To Whom It May Concern:

I wish to appeal the Opinion and Order in my case that was brought before the Pennsylvania Public Utility Commission (PUC), Docket No. C-2018-3002741.

In fact, two Opinion and Orders were written.

- The first was entered on November 7, 2024.  
In response to that, on November 18, 2024 I filed a Petition for Reconsideration.
- The second Opinion was entered on January 8, 2025.

I believe the PUC was in error in a number of its findings and its representations of the facts. It is these findings and facts that I wish to bring to the attention of the Commonwealth Court. I am well aware that this esteemed Court has heard a number of cases in which complainants seek to opt out of smart meter installation. I will do my best to present to the Court issues which are new, or which examine previously considered matters in a new light.
