***Re: Completed Restoration of Momentary and Sustained Interruptions –
FirstEnergy Pennsylvania Electric Company; Docket No. M-2025-3052814***

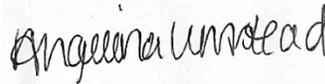

Dear Secretary Homsher:

Pursuant to 52 Pa. Code § 67.1, FirstEnergy Pennsylvania Electric Company on behalf of Penelec Rate District (“Penelec”) submits written notification of completed restoration efforts following storm conditions that began on July 3, 2025, that caused multiple service interruptions in the Penelec service territory.

Attached please find the details relative to the impact of this recent outage event and the restoration activities that took place. It should be noted that the review and approval process of this outage information is still in progress at the time of filing this report and as such, all outage information contained in this report should be considered preliminary.

If you have any questions, please contact me at (610) 921-6202.

Sincerely,

Angelina Umstead

ELECTRIC UTILITY REPORT OF OUTAGE TO
PENNSYLVANIA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU
P O BOX 3265
HARRISBURG, PA 17105-3265

1. Reporting Utility: FirstEnergy Pennsylvania Electric Company ("FE PA")
on behalf of its Penelec Rate District ("Penelec")
Address: 800 Cabin Hill Drive
Greensburg, PA 15601

2. Name and title of person making report:

John Hawkins
(Name)

President Pennsylvania
(Title)

3. Telephone number: (330) 384-4795
(Telephone Number)

4. Date and time report was made to Commission:

July 3, 2025
(Date)

2110
(Time)

5. Interruption or Outage:

(a) Number of customers affected: 33,210 (represents 5.6% of Penelec's total customers).

(b) Approximate number of outage cases and trouble cases for each county affected during event: See response to 5(c)

(c) Approximate number of outages for each county affected during the event:

County	Outages	Outage Cases	Trouble Cases
Bedford	4	1	12
Blair	69	9	22
Bradford	1,549	22	10
Cambria	1,302	23	27
Centre	3	2	2
Clarion	375	16	5
Clearfield	108	7	9
Crawford	842	10	12
Erie	9,421	74	88
Forest	2	2	2
Huntingdon	5	2	5
Indiana	665	14	21
Jefferson	56	8	9
Juniata	2	2	2
Lycoming	1	1	1
McKean	117	4	5
Mifflin	76	5	5
Potter	3	1	0
Somerset	399	11	11
Sullivan	907	8	8
Susquehanna	8,395	95	244
Tioga	796	11	18
Venango	594	16	9
Warren	89	6	11
Wayne	5,714	81	142
Westmoreland	11	1	1
Wyoming	1,705	13	8
Total	33,210	445	689

(d) Approximate number of outage cases exceeding 6 or more hours in duration: 176

(e) A listing of each outage case exceeding 6 or more hours in duration:
See Attachment A.

(f) Reason for the interruption or outages: Beginning on the afternoon of Thursday, July 3, 2025, a weather system began moving through Pennsylvania including FE PA's service territory, producing heavy rains and wind gusts of approximately 37

miles per hour on Thursday, July 3, 2025 and 38 miles per hour on Monday, July 7, 2025. In addition to the weather that impacted the larger region, the Montrose region was the hardest hit area with widespread damage on July 3, 2025, that was consistent with 65 to 85 mph winds that occurred throughout the Susquehanna area due to a long tracking supercell that caused a large downburst. There were enhanced areas of tree damage where local terrain effects caused funneling of wind and eddies to form. The winds were noticeably higher in these areas peaking at 90 to 100 mph. In particular, the Susquehanna and Oakland areas sustained significant tree damage. This delayed the restoration of customers until roads were cleared of debris and downed trees. At the onset of the outages, crews assessed the situation and formulated a restoration plan which included quarantining local circuits involved and having personnel staged to engage as soon as the area could be safely accessed. Approximately 41% of the total outages that occurred were tree related, and an additional 27% were due to line and equipment failure. Damage as a result of the high winds included downed wires, broken poles, crossarms, and transformers. See Attachment B for the maximum wind gusts for July 3 and July 7, 2025, and 24-hour total precipitation for July 2–3, July 5 and July 7-8, 2025.

Preliminary data indicates the reliability impact of the storm was 48.3 minutes of SAIDI, 0.056 of SAIFI, and an overall storm CAIDI of 861.3 minutes.

- (g) Projected time of restoration: It was estimated that the majority of customers would be restored by 2300 on Sunday, July 6, 2025.

See Attachment C for the restoration curve and Attachment D for the order restoration graphs.

- (h) The number of utility workers, contract workers, and workers received as mutual aid assigned specifically to the repair work by general function:

Company	# of Workers	General Function
FE PA	8	Damage Assessor
Subtotal	8	Damage Assessor
Asplundh Tree Experts Co.	25	Forestry
FirstEnergy Service Company	2	Forestry
Penn Line Services, Inc.	37	Forestry
Subtotal	64	Forestry
FE PA	4	Hazard Dispatcher
Subtotal	4	Hazard Dispatcher
FE PA	6	Hazard Responder
FirstEnergy Service Company	4	Hazard Responder

Company	# of Workers	General Function
Subtotal	10	Hazard Responder
Agostino Utilities LLC	38	Line
Bird Electric Enterprises, LLC	157	Line
Danella Construction of NY Inc	50	Line
FE PA	81	Line
JW Didado	25	Line
Miller Bros	8	Line
Thompson Electric	12	Line
Valiant Energy Service	4	Line
Subtotal	375	Line
Agostino Utilities LLC	5	Support
Danella Construction of NY Inc	2	Support
FE PA	15	Support
FirstEnergy Service Company	2	Support
JW Didado	2	Support
Thompson Electric	2	Support
Subtotal	28	Support
Grand Total	489	

- (i) The date and time of the first information of a service interruption: July 3, 2025, at 1510.
- (j) The date and time that repair crews were assembled: Crews were on duty at the start of this event. Additional crews were called in as the storm progressed.
- (k) The actual time that service was restored to the last affected customer: July 9, 2025, at 1002.
- (l) A general description of the physical damage sustained by the utility facilities as a result of the interruption/outage:

Equipment	Number
Primary Spans	758
Secondary Spans	188
Crossarms Replaced	240
Cutouts Replaced	81
Poles Replaced	68
Transformers Replaced	29
Wire & Cable Replaced (feet)	8,587

- (m) If the interruption/outage event was weather-related, the utility's weather reports, outlooks, or scenarios for the day before and the day of the interruption/outage event:

See Attachment E for the weather forecast reports.

- (n) If the interruption/outage event caused approximate outages that exceed 10% or more of the number of customers in the utility's entire service territory, rank the event in terms of the number and duration of outages and provide 2 comparable events, including the number and duration of outages for those comparable events.

The outages that were a result of this event did not exceed 10% or more of customers in the utility's entire service territory.

Remarks: The storm statistics contained in this report are preliminary. The review and approval of the storm statistics were still in progress as of the time this report was filed.

Attachment A: A listing of each outage case exceeding six or more hours in duration, including the following information¹:

Order #	Approximate Location (County)	Total Number of Customers Affected	Duration of the Outage (minutes)	Initial Date and Time of the Outage	Restoration Date and Time

Attachment C: Restoration Curve

Attachment D: Order Restoration Graphs

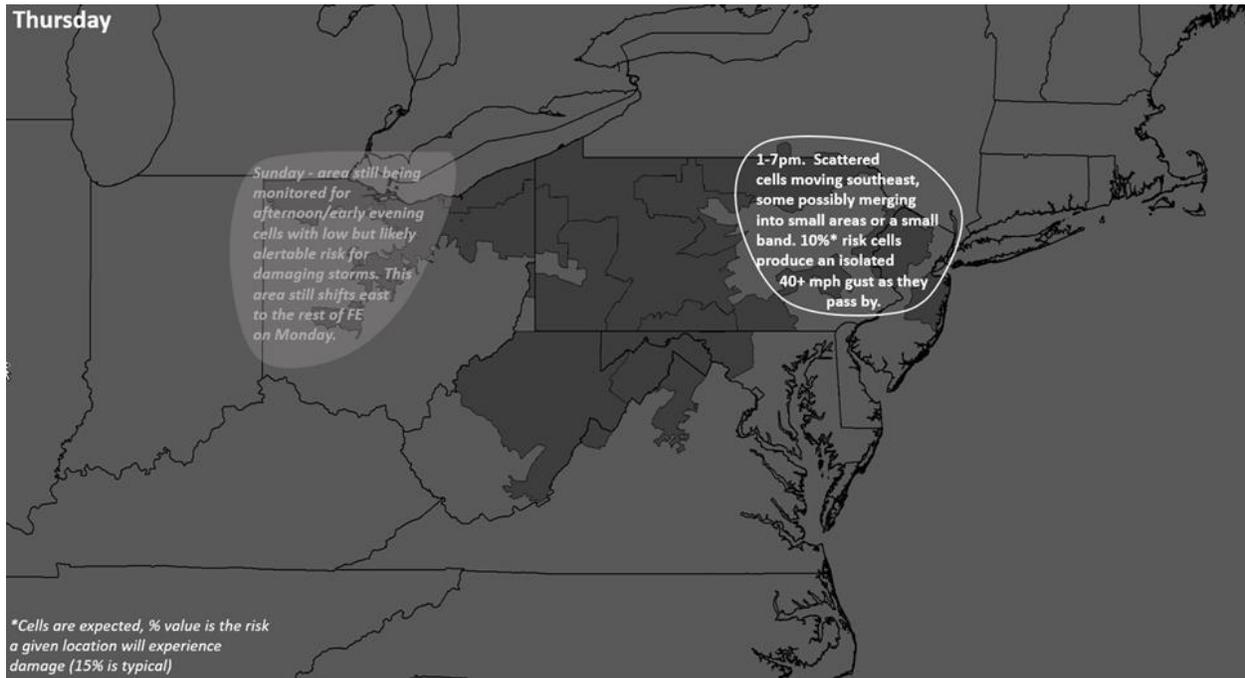

Attachment E: Meteorologist Reports

Thursday, July 3, 2025 @ 0808

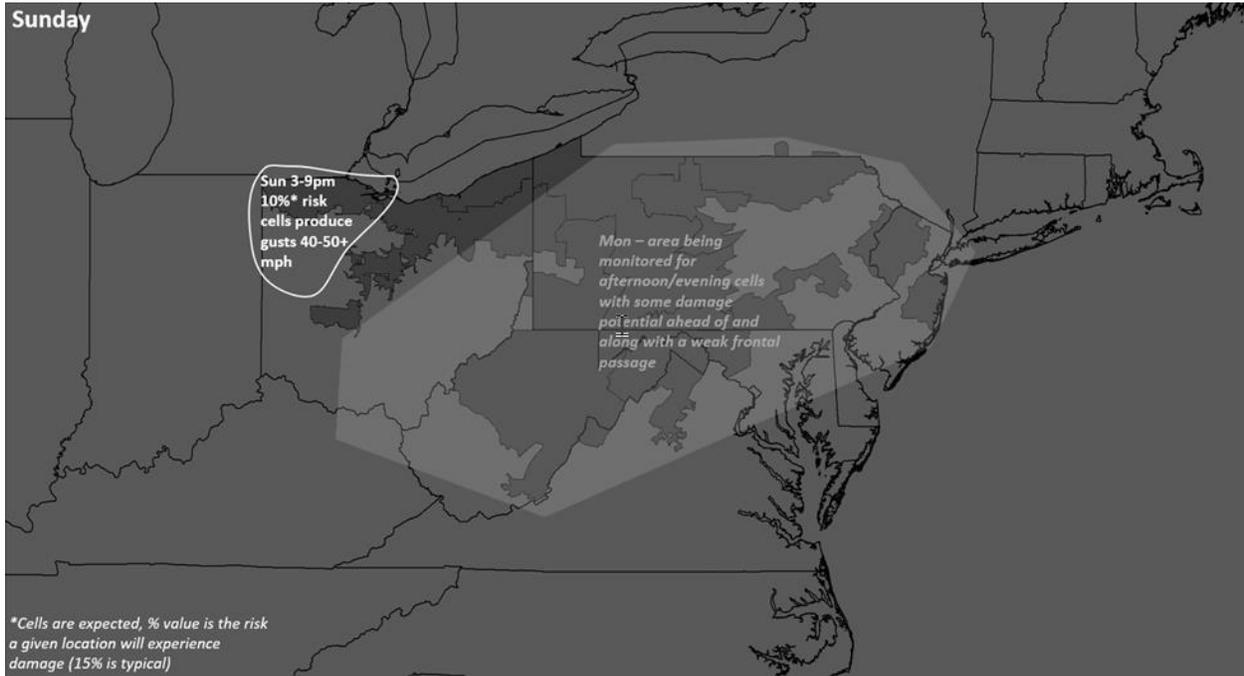

Update:

No appreciable changes relative to yesterday's issuance. This will be the final update for the east FE nuisance activity expected today.

Saturday, July 5, 2025 @ 0807

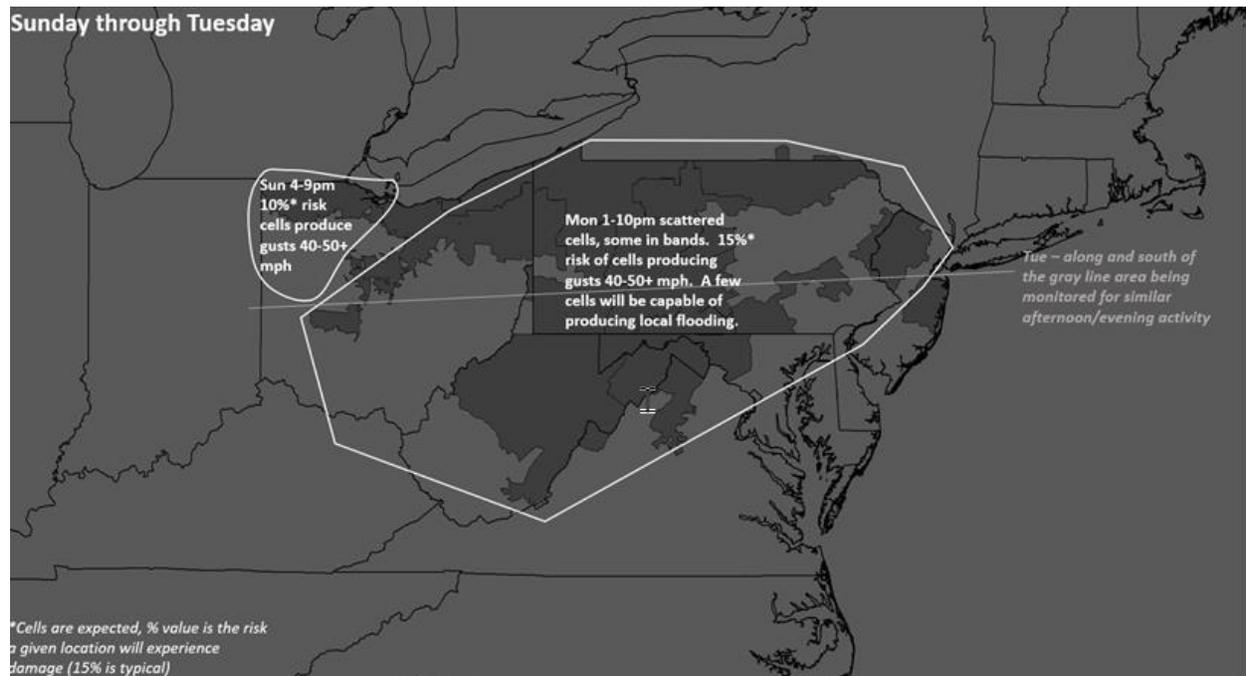

New issuance. Cells expected in northwest OH Sunday afternoon into evening. A similar threat potentially opens for most of the remaining FE Monday.

Sunday, July 6, 2025 @ 0915

Changes.

Added details for Monday and an outlook for Tue. At this time, the remnants of Tropical Storm Chantal are not expected to significantly enhance storm activity or wind speeds in FE East. However, due to the left over ample moisture with the remnants, some afternoon cells in NJ and east PA will be capable of producing localized flooding.

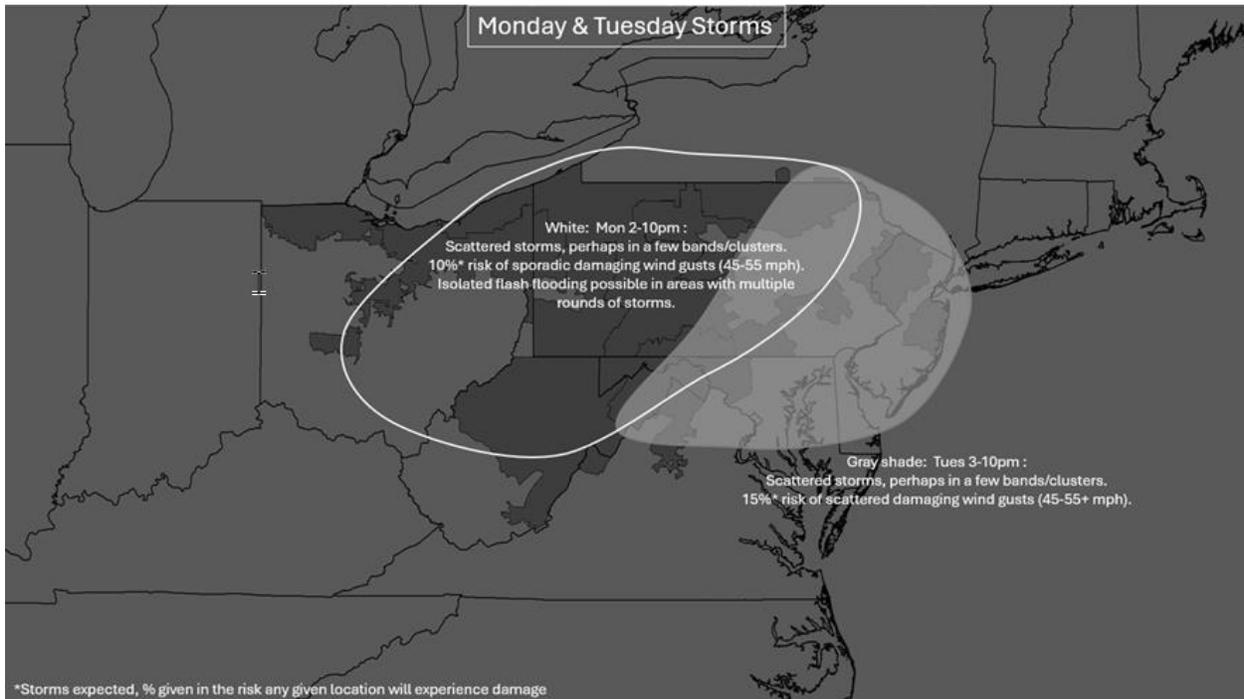

Monday, July 7, 2025 @ 0858

Changes:

Only small changes to Monday's forecast, where scattered storms are possible over a large area of central FE this afternoon.

Added an official risk area for scattered storms/wind damage in eastern FE Tuesday afternoon.

Tuesday, July 8, 2025 @ 0842

Changes:

Slight increase in risk for storms with damaging gusts across eastern FE this afternoon and evening, including the potential for a few significant gusts (60+ mph).
