**MOTION TO COMPEL ANSWERS TO INTERROGATORIES
AND REQUESTS FOR PRODUCTION OF DOCUMENTS
PROPOUNDED BY LAUREL PIPE LINE COMPANY, L.P.
ON MONROE ENERGY, LLC – SET I**

TO ADMINISTRATIVE LAW JUDGE ERANDA VERO:

As explained herein, Laurel Pipe Line Company, L.P. (“Laurel” or the “Company”) hereby files, pursuant to 52 Pa. Code § 5.342, this Motion to Compel Answers to its First Set of Interrogatories and Requests for Production of Documents (“Set I Discovery”) directed to Monroe Energy, LLC (“Monroe”). The Motion to Compel requests that Administrative Law Judge Eranda Vero (the “ALJ”) direct Monroe to provide full and complete responses to Questions 7, 8, 9, 10, 11, 14, 15a, 15b, 16a, 16b, 18a, 18b, 18c, 19a,19b, 20a, 20b, 21a, 21c, 22, 23, 24a, 24b, 25a, 25b, 26a, 26b, 27a, 27b, 27c, 27d, 28, 32a, 32b, 32c, 33, 34 (all parts), 35 (all parts), 36, 37, 38, 39b, 40, 41 (all parts), 42, 43 (all parts), 44 (all parts), and 45 of the Set I Discovery as is required by 52 Pa. Code § 5.342(a)(4). In support of this Motion, Laurel states as follows:

I. INTRODUCTION

1. This proceeding was initiated by the filing of the above-captioned Complaint by Monroe Energy, LLC (“Monroe”), Lucknow-Highspire Terminal, LLC (“LHT”), Sheetz, Inc.

(“Sheetz”) and PBF Holding Company LLC (“PBF”) (collectively the “Complainants”), dated January 21, 2025.

2. On February 11, 2025, Laurel filed its Answer and New Matter (“ANM”), and Preliminary Objections (“PO”) to the Complaint in Docket No. C-2025-3053018, rebutting in detail the various claims and arguments of the Complainants.

3. On February 21, 2025, Monroe, LHT, Sheetz, and PBF filed a response to the Preliminary Objections of Laurel.

4. On May 5, 2025, Laurel served Set I Discovery on Monroe. A copy of Laurel Set I Discovery to Monroe is provided as Appendix A hereto.

5. Monroe timely objected to Set I Discovery on May 15, 2025. Monroe lodged objections to Request Nos. 7, 8, 9, 10, 11, 14, 15a, 15b, 16a, 16b, 18a, 18b, 18c, 19a, 19b, 20a, 20b, 21a, 21c, 22, 23, 24a, 24b, 25a, 25b, 26a, 26b, 27a, 27b, 27c, 27d, 28, 32a, 32b, 32c, 33, 34 (all parts), 35 (all parts), 36, 37, 38, 39b, 40, 41 (all parts), 42, 43 (all parts), 44 (all parts), and 45. A copy of Monroe’s Objections is provided as Appendix B hereto.

6. Counsel for Laurel and Monroe met and conferred regarding possible resolution of the objections on May 27, 2025. The parties were not able to resolve the objections with respect to Nos. 14, 18-20, 36-38, 39a and 42. Monroe also indicated that it would provide responses to Nos. 7, 8, 9, 10, 11, 15a, 15b, 16a, 16b, 21a, 21c, 22, 23, 24a, 24b, 25a, 25b, 26a, 26b, 27a, 27b, 27c, 27d, 28, 32a, 32b, 32c, 33, 34 (all parts), 35 (all parts), 39b, 40, 41 (all), 43 (all parts), 44, 45, subject to and notwithstanding its objections to the same; Laurel reserved its rights to review responses to these requests and file a motion to compel with respect to any questions it believes were not sufficiently responsive. Monroe further indicated that it intended to respond to certain of the requests by indicating it will address those questions in the Complainants’ written direct

testimony, as it interprets those questions asking for the information regarding the basis for Monroe's "belief" or "understanding" as seeking only conclusions and positions. Laurel indicated its disagreement with this position, and explained that Laurel is not seeking the mental impressions of counsel or experts but instead the facts or information Monroe possesses that form the basis for its allegations (i.e., beliefs) as set forth in the Complaint.

7. Also on May 27, 2025, Monroe served its responses to the Set I Discovery. Consistent with its prior indication, Monroe maintained its objections to Nos. 14, 18-20, 36-38, 39a and 42 and provided responses subject to and notwithstanding its objections to Nos. 7, 8, 9, 10, 11, 15a, 15b, 16a, 16b, 21a, 21c, 22, 23, 24a, 24b, 25a, 25b, 26a, 26b, 27a, 27b, 27c, 27d, 28, 32a, 32b, 32c, 33, 34 (all parts), 35 (all parts), 39b, 40, 41 (all), 43 (all parts), 44, 45. Monroe also responded to certain of the Set I Discovery request by indicating it will address those questions in the Complainants' written direct testimony.

8. Laurel hereby files its Motion to Compel Monroe to respond to Set I, 7, 8, 9, 10, 11, 14, 15a, 15b, 16a, 16b, 18a, 18b, 18c, 19a, 19b, 20a, 20b, 21a, 21c, 22, 23, 24a, 24b, 25a, 25b, 26a, 26b, 27a, 27b, 27c, 27d, 28, 32a, 32b, 32c, 33, 34 (all parts), 35 (all parts), 36, 37, 38, 39b, 40, 41 (all parts), 42, 43 (all parts), 44 (all parts), and 45.

II. ARGUMENT

A. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 7 OF THE SET I DISCOVERY.

9. Laurel – Set I, Request No. 7 provides as follows:

7. Please identify the sentence(s), phrase(s), or word(s) in Laurel's certificate of public convenience that Monroe believes prohibit Laurel from providing intrastate service in any direction other than east-to-west in Pennsylvania.

10. Monroe objects to Request No. 7 to the extent it seeks information that is subject to privilege under Sections 5.323 of the Commission's regulations. 52 Pa. Code § 5.323(a).

11. However, Request No. 7 does not seek privileged information. Request No. 7 seeks to clarify claims made in the Complaint by seeking information about the factual basis for Monroe's allegations in its Complaint. Such information and materials would not be exempt from discovery under Sections 5.323(a). If Monroe is asserting that their allegations are only based on legal conclusions, then Monroe should be required to supply a verified response from a company representative, other than counsel, indicating that Monroe has no facts within its possession or control related to the request and that the sole basis for their position on the issue identified is a legal conclusion. If, however, Monroe's allegation is based upon non-privileged, non-opinion facts and information within its possession, Laurel is entitled to probe and understand those facts and information through discovery.

12. Further, the objections are not valid pursuant to 52 Pa. Code § 5.342(c). Objections are not valid "if based solely on the claim that an answer will involve an opinion or contention that is related to a fact or the application of law to fact." 52 Pa. Code § 5.342(c)(5). The objections also fail to "[i]nclude a description of the facts and circumstances purporting to justify the objection" as required by 52 Pa. Code § 5.342(c)(3). The objections are, therefore, invalid.

13. Therefore, Monroe should be compelled to provide a full and complete response to Request No. 7. Alternatively, should Monroe continue to refuse to provide relevant information that is necessary to evaluate its claims in its Complaint, it should be barred from continuing to assert or attempting to prove its claims as a part of this proceeding.

14. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 7 of Set I discovery.

B. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 8 OF THE SET I DISCOVERY.

15. Laurel – Set I, Request No. 8 provides as follows:

8. Please identify the sentence(s), phrase(s), or word(s) in Laurel’s Tariff Pa. PUC No. 83 for intrastate service that Monroe believes prohibit Laurel from providing intrastate service in any direction other than east-to-west in Pennsylvania.

16. Monroe objects to Request No. 8 to the extent it seeks information that is subject to privilege under Sections 5.323 of the Commission’s regulations. 52 Pa. Code § 5.323(a). Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra with regard to the Complainant’s objection on the grounds that the information sought calls for the disclosure of the mental impressions and legal opinions or conclusions of Monroe’s attorneys and the specificity of the objections.

17. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 8 of Set I discovery.

C. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 9 OF THE SET I DISCOVERY.

18. Laurel – Set I, Request No. 9 provides as follows:

9. Has capacity on Laurel’s pipeline system been used to provide service in a direction other than east-to-west since 2019? Fully explain any answer other than an unqualified affirmative.

19. Monroe objects to Request No. 9 on the grounds that the term “capacity on Laurel’s pipeline system” is undefined and therefore vague. It further objects on the grounds that this information is in Laurel’s possession.

20. The objections are not valid pursuant to 52 Pa. Code § 5.342(c). Objections are not valid “if based solely on the claim that an answer will involve an opinion or contention that is

related to a fact or the application of law to fact.” 52 Pa. Code § 5.342(c)(5). The objections also fail to “[i]nclude a description of the facts and circumstances purporting to justify the objection” as required by 52 Pa. Code § 5.342(c)(3). It is not clear from these objections why the identified phrase is vague. Further, the Complainants use similar phrases in their Complaint, such as “capacity on Laurel’s pipeline” (Complaint ¶ 1). The Attachments on the Complaint use the phrase “capacity on the Laurel Pipeline 12 times. As the Complainant’s use the term to advance their own claims, they have an understanding of the same.

21. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 9 of Set I discovery.

D. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 10 OF THE SET I DISCOVERY.

22. Laurel – Set I, Request No. 10 provides as follows:

10. Please identify the sentence(s), phrase(s), or word(s) in Laurel’s certificate of public convenience that Monroe believes require Laurel maintain an amount of capacity over any segment of its Pennsylvania pipe line system.

23. Monroe objects to Request No. 10 to the extent it seeks information that is subject to privilege under Sections 5.323 of the Commission’s regulations. 52 Pa. Code § 5.323(a). Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra with regard to the Complainant’s objection on the grounds that the information sought calls for the disclosure of the mental impressions and opinions or conclusions of Monroe’s attorneys and the specificity of the objections.

24. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 10 of Set I discovery.

E. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 11 OF THE SET I DISCOVERY.

25. Laurel – Set I, Request No. 11 provides as follows:

11. Please identify the sentence(s), phrase(s), or word(s) in Laurel’s Tariff Pa. PUC No. 83 for intrastate service that Monroe believes require Laurel maintain a specific amount of capacity over any segment of its Pennsylvania pipe line system.

26. Monroe objects to Request No. 11 to the extent it seeks information that is subject to privilege under Sections 5.323 of the Commission’s regulations. 52 Pa. Code § 5.323(a). Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra with regard to the Complainant’s objection on the grounds that the information sought calls for the disclosure of the mental impressions and opinions or conclusions opinions or conclusions of Monroe’s attorneys and the specificity of the objections.

27. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 11 of Set I discovery.

F. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 14 OF THE SET I DISCOVERY.

28. Laurel – Set I, Request No. 14 provides as follows:

14. Reference Complaint ¶ 1, where the Complainants allege that “Buckeye’s proposal would require a partial abandonment, by Laurel, of east-to-west petroleum products pipeline transportation service that Laurel has been providing exclusively on this segment of the Laurel pipeline, Sinking Spring to Eldorado, since 1957.” Please explain in detail:

- a. Please define the phrase “partial abandonment” as Monroe understands this term to be used in Complaint ¶ 1.
- b. Provide all Documents relied upon to provide the definition requested in subpart (a).

29. Monroe objects to Request No. 14 to the extent it seeks information that is subject to privilege under Sections 5.323 of the Commission’s regulations. 52 Pa. Code §§ 5.323(a).

30. First, Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra with regard to the Complainant’s objection on the grounds that the information sought call for the disclosure of the mental impressions and opinions or conclusions opinions or conclusions of Monroe’s attorneys and the specificity of the objections.

31. Monroe indicates in its objection that it relies on the “broadest possible”: interpretation of the term in the Code “and decisions interpreting and applying” 66 Pa. C.S. §1102(a)(2). (Objections at p. 10) This is not responsive to the question. As defining this term is directly relevant to the claims asserted in the Complaint, Monroe should be compelled to define it.

32. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 14 of Set I discovery.

G. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 15A AND 15 B OF THE SET I DISCOVERY.

33. Laurel – Set I, Request No. 15A and 15B provides as follows:

15. Reference Complaint ¶ 2 where the Complainants allege that “Buckeye has not provided, or even endeavored to provide, firm assurances or guarantees to the Complainants or other users of the Laurel Pipeline that the current levels of east-to-west intrastate pipeline service will be maintained after the expiration of the Settlement condition that currently prohibits Laurel from reducing east-to-west capacity until after 2026.”:

- a. Is it Monroe’s position that Buckeye must provide “firm assurances or guarantees to the Complainants or other users of the Laurel Pipeline that the current levels of east-to-west intrastate pipeline service will be maintained after the expiration of the Settlement condition that currently prohibits Laurel from reducing east-to-west capacity until after 2026”? Fully explain any response.

- b. What “firm assurances or guarantees to the Complainants or other users of the Laurel Pipeline that the current levels of east-to-west intrastate pipeline service will be maintained after the expiration of the Settlement condition that currently prohibits Laurel from reducing east-to-west capacity until after 2026” does Monroe believe Buckeye must provide in order for Laurel to avoid providing unreasonable and inadequate service? Fully explain any response.

34. Monroe objects to Request No. 15A and 15B to the extent they seeks information that is subject to privilege under Sections 5.323 of the Commission’s regulations. 52 Pa. Code §§ 5.323(a).

35. Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra. with regard to the Complainant’s objection on the grounds that the information sought calls for the disclosure of the mental impressions and opinions or conclusions of Monroe’s attorneys and the specificity of the objections.

36. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 15 of Set I discovery.

H. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 16 OF THE SET I DISCOVERY.

37. Laurel – Set I, Request No. 16A and 16B provides as follows:

16. In Reference Complaint ¶ 21, where the Complainants allege that “Despite the clear precedent established in the 2016 Application case that changing the direction of flow on a pipeline from a single direction, as it has been since 1957, to bi-directional flow, in this case of the east-to-west service, requires a CPC and is otherwise unreasonable service...”

- a. Identify with specificity the “clear precedent” that Monroe believes was “established in the 2016 Application case that changing the direction of flow on a pipeline from a single direction...to bi-directional flow...requires a CPC.

- b. Identify with specificity the “clear precedent” that Monroe believes was “established in the 2016 Application case that changing the direction of flow on a pipeline from a single direction...to bi-directional flow...and is otherwise unreasonable service.”

38. Monroe objects to Request No. 16A and 16B to the extent they seeks information that is subject to privilege under Sections 5.323 of the Commission’s regulations. 52 Pa. Code §§ 5.323(a). Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra with regard to the Complainant’s objection on the grounds that the information sought calls for the disclosure of the mental impressions and opinions or conclusions of Monroe’s attorneys and the specificity of the objections.

39. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 16 of Set I discovery.

I. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 18A, 18B, AND 18C OF THE SET I DISCOVERY.

40. Laurel – Set I, Request No. 18A, 18B, and 18C provides as follows:

- a. Please identify “the circumstances” that Monroe believes “suggest Buckeye made this change in preparation to ready the system for bi-directional flow”. Provide all Documents relied upon to support this belief.
- b. Please define “feasibility” as Monroe understands that term to be used in Complaint. Provide all Documents relied upon by Monroe to provide this definition..
- c. Please identify and explain the basis for Monroe’s belief that the feasibility of bi- directional flow on the

Laurel pipe line system “remains untested.” Provide all Documents relied upon to support this belief.

41. Monroe objects to Request No. 18A, 18B, and 18C to the extent they seek information that is subject to privilege under Sections 5.323 of the Commission’s regulations. 52 Pa. Code §§ 5.323(a). Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra with regard to the Complainant’s objection on the grounds that the information sought calls for the disclosure of the mental impressions and opinions or conclusions of Monroe’s attorneys and the specificity of the objections.

42. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 18 of Set I discovery.

J. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 19A AND 19B OF THE SET I DISCOVERY.

43. Laurel – Set I, Request No. 19A and 19B provides as follows:

19. Reference Complaint ¶ 23 where the Complainants allege that “Buckeye’s actions are a violation of its duty to provide reasonable service under Section 1501 of the Code.”

- a. Identify and explain why Monroe believes that Buckeye has a “duty to provide reasonable service under Section 1501 of the Code, and provide all Documents relied upon by Monroe to form the basis for this belief.

the Set I discovery, in paragraph 11-13 supra with regard to the Complainant's objection on the grounds that the information sought calls for the disclosure of the mental impressions and opinions or conclusions of Monroe's attorneys and the specificity of the objections.

45. For the reasons more fully explained above, Monroe should be compelled to provide a full and complete response to Request No. 19 of Set I discovery.

K. MONROE SHOULD BE COMPELLED TO PROVIDE A FULL AND COMPLETE RESPONSE WITH RESPECT TO REQUEST NO. 20 OF THE SET I DISCOVERY.

46. Laurel – Set I, Request No. 20A and 20B provides as follows:

20. Reference Complaint ¶ 23 where the Complainants allege that “Buckeye’s actions are...discriminatory in that Laurel/Buckeye is unreasonably favoring hypothetical future west-to-east customers over existing east-to-west shippers, in violation of Section 1502 of the Code...”

- a. Identify and explain why Monroe believes that Buckeye is subject to Section 1502 of the Public Utility Code, 66 Pa.C.S. § 1502, and provide all Documents relied upon by Monroe to form the basis for this belief.
- b. Fully identify and explain why Monroe believes “Buckeye’s actions are...discriminatory in that Laurel/Buckeye is unreasonably favoring hypothetical future west-to-east customers over existing east-to-west shippers, in violation of Section 1502 of the Code...,” and provide all Documents relied upon by Monroe to form the basis for this belief.

47. Monroe objects to Request No. 20A on the grounds that it calls for the mental impressions and opinions or conclusions of Monroe's attorneys and 20B on the grounds that it calls for the disclosure of the mental impressions and opinions or conclusions of Monroe's attorneys and/or experts. 52 Pa. Code §§ 5.323(a) and 5.324. Laurel adopts and incorporates its arguments with respect to Request No. 7 of the Set I discovery, in paragraph 11-13 supra with

regard to the Complainant's objection on the grounds that the information sought calls for the disclosure of the mental impressions and opinions or conclusions of Monroe's attorneys and the specificity of the objections.

48. Regarding experts, the Commission has held that, "[o]ur discovery rules make it clear that the facts and opinions held by an expert are discoverable to the extent that the discovery does not include the disclosure of mental impressions, conclusions or opinions respecting the value or merit of a claim or defense or respecting strategy, tactics or preliminary or draft versions of written testimony or exhibits." *N.J.A.C. 13:20-51.4*, Docket No. R-901666, et al., 1991 Pa. PUC LEXIS 54, *250. Furthermore, 52 Pa. Code § 5.324(a) only applies to discovery of "facts known or held by an expert"; it does not broadly exempt from discovery facts known or held by a party. Indeed, if this were the case, a party could shield from discovery all relevant facts within its possession or control by simply asserting that those facts are known or held by an expert. This is absurd. And, in this case, it begs the question of whether there was any factual basis for the Complaint at all. Indeed, despite filing the Complaint in January of 2025, and claiming that factual disputes requiring a hearing existed, the Complainants later represented in their Prehearing Memorandum that:

Complainants are in the process of retaining the consulting firms Secretariat and Pipeline Knowledge Group and expects to present at least one economics expert and at least one pipeline operations expert from those firms. It is likely that there will be several fact witnesses from the individual complainant Companies, but those have not yet been identified.¹

This statement makes clear that (a) the Complainants had not retained any expert witnesses at the time the Complaint was submitted (and had still not done so a day after Laurel propounded the Set I Discovery), and (b) there are fact witnesses that the Complainants intend to call, who ostensibly

¹ Docket No. C-2025-3053018, Complainants' Prehearing Memorandum, at p. 3 (dated May 8, 2025)

have facts or information relevant to their allegations in the Complaint. So, it is either the case that (a) the Complainants do have relevant facts and information within their possession or control which are not subject to 52 Pa. Code § 5.324(a) and this information must be produced, or (b) the Complainants had no factual basis for any of the allegations contained in the Complaint because those allegations were somehow based upon purported “facts known or held” by an unidentified expert that had not be retained at that time.

49. If Monroe is asserting that their allegations are only based on expert opinion(s) and/or conclusion(s), and are not based upon any facts within the possession or control of Monroe, then Monroe should be required to supply a verified response from a company representative, other than counsel, indicating that Monroe has no facts within its possession or control related to the request and that the sole basis for their position on the issue identified is an expert conclusion and/or opinion. If, however, there is a factual basis for the allegation advanced in the Complaint, it cannot be shielded from disclosure solely because an expert may testify as to that fact at a later date.²

**OBJECTIONS OF MONROE ENERGY, LLC TO
SET I INTERROGATORIES AND REQUESTS FOR
PRODUCTION OF DOCUMENTS PROPOUNDED
BY LAUREL PIPE LINE COMPANY, L.P.**

Pursuant to 66 Pa.C.S. § 333 and 52 Pa. Code §§ 5.341 *et seq.*, Monroe Energy, LLC Objects to the following Interrogatories and Requests for Production of Documents propounded by the Laurel Pipe Line Company, L.P. (“Laurel”, or the “Company”) on Monroe Energy, LLC (“Monroe”), Set I. The basis of the objections, of which there are two, are: 1) that the requests are ambiguous, unintelligible and not answerable, there are three such requests that are objected-to; or; 2) that the requests are unreasonably burdensome and would require unreasonable investigation, there are two such requests that are objected-to; and/or, 3) that the requests seek the mental impressions of the Attorney or representative other than the Attorney, which is prohibited by the Commission’s Regulations at 52 Pa. Code § 5.323:

The discovery may not include disclosure of the mental impressions of a party’s attorney or his conclusions, opinions, memoranda, notes, summaries, legal research

or legal theories. With respect to the representative of a party other than the party's attorney, discovery may not include disclosure of his mental impressions, conclusions or opinions respecting the value or merit of a claim or defense or respecting strategy, tactics or preliminary or draft versions of written testimony or exhibits, whether or not final versions of the testimony or exhibits are offered into evidence.

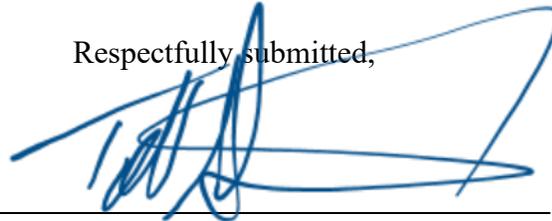

The requests also impinge upon 52 Pa. Code § 5.324(a) which addresses the situation where there is expert testimony to be provided, and the witness is permitted to respond with timely submitted written testimony. Laurel is seeking to discover the Complainant's case before the case is presented, even though written testimony will be provided in this case.

The Objected-to interrogatories, other than the incomprehensible ones, all seek the legal theories or mental impressions of the attorney or representative which are not discoverable. To the extent that the Complainants, including Monroe, address any of the issues addressed in the requests in testimony, it may then be appropriate for Laurel to discover information regarding stated opinions or evidence, but not before. Moreover, the regulations provide for expert testimony to be provided in lieu of responding to questions about material to be included in testimony. It is Monroe's expectation that such testimony will be provided.

Monroe has identified the following requests as objectionable: 7, 8, 9, 10, 11, 14, 15a, 15b, 16a, 16b, 18a, 18b, 18c, 19a,19b, 20a, 20b, 21a, 21c, 22, 23, 24a, 24b, 25a, 25b, 26a, 26b, 27a, 27b, 27c, 27d, 28, 32a, 32b, 32c, 33, 34 (all parts), 35 (all parts), 36, 37, 38, 39b, 40, 41 (all parts), 42, 43 (all parts), 44 (all parts), and 45.

For the reasons stated herein, Monroe objects to the listed requests pursuant to 52 Pa. Code § 5.342(e).

Respectfully submitted,

Dated: May 15, 2025

DOCKET NO. C-2025-3053018

12. What is Monroe’s understanding of the maximum capacity of the segment of the Laurel pipe line system located between Altoona and Coraopolis in Pennsylvania (i.e., “Line 718” or “L718”? Provide any Documents relied upon to respond to this question.

RESPONSE:

Monroe is without sufficient knowledge at present to allow it to opine on the total capacity available on the Laurel Pipeline, between Altoona and Coraopolis, but notes that the capacity agreement between Buckeye and Laurel limits the capacity available for Buckeye to provide interstate service on that segment to 40,000 bpd in throughput capacity.

RESPONSE:

Monroe is without sufficient knowledge at present to allow it to opine on the total capacity available on the Laurel Pipeline, between Altoona and Sinking Springs, but notes that the capacity agreement between Buckeye and Laurel limits the capacity available for Buckeye to provide interstate service on that segment to 45,000 bpd in throughput capacity.

15. Reference Complaint ¶ 2 where the Complainants allege that “Buckeye has not provided, or even endeavored to provide, firm assurances or guarantees to the Complainants or other users of the Laurel Pipeline that the current levels of east-to-west intrastate pipeline service will be maintained after the expiration of the Settlement condition that currently prohibits Laurel from reducing east-to-west capacity until after 2026.”
- a) Is it Monroe’s position that Buckeye must provide “firm assurances or guarantees to the Complainants or other users of the Laurel Pipeline that the current levels of east-to-west intrastate pipeline service will be maintained after the expiration of the Settlement condition that currently prohibits Laurel from reducing east-to-west capacity until after 2026”? Fully explain any response.
 - b) What “firm assurances or guarantees to the Complainants or other users of the Laurel Pipeline that the current levels of east-to-west intrastate pipeline service will be maintained after the expiration of the Settlement condition that currently prohibits Laurel from reducing east-to-west capacity until after 2026” does Monroe believe Buckeye must provide in order for Laurel to avoid providing unreasonable and inadequate service? Fully explain any response.

RESPONSE:

- a) Without waiving the prior objections; no. Rather the statement is clear that neither Laurel nor Buckeye have made any firm assurances that the east to west capacity levels will be maintained, thus making the proposed extension of bi-directional service even more economically disadvantageous for Monroe. The moratoria agreed to in the Settlement will soon expire, and without any assurances, there is no basis to conclude that Laurel and Buckeye will not seek a full reversal of the Laurel Pipeline under Buckeye’s interstate tariff rates as opposed to Laurel’s intrastate tariff.
- b) Without waiving the prior objections, Monroe will address this question through pre-served written direct testimony.

- a) Identify with specificity the “clear precedent” that Monroe believes was “established in the 2016 Application case that changing the direction of flow on a pipeline from a single direction...to bi-directional flow...requires a CPC”.
 - b) Identify with specificity the “clear precedent” that Monroe believes was “established in the 2016 Application case that changing the direction of flow on a pipeline from a single direction...to bi-directional flow...and is otherwise unreasonable service”.

17. Reference Complaint ¶ 23 where the Complainants alleged that “On December 20, 2024... Buckeye announced plans to change its Reid Vapor Pressure (RVP) level schedule on the Laurel Pipeline.”
- a) Is it Monroe’s understanding that Buckeye is a Pennsylvania public utility? Fully explain any response.
 - b) Is it Monroe’s understanding that Buckeye is a party to this proceeding? Fully explain any response.

RESPONSE:

- a) Monroe did not state in ¶ 23 that Buckeye was a Pennsylvania Public Utility. However, Buckeye is registered with the Commission as the Laurel Pipeline’s operator. See, <https://www.puc.pa.gov/utility/1714408>.
- b) No. But that does not mean that Buckeye’s actions in furtherance of its plan to expand bi-directional service on the Laurel Pipeline, which it also operates, are not pertinent to this proceeding that will determine, among other things, if the expansion of bi-directional service constitutes a partial abandonment of east to west service and whether the joint actions of Laurel, with its affiliate Buckeye, constitute unreasonable service.

RESPONSE:

- a) Without waiving the prior objections, Monroe will address the question through pre-served written direct testimony.
- b) Operational certainty is the state of a system operating within the needs of its ratepaying customers, as in this case, Monroe expects it to operate based on the tariffs, procedures and experience. Without Operational Certainty it is riskier to send barrels of product westward because of concerns about Laurel pipeline’s ability to move the product in a timely fashion to the point of delivery.
- c) Without waiving the prior objections, Monroe will address the question through pre-served written direct testimony.
- d) The question will be addressed through Complainants’ pre-served written direct testimony. At a minimum Monroe’s costs of transportation will increase as it may need to seek other modalities to reliably transport its product to markets west of Sinking Spring. Product that is not delivered on time also imposes costs on Monroe in terms of relationships with its customers and accommodations that may need to be made in response to missed delivery windows.
