To Whom it May Concern,

NGS Application A-2024-3047896 for NuEnergen, LLC was filed as a broker. NuEnergen, LLC does not take title to any gas or electricity sold. Attached bonding letter from NatFuel confirms this. Bonding letters from other utilities were submitted earlier this year as part of the application process.

Dear Kevin,

National Fuel Gas Distribution Corporation (“NFGDC”) is aware NuEnergen, LLC (“NE”) has filed an application with the Pennsylvania Public Utility Commission to supply natural gas service to the public in Pennsylvania and specifically within the service territory of NFGDC.

As you know, in making such an application, NE must furnish acceptable security to each utility where NE will do business. As such, under its tariff, NFGDC could require NE to provide a bond or other financial security instrument in an amount that NFGDC determines to be appropriate.

However, you have indicated, and it is NFGDC’s understanding that NE intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, NE will never take title to any delivered natural gas, nor will it accept any customer payments or deposits.

Based upon your representations, NFGDC has determined that, at this time, NE does not need to post a bond or other form of security to operate in its service territory. However, if the services provided by NE change in the future, NFGDC reserves the right to require security from NE as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at 716-857-7541.

Yours truly,

Jason Allen
