RE: Alan Fabius v. Peco Energy Co.

Docket No. C-2024-3050914

I am in receipt of Peco's Answer to formal complaint, dated 9-10-24. The letter states "If there is no New Matter, Motion or Preliminary Objection included, no response is required. After reading the letter I have not seen either New Matter, Motion nor Preliminary Objection. I am not an attorney however I do have remarks/questions to the statements made.

On page 2 the second paragraph states:

"It is important to note that supplier information is listed on every monthly bill...."

While this statement is correct it is Only listed on the back side of the bill in a manner in which it can be easily overlooked. This is the only bill I am aware of that can be attached to by another company. It is my opinion that this is why the problem occurs. The bill should appear different than normal Peco bill or come directly from the alternative company.

On page 3 the statement "Peco is not a party to the contract with Clean Choice Energy" is listed twice.

Peco collects payment for Clean Choice Energy and bills for the same. I question if Peco is paid by Clean Choice Energy for their billing and collection services? If so I believe they are a party to this entire problem.

Peco should also be aware of the numerous complaints filed with the BBB in reference to the Clean Choice Energy.

Furthermore, for the record I have requested explanation of how an owner of a 2500 sq ft townhouse could possibly owe \$10,544.13 and to date this question is unanswered.

Additionally we request that our account with Peco be protected against future attempts by 3rd party vendors and I was told I would have to call each year.

In conclusion, I request a detailed explanation of how these fees have been accumulated on our account and that until this is resolved that no shutoff notices or further harassment are received.

Very truly yours,

Alan Fabius CC: PUC
