This is a written response to "new Matter" from Aqua PA. this is regarding excessive billing for water from March 3 2025 and march 31 2025, with charges far in excess of my usual usage. The meter was replaced 3/17/25. I am aware that Aqua states that their meter readings were accurate, and it appears that charges have returned to more appropriate amounts.

Charges for 2/10/25 to 3/3/25 of \$1011.96 and charges of \$466.48 for 3/3/25 to 3/31/25 are excessively high - I had a plumber out to check for leaks, and he stated that he found nothing that would justify such high usage

Please let me know how this matter might be resolved
