Please forward this to the Secretary of the Commission as the email address that is on our notification does not work thank you very much

Secretary of the Commission

I am an 80 year old widower who merely asked for some consideration for a lesser amount of an increase or even a discount for the winter months to help get through the most difficult time financially. Instead, I get a 35 page manuscript full of legal mumbo-jumbo masked with different codes and numbers. With what precious time I have left, you made me suffer through 33 pages of what could've been summed up on page 33 under the order it is recommended paragraph one, not to mention the amount of trees you could've saved. It was just an "approved in its entirety without modification" I find it interesting that the approved amount of increases are never mentioned again. If I misread something, it was probably due from me trying to stay awake while reading codes and numbers. I was told that the PPUC would probably OK the amount they asked for and they did. Thank you for taking the time to go through the motions.

Ps Will file with the Secretary, but don't have addresses of all the parties of record.

If it's important, the Secretary, could go ahead and forward copies to each of them.

I received this notification on 10 September 24 and it is actually due back if I had exceptions by the 13th at 4:30 PM nice.
