Motion in opposition to Summary Judgement Requested by Magan Rulli Attorney for PPL Electric

Issue number one is that I did not receive the copy of the Summary Judgement request stated in the certificate of service. There are also numerous inaccuracies that I will point out. The demolition order that Megan Rulli refers to is not an order from any branch of government, or from Columbia County, it is not worth the paper it's written on. The alleged order does not have any case number, or any signatures from any columbia county officials or officers of any kind. That is just a fraudulent legally mute letter that a Luzerne County/Lehigh county third party services vendor wrote, but it has no legal validity or relevance on this proceeding. They are just a third party vendor lacking any authority, and lack any relevance. Essentially they are dangerous clowns. They are not a government unit of any kind in the state of Pennsylvania. That is a scam that Megan Rulli, and Brittany Bacon AKA Brittany Mary Stasic came up with to conspire to destroy my home so that they could claim that the electricity could not be reconnected because the home is no longer there. but they are the ones that committed a crime in engaging in a conspiracy to commit fraud, destruction of property, harassment among other things and crimes and left me homeless, and they also stole my personal belongings inside and outside my house. It's possible that Megan Rulli may not have been there physically at the destruction of the home, but she is one of the intellectual actors in the

crime and should be held accountable. I am requesting that my home be rebuilt, and the electricity reconnected at their expense. PPL Electric's expense. I also believe I am entitled not only for actual damages, but also punitive damages and my living expenses for the hardship they caused by destroying my residence. Megan Rulli reported that PPL shut power to the property because of safety reasons, but did not state the reasons for their actions. There are numerous other anomalies and discrepancies, but in the interest of simplicity, I will stop at this point.

Sincerely,

Antonio Geatti Complainant
