Application: A-2023-3041616

VIA E-MAIL

Pennsylvania Utility Commission
Parties of Record
See attached list for all parties

RE: Application of Crown Castle Fiber for approval of the alteration of the crossing where State Route 2029 (St Johns Church Rd) crosses, at grade, track of Norfolk Southern Railway Company (DOT 517 937 M) by the installation of an underground fiber optic cable in the Borough of Mechanicsburg, Cumberland County.

To whom it may concern,

SPI Communications has been retained by Crown Castle to provide project management and engineering services for an underground fiber optic cable installation per the above-captioned application and a permit extension is now required.

The application was approved by the Pennsylvania Public Utility Commission on September 15, 2023 and in accordance with the approval work was to be completed prior to September 30, 2023. During the pre-construction period, an unknown fiber that has not been identified was found via Ground-penetrating Radar in the path of our proposed directional drill. This caused a delay in construction and as such a request for a permit extension is needed for 1 calendar year from the September 30th, 2023 deadline.

All parties are being served via email. Please file any objections and correspondences via <https://efiling.puc.gov>.

If you have any questions or need additional information, please do not hesitate to contact me at (717) 847-5617.

Sincerely,

Joshua Howells
