or evaluated. **PLEASE PROVIDE THE DRAFT POST-BID LETTER OF CREDIT.**

	Draft Post-Bid Letter of Credit

☒ **Yes**
A Draft Post-Bid Letter of Credit that contains the same requested modifications as a prior submittal will not be reviewed again by PECO. To request the Independent Evaluator to email to you PECO's assessment of the prior submittal, please email such request to pecoprocurement@nera.com.

Third Item: Standard Guaranty

An RFP Bidder may request modifications to the Standard Guaranty that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder.

AN RFP BIDDER REQUESTS MODIFICATIONS TO THE STANDARD GUARANTY BY SUBMITTING A DRAFT GUARANTY SUBSTANTIALLY IN THE FORM OF THE STANDARD GUARANTY INDICATING CLEARLY ANY AND ALL MODIFICATIONS TO THE STANDARD GUARANTY USING TRACKED CHANGES IN MICROSOFT WORD.

All approved modifications to the Standard Guaranty are posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

Is the RFP Bidder submitting a Draft Guaranty?
☒ **Yes** ☐ **No**

Does the Draft Guaranty contain the same requested modifications as a Draft Guaranty submitted in a prior solicitation?
☐ **Yes** ☐ **No**

☒ **No**
A Draft Guaranty that is not substantially in the form of the Standard Guaranty will not be considered or evaluated. **PLEASE PROVIDE THE DRAFT GUARANTY.**

	Draft Guaranty

☒ **Yes**
A Draft Guaranty that contains the same requested modifications as a prior submittal will not be reviewed again by PECO. To request the Independent Evaluator to email to you PECO's assessment of the prior submittal, please email such request to pecoprocurement@nera.com.

Fourth Item: Information to Prepare the Uniform SMA and Its Exhibits

In accordance with Paragraph IV.3.4 of the RFP Rules, **THE RFP BIDDER IS ASKED TO PROVIDE THE FOLLOWING INFORMATION TO PREPARE THE UNIFORM SMA**:

- any elections to be made in the Uniform SMA;
- contact information required to prepare the Form of Notice, which is included as Exhibit 2 to the Uniform SMA; and
- any additional information required to prepare the Uniform SMA and its Exhibits.

The RFP Bidder must either: (i) provide the requested information to prepare the Uniform SMA at this time; **or**: (ii) submit an acknowledgment signed by the Officer of the RFP Bidder that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as winning Bids, the RFP Bidder must provide all required information by 12 PM (noon) EPT on the day after such notification is received.

Is the RFP Bidder providing information to prepare the Uniform SMA at this time?
☐ **Yes** ☐ **No**

☒ **Yes**

THE RFP BIDDER PROVIDES THE INFORMATION TO PREPARE THE UNIFORM SMA BY COMPLETING THE UNIFORM SMA INSERT. The Uniform SMA Insert is also labelled INSERT #P1-4.

_____
Name of RFP Bidder

UNIFORM SMA INSERT (#P1-4)

Please note! RFP Bidders must submit one (but ONLY one) of Insert #P1-4 and Insert #P1-5.

1. Under Section 5.4(a)(1) of the Uniform SMA, the DS Supplier may, in its sole discretion, add the following subsection 5.4(a)(1) by indicating yes or no below.

   5.4(a)(1) For the purposes of such determination, the DS Supply provided for under this Agreement for the period following the Early Termination Date through the remainder of the term of this Agreement shall be deemed to be those quantity amounts that would have been delivered on an hourly basis, had this Agreement been in effect during the previous calendar year adjusted for such DS Load changes as may have occurred since the previous calendar year.

   Do you intend for subsection 5.4(a)(1) to be included as part of the Uniform SMA?
   ☐ **Yes** ☐ **No**

2. The information that you provide below will be used to complete Exhibit 2 (Form of Notice) to the Uniform SMA. **IF ANY OF THE INFORMATION REQUESTED BELOW IS UNAVAILABLE, PLEASE ENTER N/A IN THE CORRESPONDING FIELDS.**

THE OFFICER OF THE RFP BIDDER PROVIDES THE REQUIRED ACKNOWLEDGMENT BY COMPLETING THE DELAY (SMA) INSERT. The Delay (SMA) Insert is also labelled INSERT #P1-5.

PLEASE REFER TO THE DELAY (SMA) INSERT (#P1-5) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

DELAY (SMA) INSERT (#P1-5)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! RFP Bidders must submit one (but ONLY one) of Insert #P1-4 and Insert #P1-5.

I, _____ (the Officer of the RFP Bidder), acknowledge that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as winning Bids, the RFP Bidder must provide all information required by the Uniform SMA Insert (#P1-4) by 12 PM (noon) EPT on the day after such notification is received.

_____ _____

Signature of Officer Date

4. Regulatory Representations

First Item: Representations by the Officer of the RFP Bidder

The Officer of the RFP Bidder must make a number of certifications as detailed in the RFP Rules. **THE OFFICER OF THE RFP BIDDER MAKES SUCH CERTIFICATIONS BY COMPLETING THE P1 CERTIFICATIONS A INSERT.** The P1 Certifications A Insert is also labelled INSERT #P1-6.

PLEASE REFER TO THE P1 CERTIFICATIONS A INSERT (#P1-6) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT.

_____
Name of RFP Bidder

P1 CERTIFICATIONS (A) INSERT (#P1-6)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE OR A NOTARIZED SIGNATURE FOR THIS INSERT.

This Insert may be completed as follows:

- *Signed by the Officer of the RFP Bidder with the signature notarized;*

or:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory. Digital signatures are not required to be notarized.*

This Insert and any accompanying document or information may be submitted as follows:

- *Uploaded to the online Part 1 Form;*

or:

- *Sent by email to the Independent Evaluator at PECOProcurement@nera.com.*

An RFP Bidder found to be acting in concert with another RFP Bidder may be disqualified by the Independent Evaluator.

I certify that:

(1) I am an officer, a director, or an individual otherwise authorized to undertake contracts (including the PECO Energy Company - Pennsylvania Default Service Supplier Master Agreement) and bind the RFP Bidder.
(2) All information provided in this Part 1 Proposal is true and accurate to the best of my knowledge and belief.
(3) If, for any reason or due to any circumstance, any information provided in this Part 1 Proposal changes or any previous certification fails to remain valid before the sixth business day after the

Bid Date, I or the Representative will notify the Independent Evaluator of such changes as soon as practicable but in no event later than one (1) day before the Bid Date.

(4) This Part 1 Proposal will remain valid and remain in full force and effect until six (6) business days after the Bid Date.

(5) The RFP Bidder is not part of a bidding agreement, a joint venture for purposes of participating in any solicitation for this RFP, a bidding consortium, or any other type of agreement related to bidding in any solicitation of this RFP.

_____ _____

Signature of Officer Date

_____

Printed Name

_____ _____

Signature and Seal from Notary Public Date

Second Item: Additional Representations for RFP Bidders that have not previously qualified

The Officer of the RFP Bidder must make a number of certifications as detailed in the RFP Rules. **THE OFFICER OF THE RFP BIDDER MAKES SUCH CERTIFICATIONS BY COMPLETING THE P1 CERTIFICATIONS B INSERT.** The P1 Certifications B Insert is also labelled INSERT #P1-7.

PLEASE REFER TO THE P1 CERTIFICATIONS B INSERT (#P1-7) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT.

_____

Name of RFP Bidder

P1 CERTIFICATIONS (B) INSERT (#P1-7)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE OR A NOTARIZED SIGNATURE FOR THIS INSERT.

This Insert may be completed as follows:

- *Signed by the Officer of the RFP Bidder with the signature notarized;*

or:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory. Digital signatures are not required to be notarized.*

This Insert and any accompanying document or information may be submitted as follows:

- *Uploaded to the online Part 1 Form;*

or:

- *Sent by email to the Independent Evaluator at PECOProcurement@nera.com.*

An RFP Bidder found to be acting in concert with another RFP Bidder may be disqualified by the Independent Evaluator.

I certify that:

(1) I understand the terms of the Uniform SMA. The RFP Bidder accepts all of the terms of the Uniform SMA without modifications, and the RFP Bidder will execute the Uniform SMA and the Transaction Confirmation(s) for all Bids approved by the Commission.

(2) The submission of this Part 1 Proposal constitutes the RFP Bidder's acknowledgement and acceptance of all the terms and conditions of the RFP, regardless of the outcome of the solicitation or the outcome of such Proposal.

(3) The RFP Bidder has no actions at law, suits in equity, proceedings or claims pending or, to the RFP Bidder's knowledge, threatened against it before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the RFP Bidder's performance of its obligations under the Uniform SMA.

(4) The RFP Bidder is not bankrupt or insolvent and there are no proceedings pending or being contemplated by it or, to its knowledge, threatened against it which would result in it being or becoming bankrupt or insolvent.

_____ _____

Signature of Officer Date

_____

Printed Name

_____ _____

Signature and Seal from Notary Public Date

Third Item: Load Serving Entity

By the time service begins, a Default Supplier must be a Load Serving Entity ("LSE") in good standing in PJM, and must be a signatory of all applicable PJM Agreements, including the Reliability Assurance Agreement ("RAA").

Is the RFP Bidder an LSE in PJM?

☐ **Yes** ☐ **No**

☒ **Yes**

THE RFP BIDDER MUST PROVIDE A COPY OF THE SIGNATURE PAGE OF THE RELIABILITY ASSURANCE AGREEMENT ("RAA").

	Signature Page of RAA

If the name of the signatory is not the same as the RFP Bidder, please provide evidence of a name change.

	Evidence of name change (if necessary)

☒ **No**

THE OFFICER OF THE RFP BIDDER MUST MAKE THE CERTIFICATIONS DETAILED IN THE RFP RULES BY COMPLETING THE LSE REPRESENTATION INSERT. The LSE Representation Insert is also labelled INSERT #P1-9.

PLEASE REFER TO THE LSE REPRESENTATION INSERT (#P1-9) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

LSE REPRESENTATION INSERT (#P1-9)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! ONLY RFP Bidders that are NOT PJM LSEs are required to submit this Insert.

I, _____ (the Officer of the RFP Bidder), certify that the RFP Bidder has investigated the requirements to become an LSE in PJM and that there exist no impediments for the RFP Bidder to become an LSE by the start of the supply period and to remain an LSE for the duration of the supply period. The RFP Bidder undertakes to be qualified as a PJM LSE by the start of the supply period should the RFP Bidder become a Default Supplier.

5. Foreign RFP Bidders and Foreign Entities

Is the RFP Bidder a Foreign Entity, or is the RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor, or is the RFP Bidding submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal?

☐ **Yes** ☐ **No**

☒ **Yes**

AN RFP BIDDER THAT IS A FOREIGN RFP BIDDER, OR THAT IS RELYING ON THE FINANCIAL STANDING OF A FOREIGN ENTITY AS RFP GUARANTOR, OR RFP BIDDERS SUBMITTING A PROPOSAL UNDER AN AGENCY AGREEMENT WITH A FOREIGN ENTITY AS PRINCIPAL IS REQUIRED TO PROVIDE ADDITIONAL INFORMATION AS SPECIFIED IN THE SECTION IV.5 OF THE RFP RULES BY COMPLETING THE APPLICABLE INSERT AND PROVIDING ASSOCIATED DOCUMENTS. An RFP Bidder that is a Foreign RFP Bidder is required to complete the P1 Foreign Bidder Insert, also labelled INSERT #P1-10. An RFP Bidder relying on the financial standing of a Foreign RFP Guarantor is required to complete the P1 Foreign Guarantor Insert, also labelled INSERT #P1-11. An RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal is required to complete the P1 Foreign Principal Insert, also labelled INSERT #P1-12.

PLEASE REFER TO THE P1 FOREIGN BIDDER INSERT (#P1-10), P1 FOREIGN GUARANTOR INSERT (#P1-11), OR P1 FOREIGN PRINCIPAL INSERT (#P1-12) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THE INSERT. IF THE INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

P1 FOREIGN BIDDER INSERT (#P1-10)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! ONLY Foreign RFP Bidders are required to submit this Insert.

First Item: Evidence of Creditworthiness

In addition to supplying all required information and documents elsewhere in the online Part 1 Form, a Foreign RFP Bidder may provide any additional evidence of creditworthiness for the Foreign RFP Bidder so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

Are you submitting additional evidence of creditworthiness for the Foreign RFP Bidder?
☐ **Yes** ☐ **No**

PLEASE PROVIDE SUCH ADDITIONAL EVIDENCE OF CREDITWORTHINESS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

Second Item: Acknowledgment

THE OFFICER OF THE RFP BIDDER MUST MAKE THE FOLLOWING REPRESENTATION.

I, _____ (the Officer of the RFP Bidder), acknowledge that the following additional documents are required with the Part 2 Proposal: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

_____ _____
Signature of Officer Date

Third Item: Draft Documents

The Officer of the RFP Bidder has acknowledged in the immediately preceding certifications that additional documents are required with the Part 2 Proposal. **THE RFP BIDDER MAY, BUT IS NOT REQUIRED TO, SUBMIT A DRAFT OF THESE DOCUMENTS.**

Are you submitting a draft of any of these additional documents for evaluation?
☐ **Yes** ☐ **No**

PLEASE PROVIDE ANY SUCH DOCUMENTS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

_____

P1 FOREIGN GUARANTOR INSERT (#P1-11)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! ONLY RFP Bidders relying on a Foreign RFP Guarantor are required to submit this Insert.

First Item: Evidence of Creditworthiness

In addition to supplying all required information and documents elsewhere in the online Part 1 Form, an RFP Bidder relying on the financial standing of a Foreign RFP Guarantor may provide any additional evidence of creditworthiness for the Foreign RFP Guarantor so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

Are you submitting additional evidence of creditworthiness for the Foreign RFP Guarantor?
☐ **Yes** ☐ **No**

PLEASE PROVIDE SUCH ADDITIONAL EVIDENCE OF CREDITWORTHINESS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

Second Item: Acknowledgment

THE OFFICER OF THE RFP BIDDER MUST MAKE THE FOLLOWING REPRESENTATION.

I, _____ (the Officer of the RFP Bidder), acknowledge that the following additional documents are required with the Part 2 Proposal for the Foreign Entity as RFP Guarantor to be granted unsecured credit and for the RFP Bidder to rely on the financial standing of the RFP Guarantor under the terms of the Uniform SMA: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.

_____ _____
Signature of Officer Date

Third Item: Draft Documents

The Officer of the RFP Bidder has acknowledged in the immediately preceding certifications that additional documents are required with the Part 2 Proposal for unsecured credit to be granted

under the terms of the Uniform SMA. **THE RFP BIDDER MAY, BUT IS NOT REQUIRED TO, SUBMIT A DRAFT OF THESE DOCUMENTS.**

Are you submitting a draft of any of these additional documents for evaluation?
☐ **Yes** ☐ **No**

PLEASE PROVIDE ANY SUCH DOCUMENTS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

_____
Name of RFP Bidder

P1 FOREIGN PRINCIPAL INSERT (#P1-12)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

PLEASE PROVIDE ANY SUCH DOCUMENTS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

☒ **No**

The requirements of this section do not apply to you.

6. Justification of Omissions

If you are unable to provide all documents or information required with this online Part 1 Form, please justify fully any omissions in the space provided below.

If you are providing additional documents, such as providing the Part 2 Form certifications for early processing, please use the spaces below to upload these documents.

	File upload
	File upload
	File upload

APPENDIX 4 – ILLUSTRATIVE SHORT PART 1 FORM DEFAULT SERVICE PROGRAM REQUEST FOR PROPOSALS

PECO Energy Company ("Company" or "PECO") is intending to obtain full requirements electric supply to meet a portion of its obligations as Default Service Provider through this Request for Proposals ("RFP").

This Short Part 1 Form may only be used by an entity that has submitted a successful Part 1 Proposal in a previous solicitation under PECO's current Default Service Program ("DSP VI"). However, if there was a change in the corporate structure of the RFP Bidder, or if the identity of the entity on whose financial standing the RFP Bidder relies has changed, the RFP Bidder must use the Standard Part 1 Form.

Before completing this online Part 1 Form, please review the RFP, including the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA"), so that you understand the conditions under which the RFP will be conducted. These documents are posted at www.PECOprocurement.com.

By submitting a Part 1 Proposal in response to this RFP, you are agreeing to all terms and conditions of this RFP.

Any information provided by an RFP Bidder in the Part 1 Proposal is provided on a confidential basis to the Independent Evaluator, and may be provided on a confidential basis to the Staff of the Pennsylvania Public Utility Commission. PECO representatives will review financial information and will participate in the evaluation of the creditworthiness of each RFP Bidder. Information regarding the content or status of any Part 1 Proposal will not be released publicly or to any individual RFP Bidder during the evaluation process.

SHORT PART 1 FORM

GENERAL INSTRUCTIONS on the RFP Bidders that can use this form:

- This Short Part 1 Form is for the exclusive use of RFP Bidders that successfully submitted a Part 1 Proposal in a previous solicitation under DSP VI. If you are not eligible under this criterion, **please use the Standard Part 1 Form.**
- If there is a change in the corporate structure of the RFP Bidder (through a merger for example) since you last submitted a successful Part 1 Proposal in a previous solicitation under DSP VI, **please use the Standard Part 1 Form.**
- If the entity on whose financial standing the RFP Bidder relies changed since you last submitted a successful Part 1 Proposal in a previous solicitation under DSP VI, **please use the Standard Part 1 Form.**

1. Contact Information and Representations

First Item: Name and Address of the RFP Bidder

PLEASE PROVIDE THE RFP BIDDER'S LEGAL NAME AND ADDRESS.

Legal Name of RFP Bidder

Street Address Line 1

Street Address Line 2

City | *State* | *Zip Code*

IF THE LEGAL NAME OF THE RFP BIDDER HAS CHANGED NAME SINCE THE RFP BIDDER LAST SUBMITTED A SUCCESSFUL PART 1 PROPOSAL, PLEASE PROVIDE EVIDENCE OF THE CHANGE.

	Evidence of name change (if necessary)

Second Item: Officer of the RFP Bidder

The Officer of the RFP Bidder must be an officer, a director, or an individual otherwise authorized to undertake contracts (including the Uniform SMA) and bind the RFP Bidder. The Officer of the RFP Bidder whose contact information is provided in this online Part 1 Form must:

- make all representations required by the Part 1 Proposal requirements; and
- make all representations required by the Part 2 Proposal requirements.

PLEASE PROVIDE THE NAME AND CONTACT INFORMATION FOR THE OFFICER OF THE RFP BIDDER.

First Name | *Last Name*

Title

Street Address Line 1

Street Address Line 2

City | *State* | *Zip Code*

Business Phone No. | *Cell Phone No.* | *Email Address*

Third Item: Representative of the RFP Bidder

The Independent Evaluator uses the Representative as the main point of contact for the RFP Bidder.

PLEASE PROVIDE THE NAME AND CONTACT INFORMATION FOR THE REPRESENTATIVE OF THE RFP BIDDER. The Officer of the RFP Bidder may also serve as the Representative.

First Name *Last Name*

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

THE OFFICER OF THE RFP BIDDER MUST DESIGNATE THE INDIVIDUAL WHOSE CONTACT INFORMATION IS PROVIDED IN THE ONLINE PART 1 FORM AS THE REPRESENTATIVE.

I, _____ (the Officer of the RFP Bidder) hereby designate _____ (name of the Representative) to serve as the Representative of the RFP Bidder.

_____ _____
Signature of Officer Date

Fourth Item: Nominees

The Independent Evaluator provides notifications to the RFP Bidder by email and provides documents needed for participation by secure file transfer. Any such notification will be deemed received by the RFP Bidder at the time of delivery or transmission, provided that where delivery or transmission occurs after 6 PM on a business day or occurs on a day that is not a business day, receipt will be deemed to occur at 9 AM on the following business day.

The RFP Bidder may designate up to three (3) authorized individuals (each called a "Nominee") to receive communications from the Independent Evaluator in addition to the Representative. The RFP Bidder may make such a designation at any time during the solicitation.

Nominees are designated for a single solicitation and previously submitted designations are not saved for use in subsequent solicitations.

Is the RFP Bidder designating Nominees at this time?

☒ **Yes** ☐ **No**

THE REPRESENTATIVE OF THE RFP BIDDER OR THE OFFICER OF THE RFP BIDDER DESIGNATES NOMINEES BY COMPLETING THE NOMINEE INSERT. The Nominee Insert is also labelled INSERT #P1-2.

PLEASE REFER TO THE NOMINEE INSERT (#P1-2) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER OR THE REPRESENTATIVE OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

NOMINEE INSERT (#P1-2)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder or the Representative of the RFP Bidder) or with the signatory on copy.

Please note! This insert is optional.

I, _____ (the Officer of the RFP Bidder or the Representative of the RFP Bidder) authorize the individuals whose contact details are immediately below to receive communications from the Independent Evaluator and to act on behalf of the RFP Bidder during the Proposal submission process.

_____ _____

Notes (*optional*)

The RFP Bidder may provide additional information here, such as the period during which a particular individual will act as Nominee or the individual that a Nominee is replacing.

2.a. Information Required for RFP Bidders Relying on Their Own Financial Standing.

You previously elected the RFP Bidder as the entity on whose financial standing the RFP Bidder is relying. **IF THE ENTITY UPON WHOSE FINANCIAL STANDING THE RFP BIDDER IS RELYING HAS CHANGED, YOU MUST USE THE STANDARD PART 1 FORM. PLEASE CONTACT THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM TO BE GRANTED ACCESS TO USE THE STANDARD PART 1 FORM.**

First Item: Financial Information

IF AVAILABLE, PLEASE PROVIDE THE MOST RECENT QUARTERLY FINANCIAL INFORMATION FOR THE RFP BIDDER, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules:

- **IF AVAILABLE, YOU MUST PROVIDE THE MOST RECENT SECURITIES AND EXCHANGE COMMISSION ("SEC") FORM 10-Q OR 10-K (WHICHEVER IS MORE RECENT) TO FULFILL THIS REQUIREMENT;**
- **IF THE SEC FORM 10-Q OR 10-K IS UNAVAILABLE, PLEASE PROVIDE, IF AVAILABLE, THE RFP BIDDER'S MOST RECENT QUARTERLY, MONTHLY, OR BI-ANNUAL FINANCIAL INFORMATION** accompanied by an attestation by the Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of the RFP Rules.

	Most recent quarterly financial information (or, if unavailable, most recent monthly or bi-annual financial information accompanied by an attestation by the Chief Financial Officer) **IF THE INFORMATION IS UNAVAILABLE, PLEASE SO STATE IN THE JUSTIFICATION OF OMISSIONS SECTION.**
	Attestation from Chief Financial Officer if necessary.

Second Item: Credit Ratings

PLEASE PROVIDE THE CREDIT RATINGS FOR THE RFP BIDDER.

Is the RFP Bidder rated by S&P Global Ratings ("S&P")?

☒ **Yes** ☐ **No**

RFP Bidder's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Bidder rated by Moody's Investors Service, Inc. ("Moody's")?

☒ **Yes** ☐ **No**

RFP Bidder's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Bidder rated by Fitch, Inc. ("Fitch")?

☒ **Yes** ☐ **No**

RFP Bidder's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

2.b. Information Required from RFP Bidders Relying on the Financial Standing of an RFP Guarantor

You previously elected an RFP Guarantor as the entity on whose financial standing the RFP Bidder is relying. The Independent Evaluator will provide to you the Legal Name of the RFP Guarantor that you submitted previously upon request. **IF THE ENTITY UPON WHOSE FINANCIAL STANDING THE RFP BIDDER IS RELYING HAS CHANGED, YOU MUST USE THE STANDARD PART 1 FORM. IF THERE WAS A CHANGE IN THE CORPORATE STRUCTURE OF THE RFP GUARANTOR, THROUGH A MERGER FOR EXAMPLE, YOU MUST USE THE STANDARD PART 1 FORM. PLEASE CONTACT THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM TO RECEIVE INSTRUCTIONS ON THE FORM THAT YOU SHOULD USE.**

First Item: Name and Address of RFP Guarantor

PLEASE PROVIDE THE LEGAL NAME AND ADDRESS FOR THE RFP GUARANTOR.

Legal Name of RFP Guarantor

Street Address

City	*State*	*Zip Code*

IF THE LEGAL NAME OF THE RFP GUARANTOR HAS CHANGED SINCE THE RFP BIDDER LAST SUBMITTED A SUCCESSFUL PART 1 PROPOSAL, PLEASE PROVIDE EVIDENCE OF THE CHANGE.

	Evidence of name change (if necessary)

Second Item: Financial Information

Financial information must be available for the RFP Guarantor.

PLEASE PROVIDE THE MOST RECENT QUARTERLY FINANCIAL INFORMATION FOR THE RFP GUARANTOR, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules:

- **IF AVAILABLE, YOU MUST PROVIDE THE MOST RECENT SECURITIES AND EXCHANGE COMMISSION ("SEC") FORM 10-Q OR 10-K (WHICHEVER IS MORE RECENT) TO FULFILL THIS REQUIREMENT;**

- **IF THE SEC FORM 10-Q OR 10-K IS UNAVAILABLE, YOU MUST PROVIDE THE RFP GUARANTOR'S MOST RECENT QUARTERLY, MONTHLY, OR BI-ANNUAL FINANCIAL INFORMATION** accompanied by an attestation by the Chief Financial Officer (or similar position) that the information contained in the

financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of the RFP Rules.

	Most recent quarterly financial information (or, if unavailable, most recent monthly or bi-annual financial information accompanied by an attestation by the Chief Financial Officer)
	Attestation from Chief Financial Officer (if necessary)

Third Item: Credit Ratings

PLEASE PROVIDE THE CREDIT RATINGS FOR THE RFP GUARANTOR.

Is the RFP Guarantor rated by S&P Global Ratings ("S&P")?

☒ **Yes** ☐ **No**

RFP Guarantor's rating: ____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Guarantor rated by Moody's Investors Service, Inc. ("Moody's")?

☒ **Yes** ☐ **No**

RFP Guarantor's rating: ____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the RFP Guarantor rated by Fitch, Inc. ("Fitch")?

☒ **Yes** ☐ **No**

RFP Guarantor's rating: ____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

2.c. Information Required from RFP Bidders Relying on the Financial Standing of an RFP Principal

You previously elected a Principal as the entity on whose financial standing the RFP Bidder is relying; the RFP Bidder is submitting a Proposal under an Agency Agreement. **IF THE ENTITY UPON WHOSE FINANCIAL STANDING THE RFP BIDDER IS RELYING HAS CHANGED YOU MUST USE THE STANDARD PART 1 FORM. PLEASE CONTACT THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM TO RECEIVE INSTRUCTIONS ON THE FORM THAT YOU SHOULD USE.**

AN RFP BIDDER SUBMITTING A PROPOSAL UNDER AN AGENCY AGREEMENT IS REQUIRED TO PROVIDE FINANCIAL INFORMATION REGARDING THE PRINCIPAL AS WELL AS OTHER INFORMATION REGARDING THE AGENCY AGREEMENT AS SPECIFIED IN THE RFP RULES.

First Item: Principals to the Agency Agreement

PLEASE PROVIDE THE LEGAL NAME(S) OF THE PRINCIPAL(S) TO THE AGENCY AGREEMENT.

Legal Name of Principal(s)

Second Item: Agency Agreement

The Independent Evaluator will provide to you the Agency Agreement that you submitted previously (if any) upon request.

Has the Agency Agreement changed since the RFP Bidder last submitted a successful Part 1 Proposal?

☒ Yes ☐ No

A copy of the Agency Agreement is required. **PLEASE PROVIDE ONE (1) COPY OF THE AGENCY AGREEMENT.**

	Agency Agreement

Third Item: Principal on Whose Financial Standing the RFP Bidder is Relying

Please provide the Legal Name and Address of the Principal on whose financial standing the RFP Bidder is relying. The Independent Evaluator will provide to you the Legal Name of the Principal that you submitted previously upon request.

- If there are several Principals in the Agency Agreement, you must identify the Principal with the lowest credit rating.
- If several Principals have the same lowest credit rating, you must identify the Principal among these that also has the lowest tangible net worth.

The Principal on whose financial standing the RFP Bidder is relying is referred to as the "RFP Principal".

Legal Name of RFP Principal

Street Address

City	*State*	*Zip Code*

IF THE LEGAL NAME OF THE PRINCIPAL HAS CHANGED, MORE INFORMATION MAY BE REQUIRED.

Fourth Item: Financial Information

Financial information must be available for the Principal on whose financial standing the RFP Bidder is relying.

PLEASE PROVIDE THE MOST RECENT QUARTERLY FINANCIAL INFORMATION FOR THE PRINCIPAL ON WHOSE FINANCIAL STANDING THE RFP BIDDER IS RELYING, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules:

- **IF AVAILABLE, YOU MUST PROVIDE THE MOST RECENT SECURITIES AND EXCHANGE COMMISSION ("SEC") FORM 10-Q OR 10-K (WHICHEVER IS MORE RECENT) TO FULFILL THIS REQUIREMENT;**
- **IF THE SEC FORM 10-Q OR 10-K IS UNAVAILABLE, YOU MUST PROVIDE THE RFP PRINCIPAL'S MOST RECENT QUARTERLY, MONTHLY, OR BI-ANNUAL FINANCIAL INFORMATION** accompanied by an attestation by the Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of the RFP Rules.

	Most recent quarterly financial information (or, if unavailable, most recent monthly or bi-annual financial information accompanied by an attestation by the Chief Financial Officer)
	Attestation from Chief Financial Officer (if necessary)

Fifth Item: Credit Ratings

PLEASE PROVIDE THE CREDIT RATINGS FOR THE RFP PRINCIPAL.

Is the Principal rated by S&P Global Ratings ("S&P")?

☒ **Yes** ☐ **No**

Principal's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the Principal rated by Moody's Investors Service, Inc. ("Moody's")?

☒ **Yes** ☐ **No**

Principal's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Is the Principal rated by Fitch, Inc. ("Fitch")?

☒ **Yes** ☐ **No**

Principal's rating: _____
Type of rating (**check one**): ☐ Senior unsecured debt rating ☐ Corporate issuer rating

Sixth Item: Certification

THE OFFICER OF THE RFP BIDDER SUBMITTING A PROPOSAL UNDER AN AGENCY AGREEMENT IS REQUIRED TO MAKE A CERTAIN REPRESENTATION BY COMPLETING THE P1 AGENCY CERTIFICATIONS (#P1-3). The P1 Agency Certifications Insert is also labelled INSERT #P1-3.

PLEASE REFER TO THE AGENCY CERTIFICATIONS INSERT (#P1-3) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

P1 AGENCY CERTIFICATIONS INSERT (#P1-3)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! Only RFP Bidders submitting a Proposal under an Agency Agreement are required to complete this Insert.

THE OFFICER OF THE RFP BIDDER MUST MAKE THE FOLLOWING REPRESENTATION.

I, _____ (the Officer of the RFP Bidder), certify that I have the authority to bind the Principal(s) under the Agency Agreement provided with this Part 1 Proposal. I acknowledge that with the Part 2 Proposal, the RFP Bidder will be required to submit an Officers' Certificate signed by an officer of each Principal and substantially in the form of Appendix 6 to the RFP Rules.

Signature of Officer	Date

Seventh Item: Draft Officers' Certificate

The RFP Bidder may, but is not required to, submit a draft Officers' Certificate for evaluation. If a draft Officers' Certificate is submitted for evaluation, the Independent Evaluator will inform the RFP Bidder of any changes required.

Is the RFP Bidder submitting a draft Officers' Certificate?

☒ **Yes** ☐ **No**

PLEASE PROVIDE THE RFP BIDDER'S DRAFT OFFICERS' CERTIFICATE.

	Draft Officers' Certificate

3. Credit Instruments and Uniform SMA

First Item: Standard Pre-Bid Letter of Credit

An RFP Bidder may request modifications to the Standard Pre-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder.

AN RFP BIDDER REQUESTS MODIFICATIONS TO THE STANDARD PRE-BID LETTER OF CREDIT BY SUBMITTING A DRAFT PRE-BID LETTER OF CREDIT SUBSTANTIALLY IN THE FORM OF THE STANDARD PRE-BID LETTER OF CREDIT INDICATING CLEARLY ANY AND ALL MODIFICATIONS TO THE STANDARD PRE-BID LETTER OF CREDIT USING TRACKED CHANGES IN MICROSOFT WORD.

All approved modifications to the Standard Pre-Bid Letter of Credit are posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

Is the RFP Bidder submitting a Draft Pre-Bid Letter of Credit?
☒ **Yes** ☐ **No**

Does the Draft Pre-Bid Letter of Credit contain the same requested modifications as a Draft Pre-Bid Letter of Credit submitted in a prior solicitation?
☐ **Yes** ☐ **No**

☒ **No**

A Draft Pre-Bid Letter of Credit that is not substantially in the form of the Standard Pre-Bid Letter of Credit will not be considered or evaluated. **PLEASE PROVIDE THE DRAFT PRE-BID LETTER OF CREDIT.**

	Draft Pre-Bid Letter of Credit

☒ **Yes**

A Draft Pre-Bid Letter of Credit that contains the same requested modifications as a prior submittal will not be reviewed again by PECO. To request the Independent Evaluator to email to you PECO's assessment of the prior submittal, please email such request to pecoprocurement@nera.com.

Second Item: Standard Post-Bid Letter of Credit

An RFP Bidder may request modifications to the Standard Post-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder.

AN RFP BIDDER REQUESTS MODIFICATIONS TO THE STANDARD POST-BID LETTER OF CREDIT BY SUBMITTING A DRAFT POST-BID LETTER OF CREDIT SUBSTANTIALLY IN THE FORM OF THE STANDARD POST-BID LETTER OF CREDIT INDICATING CLEARLY ANY AND ALL MODIFICATIONS TO THE STANDARD POST-BID LETTER OF CREDIT USING TRACKED CHANGES IN MICROSOFT WORD.

All approved modifications to the Standard Post-Bid Letter of Credit are posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

Is the RFP Bidder submitting a Draft Post-Bid Letter of Credit?
☒ **Yes** ☐ **No**

Does the Draft Post-Bid Letter of Credit contain the same requested modifications as a Draft Post-Bid Letter of Credit submitted in a prior solicitation?
☐ **Yes** ☐ **No**

☒ **No**

A Draft Post-Bid Letter of Credit that is not substantially in the form of the Standard Post-Bid Letter of Credit will not be considered or evaluated. **PLEASE PROVIDE THE DRAFT POST-BID LETTER OF CREDIT.**

	Draft Post-Bid Letter of Credit

☒ **Yes**

A Draft Post-Bid Letter of Credit that contains the same requested modifications as a prior submittal will not be reviewed again by PECO. To request the Independent Evaluator to email to you PECO's assessment of the prior submittal, please email such request to pecoprocurement@nera.com.

Third Item: Standard Guaranty

An RFP Bidder may request modifications to the Standard Guaranty that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder.

AN RFP BIDDER REQUESTS MODIFICATIONS TO THE STANDARD GUARANTY BY SUBMITTING A DRAFT GUARANTY SUBSTANTIALLY IN THE FORM OF THE STANDARD GUARANTY INDICATING CLEARLY ANY AND ALL MODIFICATIONS TO THE STANDARD GUARANTY USING TRACKED CHANGES IN MICROSOFT WORD.

All approved modifications to the Standard Guaranty are posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

Is the RFP Bidder submitting a Draft Guaranty?
☒ **Yes** ☐ **No**

Does the Draft Guaranty contain the same requested modifications as a Draft Guaranty submitted in a prior solicitation?
☐ **Yes** ☐ **No**

☒ **No**

A Draft Guaranty that is not substantially in the form of the Standard Guaranty will not be considered or evaluated. **PLEASE PROVIDE THE DRAFT GUARANTY.**

	Draft Guaranty

☒ **Yes**
A Draft Guaranty that contains the same requested modifications as a prior submittal will not be reviewed again by PECO. To request the Independent Evaluator to email to you PECO's assessment of the prior submittal, please email such request to pecoprocurement@nera.com.

Fourth Item: Information to Prepare the Uniform SMA and Its Exhibits

Is the RFP Bidder a Default Supplier serving tranches won in a solicitation under DSP VI?
☐ **Yes** ☐ **No**
If Yes, please proceed to the Section 4.
If No, please provide the information required by this section.

RFP BIDDERS ARE ASKED TO PROVIDE ALL INFORMATION NEEDED TO PREPARE THE UNIFORM SMA AND ITS EXHIBITS. AN RFP BIDDER THAT DOES NOT PROVIDE THIS INFORMATION MUST INSTEAD SUBMIT AN ACKNOWLEDGMENT SIGNED BY THE OFFICER OF THE RFP BIDDER.

Is the RFP Bidder providing information to prepare the Uniform SMA at this time?
☐ **Yes** ☐ **No**

☒ **Yes**
THE RFP BIDDER PROVIDES THE INFORMATION TO PREPARE THE UNIFORM SMA AND ITS EXHIBITS BY COMPLETING THE UNIFORM SMA INSERT. The Uniform SMA Insert is also labelled INSERT #P1-4.

_____
Name of RFP Bidder

UNIFORM SMA INSERT (#P1-4)

Please note! RFP Bidders must submit one (but ONLY one) of Insert #P1-4 and Insert #P1-5.

1. Under Section 5.4(a)(i) of the Uniform SMA, the DS Supplier may, in its sole discretion, add the following subsection 5.4(a)(i) by indicating yes or no below.

> 5.4(a)(i) For the purposes of such determination, the DS Supply provided for under this Agreement for the period following the Early Termination Date through the remainder of the term of this Agreement shall be deemed to be those quantity amounts that would have been delivered on an hourly basis, had this Agreement been in effect during the previous calendar year adjusted for such DS Load changes as may have occurred since the previous calendar year.

Do you intend for subsection 5.4(a)(i) to be included as part of the Uniform SMA?
☐ **Yes** ☐ **No**

2. The information that you provide below will be used to complete Exhibit 2 (Form of Notice) to the Uniform SMA. **IF ANY OF THE INFORMATION REQUESTED BELOW IS UNAVAILABLE, PLEASE ENTER N/A IN THE CORRESPONDING FIELDS.**

THE OFFICER OF THE RFP BIDDER PROVIDES THE REQUIRED ACKNOWLEDGMENT BY COMPLETING THE DELAY (SMA) INSERT. The Delay (SMA) Insert is also labelled INSERT #P1-5.

PLEASE REFER TO THE DELAY (SMA) INSERT (#P1-5) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

DELAY (SMA) INSERT (#P1-5)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! RFP Bidders must submit one (but ONLY one) of Insert #P1-4 and Insert #P1-5.

I, _____ (the Officer of the RFP Bidder), acknowledge that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as winning Bids, the RFP Bidder must provide all information required by the Uniform SMA Insert (#P1-4) by 12 PM (noon) EPT on the day after such notification is received.

_____ _____
Signature of Officer Date

4. Representations

The Officer of the RFP Bidder must make a number of representations and certifications, which may include any or all of those detailed in Paragraphs IV.4.1, IV.4.2, and IV.4.3 of the RFP Rules.

Is the RFP Bidder a Default Supplier serving tranches won in a solicitation under DSP VI?

☐ **Yes** ☐ **No**

☒ **Yes**

THE OFFICER OF THE RFP BIDDER MAKES SUCH CERTIFICATIONS BY COMPLETING THE P1 CERTIFICATIONS (A) INSERT. The P1 Certifications (Default Supplier) Insert is also labelled INSERT #P1-6.

PLEASE REFER TO THE P1 CERTIFICATIONS A INSERT (#P1-6) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT.

_____

Please note! ONLY Foreign RFP Bidders are required to submit this Insert.

First Item: Evidence of Creditworthiness

In addition to supplying all required information and documents elsewhere in the online Part 1 Form, a Foreign RFP Bidder may provide any additional evidence of creditworthiness for the Foreign RFP Bidder so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

Are you submitting additional evidence of creditworthiness for the Foreign RFP Bidder?
☐ **Yes** ☐ **No**

PLEASE PROVIDE SUCH ADDITIONAL EVIDENCE OF CREDITWORTHINESS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

Second Item: Draft Documents

THE RFP BIDDER MAY, BUT IS NOT REQUIRED TO, SUBMIT A DRAFT OF THE FOLLOWING DOCUMENTS FOR EVALUATION: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

Are you submitting a draft of any of these documents for evaluation?
☐ **Yes** ☐ **No**

PLEASE PROVIDE ANY SUCH DOCUMENTS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

_____
Name of RFP Bidder

P1 FOREIGN GUARANTOR (PREV QUAL and DS) INSERT (#P1-11)

Please note! ONLY RFP Bidders relying on a Foreign RFP Guarantor are required to submit this Insert.

First Item: Evidence of Creditworthiness

In addition to supplying all required information and documents elsewhere in the online Part 1 Form, an RFP Bidder relying on the financial standing of a Foreign RFP Guarantor may provide any additional evidence of creditworthiness for the Foreign RFP Guarantor so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

Are you submitting additional evidence of creditworthiness for the Foreign RFP Guarantor?
☐ **Yes** ☐ **No**

PLEASE PROVIDE SUCH ADDITIONAL EVIDENCE OF CREDITWORTHINESS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

Second Item: Draft Documents

THE RFP BIDDER MAY, BUT IS NOT REQUIRED TO, SUBMIT A DRAFT OF THE FOLLOWING DOCUMENTS: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.

Are you submitting a draft of any of these documents for evaluation?
☐ **Yes** ☐ **No**

PLEASE PROVIDE ANY SUCH DOCUMENTS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

_____
Name of RFP Bidder

P1 FOREIGN PRINCIPAL (PREV QUAL and DS) INSERT (#P1-12)

Please note! ONLY RFP Bidders submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal are required to submit this Insert.

First Item: Evidence of Creditworthiness

In addition to supplying all required information and documents elsewhere in the online Part 1 Form, an RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as RFP Principal may provide any additional evidence of creditworthiness for the RFP Principal so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

Are you submitting additional evidence of creditworthiness for the Foreign Principal?

☐ **Yes** ☐ **No**

PLEASE PROVIDE SUCH ADDITIONAL EVIDENCE OF CREDITWORTHINESS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

Second Item: Draft Documents

THE RFP BIDDER MAY, BUT IS NOT REQUIRED TO, SUBMIT A DRAFT OF THE FOLLOWING DOCUMENTS: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

Are you submitting a draft of any of these documents for evaluation?

☐ **Yes** ☐ **No**

PLEASE PROVIDE ANY SUCH DOCUMENTS IN THE SPACES RESERVED FOR THAT PURPOSE IN THE ONLINE PART 1 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

☒ **No**

The requirements of this section do not apply to you.

6. Justification of Omissions

If you are unable to provide all documents or information required with this online Part 1 Form, please justify fully any omissions in the space provided below.

If you are providing additional documents, such as providing the Part 2 Form certifications for early processing, please use the spaces below to upload these documents.

Appendix 5 - Requirements for Chief Financial Officer Attestation

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE OR A NOTARIZED SIGNATURE FOR THE ATTESTATION.

The attestation may be completed as follows:

- *Signed by the Chief Financial Officer, (or similar position) with the signature notarized;*

or:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory. Digital signatures are not required to be notarized.*

The attestation and any accompanying document or information may be submitted as follows:

- *Uploaded to the online Part 1 Form;*

or:

- *Sent by email to the Independent Evaluator at PECOProcurement@nera.com.*

The attestation by the Chief Financial Officer, (or similar position), if required by Article IV, must fulfill the following requirements:

1. the attestation is an affidavit attached to the financial information provided by the entity;
2. the attestation identifies the person making the affidavit as the Chief Financial Officer (or similar position);
3. the Chief Financial Officer (or similar position) attests that "the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of _____[name of entity]".

Appendix 6 - Officers' Certificate (RFP Bidders Under an Agency Agreement)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THE OFFICERS' CERTIFICATE. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THE OFFICERS' CERTIFICATE IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

The Officers' Certificate may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, the Officers' Certificate and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

The Officers' Certificate may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, the Officers' Certificate must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by each signatory or with each signatory on copy.

Sample

The undersigned hereby certify that they are duly elected, qualified and acting officers holding the offices set forth below their respective names of _____ [name of Principal(s)], the "Principal" or together the "Principals". As such, they are familiar with the affairs of the Principal(s) and the Proposal submitted in response to PECO Energy Company's Default Service Program RFP under DSP VI, including the agency authorization submitted with the Proposal (the "Agency Agreement"). They are authorized to execute and deliver this certificate on behalf of the Principal(s).

They further certify that:

(i) the copy of the Agency Agreement submitted with the Proposal is a true and complete copy of the Agency Agreement as currently in effect;

(ii) the Agency Agreement is in full force and effect and shall remain in full force and effect for a period extending to six (6) business days following the Bid Date;

(iii) there are no proceedings pending for the amendment or termination of the Agency Agreement, contemplated by the RFP Bidder, or contemplated by the Principal(s) to the RFP Bidder's knowledge;

(iv) each individual who has executed this officers' certificate and the Agency Agreement is (or was at the time of the execution of such documents) authorized to execute and deliver such documents on behalf of the Principal(s); and

(v) _____ [insert name], the Officer of the RFP Bidder named in the Part 1 Proposal, is authorized to execute the Uniform SMA as well as any Transaction Confirmation(s) pursuant to the Uniform SMA on behalf of the Principal(s).

Capitalized terms used in this officers' certificate without definition have the meanings assigned to such terms in the RFP Rules.

APPENDIX 7 – ILLUSTRATIVE PART 2 FORM
DEFAULT SERVICE PROGRAM
REQUEST FOR PROPOSALS

STANDARD FORM

PECO Energy Company ("Company" or "PECO") is intending to obtain full requirements electric supply to meet a portion of its obligations as Default Service Provider through this Request for Proposals ("RFP").

Before completing this online Part 2 Form, please review the RFP, including the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA"), so that you understand the conditions under which the RFP will be conducted. These documents are posted at www.pecoprocurement.com.

By having submitted a Part 1 Proposal in response to this RFP, you agreed to all terms and conditions of this RFP.

Any information provided by an RFP Bidder in the Part 2 Proposal is provided on a confidential basis to the Independent Evaluator, and may be provided on a confidential basis to the Staff of the Pennsylvania Public Utility Commission ("Commission"). PECO representatives will review financial information and legal documents provided to fulfill the requirements of the Part 2 Proposal, and will participate in the evaluation of the Pre-Bid Letter of Credit with the name of the RFP Bidder and the amount redacted.

PART 2 FORM

1. Contact Information and Representations

First Item: Name and Address of the RFP Bidder

Below is the information that you previously provided. **PLEASE MAKE ANY NECESSARY UPDATES TO THE RFP BIDDER'S LEGAL NAME AND ADDRESS.** By submitting this form without making updates, you will be confirming that the previously provided information remains valid.

Legal Name of RFP Bidder

[pre-populated]

Street Address Line 1

[pre-populated]

Street Address Line 2

[pre-populated]

City	*State*	*Zip Code*
[pre-populated]	*[pre-populated]*	*[pre-populated]*

IF THE LEGAL NAME OF THE RFP BIDDER HAS CHANGED, PLEASE PROVIDE EVIDENCE OF THE CHANGE.

	Evidence of name change (if necessary)

Second Item: Contact Information for the Officer of the RFP Bidder

Below is the information that you previously provided. **PLEASE MAKE ANY UPDATES TO THE NAME AND CONTACT INFORMATION FOR THE OFFICER OF THE RFP BIDDER.** By submitting this form without making updates, you will be confirming that the previously provided information remains valid.

Please note that the Officer of the RFP Bidder named in the Part 1 Proposal must make all representations and certifications in this Part 2 Proposal. If the individual serving as Officer of the RFP Bidder has changed, the RFP Bidder will be required to resubmit all certifications required by the Part 1 Proposal.

Fourth Item: Representations of the Officer of the RFP Bidder

THE OFFICER OF THE RFP BIDDER MUST MAKE A NUMBER OF CERTIFICATIONS TO FULFILL THE REQUIREMENTS OF THE PART 2 PROPOSAL. If the Officer of the RFP Bidder who made the representations and certifications of the Part 1 Form is unavailable to make the representations of the Part 2 Form, the RFP Bidder must name a new individual to serve as Officer of the RFP Bidder and must, in addition to making the representations required in the Part 2 Proposal, re-submit the certifications of the Part 1 Form by the Part 2 Date.

THE OFFICER OF THE RFP BIDDER MUST MAKE A NUMBER OF CERTIFICATIONS BY COMPLETING THE P2 CERTIFICATIONS INSERT. The P2 Certifications Insert is also labelled INSERT #P2-1.

PLEASE REFER TO THE P2 CERTIFICATIONS INSERT (#P2-1) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT.

_____
Name of RFP Bidder

P2 CERTIFICATIONS INSERT (#P2-1)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE OR A NOTARIZED SIGNATURE FOR THIS INSERT.

This Insert may be completed as follows:

- *Signed by the Officer of the RFP Bidder with the signature notarized;*

or:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory. Digital signatures are not required to be notarized.*

This Insert and any accompanying document or information may be submitted as follows:

- *Uploaded to the online Part 1 Form;*

or:

- *Sent by email to the Independent Evaluator at PECOProcurement@nera.com.*

THE OFFICER OF THE RFP BIDDER MUST MAKE THE FOLLOWING CERTIFICATIONS.

(1) I certify that this Part 2 Proposal will remain valid and remain in full force and effect until six (6) business days after the Bid Date and if any information provided in the Part 2 Proposal changes or any previous certification fails to remain valid during that time, the RFP Bidder will notify the Independent Evaluator as soon as practicable.

(2) I certify that the RFP Bidder is bidding independently and that it has no knowledge of any information concerning a Proposal by another RFP Bidder in response to this solicitation or any future solicitation under this RFP. Such information includes, but is not limited to: the fact that another RFP Bidder is submitting a Proposal in response to this solicitation or a subsequent solicitation under this RFP; the Bids by another RFP Bidder in this or in a subsequent solicitation under this RFP; the number of tranches bid by another RFP Bidder for any product in this or in a subsequent solicitation under this RFP; the estimation by another RFP Bidder of the value of a tranche of a product; the estimation by another RFP Bidder of the risks associated with providing supply under the Uniform SMA; the preference of another RFP Bidder for bidding on specific products in this or in a subsequent solicitation under the RFP; and the contractual arrangements for power of another RFP Bidder to serve tranches of Default Service Load were that RFP Bidder to become a Default Supplier. This certification must be binding and in effect until the Commission has either approved or rejected each of the winning Bids for this solicitation.

(3) I certify that although the RFP Bidder may disclose aspects of its Proposal in communicating with its financial institution for the purpose of preparing the Pre-Bid Letter of Credit or in communicating with advisors (if any), any such communication is made in a manner that can reasonably be expected to maintain the confidentiality of the RFP Bidder's Proposal.

(4) I certify that, with only the exceptions noted in (3) above, the RFP Bidder has not disclosed, and will not otherwise disclose, publicly or to any other party any information relating to its Proposal, which could have an effect on whether another party submits a Proposal in any solicitation under the RFP, or on the contents of the Proposal that another RFP Bidder would be willing to submit in response to the RFP. Such information includes, but is not limited to: the fact that the RFP Bidder is submitting a Proposal in response to this RFP; the RFP Bidder's Bids in this or in a subsequent solicitation under this RFP; the RFP Bidder's number of tranches bid for any product in this or in a subsequent solicitation under this RFP; the RFP Bidder's estimation of the value of a tranche of a product; the RFP Bidder's estimation of the risks associated with providing supply under the Uniform SMA; and the RFP Bidder's preference for bidding on specific products in

this or in a subsequent solicitation under this RFP. This certification must be binding and in effect until the Commission has either approved or rejected each of the winning Bids for this solicitation.

(5) I certify that any Bid on any product submitted in response to this RFP for this solicitation is binding until six (6) business days after the Bid Date and constitutes a binding and irrevocable offer to provide service under the terms of the Uniform SMA at the price specified in the Bid.

(6) I certify that I will execute (or I will nominate another authorized individual to execute) the Uniform SMA and all Transaction Confirmation(s) for the RFP Bidder's Bids that are approved by the Commission no later than 2PM on the third business day after the Commission has accepted such Bids.

(7) I certify that in each Transaction Confirmation, the RFP Bidder will specify a price for each type of AECs (Tier I, Tier I Solar, and Tier II) that is included in the RFP Bidder's winning Bids and each such price must be greater than $0/AEC.

_____ _____

Signature of Officer Date

_____ _____

Signature and Seal from Notary Public Date

2. Pre-Bid Letter of Credit

THE RFP BIDDER MUST PROVIDE AN EXECUTED PRE-BID LETTER OF CREDIT, drawn for the account of the RFP Bidder and acceptable to PECO, **IN AN AMOUNT OF AT LEAST: $250,000 PER TRANCHE BID ON PRODUCTS OF THE RES AND SC CLASSES FOR FULL REQUIREMENTS ON A FIXED-PRICE BASIS, PLUS, IF APPLICABLE, $125,000 PER TRANCHE BID ON A PRODUCT FOR THE CCI CLASS FOR FULL REQUIREMENTS ON A SPOT-PRICE BASIS.** A single Pre-Bid Letter of Credit is submitted even if the RFP Bidder bids on more than one product or, if applicable, the RFP Bidder bids to supply both full requirements on a fixed-price basis and full requirements on a spot-price basis.

The RFP Bidder must either use the Standard Pre-Bid Letter of Credit, provided on www.pecoprocurement.com, or submit a Pre-Bid Letter of Credit that incorporates only those modifications to the Standard Pre-Bid Letter of Credit accepted as a result of the evaluation of the Part 1 Proposals.

THE PRE-BID LETTER OF CREDIT MUST BE SUBMITTED AS AN ELECTRONIC PDF FILE VIA ELECTRONIC MEANS ONLY to the Independent Evaluator at pecoprocurement@nera.com. A Pre-Bid Letter of Credit sent in hardcopy cannot be accepted.

PECO and the Independent Evaluator will release the Pre-Bid Letter of Credit no later than six (6) business days after the Bid Date. If the Commission does not approve any of the RFP Bidder's Bids, PECO and the Independent Evaluator will release that RFP Bidder's Pre-Bid Letter of Credit within three (3) business days of the Bid Date.

Would you like to provide special instructions for returning the Pre-Bid Letter of Credit?

☒ **Yes** ☐ **No**

PLEASE PROVIDE SPECIAL INSTRUCTIONS FOR RETURNING THE PRE-BID LETTER OF CREDIT BELOW.

3. Additional Requirements

3a. Requirements for RFP Bidders Relying on Their Own Financial Standing

You previously elected the RFP Bidder as the entity on whose financial standing the RFP Bidder is relying. **YOU HAVE NO ADDITIONAL REQUIREMENTS** under this section and you may proceed to the next section.

3b. Requirements for RFP Bidders Relying on the Financial Standing of an RFP Guarantor

You previously elected an RFP Guarantor as the entity on whose financial standing the RFP Bidder is relying. **THE RFP BIDDER MUST PROVIDE THE GUARANTY DOCUMENTS REQUIRED BY THIS SECTION.**

First Item: Intent to Provide a Guaranty

A REPRESENTATIVE OF THE RFP GUARANTOR WHO IS AUTHORIZED TO UNDERTAKE CONTRACTS (INCLUDING THE GUARANTY) AND BIND THAT RFP GUARANTOR MUST MAKE THE CERTIFICATIONS PROVIDED IN THE GUARANTY INTENT INSERT. The Guaranty Intent Insert is also labelled INSERT #P2-2.

PLEASE REFER TO THE GUARANTY INTENT INSERT (#P2-2) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE A REPRESENTATIVE OF THE RFP GUARANTOR) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

GUARANTY INTENT INSERT (#P2-2)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here a Representative of the RFP Guarantor) or with the signatory on copy.

PLEASE PROVIDE THE INDICATIVE AMOUNT OF THE GUARANTY IN THE SPACE PROVIDED. THE INDICATIVE AMOUNT MUST MEET OR EXCEED THE SUM OF: (I) $600,000 TIMES THE NUMBER OF TRANCHES BID ON PRODUCTS FOR THE RES AND SC CLASSES FOR FULL REQUIREMENTS ON A FIXED-PRICE BASIS; AND, IF APPLICABLE, (II) $300,000 TIMES THE NUMBER OF TRANCHES BID ON THE CCI CLASS FOR FULL REQUIREMENTS ON A SPOT-PRICE BASIS.

I acknowledge that _____ ("RFP Guarantor") has been asked to provide a financial guaranty on behalf of _____ ("RFP Bidder") should the RFP Bidder become a Default Supplier pursuant to its response under this RFP for procuring supply under the terms of the Uniform SMA. Our senior unsecured debt rating meets the Minimum Rating as defined in the Uniform SMA.

We would consider providing a financial guaranty on behalf of the RFP Bidder should there be no material change in affairs of at least $ _____ (Indicative Amount). This statement should not and cannot be taken as an indication of financing commitment of any kind whatsoever, or an absolute commitment to provide a financial guaranty.

_____ _____
Signature of a Representative of the RFP Guarantor Date

_____
Printed Name

Second Item: Information to Prepare the Guaranty

In accordance with Paragraph V.3.3 of the RFP Rules, **THE RFP BIDDER IS ASKED TO PROVIDE THE FOLLOWING INFORMATION TO PREPARE THE GUARANTY**:

- the governing laws under which the RFP Guarantor is organized;
- contact information for the RFP Guarantor, including the name and title of the signatory of the guaranty for notices under the guaranty;
- elections to incorporate any or all of the approved modifications to the Standard Guaranty.

THE RFP BIDDER MUST EITHER: (i) provide the requested information to prepare the guaranty at this time; or: (ii) submit an acknowledgment signed by the Officer of the RFP Bidder that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as winning Bids, the RFP Bidder must provide all required information by 12 PM (noon) EPT on the day after such notification is received.

Is the RFP Bidder providing information to prepare the guaranty at this time?

☐ **Yes** ☐ **No**

☒ **Yes**

THE RFP BIDDER PROVIDES THE INFORMATION TO PREPARE THE GUARANTY BY COMPLETING THE GUARANTY INSERT. The Guaranty Insert is also labelled INSERT #P2-3.

PLEASE REFER TO THE GUARANTY INSERT (#P2-3) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER OR THE REPRESENTATIVE OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

GUARANTY INSERT (#P2-3)

THIS INSERT MAY REQUIRE A SIGNATURE. IF REQUIRED, THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder or the Representative of the RFP Bidder) or with the signatory on copy.

Please note! **RFP Bidders relying on the financial standing of an RFP Guarantor must submit one (but ONLY one) of Insert #P2-3 or Insert #P2-4.**

1. Governing Laws under which the RFP Guarantor is Organized

   Whether the RFP Guarantor is a Corporation, Partnership, etc.

Jurisdiction under whose laws the RFP Guarantor is existing and organized.

Name of relevant and binding corporate organizational document, such as Declaration of Trust, Limited Liability Company Agreement, Articles of Incorporation and by-laws.

2. Governing Laws under which the RFP Bidder is Organized

Whether the RFP Bidder is a Corporation, Partnership, etc.

Jurisdiction under whose laws the RFP Bidder is existing and organized.

3. Contact Information

Please provide the name and contact information for the person to whom notices and other communications will be sent under the guaranty:

First Name *Last Name*

Title

Company

Street Address

City *State* *Zip Code*

Phone Number *Fax*

Please provide the name and title of the person who will be signing the guaranty:

First Name *Last Name*

Title

4. Elections of Optional Modifications to the Guaranty

Optional changes that the RFP Bidder may adopt for the Form of Guaranty are provided in a document entitled "Optional Modifications to the Guaranty" available on the website. **PLEASE INDICATE THE CHANGES THAT YOU ARE ELECTING IN THE TABLE BELOW.**

Optional Change	Paragraph	RFP Bidder adopts change

Signature of Officer Date

Third Item: Enforceability Opinion for an Alternate Guaranty

Did you receive approval from PECO to use an alternate guaranty form through the Alternate Guaranty Process?

☐ **Yes** ☐ **No**

☒ **Yes**

EACH RFP BIDDER THAT RELIES ON THE FINANCIAL STANDING OF AN RFP GUARANTOR AND THAT HAS OBTAINED APPROVAL FOR USE OF AN ALTERNATE GUARANTY FORM MUST PROVIDE AN EXECUTED ENFORCEABILITY OPINION for its approved alternate guaranty form on the letterhead of a law firm of national standing**.**

PLEASE PROVIDE THE ENFORCEABILITY OPINION IN THE SPACE PROVIDED BELOW OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

	Enforceability Opinion

3c. Requirements for RFP Bidders Relying on the Financial Standing of an RFP Principal

AN RFP BIDDER SUBMITTING A PROPOSAL UNDER AN AGENCY AGREEMENT IS REQUIRED TO PROVIDE AN OFFICERS' CERTIFICATE AS WELL AS CONTACT INFORMATION FOR A REPRESENTATIVE OF THE PRINCIPAL as specified in Section V.4 of the RFP Rules.

First Item: Officer's Certificate

PLEASE SUBMIT ONE (1) COPY OF THE REQUIRED OFFICERS' CERTIFICATE, SIGNED BY AN OFFICER OF EACH PRINCIPAL, BY UPLOAD TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM. The Independent Evaluator and PECO will determine whether the document provided is sufficient, without any liability or obligation to the RFP Bidder or its Principal(s). The Officers' Certificate should be substantially in the form of Appendix 6 to the RFP Rules.

	Officers' Certificate

Second Item: Signatory to the Uniform SMA

Is a representative of the RFP Bidder authorized to execute the Transaction Confirmation(s) and to sign the Uniform SMA (if applicable) on behalf of the Principal(s)?

☐ **Yes** ☐ **No**

☒ **NO**

Please provide the information of the representative of the Principal who will sign the Uniform SMA (if applicable) and any Transaction Confirmation.

Last Name *First Name*

Title *Company*

Street Address Line 1

Street Address Line 2

City *State* *Zip Code*

Phone No. *Cell Phone No. (Optional)* *Email Address*

4. Foreign RFP Bidders and Foreign Entities

Is the RFP Bidder a Foreign RFP Bidder, or is the RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor or is the RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal?

☐ **Yes** ☐ **No**

☒ **Yes**

AN RFP BIDDER THAT IS A FOREIGN RFP BIDDER OR THAT IS RELYING ON THE FINANCIAL STANDING OF A FOREIGN ENTITY AS RFP GUARANTOR OR THAT SUBMITS A PROPOSAL UNDER AN AGENCY AGREEMENT WITH A FOREIGN ENTITY AS PRINCIPAL IS REQUIRED TO PROVIDE ADDITIONAL INFORMATION AS SPECIFIED IN SECTION V.5 OF THE RFP RULES by completing the P2 Foreign Entity Insert and providing associated documents below. The P2 Foreign Entity Insert is also labelled INSERT #P2-5.

	Insert #P2-5
	Additional Evidence of Creditworthiness
	Additional Evidence of Creditworthiness
	Legal opinion
	Sworn certificate
	Sworn certificate

_____
Name of RFP Bidder

P2 FOREIGN ENTITY INSERT (#P2-5)

Please note! Only RFP Bidders that are Foreign Entities, or that rely on the financial standing of a Foreign Entity as RFP Guarantor, or that submit a Proposal under an Agency Agreement with a Foreign Entity as Principal, are required to complete this Insert. The requirements are provided in Section V.5 of the RFP Rules.

Are you a previously eligible RFP Bidder (i.e., did you successfully complete the Part 2 Proposal on a prior solicitation under DSP VI)?

☐ **Yes** ☐ **No**

If no, please complete Section A below.
If yes, please complete Section B below.

SECTION A. RFP BIDDERS THAT HAVE NOT PREVIOUSLY COMPLETED THE PART 2 PROPOSAL

PLEASE COMPLETE ONLY THE ITEM THAT APPLIES TO YOU:

Circumstances	Item to Complete
The RFP Bidder is a Foreign Entity	First Item
The RFP Bidder relies on the financial standing of a Foreign Entity as RFP Guarantor	Second Item
The RFP Bidder is submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal	Third Item

First Item: Required Documents for Foreign RFP Bidders

A FOREIGN RFP BIDDER MUST PROVIDE THE ADDITIONAL DOCUMENTS LISTED BELOW TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM FOR THE FOREIGN RFP BIDDER.

(1) **one (1) executed original** legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.

(2) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Bidder that the person executing the Uniform SMA on behalf of the RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such RFP Bidder has approved the execution of the Uniform SMA.

(3) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Bidder that the RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

Second Item: Required Documents for RFP Bidders with a Foreign Entity as RFP Guarantor

AN RFP BIDDER RELYING ON THE FINANCIAL STANDING OF A FOREIGN ENTITY AS RFP GUARANTOR MUST PROVIDE THE ADDITIONAL DOCUMENTS LISTED BELOW TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM FOR THE RFP GUARANTOR TO BE GRANTED UNSECURED CREDIT UNDER THE TERMS OF THE UNIFORM SMA.

(1) **one (1) executed original** legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.

(2) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA;

(3) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.

If the RFP Bidder does not submit these documents, or if these documents are not sufficient, the Foreign Entity as RFP Guarantor is not granted unsecured credit under the terms of the Uniform SMA. In that case, the RFP Bidder may not rely on the financial standing of the RFP Guarantor. The Independent Evaluator may request additional financial or credit information regarding the RFP Bidder.

Third Item: Required Documents for RFP Bidders with a Foreign Entity as Principal

AN RFP BIDDER SUBMITTING A PROPOSAL UNDER AN AGENCY AGREEMENT WITH A FOREIGN ENTITY AS PRINCIPAL MUST PROVIDE THE ADDITIONAL DOCUMENTS LISTED BELOW TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

(1) one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.

(2) one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

SECTION B. PREVIOUSLY ELIGIBLE RFP BIDDERS (THAT HAVE SUCCESSFULLY COMPLETED THE PART 2 PROPOSAL IN A PRIOR SOLICITATION)

PLEASE COMPLETE ONLY THE ITEM THAT APPLIES TO YOU:

Circumstances	Item to Complete
The RFP Bidder is a Foreign Entity	First Item
The RFP Bidder relies on the financial standing of a Foreign Entity as RFP Guarantor	Second Item
The RFP Bidder is submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal	Third Item

First Item: Required Documents for Foreign RFP Bidders

For each document required of Foreign RFP Bidders, a Foreign RFP Bidder that is previously eligible must either: (i) confirm that the document and submitted in a previous solicitation under DSP VI remains valid; or: (ii) provide the document by upload to the online Part 2 form or email to pecoprocurement@nera.com if it has changed.

PLEASE USE THE TABLE BELOW TO SELECT, FOR EACH DOCUMENT, WHETHER (I) THE DOCUMENT REMAINS VALID OR (II) THE DOCUMENT HAS CHANGED AND IS BEING RESUBMITTED. By clicking the box that a document remains valid, you are confirming that such document continues to meet the requirements of Section V.5 of the RFP Rules.

REQUIRED DOCUMENTS	Remains valid (not submitted)	Has changed (submitted this solicitation)
one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in	☐	☐

the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.		
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA.	☐	☐
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.	☐	☐

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

Second Item: Required Documents for RFP Bidders with a Foreign Entity as RFP Guarantor

For each document required of an RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor, an RFP Bidder that is previously eligible must either: (i) confirm that the document and submitted in a previous solicitation under DSP VI remains valid; or (ii) provide the document by upload to the online Part 2 form or email to pecoprocurement@nera.com if it has changed.

PLEASE USE THE TABLE BELOW TO SELECT, FOR EACH DOCUMENT, WHETHER (I) THE DOCUMENT REMAINS VALID OR (II) THE DOCUMENT HAS CHANGED AND IS BEING RESUBMITTED. By clicking the box that a document remains valid, you are confirming that such document continues to meet the requirements of Section V.5 of the RFP Rules.

REQUIRED DOCUMENTS	**Remains valid (not submitted)**	**Has changed (submitted this solicitation)**
one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been	☐	☐

incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.		
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA	☐	☐
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.	☐	☐

If these documents are not sufficient, the Foreign Entity as RFP Guarantor is not granted unsecured credit under the terms of the Uniform SMA. In that case, the RFP Bidder may not rely on the financial standing of the RFP Guarantor. The Independent Evaluator may request additional financial or credit information regarding the RFP Bidder.

Third Item: Required Documents for RFP Bidders with a Foreign Entity as Principal

For each document required of an RFP Bidder submitting a Proposal under an Agency Agreement with a Principal that is a foreign entity, an RFP Bidder that is previously eligible must either: (i) confirm that the document and submitted in a previous solicitation under DSP VI remains valid; or: (ii) provide the document by upload to the online Part 2 form or email to pecoprocurement@nera.com if it has changed.

PLEASE USE THE TABLE BELOW TO SELECT, FOR EACH DOCUMENT, WHETHER (I) THE DOCUMENT REMAINS VALID OR (II) THE DOCUMENT HAS CHANGED AND IS BEING RESUBMITTED. By clicking the box that a document remains valid, you are confirming that such document continues to meet the requirements of Section V.5 of the RFP Rules.

REQUIRED DOCUMENTS	**Remains valid (not submitted)**	**Has changed (submitted this solicitation)**

one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.	☐	☐
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.	☐	☐

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

☒ **No**

The requirements of this section do not apply to you.

5. Bids

Reminder: Each RFP Bidder submits its Bids electronically, by transferring its Bid Form through a secure file transfer system. The Independent Evaluator provides electronically to each RFP Bidder qualified pursuant to a successful Part 1 Proposal the Bid Form as well as a set of instructions. These instructions guide the RFP Bidder for completion of the Bid Form, for optional encryption of the Bid Form, for submission of the completed Bid Form to the Independent Evaluator via secure file transfer interface, as well as instructions for backup methods for the submission of Bids in case of technical difficulties with the electronic transfer.

Important! The Independent Evaluator provides electronically to each RFP Bidder that qualifies pursuant to a successful Part 1 Proposal information required for the submission of Bids, including a username, password, and security code. This information is unique to each RFP Bidder and allows the Independent Evaluator to authenticate the Bids received. The RFP Bidder must acknowledge that the RFP Bidder has received intact the information necessary to submit Bids and that no one but authorized personnel of the RFP Bidder has had access to this information.

Please provide this confirmation below.

☐ I confirm receipt of the Bid Form, instructions, and information necessary to submit Bids. No one but authorized personnel of the RFP Bidder has had access to this information.

☐ I request that such information and documents be re-issued.

6. Justification of Omissions Section

If you are unable to provide all documents or information with this Part 2 Form, please justify fully any omissions in the space provided below.

If you are providing additional documents, such as providing the P1 Certifications Insert if the individual who is serving as Officer of the RFP Bidder has changed, please use the spaces below to upload these documents.

	File upload

APPENDIX 8 – ILLUSTRATIVE PART 2 FORM
DEFAULT SERVICE PROGRAM
REQUEST FOR PROPOSALS

SHORT FORM

PECO Energy Company ("Company" or "PECO") is intending to obtain full requirements electric supply to meet a portion of its obligations as Default Service Provider through this Request for Proposals ("RFP").

Before completing this online Part 2 Form, please review the RFP, including the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA"), so that you understand the conditions under which the RFP will be conducted. These documents are posted at www.pecoprocurement.com.

By having submitted a Part 1 Proposal in response to this RFP, you agreed to all terms and conditions of this RFP.

Any information provided by an RFP Bidder in the Part 2 Proposal is provided on a confidential basis to the Independent Evaluator, and may be provided on a confidential basis to the Staff of the Pennsylvania Public Utility Commission ("Commission"). PECO representatives will review financial information and legal documents provided to fulfill the requirements of the Part 2 Proposal, and will participate in the evaluation of the Pre-Bid Letter of Credit with the name of the RFP Bidder and the amount redacted.

PART 2 FORM

1. Contact Information and Representations

First Item: Name and Address of the RFP Bidder

Below is the information that you previously provided. **PLEASE MAKE ANY NECESSARY UPDATES TO THE RFP BIDDER'S LEGAL NAME AND ADDRESS.** By submitting this form without making updates, you will be confirming that the previously provided information remains valid.

Legal Name of RFP Bidder

[pre-populated]

Street Address Line 1

[pre-populated]

Street Address Line 2

[pre-populated]

City	*State*	*Zip Code*
[pre-populated]	*[pre-populated]*	*[pre-populated]*

IF THE LEGAL NAME OF THE RFP BIDDER HAS CHANGED, PLEASE PROVIDE EVIDENCE OF THE CHANGE.

	Evidence of name change (if necessary)

Second Item: Contact Information for the Officer of the RFP Bidder

Below is the information that you previously provided. **PLEASE MAKE ANY UPDATES TO THE NAME AND CONTACT INFORMATION FOR THE OFFICER OF THE RFP BIDDER.** By submitting this form without making updates, you will be confirming that the previously provided information remains valid.

Please note that the Officer of the RFP Bidder named in the Part 1 Proposal must make all representations and certifications in this Part 2 Proposal. If the individual serving as Officer of the RFP Bidder has changed, the RFP Bidder will be required to resubmit all certifications required by the Part 1 Proposal.

Fourth Item: Representations of the Officer of the RFP Bidder

THE OFFICER OF THE RFP BIDDER MUST MAKE A NUMBER OF CERTIFICATIONS TO FULFILL THE REQUIREMENTS OF THE PART 2 PROPOSAL. If the Officer of the RFP Bidder who made the representations and certifications of the Part 1 Form is unavailable to make the representations of the Part 2 Form, the RFP Bidder must name a new individual to serve as Officer of the RFP Bidder and must, in addition to making the representations required in the Part 2 Proposal, re-submit the certifications of the Part 1 Form by the Part 2 Date.

THE OFFICER OF THE RFP BIDDER MUST MAKE A NUMBER OF CERTIFICATIONS BY COMPLETING THE P2 CERTIFICATIONS INSERT. The P2 Certifications Insert is also labelled INSERT #P2-1.

PLEASE REFER TO THE P2 CERTIFICATIONS INSERT (#P2-1) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT.

_____
Name of RFP Bidder

P2 CERTIFICATIONS INSERT (#P2-1)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE OR A NOTARIZED SIGNATURE FOR THIS INSERT.

This Insert may be completed as follows:

- *Signed by the Officer of the RFP Bidder with the signature notarized;*

or:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory. Digital signatures are not required to be notarized.*

This Insert and any accompanying document or information may be submitted as follows:

- *Uploaded to the online Part 1 Form;*

or:

- *Sent by email to the Independent Evaluator at PECOProcurement@nera.com.*

THE OFFICER OF THE RFP BIDDER MUST MAKE THE FOLLOWING CERTIFICATIONS.

(1) I certify that this Part 2 Proposal will remain valid and remain in full force and effect until six (6) business days after the Bid Date and if any information provided in the Part 2 Proposal changes or any previous certification fails to remain valid during that time, the RFP Bidder will notify the Independent Evaluator as soon as practicable.

(2) I certify that the RFP Bidder is bidding independently and that it has no knowledge of any information concerning a Proposal by another RFP Bidder in response to this solicitation or any future solicitation under this RFP. Such information includes, but is not limited to: the fact that another RFP Bidder is submitting a Proposal in response to this solicitation or a subsequent solicitation under this RFP; the Bids by another RFP Bidder in this or in a subsequent solicitation under this RFP; the number of tranches bid by another RFP Bidder for any product in this or in a subsequent solicitation under this RFP; the estimation by another RFP Bidder of the value of a tranche of a product; the estimation by another RFP Bidder of the risks associated with providing supply under the Uniform SMA; the preference of another RFP Bidder for bidding on specific products in this or in a subsequent solicitation under the RFP; and the contractual arrangements for power of another RFP Bidder to serve tranches of Default Service Load were that RFP Bidder to become a Default Supplier. This certification must be binding and in effect until the Commission has either approved or rejected each of the winning Bids for this solicitation.

(3) I certify that although the RFP Bidder may disclose aspects of its Proposal in communicating with its financial institution for the purpose of preparing the Pre-Bid Letter of Credit or in communicating with advisors (if any), any such communication is made in a manner that can reasonably be expected to maintain the confidentiality of the RFP Bidder's Proposal.

(4) I certify that, with only the exceptions noted in (3) above, the RFP Bidder has not disclosed, and will not otherwise disclose, publicly or to any other party any information relating to its Proposal, which could have an effect on whether another party submits a Proposal in any solicitation under the RFP, or on the contents of the Proposal that another RFP Bidder would be willing to submit in response to the RFP. Such information includes, but is not limited to: the fact that the RFP Bidder is submitting a Proposal in response to this RFP; the RFP Bidder's Bids in this or in a subsequent solicitation under this RFP; the RFP Bidder's number of tranches bid for any product in this or in a subsequent solicitation under this RFP; the RFP Bidder's estimation of the value of a tranche of a product; the RFP Bidder's estimation of the risks associated with providing supply under the Uniform SMA; and the RFP Bidder's preference for bidding on specific products in

this or in a subsequent solicitation under this RFP. This certification must be binding and in effect until the Commission has either approved or rejected each of the winning Bids for this solicitation.

(5) I certify that any Bid on any product submitted in response to this RFP for this solicitation is binding until six (6) business days after the Bid Date and constitutes a binding and irrevocable offer to provide service under the terms of the Uniform SMA at the price specified in the Bid.

(6) I certify that I will execute (or I will nominate another authorized individual to execute) the Uniform SMA and all Transaction Confirmation(s) for the RFP Bidder's Bids that are approved by the Commission no later than 2PM on the third business day after the Commission has accepted such Bids.

(7) I certify that in each Transaction Confirmation, the RFP Bidder will specify a price for each type of AECs (Tier I, Tier I Solar, and Tier II) that is included in the RFP Bidder's winning Bids and each such price must be greater than $0/AEC.

_____ _____

Signature of Officer Date

_____ _____

Signature and Seal from Notary Public Date

2. Pre-Bid Letter of Credit

THE RFP BIDDER MUST PROVIDE AN EXECUTED PRE-BID LETTER OF CREDIT, drawn for the account of the RFP Bidder and acceptable to PECO, **IN AN AMOUNT OF AT LEAST: $250,000 PER TRANCHE BID ON PRODUCTS OF THE RES AND SC CLASSES FOR FULL REQUIREMENTS ON A FIXED-PRICE BASIS, PLUS, IF APPLICABLE, $125,000 PER TRANCHE BID ON A PRODUCT FOR THE CCI CLASS FOR FULL REQUIREMENTS ON A SPOT-PRICE BASIS.** A single Pre-Bid Letter of Credit is submitted even if the RFP Bidder bids on more than one product or, if applicable, the RFP Bidder bids to supply both full requirements on a fixed-price basis and full requirements on a spot-price basis.

The RFP Bidder must either use the Standard Pre-Bid Letter of Credit, provided on www.pecoprocurement.com, or submit a Pre-Bid Letter of Credit that incorporates only those modifications to the Standard Pre-Bid Letter of Credit accepted as a result of the evaluation of the Part 1 Proposals.

THE PRE-BID LETTER OF CREDIT MUST BE SUBMITTED AS AN ELECTRONIC PDF FILE VIA ELECTRONIC MEANS ONLY to the Independent Evaluator at pecoprocurement@nera.com. A Pre-Bid Letter of Credit sent in hardcopy cannot be accepted.

PECO and the Independent Evaluator will release the Pre-Bid Letter of Credit no later than six (6) business days after the Bid Date. If the Commission does not approve any of the RFP Bidder's Bids, PECO and the Independent Evaluator will release that RFP Bidder's Pre-Bid Letter of Credit within three (3) business days of the Bid Date.

Would you like to provide special instructions for returning the Pre-Bid Letter of Credit?

☒ **Yes** ☐ **No**

PLEASE PROVIDE SPECIAL INSTRUCTIONS FOR RETURNING THE PRE-BID LETTER OF CREDIT BELOW.

3. Additional Requirements

3a. Requirements for RFP Bidders Relying on Their Own Financial Standing

You previously elected the RFP Bidder as the entity on whose financial standing the RFP Bidder is relying. **YOU HAVE NO ADDITIONAL REQUIREMENTS** under this section and you may proceed to the next section.

3b. Requirements for RFP Bidders Relying on the Financial Standing of an RFP Guarantor

Is the RFP Bidder a Default Supplier serving tranches won in a solicitation under DSP VI?
☐ **Yes** ☐ **No**
If Yes, please proceed to the Section 4.
If No, you previously elected an RFP Guarantor as the entity on whose financial standing the RFP Bidder is relying. **THE RFP BIDDER MUST PROVIDE THE GUARANTY DOCUMENTS REQUIRED BY THIS SECTION.**

☒ **No**

First Item: Intent to Provide a Guaranty

A REPRESENTATIVE OF THE RFP GUARANTOR WHO IS AUTHORIZED TO UNDERTAKE CONTRACTS (INCLUDING THE GUARANTY) AND BIND THAT RFP GUARANTOR MUST MAKE THE CERTIFICATIONS PROVIDED IN THE GUARANTY INTENT INSERT. The Guaranty Intent Insert is also labelled INSERT #P2-2.

PLEASE REFER TO THE GUARANTY INTENT INSERT (#P2-2) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE A REPRESENTATIVE OF THE RFP GUARANTOR) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

GUARANTY INTENT INSERT (#P2-2)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here a Representative of the RFP Guarantor) or with the signatory on copy.

PLEASE PROVIDE THE INDICATIVE AMOUNT OF THE GUARANTY IN THE SPACE PROVIDED. THE INDICATIVE AMOUNT MUST MEET OR EXCEED THE SUM OF: (I) $600,000 TIMES THE NUMBER OF TRANCHES BID ON PRODUCTS FOR THE RES AND SC CLASSES FOR FULL REQUIREMENTS ON A FIXED-PRICE BASIS; AND, IF APPLICABLE, (II) $300,000 TIMES THE NUMBER OF TRANCHES BID ON THE CCI CLASS FOR FULL REQUIREMENTS ON A SPOT-PRICE BASIS.

I acknowledge that _____ ("RFP Guarantor") has been asked to provide a financial guaranty on behalf of _____ ("RFP Bidder") should the RFP Bidder become a Default Supplier pursuant to its response under this RFP for procuring supply under the terms of the Uniform SMA. Our senior unsecured debt rating meets the Minimum Rating as defined in the Uniform SMA.

We would consider providing a financial guaranty on behalf of the RFP Bidder should there be no material change in affairs of at least $ _____ (Indicative Amount). This statement should not and cannot be taken as an indication of financing commitment of any kind whatsoever, or an absolute commitment to provide a financial guaranty.

_____ _____

Signature of a Representative of the RFP Guarantor Date

_____

Printed Name

Second Item: Information to Prepare the Guaranty

In accordance with Paragraph V.3.3 of the RFP Rules, **THE RFP BIDDER IS ASKED TO PROVIDE THE FOLLOWING INFORMATION TO PREPARE THE GUARANTY**:

- the governing laws under which the RFP Guarantor is organized;
- contact information for the RFP Guarantor, including the name and title of the signatory of the guaranty for notices under the guaranty;
- elections to incorporate any or all of the approved modifications to the Standard Guaranty.

THE RFP BIDDER MUST EITHER: (i) provide the requested information to prepare the guaranty at this time; or: (ii) submit an acknowledgment signed by the Officer of the RFP Bidder that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP

Bidder's Bids to the Commission as winning Bids, the RFP Bidder must provide all required information by 12 PM (noon) EPT on the day after such notification is received.

Is the RFP Bidder providing information to prepare the guaranty at this time?

☐ **Yes** ☐ **No**

☒ **Yes**

THE RFP BIDDER PROVIDES THE INFORMATION TO PREPARE THE GUARANTY BY COMPLETING TH GUARANTY INSERT. The Guaranty Insert is also labelled INSERT #P2-3.

PLEASE REFER TO THE GUARANTY INSERT (#P2-3) FOR THE ACCEPTABLE METHODS TO COMPLETE AN SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SEN BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY TH SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER OR THE REPRESENTATIVE OF THE RFP BIDDER OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

GUARANTY INSERT (#P2-3)

THIS INSERT MAY REQUIRE A SIGNATURE. IF REQUIRED, THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder or the Representative of the RFP Bidder) or with the signatory on copy.

Please note! **RFP Bidders relying on the financial standing of an RFP Guarantor must submit one (but ONLY one) of Insert #P2-3 or Insert #P2-4.**

1. Governing Laws under which the RFP Guarantor is Organized

Whether the RFP Guarantor is a Corporation, Partnership, etc.

Jurisdiction under whose laws the RFP Guarantor is existing and organized.

Name of relevant and binding corporate organizational document, such as Declaration of Trust, Limited Liability Company Agreement, Articles of Incorporation and by-laws.

2. Governing Laws under which the RFP Bidder is Organized

Whether the RFP Bidder is a Corporation, Partnership, etc.

Jurisdiction under whose laws the RFP Bidder is existing and organized.

3. Contact Information

Please provide the name and contact information for the person to whom notices and other communications will be sent under the guaranty:

First Name *Last Name*

Title

Company

Street Address

City *State* *Zip Code*

Phone Number *Fax*

Please provide the name and title of the person who will be signing the guaranty:

First Name *Last Name*

Title

4. Elections of Optional Modifications to the Guaranty

Optional changes that the RFP Bidder may adopt for the Form of Guaranty are provided in a document entitled "Optional Modifications to the Guaranty" available on the website. **PLEASE INDICATE THE CHANGES THAT YOU ARE ELECTING IN THE TABLE BELOW.**

Optional Change	Paragraph	RFP Bidder adopts change
1	Paragraph 1	☐ yes ☐ no
2	Paragraph 1	☐ yes ☐ no
3	Paragraph 1	☐ yes ☐ no

(*a*) Optional change #7 is available only to an RFP Bidder that has an outstanding guaranty with PECO.

PLEASE PROVIDE THE FOLLOWING ADDITIONAL INFORMATION IF YOU ELECT OPTIONAL CHANGE #7:

Date of Existing Guaranty _____

Amount of Existing Guaranty _____

(*b*) THE REPRESENTATIVE OF THE RFP BIDDER OR THE OFFICER OF THE RFP BIDDER MUST MAKE THE FOLLOWING REPRESENTATION IF YOU ELECT OPTIONAL CHANGE #20:

I, _____ (the Officer of the RFP Bidder or the Representative of the RFP Bidder), certify that the RFP Guarantor, on whose financial standing the RFP Bidder will be relying, is not a trust.

_____ _____
Signature Date

(*c*) PLEASE PROVIDE THE NAME AND TITLE OF THE ADDITIONAL PERSON WHO WILL BE SIGNING THE GUARANTY IF YOU ELECT OPTIONAL CHANGE #21:

First Name *Last Name*

Title

(*d*) PLEASE PROVIDE THE FOLLOWING ADDITIONAL INFORMATION IF YOU ELECT OPTIONAL CHANGE #22:

Name of Additional Guarantor

Whether the Additional Guarantor is a Corporation, Partnership, etc.

Jurisdiction under whose laws the Additional Guarantor is existing and organized.

(*e*) PLEASE PROVIDE THE FOLLOWING ADDITIONAL INFORMATION IF YOU ELECT OPTIONAL CHANGE #23:

Name of Additional Guarantor

Whether the Additional Guarantor is a Corporation, Partnership, etc.

Jurisdiction under whose laws the Additional Guarantor is existing and organized.

☒ **NO**

THE OFFICER OF THE RFP BIDDER PROVIDES THE REQUIRED ACKNOWLEDGMENT BY COMPLETING THE DELAY (GUARANTY) INSERT. The Delay (Guaranty) Insert is also labelled INSERT #P2-4.

PLEASE REFER TO THE DELAY (GUARANTY) INSERT (#P2-4) FOR THE ACCEPTABLE METHODS TO COMPLETE AND SUBMIT THIS INSERT. IF THIS INSERT IS NOT COMPLETED WITH A DIGITAL SIGNATURE, IT MUST BE SENT BY EMAIL TO THE INDEPENDENT EVALUATOR AT PECOPROCUREMENT@NERA.COM BY THE SIGNATORY (HERE THE OFFICER OF THE RFP BIDDER) OR WITH THE SIGNATORY ON COPY.

_____
Name of RFP Bidder

DELAY (GUARANTY) INSERT (#P2-4)

THE INDEPENDENT EVALUATOR IS ACCEPTING A DIGITAL SIGNATURE FOR THIS INSERT. THE INDEPENDENT EVALUATOR IS ALSO ACCEPTING AN ELECTRONIC SIGNATURE OR A SCANNED WET SIGNATURE AS LONG AS THIS INSERT IS SENT BY EMAIL BY THE SIGNATORY OR WITH THE SIGNATORY ON COPY.

This Insert may be completed as follows:

- *Submitted with a digital signature (using commercially available software such as DocuSign) with an accompanying document or information verifying the identity of the signatory.*

If completed with a digital signature, this Insert and accompanying document or information may be uploaded to the online Part 1 Form or may be sent by email to the Independent Evaluator at PECOProcurement@NERA.com.

This Insert may also be completed as follows:

- *Submitted with a scanned wet signature;*

or

- *Submitted with an electronic signature (such as an image of a signature).*

If completed with a scanned or electronic signature, this Insert must be sent by email to the Independent Evaluator at PECOProcurement@NERA.com by the signatory (here the Officer of the RFP Bidder) or with the signatory on copy.

Please note! **RFP Bidders relying on the financial standing of an RFP Guarantor must submit one (but ONLY one) of Insert #P2-3 or Insert #P2-4.**

I, _____ (the Officer of the RFP Bidder), acknowledge that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to

the Commission as winning Bids, the RFP Bidder must provide all information required by the Guaranty Insert (#P2-3) by 12 PM (noon) EPT on the day after such notification is received.

_____ _____

Signature of Officer Date

3c. Requirements for RFP Bidders Relying on the Financial Standing of an RFP Principal

AN RFP BIDDER SUBMITTING A PROPOSAL UNDER AN AGENCY AGREEMENT IS REQUIRED TO PROVIDE AN OFFICERS' CERTIFICATE AS WELL AS CONTACT INFORMATION FOR A REPRESENTATIVE OF THE PRINCIPAL as specified in Section V.4 of the RFP Rules.

First Item: Officer's Certificate

PLEASE SUBMIT ONE (1) COPY OF THE REQUIRED OFFICERS' CERTIFICATE, SIGNED BY AN OFFICER OF EACH PRINCIPAL, BY UPLOAD TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM. The Independent Evaluator and PECO will determine whether the document provided is sufficient, without any liability or obligation to the RFP Bidder or its Principal(s). The Officers' Certificate should be substantially in the form of Appendix 6 to the RFP Rules.

	Officers' Certificate

Second Item: Signatory to the Uniform SMA

Is a representative of the RFP Bidder authorized to execute the Transaction Confirmation(s) and to sign the Uniform SMA (if applicable) on behalf of the Principal(s)?

☐ **Yes** ☐ **No**

☒ **NO**

Please provide the information of the representative of the Principal who will sign the Uniform SMA (if applicable) and any Transaction Confirmation.

Last Name *First Name*

Title *Company*

Street Address Line 1

Street Address Line 2

City *State* *Zip Code*

Phone No. *Cell Phone No. (Optional)* *Email Address*

4. Foreign RFP Bidders and Foreign Entities

Is the RFP Bidder a Foreign RFP Bidder, or is the RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor or is the RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal?

☐ **Yes** ☐ **No**

☒ **Yes**

AN RFP BIDDER THAT IS A FOREIGN RFP BIDDER OR THAT IS RELYING ON THE FINANCIAL STANDING OF A FOREIGN ENTITY AS RFP GUARANTOR OR THAT SUBMITS A PROPOSAL UNDER AN AGENCY AGREEMENT WITH A FOREIGN ENTITY AS PRINCIPAL IS REQUIRED TO PROVIDE ADDITIONAL INFORMATION AS SPECIFIED IN SECTION V.5 OF THE RFP RULES by completing the P2 Foreign Entity Insert and providing associated documents below. The P2 Foreign Entity Insert is also labelled INSERT #P2-5.

	Insert #P2-5
	Additional Evidence of Creditworthiness
	Additional Evidence of Creditworthiness
	Legal opinion
	Sworn certificate
	Sworn certificate

_____
Name of RFP Bidder

P2 FOREIGN ENTITY INSERT (#P2-5)

Please note! Only RFP Bidders that are Foreign Entities, or that rely on the financial standing of a Foreign Entity as RFP Guarantor, or that submit a Proposal under an Agency Agreement with a Foreign Entity as Principal, are required to complete this Insert. The requirements are provided in Section V.5 of the RFP Rules.

Are you a previously eligible RFP Bidder (i.e., did you successfully complete the Part 2 Proposal on a prior solicitation under DSP VI)?

☐ **Yes** ☐ **No**

If no, please complete Section A below.
If yes, please complete Section B below.

SECTION A. RFP BIDDERS THAT HAVE NOT PREVIOUSLY COMPLETED THE PART 2 PROPOSAL

PLEASE COMPLETE ONLY THE ITEM THAT APPLIES TO YOU:

Circumstances	Item to Complete
The RFP Bidder is a Foreign Entity	First Item
The RFP Bidder relies on the financial standing of a Foreign Entity as RFP Guarantor	Second Item
The RFP Bidder is submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal	Third Item

First Item: Required Documents for Foreign RFP Bidders

A FOREIGN RFP BIDDER MUST PROVIDE THE ADDITIONAL DOCUMENTS LISTED BELOW TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM FOR THE FOREIGN RFP BIDDER.

(1) **one (1) executed original** legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.

(2) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Bidder that the person executing the Uniform SMA on behalf of the RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such RFP Bidder has approved the execution of the Uniform SMA.

(3) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Bidder that the RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

Second Item: Required Documents for RFP Bidders with a Foreign Entity as RFP Guarantor

AN RFP BIDDER RELYING ON THE FINANCIAL STANDING OF A FOREIGN ENTITY AS RFP GUARANTOR MUST PROVIDE THE ADDITIONAL DOCUMENTS LISTED BELOW TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM FOR THE RFP GUARANTOR TO BE GRANTED UNSECURED CREDIT UNDER THE TERMS OF THE UNIFORM SMA.

(1) **one (1) executed original** legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.

(2) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA;

(3) **one (1) executed original** sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.

If the RFP Bidder does not submit these documents, or if these documents are not sufficient, the Foreign Entity as RFP Guarantor is not granted unsecured credit under the terms of the Uniform SMA. In that case, the RFP Bidder may not rely on the financial standing of the RFP Guarantor. The Independent Evaluator may request additional financial or credit information regarding the RFP Bidder.

Third Item: Required Documents for RFP Bidders with a Foreign Entity as Principal

AN RFP BIDDER SUBMITTING A PROPOSAL UNDER AN AGENCY AGREEMENT WITH A FOREIGN ENTITY AS PRINCIPAL MUST PROVIDE THE ADDITIONAL DOCUMENTS LISTED BELOW TO THE ONLINE PART 2 FORM OR BY EMAIL TO PECOPROCUREMENT@NERA.COM.

(1) one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.

(2) one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

SECTION B. PREVIOUSLY ELIGIBLE RFP BIDDERS (THAT HAVE SUCCESSFULLY COMPLETED THE PART 2 PROPOSAL IN A PRIOR SOLICITATION)

PLEASE COMPLETE ONLY THE ITEM THAT APPLIES TO YOU:

Circumstances	Item to Complete
The RFP Bidder is a Foreign Entity	First Item
The RFP Bidder relies on the financial standing of a Foreign Entity as RFP Guarantor	Second Item
The RFP Bidder is submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal	Third Item

First Item: Required Documents for Foreign RFP Bidders

For each document required of Foreign RFP Bidders, a Foreign RFP Bidder that is previously eligible must either: (i) confirm that the document and submitted in a previous solicitation under DSP VI remains valid; or: (ii) provide the document by upload to the online Part 2 form or email to pecoprocurement@nera.com if it has changed.

PLEASE USE THE TABLE BELOW TO SELECT, FOR EACH DOCUMENT, WHETHER (I) THE DOCUMENT REMAINS VALID OR (II) THE DOCUMENT HAS CHANGED AND IS BEING RESUBMITTED. By clicking the box that a document remains valid, you are confirming that such document continues to meet the requirements of Section V.5 of the RFP Rules.

REQUIRED DOCUMENTS	Remains valid (not submitted)	Has changed (submitted this solicitation)
one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in	☐	☐

the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.		
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA.	☐	☐
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.	☐	☐

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

Second Item: Required Documents for RFP Bidders with a Foreign Entity as RFP Guarantor

For each document required of an RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor, an RFP Bidder that is previously eligible must either: (i) confirm that the document and submitted in a previous solicitation under DSP VI remains valid; or (ii) provide the document by upload to the online Part 2 form or email to pecoprocurement@nera.com if it has changed.

PLEASE USE THE TABLE BELOW TO SELECT, FOR EACH DOCUMENT, WHETHER (I) THE DOCUMENT REMAINS VALID OR (II) THE DOCUMENT HAS CHANGED AND IS BEING RESUBMITTED. By clicking the box that a document remains valid, you are confirming that such document continues to meet the requirements of Section V.5 of the RFP Rules.

REQUIRED DOCUMENTS	**Remains valid (not submitted)**	**Has changed (submitted this solicitation)**
one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been	☐	☐

incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.		
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA	☐	☐
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.	☐	☐

If these documents are not sufficient, the Foreign Entity as RFP Guarantor is not granted unsecured credit under the terms of the Uniform SMA. In that case, the RFP Bidder may not rely on the financial standing of the RFP Guarantor. The Independent Evaluator may request additional financial or credit information regarding the RFP Bidder.

Third Item: Required Documents for RFP Bidders with a Foreign Entity as Principal

For each document required of an RFP Bidder submitting a Proposal under an Agency Agreement with a Principal that is a foreign entity, an RFP Bidder that is previously eligible must either: (i) confirm that the document and submitted in a previous solicitation under DSP VI remains valid; or: (ii) provide the document by upload to the online Part 2 form or email to pecoprocurement@nera.com if it has changed.

PLEASE USE THE TABLE BELOW TO SELECT, FOR EACH DOCUMENT, WHETHER (I) THE DOCUMENT REMAINS VALID OR (II) THE DOCUMENT HAS CHANGED AND IS BEING RESUBMITTED. By clicking the box that a document remains valid, you are confirming that such document continues to meet the requirements of Section V.5 of the RFP Rules.

REQUIRED DOCUMENTS	**Remains valid (not submitted)**	**Has changed (submitted this solicitation)**

one (1) executed original legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed. Exhibit 4 to the Uniform SMA includes a sample of a sufficient legal opinion.	☐	☐
one (1) executed original sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.	☐	☐

PECO will determine whether such documents are sufficient. If the documents are not sufficient, the RFP Bidder may not be eligible to continue its participation in the RFP.

☒ **No**

The requirements of this section do not apply to you.

5. Bids

Reminder: Each RFP Bidder submits its Bids electronically, by transferring its Bid Form through a secure file transfer system. The Independent Evaluator provides electronically to each RFP Bidder qualified pursuant to a successful Part 1 Proposal the Bid Form as well as a set of instructions. These instructions guide the RFP Bidder for completion of the Bid Form, for optional encryption of the Bid Form, for submission of the completed Bid Form to the Independent Evaluator via secure file transfer interface, as well as instructions for backup methods for the submission of Bids in case of technical difficulties with the electronic transfer.

Important! The Independent Evaluator provides electronically to each RFP Bidder that qualifies pursuant to a successful Part 1 Proposal information required for the submission of Bids, including a username, password, and security code. This information is unique to each RFP Bidder and allows the Independent Evaluator to authenticate the Bids received. The RFP Bidder must acknowledge that the RFP Bidder has received intact the information necessary to submit Bids and that no one but authorized personnel of the RFP Bidder has had access to this information.

Please provide this confirmation below.

☐ I confirm receipt of the Bid Form, instructions, and information necessary to submit Bids. No one but authorized personnel of the RFP Bidder has had access to this information.

☐ I request that such information and documents be re-issued.

6. Justification of Omissions Section

If you are unable to provide all documents or information with this Part 2 Form, please justify fully any omissions in the space provided below.

If you are providing additional documents, such as providing the P1 Certifications Insert if the individual who is serving as Officer of the RFP Bidder has changed, please use the spaces below to upload these documents.

Appendix 9 - Standard Pre-Bid Letter of Credit

[On Issuing Bank's Letterhead]

IRREVOCABLE STANDBY LETTER OF CREDIT

_____ ("Date of Issuance")

Letter of Credit No. _____

Beneficiary:
PECO Energy Company ("PECO")
c/o NERA Economic Consulting ("NERA")
Independent Evaluator
PECO Default Service Program
PECOProcurement@nera.com

Applicant:
[Name of Applicant]
[Address]

1. We, _____(the "Issuing Bank"), hereby establish this Irrevocable Standby Letter of Credit (this "Letter of Credit") in your favor in the amount of USD $_____, effective immediately and available to you at sight upon demand at our counters at _____[designate Issuing Bank's location for presentments] and expiring at 5:00 PM (New York, NY time[1]) on _____[insert date no earlier than March 26, 2025] (the "Expiration Date"), unless terminated earlier in accordance with the provisions of Paragraph 9 hereof.

2. This Letter of Credit is issued at the request and for the account of _____ (including its successors and assigns, the "Bidder"). This Letter of Credit may be drawn by presenting the documents required by Paragraph 3 hereof, including your certificate stating that:

   a) "the Bidder has made a material omission or misrepresentation in the Part 1 Proposal or the Part 2 Proposal submitted in connection with this solicitation"; or

   b) "the Bidder has disclosed information relating to its Proposal publicly or to any other party before the PUC has rendered its decision on the results of the solicitation"; or

   c) "the Bidder has one or more Bids approved by the PUC and the Bidder has failed to execute the Uniform SMA and its Exhibits or has failed to meet the creditworthiness requirements within the timeframe required".

3. We hereby irrevocably authorize you to draw on us, in accordance with the terms and conditions hereof, up to the amount available under this Letter of Credit from time to time, subject to reduction as provided in Paragraph 8. A partial or full drawing hereunder may be presented by you on any

[1] If the issuer of the Letter of Credit is located in an area that is not in the Eastern Time zone, this time and all other times in this Letter of Credit, and the definition of a Business Day should be adjusted accordingly, here and in Paragraphs 5 and 9.

Business Day on or prior to the Expiration Date by delivering or transmitting to the Issuing Bank at _____, (a) Annex 1 hereto, appropriately completed and duly signed by an Authorized Officer of PECO, which is your notice, and (b) Annex 2 hereto, appropriately completed and duly signed by an Authorized Officer of PECO, which is your draft.

4. Drafts, document(s) and other communications hereunder may be presented or delivered to us by facsimile transmission or electronic means. Presentation of documents to effect a draw by facsimile must be made to the following facsimile number(s): _____, and confirmed by telephone to us at the following number(s): _____. Presentation of documents to effect a draw by electronic means must be made by your email address PECOWB&C@peco-energy.com or pecoprocurement@nera.com to the following email address: _____, and confirmed by telephone to us at the following number(s): _____. In the event of a presentation via facsimile transmission or via electronic means, no mail confirmation is necessary and the facsimile transmission or the electronic communication will constitute the operative drawing documents.

5. We will honor a drawing hereunder made in compliance with the terms and provisions of this Letter of Credit by transferring in immediately available funds the amount specified in your draft (or so much thereof as is available hereunder) delivered or transmitted to us in connection with such drawing to the account designated as provided below, by 3:00 PM (New York, NY time) on the date of such drawing, if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made prior to 11:00 AM (New York, NY time) on a Business Day, but at the opening of business on the first Business Day next succeeding the date of such drawing if delivery or transmission of the requisite documents pursuant to Paragraph 3 hereof is made on or after 11:00 AM (New York, NY time) on any Business Day.

6. If a demand for payment made by you hereunder does not, in any instance, conform to the terms and conditions of this Letter of Credit, we shall give you notice not later than the time provided in Paragraph 5 above for honor of a drawing presented to us, that the demand for payment was not effected in accordance with the terms and conditions of this Letter of Credit, stating the reasons why the demand for payment was not so effected, and that we will upon your instructions hold any documents at your disposal or return the same to you. Upon being notified that the demand for payment was not effected in conformity with this Letter of Credit, you may attempt to correct any such non-conforming demand for payment to the extent that you are entitled to do so, provided, however, in such event a conforming demand for payment must be timely made in accordance with the terms of this Letter of Credit.

7. Unless otherwise hereafter designated in writing to us by an Authorized Officer of PECO, all payments made by us under this Letter of Credit shall be transmitted by wire transfer to PECO pursuant to the following instructions:

   PECO Energy Company
   Account No.: _____
   Bank: _____
   Bank's Address: _____
   _____
   ABA Routing No.: _____
   Contact: _____
   Email Address: _____

8. Partial drawings are permitted hereunder and multiple drawings are permitted hereunder. The amount available for drawing by you under this Letter of Credit shall be automatically reduced by the amount of any drawings paid through us referencing this Letter of Credit. Presentation of

demands for drawings in amounts that exceed the amount available to be drawn hereunder shall not be deemed a failure to comply with the requirements of Paragraph 3 hereof, provided that the amounts payable on any such demand shall thus be limited to the amount then available to be drawn under this Letter of Credit.

9. This Letter of Credit shall terminate on the earliest of the date (a) you have made drawings which exhaust the amounts available to be drawn under this Letter of Credit, (b) we receive from you a Certificate of Cancellation in the form of Annex 3, or (c) 5:00 PM (New York, NY time) on the Expiration Date.

10. This Letter of Credit is not transferable, and except as otherwise expressly stated herein, is subject to the Uniform Customs and Practice for Documentary Credits – 2007 revision, ICC Publication No. 600, or any successor publication thereto (the "UCP"). All banking charges are for the account of the Bidder. This Letter of Credit shall, as to matters not governed by the UCP, be governed and construed in accordance with New York law, without regard to principles of conflicts of law.

11. Article 36 of the UCP as it applies to this Letter of Credit is hereby modified to provide as follows:

    > If on the last Business Day for presentation the place for presentation stated in this Letter of Credit is for any reason closed, then the last day for presentation is automatically extended to the day occurring thirty calendar days after the place for presentation re-opens for business.

    Article 36 of the UCP as it applies to this Letter of Credit is hereby further modified by providing that any alternate place for presentation we may designate pursuant to this rule must be in the United States.

12. As used herein:

    "Authorized Officer" shall mean President, Treasurer, any Vice President, any Senior Vice President, any Managing Director, any Director, any Associate Director, or any Assistant Treasurer.

    "Bids" shall mean the price offers submitted by the Bidder in response to PECO Energy Company's Default Service Program RFP.

    "Bid Date" shall mean the day on which the Bidder may submit Bids in the solicitation.

    "Bidder" shall mean an entity that has successfully completed the Part 1 Proposal, and that submits the Part 2 Proposal.

    "Business Day" shall mean any day on which commercial banks are not authorized or required to close in New York, NY and any day on which payments can be effected on the Fedwire system.

    "Uniform SMA" shall mean the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement by which PECO can contract with winners from this solicitation.

    "Independent Evaluator" shall mean the administrator of PECO Energy Company's Default Service Program RFP.

    "PUC" shall mean the Pennsylvania Utility Commission.

    "Proposal" shall mean a response by the Bidder to PECO Energy Company's Default Service Program RFP in a solicitation, including the Part 1 Proposal and the Part 2 Proposal.

"Transaction Confirmation" shall mean an agreement pursuant to the Uniform SMA that documents certain terms of a transaction between the Bidder and PECO Energy Company.

13. This Letter of Credit sets forth in full our undertaking, and such undertaking shall not in any way be modified, amended, changed, amplified or limited by reference to any document, instrument or agreement referred to herein, except for Annexes 1 through 3 hereto and the notices referred to herein; and any such reference shall not be deemed to incorporate herein by reference any document, instrument or agreement except as set forth above. Except as otherwise expressly stated herein, this Letter of Credit may not be amended or modified by us without the consent of an Authorized Officer of PECO or an Authorized Officer of the Independent Evaluator on behalf of PECO.

14. We, the Issuing Bank, certify that as of the Date of Issuance our senior unsecured debt is rated "A-" or better by S&P Global Ratings, or "A3" or higher from Moody's Investors Service.

15. This original Letter of Credit has been sent to the Independent Evaluator via electronic means only at PECOProcurement@nera.com (as per Bidder's instructions, the Independent Evaluator holds the Letter of Credit for the benefit of PECO). We confirm that the electronic PDF file of the Letter of Credit (together with subsequent amendments, if any) serves as the operative instrument. PECO Energy Company may use the electronic PDF file of the Letter of Credit (together with subsequent amendments, if any) as it would a hardcopy original. The aggregate amount paid to PECO during the validity of this Letter of Credit will not exceed the amount of this Letter of Credit. Any demands or communications in the form of the attached Annexes or other communications directed to us under this Letter of Credit must be signed by an Authorized Officer of PECO. Acceptance or rejection of any amendments to this Letter of Credit must be signed by an Authorized Officer of PECO or an Authorized Officer of the Independent Evaluator on behalf of PECO.

Very truly yours,

Small Commercial (SC-12-Jun25)	June 2025 - May 2026	6
Small Commercial (SC-24-Jun25)	June 2025 - May 2027	3
Consolidated Large Commercial and Industrial (CCI-12-Jun25)	June 2025 - May 2026	8

The Load Caps for the RES and SC Classes are set so that the Default Service customers of that Class have no more than a 50% exposure to any one Default Supplier at any given time. The Load Cap for the CCI Class is set so that the Default Service customers of that Class have no more than a 75% exposure to any one Default Supplier at any given time. The Load Caps apply to the list of products that contribute to Default Supply for a Class at a given point in time. The Load Cap for an RFP Bidder that is a Default Supplier will take into account tranches won in previous solicitations under DSP V and DSP VI.

Maximum Number of Tranches Bid in this Solicitation - RES Class.

Products	Available Tranches	Load Caps Apply to an RFP Bidder When an RFP Bidder Has:	Load Caps for RES Class
RES-12-Jun25	12	Won more than 19 RES-24-Dec23, RES-24-Jun24, RES-12-Dec24, and RES-24-Dec24 tranches under DSP V	31 less RES-24-Dec23, RES-24-Jun24, RES-12-Dec24, and RES-24-Dec24 tranches won under DSP V
RES-24-Jun25	11	Won more than 20 RES-24-Dec23, RES-24-Jun24, RES-12-Dec24, and RES-24-Dec24 tranches under DSP V	

Maximum Number of Tranches Bid in this Solicitation - SC Class.

Products	Available Tranches	Load Caps Apply to an RFP Bidder When an RFP Bidder Has:	Load Cap
SC-12-Jun25	6	Won more than 6 tranches of SC-24-Dec23, SC-24-Jun24, SC-12-Dec24, and SC-24-Dec24 under DSP V	12 less SC-24-Dec23, SC-24-Jun24, SC-12-Dec24, and SC-24-Dec24 tranches won under DSP V
SC-24-Jun25	3	Won more than 9 tranches of SC-24-Dec23, SC-24-Jun24, SC-12-Dec24, and SC-24-Dec24 under DSP V	
CCI-12-Jun25	8	Load Caps apply always	6

Complete and Sign Certification:

I, _____, certify under penalty of perjury that I am authorized to submit these Bids.

By affixing my electronic signature below I understand and agree with the following: Any Bid on any product submitted in response to this RFP for this solicitation is binding until six (6) business days after the Bid Date and constitutes a binding and irrevocable offer to provide service under the terms of the PECO Energy Company Pennsylvania Default Service Supplier Master Agreement at the price specified in the Bid.

Bids

- A 'Bid' is a price in $/MWh for one tranche of a given product.
- A 'Bid' is rounded to the nearest cent.
- An RFP Bidder may submit different Bids for different tranches of a given product.
- Bids should be entered from top to bottom, without skipping rows.

Section 1. Total Number of Tranches Bid

Total Tranches Across all Products

Appendix 12 – Confidentiality Statement

I, _____ **{name of person},** am employed by _____ **{name of employer}.**

I will be considering, reviewing, and evaluating responses from RFP Bidders or I will have access to information submitted by RFP Bidders that is not publicly released. In this capacity, I sign below and hereby acknowledge and understand the Confidentiality Provisions of the RFP Rules and, consistent with those rules, agree to take all reasonable precautions to ensure that all data and information supplied by all RFP Bidders are maintained in confidence and not disclosed to individuals other than those that have signed this Confidentiality Statement. My signature is witnessed by the Independent Evaluator.

A list of signatories of this Confidentiality Statement is maintained by the Independent Evaluator and available to all signatories and to RFP Bidders upon request. I undertake to consult this list of signatories before communicating RFP information to another person.

If any data or information supplied by an RFP Bidder is disclosed publicly by that RFP Bidder itself or by the Pennsylvania Public Utility Commission, such information will cease to be Confidential.

I. Introduction

This RFP Protocol describes the process of administering the Requests for Proposals ("RFP") and specifies how the Independent Evaluator ("IE") will communicate with bidders, with representatives of PECO Energy Company ("Company" or "PECO"), and with the Staff of the Pennsylvania Public Utility Commission ("Commission" or "PaPUC"). The RFP Protocol is focused on specific procedures that the IE and PECO will follow. The following topics will be covered:

- General Principles
- Confidentiality
- Website and Data Room
- Frequently Asked Questions
- Announcements & Communications to Bidders
- Communications to the Press and the Media
- Bidder Information Webcasts
- Guaranty Process
- Processing of Proposals
- Transmitting Confidential Information
- Bid Submission Training
- Market Report
- Bid Processing
- Post-Bid Procedures

II. General Principles

The main guiding principle of this RFP Protocol is that all bidders will be treated equally. This equality means that no bidder will be provided with information that is not available to all other bidders, and all bidders will be subject to the exact same rules and standards for participation. This not only ensures fairness of the process but it also fosters competition and so favors the best final prices possible. Bidders are more willing to participate in the RFP if they know that no other bidder will be granted an advantage over them.

Furthermore, information that is of a sensitive nature, such as information a bidder provides about itself during the Proposal process and information about individual bidders' bids, shall be considered confidential and will not be released to the public. As stated in the PaPUC's Policy Statement at §69.1807(8):

> "[t]he public interest would be served by the adoption of uniform rules for the confidentiality of competitive solicitation information. Supplier participation, bid prices, and retail rates may be impacted by protecting certain information, including, the identity of winning and losing bidders, the number of bids submitted, bid prices, the allocation of load among winning bidders, and the like."

PECO and the IE are committed to upholding these principles, and to that end:

- The IE and PECO will nominate particular individuals who will review RFP information. Each nominated individual signs a Confidentiality Statement. The individual may only discuss the RFP information to which it has access with other nominated individuals. Information will be provided to Staff at critical junctures.
- The IE will serve as the sole interface with bidders.
- The IE will set up a public RFP website to disseminate information and data about this RFP efficiently and to which all stakeholders will have access.

III. Confidentiality

This RFP Protocol describes the extent of the communication between the IE and PECO. Information not specifically designated in this protocol for communication between the IE and PECO shall not be communicated, and shall be treated as confidential. All PECO and NERA personnel involved in the administration of a solicitation will sign the Confidentiality Statement provided as Appendix 12 of the RFP, ensuring that all information submitted by prospective suppliers through this process will be treated as confidential. This RFP Protocol describes what information can be released, to whom and under what circumstances.

PECO and the IE will each designate specific individuals that will take part in the implementation of DSP VI.

- These individuals will sign the Confidentiality Statement in the form of Appendix 12 to the RFP Rules and will commit to strictly adhere to the RFP Protocol.

- The IE will maintain a master list of individuals who can have access to confidential information and each individual on that list can only discuss confidential information with another individual on that list.

- Each individual, when communicating RFP information, will consult this list of individuals as needed to ascertain that the recipient has signed the Confidentiality Statement.

PECO will have a supporting role during the implementation of each solicitation, consisting primarily of the following:

- Development of data that the IE then posts to the RFP website and updates as necessary;

- Response to bidder inquiries, particularly on data methodology and the PECO Energy Company - Pennsylvania Default Service Supplier Master Agreement "Uniform SMA", after the IE has redacted the identity of the questioner;

- Review with the IE of financial information provided by bidders with their qualification package to determine the credit line that would prevail under the terms of the Uniform SMA;

- Review additional documents provided by bidders that are qualifying under an agency agreement, or as foreign entities, or relying on the financial standing of a foreign entity;

- Review with the IE of modifications to credit instruments proposed by bidders (once the IE has redacted the identity of the prospective supplier) to determine whether the modifications are non-material in nature;

- Review with the IE of alternate guaranty forms to determine whether the alternate guaranty form provides the same protection as the standard format of the guaranty under the Uniform SMA;

- Review with the IE of bid security (once the IE has redacted the identity of the bidder and the amount) to determine whether the bid security instruments follow the standard formats or only include approved changes;

- Assist in providing data to the IE for purposes of calculating a reserve price for each residential product;

- Review the Uniform SMA documents and the guaranty (if applicable) prepared for Default Suppliers.

In addition, and assuming the Commission approves the results of a solicitation, the IE will provide PECO with the information necessary to administer the winning contracts, namely the identity of the approved suppliers, the amount that they will supply of each product, and the supplier-specific price for each product (which is the average of the supplier's approved bids for that product).

In addition to the information needed to administer the contracts, PECO will have access to certain additional information to assist in assessing whether the products offered could be improved in future procurement plans and to assist in finalizing its contingency plans should the results of any solicitation be rejected by the Commission. The IE, at the conclusion of each solicitation, will provide PECO with a redacted version of the report it provides to the Commission. The redaction will ensure that PECO does not have access to information concerning losing bids of specific bidders. This redacted report is discussed in more detail in Section XV.C of this Protocol.

The Commission's regulations at §§54.186(c)(5) specifically provide as follows:

> "The bids submitted by a supplier in response to a competitive bid solicitation process shall be treated as confidential pursuant to the

> confidentiality agreement approved by the Commission pursuant to §§ 54.185(D)(6). The DSP, the Commission, and a third party involved in the administration, review or monitoring of the bid solicitation process shall be subject to this confidentiality provision."

IV. Website and Data Room

A website dedicated specifically to the RFP is the most efficient way for the IE to disseminate information to bidders and other stakeholders. An RFP website (www.pecoprocurement.com) was developed during DSP I. The RFP website has been maintained since that time and will be maintained during DSP VI. The main pages of the RFP website will contain DSP VI information. Materials from prior Default Service Programs will be accessible through an "archives" section of the RFP website. The RFP website is public, and anyone can access the site at any time and find any information they require simply by searching the RFP website instead of calling or emailing the IE. No password or login information is required to view the RFP website.

The RFP website contains a section where any visitor may register by submitting information such as name, phone number and email address. Any user who submits an email address will be signed up to receive updates via email from the IE. A registrant who elected to receive email updates during previous Default Service Programs will be sent updates about DSP VI unless the registrant opts out, which the registrant can do at any time.

The RFP website allows stakeholders to download all key documents as soon as these become available. Such documents include the RFP Rules, the Uniform SMA, and the qualification materials that bidders will need to submit (e.g., Proposal forms and standard templates for pre-bid security). These documents for a given solicitation will continue to be posted well in advance of the qualification deadlines. The RFP website also includes a calendar providing the deadlines for each solicitation. A calendar for the current solicitation is also provided in Appendix 0 and Appendix 11 to the RFP Rules, and a general calendar applicable to all solicitations under the DSP is provided in Article II of the RFP Rules.

The RFP website includes a data room to assist bidders in assessing the RFP opportunity. This data room includes data that is useful for bidders in assessing the load associated with each

product, such as historical load by class, switching statistics, etc. Data series are updated once a month.

In addition to allowing bidders to assess their ability to serve different products, the provision of data via the RFP website also has the effect of leveling the playing field for all bidders; without the provision of data, some bidders may have a better idea of the load associated with PECO's customers, and this would put bidders without such familiarity at a competitive disadvantage. Therefore, providing data on an equal basis to all bidders equalizes knowledge across prospective suppliers, and spurs competition in areas where some bidders might not otherwise have the ability to offer competitive bids. This is in keeping with the guiding principles of equality described at the beginning of this protocol.

It is expected that the same data series that were provided in prior Default Service Programs would continue to be provided during DSP VI. The IE did not receive any requests for additional data series that would improve bidders' ability to submit competitive bids. Confidential data can expand the information provided, but at the cost of setting up a password-protected section of the website or of providing data through mailings only to qualified parties, and at the possible cost of monitoring access to the data. At this point in time, PECO does not anticipate the need to provide data on such a confidential basis but will be able to do so if the need arises.

Data are currently updated on or about the 13th day of each month, on an ongoing basis, and PECO will continue this process without interruption between DSP V and DSP VI. Initial data series were first provided on March 27, 2009, including historical data dating back to January 2006. The procedure for the monthly updates of the data series on the RFP website is as follows:

1. PECO provides the updated data to the IE at least three days in advance of the scheduled monthly update;
2. The IE checks the data, ensuring that it is accurate and error-free, contacting PECO if necessary to resolve any issues;
3. The IE posts the updated data series to the RFP website.

The following data are available on the RFP website:

- hourly usage data;
- number of retail customers;

- capacity peak load contribution ("PLC");
- historical monthly retention figures;
- estimated loss factors;
- customer size distributions.

Data may be archived so that the more recent five years of data are more immediately available to stakeholders.

The material on the RFP website will be updated when new content becomes available that would be of use to stakeholders. The process for updating the RFP website and adding new material is as follows:

1. PECO and the IE together prepare the material for posting, ensuring that it is accurate and error-free;
2. The IE posts the new documents to the RFP website;
3. The IE sends an announcement (via email) to registrants informing them of the newly available content on the RFP website.

V. Frequently Asked Questions

The RFP website also contains a web-based form that stakeholders can use to submit questions, and a section where the IE would post questions received and the associated responses, in order to ensure equal distribution of information. This FAQ form is available for all stakeholders to ask questions and receive answers, although in times of high demand, priority may be given to answering questions from prospective suppliers. There are four major steps to the process.

In the first step, the question is received and the IE sends an acknowledgement to the questioner. The acknowledgement serves as a bidder's confirmation that its question has been received, and the acknowledgement will also inform the bidder of the expected turnaround time for an answer, expected to be two business days. In the second step, the IE drafts an answer to the question, consulting PECO for expertise as necessary. If PECO is consulted, the identity of the

entity who has asked the question is not revealed, and any information in the question itself that could potentially identify the questioner is removed before sending to PECO.

Once an answer has been finalized by the IE (and PECO if necessary), the IE sends the final response directly to the questioner. If there is any delay in answering the question, such that the answer cannot be sent before the end of the expected turnaround period, the IE will send a delay notice to the questioner informing it of the delay and of a revised expected turnaround time for the answer. In the final step, questions and answers that were received during the previous week are posted to the Frequently Asked Questions (FAQ) section of the RFP website by the IE.

Posting the questions to the RFP website ensures an equal distribution of information among stakeholders – any information that is conveyed to one party via an answer to a question submitted through the RFP website is then conveyed to all stakeholders in a public manner through the FAQ section of the RFP website. This practice ensures that all bidders have the same information and can compete on an equal playing field. Any question received by a party other than the IE must be sent to the IE for processing – no party other than the IE will directly answer a question from a stakeholder. Because all questions received about the RFP must go through the IE, bidders know that all questions receive the same treatment; as specified in the guiding principles of this RFP Protocol, the IE is the sole interface with bidders.

The FAQ section of the RFP website is updated once per week, allowing for more frequent posts at times of high volume or less frequent posts due to holidays.

VI. Announcements & Communications to Bidders

As specified in Section IV, postings of new information to the RFP website will be followed by an announcement made to all registrants to the RFP website. (The only exception will be for data postings that have been scheduled to occur on the same day each month.) The IE and PECO may also issue announcements to a list of registrants to the RFP website from time to time to remind prospective suppliers of deadlines for a given solicitation under the RFP or to make them aware of events that may impact the bids. Announcements will include the following milestones:

- Initial documents posted
- Part 1 Proposal Window opening & closing
- Bidder Information Webcast reminders
- Part 2 Proposal Window opening & closing
- Bids due
- PaPUC decision on RFP results

The goal of these announcements is to ensure that all bidders and stakeholders are aware of the ongoing progress of a solicitation, and to minimize the possibility that a potential bidder is unable to bid due to a missed deadline.

The IE will also engage in direct marketing to promote the RFP opportunity. Members of the IE team will compile a list of prospective suppliers using publicly available information and contact representatives of these entities or contract with a professional marketing service to contact the representatives to inform them of key dates in the RFP and opportunities for them to gain more information about participation in the RFP, such as bidder information webcasts and the RFP website. All prospective suppliers reached during these marketing calls will receive the same public information.

VII. Communications to the Press and the Media

The IE and PECO may also issue press releases or advertisements in order to promote the RFP opportunity. Information placed in the trade press has the ability to reach prospective suppliers that might not have been contacted otherwise and might not have registered to the RFP website of their own volition; thus, more parties may be made aware of the RFP website, and more participation may be achieved for the bidder information webcasts. The IE and PECO will work together to draft these communications. If the IE and PECO issue a press release, contact information of a team member of the IE will be included in case additional information is required.

PECO may grant interviews to the press or respond to press inquiries concerning the RFP. The interviews and responses to press inquiries are limited to public information regarding the

RFP. PECO may require that the IE, who is to provide support in promotion efforts, participate in interviews and press inquiries. PECO has complete discretion to provide its customers and security analysts with public information regarding the RFP. PECO has complete discretion to provide public information to utilities or regulators from outside Pennsylvania.

The IE will coordinate with PECO's press representatives on all media contacts before the RFP. The IE will coordinate with PECO before granting interviews or commenting on any aspect of the RFP. Notwithstanding this, the IE will answer routine inquiries from the press and will inform PECO of such inquiries (e.g., wanting to know where a document is on the RFP website).

VIII. Bidder Information Webcasts

In addition to the electronic information dissemination methods via the RFP website, email, or through press releases, bidder information webcasts are effective for presenting efficiently and concisely the main elements of the RFP. Such webcasts also have the significant benefit of allowing bidders to ask questions directly of the IE and PECO. The IE and PECO expect that, for each solicitation, there would be a webcast prior to the due date for submission of Part 1 Proposals, and a subsequent training session held for bidders that are qualified to submit a Part 2 Proposal.

Each webcast will be tailored to parties considering participation in the RFP and will cover a broad range of general topics about the opportunity. The aim is to provide a wealth of information quickly, so that potential bidders can evaluate the opportunity. Subject material will consist of the requirements of the RFP, the rules for the submission of Proposals, the general structure of the RFP, the definition of the products available, and a summary of the RFP website and communication channels by which interested parties can obtain further information throughout the process.

The IE will prepare and deliver the presentation of the webcast, with representatives of PECO on hand to answer questions if necessary. The IE will take down all questions asked and answered at the bidder information webcast and post them to the RFP website as Frequently Asked Questions, so that bidders that are unable to attend the bidder information webcast have access to the same information as bidders able to attend. Similarly, the presentation will be available on the RFP website after the bidder information webcast, both as a pdf and as a recording of the audio.

No information about the parties in attendance at the bidder information webcast will be made public.

Shortly before the Bid Date, the IE will hold a training session on the mechanics of submitting bids on the Bid Date. This session will be limited to bidders.

IX. Alternate Guaranty Process

PECO will allow any prospective supplier to submit for consideration an alternate guaranty form that the prospective supplier uses in its normal course of business. A separate and more detailed document about the Alternate Guaranty Process is included as Appendix 2 to the RFP Rules. This document provides the specific minimum requirements of any alternate guaranty form.

The protocol for the processing of a submission under the Alternate Guaranty Process will occur in the following steps:

1. Parties submit alternate guaranty forms by emailing the form and all relevant documentation to the IE (as specified in the Alternate Guaranty Process document).
2. The IE acknowledges receipt of the package by email. The notice includes an assessment of whether all required materials have been received. If there is time before the deadline, a prospective supplier submitting incomplete documentation will be given an opportunity to complete its submission.
3. The IE redacts all information that could identify the prospective supplier submitting the alternate guaranty form and provides the redacted form and other documentation to PECO electronically.
4. PECO evaluates the alternate guaranty package with the assistance of the IE and of outside counsel as necessary.
    a. If the package is acceptable, the IE sends a notice to the prospective supplier informing it of the form's acceptability for use under the Uniform SMA.
    b. If the package is unacceptable, the IE sends a notice to the prospective supplier informing it of what must be changed in order for the package to be acceptable for use under the Uniform SMA.
5. Prospective suppliers that submit revised alternate guaranty packages do so via email.

6. The IE redacts all information that could identify the parties submitting the revised packages and provides the redacted material to PECO electronically.
7. PECO evaluates with the assistance of the IE and of outside counsel as necessary.
    a. If a revised package is acceptable, the IE sends a notice to the prospective supplier informing it of the form's acceptability for use in the RFP.
    b. If a package is unacceptable, the IE sends a notice to the prospective supplier informing it of the form's final rejection for use in the RFP and the reasons for the rejection.
8. Accepted forms are kept on file by the IE, as they will be acceptable for use in future solicitations under the RFP.
9. A prospective supplier submits the executed alternate guaranty form and the signed enforceability opinion with the Part 2 Proposal.

An alternate guaranty form approved through this process will be acceptable to PECO. This alternate guaranty form may be used for purposes of the solicitation during which it is approved and may be used for the course of DSP VI barring changes in the applicable law or changes to the RFP process as may be ordered by the PaPUC. Suppliers that had alternate forms of guaranty approved during a prior Default Service Program will be required to resubmit their materials.

X. Processing of Proposals

A Proposal consists of three (3) parts. The Part 1 Proposal is the bidder's response to the qualification standards described in Article IV of the RFP Rules. Bidders that qualify pursuant to a successful Part 1 Proposal may submit the second part, the Part 2 Proposal. The Part 2 Proposal, described in detail in Article V of the RFP Rules, includes financial support for the bidder's bids. Bidders that present a successful Part 1 Proposal and Part 2 Proposal may submit the third part of the Proposal, which consists of the bidder's bids.

Part 1 and Part 2 Proposals are received and processed by the IE, with certain specified decisions and evaluations made by PECO with the assistance of the IE. The IE is the main party responsible for processing the Proposals and bids. This section lays out the step-by-step procedures to be followed and time periods for each action to be taken.

Prospective suppliers submit Part 1 Proposals during the Part 1 Window. Any information provided by a bidder in its Part 1 Proposal is provided on a confidential basis to the IE and may be provided on a confidential basis to PaPUC Staff. PECO representatives and the IE will review the information provided to fulfill the financial requirements under the Uniform SMA. PECO representatives and the IE will review draft documents provided to comply with specific requirements for bidders submitting a Proposal under an agency agreement, and draft documents provided to comply with specific requirements for foreign bidders or for bidders relying on the financial standing of a foreign entity.

Bidders submit Part 2 Proposals during the Part 2 Window. Bidders may also provide the representations and certifications required by the online Part 2 Form during the Part 1 Window for early processing. Any information provided by a bidder in its Part 2 Proposal is provided on a confidential basis to the IE and may be provided on a confidential basis to PaPUC Staff. PECO representatives review the pre-bid letter of credit with the name of the bidder and the amount redacted and will participate in the evaluation of the pre-bid letter of credit. PECO representatives and the IE determine the sufficiency of documents provided to comply with specific requirements for bidders applying under an agency agreement, and documents provided to comply with specific requirements for foreign bidders or for bidders relying on the financial standing of a foreign entity.

The IE provides all notifications by email and documents by secure file transfer to the bidder's designated representative and up to three (3) additional individuals. The IE may also communicate with the named officer.

X.A. Part 1 Proposals

In the Part 1 Proposal, applicants submit basic information, such as the name of the prospective supplier and contact information. The officer of the bidder named in the Part 1 Proposal will designate a representative as a point of contact for purposes of the RFP and will make a number of certifications regarding its participation in the RFP as well as provide information required by the Part 1 Proposal. A bidder may designate up to three (3) additional individuals who are authorized to act on behalf of the bidder and who receive all correspondence from the IE.

X.A.1. Receipt and Processing of Part 1 Proposals

- All materials for the Part 1 Proposals must be received by 12 PM (noon EPT) on the Part 1 Date.

- The Part 1 Proposal includes the completed Part 1 Form as well as one (1) copy of all documents required by the Part 1 Form. The Part 1 Form will be available online for bidders to complete through an online Proposal website. The online Proposal website will only be accessible to suppliers that have requested an online account and have been provided login credentials by the IE.

- Any documents required by the Part 1 Proposal other than the Part 1 Form must be submitted electronically either by email to the IE at pecoprocurement@nera.com or by upload to the online Part 1 Form.

- When a bidder submits the online Part 1 Form, the IE receives an email from the online Proposal website that indicates that a submission has been received. The email provides the username associated with the submission. The IE will lock the bidder out of the form so that no further changes are possible to the submitted information while such information is under review. The IE will access the submission through the administrative interface of the online Proposal website. The submission will be downloaded and saved on a secure network accessible only by the IE. The submission will also be saved to a portable medium such as an encrypted USB flash drive and stored off-site for at least four years after the conclusion of the current default service program.

- If the Part 1 Proposal is received by the IE before noon on any business day during the Part 1 Window, the IE will send an acknowledgment confirming receipt on the day the Part 1 Proposal is received with the results of an initial review. If a Part 1 Proposal arrives after noon on any business day during the Part 1 Window prior to the Part 1 Date, the IE will send the acknowledgment along with the initial review by noon of the next business day.

- The IE's initial review will include a determination of the completeness of the Proposal. The initial review will state either that the Part 1 Proposal is complete and is being considered, or the initial review will list items of the Part 1 Proposal that are deficient or require clarification. If the Proposal is deficient or requires clarification, once a review is sent, the IE will restore access to the online Part 1 Form for the bidder.

- If the Proposal is missing information, or requires clarification, a communication listing all information and documents required to complete the Proposal will be prepared by the IE and sent to the bidder.

    - The bidder has until noon on the Part 1 Date, or until 6 PM on the business day following the business day during which such a notice is sent to the bidder, whichever comes later, to respond.

    - If the information and documents required to remedy deficiencies are submitted within the time allowed, the IE reconsiders the Proposal.

    - If the required information is not submitted within the time allowed, the Proposal is incomplete. The Part 1 Proposal will be rejected and the IE will send a rejection notice to the bidder by email.

- The Part 1 Proposal allows the bidder to submit non-material modifications to the credit instruments, namely the standard form of the pre-bid letter of credit, the standard form of the letter of credit appended to the Uniform SMA, and the standard format of the guaranty. If such a submission is received:

    - The IE will redact identifying information from the document and provide the redacted version to PECO for review.

    - PECO and the IE will evaluate the submission.

    - The IE will communicate the results of the review to the bidders in the specified timeframe.

- All such modifications related to a particular credit instrument will be posted in a single document on the RFP website.

- To the extent that they remain applicable, modifications that were acceptable in previous Default Service Programs will remain acceptable during DSP VI. A document containing all such modifications will be posted to the RFP website in advance of the first solicitation under DSP VI.

- Bidders submitting a Proposal under a number of specific special circumstances are requested to submit additional documents with their Part 2 Proposals. Any such bidder can submit draft documents with its Part 1 Proposal. These include bidders submitting a Proposal under an agency agreement, foreign bidders, and bidders relying on the financial standing of a foreign entity. The IE will take the following steps for the evaluation of any such documents.

  - The IE will redact identifying information from the document and provide the redacted version to PECO for review.

  - PECO will review the document with the assistance of the IE and the IE will communicate the results of the review to the bidder with the Part 1 Notification.

- The financial documents submitted by all bidders that accompany the Part 1 Proposals will be provided to PECO. PECO representatives will be provided with the information they need to make the creditworthiness evaluation on the Part 1 Date. It is expected that the creditworthiness evaluation will take no more than a day. The following steps will occur:

  - The IE will provide to PECO a spreadsheet that contains the names of the applicants and their guarantors;

  - PECO will make a determination of the creditworthiness of the applicants and their guarantors, with the IE's assistance;

- The credit assessment of the applicants and their guarantors is entered into the spreadsheet.

X.A.2. Notification for Part 1 Results

- For each prospective supplier that qualifies under the requirements of the Part 1 Proposal, the IE will send a Part 1 Notification regarding their qualification status. This letter also details the creditworthiness assessment.

- With the initial notification, the IE sends by secure file transfer the Part 1 Materials: (i) the Bid Form and instructions for submission of bids; (ii) instructions for filling out and encrypting the Bid Form; (iii) instructions for the electronic transfer of the completed Bid Form from the bidder to the IE; (iv) instructions for submission of the bids in case of technical difficulties with the electronic transfer; (v) invitation to a training session on the bid submission process; and, (vi) a username, a password, and security codes to be used for bid submission uniquely by that bidder.

X.B. Part 2 Proposals

In the Part 2 Proposal, bidders fulfill the requirements specified in Article V of the RFP Rules, including providing financial support for the bidder's bids.

X.B.1. Receipt and Processing of Part 2 Proposals

- All materials for the Part 2 Proposals must be received by 12 PM (noon EPT) on the Part 2 Date. Bidders also have the option to submit the certifications required with the Part 2 Proposal during the Part 1 Window for early processing.

- The Part 2 Form is submitted online through an online Proposal website. The Part 2 Proposal includes the completed Part 2 Form submitted online and an executed Pre-Bid Letter of Credit submitted as an electronic PDF file via electronic means to the IE.

- Bidders submitting a Proposal under an agency agreement, foreign bidders, and bidders relying on the financial standing of a foreign entity submit additional

documents as specified in Article V of the RFP Rules. Any additional documents required by the Part 2 Proposal must be submitted electronically either by email or by upload to the online Part 2 Form.

- When a bidder submits the online Part 2 Form, the IE receives an email from the online Proposal website that indicates that a submission has been received. The email provides the username associated with the submission. The IE will lock the bidder out of the form so that no further changes are possible to the submitted information while such information is under review. The IE will access the submission through the administrative interface of the online Proposal website. The submission is downloaded and saved on a secure network accessible only by the IE. The submission will also be saved to a portable medium such as an encrypted USB flash drive and stored off-site for at least four years after the conclusion of the current default service program.

- If the Part 2 Proposal is received by the IE before noon on any business day during the Part 2 Window, the IE sends the acknowledgment confirming receipt on the day the Part 2 Proposal is received with the results of an initial review. If a Part 2 Proposal arrives after noon on any business day during the Part 2 Window prior to the Part 2 Date, the IE sends the acknowledgment along with the initial review by noon of the next business day.

- The electronic PDF file of the executed Pre-Bid Letter of Credit is saved on a secure network accessible only by the IE.

- The IE's initial review of the Proposal makes a determination on the completeness of the Proposal. The initial review states either that the Part 2 Proposal is complete and is being considered, or the initial review lists items of the Part 2 Proposal that are deficient or require clarification.

- Review of the pre-bid letter of credit as well as documents provided for bidders submitting a Proposal under an agency agreement, as foreign bidders, or while

relying on the financial standing a guarantor may be part of an initial review or may be provided separately the next business day.

- If the Proposal is missing required information, or requires clarification, a communication listing all information and documents required to complete the Proposal is prepared by the IE and sent to the bidder:
    - With the exceptions noted below, the bidder has until noon on the Part 2 Date, or until 6 PM on the business day following the business day during which such a notice is sent to the bidder, whichever comes later, to respond.
    - For deficiencies related to the pre-bid letter of credit, documents provided to comply with specific requirements for bidders applying under an agency agreement, or documents provided to comply with specific requirements for foreign bidders or for bidders relying on the financial standing of a foreign entity, the bidder will have until noon on the Part 2 Date, or until 6 PM on the second business day following the business day during which the bidder is notified, whichever comes later, to respond.
    - The IE will restore the bidder's access to the online Part 2 Form to allow the bidder to remedy the deficiencies to the submitted information.
- If the information and documents required to remedy deficiencies are submitted within the time allowed, the IE reconsiders the Proposal.
- If the required information and documents are not submitted within the time allowed, the Proposal is incomplete. If the Part 2 Proposal is rejected, the IE sends a rejection notice to the bidder by email.
- All bidders submit an executed pre-bid letter of credit with their Part 2 Proposals. PECO reviews the pre-bid letter of credit to ensure that it either uses the standard form or that it includes only approved modifications. The following steps will occur:

- IE redacts all information that could identify the applicant and the amount prior to providing it electronically to PECO for review.

- PECO will check that the forms of the pre-bid letters of credit are acceptable with the assistance of the IE. The IE and PECO undertake a daily review, and conference call if necessary, during the Part 2 Proposal Window to review the pre-bid letters of credit as they arrive.

- If the pre-bid letter of credit requires revision, the IE prepares a deficiency notice informing the bidder of how its pre-bid letter of credit is deficient and what it must do to remedy the deficiencies. This notice to the bidder is sent by via email.

- If a new/amended pre-bid letter of credit is submitted, the IE confirms whether the new pre-bid letter of credit follows the instructions of the deficiency notice. The IE consults PECO as needed by conference call. If the new pre-bid letter of credit does not follow the requirements, the bidder will receive an additional deficiency notice as long as time remains for the bidder to remedy the deficiencies. If no time remains, the bidder will not be allowed to submit bids.

- Bidders in special circumstances provide additional documents with the Part 2 Proposal. This is the case for bidders applying under an agency agreement, documents provided to comply with specific requirements for foreign bidders, and for bidders relying on the financial standing of a foreign entity. The sufficiency of these documents is evaluated by PECO and the IE. For each of these documents submitted:

  - The IE and PECO meet daily as needed via conference call during the Part 2 Proposal Window to evaluate these documents as they arrive. PECO and IE determine the sufficiency of the documents provided.

- If a document requires revision, the IE prepares a deficiency notice informing the bidder of how such document is deficient and what it must do to remedy the deficiencies. This letter is sent by email to the bidder.

- If a bidder had submitted a draft of these documents with its Part 1 Proposal for review and if the bidder conforms these documents submitted with the Part 2 Proposal to the review provided during the assessment of the Part 1 Proposal, then these documents will automatically be considered sufficient.

- If a new/amended document is submitted, the IE confirms whether the new document follows the requirements of the deficiency notice. The IE consults PECO as needed by conference call. If the new document does not follow the requirements, the bidder is not allowed to submit bids, or is not granted unsecured credit under the terms of the Uniform SMA, or is not allowed to rely on the financial standing of the guarantor.

X.B.2. Notification for Part 2 Results

A bidder that submits a Part 2 Proposal will be notified whether it has qualified to submit bids no later than 6 PM on the Part 2 Notification Date. This Part 2 Notification letter will be sent to the bidder by secure file transfer.

XI. Transmitting Confidential Information

At various times throughout the RFP process, it will be necessary for the IE to communicate certain highly confidential information to RFP Bidders. This section specifies the methods by which such information will be transferred. These protocols are used when information designated as highly confidential information must be transmitted; they are not used in the course of standard Proposal-related communication such as deficiency and complete notices. Any communication containing any of the following items is designated as highly confidential:

- Bidding results
- Login information for the secure file transfer system
- Bidder-specific load caps

- Part 1 and Part 2 Notifications

XI.A. Email & Secure File Transfer

When sending highly confidential communications to bidders, the IE will observe the following protocols:

- Communications with information regarding a bidder's participation in the RFP will only be sent to the representatives designated in the Proposal forms.

- If confidential information is sent as an attachment via email, the email will include a note in the text of the communication informing the recipient of the purpose of the email and instructing the recipient to destroy the email and its attachment without reading or retaining them if the email has been received in error.

- Communications with confidential information will be checked by at least two members of the IE Team before being sent to ensure that the recipients are correct and that the correct file for that bidder has been attached or transmitted via the secure file transfer system.

XII. Bid Submission Training

The IE will hold a training session for bidders to practice the bid submission process prior to the submission of bids. The principle of the training is to familiarize all bidders with the step-by-step procedure to submit bids so that they can be sure they understand the process in advance of the actual Bid Date, allowing them to submit their actual bids without being hampered by technical difficulties or procedural questions. The training session is scheduled to occur early during the Part 2 Proposal Window and will allow only potential bidders that have submitted successful Part 1 Proposals to familiarize themselves with the process by which they will be allowed to submit bids pursuant to successful Part 2 Proposals.

The IE will conduct the training exactly as it would on the Bid Date, except that bids submitted through the training exercise will not be binding in any way. PaPUC Staff may monitor

the training exercise. PECO is not involved in the bidder training but may participate in a separate mock trial with the IE so as to understand the bid submission process.

The training exercise will occur as follows:

1. Bidders will be provided with information on how to participate in the training with their Part 1 Notifications, including information for the electronic transfer of the Bid Form specific to the training;

2. Bidders will fill out, encrypt[1], and transfer electronically their Bid Forms to the IE using the system that will be employed on the actual Bid Date, and during a specific timeframe set aside for the training;

3. The IE will receive, decrypt and evaluate the submitted forms for completeness as it would on the actual Bid Date;

4. The IE will contact the bidders to inform them of the receipt of their practice Bid Forms, and whether or not the forms were filled out properly;

5. Bidders wishing to practice submitting bids using a backup method will be afforded the opportunity to do so.

XIII. Market Report

The market report will be provided one week to ten days in advance of the Bid Date to the PaPUC on a confidential basis. This report would provide visible market prices for components of the full-requirements product and provide the PaPUC with any changes in broad trends in the wholesale markets since the previous solicitation. If appropriate, the market report could also report the results of similar solicitations held in the State or in a comparable region. This report would also include a reserve price for each of the products available for the residential class. The reserve price will be calculated on the basis of the best available market data relevant to the PECO

[1] Encryption is optional, but bidders will be encouraged to practice the encryption method and to use it on the Bid Date. The Independent Evaluator will verify the identity of bidders that submit unencrypted bid forms using the bidder-specific confidential information provided with the Part 1 Notification.

zone and supply period and will be updated on the bid date and provided to the PaPUC in the IE's confidential report.

XIV. Bid Processing

A bidder's bids must be received between 10 AM and 12 PM (noon) on the Bid Date. The Bid Form, as provided to each bidder along with its Part 1 Notification, is the exclusive method for the submission of bids. The RFP Rules are the governing document regarding the processing of bids on the Bid Date. The steps of the process are as follows:

- The Bid Form must be filled out completely, encrypted (optional), and transferred according to the instructions provided by the IE.

- A bidder submits its bids electronically, by transferring a Bid Form through a secure file transfer system. The bidder must use a username and a password to access the secure file transfer system. The bidder must either use the security code provided by the IE to encrypt its Bid Form or provide the security code over the phone if the Bid Form is not encrypted. A bidder can email the IE to ask for confirmation of the IE's receipt of the Bid Form.

- The primary backup method for submitting the Bid Form is by email. A bidder that submits the Bid Form by email will be informed that the IE recommends that the Bid Form be encrypted. A bidder that must resort to submitting its Bid Form by email because of technical difficulties must follow the instructions provided by the IE for this contingency. These instructions will include a representative of the bidder emailing or texting the IE to advise the IE of technical difficulties. If a Bid Form submitted via the backup method is not encrypted with the security code, the bidder must provide the security code over the phone to the IE.

- The IE checks the Bid Form received for completeness and consistency with the requirements of the RFP, including a verification that the pre-bid letter of credit is sufficient to cover the bids of each bidder. The IE contacts each bidder with the evaluation of the Bid Form within 30 minutes of receipt of the Bid Form.

- If the Bid Form is complete and consistently filled out, the IE acknowledges receipt of the Bid Form and states to the bidder that the Bid Form is complete and consistent with the RFP Rules.

- If the Bid Form received by the IE is incomplete or inconsistent, the IE acknowledges receipt of the Bid Form but advises the bidder of the information that must be added or modified. If a complete and consistently filled out bid form is not received by the deadline, the bids will not be evaluated.

    - In the case where the IE provides the evaluation of a Bid Form with at least ten minutes left in the Bid Window, if the Bid Form is incomplete or inconsistent with the RFP Rules, or if the Pre-Bid Letter of Credit is insufficient to support the number of tranches bid by the bidder, then the bidder may correct and resubmit that Bid Form as long as it is received between 10 AM and 12 PM (noon) on the Bid Date.

    - In the case where the IE provides the evaluation of a Bid Form with less than ten minutes left in the Bid Window, or after the Bid Window has closed, the following will apply. If the Bid Form is incomplete or inconsistent with the RFP Rules, or if the Pre-Bid Letter of Credit is insufficient to support the number of tranches bid by the bidder, the bidder will have ten minutes to resubmit the Bid Form strictly for the purpose of addressing the deficiencies identified by the IE. Only one such resubmission will be considered. The IE will reject a resubmitted Bid Form that modifies bids that were consistent with the RFP Rules as originally submitted.

    - If the Pre-Bid Letter of Credit is insufficient to support the number of tranches bid by the bidder and the bidder does not correct for this

by the deadline, the IE will modify the Bid Form as specified in the RFP Rules.

- Members of the IE communicating with bidders during the submission procedures use a script so as to minimize any disparity of information provided to bidders.

- The bids supported by an adequate Pre-Bid Letter of Credit will be evaluated on a price-only basis. The bids for each product will be ranked from lowest to highest price until all bids are ranked or until the number of bids that are ranked equals the number of tranches available for the product.

- The IE phones each bidder that has submitted bids by 3 PM on the Bid Date and identifies the bidder's bids that are being identified to the PaPUC as lowest-priced bids. The IE also identifies the bidder's lowest-priced bids that the IE will be recommending for approval by the Commission in its confidential report.

- If two or more bidders submit bids that are identical for a product, these bids will be considered "Tied Bids" at that price. The IE will use the tie-breaking procedure described in the RFP Rules.

The IE communicates with PECO and provides the average winning price for each product, whether the solicitation has purchased all available tranches, and whether the IE has recommended approval for the lowest-priced bids. PECO will not have information regarding any bidder's specific bids.

XV. Post-Bid Procedures

XV.A. Post-Bid Meeting with PECO

To facilitate the timeline for the execution of contracts, the IE will provide to PECO certain information about the results of bidding prior to the PaPUC decision on a confidential basis. All recipients of this information will have signed the Confidentiality Statement and will treat such information as highly confidential. All recipients of the information will be advised of its confidential nature and that it is preliminary, subject to approval by the PaPUC.

The information provided to PECO will include:

- The number of tranches of each product that were filled;
- The weighted average winning bid price of each product;
- The names of bidders that submitted Part 1 and Part 2 Proposals;
- Whether the IE recommended approval of the lowest-priced bids.

XV.B. PaPUC Decision

The IE will present the results of each solicitation to the PaPUC by 8 AM on the day immediately following the Bid Date in a confidential report. This confidential report will include the lowest-priced bids determined during the evaluation as well as a recommendation from the IE on whether or not the lowest-priced bids should be approved. Following the submission of the report by the IE:

- The PaPUC will have one (1) business day to consider the report of the IE and to approve or reject each of the winning bids. If the PaPUC does not act within one (1) business day, the winning bids are deemed to be approved.

- The IE will notify all bidders that had lowest-priced bids. The IE provides to PECO the name of each approved supplier, and for each such supplier, the number of tranches won by the supplier and the supplier-specific price for each product. The supplier-specific price for a given product is the average of the supplier's approved bids for that product.

- PECO is not provided with information concerning losing bids.

XV.C. Provision of Redacted Final Report to PECO

To assist PECO in assessing whether the products offered could be improved in future procurement plans and to assist it in finalizing its contingency plans should the results of any solicitation be rejected by the Commission, the IE will provide PECO with certain additional information. Namely, PECO will be provided with a redacted version of the factual report provided to the Commission on the results of the solicitation. The report will be redacted so that PECO will not receive information about bids that is bidder-specific or Proposal information that

a bidder may consider confidential or proprietary. The report will be provided at the conclusion of the solicitation, namely when all contracts with winning suppliers that are approved by the Commission have been executed.

Any bidder-specific information that is not relevant to PECO's assessment of the products offered or to its contingency plan will be redacted to the extent that the bidder could reasonably believe such information to be confidential. Analysis of the bidding data that provides an overview of the competition or summary statistics for the entire pool of bidders will not be redacted. The IE expects items that will be redacted to include:

- The identities of losing bidders that submitted bids and the particular products for which losing bidders submitted bids;
- The bid prices of individual tranches won by each bidder;
- Information concerning specific losing bids;
- The identities of bidders that did or did not participate in the bidder training session to practice the online submission of bids; and
- Deficiencies in the Proposals of certain bidders or difficulties with the submission of practice or actual bids, to the extent that such deficiencies were cured and or such difficulties did not materially impact the results of the solicitation.

XV.D. Preparation of Uniform SMA Documents by the IE

The IE will prepare the Uniform SMA for each New Default Supplier and the guaranty for each Default Supplier that is relying on the financial standing of an RFP Guarantor in accordance to the timeline provided below.

- On the Bid Date, the IE will contact bidders that have bids that are identified to the PaPUC as lowest-priced bids and did not provide the necessary information to prepare the Uniform SMA with the Part 1 Proposal. These bidders are instructed to provide the required information by 12 PM (noon) on the following business day.
- On the day the Commission approves some or all of the lowest-priced bids, the IE sends to PECO by secure file transfer the Uniform SMA, including all exhibits, for each New Default Supplier, the guaranty for each New Default Supplier relying on the financial standing of a Guarantor, transaction confirmations for each product

and Default Supplier, and the most current contact information that the IE has for each Default Supplier.

XV.E. Execution of Uniform SMA Documents and Transaction Confirmations

PECO and each Default Supplier will execute the Uniform SMA documents and transaction confirmations in accordance with the schedule provided below

- By 12 PM on the second business day following the Commission approval of some or all of the lowest-priced bids, PECO sends by email:
    - An electronic version of the partially executed Uniform SMA, including all Exhibits, to each New Default Supplier;
    - An electronic version of the partially executed Transaction Confirmation to each Default Supplier for each product for which the Default Supplier has won tranches; and
    - An electronic version of the guaranty (if necessary) to each New Default Supplier relying on the financial standing of an RFP Guarantor.
    - PECO also informs each Default Supplier of its specific creditworthiness requirements.
- By 2 PM on the third business day following Commission approval of some or all of the lowest-priced bids:
    - Each New Default Supplier partially executes the Uniform SMA using an acceptable signature and returns an electronic version to PECO by email;
    - Each Default Supplier partially executes the Transaction Confirmation(s) using an acceptable signature and returns an electronic version to PECO by email; and

- Each New Default Supplier relying on the financial standing of an RFP Guarantor executes the guaranty using an acceptable signature and returns an electronic version to PECO.

- By close of the third business day following Commission approval of some or all of the lowest-priced Bids, each Default Supplier complies with all instructions from PECO to fulfill the creditworthiness requirements under the Uniform SMA.

XV.F. Return of Pre-Bid Security

The IE plans to release the pre-bid letters of credit for all bidders no later than six (6) business days after the Bid Date. To ensure that the signed certificates of cancellation are returned to the bidder's bank as quickly as possible, the certificates of cancellation will be signed by PECO in advance of when the pre-bid letter of credit must be released and held by the IE. The time of release will depend on whether or not the bidder has won any products at the RFP and on the PaPUC's decision:

- If the Commission does not approve any of a particular bidder's bids, the IE will release that bidder's pre-bid letter of credit within three (3) business days after the Bid Date.

- If the Commission approves any of a particular bidder's bids, the IE will release that bidder's pre-bid letter of credit as soon as practical and no later than six (6) business days after the Bid Date.

    - PECO will notify the IE as soon as an approved supplier has returned the executed Uniform SMA and Transaction Confirmation.

    - The prompt return of bid security will also be conditioned upon the bidder not having violated any undertakings agreed to as part of the RFP.

ARTICLE I. INTRODUCTION

I.1. Overview

I.1.1. Capitalized terms in this document, which are not defined explicitly herein, are defined in the PECO Energy Company - Pennsylvania Default Service Supplier Master Agreement ("Uniform SMA" or "SMA"). The Uniform SMA is attached as Appendix 1 to this document.

I.1.2. As part of its ~~fifth~~sixth Default Service Plan ("DSP ~~V~~VI"), PECO Energy Company ("Company" or "PECO") is proposing a competitive bidding process to obtain full requirements supply for the Company to meet a portion of its obligations as Default Service Provider pursuant to Chapter 28 of the Pennsylvania Public Utility Code, 66 Pa. C. S. §§ 2801-2812. This competitive bidding process is consistent with Chapter 28, with P.L. 1592 No. 129 ("Act 129"), with the Pennsylvania Public Utility Commission's ("Commission" or "PaPUC") Default Service regulations in its Final Rulemaking Order in Docket No. L-2009-2095604, and the Commission's Final Policy Statement on Default Service in Docket No. M-2009-2140580.

I.1.3. PECO currently provides electric generation service to all customers within its service territory who do not select an electric generation supplier ("EGS"). Such customers are "Default Service customers" or "DS Customers". The competitive bidding process would procure supply for the period beginning June 1, ~~2021~~2025 when PECO's ~~fourth~~fifth Default Service Plan ("DSP ~~IV~~V") expires.

I.1.4. The competitive bidding process will be conducted through a series of Requests for Proposals ("RFPs") issued twice yearly. The RFP consists of a total of fourteen (14) documents. This main document is called the "RFP Rules" and it describes generally how the RFP will be conducted. Prior to each solicitation, an "Addendum to the RFP Rules" will be issued and it will provide information relevant to that solicitation such as the schedule and products to be procured. The following documents are appended to, and shall be considered an integral part of, the RFP Rules:

Appendix 0: Addendum to the RFP Rules
Appendix 1: Uniform SMA
Appendix 2: Alternate Guaranty Process
Appendix 3: Illustrative Standard Part 1 Form
Appendix 4: Illustrative Short Part 1 Form
Appendix 5: Chief Financial Officer Attestation
Appendix 6: Officers' Certificate (for RFP Bidders under an Agency Agreement)
Appendix 7: Illustrative Standard Part 2 Form

Appendix 8: Illustrative Short Part 2 Form
Appendix 9: Standard Pre-Bid Letter of Credit
Appendix 10: Sample Bid Form
Appendix 11: Tentative Schedule for Future Solicitations
Appendix 12: Confidentiality Statement

I.1.5. DSP ~~V~~VI plans for the procurement of full requirements supply for three (3) "Classes" of Default Service customers: the Residential ("RES") Class, the Small Commercial ("SC") Class, and the Consolidated Large Commercial and Industrial ("CCI") Class. Each such Class (or "DS Customer Group") is a group of specific rate schedules as provided in the following table:

Table I-1. Customer Classes.

Class	Customers Included	Rate Schedule	Description
Residential	All residential customers	R	Residence Service
		RH	Residential Heating Service
Small Commercial	Non-residential customers with Peak Load Contribution up to and including 100kW and lighting customers	GS	General Service
		HT	High-Tension Power
		PD	Primary – Distribution Power
		AL	Alley Lighting in City of Philadelphia
		TLCL	Traffic Lighting Constant Load Service
		POL	Private Outdoor Lighting
		SL-C	Smart Lighting Control Lighting Customer Owned Facilities
		SL-E	Street Lighting Customer-Owned Facilities
		SL-S	Street Lighting-Suburban Counties
Consolidated Large Commercial and Industrial	Non-residential customers with Peak Load Contribution greater than 100kW	GS	General Service
		HT	High-Tension Power
		PD	Primary –Distribution Power
		EP	Electric Propulsion

I.1.6. For the RES and SC Classes, the Company will solicit bids for the procurement of full requirements service on a fixed-price basis. For the CCI Class, the Company will solicit bids for the procurement of full requirements service with energy priced to the PJM day-ahead spot market. The Default Service supply ("Default Supply" or "DS Supply") for a Class is the full requirements electricity supply based on the load of the retail customers in that Class measured and recorded by the Company and settled by PJM. The load of the Default Service customers in a Class is the "Default Load" or "DS Load" of that Class. A supplier selected through the competitive bidding process under DSP ~~V~~VI to provide Default

Supply for a particular Class and approved by the Commission becomes a "Default Supplier" or "DS Supplier" for that Class.

I.1.7. A Default Service customer may choose to begin receiving service from an EGS on the customer's meter reading date in accordance with the Company's standard switching requirements as described in the Company's Electric Generation Supplier Coordination Tariff including, without limitation, prior advance notice to the Company. A customer served by an EGS may return to Default Service on the customer's meter reading date in accordance with the Company's standard switching requirements as described in the Company's Electric Generation Supplier Coordination Tariff including, without limitation, prior advance notice to the Company.

I.1.8. There are eight (8) "solicitations" or "DS Solicitations" under DSP ~~V~~VI that will select electricity suppliers to provide Default Supply for the period June 1, ~~2021~~2025 through May 31, ~~2025~~2029 and for a portion of the Company's requirements for the RES Class and SC Class for the period beyond June 1, ~~2025~~2029. Each solicitation will be identified by the month and year in which the Bid Date occurs. Solicitations will be held in March and September of each year, starting with a solicitation in March ~~2021~~2025 and ending with a solicitation in September ~~2024~~2028. A typical schedule for a solicitation is provided in Paragraph II.2.1. For each solicitation, the Addendum to the RFP Rules will be updated to include the dates for that solicitation and to refer to the particular products to be procured in that solicitation. The Independent Evaluator and the Company may advise the Commission to postpone or modify the schedule of a solicitation when market conditions are impacted by extraordinary events, such as the advent of war, terrorism, or an act of God.

~~I.1.9.~~~~I.1.1.~~ Standard~~These RFP Rules may be updated to reflect additional decisions by the Commission, relevant changes in law, or non-material modifications to the processing of Proposals expected to improve potential participation by suppliers. Additionally, the Independent Evaluator and the Company may amend the RFP Rules if necessary to correct typographical errors, cure inconsistencies in the provisions of this RFP, or clarify the intent of the provisions of this RFP.~~

~~I.1.10.~~I.1.9. ~~The~~ rates of Default Service customers for a Class are determined on the basis of the prices determined through this RFP for that Class~~, except for approximately 1% of the Default Load of the RES Class, for which PECO assumes responsibility. PECO acquires the necessary supply through PJM-~~

~~administered markets and obtaining sufficient Alternative Energy Credits ("AECs") at market prices to satisfy any near-term obligations under the AEPS Act.~~ . As provided in the Commission's directive dated October 12, 2010 (Docket No. M-2009-2082042), PECO provides a Default Service rate calculation model that translates the prices determined through this RFP into Default Service rates. This calculation model is posted to the PECO website:

https://www.peco.com/MyAccount/MyService/Pages/ElectricPricetoCompare.aspx

I.1.10. Except for customers who participate in PECO's Customer Assistance Program, default service customers in the Residential and Small Commercial Classes can elect a time of use ("TOU") default service rate. Under this option, a customer: 1) pays a higher rate for peak usage (2 PM through 6 PM each week day) compared to the standard default service rate; 2) receives a discount off the standard default service rate during super off-peak hours (12 AM to 6 AM each day); and 3) receives a smaller discount in all other hours.

I.1.11. The rates for the Residential Class are also determined on the basis of the cost to PECO to acquire the necessary supply through PJM-administered markets to serve 0.8% of the Default Load of the RES Class. For this portion of the RES Class, PECO acquires sufficient Alternative Energy Credits ("AECs") at market prices to satisfy any near-term obligations under the AEPS Act. PECO also receives an annual allocation of capacity and associated energy from the New York Power Authority and uses this allocation to offset the amount of supply needed for the RES Class.

I.1.12. These RFP Rules may be updated to reflect additional decisions by the Commission, relevant changes in law, or non-material modifications to the processing of Proposals expected to improve potential participation by suppliers. Additionally, the Independent Evaluator and the Company may amend the RFP Rules if necessary to correct typographical errors, cure inconsistencies in the provisions of this RFP, or clarify the intent of the provisions of this RFP.

I.2. Products and Bids

~~I.1.11.~~I.2.1. Default Load for each Class is divided into tranches. A tranche for a Class represents a fixed percentage of the Default Load for that Class. A Default Supplier serving a tranche in a particular

Class provides full requirements service for the percentage of that Class' Default Load represented by that one (1) tranche for a specified period.

~~I.1.12.~~I.2.2. The total number of tranches of Default Load is based on that Class' annual Peak Load Contribution ("PLC") on the PECO system in accordance with PJM. The MW-Measure is calculated as the annual PLC for the Default Load of the Class divided by the total number of tranches. This figure is calculated for reference purposes only.

~~I.1.13.~~I.2.3. Each Class has "Load Caps", which are limits on the number of tranches of Default Supply that an RFP Bidder can bid and serve for that Class. The Load Caps ensure that there will be a diversified pool of Default Suppliers for each Class. The Load Caps for ~~a Class~~the Residential and Small Commercial Classes are set so that the Default Service customers of that Class have no more than a 50% exposure to any one Default Supplier at any given time. The Load Cap for the Consolidated Large Commercial and Industrial Class is set so that the Default Service customers of that Class have no more than a 75% exposure to any one Default Supplier at any given time. If two or more Default Suppliers are affiliated, the Load Caps will apply jointly to such group of Default Suppliers.

~~I.1.14.~~I.2.4. The total number of tranches, Load Caps, and the percentage size of each tranche to be procured under DSP ~~V~~VI are shown in the table below. The Total Peak (MW), Default Peak (MW), and MW-Measure of each tranche are updated for each solicitation and will be provided in the Addendum to the RFP Rules.

Table I-2. Number of Tranches and Size of a Tranche for Default Load.

Class	Total Tranches	Load Cap	% Size of a Tranche
RES	62	31	1.60%
SC	24	12	4.17%
CCI	8	~~4~~6	12.50%

~~I.1.15.~~I.2.5. The total number of tranches and the tranche size for the SC and CCI Classes are subject to change. The Independent Evaluator and PECO may revise the total number of tranches for a Class if doing so is expected to increase supplier interest. The Independent Evaluator informs Commission Staff of such a revision and announces the revision to suppliers in advance of suppliers presenting their qualifications.

~~I.1.16.~~I.2.6. The actual Default Load for the RES, SC, or CCI Class will depend upon many factors including, but not limited to, customer migration to EGSs and weather conditions. The maximum peak load of a Class may be higher or lower than the PLC utilized to determine the MW-Measure of tranches for that Class. Each participant is responsible for evaluating the uncertainties associated with Default Service Load for a particular Class and supply period.

~~I.1.17.~~I.2.7. A product for purposes of this RFP is defined by three characteristics: a) the Class to which it contributes Default Supply; b) the length of the supply period; and c) the date at which the supply period begins. For example, the RES-12-~~Jun21~~Jun26 product represents Default Supply for the RES Class for the supply period from June 1, ~~2021~~2026 through May 31, ~~2022~~2027. A product name may be abbreviated when the context is clear; for example, RES-12 refers to all products for the Residential Class that are twelve (12) months in duration, regardless of the start date of the supply period.

~~I.1.18.~~I.2.8. A Proposal is a response to this RFP for a solicitation pursuant to these RFP Rules. An entity that submits any part of a response to this RFP for a solicitation is an "RFP Bidder". A Bid for a tranche for any product is a price in dollars per MWh rounded to the nearest cent. An RFP Bidder may submit different Bids for different tranches of a given product.

~~I.1.19.~~I.2.9. The table below provides the products that will be procured for each solicitation under DSP ~~V~~VI.

Table I-3. Schedule of Procurement for Products.

~~I.1.20.~~I.2.10. The Load Caps apply to all products that contribute to Default Supply for a Class at a given point in time. The table below provides the products procured under DSP ~~IV~~V and products to be procured under DSP ~~V~~VI that contribute to Default Supply for that Class during that time period and that should be considered in determining whether Load Caps apply to a particular Default Supplier. The products procured under DSP ~~IV~~V are italicized. For example, at any given point in time in the period from June 1, ~~2022~~2026 to November 30, ~~2022~~2026, the Default Supply for the RES Class includes the following products: RES-24-~~Dec20~~Dec24 and RES-24-~~Jun21~~Jun25 and RES-12-~~Dec21~~Dec25 and RES-24-~~Dec21~~Dec25 and RES-12-~~Jun22~~Jun26 and RES-24-~~Jun22~~Jun26.

CCI	Any		CCI-12

~~I.1.21.~~I.2.11. The Addendum to the RFP Rules for each solicitation will contain a table with the available tranches and Load Caps for that solicitation specifically as well as an explanation of the Load Caps for that solicitation.

~~I.1.22.~~I.2.12. A supplier participating in this RFP bids to provide Default Supply for one or more of the RES, SC, and CCI Classes, and for one or more supply periods. The obligations of the Default Supplier are

described in the "Uniform SMA". The term Uniform SMA is an abbreviation for PECO Energy Company Pennsylvania Default Service Supplier Master Agreement, which may also be abbreviated by "SMA", "DS Supplier Master Agreement" or "Supplier Master Agreement". The main provisions of the Uniform SMA are summarized in Section I.4.

~~I.1.23.~~I.2.13. The contingency plan in the event that PECO is unable to obtain Default Supply for all tranches of a product in a solicitation is as follows. If the product is more than six (6) months in duration, PECO will assume responsibility for the unfilled tranches as a PJM LSE for the first six (6) months of the supply period, acquiring the necessary supply through PJM-administered markets and obtaining sufficient AECs at market prices to satisfy any near-term obligations under the AEPS Act. The unfilled tranches, with a supply period that starts six (6) months later than the supply period of the tranches that were unfilled, will be placed for re-bid in the next solicitation. For products that are six (6) months or shorter, PECO will assume responsibility for the unfilled tranches as an LSE and will acquire the necessary supply through PJM-administered markets for the entire supply period. PECO reserves the right to file an alternate plan with the Commission.

~~I.1.24.~~I.2.14. Any prospective supplier that meets the qualification standards established in these RFP Rules and that is willing to provide prices at which to serve tranches of Default Service Load can respond to this RFP, including any PECO affiliates.

I.3. Process

~~I.1.25.I.1.1. Prior to a typical solicitation, a supplier unable to use the Guaranty provided as Appendix C to the Uniform SMA (the "Standard Guaranty") can request consideration by PECO of an alternate form of guaranty that the supplier uses in its normal course of business. Such request must be received no later than fifteen (15) business days prior to the opening of the Part 1 Window. Within three (3) business days of receipt of such a request, the Independent Evaluator will issue a timetable for receipt of the materials from the supplier and for consideration of these materials by PECO. This timetable will be such that a final decision on whether to accept the supplier's alternate form of guaranty will be communicated to the supplier prior to the Part 1 Window.~~

~~I.1.26.~~I.3.1. To qualify for a typical solicitation, suppliers provide materials to respond to the qualification standards described in Article IV. RFP Bidders that did not qualify in a previous solicitation under DSP ~~V~~VI use the Standard Part 1 Form available online through the Proposal submission website to respond to these qualification standards. Previously qualified RFP Bidders under DSP ~~V~~VI may participate in an abbreviated qualification process by using the Short Part 1 Form available online through the Proposal submission website to respond to these qualification standards. An Illustrative Standard Part 1 Form and an Illustrative Short Part 1 Form are available as Appendix 3 and Appendix 4 respectively to these RFP Rules and are also available electronically on the RFP website: www.PECOProcurement.com. The generic term "Part 1 Form" refers either to the Standard Part 1 Form or the Short Part 1 Form. Part 1 Proposals are submitted during the "Part 1 Window".

I.3.2. Prior to a typical solicitation, a supplier unable to use the Guaranty provided as Appendix G to the Uniform SMA (the "Standard Guaranty") can request consideration by PECO of an alternate form of guaranty that the supplier uses in its normal course of business. Such request must be received no later than fifteen (15) business days prior to the opening of the Part 1 Window. Within three (3) business days of receipt of such a request, the Independent Evaluator will issue a timetable for receipt of the materials from the supplier and for consideration of these materials by PECO. This timetable will be such that a final decision on whether to accept the supplier's alternate form of guaranty will be communicated to the supplier prior to the Part 1 Window.

~~I.1.27.~~I.3.3. To become eligible to bid for a solicitation, RFP Bidders that have met the qualification standards of Article IV must respond to the Part 2 Proposal requirements described in Article V~~Article V~~ of these RFP Rules. RFP Bidders use the Part 2 Form available online through the Proposal submission website to respond to these requirements. RFP Bidders that became eligible to submit Bids in a previous solicitation held under DSP ~~V~~VI may participate in an abbreviated process by using the Short Part 2 Form available online through the Proposal submission website to respond to these requirements. The generic term "Part 2 Form" refers either to the Standard Part 2 Form or the Short Part 2 Form. Part 2 Proposals are submitted during the "Part 2 Window".

~~I.1.28.~~I.3.4. RFP Bidders use the Bid Form provided by the Independent Evaluator to submit their Bids. A sample Bid Form is provided for illustrative purposes as Appendix 10 of these RFP Rules. Each RFP

Bidder's Bids must be received between 10 AM and 12 PM (noon) on the "Bid Date" or "Bid Proposal Due Date".

~~I.1.29.~~I.3.5. On the first business day after the Bid Date, the Independent Evaluator presents to the Commission the results of the solicitation in a confidential report. The Commission has one (1) business day to consider the report of the Independent Evaluator and to approve or reject each of the ~~winning~~lowest-priced Bids. If the PaPUC does not act within one (1) business day, the ~~winning~~lowest-priced Bids are deemed to be approved.

~~I.1.30.~~I.3.6. PECO and each RFP Bidder with Bids that are approved by the Commission proceed to the execution of the Uniform SMA and the Transaction Confirmations within ~~one (1~~three (3) business ~~day~~days of the ~~Commission decision.~~Bid Date. PECO and each such RFP Bidder execute a single Uniform SMA during the course of DSP ~~V~~VI. Each solicitation, PECO and each such RFP Bidder execute ~~one (1)~~a Transaction Confirmation for each product for which such RFP Bidder has Bids that are approved by the Commission. Appendix E to the Uniform SMA specifies the AEPS percentage obligations in effect on the Bid Date for the period covered by each Transaction Confirmation.

~~I.1.31.~~I.3.7. Within fifteen (15) days of the ~~close of the solicitation~~Bid Date, the Independent Evaluator releases the weighted average price for each product procured as well as the percentage of load represented by each tranche.

I.4. Supplier's Obligations

~~I.1.32.~~I.4.1. A supplier selected through this RFP to provide Default Supply for a particular Class and approved by the Commission becomes a "Default Supplier" for that Class. A Default Supplier may be providing Default Supply for one or more of the RES, SC, and CCI Classes.

~~I.1.33.~~I.4.2. This ~~Section~~section describes in general terms several provisions of the Uniform SMA. This is a summary only and is subject to and qualified in its entirety by the Uniform SMA provided as Appendix 1 to the RFP Rules. Each RFP Bidder accepts the obligations and associated rights to provide Default Supply as defined in the Uniform SMA as part of its Proposal.

~~I.1.34.~~I.4.3. Default Suppliers for a Class will serve the Company's Default Load for that Class. Default Service for one of these Classes is the Company's full requirements service including, without

limitation, energy, capacity, transmission (excluding Network Integration Transmission Service), ancillary services, AECs for compliance with the AEPS Act, transmission and distribution losses, congestion management costs, and such other services or products that are required to serve the specified percentage of Default Load for that Class (except for distribution service). Default Load for the RES Class is reduced by a fractional percentage of committed energy and capacity obtained under contract with Allegheny Electric Cooperative, Inc. for supply from the New York Power Authority.

~~I.1.35.~~I.4.4. Default Suppliers are also responsible for providing AECs during the term of the Uniform SMA necessary for PECO to meet its obligations under the AEPS Act, as well as other Orders, regulations and rules that may be promulgated by the PaPUC with respect to the AEPS. Default Suppliers will be required to participate in the PJM Generation Attribute Tracking System ("PJM-EIS GATS") to transfer AECs to PECO. The Company will provide an estimate of the Default Supplier's AEPS obligation following the second quarter of the AEPS Reporting Period and the Default Supplier will be required to transfer AECs to PECO in the amount of the estimate within forty-five (45) calendar days of the date of that estimate. The Company will provide a final statement to the Default Supplier within thirty (30) calendar days of the end of AEPS Reporting Period and the Default Supplier will be required to transfer AECs in the amount of the final statement within forty-five (45) calendar days after the date of the final statement.

~~I.1.36.~~I.4.5. A Default Supplier that fails to provide sufficient AECs for a tranche will be required to pay any AEPS penalties, costs, charges, etc. assessed against the Default Supplier and/or the Company associated with the Default Supplier's non-performance with AEPS requirements.

~~I.1.37.~~I.4.6. PECO has obtained AECs from separate AEPS procurement(s) approved by the Commission and PECO will reduce the amount of AECs that Default Suppliers must provide. Prior to each solicitation, PECO will inform RFP Bidders of the amounts of AECs allocated for this purpose for each tranche of each product for which Default Supply is procured in that solicitation.

~~I.1.38.~~I.4.7. A Default Supplier for a product will be paid a supplier-specific price for each MWh of electric load served as specified in the Transaction Confirmation for that product. The supplier-specific price for a Default Supplier for a product will be the average of approved Bids for that Default Supplier and for that product. The PJM day-ahead price for energy and the Reliability Pricing Model ("RPM") price

for capacity are also paid to a Default Supplier providing full requirements service on a spot-price basis.

~~I.1.39.~~I.4.8. The Default Supplier will specify in the Transaction Confirmation the price of each type of AECs included in its supplier-specific price.

~~I.1.40.~~I.4.9. PECO will transfer or assign Auction Revenue Rights ("ARRs") to each Default Supplier in proportion to the percentage of Default Load that it serves. A Default Supplier will participate in the PJM process for the nominations of ARRs to the extent that the supply period under the Transaction Confirmation is inclusive of the PJM Planning Period for which the ARRs are nominated; otherwise, PECO will participate in the PJM ARR nomination process. Specifically, for any product with a supply period that starts in June, PECO will participate in the PJM ARR nomination process and will transfer or assign ARRs to each Default Supplier for the first June-May period, and for a 24-month product the Default Supplier will participate directly in the PJM ARR nomination process for the second June-May period. For any product with a supply period that starts in December, PECO will transfer or assign ARRs to each Default Supplier for the first 6-months of the supply period, and the Default Supplier will participate in each applicable PJM ARR nomination process directly for the remainder of the supply period beginning with the first PJM Planning Period applicable to the first June-May period.

I.4.10. If the results for the Base Residual Auction ("BRA") under PJM's RPM for a delivery year (June-May) relevant to a product in a solicitation are not announced by PJM at least five (5) business days prior to the Bid Date, a capacity proxy price ("CPP") is established for the delivery year for which the capacity price was not announced. The CPP would be calculated as the average of the most recent results under PJM's RPM from the two most recent delivery years for which PJM has held a capacity auction. For the avoidance of doubt, the results of the most recent Incremental Auction held under PJM's RPM would be used if an Incremental Auction has been held for a delivery year. If a CPP is established for a product in a solicitation, a true-up mechanism, described in the Capacity Supplement in Exhibit 1 to Appendix C of the Uniform SMA, will apply to the Transaction Confirmation for the product.

ARTICLE II. Information and Schedule

II.1. RFP Website

~~I.1.41.~~II.1.1. PECO and its Independent Evaluator have established an RFP website that is the main source of information. RFP Bidders and other stakeholders can visit this RFP website to obtain information and documents related to this RFP. The RFP website address is www.PECOProcurement.com.

~~I.1.42.~~II.1.2. The RFP website contains the sections described below. New sections may be added as necessary to assist RFP Bidders.

Home: This section provides announcements of interest to RFP Bidders and to other interested parties, an outline of the RFP process, a search function, and a summary of important dates.

Background: These sections provide background information on the regulatory process, the results of previous solicitations and archives of documents. FAQs and announcements from previous solicitations are provided for reference purposes only.

Supplier Information: This section provides documents regarding the RFP as well as frequently asked questions ("FAQs"), RFP-related announcements, and NITS rate information. All stakeholders, including RFP Bidders, are able to ask questions via a web form. The Independent Evaluator provides an answer to the question via email to the questioner, and a copy of the question and answer is posted so that all stakeholders and RFP Bidders have access to the same information. Aspects of the question and/or answer that might identify the party asking the question are removed before posting to the extent practical.

Data Room: This section provides historical data to assist prospective suppliers. Links to the PJM website and related documents can also be found in this section.

Calendar: This section provides the timeline for the main events in the current and upcoming solicitations.

Contact Us: This section gives any stakeholder an opportunity to register its email address to receive updates and announcements regarding this RFP. The section also provides the contact information for the Independent Evaluator, an electronic web form to submit questions to the Independent Evaluator, and a web form for prospective suppliers to register for bidder information sessions.

II.2. RFP Schedule

~~I.1.43.~~II.2.1. Each solicitation will follow the order of events in the general schedule provided below.

Table II-1. General Schedule.

Event	Timing
Deadline to request consideration of an alternate form of guaranty	Day -15
Bidder Information Webcast	Day -7
Decision on alternate guaranty forms (if any)	Day -2
Part 1 Window Opens	Day 0
Part 1 Date (Part 1 Window Closes)	Day 4
Part 1 Notification Date	Day 6
Approved modifications to Standard Guaranty posted	Day 7
Part 2 Proposal Window Opens	Day 7
Bid Submission training	Day 10
Part 2 Date (Part 2 Window Closes)	Day 11
Part 2 Notification Date	Day 13
Bid Date (Bids are Due)	Day 14
IE provides its report to the PaPUC	Day 15
PaPUC Decision (close of business)	No later than Day 16
If Bids are approved by the PaPUC:	
PECO and each winning RFP Bidder proceed to execution of the Uniform SMA and each Transaction Confirmation	Within three business days of the Bid Date

~~I.1.44.~~II.2.2. A total of eight (8) solicitations are planned under DSP ~~V~~VI. The Bid Dates for each of the solicitations are provided below.

Table II-2. Bid Dates.

Solicitation	Bid Dates
March ~~2021~~2025	Tuesday, March ~~9, 2021~~11, 2025
September ~~2021~~2025	Tuesday, September ~~28, 2021~~23, 2025
March ~~2022~~2026	Tuesday, March ~~15, 2022~~10, 2026
September ~~2022~~2026	Tuesday, September ~~27, 2022~~29, 2026
March ~~2023~~2027	Tuesday, March ~~14, 2023~~9, 2027
September ~~2023~~2027	Tuesday, September ~~26, 2023~~28, 2027
March ~~2024~~2028	Tuesday, March ~~12, 2024~~14, 2028
September ~~2024~~2028	Tuesday, September ~~24, 2024~~26, 2028

~~I.1.45.~~II.2.3. The date for each event in each future solicitation is provided in the Tentative Schedule for Future Solicitations attached as Appendix 11 to these RFP Rules. The dates for each event in the

current solicitation is provided in the Addendum to the RFP Rules. The dates follow the order of events and the number of days between events in the general schedule above except as needed to accommodate holidays. The schedule for a solicitation may be amended if circumstances warrant. Any such amendments will be posted to the RFP website.

~~I.1.46.~~II.2.4. Specific times for submission of materials for the Part 1 Proposals, the Part 2 Proposals, and the Bids are provided elsewhere in this RFP. All such times are Eastern Prevailing Time ("EPT") unless specifically noted.

ARTICLE III. General Requirements for Proposals

~~I.1.47.~~III.1.1. An entity that submits any part of a response to this RFP for a solicitation is an "RFP Bidder". An RFP Bidder can submit at most one Part 1 Proposal and one Part 2 Proposal for each solicitation. An RFP Bidder that qualifies for a solicitation by submitting a Part 1 Proposal that fulfills all requirements described in Article IV and that submits a Part 2 Proposal that fulfills all the requirements described in Article V is eligible to submit Bids in that solicitation. Aside from submission of financial guarantees to support its Bids, all materials for the Part 1 Proposals and all Part 2 Proposals are submitted to the Independent Evaluator online through the online Proposal submission website or by email at pecoprocurement@nera.com in accordance with the instructions provided in Article VII~~Article VII~~.

~~I.1.48.~~III.1.2. The submission of a Part 1 Proposal or a Part 2 Proposal to the Independent Evaluator constitutes the RFP Bidder's acknowledgement and acceptance of all the terms and conditions of this RFP, regardless of the outcome of the solicitation or the outcome of such Proposal.

~~I.1.49.~~III.1.3. Each solicitation will have a Part 1 Window during which Part 1 Proposals may be submitted. The last day of the Part 1 Window is the "Part 1 Date". The requirements of the Part 1 Proposal are described in Article IV. "Previously qualified RFP Bidder" means an RFP Bidder that met the qualification standards in a previous solicitation under DSP ~~V~~VI by submitting a Part 1 Proposal that fulfilled all the requirements of Article IV. A previously qualified RFP Bidder may participate in an abbreviated Part 1 Proposal process. A supplier selected through the competitive bidding process under DSP ~~V~~VI to provide Default Supply for a particular Class and approved by the Commission becomes a Default Supplier for that Class.

~~I.1.50.~~III.1.4. The exclusive method for an RFP Bidder to complete the Part 1 Proposal is to submit the online Part 1 Form as well as provide Inserts to the Part 1 Form available as separate Word Forms on the Proposal submission website or from the Independent Evaluator. Documents (supporting documents, draft Letter of Credit ~~or~~, and draft Standard Guaranty~~, and Inserts~~) may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com~~.~~ An Insert to the Part 1 Form that does not require a signature may be

uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 1 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

~~I.1.51.~~III.1.5. Each RFP Bidder must comply with all Part 1 Proposal requirements described in Article IV. Section IV.1~~IV.1~~ describes the contact information and representations required. Section IV.2~~IV.2~~ describes financial requirements including requirements that apply to RFP Bidders relying on the financial standing of an RFP Guarantor and additional requirements applicable only to RFP Bidders submitting a Proposal under an Agency Agreement. Section IV.3 describes the process by which RFP Bidders may propose modifications to the credit instruments (the Standard Pre-Bid Letter of Credit, the Standard Post-Bid Letter of Credit, and the Standard Guaranty) and describes the information that an RFP Bidder is asked to provide for the Independent Evaluator to prepare the Uniform SMA documents should the Independent Evaluator identify one or more of the RFP Bidder's Bids to the Commission as ~~winning~~lowest-priced Bids. Section IV.4~~IV.4~~ describes the representations required. Section ~~IV.5~~IV.5 lists additional requirements applicable only to RFP Bidders that have not been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia ("Foreign RFP Bidders"), or to RFP Bidders that rely on the financial standing of an entity that has not been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia ("Foreign Entity"). Each of the Sections of Article IV explains the abbreviated Part 1 Proposal process in which previously qualified RFP Bidders may participate.

~~I.1.52.~~III.1.6. The Independent Evaluator informs each RFP Bidder of whether it has met all qualification standards of Article IV through a Part 1 Notification that the Independent Evaluator sends to the RFP Bidder by the Part 1 Notification Date. The Independent Evaluator transmits within two (2) business days of the Part 1 Notification Date to each RFP Bidder that has a successful Part 1 Proposal a number of documents and instructions, called the "Part 1 Materials".

~~I.1.53.~~III.1.7. All information provided and certifications made in the Part 1 Proposal must remain valid and remain in full force and effect until six (6) business days after the Bid Date. Regardless of the reason, if any information provided in the Part 1 Proposal changes or any previous certification fails to

remain valid, it is the sole responsibility of the RFP Bidder to notify the Independent Evaluator as soon as practicable. Failing to do so may result in disqualification of the RFP Bidder and of its Proposal. The Independent Evaluator reserves the right to change the assessment of an RFP Bidder's qualifications based on any revised information provided by the RFP Bidder.

~~I.1.54.~~III.1.8. Each solicitation will have a Part 2 Window during which Part 2 Proposals may be submitted. The last day of the Part 2 Window is the "Part 2 Date". RFP Bidders also have the option to submit the representations and certifications required by the online Part 2 Form during the Part 1 Window for early processing. The requirements of the Part 2 Proposal are described in Article V. "Previously eligible RFP Bidder" means an RFP Bidder that became eligible to submit Bids in a previous solicitation held under DSP ~~V~~VI by submitting a Part 1 Proposal that fulfilled all the requirements of Article IV and a Part 2 Proposal that fulfilled all the requirements of Article V. A previously eligible RFP Bidder may participate in an abbreviated Part 2 Proposal process.

~~I.1.55.~~III.1.9. The exclusive method for an RFP Bidder to complete the Part 2 Proposal is to submit the online Part 2 Form as well as provide an executed Pre-Bid Letter of Credit. ~~Any documents~~The Pre-Bid Letter of Credit must be submitted as an electronic PDF file via electronic means only to the Independent Evaluator at pecoprocurement@nera.com. An Insert to the Part 2 Form that does not require a signature may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 2 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions. Any other documents, excluding Inserts and the Pre-Bid Letter of Credit, required by the Part 2 Proposal may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com.

~~I.1.56.~~III.1.10. Each RFP Bidder must comply with all Part 2 Proposal requirements described in Article V~~Article V~~. Section V.1~~V.1~~ describes the contact information and representations required by the Part 2 Proposal. Section V.2~~V.2~~ describes the Pre-Bid Letter of Credit required to support the RFP Bidder's Bids. Section ~~V.3~~V.3 lists additional requirements for RFP Bidders relying on the financial standing of an RFP Guarantor. Section ~~V.4~~V.4 lists additional requirements applicable only to RFP

Bidders submitting a Proposal under an Agency Agreement. Section ~~V.5~~V.5 lists additional requirements applicable only to Foreign RFP Bidders or to RFP Bidders that rely on the financial standing of a Foreign Entity. Each of the Sections of Article V~~Article V~~ explains the abbreviated Part 2 Proposal process in which previously eligible RFP Bidders may participate.

~~I.1.57.~~III.1.11. The Independent Evaluator informs each RFP Bidder of whether it has met all qualification standards of Article IV and all requirements of Article V~~Article V~~ so that it is eligible to submit Bids through a Part 2 Notification. The Independent Evaluator sends the Part 2 Notification to the RFP Bidder by the Part 2 Notification Date.

~~I.1.58.~~III.1.12. All information provided and certifications made in the Part 2 Proposal must remain valid and remain in full force and effect until six (6) business days after the Bid Date. Regardless of the reason, if any information provided in the Part 2 Proposal changes or any previous certification fails to remain valid, it is the sole responsibility of the RFP Bidder to notify the Independent Evaluator as soon as practicable. Failing to do so may result in disqualification of the RFP Bidder and of its Proposal. The Independent Evaluator reserves the right to change the assessment of an RFP Bidder's eligibility to submit Bids based on any revised information provided by the RFP Bidder.

~~I.1.59.~~III.1.13. For a given solicitation, all representations and certifications required by this RFP must be made by a single individual who serves as Officer of the RFP Bidder. An Officer of the RFP Bidder is an individual authorized to undertake contracts (including the Uniform SMA) and bind that RFP Bidder. As a requirement of the Part 1 Proposal, the RFP Bidder must name an individual who serves as Officer of the RFP Bidder and must provide full contact information for this individual. The Officer of the RFP Bidder may sign all representations and certifications of the Part 1 Form and Part 2 Form at one time and RFP Bidders have the option to submit certifications required by the online Part 2 Form during the Part 1 Window for early processing.

~~I.1.60.~~III.1.14. The Officer of the RFP Bidder named in the Part 1 Proposal will sign, or will nominate another authorized individual to execute the Uniform SMA as well as any Transaction Confirmations if any of the RFP Bidder's Bids are approved by the Commission.

~~I.1.61.~~III.1.15. Each RFP Bidder must comply with the instructions for the submission of Bids provided with its Part 1 Notification. Article VI~~Article VI~~ describes in general terms the requirements for the submission of Bids.

~~I.1.62.~~III.1.16. Proposals that do not adhere to the terms and conditions of this RFP, or that do not fulfill all requirements of Article IV, Article V~~Article V~~, and Article VI~~Article VI~~ of this RFP, or that are not submitted in accordance with the process of Article VII~~Article VII~~ or in accordance with the instructions provided by the Independent Evaluator in an addendum to these RFP Rules, will not be considered.

~~I.1.63.~~III.1.17. The Independent Evaluator will send to each RFP Bidder that submitted a successful Part 1 Proposal in a previous solicitation under DSP ~~V~~VI an email confirming its status as a previously qualified RFP Bidder. Such RFP Bidder may participate in an abbreviated Part 1 Proposal process. The Independent Evaluator will send to each RFP Bidder that submitted a successful Part 1 Proposal and a successful Part 2 Proposal in a previous solicitation under DSP ~~V~~VI an email confirming its status as a previously eligible RFP Bidder. Such RFP Bidder may participate in an abbreviated Part 1 Proposal process and an abbreviated Part 2 Proposal process.

~~I.1.64.~~III.1.18. The RFP Bidder, at its own cost and expense, shall defend PECO, and the Independent Evaluator and their subsidiaries, affiliates, successors and assigns, and each and every one of their respective past, present, or future officers, directors, trustees, employees, shareholders, executors, administrators, successors and assigns, other than entities that are also RFP Bidders, against any and all manner of past, present, or future claims, demands, disputes, controversies, complaints, suits, actions, proceedings, or allegations of any kind which in any manner relate to, arise out of, or result from any false statement in the Proposal or breach of any covenant by the RFP Bidder set forth herein. The RFP Bidder shall indemnify and hold harmless PECO, the Independent Evaluator, their parent companies, subsidiaries, affiliates, successors and assigns, and each and every one of their respective past, present, or future officers, directors, trustees, employees, shareholders and agents, as well as the heirs, executors, administrators, successors and assigns, other than entities that are RFP Bidders, against any and all liens, judgments, liabilities, losses, injuries, damages, fees, fines, penalties, costs

or expenses which in any manner relate to, arise out of, or result from any false statement or misrepresentation in the Proposal or breach of any warranty by the RFP Bidder as set forth herein.

ARTICLE IV. Part 1 Proposal Requirements

Previously qualified RFP Bidders under DSP ~~V~~VI may participate in an abbreviated qualification process by using the Short Part 1 Form available online through the Proposal submission website to respond to these qualification standards.

IV.1. Contact Information and Representations

~~I.1.65.~~IV.1.1. Contact Information for the RFP Bidder. Each RFP Bidder must provide the RFP Bidder's legal name and address.

- ~~An~~ Whether or not the RFP Bidder ~~that~~ has ~~not~~ previously qualified ~~must~~, an RFP Bidder is required to submit ~~this~~ contact information in its Part 1 Proposal.
- ~~A~~If a previously qualified RFP Bidder ~~either must confirm that the previously provided contact information remains valid or must update this information. If the RFP Bidder~~ updates the RFP Bidder's legal name since the RFP Bidder last submitted a successful Part 1 Proposal, the RFP Bidder must provide evidence of the change of name. If there was a change in the corporate structure of the RFP Bidder, through a merger for example, the RFP Bidder may not participate in the abbreviated Part 1 Proposal or Part 2 Proposal process.

~~I.1.66.~~IV.1.2. Officer of the RFP Bidder. The Officer of the RFP Bidder must be an officer, a director, or an individual otherwise authorized to undertake contracts (including the Uniform SMA) and bind the RFP Bidder. The Officer of the RFP Bidder whose contact information is provided in the Part 1 Proposal must make all representations required by the online Part 1 Form. Should the RFP Bidder submit a Part 2 Proposal, the individual named as Officer of the RFP Bidder in the Part 1 Proposal must make the representations required by the online Part 2 Form. The Officer of the RFP Bidder may sign all representations and certifications of the online Part 1 Form and online Part 2 Form at one time and RFP Bidders have the option to submit the certifications required by the online Part 2 Form during the Part 1 Window for early processing.

- ~~If an~~ Whether or not the RFP Bidder has ~~not~~ previously qualified ~~under DSP V, or if the individual who served as Officer of the RFP Bidder for a previously qualified RFP Bidder is not~~

~~available in this solicitation, then the~~, an RFP Bidder must provide the name, title, and full contact information (address, phone number, email address) of the individual who will serve as the Officer of the RFP Bidder.

- ~~If an RFP Bidder has previously qualified and the individual who served as Officer of the RFP Bidder in a previous solicitation is available for this solicitation, the RFP Bidder either must confirm that the previously submitted contact information for the Officer of the RFP Bidder remains valid or must update this information.~~

~~I.1.67.~~IV.1.3. Representative of the RFP Bidder. The Independent Evaluator uses the Representative as the main point of contact for the RFP Bidder. The Independent Evaluator contacts the Representative if the Independent Evaluator requires additional information regarding the RFP Bidder's Proposal. The Independent Evaluator sends correspondence related to the solicitation to the Representative, including confidential information required to submit Bids on the Bid Date.

- ~~If an~~ Whether or not the RFP Bidder has ~~not~~ previously qualified, ~~the Officer of the~~an RFP Bidder must designate an individual to serve as Representative of the RFP Bidder by completing the Representative Insert prepared for this purpose and available on the Proposal submission website. ~~The RFP Bidder provides the Representative Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.~~ The RFP Bidder must provide the name, title, and full contact information (address, phone number, email address) of the individual named by the Officer of the RFP Bidder who will serve as Representative of the RFP Bidder.
- ~~A previously qualified RFP Bidder either must confirm that the previously submitted contact information for the Representative of the RFP Bidder remains valid or must update this information. The Officer of the RFP Bidder may, at his or her option, name another individual to serve as Representative of the RFP Bidder by completing the Representative Insert. The RFP Bidder provides the Representative Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.~~

~~I.1.68.~~IV.1.4. Nominees. The Independent Evaluator provides notifications to the RFP Bidder by email and provides documents needed for participation by secure file transfer. Whether or not an RFP Bidder has previously qualified, the RFP Bidder may designate up to three (3) authorized individuals to receive communications from the Independent Evaluator in addition to the Representative of the RFP Bidder. Each such authorized individual is a Nominee. Either the Representative of the RFP Bidder or the Officer of the RFP Bidder may complete the Nominee Insert prepared for this purpose. The Nominee Insert requires that the following be provided for each authorized individual who will serve as Nominee: the individual's name and title, phone number, and email address. ~~The RFP Bidder provides the Nominee Insert by upload to the online Part 1 Form or by email at PECOProcurement@nera.com.~~ The Representative of the RFP Bidder or the Officer of the RFP Bidder may designate such other authorized individuals at any time during the solicitation using the Nominee Insert. The RFP Bidder is not required to do so in the Part 1 Proposal provided, however, that the total number of Nominees not exceed three (3) individuals at any one time.

~~I.1.69.~~IV.1.5. All information required by this Section IV.1~~IV.1~~ must be provided exclusively by completing Section 1 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII~~Article VII~~. Inserts and documents must be submitted by upload to the online Part 1 Form or by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.2. Financial Requirements and Agency Agreements

~~I.1.70.~~IV.2.1. Agency Agreement. The RFP Bidder must state whether it is submitting a Proposal under an agency authorization ("Agency Agreement"). If an RFP Bidder is submitting a Proposal under an Agency Agreement, the RFP Bidder must identify a Principal as the entity on whose financial standing the RFP Bidder relies, as further explained in the next paragraph.

~~I.1.71.~~IV.2.2. Election of Entity on Whose Financial Standing the RFP Bidder is relying. For purposes of submitting to the requirements of this section, each RFP Bidder elects: (a) to rely on its own financial standing; or: (b) to rely on the financial standing of an "RFP Guarantor"; or: (c) to rely on the financial

standing of a Principal. An RFP Bidder submitting a Proposal under an Agency Agreement must select option (c) and option (c) may only be selected by an RFP Bidder submitting a Proposal under an Agency Agreement.

- An RFP Bidder that has not previously qualified must clearly select one of these options. For a previously qualified RFP Bidder, the option will be selected based on the last submitted successful Part 1 Proposal.

- ~~A~~For a previously qualified RFP Bidder ~~must confirm that the identity of~~, the entity on whose financial standing the RFP Bidder last relied ~~remains valid~~must be the same entity identified in the current solicitation in order to participate in the abbreviated Part 1 Proposal process. If such RFP Bidder changes the identity of the entity on whose financial standing the RFP Bidder relies, the RFP Bidder must use the Standard Part 1 Form and submit all information required for the Part 1 Proposal as if the RFP Bidder had not previously qualified.

- ~~A previously qualified RFP Bidder must either confirm that the previously provided legal name of the entity on whose financial standing the RFP Bidder relies remain valid or the RFP Bidder must update this information.~~ If the RFP Bidder updates the entity's legal name since the RFP Bidder last submitted a successful Part 1 Proposal, the RFP Bidder must provide evidence of the change of name. If there was a change in the corporate structure of the entity, through a merger for example, the RFP Bidder must use the Standard Part 1 Form to present its Part 1 Proposal.

~~I.1.72.~~IV.2.3. Information Required from RFP Bidders Relying on Their Own Financial Standing. The requirements of this paragraph only apply to an RFP Bidder that selects option (a) in response to Paragraph IV.2.2.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must submit available financial information for the RFP Bidder by upload to the online Part 1 Form or by email at PECOProcurement@nera.com. If available, the RFP Bidder must submit its most recent quarterly financial information, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules. If available, the most recent Securities

and Exchange Commission ("SEC") Form 10-Q or 10-K (whichever is more recent) must be submitted to fulfill this requirement. If the SEC Form 10-Q/10-K is unavailable, the RFP Bidder must submit its most recent quarterly, monthly or bi-annual financial information accompanied by an attestation by the RFP Bidder's Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Bidder. The requirements for this attestation are provided more specifically in Appendix 5 of these RFP Rules. If such financial information is unavailable for the RFP Bidder, the RFP Bidder must clearly state this fact.

- ~~An~~Whether or not the RFP Bidder ~~that~~ has ~~not~~ previously qualified, an RFP Bidder must submit all available credit ratings for the RFP Bidder from the following rating agencies: S&P Global Ratings ("S&P"), Moody's Investors Service, Inc. ("Moody's"), and Fitch Ratings ("Fitch"). If no ratings are available for the entity, the RFP Bidder must clearly state this fact. ~~A previously qualified RFP Bidder must either confirm that the previously provided credit ratings remain valid or the RFP Bidder must update this information.~~

~~I.1.73.~~IV.2.4. Information Required from RFP Bidders Relying on the Financial Standing of an RFP Guarantor. The requirements of this paragraph only apply to an RFP Bidder that selects option (b) in response to Paragraph IV.2.2.

- Financial information must be available for the RFP Guarantor.
- ~~If not~~ Whether or not the RFP Bidder has previously qualified, the RFP Bidder must provide the RFP Guarantor's legal name and address. ~~A previously qualified RFP Bidder must either confirm that the previously provided legal name and address of the RFP Guarantor remain valid or the RFP Bidder must update this information.~~ If the RFP Bidder updates the RFP Guarantor's legal name since the RFP Bidder last submitted a successful Part 1 Proposal, the RFP Bidder must provide evidence of the change of name. If there was a change in the corporate structure of the RFP Guarantor, through a merger for example, the RFP Bidder must use the Standard Part 1 Form to present its Part 1 Proposal.

- An RFP Bidder must submit by upload to the online Part 1 Form or by email at PECOProcurement@nera.com, if available, the RFP Guarantor's most recent quarterly financial information, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules. If available, the most recent SEC Form 10-Q or 10-K (whichever is more recent) must be submitted to fulfill this requirement. If the SEC Form 10-Q/10-K is unavailable, the RFP Bidder must submit the RFP Guarantor's most recent quarterly, monthly, or bi-annual financial information accompanied by an attestation by the entity's Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the entity. The requirements for this attestation are provided more specifically in Appendix 5 of these RFP Rules.

- ~~An~~Whether or not the RFP Bidder ~~that~~ has ~~not~~ previously qualified, an RFP Bidder must submit all available credit ratings for the RFP Guarantor from the following rating agencies: S&P, Moody's, and Fitch. Such ratings must be available for the RFP Guarantor. ~~A previously qualified RFP Bidder must confirm that the credit ratings last submitted for the RFP Guarantor remain valid or the RFP Bidder must update this information with respect to any or all of the credit ratings. The Independent Evaluator uses the information submitted by such RFP Bidder in the most recent solicitation under this RFP for which the RFP Bidder submitted a successful Part 1 Proposal. If the RFP Bidder updates the information, the RFP Bidder must state the name of the rating agency that has updated its credit rating, the updated credit rating, and the type of rating. The Independent Evaluator may also~~The Independent Evaluator may inquire specifically about one or more credit ratings on file for the entity on whose financial standing the RFP Bidder and ask the RFP Bidder to confirm that no updates have been issued.

~~I.1.74.~~IV.2.5. Information Required from RFP Bidders Relying on the Financial Standing of an RFP Principal.

The requirements of this paragraph only apply to an RFP Bidder submitting a Proposal under an Agency Agreement that selects option (c) in response to Paragraph IV.2.2.

- ~~If~~Whether or not the RFP Bidder has previously qualified, the RFP Bidder must provide each Principal's legal name and address. ~~A previously qualified RFP Bidder must either confirm that the previously provided legal name and address of each Principal remain valid or the RFP Bidder must update this information.~~

- If not previously qualified, the RFP Bidder must provide a copy of the Agency Agreement by upload to the online Part 1 Form or by email at PECOProcurement@nera.com. If previously qualified, the RFP Bidder must either confirm that the previously provided document remains valid or the RFP Bidder must update this information.

- If the RFP Bidder is acting as an agent for multiple Principals, the RFP Bidder must identify the Principal with the lowest credit rating as the entity on whose financial standing the RFP Bidder relies. If several Principals have the same lowest credit rating, the RFP Bidder must identify the Principal that also has the lowest tangible net worth as the entity on whose financial standing the RFP Bidder relies. This Principal is referred to as the "RFP Principal". If there is a single Principal, the single Principal is the "RFP Principal". Financial information must be available for the RFP Principal.

- An RFP Bidder must submit by upload to the online Part 1 Form or by email at PECOProcurement@nera.com, if available, the RFP Principal's most recent quarterly financial information, including a balance sheet, income statement, cash flow statement, and any accompanying notes and schedules. If available, the most recent SEC Form 10-Q or 10-K (whichever is more recent) must be submitted to fulfill this requirement. If the SEC Form 10-Q/10-K is unavailable, the RFP Bidder must submit the RFP Principal's most recent quarterly, monthly, or bi-annual financial information accompanied by an attestation by the entity's Chief Financial Officer (or similar position) that the information contained in the financial statements fairly presents in all material respects the financial condition and results of the operations of the RFP Principal. The requirements for this attestation are provided more specifically in Appendix 5 of these RFP Rules.

- ~~An~~Whether or not the RFP Bidder ~~that~~ has ~~not~~ previously qualified, an RFP Bidder must submit all available credit ratings for the RFP Principal from the following rating agencies: S&P, Moody's, and Fitch. Such ratings must be available from at least two rating agencies for the RFP Principal. ~~A previously qualified RFP Bidder must confirm that the credit ratings last submitted for the RFP Principal remain valid or the RFP Bidder must update this information with respect to any or all of the credit ratings. The Independent Evaluator uses the information submitted by such RFP Bidder in the most recent solicitation under this RFP for which the RFP Bidder submitted a successful Part 1 Proposal. If the RFP Bidder updates the information, the RFP Bidder must state the name of the rating agency that has updated its credit rating, the updated credit rating, and the type of rating. The Independent Evaluator may also~~The Independent Evaluator may inquire specifically about one or more credit ratings on file for the RFP Principal and ask the RFP Bidder to confirm that no updates have been issued.

- Whether or not an RFP Bidder has previously qualified, the Officer of the RFP Bidder must: (i) certify that the Officer of the RFP Bidder has the authority to bind the Principal(s); and (ii) acknowledge that an Officers' Certificate, signed by an officer of each Principal and substantially in the form of Appendix 6 to these RFP Rules, must be provided with the Part 2 Proposal. The Officer of the RFP Bidder makes this certification and this acknowledgment by completing the P1 Agency Certifications Insert.

- Whether or not the RFP Bidder has previously qualified, the RFP Bidder may, but is not required to, submit a draft Officers' Certificate for evaluation. If an RFP Bidder submits a draft Officers' Certificate for evaluation, the Independent Evaluator will provide this evaluation to the RFP Bidder, including notice of any changes required to the Officers' Certificate, along with the Part 1 Notification. This Officers' Certificate will state that: (i) the Agency Agreement submitted in response to this RFP is a true and complete copy of the Agency Agreement as currently in effect; (ii) the Agency Agreement is in full force and effect and shall remain in full force and effect for a period extending to six (6) business days following the Bid Date; (iii) there are no proceedings pending for the amendment or termination of the Agency Agreement,

contemplated by the RFP Bidder, or contemplated by the Principal(s) to the RFP Bidder's knowledge; (iv) each individual who has executed the Officers' Certificate and the Agency Agreement is (or was at the time of the execution of such documents) authorized to execute and deliver such documents on behalf of the Principal(s); and (v) the Officer of the RFP Bidder is authorized to execute the Uniform SMA as well as any Transaction Confirmation(s) pursuant to the Uniform SMA on behalf of the Principal(s).

~~I.1.75.~~IV.2.6. All information required by this Section IV.2 must be provided exclusively by completing Section 2 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII~~Article VII~~. Inserts and documents must be submitted by upload to the online Part 1 Form or by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.3. Credit Instruments and Uniform SMA

~~I.1.76.~~IV.3.1. Standard Pre-Bid Letter of Credit. RFP Bidders have an opportunity, in the Part 1 Proposal, to propose modifications to the Pre-Bid Letter of Credit.

- Whether or not the RFP Bidder has previously qualified, an RFP Bidder must, in its Part 2 Proposal, submit a Pre-Bid Letter of Credit in an amount of at least: $250,000 per tranche bid on products of the RES and SC Classes; and $125,000 per tranche bid on a CCI product (if applicable). This Pre-Bid Letter of Credit must be in the form of the Standard Pre-Bid Letter of Credit provided as Appendix 9 to these RFP Rules or must incorporate only modifications that have been approved by PECO and provided to RFP Bidders by the Independent Evaluator.
- As part of the Part 1 Proposal, an RFP Bidder may request modifications to the Standard Pre-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder. An RFP Bidder requests modifications to the Standard Pre-Bid Letter of Credit by submitting a Draft Pre-Bid Letter of Credit substantially in the form of the Standard Pre-Bid Letter of Credit indicating clearly any and all modifications to the Standard Pre-Bid

Letter of Credit. The Draft Pre-Bid Letter of Credit must be submitted in Microsoft Word with tracked changes by upload to the online Part 1 Form or by email at PECOProcurement@nera.com. A Draft Pre-Bid Letter of Credit that is not substantially in the form of the Standard Pre-Bid Letter of Credit will not be considered or evaluated.

- An RFP Bidder must confirm whether the Draft Pre-Bid Letter of Credit submitted as part of the Part 1 Proposal contains the same requested modifications as a Draft Pre-Bid Letter of Credit submitted in a prior solicitation. If the Draft Pre-Bid Letter of Credit submitted does contain the same requested modifications as a prior submittal, the Independent Evaluator will provide the RFP Bidder with PECO's assessment of the prior submittal upon request and the Draft Pre-Bid Letter of Credit will not be reviewed again.
- All approved modifications to the Standard Pre-Bid Letter of Credit will be posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.
- An RFP Bidder that chooses not to propose modifications to the Standard Pre-Bid Letter of Credit must clearly state that fact.

~~I.1.77.~~IV.3.2. Standard Post-Bid Letter of Credit. RFP Bidders have an opportunity, in the Part 1 Proposal, to propose modifications to the Post-Bid Letter of Credit.

- The Uniform SMA includes, as Appendix F, Letter of Credit Documentation that may be used to post security under the terms of the Uniform SMA. This Paragraph refers to this letter of credit as the "Standard Post-Bid Letter of Credit".
- Whether or not the RFP Bidder has previously qualified, an RFP Bidder may, in its Part 1 Proposal, request modifications to the Standard Post-Bid Letter of Credit that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder. An RFP Bidder requests modifications to the Standard Post-Bid Letter of Credit by submitting a Draft Post-Bid Letter of Credit substantially in the form of the Standard Post-Bid Letter of Credit indicating clearly any and all modifications to the Standard Post-Bid Letter of Credit. The Draft Post-Bid Letter of Credit must be submitted in Microsoft Word by upload to the online Part 1 Form or by email

at pecoprocurement@nera.com. A Draft Post-Bid Letter of Credit that is not substantially in the form of the Standard Post-Bid Letter of Credit will not be considered or evaluated.

- An RFP Bidder must confirm whether the Draft Post-Bid Letter of Credit submitted as part of the Part 1 Proposal contains the same requested modifications as a Draft Post-Bid Letter of Credit submitted in a prior solicitation. If the Draft Post-Bid Letter of Credit submitted does contain the same requested modifications as a prior submittal, the Independent Evaluator will provide the RFP Bidder with PECO's assessment of the prior submittal upon request and the Draft Post-Bid Letter of Credit will not be reviewed again.
- All approved modifications to the Standard Post-Bid Letter of Credit will be posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.
- An RFP Bidder that chooses not to propose modifications to the Standard Pre-Bid Letter of Credit must clearly indicates that fact.

~~I.1.78.~~IV.3.3. Standard Guaranty. RFP Bidders have an opportunity, in the Part 1 Proposal, to propose modifications to the Standard Guaranty.

- The Uniform SMA includes, as Appendix G, Guaranty Documentation that may be used to provide a financial guaranty under the terms of the Uniform SMA. This Paragraph refers to this financial guaranty as the "Standard Guaranty".
- Whether or not the RFP Bidder has previously qualified, an RFP Bidder may, in its Part 1 Proposal, request modifications to the Standard Guaranty that are non-material in nature, or that are advantageous to both PECO and the RFP Bidder. An RFP Bidder requests modifications to the Standard Guaranty by submitting a Draft Guaranty substantially in the form of the Standard Guaranty indicating clearly any and all modifications to the Standard Guaranty. The Draft Guaranty must be submitted in Microsoft Word by upload to the online Part 1 Form or by email at pecoprocurement@nera.com. A Draft Guaranty that is not substantially in the form of the Standard Guaranty will not be considered or evaluated.

- An RFP Bidder must confirm whether the Draft Guaranty submitted as part of the Part 1 Proposal contains the same requested modifications as a Draft Guaranty submitted in a prior solicitation. If the Draft Guaranty submitted does contain the same requested modifications as a prior submittal, the Independent Evaluator will provide the RFP Bidder with PECO's assessment of the prior submittal upon request and the Draft Guaranty will not be reviewed again.

- All approved modifications to the Standard Guaranty will be posted to the RFP website. Each RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification.

- An RFP Bidder that chooses not to propose modifications to the Standard Pre-Bid Letter of Credit must clearly ~~indicates~~indicate that fact.

~~I.1.79.~~IV.3.4. Information to Prepare the Uniform SMA. This paragraph applies only to RFP Bidders that are not Default Suppliers. Such RFP Bidder is asked, in its Part 1 Proposal, to provide all information needed by the Independent Evaluator to prepare for execution the Uniform SMA and its Exhibits by completing the Uniform SMA Insert prepared for this purpose and available on the Proposal submission website. The RFP Bidder provides the Uniform SMA Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com. If the Independent Evaluator identifies one or more of such RFP Bidder's Bids to the Commission as ~~winning~~lowest-priced Bids, the Independent Evaluator will use this information to prepare the Uniform SMA and its Exhibits for execution.

- Such RFP Bidder is asked: (i) to specify any elections to be made in the Uniform SMA; and (ii) to provide the contact information required to prepare the Form of Notice, which is included as Exhibit 2 to the Uniform SMA; and (iii) to provide any additional information required to prepare the Uniform SMA and its Exhibits.

- If such RFP Bidder fails to submit these elections and information with the Part 1 Proposal, the Officer of the RFP Bidder must acknowledge that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as ~~winning~~lowest-priced Bids, the RFP Bidder will be required to provide: (i)

any elections to be made in the Uniform SMA; and (ii) the contact information to prepare the Form of Notice; and (iii) any additional information required to prepare the Uniform SMA and its Exhibits; by 12 PM (noon) EPT on the business day after such notification is received. The Officer of the RFP Bidder provides the required acknowledgement by completing the Delay (SMA) Insert prepared for this purpose and available on the Proposal submission website. ~~The RFP Bidder provides the Delay (SMA) Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.~~

~~I.1.80.~~IV.3.5. All information required by this Section IV.3~~IV.3~~ must be provided exclusively by completing Section 3 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII~~Article VII~~. Inserts and documents must be submitted by upload to the online Part 1 Form or by email to the Independent Evaluator at ~~pecoprocurement@nera.com~~pecoprocurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.4. Representations

~~I.1.81.~~IV.4.1. Representations by the Officer of the RFP Bidder. Whether or not an RFP Bidder has previously qualified, the Officer of the RFP must certify that:

- he/she is an officer, a director, or an individual otherwise authorized to undertake contracts (including the Uniform SMA) and bind the RFP Bidder;
- all information provided in the Part 1 Proposal is true and accurate to the best of the knowledge and belief of the Officer of the RFP Bidder;
- if, for any reason or due to any circumstance, any information provided in the Part 1 Proposal changes or any previous certification fails to remain valid before the sixth business day after the Bid Date, the Officer of the RFP Bidder or the Representative will notify the Independent Evaluator of such changes as soon as practicable but in no event later than one (1) business day before the Bid Date;

- the Part 1 Proposal will remain valid and remain in full force and effect until six (6) business days after the Bid Date; and
- the RFP Bidder is not part of a bidding agreement, a joint venture for purposes of participating in any solicitation for this RFP, a bidding consortium, or any other type of agreement related to bidding in any solicitation of this RFP. An RFP Bidder found to be acting in concert with another RFP Bidder may be disqualified by the Independent Evaluator.

The Officer of the RFP Bidder presents such certifications by completing the P1 Certifications (A) Insert prepared for this purpose. ~~The RFP Bidder provides the required Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.~~

~~I.1.82.~~IV.4.2. Additional Representations for RFP Bidders that have not previously qualified. If an RFP Bidder has not previously qualified, the Officer of the RFP Bidder must certify that:

- he/she understands the terms of the Uniform SMA, that the RFP Bidder accepts all of the terms of the Uniform SMA without modifications, and that the RFP Bidder will execute the Uniform SMA and the Transaction Confirmation(s) for all Bids approved by the Commission;
- the submission of the Part 1 Proposal constitutes the RFP Bidder's acknowledgement and acceptance of all the terms and conditions of the RFP, regardless of the outcome of the solicitation or the outcome of such Proposal;
- the RFP Bidder has no actions at law, suits in equity, proceedings or claims pending or, to the RFP Bidder's knowledge, threatened against it before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the RFP Bidder's performance of its obligations under the Uniform SMA;
- the RFP Bidder is not bankrupt or insolvent and there are no proceedings pending or being contemplated by it or, to its knowledge, threatened against it which would result in it being or becoming bankrupt or insolvent; and
- if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as ~~winning~~lowest-priced Bids, all information required for the preparation of the Uniform SMA and its Exhibits must be

submitted and complete by 12 PM (noon) EPT on the business day after such notification is received;

The Officer of the RFP Bidder presents such certifications by completing the P1 Certifications (B) Insert prepared for this purpose. ~~The RFP Bidder provides the required Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.~~

~~I.1.83.~~IV.4.3. Additional Representations for RFP Bidders have previously qualified but that are not Default Suppliers. If an RFP Bidder has previously qualified but is not a Default Supplier, the Officer of the RFP Bidder must certify that:

- The RFP Bidder has no actions at law, suits in equity, proceedings or claims pending or, to the RFP Bidder's knowledge, threatened against it before any federal, state, foreign or local court, tribunal or governmental agency or authority that might materially delay, prevent or hinder the RFP Bidder's performance of its obligations under the Uniform SMA;
- The RFP Bidder is not bankrupt or insolvent and there are no proceedings pending or being contemplated by it or, to its knowledge, threatened against it which would result in it being or becoming bankrupt or insolvent; and
- if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as ~~winning~~lowest-priced Bids, all information required for the preparation of the Uniform SMA and its Exhibits must be submitted and complete by 12 PM (noon) EPT on the business day after such notification is received.

The Officer of the RFP Bidder presents such certifications by completing the P1 Certifications (C) Insert prepared for this purpose. ~~The RFP Bidder provides the required Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.~~

~~I.1.84.~~IV.4.4. PJM Load Serving Entity. The requirements of this paragraph apply only to RFP Bidders that are not previously qualified RFP Bidders. A Default Supplier must be an LSE by the start of the supply period.

- An RFP Bidder that has not previously qualified must, in its Part 1 Proposal, either: (i) demonstrate that the RFP Bidder is an LSE in PJM by providing the signature page of the Reliability Assurance Agreement ("RAA"); or (ii) certify that the RFP Bidder has investigated the requirements to become an LSE in PJM and that there exist no impediments for the RFP Bidder to become an LSE by the start of the supply period and to remain an LSE for the duration of the supply period.
- An RFP Bidder that provides the signature page of the RAA does so by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.
- An RFP Bidder that submits the certification above does so by completing the LSE Representation Insert prepared for this purpose and available on the Proposal submission website. ~~The RFP Bidder provides the LSE Representation Insert by upload to the online Part 1 Form or by email at pecoprocurement@nera.com.~~

~~I.1.85.~~IV.4.5. All information required by this Section IV.4~~IV.4~~ must be provided exclusively by completing Section 4 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII~~Article VII~~. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

IV.5. Foreign RFP Bidders and Foreign Entities

~~I.1.86.~~IV.5.1. The requirements of this ~~Section~~section apply only to: (1) Foreign RFP Bidders; or (2) RFP Bidders that rely on the financial standing of a Foreign Entity as RFP Guarantor; or RFP Bidders submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal. Other RFP Bidders are not subject to the requirements of this ~~Section~~section.

~~I.1.87.~~IV.5.2. Additional requirements for Foreign RFP Bidders. The requirements of this Paragraph apply only to Foreign RFP Bidders; other RFP Bidders are not subject to the requirements of this Paragraph.

- Whether or not such RFP Bidder has previously qualified, such RFP Bidder may provide, in addition to supplying all required information and documents under Section IV.2, any

additional evidence of creditworthiness so as to provide PECO with comparable assurances of creditworthiness as is applicable for an RFP Bidder that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

- If such RFP Bidder has not previously qualified, the Officer of a Foreign RFP Bidder must acknowledge that the following additional documents are required with the Part 2 Proposal: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

- Whether or not such RFP Bidder has previously qualified, such RFP Bidder may, but is not required to, submit a draft of the following documents for evaluation: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA. The

Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal. If such RFP Bidder submits a draft of these documents for evaluation, the Independent Evaluator will provide this evaluation to such RFP Bidder, including notice of any changes required to the documents, along with the Part 1 Notification.

- The RFP Bidder presents this information by completing the P1 Foreign Bidder Insert prepared for this purpose and provides associated documents. This Insert is available on the Proposal submission website.

~~I.1.88.~~IV.5.3. Additional requirements for RFP Bidders relying on the financial standing of a Foreign Guarantor. The requirements of this Paragraph apply only to RFP Bidders that rely on the financial standing of a Foreign Entity as RFP Guarantor; other RFP Bidders are not subject to the requirements of this Paragraph.

- Whether or not such RFP Bidder has previously qualified, an RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor may provide, in addition to supplying all required information and documents under Section IV.2, any additional evidence of creditworthiness for the RFP Guarantor so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

- ~~Whether or not~~If such RFP Bidder has not previously qualified, the Officer of such RFP Bidder must acknowledge that the following additional documents are required with the Part 2 Proposal for the Foreign Entity as RFP Guarantor to be granted unsecured credit and for the RFP Bidder to rely on the financial standing of the RFP Guarantor under the terms of the Uniform SMA: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or

similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA.

- Whether or not such RFP Bidder has previously qualified, the RFP Bidder may, but is not required to, submit with its Part 1 Proposal a draft of the following documents: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal. If an RFP Bidder submits a draft of the documents for evaluation, the Independent Evaluator will provide this evaluation to the RFP Bidder, including notice of any changes required to the documents, along with the Part 1 Notification.
- The RFP Bidder presents this information by completing the P1 Foreign Guarantor Insert prepared for this purpose and provides associated documents. This Insert is available on the Proposal submission website.

~~I.1.89.~~IV.5.4. Additional Requirements for RFP Bidders submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal. The requirements of this Paragraph apply only to RFP Bidders that are submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal; other RFP Bidders are not subject to the requirements of this Paragraph.

- Whether or not such RFP Bidder has previously qualified, if the RFP Principal is a Foreign Entity, an RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as RFP Principal may, in addition to supplying all required information and documents under Section IV.2, provide any additional evidence of creditworthiness for the Principal so as to provide PECO with comparable assurances of creditworthiness as is applicable for an entity that has been incorporated or otherwise formed under the laws of a state of the United States or of the District of Columbia.

- ~~Whether or not~~If such RFP Bidder has not previously qualified, the Officer of such RFP Bidder must acknowledge that the following additional documents are required with the Part 2 Proposal: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA.

- Whether or not such RFP Bidder has previously qualified, such RFP Bidder may, but is not required to, submit with its Part 1 Proposal a draft of the following additional documents: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized

by its governing board to enter into agreements of the same type as the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal. If an RFP Bidder submits a draft of the documents for evaluation, the Independent Evaluator will provide this evaluation to the RFP Bidder, including notice of any changes required to the documents, along with the Part 1 Notification.

- The RFP Bidder presents this information by completing the P1 Foreign Principal Insert prepared for this purpose and provides associated documents. This Insert is available on the Proposal submission website.

~~I.1.90.~~IV.5.5. All information required by this Section IV.5 must be provided exclusively by completing Section 5 of the online Part 1 Form and the Inserts prepared for this purpose, as further explained in Article VII~~Article VII~~. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

ARTICLE V. Part 2 Proposal Requirements

RFP Bidders that became eligible to submit Bids in a previous solicitation held under DSP ~~V~~VI may participate in an abbreviated process by using the Short Part 2 Form available online through the Proposal submission website to respond to these requirements.

V.1. Contact Information and Representations

~~I.1.91.~~V.1.1. Contact Information for the RFP Bidder. The RFP Bidder has an opportunity to update contact information provided in the Part 1 Proposal for the RFP Bidder or any individual. Whether or not the RFP Bidder is previously eligible, the RFP Bidder either must confirm that the contact information for the RFP Bidder, the Officer of the RFP Bidder and Representative of the RFP Bidder remains valid or must update this information in the online Part 2 Form. The RFP Bidder may, at any point during the solicitation, provide contact information for Nominees or update this information by submission of the Nominee Insert.

~~I.1.92.~~V.1.2. Representations of the Officer of the RFP Bidder. For a given solicitation, all representations and certifications must be made by a single individual who serves as Officer of the RFP Bidder. All representations and certifications required by this RFP may be made at a single point in time and RFP Bidders have the option to submit the online Part 1 Form and the certifications required by the online Part 2 Form together during the Part 1 Window. If an RFP Bidder did not avail itself of this option and if the Officer of the RFP Bidder who made the representations and certifications of the online Part 1 Form is unavailable to make the representations of the online Part 2 Form, the RFP Bidder must re-submit the certifications of the Part 1 Form by email naming a new individual to serve as Officer of the RFP Bidder by the Part 2 Date, and that Officer of the RFP Bidder must make all representations and certifications required by the online Part 1 Form and the online Part 2 Form. Whether or not the RFP Bidder is previously eligible, the Officer of the RFP Bidder must certify that:

- the Part 2 Proposal will remain valid and remain in full force and effect until six (6) business days after the Bid Date and if any information provided in the Part 2 Proposal changes or any

previous certification fails to remain valid during that time, the RFP Bidder will notify the Independent Evaluator as soon as practicable;

- the RFP Bidder is bidding independently and that it has no knowledge of any information concerning a Proposal by another RFP Bidder in response to this solicitation or any future solicitation under this RFP. Such information includes, but is not limited to: the fact that another RFP Bidder is submitting a Proposal in response to this solicitation or a subsequent solicitation under this RFP; the Bids by another RFP Bidder in this or in a subsequent solicitation under this RFP; the number of tranches bid by another RFP Bidder for any product in this or in a subsequent solicitation under this RFP; the estimation by another RFP Bidder of the value of a tranche of a product; the estimation by another RFP Bidder of the risks associated with providing supply under the Uniform SMA; the preference of another RFP Bidder for bidding on specific products in this or in a subsequent solicitation under the RFP; and the contractual arrangements for power of another RFP Bidder to serve tranches of Default Service Load were that RFP Bidder to become a Default Supplier. This certification must be binding and in effect until the Commission has either approved or rejected each of the ~~winning~~lowest-priced Bids for this solicitation;
- although the RFP Bidder may disclose aspects of its Proposal in communicating with its financial institution for the purpose of preparing the Pre-Bid Letter of Credit or in communicating with advisors (if any), any such communication is made in a manner that can reasonably be expected to maintain the confidentiality of its Proposal;
- with only the exceptions noted in the immediately previous certification, the RFP Bidder has not disclosed, and will not otherwise disclose, publicly or to any other party any information relating to its Proposal, which could have an effect on whether another party submits a Proposal in any solicitation under the RFP, or on the contents of the Proposal that another RFP Bidder would be willing to submit in response to the RFP. Such information includes, but is not limited to: the fact that the RFP Bidder is submitting a Proposal in response to this RFP; the RFP Bidder's Bids in this or in a subsequent solicitation under this RFP; the RFP Bidder's

number of tranches bid for any product in this or in a subsequent solicitation under this RFP; the RFP Bidder's estimation of the value of a tranche of a product; the RFP Bidder's estimation of the risks associated with providing supply under the Uniform SMA; and the RFP Bidder's preference for bidding on specific products in this or in a subsequent solicitation under this RFP. This certification must be binding and in effect until the Commission has either approved or rejected each of the ~~winning~~lowest-priced Bids for this solicitation;

- any Bid on any product submitted in response to this RFP for this solicitation is binding until six (6) business days after the Bid Date and constitutes a binding and irrevocable offer to provide service under the terms of the Uniform SMA at the price specified in the Bid;
- the Officer of the RFP Bidder will execute (or will nominate another authorized individual to execute) the Uniform SMA and all Transaction Confirmation(s) for the RFP Bidder's Bids that are approved by the Commission no later than 2PM on the ~~third~~fifth business day after the ~~Commission has accepted such Bids~~Bid Date; and
- In each Transaction Confirmation, the RFP Bidder will specify a price for each type of AECs (Tier I, Tier I Solar, and Tier II) that is included in the RFP Bidder's ~~winning~~lowest-priced Bids and each such price must be greater than $0/AEC.

The RFP Bidder submits such certifications by completing the P2 Certifications Insert prepared for this purpose and available on the Proposal submission website. ~~The RFP Bidder provides the P2 Certifications Insert by upload to the online Part 2 Form or by email at pecoprocurement@nera.com.~~

~~I.1.93.~~V.1.3. All information required by this Section V.1 must be provided exclusively by completing Section 1 of the online Part 2 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

V.2. Pre-Bid Letter of Credit

~~I.1.94.~~V.2.1. Whether or not an RFP Bidder is previously eligible, the RFP Bidder must provide an executed Pre-Bid Letter of Credit, drawn for the account of the RFP Bidder and acceptable to PECO, in an amount of at least: $250,000 per tranche bid on products for the RES and SC Classes, plus $125,000 per tranche bid on a product for the CCI Class (if applicable) in accordance with the requirements of this Section V.2~~V.2~~. A single Pre-Bid Letter of Credit is submitted even if the RFP Bidder bids on more than one product or if the RFP Bidder bids to supply both full requirements on a fixed-price basis and full requirements on a spot-price basis.

~~I.1.95.~~V.2.2. ~~The RFP Bidder must state whether the Pre-Bid Letter of Credit has already been sent to the Independent Evaluator. The hardcopy~~The executed Pre-Bid Letter of Credit must be ~~sent by overnight delivery service~~submitted as an electronic PDF file via electronic means only to the Independent Evaluator at ~~the address indicated~~ PECOProcurement@nera.com. A Pre-Bid Letter of Credit sent in ~~the Part 2 Form. RFP Bidders may, but are not required to, provide an electronic executed version of the Pre-Bid Letter of Credit for evaluation.~~ hard copy cannot be accepted.

~~I.1.96.~~V.2.3. The RFP Bidder must either use the Standard Pre-Bid Letter of Credit provided in Appendix 9 to these RFP Rules, or the RFP Bidder must submit a Pre-Bid Letter of Credit that incorporates only those modifications to the Standard Pre-Bid Letter of Credit accepted as a result of the evaluation of the Part 1 Proposals. All approved modifications will be posted to the RFP website. An RFP Bidder may use any of the approved modifications, regardless of whether the RFP Bidder itself or another RFP Bidder proposed the modification. The RFP Bidder cannot, in its Part 2 Proposal, propose or incorporate any modification to its Pre-Bid Letter of Credit other than the modifications approved and posted as such on the RFP website.

~~I.1.97.~~V.2.4. Generally, PECO and the Independent Evaluator will release the Pre-Bid Letter of Credit no later than six (6) business days after the Bid Date. An RFP Bidder may, in Section 2 of the Part 2 Form, provide special instructions for the return of the Pre-Bid Letter of Credit. If the Commission does not approve any of the RFP Bidder's Bids, PECO and the Independent Evaluator will release that RFP

Bidder's Pre-Bid Letter of Credit within three (3) business days of the Bid Date. The prompt release of the Pre-Bid Letter of Credit will be conditioned upon the RFP Bidder not having violated any undertakings agreed to as part of the RFP.

~~I.1.98.~~V.2.5. Payment under the Pre-Bid Letter of Credit can be demanded by PECO if: (i) the RFP Bidder has made a material omission or misrepresentation in its Part 1 Proposal or in its Part 2 Proposal; (ii) the RFP Bidder discloses information relating to its Proposal publicly or to any other party before the Commission has rendered its decision on the results of this solicitation; or (iii) the RFP Bidder has one or more Bids approved by the Commission and the RFP Bidder fails to execute the Uniform SMA and its Exhibits or fails to meet the creditworthiness requirements within the timeframe required.

~~I.1.99.~~V.2.6. All information required by this Section V.2 must be provided exclusively by completing Section 2 of the online Part 2 Form, as further explained in Article VII~~Article VII~~. Any ~~documents or~~ special instructions for the return of the Pre-Bid Letter of Credit may be submitted by upload to the online Part 2 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. ~~The executed Pre-Bid Letter of Credit must be sent to the Independent Evaluator at the address provided in the Part 2 Form.~~

V.3. RFP Bidders Relying on the Financial Standing of an RFP Guarantor

~~I.1.100.~~V.3.1. The requirements of this Section V.3 apply only to RFP Bidders relying on the financial standing of an RFP Guarantor; other RFP Bidders are not subject to the requirements of this Section V.3.

~~I.1.101.~~V.3.2. Intent to Provide a Guaranty. The requirements of this paragraph only apply to RFP Bidders that are not Default Suppliers.

- Such RFP Bidder must provide in its Part 2 Proposal a statement from a representative of the RFP Guarantor acknowledging that the RFP Guarantor: (i) has been asked to provide a financial guaranty on behalf of the RFP Bidder should the RFP Bidder become a Default Supplier pursuant to its response under this RFP for procuring supply under the terms of the Uniform SMA; (ii) has a senior unsecured debt rating that meets the Minimum Rating as

defined in the Uniform SMA; and (iii) would consider providing a financial guaranty on behalf of the RFP Bidder should there be no material change in affairs for at least the Indicative Amount. This RFP Guarantor may add that this statement should not and cannot be taken as an indication of financing commitment of any kind whatsoever, or an absolute commitment to provide a financial guaranty.

- The Indicative Amount must meet or exceed the sum of: (i) $600,000 times the number of tranches bid on products for the RES and SC Classes for full requirements on a fixed-price basis; and (ii) $300,000 times the number of tranches bid for the CCI Class for full requirements on a spot-price basis (if applicable).
- The individual signing the intent to provide a guaranty must be a representative of the RFP Guarantor authorized to undertake contracts (including the Guaranty) and bind that RFP Guarantor.

The RFP Bidder provides this statement by completing the Guaranty Intent Insert prepared for this purpose and available on the Proposal submission website. ~~The RFP Bidder provides the Guaranty Intent Insert by upload to the online Part 2 Form or by email at pecoprocurement@nera.com.~~

~~I.1.102.~~V.3.3. Information to Prepare the Guaranty. This paragraph applies to RFP Bidders ~~whether or not they~~that are ~~previously eligible~~not Default Suppliers.

- The RFP Bidder is asked: (i) to specify the governing laws under which the RFP Guarantor is organized; (ii) to provide the name and title of the signatory to the guaranty as well as contact information for an individual who will receive notice under the guaranty; and (iii) to make elections to incorporate any or all of the approved modifications to the Standard Guaranty.
- ~~An RFP Bidder that is a Default Supplier with a Guaranty in force may indicate that all information regarding the guaranty remains current and that the RFP Bidder does not wish to modify or supplement any of the elections regarding approved modifications to the Standard Guaranty.~~
- If an RFP Bidder that is not a Default Supplier with a Guaranty in force fails to submit information required for preparation of the Guaranty with the Part 1 Proposal, the Officer of

the RFP Bidder must acknowledge that, if the Independent Evaluator notifies the RFP Bidder that the Independent Evaluator is identifying one or more of the RFP Bidder's Bids to the Commission as ~~winning~~lowest-priced Bids, the RFP Bidder must provide all required information by 12 PM (noon) EPT on the business day after such notification is received.

The RFP Bidder either provides information needed to prepare the guaranty for execution by completing the Guaranty Insert prepared for this purpose or the RFP Bidder provides an acknowledgement from the Officer of the RFP Bidder that such information will be required if one or more of the RFP Bidder's Bids to the Commission as ~~winning~~lowest-priced Bids by completing the Delay (Guaranty) Insert prepared for this purpose.

~~I.1.103.~~V.3.4. Enforceability Opinion for an Alternate Guaranty. The requirements of this Paragraph only apply to RFP Bidders that have obtained approval from PECO to use an alternate guaranty form under the Alternate Guaranty Process and that are not previously eligible. The Alternate Guaranty Process allows a supplier unable to use the Standard Guaranty provided as Appendix G to the Uniform SMA to submit for consideration by PECO the guaranty that the supplier uses in its normal course of business. Such a guaranty is called an "alternate guaranty form" and the process by which suppliers may obtain approval to use an alternate guaranty is described in Appendix 2. Such RFP Bidder must provide, with its Part 2 Proposal, an executed enforceability opinion for its approved alternate guaranty form on the letterhead of a law firm of national standing by upload to the online Part 2 Form or by email at pecoprocurement@nera.com.

~~I.1.104.~~V.3.5. All information required by this Section V.1 must be provided exclusively by completing Section 3 of the online Part 2 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

V.4. RFP Bidders Relying on the Financial Standing of an RFP Principal

~~I.1.105.~~V.4.1. The requirements of this Section V.4 apply only to RFP Bidders relying on the financial standing of an RFP Principal; other RFP Bidders are not subject to the requirements of this Section V.3.

~~I.1.106.~~V.4.2. Officers' Certificate. Whether or not the RFP Bidder is previously eligible, an RFP Bidder submitting a Proposal under an Agency Agreement must submit an Officers' Certificate substantially in the form of Appendix 6 to these RFP Rules. ~~The Officers' Certificate must be provided by upload to the online Part 2 Form or by email at pecoprocurement@nera.com.~~

- The Officers' Certificate must be signed by an officer of each Principal.
- The Officers' Certificate states that: (i) the copy of the Agency Agreement submitted with the Part 1 Proposal is a true and complete copy of the Agency Agreement as currently in effect; (ii) the Agency Agreement is in full force and effect and shall remain in full force and effect for a period extending to six (6) business days following the Bid Date; (iii) there are no proceedings pending for the amendment or termination of the Agency Agreement; (iv) each individual who has executed the Officers' Certificate and the Agency Agreement is (or was at the time of the execution of such documents) authorized to execute and deliver such documents on behalf of the Principal(s); and (v) the Officer of the RFP Bidder is authorized to execute the Uniform SMA as well as any Transaction Confirmation pursuant to the Uniform SMA on behalf of the Principal(s).
- An Officers' Certificate submitted by a previously eligible RFP Bidder and that was previously acceptable to PECO will remain acceptable to PECO unless there has been a change in the circumstances of the RFP Bidder submitting a Proposal under an Agency Agreement.

~~The RFP Bidder submits the document by upload to the online Part 2 Form or by email at pecoprocurement@nera.com.~~

Appendix 6 will contain instructions describing the acceptable methods of completion and submission an Officers' Certificate and an RFP Bidder must follow such instructions.

~~I.1.107.~~V.4.3. Signatory to the Uniform SMA. If an RFP Bidder is submitting a Proposal under an Agency Agreement and the Principal does not authorize the RFP Bidder to sign the Uniform SMA or to execute

a Transaction Confirmation, such RFP Bidder must name a representative of the Principal who will be authorized to sign the Uniform SMA and all necessary exhibits should such RFP Bidder have ~~winning~~lowest-priced Bids that are approved by the Commission as required by Section VII.3. The RFP Bidder must provide contact information for this individual (address, phone number, and email address). ~~If such RFP Bidder is not previously eligible, the~~The RFP Bidder provides the information in the online Part 2 Form or by email at pecoprocurement@nera.com. ~~If such RFP Bidder is previously eligible, the RFP Bidder either: (i) must confirm that the representative of the Principal remains authorized to sign the Uniform SMA (if applicable because the RFP Bidder is not a Default Supplier) and any Transaction Confirmation and that the previously submitted contact information remains valid in the online Part 2 Form; or: (ii) must update this information in the online Part 2 Form or by email at pecoprocurement@nera.com.~~

~~I.1.108.~~V.4.4. An RFP Bidder that relies on the financial standing of a Principal that is a Foreign Entity must also comply with requirements detailed in Paragraph V.5.4.

~~I.1.109.~~V.4.5. All information required by this Section V.1 must be provided exclusively by completing Section 4 of the online Part 2 Form and the Inserts prepared for this purpose, as further explained in Article VII. Inserts and documents must be submitted by upload to the online Part 1 Form or sent by email to the Independent Evaluator at PECOProcurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

V.5. Foreign RFP Bidders and Foreign Entities

~~I.1.110.~~V.5.1. The requirements of this Section V.5~~V.5~~ apply only to Foreign RFP Bidders, or to RFP Bidders that rely on the financial standing of a Foreign Entity as RFP Guarantor, or to RFP Bidders that submit a Proposal under an Agency Agreement with a Foreign Entity as Principal. Other RFP Bidders are not subject to the requirements of this Section V.5~~V.5~~. An RFP Bidder fulfills the requirements by completing the P2 Foreign Entity Insert prepared for this purpose and available on the Proposal submission website. ~~The RFP Bidder provides the P2 Foreign Entity Insert by upload to the online Part 2 Form or by email at pecoprocurement@nera.com.~~

~~I.1.111.~~V.5.2. Required Documents for Foreign RFP Bidders. A Foreign RFP Bidder receives from the Independent Evaluator upon successfully completing the Part 1 Proposal a provisional assessment that presumes the receipt of the following fully executed additional documents: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Foreign RFP Bidder is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Foreign RFP Bidder in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the person executing the Uniform SMA on behalf of the Foreign RFP Bidder has the authority to execute the Uniform SMA and that the governing board of such Foreign RFP Bidder has approved the execution of the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such Foreign RFP Bidder that the Foreign RFP Bidder has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient.

- If the Foreign RFP Bidder is not previously eligible, such RFP Bidder must submit these fully executed documents in a form acceptable to PECO for the Independent Evaluator to confirm the assessment provided with the Part 1 Notification. If the Foreign RFP Bidder submits these fully executed documents in a form acceptable to PECO, the Independent Evaluator includes in the Part 2 Notification a confirmation of the assessment provided with the Part 1 Notification. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the Foreign RFP Bidder is not granted unsecured credit or that the Foreign RFP Bidder is not eligible to continue further in the RFP.
- If the Foreign RFP Bidder is previously eligible and has previously submitted these additional documents in a form acceptable to PECO, such RFP Bidder either: (i) must confirm that these documents remain valid; or (ii) must update any document that failed to remain valid. The Independent Evaluator confirms the assessment in the Part 2 Notification if all required documents are submitted and are acceptable to PECO. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the Foreign

RFP Bidder is not granted unsecured credit or that the Foreign RFP Bidder is not eligible to continue further in the RFP.

~~I.1.112.~~V.5.3. Required Documents for RFP Bidders with a Foreign Entity as RFP Guarantor. An RFP Bidder that relies on the financial standing of a Foreign Entity as RFP Guarantor receives, with its Part 1 Notification, a provisional creditworthiness assessment for its RFP Guarantor that presumes the receipt of the following fully executed additional documents in a form acceptable to PECO: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the RFP Guarantor is incorporated or otherwise formed that the guaranty pursuant to the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the RFP Guarantor in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the person executing the guaranty pursuant to the Uniform SMA on behalf of the RFP Guarantor has the authority to execute the guaranty pursuant to the Uniform SMA and that the governing board of such RFP Guarantor has approved the execution of the guaranty pursuant to the Uniform SMA; and (iii) the sworn certificate of the corporate secretary (or similar officer) of such RFP Guarantor that the RFP Guarantor has been authorized by its governing board to enter into agreements of the same type as the guaranty pursuant to the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as RFP Guarantor.

- If such RFP Bidder is not previously eligible, such RFP Bidder must submit these fully executed documents in a form acceptable to PECO for the Independent Evaluator to confirm the creditworthiness assessment provided with the Part 1 Notification. If the RFP Bidder submits these fully executed documents and these documents are acceptable to PECO, the Independent Evaluator includes in the Part 2 Notification a confirmation of the creditworthiness assessment provided with the Part 1 Notification. If the RFP Bidder does not submit these documents, or if these documents are not acceptable to PECO, the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that the Foreign Entity as RFP Guarantor is not granted unsecured credit. The RFP Bidder may not rely on the financial standing of the RFP Guarantor. Any guaranty submitted in the Part 2

Proposal will be removed from consideration and the Independent Evaluator may request additional information regarding the RFP Bidder under Section IV.2~~IV.2~~.

- If such RFP Bidder is previously eligible and has submitted these additional documents in a form acceptable to PECO, such RFP Bidder either: (i) must confirm that these documents remain valid; or (ii) must update any document that failed to remain valid. The Independent Evaluator confirms the creditworthiness assessment provided with the Part 1 Notification if the RFP Bidder all required documents are submitted and are acceptable to PECO. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that the RFP Guarantor is not granted unsecured credit. The RFP Bidder may not rely on the financial standing of the RFP Guarantor. The Independent Evaluator may request additional information regarding the RFP Bidder under Section IV.2~~IV.2~~.

~~I.1.113.~~V.5.4. Required Documents for RFP Bidders submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal. An RFP Bidder submitting a Proposal under an Agency Agreement with a Foreign Entity as Principal receives, with its Part 1 Notification, a provisional assessment that presumes the receipt of the following documents fully executed and acceptable to PECO: (i) a legal opinion of outside counsel qualified to practice in the foreign jurisdiction in which the Principal is incorporated or otherwise formed that the Uniform SMA is, or upon the completion of execution formalities will become, the binding obligation of the Principal in the jurisdiction in which it has been incorporated or otherwise formed; and (ii) the sworn certificate of the corporate secretary (or similar officer) of such Principal that the Principal has been authorized by its governing board to enter into agreements of the same type as the Uniform SMA. The Independent Evaluator will make available to RFP Bidders a sample of the legal opinion of outside counsel that is sufficient for a Foreign Entity as Principal.

- If such RFP Bidder is not previously eligible, such RFP Bidder must submit these fully executed documents in a form acceptable to PECO for the Independent Evaluator to confirm the assessment provided with the Part 1 Notification. If the RFP Bidder submits these fully executed documents and these documents are acceptable to PECO, the Independent Evaluator

includes in the Part 2 Notification a confirmation of the assessment provided with the Part 1 Notification. If the RFP Bidder does not submit these documents, or if these documents are not acceptable to PECO, the Independent Evaluator provides with the Part 2 Notification a revised assessment that either states that the RFP Bidder and the Foreign Entity as RFP Principal are not granted unsecured credit or that the RFP Bidder is not eligible for continue further in the RFP.

- If such RFP Bidder is previously eligible, such RFP Bidder either: (i) must confirm that these documents remain valid; or (ii) must update any document that failed to remain valid. The Independent Evaluator confirms the assessment provided with the Part 1 Notification if the RFP Bidder all required documents are submitted and are acceptable to PECO. Otherwise, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the RFP Bidder and the Foreign Entity as RFP Principal are not granted unsecured credit or that the RFP Bidder is not eligible to continue further in the RFP.

~~I.1.114.~~V.5.5. The information required by this Section V.5 must be provided exclusively by completing Section 5 of the online Part 2 Form, as further explained in Article VII~~Article VII~~. Documents must be submitted by upload to the online Part 2 Form or sent by email to the Independent Evaluator at ~~pecoprocurement@nera.com~~pecoprocurement@nera.com. An Insert that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions.

ARTICLE VI. Bid Submission

~~I.1.115.~~VI.1.1. The Independent Evaluator prepares an electronic Bid Form for each RFP Bidder qualified pursuant to a successful Part 1 Proposal. If the RFP Bidder cannot bid on all tranches available of a product because of the Load Cap for the Class to which such product belongs and because of tranches previously won by the RFP Bidder, the Bid Form reflects that fact. The Independent Evaluator sends at the same time instructions for completion of the Bid Form, for the optional encryption of the Bid Form, for electronic transfer of the completed Bid Form to the Independent Evaluator, for an alternate submission method for Bids in case of technical difficulties with the electronic transfer, as well as information used for authenticating the Bids, including the RFP Bidder's unique username, password, and security codes. The Independent Evaluator transmits these materials, the "Part 1 Materials", within two (2) business days of the Part 1 Notification Date, by secure file transfer. The Independent Evaluator requires a confirmation of receipt of these materials in the online Part 2 Form.

~~I.1.116.~~VI.1.2. The exclusive method for submitting an RFP Bidder's Bids is the Bid Form. An RFP Bidder must fill out all required information on the Bid Form according to the instructions provided by the Independent Evaluator. An RFP Bidder may, but is not required to, encrypt its Bid Form. Encryption provides an additional layer of protection for the confidentiality of the RFP Bidder's data. An RFP Bidder must submit the Bid Form to the Independent Evaluator through a secure file transfer system according to the instructions provided by the Independent Evaluator. An RFP Bidder must fill out contact information on its Bid Form and the Independent Evaluator will use that information to confirm receipt of the Bids. All instructions noted in this Paragraph are included in the Part 1 Materials.

~~I.1.117.~~VI.1.3. In case of technical difficulties while using the secure file transfer system, the Independent Evaluator will instruct the RFP Bidder to email the Bid Form to the Independent Evaluator. The Independent Evaluator will recommend that the Bid Form in this case be encrypted and the Independent Evaluator will note for the RFP Bidder that such transmission may not be secure. An RFP Bidder that is not able to use the secure file transfer system must advise the Independent Evaluator of that fact by ~~phone and must at that time provide authenticating information.~~email or

text. The Independent Evaluator will provide additional instructions for such a contingency that will be included with the Part 1 Materials.

~~I.1.118.~~VI.1.4. All Bid Forms must be received between 10 AM and 12 PM (noon) on the Bid Date. No late Bid Forms will be accepted regardless of the method used by the RFP Bidder to submit its Bid Form.

~~I.1.119.~~VI.1.5. A Bid for a tranche for any product is a price in U.S. Dollars per MWh, and must be displayed in the format $xx.xx or $xxx.xx, rounded to the nearest cent. The number of tranches bid on a product is the number of tranches of that product for which a Bid is provided.

~~I.1.120.~~VI.1.6. A Bid that is not expressed in dollars per MWh will automatically be rejected. A Bid that that has more than two (2) decimals will be automatically rounded to the nearest cent.

~~I.1.121.~~VI.1.7. The RFP Bidder may not bid on less than a full tranche for a product. The RFP Bidder may not bid on fractions, portions, or parts of tranches.

~~I.1.122.~~VI.1.8. The RFP Bidder may not submit any additional instructions, contingencies, or conditions on its Bids. Any such additional instructions, contingencies, or conditions will be ignored.

~~I.1.123.~~VI.1.9. An RFP Bidder may not submit Bids that exceed the Load Caps and the Bid Form will include guidance for the RFP Bidder so that the RFP Bidder submits Bids that conform with the Load Caps. The Load Caps are described in Paragraph I.2.11.

~~I.1.124.~~VI.1.10. The number of tranches bid for an RFP Bidder may not exceed the number of tranches supported by the Pre-Bid Letter of Credit. The amount of the Pre-Bid Letter of Credit is described in Paragraph V.2.1. The procedure used by the Independent Evaluator to modify the Bid Form is described in Paragraph VII.2.10.

~~I.1.125.~~VI.1.11. Bids are evaluated on a price-only basis, in accordance with the process described in Section VII.2.

ARTICLE VII. Process

VII.1. Part 1 and Part 2 Proposals: Submission and Processing

~~I.1.126.~~VII.1.1. The Independent Evaluator, for the purposes of this RFP, transmits all communications to the "Bidder Team" consisting of the Representative of the RFP Bidder and any Nominees. The Representative or the Officer of the RFP Bidder may designate up to three (3) Nominees.

~~I.1.127.~~VII.1.2. Any notification or written communication will be deemed received by the RFP Bidder at the time of delivery or transmission, provided that when delivery or transmission occurs after 6 PM on a business day or occurs on a day that is not a business day, receipt will be deemed to occur at 9 AM on the following business day.

~~I.1.128.~~VII.1.3. The exclusive method of responding to the qualification standards for the Part 1 Proposal listed in Article IV of these RFP Rules is the use of the online Part 1 Form. RFP Bidders that did not qualify in a previous solicitation under DSP ~~V~~VI must use the Standard Part 1 Form to respond to the qualification standards described in Article IV. Previously qualified RFP Bidders may participate in an abbreviated Part 1 Proposal process by using the Short Part 1 Form. The generic term "Part 1 Form" refers either to the Standard Part 1 Form or to the Short Part 1 Form. Responses to the qualification standards of Article IV that do not use the online Part 1 Form will not be considered and the Part 1 Proposal will be considered deficient.

~~I.1.129.~~VII.1.4. An RFP Bidder must provide contact information for the RFP Bidder, name an Officer of the RFP Bidder who designates a Representative of the RFP Bidder and make general representations as required by Section IV.1~~IV.1~~, exclusively by completing Section 1 of the online Part 1 Form. An RFP Bidder must show compliance with the financial requirements of Section IV.2~~IV.2~~ exclusively by completing Section 2 of the online Part 1 Form and by providing all documents supporting the financial information and credit information as requested in that Section of the online Part 1 Form. The RFP Bidder is asked to provide all information to prepare the Uniform SMA, as required by Section IV.3~~IV.3~~ exclusively by completing Section 3 of the online Part 1 Form. The RFP Bidder must show that it has all regulatory authorizations necessary for it to legally perform its obligations under the Uniform SMA and the Transaction Confirmations as required by Section IV.4~~IV.4~~, exclusively by

completing Section 4 of the online Part 1 Form. A Foreign RFP Bidder that seeks to be granted unsecured credit under the terms of the Uniform SMA, or an RFP Bidder relying on the financial standing of a Foreign Entity, either an RFP Guarantor or a Principal, must provide any additional information required by Section IV.5, exclusively by completing Section 5 of the Part 1 Form.

~~I.1.130.~~VII.1.5. The Part 1 Proposal for an RFP Bidder includes the completed Part 1 Form as well Inserts to the Part 1 Form available as separate Word Forms on the Proposal submission website or from the Independent Evaluator. Documents (supporting documents, draft Letter of Credit ~~or~~and draft Standard Guaranty~~, and Inserts~~) may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 1 Form that does not require a signature may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 1 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions. Responses to the qualification standards of Article IV that do not use the online Part 1 Form and the Inserts prepared for this purpose will not be considered and the part 1 Proposal will be considered deficient. No late Part 1 Proposals will be accepted under any circumstances.

~~I.1.131.~~VII.1.6. The Independent Evaluator considers and processes the Part 1 Proposals during the Part 1 Window. When a Part 1 Proposal is received, the Independent Evaluator sends an acknowledgment to the RFP Bidder by email. The Independent Evaluator only processes Part 1 Proposals during the Part 1 Window and, if the Part 1 Proposal is received before the Part 1 Window opens, the Independent Evaluator confirms receipt no later than on the first day of the Part 1 Window.

~~I.1.132.~~VII.1.7. If the Part 1 Proposal is received before 12 PM (noon) on any business day during the Part 1 Window, the Independent Evaluator sends the acknowledgment confirming receipt on the day the Part 1 Proposal is received with the results of an initial review. The initial review states either that the Part 1 Proposal is complete and is being considered, or the initial review lists items of the Part 1 Proposal that are deficient or require clarification. If a Part 1 Proposal is received after 12 PM (noon) on any business day during the Part 1 Window prior to the Part 1 Date, the Independent Evaluator

sends the acknowledgment along with the initial review by 12 PM (noon) of the next business day. The Independent Evaluator sends such acknowledgments to the RFP Bidder by email.

~~I.1.133.~~VII.1.8. An RFP Bidder that submits a Draft Pre-Bid Letter of Credit will receive a review of any proposed modifications within two (2) business days. The Independent Evaluator sends such review by email. The RFP Bidder can only submit one (1) Draft Pre-Bid Letter of Credit. Any review communicated to the RFP Bidder of the Draft Pre-Bid Letter of Credit is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this review. All modifications accepted to the Standard Pre-Bid Letter of Credit for the benefit of a single RFP Bidder will be made available to all RFP Bidders on an optional basis. All such modifications will be posted in a single document on the RFP website that will be updated daily during the Part 1 Window. By 12 PM (noon) on the day the Part 2 Window opens, the final document containing all accepted modifications will be posted.

~~I.1.134.~~VII.1.9. An RFP Bidder that submits a Draft Post-Bid Letter of Credit will receive a review of any proposed modifications within seven (7) business days. The Independent Evaluator sends such review by email. The RFP Bidder can only submit one (1) Draft Post-Bid Letter of Credit. Any review communicated to the RFP Bidder of the Draft Post-Bid Letter of Credit is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this review. All modifications accepted to the Standard Post-Bid Letter of Credit for the benefit of a single RFP Bidder will be made available to all RFP Bidders on an optional basis. All such modifications will be posted in a single document on the RFP website that will be posted no later than 6 PM on the Part 2 Date.

~~I.1.135.~~VII.1.10. An RFP Bidder that submits a Draft Standard Guaranty will receive a review of any proposed modifications within two (2) business days. The Independent Evaluator sends such review by email. The RFP Bidder can only submit one (1) Draft Standard Guaranty. Any review communicated to the RFP Bidder of the Draft Standard Guaranty is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this review. All modifications accepted to the Standard Guaranty for the benefit of a single RFP Bidder will be made available to all RFP Bidders on an optional basis. All such modifications will be posted in a single document on the RFP website that will be updated daily during the Part 1 Window. By 12 PM (noon) on the day the Part 2 Window opens, the final document containing all accepted modifications will be posted.

~~I.1.136.~~VII.1.11. An RFP Bidder submitting a Proposal under an Agency Agreement that submits a Draft Officers' Certificate will receive an evaluation of this document by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of the Draft Officers' Certificate is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

~~I.1.137.~~VII.1.12. A Foreign RFP Bidder that submits a draft of any of the documents described in Paragraph IV.5.2~~IV.5.2~~ will receive an evaluation of these documents by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of such draft documents is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

~~I.1.138.~~VII.1.13. An RFP Bidder that relies on the financial standing of a Foreign Entity as RFP Guarantor and that submits a draft of any of the documents described in Paragraph ~~IV.5.3~~IV.5.3 will receive an evaluation of these documents by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of such draft documents is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

~~I.1.139.~~VII.1.14. An RFP Bidder submitting a Proposal under an Agency Agreement that relies on the financial standing of a Foreign Entity as Principal and that submits a draft of any of the documents described in Paragraph IV.5.4~~IV.5.4~~ will receive an evaluation of these documents by the Part 1 Notification Date. The Independent Evaluator sends such review by email. Any evaluation communicated to the RFP Bidder of such draft documents is final. The RFP Bidder cannot submit a subsequent request for changes on the basis of this evaluation.

~~I.1.140.~~VII.1.15. The RFP Bidder includes, in its Part 1 Proposal, a certification from the Officer of the RFP Bidder that the RFP Bidder is bidding independently and is not acting in concert with another RFP Bidder. The Independent Evaluator may request additional information to ascertain that the RFP Bidder is bidding independently of other RFP Bidders. An RFP Bidder that is not bidding independently of another RFP Bidder may fail to qualify.

~~I.1.141.~~VII.1.16. If an RFP Bidder receives any notice from the Independent Evaluator that any item of the Part 1 Proposal is deficient or requires clarification, the RFP Bidder has until 12 PM (noon) on the Part 1

Date, or until 6 PM on the business day following the business day during which the Independent Evaluator transmits such notice, whichever comes later, to respond. If the RFP Bidder does not correct or adequately explain the deficiency within the time allowed, the Part 1 Proposal may be rejected. The Independent Evaluator sends such notice to the RFP Bidder by email.

~~I.1.142.~~VII.1.17. An RFP Bidder meets the qualification standards of this RFP if its Part 1 Proposal is received on or before 12 PM (noon) on the Part 1 Date, if its Part 1 Proposal is complete, and if its Part 1 Proposal fully complies with all requirements of Article IV.

~~I.1.143.~~VII.1.18. The Independent Evaluator informs each RFP Bidder of whether it has met all qualification standards of Article IV through a Part 1 Notification that the Independent Evaluators sends no later than 6 PM on the Part 1 Notification Date.

~~I.1.144.~~VII.1.19. If the RFP Bidder has a successful Part 1 Proposal, within two (2) business days of the Part 1 Notification Date, the Independent Evaluator transmits to the RFP Bidder a number of documents and instructions, called the Part 1 Materials. The Part 1 Materials include: (i) the Bid Form; (ii) instructions for filling out and optionally encrypting the Bid Form; (iii) instructions for the submission of the completed Bid Form from the RFP Bidder to the Independent Evaluator by secure file transfer system; (iv) instructions for an alternate method for submission of the Bids in case of technical difficulties with the secure file transfer system; (v) an invitation to a training session on the Bid submission process; and (vi) a username, a password, and security codes to be used for Bid submission uniquely by that RFP Bidder. The Part 1 Materials may also include other training materials or important notifications to RFP Bidders. The Independent Evaluator transmits the Part 1 Materials by secure file transfer. However, if special circumstances warrant, the Independent Evaluator may transmit by email a particular document needed for participation in a solicitation upon agreement by the RFP Bidder.

~~I.1.145.~~VII.1.20. The Independent Evaluator requires an acknowledgment from the RFP Bidder that the RFP Bidder has received intact the information necessary to submit Bids and that no one but authorized personnel of the RFP Bidder has had access to this information. The RFP Bidder may make this acknowledgment by email. The RFP Bidder's Bids are only evaluated if this acknowledgment is received.

~~I.1.146.~~VII.1.21. The exclusive method of responding to the requirements for Part 2 Proposals listed in Article V~~Article V~~ of these RFP Rules is the use of the online Part 2 Form. Responses to the requirements of Article V~~Article V~~ that do not use the online Part 2 Form will not be considered and the Part 2 Proposal will be considered deficient.

~~I.1.147.~~VII.1.22. An RFP Bidder must confirm its contact information and make any general representations required by Section V.1~~V.1~~ exclusively by completing Section 1 of the online Part 2 Form. An RFP Bidder must submit the Pre-Bid Letter of Credit as required by Section V.2 and as instructed in Section 2 of the online Part 2 Form. An RFP Bidder relying on the financial standing of an RFP Guarantor will provide intent to provide a guaranty from its RFP Guarantor and an RFP Bidder submitting a Proposal under an Agency Agreement must submit additional documents as required by Section V.3 exclusively by completing Section 3 of the online Part 2 Form. A Foreign RFP Bidder that seeks to be granted unsecured credit under the terms of the Uniform SMA, or an RFP Bidder that seeks to rely on the financial standing of a Foreign Entity (either an RFP Guarantor or a Principal), must submit any additional documents as required by Section V.4 and as instructed by Section 4 of the online Part 2 Form.

~~I.1.148.~~VII.1.23. The Part 2 Proposal consists of the completed online Part 2 Form, the Pre-Bid Letter of Credit, as well as Inserts to the Part 1 Form available as separate Word Forms on the Proposal submission website or from the Independent Evaluator. ~~Documents~~The Pre-Bid Letter of Credit must be submitted as an electronic PDF file via electronic means only to the Independent Evaluator at pecoprocurement@nera.com. An Insert to the Part 2 Form that does not require a signature may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. An Insert to the Part 2 Form that requires a signature will contain instructions describing the acceptable methods of completion and submission for that Insert and an RFP Bidder must follow such instructions. Any other documents, excluding Inserts and the Pre-Bid Letter of Credit, may be uploaded to the Proposal submission website or sent to the Independent Evaluator by email at PECOProcurement@nera.com. In particular:

- For an RFP Bidder relying on the financial standing of an RFP Guarantor and that is not a Default Supplier, the Part 2 Proposal also includes an acknowledgment from a representative of the RFP Guarantor.
- For an RFP Bidder submitting a Proposal under an Agency Agreement, the Part 2 Proposal also includes an executed Officers' Certificate.
- For an RFP Bidder that: (i) is submitting a Proposal under an Agency Agreement and relying on the financial standing of a Foreign Entity as Principal; or (ii) is a Foreign RFP Bidder; or (iii) relies on the financial standing of a Foreign Entity as RFP Guarantor; the Part 2 proposal also includes any documents required by Section V.4 as a condition of being granted unsecured credit. These documents may include an executed legal opinion of outside counsel and a sworn certificate of the corporate secretary.

~~I.1.149.~~VII.1.24. The Independent Evaluator considers and processes the Part 2 Proposals during the Part 2 Window. No late Part 2 Proposals will be accepted under any circumstances. RFP Bidders also have the option to submit the certifications required by the online Part 2 Form during the Part 1 Window for early processing. When a Part 2 Proposal is received, the Independent Evaluator sends an acknowledgment to the RFP Bidder by email. The Independent Evaluator confirms receipt as long as the Part 2 Proposal is received after the opening of the Part 1 Window. However, Part 2 Proposals are only processed during the Part 2 Window (with the exception of certifications, which may be processed during the Part 1 Window).

~~I.1.150.~~VII.1.25. If the Part 2 Proposal is received before 12 PM (noon) on any business day after the opening of the Part 1 Window, the Independent Evaluator sends the acknowledgment confirming receipt on the day the Part 2 Proposal is received with the results of an initial review. The initial review states either that the Part 2 Proposal is complete and is being considered, or the initial review lists items of the Part 2 Proposal that are deficient or require clarification. If a Part 2 Proposal is received after 12 PM (noon) on any business day during the Part 2 Window prior to the Part 2 Date, the Independent Evaluator sends the acknowledgment along with the initial review by 12 PM (noon) of the next business day. The Independent Evaluator sends such acknowledgments by email.

~~I.1.151.~~VII.1.26. An RFP Bidder's Part 2 Proposal is automatically deficient if the Pre-Bid Letter of Credit proposes or includes modifications to the Standard Pre-Bid Letter of Credit included as Appendix 9 of these RFP Rules other than those accepted modifications posted in a single document on the RFP website. If an RFP Bidder receives notice from the Independent Evaluator that its Pre-Bid Letter of Credit is deficient, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. The Independent Evaluator sends such notices by email.

~~I.1.152.~~VII.1.27. The amount of the Pre-Bid Letter of Credit must be at least $250,000 per tranche bid on products for full requirements service on a fixed-price basis, plus $125,000 per tranche bid on the CCI product for full requirements service on a spot-price basis (if applicable). The Indicative Amount for RFP Bidders that rely on the financial standing of an RFP Guarantor and that do not hold a current Uniform SMA with PECO must be equal or exceed $600,000 per tranche bid on products for full requirements service on a fixed-price basis, plus $300,000 per tranche bid on a CCI product for full requirements service on a spot-price basis (if applicable). An RFP Bidder's Part 2 Proposal is automatically deficient if the amount of the Pre-Bid Letter of Credit is not consistent with the Indicative Amount of the Guaranty provided in the Part 2 Form. If an RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. The Independent Evaluator provides such notice to the RFP Bidder by email.

~~I.1.153.~~VII.1.28. For an RFP Bidder that received approval from PECO to use an alternate guaranty form through the Alternate Guaranty Process, PECO and the Independent Evaluator will determine whether the enforceability opinion required under Paragraph V.3.3 is acceptable to PECO, without any liability or obligation to the RFP Bidder or the RFP Guarantor. If the document is not acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the document remains insufficient, the RFP Bidder's

Part 2 Proposal may be rejected. The Independent Evaluator provides such notice to the RFP Bidder by email.

~~I.1.154.~~VII.1.29. For an RFP Bidder submitting a Proposal under an Agency Agreement that provides the documents required under Section ~~V.4~~V.4, PECO and the Independent Evaluator will determine whether the documents provided are sufficient, without any liability or obligation to the RFP Bidder or its Principal(s). If the documents are insufficient and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the documents remain insufficient, the RFP Bidder's Part 2 Proposal may be rejected. The Independent Evaluator provides such notice to the RFP Bidder by email.

~~I.1.155.~~VII.1.30. For a Foreign RFP Bidder that submits the documents required under Paragraph V.5.2~~V.5.2~~, PECO and the Independent Evaluator will determine whether the documents provided are acceptable to PECO, without any liability or obligation to the Foreign RFP Bidder. If the documents are not acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the deficiency remains, the Independent Evaluator provides with the Part 2 Notification a revised assessment that states either that the Foreign RFP Bidder is not granted unsecured credit or that the Foreign RFP Bidder is not eligible to continue further in the RFP. If the Foreign RFP Bidder had submitted these documents with its Part 1 Proposal for evaluation and if the Foreign RFP Bidder conforms the documents submitted with the Part 2 Proposal to the evaluation provided with its Part 1 Notification, then these documents will automatically be considered acceptable to PECO. The Independent Evaluator provides such notices to the RFP Bidder by email.

~~I.1.156.~~VII.1.31. For an RFP Bidder relying on the financial standing of a Foreign Entity as RFP Guarantor and that submits the documents required under Paragraph V.5.3~~V.5.3~~, PECO and the Independent Evaluator will determine whether the documents provided are acceptable to PECO, without any

liability or obligation to the RFP Bidder or the RFP Guarantor. If the documents are acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the deficiency remains, the RFP Bidder the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that the RFP Guarantor is not granted unsecured credit. The RFP Bidder may not rely on the financial standing of the RFP Guarantor and the Independent Evaluator may request additional information regarding the RFP Bidder under Section IV.2~~IV.2~~. If the RFP Bidder had submitted these documents with its Part 1 Proposal for evaluation and if the RFP Bidder conforms the documents submitted with the Part 2 Proposal to the evaluation provided with its Part 1 Notification, then these documents will automatically be considered acceptable to PECO. The Independent Evaluator provides such notices to the RFP Bidder by email.

~~I.1.157.~~VII.1.32. For an RFP Bidder relying on a Foreign Entity as Principal that provides the documents required under Paragraph V.5.4~~V.5.4~~, PECO and the Independent Evaluator will determine whether the documents provided are acceptable to PECO, without any liability or obligation to the RFP Bidder or its Principal(s). If the documents are not acceptable to PECO and the RFP Bidder receives notice from the Independent Evaluator that its Part 2 Proposal is deficient in this regard, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the second business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the deficiency remains, the Independent Evaluator provides with the Part 2 Notification a revised creditworthiness assessment that states that the RFP Bidder and its Principal are not granted unsecured credit. If the RFP Bidder had submitted these documents with its Part 1 Proposal for evaluation and if the RFP Bidder conforms the documents submitted with the Part 2 Proposal to the evaluation provided with its Part 1 Notification, then these documents will automatically be considered acceptable to PECO. The Independent Evaluator provides such notices to the RFP Bidder by email.

~~I.1.158.~~VII.1.33. With the exceptions noted in the Paragraphs of this ~~Section~~section, if an RFP Bidder receives any notice from the Independent Evaluator that an item of the Part 2 Proposal is deficient or requires clarification, the RFP Bidder has until 12 PM (noon) on the Part 2 Date, or until 6 PM on the business day following the business day during which such a notice is sent to the RFP Bidder, whichever comes later, to respond. If the RFP Bidder does not correct or adequately explain the deficiency within the time allowed, the Part 2 Proposal may be rejected. The Independent Evaluator sends such notice to the RFP Bidder by email.

~~I.1.159.~~VII.1.34. An RFP Bidder's Part 2 Proposal is successful if its Part 2 Proposal is received on or before 12 PM (noon) on the Part 2 Date, if its Part 2 Proposal is complete, and if its Part 2 Proposal fully complies with the requirements of Article V~~Article V~~ of these RFP Rules.
