TO ALL PARTIES OF RECORD

Application of PPL Electric Utilities Corporation for approval to alter the public crossing (DOT 264 182 T) by the installation of a replacement utility pole and transfer of aerial conductors where Orange Street crosses, at grade, two (2) tracks of SEDA-COG Joint Rail Authority, operated thereon by North Shore Railroad Company located in Northumberland Borough, Northumberland County.

To Whom It May Concern:

By application filed with the Commission on April 9, 2025, PPL Electric Utilities Corporation (PPL) seeks Commission approval to alter the public crossing (DOT 264 182 T) by the installation of a replacement utility pole and transfer of aerial conductors where Orange Street crosses, at grade, two (2) tracks of SEDA-COG Joint Rail Authority, operated thereon by North Shore Railroad Company (Railroad) located in Northumberland Borough, Northumberland County.

PPL proposes to install the new replacement utility pole and transfer its aerial conductors to the new pole within the joint right-of-way of Orange Street and the Railroad. The installation will provide a minimum vertical clearance of 38-feet 3-inches to PPL's transferred Neutral wire as measured from the top of rail. The minimum proposed vertical clearance for all aerial facilities was listed as being 29-feet 2-inches as measured from the top of rail.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL states that the proposed installation is necessary to provide adequate efficient, and reasonable communication facilities and power to the public in Northumberland County and surrounding areas. PPL will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the new facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$10,000.

All work is to be performed in accordance with the plans entitled: "EXHIBIT A" consisting of one (1) sheet submitted to the Commission with the application.

PPL served a copy of the application and plans on Northumberland County, Northumberland Borough, the Railroad, the Pennsylvania Department of Transportation, Verizon Pennsylvania, Inc., CTSI (D.B.A. Frontier Communications of Pa, Inc.), Level 3 Fiber Optic Communications, Comcast, and Zito Media Communications, LLC. All parties of record were queried by letter dated April 10, 2025, sent via email as to any objection to the subject application and plans. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience, or safety of the public.
