

Docket C-2024-3050153
Dontissa Wilmer vs PECO

This is a Letter to the courts of my concern with retaliation tactics that PECO continues to use towards me for Filing a Formal Complaint with the PUC.

I have discovered that my name and phone number is associated with another PECO account. The last four numbers of the account is '2222. and the partial address is 2404 Tow*****.

On August 28, 2024, I was emailing PUC help desk as to why the Letters that I previously efiled to the courts were not process. Thats when my electric in my home turned off. There have been attempts in the past to prevent me from reporting illegal activity that as been targeted towards me. When I went on PECO website to see if there was a power outage in this area, there wasn't. Thats when I discovered that there is another PECO account associated with my name and phone number. As in my Formal filing against PECO, I stated that PECO has tampered with the electrical powerlines on my property without authorization. As I suspected PECO can turn off the electric in my home with a push of a button. This needs to be investigated because, this is not the first time that I believe PECO has turned the electric off in my home with undo cause. There were other occassions that I have came home and a breaker was off. I have also notice that my survelliance cameras Ring Home and Comcast cameras would be missing events. When the electric is turned off the Internet is off. That means the modem has no electrical power. Turning the electric off in my home at will and without cause is illegal. I am asking the Courts to inform PECO to Cease and Desist.

Thank you,

Dontissa Wilmer
