TO ALL PARTIES OF RECORD

Application of PPL Electric Utilities Corporation for approval to alter the public crossing (DOT 518 046 Y) by the replacement of one (1) utility pole and installation of a communications wireline where State Route 3009 (Paxton Street) crosses, above grade, the tracks of Norfolk Southern Railway Company and National Railroad Passenger Corporation (Amtrak) located in the City of Harrisburg, Dauphin County.

To Whom It May Concern:

By application filed with the Commission on May 13, 2024, PPL Electric Utilities Corporation seeks Commission approval to alter the public crossing (DOT 518 046 Y) by the replacement of one (1) utility pole and installation of a communications wireline where State Route 3009 (Paxton Street) crosses, above grade, the tracks of Norfolk Southern Railway Company and National Railroad Passenger Corporation (Amtrak) located in the City of Harrisburg, Dauphin County.

PPL Electric Utilities Corporation will replace one (1) utility pole (pole number 24470S33718) on the northeastern side of the highway bridge and install a new communications wireline through the public crossing within the highway right-of-way. The installation of the proposed aerial communications wireline will provide a minimum vertical clearance of 41-feet 10-inches above the top of rail to the new wireline. The lowest existing aerial wireline at the public crossing is 36-feet 4-inches above the top of rail to the existing wireline.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL Electric Utilities Corporation states that the proposed installation is necessary to provide adequate, efficient and reasonable communication facilities and power to the public in Dauphin County and surrounding areas as well as to support existing and future pole loading conditions. PPL Electric Utilities Corporation will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$10,000.00.

All work is to be performed in accordance with the plans entitled: "EXHIBIT A," consisting of one (1) sheet submitted to the Commission with the application.

PPL Electric Utilities Corporation has served a copy of the application and plans on the Pennsylvania Department of Transportation, Dauphin County, Norfolk Southern Railway Company, City of Harrisburg, CTSI-Frontier, Windstream, DQE Communications LLC, CenturyLink, Comcast and Verizon. All parties in interest, with the addition of National Railroad Passenger Corporation (Amtrak) and the City of Harrisburg, were queried by letter dated May 21, 2024, sent by electronic mail as to any objection to the subject application and plans. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.
