Docket No. L-2023-3041347**

STATEMENT OF COMMISSIONER JOHN F. COLEMAN, JR.

On November 9, 2023, the Commission considered a recommendation to issue a Notice of Proposed Rulemaking regarding its procedural regulations. I voted to dissent from a Motion that modified the proposed rulemaking order. The order was subsequently tolled by the Office of Attorney General. We now consider a clarified notice of proposed rulemaking that includes changes to the proposed revisions to our regulations. These clarifications resolve some of the reasons for my dissent. However, the proposed order does retain certain substantive modifications that, in my view, fail to satisfy the Regulatory Review Act's criteria for statutory authority, necessity and clarity. These modifications include proposed changes to our interpretations of Sections 316 and 332 of the Public Utility Code, and our rules regarding legal representation in Commission proceedings.¹ Therefore, I will be voting no on the proposed order.
