**RE: Docket No. A-2018-2641168 | Energo Power and Gas LLC |
Natural Gas Supplier (NGS) | Update**

Dear Secretary Chiavetta:

This filing is provided as an update to information provided by Energo Power and Gas LLC (“Energo”) regarding its natural gas supplier operations. On February 22, 2023, the Pennsylvania Public Utility Commission (“Commission”) approved Energo’s natural gas supplier license. Energo is filing this update to notify the Commission of the following transaction.

Energo entered into an agreement with Sprague Operating Resources LLC (“Sprague”) on May 1, 2024, whereby Sprague would acquire Energo’s commercial and industrial natural gas customers in Pennsylvania and three other states.¹ The parties entered into a transition services agreement in which the customers would remain with Energo until assigned to Sprague with the assignment of those customers not occurring until all required customer consents and governmental approvals were obtained. All customers required to provide consent of assignment have done so and all governmental approvals have been received.²

Energo and Sprague have been working with the local distribution companies (“LDCs”) to address technical requirements to effectuate the transfer of these customers from Energo to Sprague and anticipate that transfer process commencing on or about November 1, 2024, and being completed over the following month or two. The goal is to have all assignments completed prior to year-end.

Very truly yours,

A handwritten signature in blue ink that reads "Jerry Drenis".

Jerry Drenis
President & CEO
Energo Power & Gas LLC

¹ Customers were notified of the acquisition by a joint letter of Energo and Sprague dated May 1, 2024.

² Certain customers were required to provide consent of assignment. Notice of consent to assign was provided to the Commission on April 25, 2024.
