

Fidelis United Energy Solutions

NGS Application Withdrawal Letter

Docket No. A-2024-3050859

9.18.2024

Good morning,

Fidelis United Energy Solutions LLC is requesting to withdraw its current NGS application being considered. We, unfortunately, did not understand the logistics of the process needed to complete the process notification and gathering of bonding letters required, and due to the time needed to complete this, we would not be able to make the deadline for application completion for the commission to review our application in a positive light. We apologize for this inconvenience and will be resubmitting the application later once we have completed the proper steps to satisfy the requirements of the PA PUCO.

Best,

Ryan Boucher

COO

Fidelis United Energy Solutions LLC
