

Corrected Annual Report

To whom it may concern:

Hyperion Midstream, LLC is writing this cover letter to inform the staff of the Secretary's Bureau that an error was discovered after filing the 2024 annual report. Hyperion Midstream, LLC is requesting that the previous e-filing for the 2024 annual report be rejected. The error in question was the mileage of class 2 and class 3 in service gathering pipeline. The error was minor in nature, with a difference in .2 miles for each class. The error was discovered in a discrepancy between our GIS mapping system and a pipeline mileage tracking spreadsheet. The issue has been resolved and the corrected annual report is attached.

Thank you,

Ethan Kaufman
