RCVD PUC SEC BUR
APR 2 2025 AM 10:35

To whom it may concern: C-2025-3053022

I received a letter from Pawc law firm of Stevens & Lee. It is simply a bunch of legalese and end arounds.

yes I am not a customer yet, but the instant the sale is finalized, I am

yes, I am concerned that the customers were lied to at the meetings regarding the sale, we were told that it would go away, hiding the fact that it doesn't make it "go away." And the PUC

seems to be complicit in the deal.

A while ago, a MR. Brown (from the PUC) stated that the Edwa was definitely under the PUC because they went outside of their jurisdiction with out the proper permits, but when the PAWC wanted to buy the Edwa, the fine and jurisdiction went away. That smells of 3 day old fish.

My complaint is that the loans should be paid for out of the sale money. If I had a lien on my house and wanted to sell it, that lien would have to be paid with from sale money.

The Issue is lying to all
the customers. Do you condone it?
I think that the PUC would like
to do away with all authorities and
have all water companies under the
control of the PUC. We could
have had SWPA, they charge their
customers less than \$5.00 per thousand
gallons. What have you saddled the
future customers of the PUC with?

Thanks

Dave Vukmanic
