RE: M-2013-2364201
I-2015-2472242

Dear Ms. Chiavetta:

I have, in the last few days, been requested by Great Bend Township to review the Commission's order of 2/28/2019.

At first glance I see where Great Bend Township had five years (#86) to obtain and submit plans for removal and replacement of the T-821 rail road bridge.

As the commission members are aware, Great Bend Township is a very rural municipality with a small budget and must rely on grants to accomplish this directive.

The Township representative has informed me they are actively pursuing attempts to obtain funds, but so far have not received funding.

I am requesting sixty days to review the Commission's order and a five year extension to obtain funding to fulfill the directive of the Commission.

It is my understanding from review of historical records that the bridge was installed to avoid the railroad from having an at grade crossing as the road was in place prior to the railroad coming into existence.

Kindly advise me if the Commission will consider my request and what I need to formalize them.

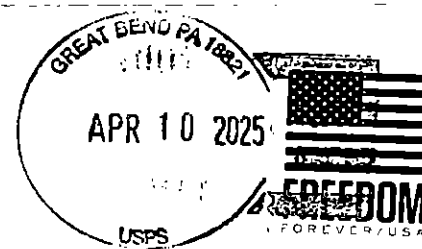

Very truly yours,

Francis X. O'Connor, Esquire
Solicitor Great Bend Township
