PUBLIC UTILITY COMMISSION
Harrisburg, PA 17105-3265

RECEIVED
AUG 5 2024

Thomas and Norma Mosley

v.

C-2018-3001526

Metropolitan Edison Company

FINAL ORDER

In accordance with the provisions of Section 332(h) of the Public Utility Code, 66 Pa. C.S. §332(h), the decision of Administrative Law Judge Jeffrey A. Watson dated June 10, 2020, has become final without further Commission action;

THEREFORE,

IT IS ORDERED:

1. That the Formal Complaint of Thomas and Norma Mosley filed against Metropolitan Edison Company at Docket No. C-2018-3001526 is dismissed with prejudice.
2. That Docket No. C-2018-3001526 be marked closed.

BY THE COMMISSION,

Rosemary Chiavetta
Rosemary Chiavetta
Secretary

I wrote to you several times on my health problems & told you I was having a heart operation to have a new aortic valve put in my heart again. I had severe Aortic Stenosis. But you told me time & time again that my medical problems are not going to stop your harassment. And I will have a Smart Meter Put on my House. I won my case 2 times in PA. Court and you left me alone for awhile. But, you have not only harassed me day in & day out, but all those that have refused it. Yet when I write to you, you do not answer me!

* ~~Trump~~ I need Answered *

* How can you turn over a judge's order *
without a court appearance on my part?
The "Judge said no one will remove my Analog" & you cut my electric off to force me to get your Smart Meter. That is the lowest possible cowardly civil thing you have done to me so far. Now my health especially my heart is in trouble. I will need to go back to my heart Dr. this week because of the problems you have caused thru forcing me into a Smart Meter.

I pity you - For people like you have no conscience. You care about yourself and how much harm you can lay on others. There is a place waiting for you when you die. You will beg for mercy & release & will not get any ever.

Met - Ed -

Rosemary Chiavetta,
Secretary of Pa. Public
Utility Commission -

Tari Dealer plus many more
nearly

On July 11th I had heart surgery
as I told you I would. And if
it wasn't enough that right before I had
my heart surgery you had two huge trucks
& 2, 6 men come & try to take my meter
off my house - then you ^{put} 2 more people to come
to my house & try again to take my meter. I
was home from the hospital "2 days" & "very weak"
& I had to fight off & be threatened to turn
off my electric - which took me into a very
stressed out state which I shouldn't have been
in & I'm still in it. How can you
come to my home knowing I was having a
serious heart operation & put me under all
this stress? If I have a heart attack I'll
not take you to court! - Knowing my health
problems for years & you didn't care! You
just showed how much you would do
to destroy me - You are beyond Evil!

Then you said my documents which I
returned, & would not expect because you
misspelled my name 9 different times - And
you refused to answer my questions on
equal protection of the law. Because you
know I'm right!

This section cited in 52 Pa. Code § 5.431 (relating to close of record).

§ 5.572. Petitions for relief.

(a) Petitions for rehearing, reargument, reconsideration, clarification, rescission, amendment, supersedeas or the like must be in writing and specify, in numbered paragraphs, the findings or orders involved, and the points relied upon by petitioner, with appropriate record references and specific requests for the findings or orders desired.

(b) A copy of every petition covered by subsection (a) shall be served upon each party to the proceeding.

(c) Petitions for reconsideration, rehearing, reargument, clarification, supersedeas or others shall be filed within 15 days after the Commission order involved is entered or otherwise becomes final.

(d) Petitions for rescission or amendment may be filed at any time according to the requirements of section 703(g) of the act (relating to fixing of hearings).

(e) Answers to a petition covered by subsection (a) shall be filed and served within 10 days after service of a petition.

(f) Subsections (a)—(e) supersede 1 Pa. Code § 35.241 (relating to application for rehearing or reconsideration).

Docet # C-2018-3001526

To: Pa. PUC and Met-Ed:

I received your letter once again 5/25/25:
Envelope Enclosed

I am tired, weak & worn. You have harassed me & threatened me since 2018.

This letter will also be sent out to as many people as I can, to show the WORLD your harassment.

I have been my husband's (Thomas Mosley) Care Driver 24/7 for the last 2 yrs. And I am now having all my tests done for my open heart surgery. I guess I won't get rid of your harassment until I get to Heaven (You won't be there !!!) The End Harassment coming from you over the last 6 yrs. is unbelievable. You took me before the judge 2 times & have sent me numerous letters, too many to count! Spare me while I take a break to have open heart surgery. My Hospital & Doctor names are enclosed - maybe you want to check my itinerary. So, you can hound me down harass me some more.

On April 15, 2024. Approximately 11:15 a.m. Two of Met-Ed employees came illegally onto my "posted" property and started to tear down my signs and tape on my meter, they did not even care that Met-Ed had RED STOP tape on

The meter I stood in front of my meter and stopped their destruction. Two 2.7 Hugh Trucks + 2.7 Hugh Guys about 1 ft. or more tried to intimidate me on my own posted property. I'm 5 ft. tall and 77 yrs. old. They said that the court ordered them to take my meter down + put up a Smart Meter. I asked to see the court order papers - they had none. I told them I'm going to court to fight to keep my analog meter for the 3rd time and to never ever come on my property again. They said if they didn't replace it, my electricity would be turned off! I've been threatened so many times that they will turn off my electric. Their threats + intimidation is harassment over + over again. I wrote + confronted the P.P.U.C. once again. It cost me \$30.45 plus the postage for another. They (P.P.U.C) wanted sent. Like I could afford to spend \$30.45 to send a letter that had to be sent Overnight. I have signs of Doctor bills for Tom's 7 major operations plus the medicine + now I'm having open heart surgery. We live on Social Security ^{or do you} for Met-Ed or the P.P.U.C. (these are my new arguments)

Save Receipt

* I am going now on a campaign to find out why the Rich Elgert + the Amish just have to refuse the Smart Meters and you say O.K. And there are many more that are privileged.

* "Here Amish Children" They are not diagnosed with cancer, diabetes, autism,

heart problems, etc. Because, they said
no to Smart Meters & Covid Shots! They
say it is because of their belief system
They refuse things if they are not
safe, not healthy, not Green, or not
Private. The installation of a Smart Meter
is against their belief system.

I am telling you! I have the
same belief system & I am thrown
into court 2 times & threatened time
and time again. Being not allowed
the same treatment is unconstitutional!!

Their kids & family are living healthy
lives & the rest of society's kids are
dying of heart conditions on the sports
fields. These babies & children have a
break & mental outlook! And it's going
to stop!

I have as much rights as the Amish
& other privileged sects & the Rich & evil people
of this world. And I am asking people right
now to stand up and not be discriminated
against for being over that tells the truth! which
the "PPUC does not want know!!"

I have the same rights as the Elite, the
Amish, the government, the PPUC and all other
people of the U.S.

You do not compromise with the Amish
& other special groups! Why Me??

I have the Right to Equal Protection
of the Laws - the 1st section of the Fourteenth
Amendment to the U.S. Constitution (see section
15) provides that no state shall deny to any

Arguments
New

New Arguments

person within its jurisdiction the equal protection of the Law. Perhaps more than any other language in the Constitution, this "Equal protection" clause has been used to strengthen and broaden civil rights all over the country.

* There is no reasonable classification or discrimination between my beliefs or the Amish & other Special Groups. And there should always be equal protection of the Law.

The courts philosophy in applying the "equal protection" and "due process" clauses found forceful expression equal protection "equal protection" and "due process" clauses forceful expression by Congress in the Civil Rights Act of 1964, which squarely bans discrimination of all kinds.

* My Beliefs are the same as the Amish & just because I wasn't Born Amish doesn't mean I cannot have the same beliefs. I've lived among them for 22 yrs. I have the Law on my side so why are you Singling me out & harassing me?! You have harassed me for 6 Long Years. I have over 200

pages to prove it! * You are guilty of Harassment to the 1st Degree. * You are guilty of discrimination * equal protection of the Law. * You are guilty of destroying what is left of my life. I gave you my medical records & Tom's also! So you can't say you didn't know that I have a bad heart. All of which that has left me

New
Norma

* no option but to protect myself from
your harassment, discrimination, the lawful
trespassing & knowingly made my health
in everyway get worse.

Norma Mosley

P.S. - I have been kind to your people
who read my meter - never mean. I
have paid everyone of your bills sent
to me on time. I use minimal electricity.
As you can see by my use. I am not a
threat to anyone, just like the Amish.
But when you single me out, harass
me & destroy my life I will always
push back. When I get to Heaven I'll
finally be rid of you, because you
won't be there. You'll be facing God
for all you've done to me & then be
punished. ~~It's~~ It's hot in HELL! For
Eternity, but don't worry they are all the
same as you - EVIL.

I've prayed thru the Holy Spirit in
the Heavenly Courts of God & put this problem
in God's Hands - So if you know anything
about God's Protection of His Own - you
would be wise not to put in foot on my
property which is posted "NO TRESPASSING". And
not touch my meter or threaten me again!
Because My Property, My Meter & Me are all
covered by the Blood of Jesus! No One, but
no one can stand against a Child of God!

Never Again Is Now!

Amish children and adults were never vaccinated, never wore masks or locked down, and always consume wholesome, natural foods. They do not live with Smart Meters. Consequently, they are the healthiest and happiest people in the country. The Amish had a Covid survival rate 90 times higher than the rest of the country. These and other Amish accomplishments are being kept under wraps by Special Interest.

With the help of a ^{Lawyer} Judge I could create my own Writ of Habeas Corpus, which is Latin for "that you have the body." It is a longstanding and fundamental instrument for protecting individual liberty against arbitrary and lawless governmental actions. Through a Writ of Habeas Corpus, I may ask the court to have my rights declared and respected or for that illegal conditions be stopped and corrected and my Analog Meter be restored to me.

I'm tired of Met-Ed telling me it's the Law. What Law? Not the Law of the People! The so called Law of the Evil people of this world that want total control of the population so they can limit the amount of the people to a more sustainable, controlled size. The dangerous lies of the P.A. Public Utility Co. and Met-Ed pose a threat to all Humans and Animals. They delight in saturating your home & work with RF radiation to eliminate all living things. Your decline of your personal health and murder of all the Animal Kingdom is Here! Are you ready to Fight!

This is what has happened to my land & me

Even the Ticks Are Vanishing

People across globe report disturbing diminution of insect and bird populations in their areas

The reports continue to come in from around the world. The billions of mobile devices and the 9,000 satellites are rapidly replacing the bugs, birds and beasts of the Earth. What follows are emails and letters to Arthur Firstenberg from eyewitnesses on the frontlines of a possible mass extinction event of variety of animal, bird and insect species

By Arthur Firstenberg

Patricia writes from Missouri:

"I have been living in rural southwest Missouri for the last 25 years without a mobile phone. When I bought my home in 2005, the soil on the lot was extremely poor and very compacted from having been driven over with riding mowers for many years. I wanted to bring it back and turn my whole yard into a 'food forest'. I started by sowing clover and cultivating the dandelions instead of trying to get rid of them as so many people do. After the clover started to blossom, I noticed it was being visited by thousands of bumblebees. I had so many hummingbirds that three feeders were needed to keep them from

fighting for access. Mosquitoes were almost non-existent around my area.

"At night I could see hundreds of bats flying around, and in spring the yard and whole area was filled with the peeping of little green tree frogs. They would perch along the rim of my swimming pool and lay their eggs in the water. (Note, the town does not chlorinate the water supply and I do not chlorinate the pool.) Every morning I would check the pool for their eggs and move them to a small pool that I set up just for the frogs, where I would feed the tadpoles and change the water as needed (keeping the tadpoles in buckets during the changes).

"After I had been living here for six years, the first cell tower was erected at the edge of town. Over the next few years, more towers went up, until the whole area was saturated with RF radiation. The town also used a federal grant to change all the electric meters to electronic ones and do away with the analog meters. Each year since, the number of bumblebees seemed to shrink by half, even though I still have the clover and dandelions. During the past 4-5 years, I could count

the number of bumblebees on one hand. The last two years I've seen only one or two per YEAR. The hummingbirds are totally gone. I used to find their nests in the fall when thinning.

"Worst of all is the complete annihilation of the tree frogs. Even friends who live out in the sticks and have ponds on their property have noticed the recent 'silent spring' phenomenon. Speaking of silent springs: It used to be nearly impossible to sleep past dawn with the windows open in spring, summer and fall here due to the enormous numbers of songbirds that produced a morning and evening symphony. Their numbers have declined to the point where I have to actively listen for them in order to hear them at all.

"I could go on about the diminished numbers of butterflies, crickets, praying mantises, spiders and earthworms I've observed. The declines are not limited to the smaller critters: there used to always be cottontail rabbits in the yard, and I haven't seen one of them in recent years. I have lost more pets to cancer since 2010 than I care to count. There aren't even any mice anymore. My personal health has declined

My Symptoms
From the Smart Meter

Sick, exhausted, irritable, Can't Sleep
unless I take Benadryl, Haven't Sleep
since the meter was installed. Headache
Pain, itching all over, pain all over,
Weak, muscle spasms, Hard to walk
in the house, ~~nauseous~~ ^{dizziness}, nauseous,
Red Eyes, heart palpitations, rapid, irregular
heart beat, etc.

Passed out 2 times Etc.

Dear,

Jeffery A Watson

I do hope you can help me out with
this problem with Met-Ed & the PA. P.U.C.

Ever Grateful

Norma Masley
