We hired them to move a bedroom set and cabinet for us last month. They are very professional, pay attention to detail and the safety of the furniture. I highly recommend them if you're looking for movers!! And they're Kuhn's, so they are all strong as hell!! 🍊

Professionalism, hard working, dedicated, detail oriented and kind are just a few of the words to describe these 3 guys. Moving is stressful but they actually made the final piece of the move enjoyable. They covered and wrapped every piece of furniture and treated it as if it was their own. Not one piece of furniture was damaged or nicked or scratched. They remembered where the furniture came from in the old house and knew where to put it in the new house. I strongly recommend them for your moving needs. They were absolutely the best!!!

I have moved several times in the past few years and these guys did by far the best job! They were extremely efficient and hard working! They paid attention to labels I put on boxes aka fragile items. They were very strategic packing up the truck to ensure items wouldn't be moving all around while in transit. Also leading up to the move, great communication/updates were provided! I would absolutely recommend this company and would definitely call them again in the future for another move.

In addition to the current assets associated with the business, I have personal finances of approximately \$15,000 set aside to invest into the business as it becomes necessary. When we take on the new costs of purchasing a truck, insurance, etc. I plan to stake personal cash in order to keep the new business from acquiring liabilities.
