TO ALL PARTIES OF RECORD

Application of Verizon Pennsylvania, LLC for approval to alter the public crossing (DOT 140 671 J) by the installation of a fiber optic cable where State Route 3009 (Chichester Avenue) crosses, above grade, two (2) tracks of CSX Transportation, Inc. located in Upper Chichester Township, Delaware County.

To Whom It May Concern:

By application filed with the Commission on May 22, 2024, Verizon Pennsylvania, LLC (Verizon) seeks Commission approval to alter the public crossing (DOT 140 671 J) by the installation of a fiber optic cable where State Route 3009 (Chichester Avenue) crosses, above grade, two (2) tracks of CSX Transportation, Inc. (CSX) located in Upper Chichester Township, Delaware County.

The new fiber optic cable will be attached to existing utility poles and cross above grade the joint right-of-way of State Route 3009 (Chichester Avenue) and CSX. The installation will provide a minimum vertical clearance of 47.0-feet from the top of rail to the new fiber optic cable.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Verizon states that the proposed installation is necessary to eliminate a construction conflict with CSX's plan to construct drainage ditches along its tracks. Verizon will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the new facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$20,000.

Verizon served a copy of the application and plans on Upper Chichester Township, CSX, the Pennsylvania Department of Transportation, and PECO. On September 18, 2024, Verizon provided revised plans via email to a Commission staff engineer. All parties of record, with the addition of Delaware County, were queried by letter dated October 15, 2024, sent via email as to any objection to the subject application and revised plans. None of the parties have responded with any objection to the subject application or revised plans. Delaware County will be made a party to the subject proceeding since they were not served a copy of the application by Verizon.

All work is to be performed in accordance with the revised plans hereby entitled: “EXHIBIT A” consisting of two (2) sheets submitted to the Commission on September 18, 2024.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience, or safety of the public.

The application of Verizon Pennsylvania, LLC is approved as herein directed:
