Harrisburg, PA 17120

**Re: Completed Restoration of Momentary and Sustained Interruptions –
FirstEnergy Pennsylvania Electric Company; Docket No. ~~M-2021-3023564~~**

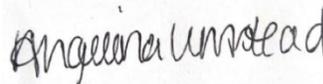

Dear Secretary Homsher:

Pursuant to 52 Pa. Code § 67.1, FirstEnergy Pennsylvania Electric Company on behalf of West Penn Rate District (“West Penn”) submits written notification of completed restoration efforts following storm conditions that began on April 19, 2025 that caused multiple service interruptions in the West Penn service territory.

Attached please find the details relative to the impact of this recent outage event and the restoration activities that took place. It should be noted that the review and approval process of this outage information is still in progress at the time of filing this report and as such, all outage information contained in this report should be considered preliminary.

If you have any questions, please contact me at (610) 921-6202.

Sincerely,

Angelina Umstead

ELECTRIC UTILITY REPORT OF OUTAGE TO
PENNSYLVANIA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU
P O BOX 3265
HARRISBURG, PA 17105-3265

1. Reporting Utility: FirstEnergy Pennsylvania Electric Company ("FE PA")
on behalf of its West Penn Rate District ("West Penn")
Address: 800 Cabin Hill Drive
Greensburg, PA 15601

2. Name and title of person making report:

John Hawkins
(Name)

President Pennsylvania
(Title)

3. Telephone number: (330) 384-4795
(Telephone Number)

4. Date and time report was made to Commission:

April 19, 2025
(Date)

2225
(Time)

5. Interruption or Outage:

(a) Number of customers affected: 38,047 (represents 5.2% of West Penn's total customers).

(b) Approximate number of outage cases and trouble cases for each county affected during event: See response to 5(c)

- (c) Approximate number of outages for each county affected during the event:

County	Outages	Outage Cases	Trouble Cases
Adams	37	3	4
Allegheny	9	4	18
Armstrong	535	8	16
Bedford	4,146	41	108
Butler	6,124	35	57
Centre	174	10	16
Clarion	123	2	3
Elk	1	1	4
Fayette	9,040	92	100
Franklin	11,232	138	235
Fulton	3,489	58	88
Greene	1,163	36	17
Indiana	1	1	2
Lycoming	1	1	1
McKean	4	1	2
Washington	159	13	31
Westmoreland	1,809	48	85
Total	38,047	492	787

- (d) Approximate number of outage cases exceeding 6 or more hours in duration: 350

- (e) A listing of each outage case exceeding 6 or more hours in duration:
See Attachment A.

- (f) Reason for the interruption or outages: Beginning the morning of Saturday, April 19, 2025, a weather system began moving through Pennsylvania including FE PA’s service territory, producing thunderstorms and wind gusts of approximately 64 miles per hour on Saturday and 49 miles per hour on Monday, April 21, 2025. Crews were not able to access damaged infrastructure until roads were cleared of debris and downed trees. See Attachment B for the maximum wind gusts for April 19, 2025 and April 21, 2025, and 24-hour total precipitation for April 19, 2025 and April 21, 2025.

Damage as a result of high winds included downed wires, damaged or broken poles, trees, branches, transformers, and crossarms. The Butler, Jefferson, Hyndman, McConnellsburg, Uniontown, and Waynesboro districts were the hardest hit areas. Approximately 52.4% of the total outages that occurred were tree related and an additional 14.5% were wind related.

Preliminary data indicates the reliability impact of the storm was 41.2 minutes of SAIDI, 0.05 of SAIFI, and an overall storm CAIDI of 788.9 minutes.

- (g) Projected time of restoration: It was estimated that the majority of customers would be restored by 2300 on Tuesday, April 22, 2025.

See Attachment C for the restoration curve and Attachment D for the order restoration graphs.

- (h) The number of utility workers, contract workers, and workers received as mutual aid assigned specifically to the repair work by general function:

Company	# of Workers	General Function

- (i) The date and time of the first information of a service interruption: April 19, 2025, at 1141.
- (j) The date and time that repair crews were assembled: April 19, 2025, at 0600.
- (k) The actual time that service was restored to the last affected customer: April 23, 2025, at 2120.
- (l) A general description of the physical damage sustained by the utility facilities as a result of the interruption/outage:

Equipment	Number
Primary Spans	159
Secondary Spans	44
Crossarms Replaced	82
Cutouts Replaced	94
Poles Replaced	103
Transformers Replaced	66
Wire & Cable Replaced (feet)	18,048

- (m) If the interruption/outage event was weather-related, the utility’s weather reports, outlooks, or scenarios for the day before and the day of the interruption/outage event:

See Attachment E for the weather forecast reports.

- (n) If the interruption/outage event caused approximate outages that exceed 10% or more of the number of customers in the utility’s entire service territory, rank the event in terms of the number and duration of outages and provide 2 comparable events, including the number and duration of outages for those comparable events.

The outages that were a result of this event did not exceed 10% or more of customers in the utility’s entire service territory.

Remarks: The storm statistics contained in this report are preliminary. The review and approval of the storm statistics were still in progress as of the time this report was filed.

Attachment A: A listing of each outage case exceeding six or more hours in duration, including the following information¹:

Graphic 2: Maximum Wind Gusts – Saturday, April 21, 2025

Graphic 3: 24-Hour Total Precipitation – Saturday, April 19, 2025

Graphic 4: 24-Hour Total Precipitation – Monday, April 21, 2025

Attachment C: Restoration Curve

Attachment D: Order Restoration Graphs

Attachment E: Meteorologist Reports

Wednesday, April 16, 2025 @ 1157

New Issuance:

A round of thunderstorms, with the potential for damaging wind gusts, appears likely Friday evening across western FE as a cold front approaches.

Thursday, April 17, 2025 @ 0835

Update:

Added period of 40+ mph wind gusts for areas of OH and far northwest PA during the day Friday.

Slightly reduced chances of thunderstorms Friday night in western FE and pushed back timing window into Friday evening.

Friday, April 18, 2025 @ 0736

Update:

Slight reduction in expected wind gusts (and area) for today, as well as push any isolated storm potential to the overnight period.

Added an area of stronger wind gusts with the passage of a front across central FE on Saturday. As a front moves west-to-east, it may provide a 60-90 minute period of stronger wind gusts at any location. This front may also generate a few isolated strong thunderstorms Saturday afternoon as well.

FE PA Storm Report

Saturday, April 19, 2025 @ 0923

Update:

Expanded areas at risk of thunderstorm/damaging winds this afternoon/evening. Scattered storms are expected to develop along a cold front as it pushes eastward through FE this afternoon/evening.

Slight adjustments to the 'general wind gust' forecast, as a brief 60-90 minute period of 40+ mph gusts will be possible this afternoon as the front approaches in some areas. This will generally be ahead of the front/thunderstorm activity.

Added a mention for a period of 40+ mph wind gusts again Monday afternoon in western FE.

FE PA Storm Report

Sunday, April 20, 2025 @ 0732

Update:

Minor adjustments to period of wind gusts expected Monday afternoon across areas of western FE. Most consistent gusts are expected across areas of northern OH. See graphic below for further information.

Monday, April 21, 2025 @ 0717

Update:

Most notable change is the mention of thunderstorms across portions of eastern OH and western PA this afternoon as a cold front approaches. Storms are expected to remain isolated or scattered this afternoon, but a few isolated damaging wind gusts will be possible.

Elsewhere, general wind gusts of 35-45 mph are expected across OH and western PA this afternoon, with a few higher gusts possible. Strongest gusts expected in areas that see extended sunshine throughout the day.

Monday, April 21, 2025 @ 1519

Update:

Last update: to highlight areas of northeast OH and northwest PA being most likely to see scattered strong/severe storm activity this afternoon/evening.
