Liza Mousios
P O. Box 116
Revere, PA 18953-

To Whom It May Concern:

Since 1996, Ms. Mousios has resided the majority of the time at her home residence without incident. However, on or about March 27, 2019, she has been living in her car or tent since, beginning of the day after the a smart meter was installed at her adjacent next door neighbor's house. She continues to be itinerant, living in various locations including her car, a tent and intermittently at friends houses who do not have a smart meter or smart meter close to their house.

Prior to the instillation of the adjacent neighbors smart meter, she had been treated at our office for chronic kidney infections, multiple chemical intolerance syndrome and neuralgia pain from a motor vehicle accident.

However, she developed sudden and new symptoms upon the smart meter installation at the end of March, 2019. SHe was first evaluated at our office on 4/2/2019 with exposure related symptoms included stabbing chest pains, shortness of breath with tightness in the chest, headache, head and ear pressure with high-pitched ringing, joint and muscle pain. In addition she had new onset of vomiting blood and accompanying weight loss. At that office visit of 4/2/2019, she had physical examination findings revealing new thyroid fullness and swelling. Of note, and unrelated to her medical conditions, she also reports that her pet dogs began vomiting and losing weight.

Despite having to experience significant cold temperatures and wind conditions, her symptoms improved from living in her car or tent away from the smart meter. She also reported that when she was able to periodically stay with friends that did not have a smart meter nor any neighbor adjacent smart meter, her symptoms resolved. Anytime she would return to her residence, with the adjacent neighbor smart meter, her above-stated symptoms would return.

On 5/31/2019, at a follow up office visit, after the patient left her residence to avoid smart meter exposure, she had a repeat thyroid exam that was entirely normal.

In my medical opinion, to a reasonable degree of medical certainty, Ms. Mousios has electromagnetic hypersensitivity. Her smart meter exposure symptoms consistently recur upon exposure and dramatically improve with avoidance measures. The current smart meter at her adjacent neighbors home prevents her from residing in her residence in which she has a piano, and a companion, heat, shower and a bed. She is a professional musician and her piano is required in order for her to perform her music profession. Consequently, I medically recommend that her neighbors smart meter be removed or relocated at a significant distance from Ms. Mousios' residence.

Please feel free to contact our office if you have any further questions.

Sincerely,

Provider:
