Dear Secretary Chiavetta:

We are writing to inform you that NextEra Energy Services Pennsylvania, LLC ("NextEra") (A-2008-2060044) has agreed to acquire approximately 104 commercial and industrial Pennsylvania electric sales agreements of Approved Energy II LLC ("Approved Energy" or "we") (A-2022-3033041). We are working diligently to ensure that all customers and stakeholders are properly informed and no disruption in supply services will occur for any customer. NextEra holds the necessary eligibility to serve the customers included as part of this transaction. In addition, the contracts to be assigned specifically indicate that the agreements can be assigned by Approved Energy.

As part of the transition, we will be working with the applicable distribution utilities to facilitate a smooth process. All current customer contracts will be honored in accordance with their terms.

As a courtesy, we are providing a copy of the customer notice that will be sent to all impacted customers within Pennsylvania. Customers will be able to receive answers to any outstanding questions via phone at the number listed on the attached letter or through their existing account representative with Approved Energy. The timing of the switch will occur at an appropriate meter read date following customers' receipt of the customer notice letter.

We are excited about this transition and believe that it is in the best interest of the customers and both companies. Should there be any questions or concerns, please do not hesitate to contact us directly so that we may resolve any potential issues and complete a smooth transition process.

Sincerely,

Niraj Parikh
Chief Operating Officer

RE: Assignment of Customer Sales Agreement

Dear [Approved Customer],

We hope this message finds you well. We are delighted to share some exciting news with you: our company is growing and transforming. Approved Energy has made the strategic decision to sell its electric retail book in Pennsylvania (the "Transaction"). The electric retail book being sold, which includes your existing electric sales agreement, will be assigned to NextEra Energy Services Pennsylvania, LLC ("NextEra Energy Services"). NextEra Energy Services, which is an indirect subsidiary of NextEra Energy, Inc. ("NextEra," NYSE: NEE), has extensive experience in the retail electric space and, together with its retail affiliates, has retail operations across 7 states.

Although, going forward, you will begin to see "NextEra Energy Services" on your contract documents, communications and invoices, we want to assure you that the Transaction will NOT impact your electric services in any way. There will be no changes in the price, or other terms and conditions of service under your existing agreement as a result of the Transaction.

This move will provide Approved Energy's electric customers in Pennsylvania with more choices and services because of the full suite of capabilities that NextEra Energy Services brings.

Your account will be switched to NextEra Energy Services at an appropriate meter read date following your receipt of this notice. After your account is transitioned to NextEra Energy Services, electricity will continue to flow without interruption, but with NextEra Energy Services as your supplier. Your agreement with Approved Energy will be deemed effectively assigned to NextEra Energy Services. NextEra Energy Services will honor ALL of the terms of your existing agreement and the Transaction will not cause an interruption to your service of any kind. Your local distribution company will continue to be responsible for delivering electricity to your premises and responding to emergencies.

Should you have any questions or concerns, please do not hesitate to reach out to us and we will be happy to provide you with more information and answer any questions you may have regarding your electric service. For any questions regarding NextEra Energy Services, or questions about your electric service arising on and after the date when your account has been transitioned to NextEra Energy Services, we ask that you reach out to NextEra Energy Services.
