TO ALL PARTIES OF RECORD

Application of the Municipal Authority of the Borough of Portage for approval to alter the public crossing (DOT 529 269 V) by the installation of an 8-inch PVC water line inside a 16-inch steel casing pipe where State Route 0164 (Main Street) crosses, at grade, a single track of Norfolk Southern Railway Company located in Portage Borough, Cambria County.

To Whom It May Concern:

By application filed with the Commission on March 14, 2025, the Municipal Authority of the Borough of Portage (Authority) seeks Commission approval to alter the public crossing (DOT 529 269 V) by the installation of an 8-inch polyvinyl chloride (PVC) water line inside a 16-inch steel casing pipe where State Route 0164 (Main Street) crosses, at grade, a single track of Norfolk Southern Railway Company located in Portage Borough, Cambria County.

The new 8-inch PVC water line inside a 16-inch steel casing pipe will be installed via jack and bore method and provide a minimum vertical cover of 5.67-feet from the existing railroad grade to the new pipeline.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, the Authority states that the proposed installation is necessary to replace existing aging ductile iron waterline. The Authority will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the new facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$45,000.

All work is to be performed in accordance with the plans hereby entitled: "EXHIBIT 1" consisting of one (1) sheet submitted to the Commission with the application.

The Authority served a copy of the application and plans on Cambria County, Portage Borough, Norfolk Southern Railway Company, the Pennsylvania Department of Transportation, Comcast, FirstEnergy, Highland Sewer and Water Authority, Lumen, Peoples Natural Gas Company, LLC, Portage Sewer Authority, Verizon Pennsylvania, LLC, and Windstream. All parties of record were queried by letter dated March 28, 2025, sent via email as to any objection to the subject application and plans. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience, or safety of the public.

The application of the Municipal Authority of the Borough of Portage is approved as herein directed:
