To Whom It May Concern:

PPL proposes to alter the crossing by the replacement of an existing utility pole located to the east of the crossing and reattaching the aerial facilities at a higher elevation than existing within the joint right of way of McKinney Street and Norfolk Southern Railway Company. The restrung lines will provide a minimum clearance of 28.5 feet from the top of rail to the lowest wire.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL states that the proposed alteration is necessary to provide adequate, efficient and reasonable communication facilities and power to residents in Clinton County and the surrounding areas. PPL will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for its facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$10,000.

All work is to be performed in accordance with the plan entitled: "EXHIBIT A" consisting of two (2) sheets submitted to the Commission with the application.

PPL has served a copy of the application and plan on Clinton County, Wayne Township, Comcast, Verizon, Norfolk Southern, and the Pennsylvania Department of Transportation.
