22. Other requirements. Demonstrate compliance with the following:
- a. For **wastewater** system acquisitions, demonstrate compliance with the DEP-approved Act 537 Official Sewage Facilities Plans for the affected municipalities (including the extent of the requested service territory).

RESPONSE: a. PAWC’s proposed acquisition of the EBMA system is consistent with the contents of the DEP-approved Act 537 Plans for the affected municipalities. There are no changes to the requested service territory from that which is currently being served by EBMA, except for the addition of an additional service area in Forward Township, for the purposes of PAWC properly administering its IPP for the industrial customer at this location. PAWC will continue to operate the EBMA system as a regional facility providing service directly to all of Elizabeth Borough and indirectly to portions of Elizabeth Township, Forward Township, and Lincoln Borough by way of bulk service agreements, exactly as laid out in the DEP-approved Act 537 Plans. Copies of the plans are provided in **Appendix A-22-b**.
