C-2023-3043427

The Complainant is requesting that the complaint against PPL electric company is upgraded to include all and any damages resulting from PPL Electrics mishandling of the case which put the complainant in great danger to have his house destroyed, and any and all resolutions which would be appropriate to replace the Complainants home, and reimburse the complainant for any and all damages including living expenses, and any and all costs created by the mishandling of the case by PPL Electric Company. If it's the defendant's contention that the PUC does not have authority over this case, then the complainant is requesting that this case is reassigned to Commonwealth Court where they do have the resources and the jurisdiction to investigate this case.

Sincerely,

Antonio Geatti
