Harrisburg, PA 17105-3265

**Re: Pennsylvania Public Utility Commission, et al. v. Aqua Pennsylvania, Inc. et al.
Docket No. R-2024-3047822, et al.**

Dear Secretary Chiavetta:

On February 20, 2025, pursuant to the Pennsylvania Public Utility Commission's ("Commission") Opinion and Order entered February 7, 2025, ("Order") in the above-captioned proceeding, Aqua Pennsylvania, Inc., and Aqua Pennsylvania Wastewater, Inc., (collectively, "Aqua PA") submitted clean and redline versions of the updated Tariff Supplements, and updated Proofs of Revenue, as required by Ordering Paragraphs 10 and 11 of the Order. The Commission's Bureau of Technical Utility Services ("TUS") subsequently requested that Aqua PA prepare and submit corrected, replacement cover pages for Tariff Water – PA P.U.C. No. 4 and Tariff Sewer – PA P.U.C. No. 4 to remove references to "Supplement No. 3" on these cover pages. In addition, TUS requested that Aqua PA prepare and submit a corrected, replacement page 88 to Tariff Sewer – PA P.U.C. No. 4 to reflect an issue date of February 20, 2025, instead of May 23, 2024.

Pursuant to the requests of TUS, Aqua PA hereby submits (1) a corrected, replacement cover page for Tariff Water – PA P.U.C. No. 4, and (2) a corrected, replacement cover page and page 88 for Tariff Sewer – PA P.U.C. No. 4.

Copies of this filing are being served as indicated on the enclosed Certificate of Service.

Rosemary Chiavetta, Secretary
February 20, 2025
Page 2

Respectfully submitted,

Garrett P. Lent

Aqua Pennsylvania, Inc.
762 Lancaster Avenue
Bryn Mawr, Pennsylvania 19010

NOTICE

THIS TARIFF PROPOSES INCREASES IN RATES AND CHANGES IN RULES
AND REGULATION OF SERVICE.

RULES AND REGULATIONS**SECTION M – INDUSTRIAL AND COMMERCIAL SERVICE LIMITATIONS**

Pretreatment: At the User's expense, all industrial and commercial waste proposed for discharge into the wastewater system shall be studied to determine the degree of Pretreatment, if any, necessary in order that the Waste will not adversely affect the Company's System, and for compliance with Section H of this tariff. The Company will have the authority to properly control any Waste discharged into the Company's System by regulating the rate of any Waste discharged into the Company's System by requiring necessary Pretreatment, and excluding certain Waste, if necessary, to protect the integrity of the Company's System.

Customer Limitations: Users specifically agree that service applies exclusively for domestic/household sewage. If any User discharges industrial or commercial Waste that:

- The existing wastewater treatment plant is unable to satisfactorily treat; or,
- Is not in compliance with discharge permit standards, disrupts the normal functioning of the existing wastewater treatment plant; or
- Requires the utilization of more wastewater treatment plant capacity per gallon of effluent than that required by average typical domestic wastewater.

Then the User shall provide, at the User's own expense, such Pretreatment as may be necessary before such Waste is discharged into the Company's System. No commercial or industrial Waste, whether pretreated or not, may be discharged without prior written authorization from the Company.

Company Limitations: The Company will not be liable nor bound to increase wastewater treatment plant operations to accommodate industrial or commercial Waste.

Specific Dangers: In general, any Waste will be considered harmful to the Company's System if it may cause any of the following damaging effects:

- Chemical reaction either directly or indirectly with the materials of construction of the Company's System in such a manner as to impair the strength or durability of the sewer structures;
- Mechanical action that will destroy the sewer structures;
- Restriction of the hydraulic capacity of the sewer structures;
- Restriction of the normal inspection or maintenance of the sewer structures;
- Danger to public health and safety; or
- Obnoxious condition contrary to public interest.
