RE: Docket No. A-125055 | Sprague Operating Resources LLC | Natural Gas Supplier (NGS) | Update

Dear Secretary Chiavetta:

This filing is provided as an update to information provided by Sprague Operating Resources LLC ("Sprague") regarding its natural gas supplier operations. On February 10, 2000, the Pennsylvania Public Utility Commission ("Commission") approved Sprague's natural gas supplier license. Sprague is filing this update to notify the Commission of the following transaction.

Sprague entered into an agreement with Energo Power and Gas LLC ("Energo") on May 1, 2024, to acquire Energo's commercial and industrial natural gas customers in Pennsylvania and three other states. The parties entered into a transition services agreement in which the customers would remain with Energo until assigned to Sprague with the assignment of those customers not occurring until all required customer consents and governmental approvals were obtained. All consents and approvals have been received.

On July 17, 2024, Sprague informed the Commission that Sprague Operating Resources LLC intended to also do business as Sprague Energy Services and provided the required supporting detail. On August 21, 2024, the Commission issued a letter acknowledging the update and provided updated licensure. This was a necessary step needed to establish a pool behind certain gas local distribution companies ("LDCs") in order to prepare for the assignment of these customers.

Since this time, Sprague has been working with the LDCs to address technical requirements to effectuate the transfer of these customers from Energo to Sprague and anticipate that transfer process commencing on or around November 1, 2024, and being completed thereafter.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Todd Bohan
