TO ALL PARTIES OF RECORD

Application of PPL Electric Utilities Corporation for approval of the alteration of the crossing (DOT# 250 310 H) by the replacement of one utility pole structure where Dundaff Street (SR 0106) crosses, at grade, the tracks of Delaware-Lackawanna Railroad Company Inc, in Carbondale City, Lackawanna County.

To whom it may concern:

By application filed with the Commission on March 27, 2024, PPL Electric Utilities Corporation seeks Commission approval to alter the public crossing (DOT# 250 310 H) by the replacement of one utility pole structure where Dundaff Street (SR 0106) crosses, at grade, the tracks of Delaware-Lackawanna Railroad Company Inc, in Carbondale City, Lackawanna County.

The utility pole and line will be installed within the right-of-way of Dundaff Street (SR 0106) and Delaware-Lackawanna Railroad Company Inc. The installation of the new pole will provide a minimum vertical clearance of 28'-7" from the top of rail to the proposed line.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL Electric Utilities Corporation states that the proposed installation is necessary to provide adequate, efficient, and reasonable services to its customers. PPL Electric Utilities Corporation will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the new line, at its sole cost and expense. The cost of the project at the subject crossing is anticipated to be approximately \$10,000.

All work is to be performed in accordance with the drawing plans attached to the application as "Exhibit A".

PPL Electric Utilities Corporation has served a copy of the application and installation plan to all parties in interest. All parties in interest were queried by letter dated May 14, 2024, as to any objection to the subject application. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience, or safety of the public.
